(ii) Repeated minor violations of the lease that disrupt the livability of the building, adversely affect the health or safety of any person or the right of any tenant to the quiet enjoyment of the leased premises and related facilities; interfere with the management of the building; or have an adverse financial effect on the building or project. Failure of the family to timely submit all required information on family income and composition or eligibility factors (including failure to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, failure to sign and submit consent forms, as provided by 24 CFR part 760, or knowingly provide incomplete or inaccurate information) will constitute a substantial violation of the lease. Nonpayment of rent or any other financial obligation due under the lease (including any portion thereof) beyond any grace period permitted under State law will constitute a substantial violation of the lease. The payment of rent or any other financial obligation due under the lease after the due date but within the grace period permitted under State law will constitute a minor violation.

* * * * *

PART 884—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, NEW CONSTRUCTION SET-ASIDE FOR SECTION 515 RURAL RENTAL HOUSING PROJECTS

39. The authority citation for part 884 would continue to read as follows:

Authority: Secs. 3, 5, 6, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, and 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

40. In § 884.116, paragraphs (a)(3) and (a)(7) would be revised to read as follows:

§ 884.116 Responsibilities of the owner.

(a) * * *

(3) Performance of all management functions, including the taking of applications; selection of families, including verification of income, provision of federal selection preferences in accordance with § 884.226, obtaining and verifying Social Security Numbers submitted by applicants (as provided by 24 CFR part 750), obtaining signed consent forms from applicants (as provided by 24 CFR part 760), and other pertinent requirements; and determination of eligibility and amount of tenant rent in accordance with HUD-established schedules and criteria.

* * * * *

(7) Reexamination of family income and composition; redetermination, as appropriate, of the amount of Tenant Rent and the amount of housing assistance payment in accordance with part 813; obtaining and verifying Social Security Numbers submitted by participants, as provided by 24 CFR part 750; and obtaining signed consent forms from participants, as provided by 24 CFR part 760.

* * * * *

41. Section 884.216 would be revised to read as follows:

§ 884.216 Termination of tenancy.

The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies must be as set forth in § 884.108(c)(1). Failure of the family to sign and submit consent forms, as provided by 24 CFR part 760, shall be grounds for termination of tenancy.

42. Section 884.218 would be revised to read as follows:

§ 884.218 Reexamination of family income and composition.

(a) *Regular reexaminations.* The owner must reexamine the income and composition of all families at least once each year. Upon verification of the information, the owner must make appropriate adjustments in the Total Tenant Payment in accordance with part 813 of this chapter and determine whether the family's unit size is still appropriate. The owner must adjust Tenant Rent and the Housing Assistance Payment to reflect any change in Total Tenant Payment and carry out any unit transfer required by HUD. At the time of the annual reexamination of family income and composition, the owner must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign and submit consent forms, as provided by 24 CFR part 760.

(b) *Interim reexaminations.* The family must comply with provisions of its lease regarding interim reporting of changes in income. If the owner receives information concerning a change in the family's income or other circumstances between regularly scheduled reexaminations, the owner must consult with the family and make any adjustments determined to be appropriate. At the time of the interim reexamination, the owner must require the family to sign and submit consent forms, as provided by 24 CFR part 760. Any change in the family's income or other circumstances that results in an adjustment in the Total Tenant Payment, Tenant Rent and Housing Assistance Payment must be verified. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

(c) *Continuation of housing assistance payments.* A family's eligibility for Housing Assistance Payments continues until the Total Tenant Payment equals the Gross Rent, or until the family loses eligibility for continued occupancy under Farmer's Home Administration regulations. However, eligibility also may be terminated in accordance with HUD requirements, for such reasons as failure to submit requested verification information, including failure to meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750, or failure to sign and submit consent forms, as provided by 24 CFR part 760.

BEST COPY AVAILABLE

PART 885—LOANS FOR HOUSING FOR THE ELDERLY OR HANDICAPPED

43. The authority citation for part 885 would continue to read as follows:

Authority: Sec. 202, Housing Act of 1959 (12 U.S.C. 1701q); sec. 8, United States Housing Act of 1937 (42 U.S.C. 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

44. In § 885.950, paragraphs (a) and (c) would be revised to read as follows:

§ 885.950 Selection and admission of tenants.

(a) *Application for admission.* The Borrower must accept applications for admission to the project in the form prescribed by HUD. Applicant families applying for assisted units (or residential spaces in a group home) must complete a certification of eligibility as part of the application for admission. Applicant families must meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750. Applicant families must sign and submit consent forms, as provided by 24 CFR part 760. Both the Borrower and the applicant family must complete and sign the application for admission. On request, the Borrower must furnish copies of all applications for admission to HUD.

* * * * *

(c) *Reexamination of family income and composition*—(1) *Regular reexaminations.* If the family occupies an assisted unit (or residential space in a group home), the Borrower must reexamine the income and composition of the family at least every 12 months. Upon verification of the information, the Borrower shall make appropriate adjustments in the Total Tenant Payment in accordance with 24 CFR part 813, as modified by § 885.5 and determine whether the family's unit size is still appropriate. The Borrower must adjust Tenant Rent and the Project Assistance Payment and must carry out any unit transfer in accordance with HUD standards. At the time of the annual reexamination of family income and composition, the Borrower must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign and submit consent forms, as provided by 24 CFR part 760.

(2) *Interim reexaminations.* If the family occupies an assisted unit (or residential space in a group home) the family must comply with provisions in the lease regarding interim reporting of changes in income. If the Borrower receives information concerning a change in the family's income or other circumstances between regularly scheduled reexaminations, the Borrower must consult with the family and make any adjustments determined to be appropriate. At the time of the interim reexamination, the Borrower must require the family to sign and submit consent forms, as provided by 24 CFR part 760. Any change in the family's income or other circumstances that results in an adjustment in the Total Tenant Payment, Tenant Rent and Project Assistance Payment must be verified. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

(3) *Continuation of project assistance payment.* (i) A family occupying an assisted unit (or residential space in a group home) shall remain eligible for Project Assistance Payment until the Total Tenant Payment equals or exceeds the Gross Rent (or a pro rata share of the Gross Rent in a group home). The termination of subsidy eligibility will not affect the family's other rights under its lease. Project Assistance Payment may be resumed if, as a result of changes in income, rent or other relevant circumstances during the term of the PAC, the family meets the income eligibility requirements of 24 CFR part 813 (as modified in § 885.5) and project assistance is available for the unit or residential space under the terms of the PAC. The family will not be required to establish its eligibility for admission to the project under the remaining requirements of paragraph (b) of this section.

(ii) A family's eligibility for Project Assistance Payment also may be terminated in accordance with HUD requirements for such reasons as failure to submit requested verification information, including failure to meet the disclosure and verification requirements for Social Security Numbers (as provided by 24 CFR part 750) or failure to sign and submit consent forms (as provided by 24 CFR part 760).

45. In § 885.955, paragraph (a)(2) would be revised to read as follows:

§ 885.955 Obligations of the family.

(a) * * *

(2) Supply such certification, release, information or documentation as the Borrower or HUD determines to be necessary, including information relating to the disclosure and verification of Social Security Numbers, as provided by 24 CFR part 750, and the signing and submission of consent forms, as provided by 24 CFR part 760.

* * * * *

PART 886—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—SPECIAL ALLOCATIONS

46. The authority citation for part 886 would continue to read as follows:

Authority: Sections 3, 5, and 6, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, and 1437f); section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

47. In § 886.119, paragraphs (a)(3) and (7) would be revised to read as follows:

§ 886.119 Responsibilities of owner.

(a) * * *

(3) Performance of all management functions, including the taking of applications; selection of families, verification of income, provision of Federal selection preferences in accordance with § 886.132, obtaining and verifying Social Security Numbers submitted by applicants (as provided by 24 CFR part 750), obtaining signed consent forms from applicants (as provided by 24 CFR part 760), and other pertinent requirements; and determination of eligibility and amount of Tenant Rent in accordance with part 813 of this chapter.

* * * * *

(7) Reexamination of family income and composition, redetermination, as appropriate, of the amount of Tenant Rent and the amount of housing assistance payment in accordance with Part 813; collection of rent; obtaining and verifying participant Social Security Numbers, as provided by 24 CFR part 750; and obtaining signed consent forms from participants, as provided by 24 CFR part 760.

* * * * *

48. Section 886.124 would be revised to read as follows:

§ 886.124 Reexamination of family income and composition.

(a) *Regular reexaminations.* The owner must reexamine the income and composition of all families at least once each year. Upon verification of the information, the owner must make appropriate adjustments in the Total Tenant Payment in accordance with part 813 of this chapter and determine whether the family's unit size is still appropriate. The owner must adjust Tenant Rent and the Housing Assistance Payment to reflect any change in Total Tenant Payment and carry out any unit transfer required by HUD. At the time of the annual reexamination of family income and composition, the owner must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign

and submit consent forms, as provided by 24 CFR part 760.

(b) *Interim reexaminations.* The Family must comply with provisions in its lease regarding interim reporting of changes in income. If the Owner receives information concerning a change in the Family's income or other circumstances between regularly scheduled reexaminations, the Owner must consult with the Family and make any adjustments determined to be appropriate. At the time of the interim reexamination, the Owner must require the Family to sign and submit consent forms, as provided by 24 CFR part 760. Any change in the Family's income or other circumstances that results in an adjustment in the Total Tenant Payment, Tenant Rent and Housing Assistance Payment must be verified. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

(c) *Continuation of housing assistance payments.* A Family's eligibility for housing assistance payments will continue until the Total Tenant Payment equals the Gross Rent. The termination of eligibility will not affect the family's other rights under its lease, nor will such termination preclude the resumption of payments as a result of later changes in income, rents, or other relevant circumstances during the term of the Contract. However, eligibility also may be terminated in accordance with program requirements, for such reasons as failure to submit requested verification information, including failure to meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750, or failure to sign and submit consent forms, as provided by 24 CFR part 760.

49. In § 886.318, paragraphs (a)(3) and (a)(6) would be revised to read as follows:

§ 886.318 Responsibilities of the owner.

(a) * * *

(3) Performance of all management functions, including the taking of applications; selection of families in accordance with the owner's tenant selection factors approved by HUD and the Federal preferences in accordance with § 886.337; obtaining and verifying Social Security Numbers submitted by applicants, as provided by 24 CFR part 750; obtaining signed consent forms from applicants, as provided by 24 CFR part 760; verification of income and other pertinent requirements; and determination of eligibility and amount of tenant rent in accordance with part 813 of this chapter;

* * * * *

(6) Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses; redeterminations, as appropriate, of the amount of Tenant Rent and amount of housing assistance payment in accordance with part 813 of the chapter; obtaining and verifying Social Security Numbers submitted by participants, as provided by 24 CFR part 750; and obtaining signed consent forms from participants, as provided by 24 CFR part 760.

* * * * *

50. Section 886.324 would be revised to read as follows:

§ 886.324 Reexamination of family income and composition.

(a) *Regular reexaminations.* The owner must reexamine the income and composition of all families at least once each year. Upon verification of the information, the owner must make appropriate adjustments in the Total Tenant Payment in accordance with part 813 of this chapter and determine whether the family's unit size is still appropriate. The owner must adjust Tenant Rent and the Housing Assistance Payment to reflect any change in Total Tenant Payment and carry out any unit transfer required by HUD. At the time of the annual reexamination of family income and composition, the owner must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign and submit consent forms, as provided by 24 CFR part 760.

(b) *Interim reexaminations.* The family must comply with provisions in its lease regarding interim reporting of changes in income. If the owner receives information concerning a change in the family's income or other circumstances between regularly scheduled reexaminations, the owner must consult with the family and make any adjustments determined to be appropriate. At the time of the interim reexamination, the owner must require the family to sign and submit consent forms, as provided by 24 CFR part 760. Any change in the family's income or other circumstances that results in an adjustment in the Total Tenant Payment, Tenant Rent and Housing Assistance Payment must be verified. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

(c) *Continuation of housing assistance payments.* A family's eligibility for Housing Assistance Payments will continue until the Total Tenant Payment equals the Gross Rent. The termination of eligibility at such point will not affect the family's other rights under its lease, nor will such termination preclude the resumption of payments as a result of later changes in income, rents, or other relevant circumstances during the term of the contract. However, eligibility also may be terminated in accordance with HUD requirements, for such reasons as failure to submit requested verification information, including failure to meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750, or failure to sign and submit consent forms, as provided by 24 CFR part 760.

PART 887—HOUSING VOUCHERS

51. The authority citation for part 887 would continue to read as follows:

Authority: Secs. 3, 5, 8, U.S. Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

52. In § 887.105, paragraph (b)(1) is revised to read as follows:

§ 887.105 PHA responsibilities.

* * * * *

(b) * * *

(1) Publish and disseminate information concerning the availability and nature of housing assistance for lower income families (see § 887.107); invite owners to make units available for leasing in the program and develop working relationships with real estate associations and other appropriate groups (see § 887.109); explain program procedures to owners, including those who have been approached by housing voucher holders; obtain and verify Social Security Numbers submitted by families, as provided by 24 CFR part 750; obtain signed consent forms from families, as provided by 24 CFR part 760; comply with equal opportunity requirements, including efforts to provide opportunities for recipients to seek housing outside areas of economic and racial concentration.

* * * * *

53. In section 887.355, paragraph (a) would be revised to read as follows:

§ 887.355 Regular reexamination of family income and composition.

(a) The PHA must reexamine family income and family size and composition at least annually, and in accordance with Part 813 of this chapter. At the time of the annual reexamination of family income and composition, the PHA must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign and submit consent forms, as provided by 24 CFR part 760.

* * * * *

54. Section 887.357 would be revised to read as follows:

§ 887.357 Interim reexamination of family income and composition.

A family may request a redetermination of the housing assistance payment at any time, based on a change in the family's income, adjusted income, size or composition. At the time of interim reexamination, the PHA must require the family to sign and submit consent forms, as provided by 24 CFR part 760. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

55. In § 887.401, paragraph (a)(1) would be revised to read as follows:

§ 887.401 Family responsibilities.

(a) * * *

(1) Supply any certificate, release, information, or documentation that the PHA or HUD determines to be necessary in the administration of the program (including the disclosure and verification of Social Security Numbers (as provided by 24 CFR part 750) and the signing and submitting of consent forms (as provided by 24 CFR part 760)), and other information required for use by the PHA in a regularly scheduled reexamination or interim reexamination of family income and composition in accordance with HUD requirements;

* * * * *

56. In § 887.403, new paragraph (d) would be added:

§ 887.403 Grounds for PHA denial or termination of assistance.

* * * * *

(d) *Requirement to sign consent forms.* The PHA must deny eligibility of applicant's admission to participate in the Housing Voucher program, if the applicant, or any member of the applicant's household, does not sign and submit the consent forms, as provided by 24 CFR part 760. With respect to a current participant a PHA may terminate housing voucher assistance payments, refuse to issue another housing voucher for a move to another unit, approve a new lease, or execute a new housing voucher contract, if the participant, or any member of the participant's household, fails to sign and submit consent forms, as provided by 24 CFR part 760.

PART 900—SECTION 23 HOUSING ASSISTANCE PAYMENTS PROGRAM—NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION

57. The authority citation for Part 900 would continue to read as follows:

Authority: Sec. 10(b), United States Housing Act, of 1937 (42 U.S.C. 1410(b)); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

58. In section 900.103, paragraphs (i) and (j) would be revised to read as follows:

§ 900.103 Basic policies.

* * * * *

(i) *Responsibilities of the LHA.* The LHA is responsible for determining family eligibility for assistance in accordance with provisions of 24 CFR parts 912 and 913, and family eligibility and continuing eligibility for assistance in accordance with 24 CFR parts 750 and 760; determining the amount of adjusted income, the amount of rent payable by the family, and housing assistance payments in accordance with 24 CFR part 913; issuing Certificates of Family Participation to eligible families; notifying families determined eligible; approving owner-family leases; making housing assistance payments on behalf of eligible families; reexamining family eligibility at least annually; inspecting units before leasing, and at least annually thereafter, to determine that the units are maintained in decent, safe and sanitary condition (failure to do so shall constitute a Substantial Default by the LHA under the Annual Contributions Contract); authorizing evictions; and complying with equal opportunity requirements. The LHA must provide advice and guidance to eligible families in finding suitable housing, including advice and guidance to families experiencing discrimination, in an affirmative manner to further the policies of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968 and Executive Order 11063.

(j) *Responsibilities of the family.* A family receiving housing assistance under this program is responsible for fulfilling all its obligations under both the lease with the owner and the Certificate of Family Participation issued to it by the LHA: for cooperating with reexamination requirements; for disclosing and verifying Social Security Numbers, as provided by 24 CFR part 750; and for signing and submitting consent forms at the time that the family's eligibility is determined and at the time of any interim or regularly scheduled income reexamination, as provided by 24 CFR part 760.

* * * * *

59. In § 900.202, paragraphs (d)(3) and (f)(2)(iii) would be revised to read as follows:

§ 900.202 Project operation.

* * * * *

(d) * * *

(3) That the request cannot be approved because the family is not eligible (including ineligibility caused by the family's failure to meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750, or failure to sign and submit consent forms, as provided by 24 CFR part 760), or the dwelling unit or the proposed lease does not meet program requirements.

* * * * *

(f) * * *

(2) * * *

(iii) The LHA determines that the family continues to be eligible for such assistance (including continued eligibility under 24 CFR parts 750 and 760).

* * * * *

PART 904—LOW RENT HOUSING HOMEOWNERSHIP OPPORTUNITIES

60. The authority citation for part 904 would continue to read as follows:

Authority: United States Housing Act of 1937 (42 U.S.C. 1437–1437(r); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

61. In section 904.104, paragraph (c) would be revised to read as follows:

§ 904.104 Eligibility and selection of homebuyers.

* * * * *

(c) *Determination of eligibility and preparation of list.* The LHA, without participation of a recommending committee (see paragraph (e)(1) of this section), must determine the eligibility of each applicant family in respect to the income limits for the development (including the requirement that the applicant family disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and sign and submit consent forms, as provided by 24 CFR part 760), and must then assign each eligible applicant its appropriate place on a waiting list for the development, in sequence based upon the date of the application, suitable type or size of unit, qualification for a Federal preference in accordance with § 904.122, and factors affecting preference or priority established by the LHA's regulations. Notwithstanding the fact that the LHA

may not be accepting additional applications because of the length of the waiting list, the LHA may not refuse to place an applicant on the waiting list if

Housing and Urban Development Act (42 U.S.C. 3535(d)).

64. In § 905.302, a new paragraph (b)(2)(vi) would be added, to read as

PART 960—ADMISSION TO, AND OCCUPANCY OF, PUBLIC HOUSING

68. The authority citation for 24 CFR

between regularly scheduled reexaminations, the PHA must consult with the family and make any adjustments determined to be

VOL 54 SS 212 NO 3 1989 UMI

may not be accepting additional applications because of the length of the waiting list, the LHA may not refuse to place an applicant on the waiting list if the applicant is otherwise eligible for participation and claims that he or she qualifies for a Federal preference as provided in § 904.122(c)(2), unless the LHA determines, on the basis of the number of applicants who are already on the waiting list and who claim a Federal preference, and the anticipated number of admissions to housing under Turnkey III, that—

(1) There is an adequate pool of applicants who are likely to qualify for a Federal preference, and

(2) It is unlikely that, on the basis of the LHA's system for applying the Federal preferences, the preference or preferences that the applicant claims, and the preferences claimed by applicants on the waiting list, the applicant would qualify for admission before other applicants on the waiting list.

* * * * *

62. In § 904.107, paragraph (m)(1) would be revised to read as follows:

§ 904.107 Responsibilities of homebuyer.

* * * * *

(m) *Termination by LHA.* (1) If the homebuyer breaches the Homebuyers Ownership Opportunity Agreement by failure to make the required monthly payment within 10 days after its due date, by misrepresentation or withholding of information (including the failure to meet the disclosure and verification requirements for Social Security Numbers, as provided by 24 CFR part 750, or the failure to sign and submit consent forms as provided by 24 CFR part 760) in applying for admission or in connection with any subsequent reexamination of income and family composition, or by failure to comply with any of the other homebuyer obligations under the Agreement, the LHA may terminate the Agreement. No termination under this paragraph may occur less than 30 days after the LHA gives the homebuyer notice of its intent to do so in accordance with paragraph (m)(3) of this section.

* * * * *

PART 905—INDIAN HOUSING

63. The authority citation for 24 CFR Part 905 would continue to read as follows:

Authority: Secs. 201, 202, 203, 205, United States Housing Act of 1937 (42 U.S.C. 1437aa, 1437bb, 1437cc, 1437ee); sec. 7(b), Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(b)); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

64. In § 905.302, a new paragraph (b)(2)(vi) would be added, to read as follows:

§ 905.302 Admission policies.

* * * * *

(b) * * *

(2) * * *

(vi) To achieve compliance with 24 CFR part 760, which requires applicants and participants to sign and submit consent forms at the time eligibility is determined and at later income reexaminations.

65. In § 905.406, a new paragraph (a)(4) would be added to read as follows:

§ 905.406 Selection of MH homebuyers.

(a) * * *

(4) All admissions under this part are subject to the signing and submission of consent form requirements, as provided by 24 CFR part 760.

* * * * *

PART 913—DEFINITION OF INCOME, INCOME LIMITS, RENT AND REEXAMINATION OF FAMILY INCOME FOR THE PUBLIC HOUSING AND INDIAN HOUSING PROGRAMS

66. The authority citation for part 913 would continue to read as follows:

Authority: Secs. 3, 6, 16, 201, 202, 203, 205, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437d, 1437n, 1427aa, 1437bb, 1437cc, 1437ee); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

67. In § 913.109, paragraph (a) would be revised to read as follows:

§ 913.109 Initial determination, verification, and reexamination of family income and composition.

(a) *Responsibility for initial determination and reexamination.* The PHA is responsible for determination of eligibility for admission; for determination of Annual Income, Adjusted Income and Total Tenant Payment, and for reexamination of family income and composition at least annually, as provided in pertinent program regulations and handbooks (24 CFR part 960, Subpart B, and 24 CFR parts 750 and 760). As used in this part, the "effective date" of an examination or reexamination refers to:

(1) In the case of an examination for admission, the effective date of initial occupancy, and

(2) In the case of a reexamination of an existing tenant, the effective date of the redetermined Total Tenant Payment.

* * * * *

PART 960—ADMISSION TO, AND OCCUPANCY OF, PUBLIC HOUSING

68. The authority citation for 24 CFR part 960 would continue to read as follows:

Authority: Secs. 3, 5, 6, 16, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437d, 1437n); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

69. In § 960.204, paragraph (c)(5) would be revised to read as follows:

§ 960.204 PHA tenant selection policies.

* * * * *

(c) * * *

(5) Be in compliance with State, local and Federal laws and regulations, including the nondiscrimination requirements of Title VI of the Civil Rights Act of 1964, the provisions of the ACC, and 24 CFR parts 750 and 760.

* * * * *

70. In § 960.206, paragraph (a) would be revised to read as follows:

§ 960.206 Verification procedures.

(a) *General.* Adequate procedures must be developed to obtain and verify information with respect to each applicant. (See part 913 of this chapter and 24 CFR parts 750 and 760.) Information relative to the acceptance or rejection of an applicant or the grant or denial of a Federal preference under section 960.211, must be documented and placed in the applicant's file.

* * * * *

71. Section 960.209 would be revised to read as follows:

§ 960.209 Reexamination of family income and composition.

(a) *Regular reexaminations.* The PHA must reexamine the income and composition of all tenant families at least once every 12 months and determine whether the family's unit size is still appropriate. After consultation with the family and upon verification of the information, the PHA must make appropriate adjustments in the Total Tenant Payment and Tenant Rent in accordance with part 913 of this chapter. At the time of the annual reexamination of family income and composition, the PHA must require the family to disclose and verify Social Security Numbers, as provided by 24 CFR part 750, and to sign and submit consent forms, as provided by 24 CFR part 760.

(b) *Interim reexaminations.* The Family must comply with provisions in its lease regarding interim reporting of changes in income. If the PHA receives information concerning a change in the family's income or other circumstances

between regularly scheduled reexaminations, the PHA must consult with the family and make any adjustments determined to be appropriate. At the time of the interim reexamination, the PHA must require the family to sign and submit consent forms, as provided by 24 CFR part 760. Any change in the family's income or other circumstances that results in adjustment in the Total Tenant Payment or Tenant Rent must be verified. See 24 CFR 750.10(d)(2)(i) for the requirements for the disclosure and verification of Social Security Numbers at interim reexaminations involving new family members.

RIN 1840-AB18

Student Assistance General Provisions

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary amends § 668.12 of the Student Assistance General Provisions regulations. These amendments help implement the Secretary's initiative to reduce the potential for abuse in the student financial assistance programs authorized under title IV of the Higher Education Act of 1965, as amended (title IV, HEA programs). They require that certain officials of educational institutions seeking to begin participation in a title IV, HEA program for the first time complete appropriate training provided by the Secretary.

EFFECTIVE DATE: These regulations take effect either 45 days after publication in the Federal Register or later if the Congress takes certain adjournments. A document announcing the effective date will be published in the Federal Register. If you want to know the effective date of these regulations, call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: Ms. Sibyl K. Bowie, Division of Policy and Program Development, U.S. Department of Education, 400 Maryland Avenue, SW., (Regional Office Building 3, Room 4318), Washington, DC 20202. Telephone number: (202) 732-4888.

SUPPLEMENTARY INFORMATION: On March 17, 1989, the Secretary published a notice of proposed rulemaking for the regulations governing Institutional Eligibility under the HEA and the Student Assistance General Provisions regulations in the Federal Register (54 FR 11354-11358). These final regulations are being published separately from the final regulations corresponding to other provisions in the NPRM so that they will be effective for the 1989-90 award year. Final regulations corresponding to other provisions contained in the NPRM will be published at a later date.

These final regulations require that in order for an institution to begin participation in a title IV, HEA program, both (1) the institution's chief administrator or, except for a for-profit institution, another administrative official designated by the chief administrator, and (2) the designated individual who will be responsible for administering that title IV, HEA program at that institution must complete title IV. HEA program training offered by the Secretary. This change applies to any institution applying for participation in a title IV, HEA program for the first time. There is only one significant change between the NPRM and these final regulations, based upon public response to the proposed regulations in the NPRM. The regulations have been modified to provide that if either one of the two individuals designated under § 668.12(a)(1)(ii) of the Student Assistance General Provisions has previously completed title IV, HEA program training offered by the Secretary, the institution may elect to request an on-site certification review instead of requiring that individual to complete again the title IV, HEA program training.

Analysis of Comments and Changes

In response to the Secretary's invitation in the NPRM, twenty-one parties submitted comments on the proposed regulations. An analysis of the comments and of the changes in the regulations since publication of the NPRM follows.

Major issues are grouped according to subject.

Support of Training Requirement

Comments: Most commenters supported the Secretary's initiative to reduce the potential for abuse in the student aid programs administered by the Department of Education by requiring certain institutional officials to complete training offered by the Secretary prior to participation in a new title IV, HEA program. However, one commenter stated that the training requirement was time consuming and costly, adding that requiring an institution to complete training each time the institution wishes to begin participation in a program seems inefficient.

Discussion: The Secretary appreciates the positive response from the commenters and believes that the merit of the knowledge to be gained by the training will far outweigh the factors of additional time and financial costs that may be incurred by institutions.

Changes: None.

Clarification of Training Requirement

Comment: One commenter suggested that the training be required only in the case of an institution applying for initial participation in the title IV, HEA programs, but not for an institution that has participated in one title IV, HEA program and is seeking to begin participation in another. Another commenter asked for clarification on whether an institution that is currently eligible to participate in the Pell Grant Program but is seeking to participate in a campus-based program would have to send staff for the training.

Discussion: The Secretary is concerned that many institutional personnel that have not previously participated in a specific title IV, HEA program may lack experience and adequate knowledge concerning the administration of that program. The Secretary believes that the requirement that certain institutional administrators complete training offered by the Secretary will ensure that the institution will have knowledgeable personnel to properly administer the title IV, HEA programs. Further, the Secretary recognizes the similarities that exist among the campus-based programs and believes that the personnel of an institution participating in one campus-based program can acquire the knowledge and proficiency to administer another campus-based program without completing additional training. However, since there are major differences among the Pell Grant Program, the campus-based programs, and the title IV, part B programs [Stafford Loan (formerly Guaranteed Student Loan (GSL)), Supplemental Loans for Students (SLS), and PLUS] an institution participating, for example, only in the Pell Grant Program must satisfy the training requirement in order to begin participation in one of the campus-based programs. If the institution would like to begin participation in the Stafford Loan, SLS, and PLUS programs at a later date, that institution must also satisfy the training requirement for those programs because of the major differences in administration of those programs as compared with the Pell Grant Program.

Changes: Paragraph (a)(2) has been modified to allow institutions participating in one campus-based program to begin participation in another campus-based program without additional training. Another modification to paragraph (a)(2) reflects the fact that an institution that participates in one of the programs authorized under part B of title IV of the HEA is considered to be a participant in all of the programs authorized under part B.

Duplication of Effort

Comments: Two commenters expressed concern that due to the high rate of turnover in the financial aid profession, it is possible that financial aid administrators may be required to be trained under this provision even though they may already have received

that training as employees of other institutions. The commenters suggested that an institution be exempted from the training requirement if the appropriate individuals received such training at a previous institution. Another commenter suggested that persons who have completed the training be certified as having been trained by the Department to administer title IV, HEA program funds.

Discussion: The Secretary enters into a written participation agreement with an institution in order for that institution to participate in a title IV, HEA program. The Secretary does not regulate the activities of individuals, since the Department does not have contractual agreements with individuals. Accordingly, it would be inappropriate for the Secretary to issue regulations governing these individuals. However, to ensure that an institution seeking to participate in a title IV, HEA program for the first time is institutionally capable of administering the title IV, HEA program properly, the final regulations require that the institution send certain personnel to complete training offered by the Department, unless that individual previously completed title IV, HEA program training provided by the Secretary.

Changes: In response to these comments, these final regulations have been modified to provide the institution with an option if either one of the two individuals designated under § 668.12 of the Student Assistance General Provisions has previously received title IV, HEA program training offered by the Secretary. The institution may either satisfy the training requirement or may elect to request an on-site certification review in lieu of the training requirement. If the institution requests the on-site certification review, it may not begin participation in the new title IV, HEA program or programs until the Secretary conducts the review and notifies the institution that it is in compliance with title IV, HEA statutory and regulatory requirements.

Personnel Required To Complete Training

Comments: Although most commenters agreed that training in the proper administration of the title IV, HEA programs is essential, commenters differed with regard to which institutional personnel should be required to complete the training. One commenter questioned why for-profit institutions have been singled out as being required, without exception, to have the chief administrator complete the training offered, stating that this provision appears to constitute discrimination. Another commenter stated that only the individual responsible for administering the title IV, HEA program in which the institution has applied to participate should be required to complete training. Several commenters concurred that the institution's chief administrator as well as the financial aid administrator should receive that training.

Discussion: The majority of institutions that are seeking to participate in the title IV, HEA programs for the first time are for-profit institutions. These institutions frequently do not have the third-party oversight (*e.g.*, State department of education, Board of Trustees) that is found in the nonprofit and public sectors. In addition, the chief administrator of a for-profit institution is often actively involved in the decision-making process concerning the financial management of the institution. Further, for-profit institutions receive a significant percentage of their total revenue from the title IV, HEA programs. Accordingly, a failure to properly administer the title IV, HEA programs, resulting in an institution owing a substantial liability to the Secretary, could jeopardize the solvency of the institution. The Secretary therefore believes that it is imperative that the chief administrator of these institutions, as well as the financial aid administrator, be cognizant of the institution's responsibilities to properly administer the title IV, HEA programs.

Changes: None.

Expansion of Training Requirement

Comments: While two commenters suggested that the training requirement be expanded to include all financial aid officers or all professional employees responsible for matters related to the administration of the title IV, HEA programs at an institution, one of those commenters suggested that the training requirement not be limited to institutions participating in a title IV, HEA program for the first time. Another commenter suggested that the chief fiscal officer of the institution or a designee of the chief fiscal officer also be required to complete the training offered by the Secretary. One commenter suggested that the Secretary require that the individuals responsible for the administration of title IV, HEA programs at an institution be required to demonstrate competency every five years by completing training; and another commenter stated that refresher courses should be required every two years for continued program participation. One commenter suggested that the individuals responsible for administering the title IV, HEA programs at an institution should also be required to agree to complete training offered by any guarantee agency that guarantees loans authorized under part B of title IV of the HEA within the institution's State.

Discussion: Although the Secretary supports training for all institutional personnel, he believes that to require all institutions participating in the title IV, HEA programs to complete training or to require individuals other than the financial aid administrator and chief administrator at the institution to complete training would be overly burdensome. The Secretary does encourage financial aid administrators and other institutional officials to attend training sessions offered by the Department, guarantee agencies, and professional associations. Furthermore, the Secretary does not believe that it is necessary at this time to require refresher courses or updated training for financial aid personnel and chief administrative officers.

Logistics of Training

Comments: Eight commenters expressed concerns regarding the logistics of the training sessions, raising questions regarding the availability, frequency and location of training, and regarding whether the training would be professionally developed.

Discussion: The Secretary plans to offer training several times a year at various locations across the country. Professionals within the Department with expertise in training techniques and policies governing the Title IV, HEA programs are developing the training.

Changes: None.

Timing of Completion of Training Requirement

Comments: One commenter was concerned that compliance with the training requirement might delay an institution's certification for participation in the title IV, HEA programs and therefore prove to be a disservice to needy students. Two commenters suggested that the Department allow institutions to begin participation, but specify the deadline by which the designated individuals from the institution must have completed the training program.

Discussion: Training is one step in the process an institution must complete in order to participate in a title IV, HEA program. An institution may satisfy the training requirement during the period that the application for participation is being processed. However, the Secretary believes that it would be a

disservice to students to allow an institution to begin participation in a title IV, HEA program and subsequently for the Secretary to withdraw the

regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the

(i) The Secretary determines that the institution meets the standards established in this subpart;

disservice to students to allow an institution to begin participation in a title IV, HEA program and subsequently for the Secretary to withdraw the institution's participation agreement because the institution failed to complete the training requirement.

Changes: None.

Mandatory Training

Comment: One commenter asked whether an institution would be denied participation in the programs if the institution's officials did not complete the training offered by the Secretary.

Discussion: An institution will be denied participation in a new title IV, HEA program if it fails to comply with the requirement that certain institutional officials complete the training offered by the Secretary.

Changes: None.

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Paperwork Reduction Act of 1980

These regulations have been examined under the Paperwork Reduction Act of 1980 and have been found to contain no information collection requirements.

Assessment of Educational Impact

In the notice of proposed rulemaking, the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the proposed rules and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 668

Administrative practice and procedure, Colleges and universities, Consumer protection, Education, Grant programs—education, Loan programs—education, Reporting and recordkeeping requirements, Student aid.

Dated: August 1, 1989.

Lauro F. Cavazos,

Secretary of Education.

(Catalog of Federal Domestic Assistance Numbers: 84.007 Supplemental Educational Opportunity Grant Program; 84.032 Guaranteed Student Loan Program; 84.032 PLUS Program; 84.032 Supplemental Loans for Students Program; 84.033 College Work-Study Program; 84.038 Perkins Loan Program; 84.038 Income Contingent Loan Program; 84.063 Pell Grant Program; 84.069 State Student Incentive Grant Program; 84.185 Robert C. Byrd Honors Scholarship Program)

The Secretary amends part 668 of title 34 of the Code of Federal Regulations as follows:

PART 668—STUDENT ASSISTANCE GENERAL PROVISIONS

1. The authority citation for part 668 continues to read as follows:

Authority: 20 U.S.C. 1085, 1088, 1091, 1092, 1094, and 1141, unless otherwise noted.

2. Section 668.12 is amended by revising paragraph (a) to read as follows:

§ 668.12 Institutional participation agreement.

(a)(1) An institution may participate in any title IV, HEA program, other than the SSIG Program, only if—

(i) The Secretary determines that the institution meets the standards established in this subpart;

(ii) Except as provided in paragraph (a)(2) of this section, in the case of an institution seeking to participate for the first time in the Pell Grant Program, or the campus-based programs, or the GSL, SLS, or PLUS programs, the institution requires the following individuals to complete title IV, HEA program training provided by the Secretary:

(A) The individual designated by the institution under § 668.14(a); and

(B)(*1*) In the case of a for-profit institution, the chief administrator of the institution; or

(*2*) In the case of an institution other than a for-profit institution, the chief administrator of the institution, or another administrative official of the institution designated by the chief administrator; and

(iii) The institution enters into a written participation agreement with the Secretary, on a form approved by the Secretary.

(2) If either one of the two individuals who is otherwise required to complete training under paragraph (a)(1)(ii) of this section has previously completed title IV, HEA program training provided by the Secretary, the institution may elect to request an on-site title IV, HEA certification review by the Secretary instead of requiring that individual to complete again the title IV, HEA program training provided by the Secretary. If the institution requests the on-site review, it may not begin participation in the new title IV, HEA program or programs until the Secretary conducts the review and notifies the institution that it is in compliance with title IV, HEA statutory and regulatory requirements.

Part IV

Committee for Purchase From the Blind and Other Severely Handicapped

Procurement List 1990; Notice of Establishment

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1990; Establishment

The Committee for Purchase From the Blind and Other Severely Handicapped was established by Public Law 92-28, June 23, 1971 (85 Stat. 77, 41 U.S.C. 46-48c) (hereinafter the Act) for the purpose of directing the procurement of selected commodities and services by the Federal Government to qualified workshops serving blind and other severely handicapped individuals with the objectives of increasing the employment opportunities for these individuals. The Committee is required to establish and publish in the **Federal Register** a procurement list of:

(1) Commodities produced by any qualified nonprofit agency for the blind or by any qualified nonprofit agency for other severely handicapped, and

(2) The services provided by any such agency

which the Committee determines are suitable for procurement by the Government pursuant to the Act.

The Act further provides that any entity of the Government which intends to procure any commodity or service on the procurement list, shall procure such commodity or service, at the price established by the Committee, from a qualified nonprofit agency for the blind or such agency for the other severely handicapped if the commodity or service is available within the normal period required by that Government entity. However, this requirement shall not apply to the procurement of any commodity which is available from Federal Prison Industries, Inc.

A Government entity is defined as any entity of the legislative branch or judicial branch, any executive agency or military department (as such agency and department are respectively defined by sections 102 and 105 of title 5, United States Code), the U.S. Postal Service, and any nonappropriated fund instrumentality under the jurisdiction of the Armed Forces.

Notice is hereby given pursuant to section 2 of the Act that Procurement List 1990 is established as set forth below. Procurement List 1990 supersedes Procurement List 1989, November 15, 1988 (53 FR 46018) and subsequent changes thereto through October 31, 1989.

Any proposed additions or deletions to Procurement List 1989 pending on this date shall be considered as pending and applicable to Procurement List 1990.

By the Committee.

Jeffrey R. Kurtz,

Management Analyst.

Military Resale Commodities

Procedures for ordering military resale commodities are contained in Section 51-5.6, Code of Federal Regulations, Title 41.

Item No. and Item name:

020 Mouse pad, computer
040 Pen, twist action, black ink (IB)
041 Pen, twist action, blue ink (IB)
060 Roller ball pen, red (IB)
061 Roller ball pen, blue (IB)
062 Roller ball pen, black (IB)
063 Retractable pen, black (IB)
064 Retractable pen, blue (IB)
065 Ultra fine tip marker, red (IB)
066 Ultra fine tip marker, blue (IB)
067 Ultra fine tip marker, black (IB)
068 Pencil, mechanical, 0.5 mm lead (IB)
204 Cleaner, tobacco, pipe (SH)
500 Room air freshener (IB)
501 Deodorizer, toilet bowl (IB)
503 Bowl deodorizer (IB)
504 Bowl deodorizer (IB)
506 Air deodorizer, push-up type, floral spring (IB)
507 Air deodorizer, push-up type, lemon (IB)
510 Cleaner, all purpose (IB)
519 Fabric softener sheets, reusable, 8¾ x 4" (60 count) (IB)
520 Fabric softener sheets, reusable, 8¾ x 4" (40 count) (IB)
521 Candle, air freshening, fruit (IB)
522 Candle, air freshening, holiday (IB)
523 Candle, air freshening, floral (IB)
524 Candle, air freshening, berry (IB)
525 Candle, air freshening, forest (IB)
526 Candle, air freshening, carnival (IB)
527 Candle, air freshening, festival (IB)
528 Candle, air freshening, herbal (IB)
529 Candle, air freshening, assorted scents with holders (IB)
541 Scrubber, bathroom, with handle (IB)
542 Scrubber, kitchen, with handle (IB)
543 Scrubber, grill & garage, with handle (IB)
544 Scrubber, nylon net over polyurethane pad (IB)
554 Scrubber, nylon, rectangular (IB)
555 Scrubber, kitchen, 4⅝ x 3⅛ x 1⅝" (IB)
556 Scrubber, Cookware, 4⅝ x 3⅛ x 1⅝" (IB)
557 Scrubber, general household, 6⅜ x 3⅛ x 1" (IB)
559 Scrubber, bathroom
563 Scrubber, plastic, for teflon (IB)
564 Scrubber, stainless steel (IB)
568 Board, ironing, table top (IB)
570 Clothespins, plastic (IB)
574 Clothesline, plastic, rayon reinforced, 100-ft. (IB)
575 Sponge, cellulose, 5½ x 3⅝ x 1⅜" (IB)
576 Sponge, cellulose, 7⅜ x 4 x 1¾" (IB)
577 Sponge, cellulose, 5½ x 3⅝ x 1" (IB)
578 Sponge, cellulose, 5½ x 3⅝ x ⅝" (IB)
581 Flatware, assorted, PG of 24 (IB)
583 Flatware, forks, PG of 24 (IB)
584 Flatware, spoons, PG of 24 (IB)
593 Sponge, bath, circular (IB)
594 Swatter, fly, plastic (IB)

596 Cutlery set, plastic, heavy duty (8 ea knives, forks, spoons) (IB)
597 Knives, plastic, heavy duty (IB)
598 Forks, plastic, heavy duty (IB)
599 Spoons, plastic, heavy duty (IB)
620 Vest, safety, joggers, small (IB)
621 Vest, safety, joggers, medium (IB)
622 Vest, safety, joggers, large (IB)
650 Dryer, sweater (IB)
721 Paint roller cover, economy, 9" (IB)
723 Paint roller cover, all purpose, 9" (IB)
727 Paint roller cover, high pile, 9" (IB)
730 Paint roller cover, for rough surfaces, 9" (IB)
750 Desk, lap
754 Pillow, Standard, 20" x 26" (IB)
755 Pillow, Queen, 20" x 30" (IB)
756 Pillow, King, 20" x 36" (IB)
820 Opener, can and bottle (IB)
824 Slicer, cheese (IB)
826 Peeler, vegetable (IB)
828 Cutter, pizza (IB)
832 Spatula, plate and bowl (IB)
834 Spoon, basting, plastic
835 Spoon, slotted, plastic
836 Fork, Plastic
837 Turner, small, plastic
838 Turner, large, plastic
839 Server, spaghetti, plastic
840 Scoop, ice cream, plastic
845 Bag clip, plastic
850 Bib, baby, cotton (IB)
860 Hooks, laundry, plastic (IB)
862 Brush, lint, plastic (IB)
901 Broom, mixed fiber (IB)
902 Broom, push, indoor/outdoor, 54" handle (IB)
903 Broom, parlor, corn, medium weight (IB)
904 Broom, corn, plastic cap (IB)
905 Broom, plastic filament, flagged ends (IB)
906 Broom, push, 18", indoor/outdoor (IB)
907 Broom, plastic filament, angle cut (IB)
908 Broom, plastic filament, angle tilt (IB)
909 Broom, whisk, corn (IB)
912 Brush, lint, plastic filament (IB)
914 Brush, barbecue, with scraper (IB)

Comprehensive Homeless Assistance Plan

AGENCY: Office of the Secretary, HUD.

ACTION: Final rule.

SUMMARY: This final rule codifies the requirements for the Comprehensive Homeless Assistance Plan, as authorized by subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act (the McKinney Act). The rule applies to Plan submissions made after its effective date.

The Plan requirements govern the provision of assistance for each of title IV's homeless assistance authorities that are administered by HUD. These are the Emergency Shelter Grants (ESG) program, the Supportive Housing Demonstration program (both the Transitional Housing and the Permanent Housing for the Handicapped Homeless programs), the Supplemental Assistance for Facilities to Assist the Homeless (SAFAH) program, and the section 8 Housing Assistance Payments program for the Moderate Rehabilitation of Single Room Occupancy (SRO) Units for the Homeless. Under subtitle A of the McKinney Act, HUD may not make assistance available under any of these authorities to, or within the jurisdiction of, States or certain larger metropolitan cities or urban counties (ESG formula cities or counties), unless the jurisdiction has a HUD-approved Plan. In addition, applications for assistance under these programs must include certifications from the relevant State or ESG formula cities or counties that the proposed activities are consistent with the Plan.

The Plan provisions also apply to States receiving assistance under the Department of Labor's Job Training for the Homeless authority under subtitle C of title VII of the McKinney Act. These States are required to describe how they will coordinate job training projects with other services for the homeless assisted under the Act.

EFFECTIVE DATE: Under section 7(o)(3) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)), this final rule cannot become effective until after the first period of 30 calendar days of continuous session of Congress that occurs after the date on which the rule is published. HUD will publish a Notice announcing the effective date of this rule after the completion of the session-day waiting period. Whether or not the statutory waiting period has expired, the rule will not become effective until HUD's separate Notice announcing the effective date is published.

FOR FURTHER INFORMATION CONTACT: For provisions administered by HUD under title IV of the Stewart B. McKinney Homeless Assistance Act: James N. Forsberg, Coordinator; Special-Needs Assistance Programs; Department of Housing and Urban Development; Room 7228; 451 Seventh Street SW.; Washington, DC 20410; telephone (202) 755-6300.

Hearing or speech impaired individuals may call HUD's TDD number: (202) 755-5965.

None of the telephone numbers listed above are toll-free.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act Statement

The collection of information requirements contained in this final rule have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980. The requirements have been assigned OMB control number 2506-0093, expiration date January 31, 1992. Public reporting burden for the collection of information requirements contained in this final rule include the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Information on the estimated public reporting burden is provided under the Preamble heading, "Information of collection requirements." Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Housing and Urban Development; Rules Docket Clerk; 451 Seventh Street SW; Room 10276; Washington, DC 20410; and to the Office of Regulatory Affairs; Office of Management and Budget; Washington, DC 20503.

Background

Subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act (the McKinney Act) (42 U.S.C. 11361) establishes requirements for the Comprehensive Homeless Assistance Plan (the Plan). The Plan requirements govern the provision of assistance under the four homeless assistance authorities administered by HUD under title IV of the McKinney Act. These are:

(1) The Emergency Shelter Grants (ESG) program under subtitle B of title IV of the Act (42 U.S.C. 11371 *et seq.*) (24 CFR part 576);

(2) The Supportive Housing Demonstration program under subtitle C of title IV of the Act (42 U.S.C. 11381 *et seq.*) (24 CFR part 577 (Transitional Housing) and part 578 (Permanent Housing for Handicapped Homeless Persons));

(3) The Supplemental Assistance for Facilities to Assist the Homeless (SAFAH) program under subtitle D of title IV of the Act (42 U.S.C. 11391 *et seq.*); and

(4) The Section 8 Housing Assistance Payments program for the Moderate Rehabilitation of Single Room Occupancy (SRO) Units for the Homeless under section 441 of the Act (42 U.S.C. 11401).

Under subtitle A of the McKinney Act, HUD may not make assistance available under any of these authorities to, or within the jurisdiction of, States or certain larger metropolitan cities or urban counties (ESG formula cities or counties), unless the jurisdiction has a HUD-approved Plan. In addition, applications for assistance under these programs must include a certification from the State or ESG formula city or county that the proposed activities are consistent with the Plan.

Subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988) (the 1988 Amendments) made a number of changes to the Plan requirements originally enacted in the McKinney Act. These changes provide for:

(1) Annual submission of the Plan;

(2) Sharing of information copies of the Plan among States and ESG formula cities and counties;

(3) Consideration of available facilities to assist the homeless in preparing the Plan;

(4) Identification of a contact point for information on the contents of the jurisdiction's Plan;

(5) An assurance in the Plan that the State or ESG formula city or county will carry out a policy to ensure that facilities assisted under the Act are free from the illegal use, possession, or distribution of drugs and alcohol;

(6) A substantive response by the State or ESG formula city or county to timely HUD recommendations on the annual Plan performance report; and

(7) Information from Federal agencies to help coordinate State homeless efforts.

Section 485 of the 1988 Amendments required the Department to publish a Notice in the Federal Register by January 9, 1989 to implement the revisions made to the Plan by the 1988 Amendments. The provisions of the Notice would govern the Plan's requirements until publication of a final rule based on the Notice—required by section 485 to be published no later than November 7, 1989.

On December 28, 1988, the Department published the required Notice in the Federal Register (53 FR 52800). The Notice stated that it had two purposes: to announce the Plan requirements, as amended by the 1988 Amendments; and to request public comments on the requirements. This final rule completes the Department's implementation of section 485 of the 1988 Amendments, and codifies the Plan's requirements.

Readers should be aware that the Department is reviewing the Plan requirements contained in this final rule, and intends to undertake notice and comment rule making in the near future to revise the Plan requirements in this final rule. The proposed rule will address a number of areas, including the content, timing, and review/approval of the Plan and the annual performance report.

Job Training for the Homeless

For the job training for the homeless provisions administered by the Department of Labor (Title VII, subtitle C of the Stewart B. McKinney Homeless Assistance Act) the public is advised to contact: John D. Heinberg, Office of Strategic Planning and Policy Development; Employment and Training Administration; Room N-5629; Frances Perkins Building; 200 Constitution Avenue; Washington, DC 20210; telephone (202) 535-0682.

Discussion of Public Comments

The Department received two public comments on the December 28, 1988 Notice: One from a State Department of Social Services, the other from a handicapped advocacy group. A summary of the comments follows, along with the Department's disposition of them.

The State Department of Social Services suggested that the performance report required by section 401(d)(2) of the McKinney Act be included in the annual CHAP submission, instead of being a separate submission. Under the December 28, 1988 Notice, HUD must receive all CHAP submissions for the upcoming year by Octobr 1. Performance reports are due by May 31 of each year, and must cover the one-year period ending on April 30 of the year in question. The commenter stated that this change would significantly reduce the administrative burden on CHAP jurisdictions.

As noted above, the Department intends to issue a proposed rule revising the Plan requirements, including the content and timing of the annual performance report, its review by the Department, and its relationship to the Plan. The commenter's concerns will be addressed in the proposed rule.

The same commenter urged that each CHAP submission after the initial approved CHAP include only information relevant to the period ending with the last CHAP submission. Under the December 28, 1988 Notice, annual CHAP submissions must include a complete CHAP that addresses each of the required elements. Submissions in the nature of amendments to existing CHAPS are permitted only after approval of the entire CHAP. The commenter argued that moving to an "amendment" approach after the initial CHAP approval would clearly delineate the most current information and activities, and would ease the time required to prepare, review, and approve CHAP submissions.

The Department does not believe that the McKinney Act authorizes the "amendment" approach suggested by the commenter. Section 401(a)(1) of the McKinney Act requires the annual submission of a "comprehensive homeless assistance plan." Section 401(b) specifies that each Plan must contain all the required elements. Section 401(c)(2) of the McKinney Act refers to Plan "amendments," but only if the Department has disapproved a Plan submission. The Department believes that these provisions make clear that the Plan submission requirement can only be met if the Plan addresses each of the required elements.

In addition, the Plan is designed to reflect a comprehensive approach to the jurisdiction's homelessness problem, by setting forth its homeless needs and resources, and a strategy for addressing its unmet needs. The "amendment" process suggested by the commenter would tend to fragment the Plan's elements, thereby undercutting the Plan's comprehensive nature. Finally, section 401(a)(2) of the McKinney Act requires Plan jurisdictions to share their Plans with other Plan jurisdictions. The "amendment" approach would make it difficult for the receiving jurisdictions to integrate the "amendments" into a complete Plan. This would tend to frustrate the statute's very purpose in requiring the sharing of Plans.

The commenter also requested HUD guidance as to the level of detail necessary to comply with the statutory requirement that the CHAP contain a brief inventory of facilities and services that assist the homeless population within the jurisdiction. The commenter argued that given the large number of shelter and service providers in its State, HUD's policy of requiring an "itemized listing" of the services and facilities places an unnecessary administrative burden on the State. It also noted that because of the changing population of providers, an "itemized listing" at best affords a snapshot of the provider universe at only one time, and urged that the inventory provided not be treated as the total universe of entities eligible to receive McKinney Act funds. The Department intends to address in the proposed rule referred to earlier, the level of detail that the required inventory of homeless facilities and services will have to provide.

Finally, the commenter requested clarification on two points. First, section 401(b)(8) of the McKinney Act requires that each recipient and project sponsor administer, in good faith, a policy designed to ensure that assisted homeless facilities are free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries. The commenter expressed support for this requirement, but asked HUD to make clear that it does not preclude serving or sheltering individuals and family members who demonstrate an alcohol or substance abuse problem. The commenter stated that these individuals are in critical need of intensive, specialized services in order to be stabilized. Unless shelters are allowed to accept these persons into their facilities, the commenter contended that the most logical point of crisis intervention would be lost.

The Department agrees with the commenter. The mere demonstration of a drug or alcohol problem does not, in and of itself, preclude the person from participating in the McKinney Act programs administered by the Department.

Second, the commenter asked clarification of section 103(c) of the McKinney Act. This provision excludes from the terms "homeless" or "homeless individual"

an individual imprisoned or otherwise detained pursuant to an Act of Congress or a State law.

The commenter asked the Department to make clear that this exclusion does not apply to former prison inmates who are

BEST COPY AVAILABLE

otherwise "homeless persons" under section 103.

Again, the Department agrees with the commenter. Former prison inmates who otherwise meet the definition of a

IV of the McKinney Act is subject to section 504 of the Rehabilitation Act of 1973 and the implementing regulations at 24 CFR part 8. Part 8 contains the

Docket Clerk; Office of the General Counsel; Department of Housing and Urban Development; Room 10270, 451 Seventh Street, SW.; Washington, DC 20410

Description of information collection	Section of final rule affected	Number of respondents	Number of responses per	Total annual reponses	Hours per response	Total hours

otherwise "homeless persons" under section 103.

Again, the Department agrees with the commenter. Former prison inmates who otherwise meet the definition of a "homeless person" are eligible to participate in the McKinney Act programs administered by the Department.

The handicapped advocacy organization made two recommendations. The first concerned section 401(b)(3)(B) of the McKinney Act. This provision requires CHAPs to contain a strategy to recognize the special needs of the various types of homeless individuals, particularly families with children, the elderly, the mentally ill, and veterans. The commenter suggested that because of their special needs, severely mobility-impaired individuals be added to the provision's preferred categories.

Section 401(b)(3)(B) of the McKinney Act requires Plan jurisdictions to formulate a strategy that recognizes "the special needs of the various types of homeless individuals," and lists several areas of special need to be accorded particular recognition. The Department shares the commenter's belief that Plan jurisdictions should consider and, as appropriate, include the special needs of the severely mobility impaired in their homeless strategies, and strongly encourages them to do so. However, given the fact that the statute does not require that the severely mobility impaired be provided special recognition, the Department is reluctant to alter the congressionally mandated system of priority areas by imposing such a requirement on Plan jurisdictions in the final rule.

Second, the commenter expressed concern over the pace of existing efforts to ensure the accessibility of emergency shelters for the homeless. As a way of focusing additional attention on this need, the commenter suggested that the CHAP contain an assessment of the accessibility problems in the facilities covered by the CHAP, and set forth a transition plan to make all assisted facilities barrier-free.

It should be noted that each of the homeless authorities contained in Title IV of the McKinney Act is subject to section 504 of the Rehabilitation Act of 1973 and the implementing regulations at 24 CFR part 8. Part 8 contains the rules governing the steps to be taken to ensure that facilities funded under Title IV are accessible to the handicapped. The Department believes that part 8 sets forth a reasoned approach to the accessibility of federally assisted structures, and that accessibility issues for facilities funded under Title IV should be governed solely by part 8. Accessibility questions for facilities beyond the reach of part 8 are best addressed by the jurisdiction involved.

In addition, each of the authorities contained in title IV of the McKinney Act is subject to provisions of the Fair Housing Act, as amended, 42 U.S.C. 3601–19, and the implementing regulations published on January 23, 1989 at 54 FR 3283 (to be codified at 24 CFR part 100). For the benefit of handicapped persons, these provisions include reasonable modification and accommodation requirements for existing premises and design and construction requirements for accessibility in certain new dwellings.

Other Matters

The final rule sets the following Plan submission dates:

—July 15 of each year, beginning with July 15, 1990, for ESG formula cities and counties; and

—August 30 of each year, beginning with August 30, 1990, for States. This reflects the changed Plan submission dates announced in a Notice in the **Federal Register** (54 FR 35430, published August 25, 1989).

Findings and Certifications

Environmental Requirements

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk; Office of the General Counsel; Department of Housing and Urban Development; Room 10276, 451 Seventh Street, SW.; Washington, DC 20410.

Regulatory Impact

This rule does not constitute a major rule as that term is defined in Section 1(b) of Executive Order 12291, Federal Regulation. Analysis of the rule indicates that it does not (1) have an annual impact on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions; or (3) have a significant adverse impact on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete in domestic or export markets.

Regulatory Flexibility Act

Under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601), HUD certifies that this rule does not have a significant economic impact on a substantial number of small entities. The rule's requirements do not impose significant burdens on any covered jurisdiction, and in any event, the rule is based almost exclusively on statutory requirements.

Semiannual Agenda of Regulations

This rule was listed as item number 902 in the Department's Semiannual Agenda of Regulations published on April 24, 1989 (54 FR 16708, 16709) under Executive Order 12291 and the Regulatory Flexibility Act.

Information Collection Requirements

The collection of information requirements contained in this rule have been submitted to OMB for review under section 3504(h) of the Paperwork Reduction Act of 1980, and have been assigned OMB control number 2506–0093. The following provisions of the rule have been determined by the Department to contain collection of information requirements. Information on these requirements is provided as follows:

TABULATION OF ANNUAL REPORTING BURDEN; FINAL RULE—COMPREHENSIVE HOMELESS ASSISTANCE PLAN

Total burden hours						18,375.00

Federalism and Family Impacts

The General Counsel, as the designated official for Executive Orders 12612, Federalism, and 12606, The Family, has determined that the provisions of this rule do not raise significant issues under either Order. For the justification for this finding, see the December 28, 1988 Notice at 53 FR 52807.

Catalog of Federal Domestic Assistance Programs

The Catalog of Federal Domestic Assistance Programs numbers are 14.178 and 14.231.

List of Subjects in 24 CFR Part 90

Grant programs: Housing and Community Development, Emergency shelter grants, Reporting and recordkeeping requirements.

Accordingly, title 24, Code of Federal Regulations, is amended by adding a new part 90, to read as follows:

PART 90—COMPREHENSIVE HOMELESS ASSISTANCE PLANS

Subpart A—General

Sec.
90.1 Scope and applicability.
90.3 Definitions.
90.5 Waivers.

Subpart B—Prohibition of Assistance

90.10 Plan approval as a condition of assistance.

Subpart C—Content of the Plan

90.20 Required elements of the Plan.

Subpart D—Submission, Review, and Approval of the Plan

90.30 Plan submission.
90.32 Plan review and approval.
90.34 Plan amendment and resubmission.

Subpart E—Performance Under the Plan

90.40 Plan performance.
90.42 Coordination.

Subpart F—Relationship Between the Plan and Applications for Homeless Assistance

90.50 Relationship between the Plan and applications for assistance.

Authority: Sec. 485, Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 11301 *note*); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Subpart A—General

§ 90.1 Scope and applicability.

(a) This part establishes the requirements for the Comprehensive Homeless Assistance Plan, as authorized by subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11361).

(b)(1) The requirements of this part govern the provision of assistance for each of the homeless assistance authorities administered by the Department under title IV of the Act. These authorities are—

(i) The Emergency Shelter Grants (ESG) program under subpart B of title IV of the Act,

(ii) The Supportive Housing Demonstration program under subpart C of title IV of the Act (Transitional Housing and Permanent Housing for Handicapped Homeless Persons),

(iii) The Supplemental Assistance for Facilities to Assist the Homeless (SAFAH) program under subpart D of title IV of the Act, and

(iv) The Section 8 Housing Assistance Payments program for the Moderate Rehabilitation of Single Room Occupancy (SRO) Units for the Homeless under section 441 of the Act.

HUD may not make assistance available under any of these programs to, or within the jurisdiction of, States or certain larger metropolitan cities or urban counties (ESG formula cities and counties), unless the jurisdiction has a HUD-approved CHAP. In addition, HUD may not approve an application for assistance under the authorities of title IV of the Act, unless the public official responsible for submitting the CHAP for the jurisdiction in which the proposed activities are to be located certifies that the activities are consistent with the Plan.

(2) The provisions of this part also apply to States receiving assistance under the Job Training for the Homeless authority administered by the Secretary of Labor pursuant to subtitle C of title VII of the Act. Participating States must describe how they will coordinate job training projects with other services for the homeless under the Act.

§ 90.3 Definitions.

For purposes of this part:

Act means the Stewart B. McKinney Homeless Assistance Act.

Authorities of Title IV of the Act means:

(a) The Emergency Shelter Grants (ESG) program under subtitle B of title IV of the Act (42 U.S.C. 11371 *et seq.*) (24 CFR part 576);

(b) The Supportive Housing Demonstration program under subtitle C of title IV of the Act (42 U.S.C. 11381 *et seq.*) (24 CFR part 577 (Transitional Housing) and part 578 (Permanent Housing for Handicapped Homeless Persons));

(c) The Supplemental Assistance for Facilities to Assist the Homeless (SAFAH) program under subtitle D of title IV of the Act (42 U.S.C. 11391 *et seq.*); and

(d) The Section 8 Housing Assistance Payments program for the Moderate Rehabilitation of Single Room Occupancy (SRO) Units for the Homeless under section 441 of the Act (42 U.S.C. 11401).

CHAP or *Plan* means the Comprehensive Homeless Assistance Plan authorized by subtitle A of title IV of the Act (42 U.S.C. 11361).

CHAP jurisdiction. A State or an ESG formula city or county.

ESG. Emergency Shelter Grants (ESG).

ESG formula city or county means a metropolitan city or an urban county that is eligible to receive a formula allocation of emergency shelter grants under 24 CFR 576.43.

Homeless or *homeless individual* includes—

(a) An individual who lacks a fixed, regular, and adequate nighttime residence; and

(b) An individual who has a primary nighttime residence that is—

(1) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate

shelters, and transitional housing for the mentally ill);

(2) An institution that provides a temporary residence for individuals intended to be institutionalized; or

(3) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

The terms do not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a State law.

HUD or *Department* means the United States Department of Housing and Urban Development.

Indian tribe means any Indian tribe, band, group, and nation, including Alaska Indians, Aleuts, and Eskimos, and any Alaskan Native Village, of the United States, which is considered an eligible recipient under the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638) or under chapter 67 of title 31, United States Code.

State means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, Palau, Trust Territory of the Pacific, and any other territory or possession of the United States. For purposes of the Job Training for the Homeless authority administered by the Secretary of Labor under subtitle C of title VII of the Act (42 U.S.C. 11441 *et seq.*), *State* means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

§ 90.5 Waivers.

The Secretary of HUD may waive any requirement of this part that is not required by law, whenever it is determined that undue hardship will result from applying the requirement, or where application of the requirement would adversely affect the purposes of this part.

Subpart B—Prohibition of Assistance

§ 90.10 Plan approval as a condition of assistance.

(a) *In general.* Except as provided by paragraph (c) of this section, HUD may not make assistance available under any of the authorities of title IV of the Act:

(1) To a State or to an ESG formula city or county, or

(2) Within the jurisdiction of a State or of an ESG formula city or county, unless—

(i) The jurisdiction annually submits and receives HUD approval of a CHAP, in accordance with §§ 90.30 and 90.32; and

(ii) At the time of submission of the CHAP to HUD for approval—

(A) A State submits an information copy of the CHAP to each ESG formula city and county located in the State; or

(B) An ESG formula city or county submits an information copy of the CHAP to the State in which it is located.

(b) *Area covered by State CHAP.* The CHAP for States must cover the entire geographic area of the State, including areas within the jurisdiction of ESG formula cities and counties.

(c) *Special rules for certain nonprofit organizations.* HUD may provide assistance under 24 CFR part 577 (Transitional Housing) or the Supplemental Assistance for Facilities to Assist the Homeless program to a private nonprofit organization that proposes to locate a project in an ESG formula city or county that does not have a CHAP approved under this part, as long as the State in which the project is to be located has an approved CHAP.

(d) *Indian tribes.* The requirements of paragraph (a) of this section do not apply to an Indian tribe seeking assistance under 24 CFR part 577 (Transitional Housing) or the Supplemental Assistance for Facilities to Assist the Homeless program for a project to be located within its reservation. These requirements, and the certification of consistency with the CHAP contained in § 90.50(a), apply to an Indian tribe seeking such assistance for a project to be located outside its reservation.

(e) **Federal Register** Notice of CHAP jurisdictions. The Department will provide and update lists of CHAP jurisdictions by Notice in the **Federal Register** at such times as the Department deems appropriate.

(Approved by the Office of Management and Budget under control number 2506-0093.)

Subpart C—Content of the Plan

§ 90.20 Required elements of the Plan.

The CHAP must include the following elements:

(a) *Need for assistance.* A statement describing the need, or lack thereof, in the CHAP jurisdiction for assistance provided under each of the authorities of title IV of the Act.

(b) *Inventory of facilities and services.* A brief inventory of facilities and services that assist the homeless population in the CHAP jurisdiction.

(c) *Needs/resources strategy.* A strategy:

(1) To match the needs of the homeless population with available facilities and services in the CHAP jurisdiction; and

(2) To recognize the special needs of various types of homeless individuals, particularly families with children, the elderly, the mentally ill, and veterans.

(d) *Relation between assistance under the Act and other available resources.* An explanation of how assistance under each of the authorities of title IV of the Act will complement and enhance the available facilities and services.

(e) *Contact point.* An identification of the appropriate person or agency in the CHAP jurisdiction to contact for information on the contents of the CHAP, including the address and telephone number of the person or agency.

(f) *Information copies.* A certification from the CHAP jurisdiction that it has submitted the information copies of its CHAP in accordance with § 90.10(a)(2).

(g) *Assurance of drug- and alcohol-free facilities.* (1) *Assistance to CHAP jurisdictions.* In the case of assistance under any of the authorities of Title IV of the Act that is made available to a CHAP jurisdiction, an assurance that the CHAP jurisdiction will administer, in good faith and for the period for which the facility must be used as a homeless facility under the applicable program regulations, a policy for drug- and alcohol-free facilities, irrespective of whether the facilities are operated by the CHAP jurisdiction or another entity.

(2) *Assistance to other jurisdictions.* In the case of assistance under any of the authorities of title IV of the Act that is made available to an entity that is not a CHAP jurisdiction, an assurance that the CHAP jurisdiction will take such steps as may be necessary to ensure that the grantee or recipient will administer, in good faith and for the period for which the facility must be used as a homeless facility under the applicable program regulations, a policy for drug- and alcohol-free facilities. The steps must include, at a minimum, an assurance that the CHAP jurisdiction will satisfy itself that the grantee or recipient will adhere to the policy for drug- and alcohol-free facilities as a condition of providing the certification of consistency with CHAP, as provided by in § 90.50(a).

(3) *Definition.* For purposes of this paragraph (g), a "policy for drug- and alcohol-free facilities" is one that is designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries.

(h) *Coordination.* If a State designates an agency or person to coordinate homeless assistance efforts in the State, an identification of the person or agency, along with the address and telephone number of the contact.

(i) *Department of Labor Job Training Demonstrations.* In the case of States, a description of how the jurisdiction will coordinate job training demonstration projects for the homeless under subtitle C of title VII of the Act with other services for the homeless assisted under the Act.

(Approved by the Office of Management and Budget under control number 2506-0093.)

Subpart D—Submission, Review, and Approval of the Plan

§ 90.30 Plan submission.

CHAPs must be sent to the responsible HUD Field Office. CHAPs from ESG formula cities and counties must be received or postmarked no later than July 15 of each year, beginning with July 15, 1990. CHAPs from States must be received or postmarked no later than August 30 of each year, beginning with August 30, 1990.

§ 90.32 Plan review and approval.

(a) *In general.* HUD will approve a CHAP, unless HUD determines that it plainly fails to address each of the elements referred to in § 90.20(a) through (g), including the need for, and effect of, assistance under paragraphs (a) and (d) of that section for each of the authorities of title IV of the Act.

(b) *Job training element.* Failure of a State plainly to address the job training element referred to in § 90.20(i) will not result in disapproval of an otherwise approvable CHAP. It may, however, affect the State's participation in the Job Training for the Homeless authority in subpart C of title VII of the Act. Questions regarding § 90.20(i), and the effect of failing plainly to address that provision in the CHAP, should be referred to the Department of Labor.

(c) *Failure to carry out drug/alcohol assurance.* If HUD determines that a drug- and alcohol-free assurance under § 90.20(g) has not been carried out in accordance with the requirements of that paragraph, HUD may require the CHAP jurisdiction to take additional actions, or to provide further assurances, before approving subsequent CHAP submissions.

(d) *Notice of approval.* HUD will provide written notification to each jurisdiction whose CHAP is approved within 30 days after HUD receives it.

(e) *Notice of disapproval.* If HUD determines to disapprove a CHAP, it will notify the jurisdiction of the disapproval within 15 days of the determination. The notification will inform the jurisdiction of the reasons for the disapproval, as well as the steps needed to be taken to make the CHAP approvable.

(f) *Effect of failure to notify of disapproval.* If HUD fails to notify a CHAP jurisdiction of the disapproval of its CHAP within the 15 days referred to in paragraph (e) of this section, the CHAP will be deemed approved. In all cases, a CHAP jurisdiction may assume that its CHAP has been approved if it has not received notification of disapproval from HUD within 45 days after HUD received the CHAP.

§ 90.34 Plan amendment and resubmission.

HUD will permit amendments to, or the resubmission of, any CHAP, including a CHAP that has been disapproved. The provisions of § 90.32 govern CHAP amendments and resubmissions.

Subpart E—Performance under the Plan

§ 90.40 Plan performance.

(a) *Performance reports.* Each jurisdiction that has an approved CHAP must conduct an annual review of its progress in carrying out its CHAP. The jurisdiction must report the results of its review to HUD no later than May 31 of each year. The reporting period must cover the 12-month period ending with April 30 of the year in which the report is due.

(b) *Responses to recommendations.* Each jurisdiction that has submitted a performance report under paragraph (a) of this section must provide a substantive response to any recommendations that HUD makes on the report, provided that the jurisdiction receives the recommendations by July 31 of the year in which the report is submitted.

(c) *Effect of failure to report or respond.* HUD may not make assistance under any of the authorities of Title IV of the Act available to, or within the jurisdiction of, any CHAP jurisdiction that fails to—

(1) Review and report its performance to HUD, in accordance with paragraph (a) of this section; or

(2) Make a substantive response to HUD's recommendations, in accordance with paragraph (b) of this section.

(Approved by the Office of Management and Budget under control number 2506-0093.)

§ 90.42 Coordination.

If a State CHAP designates a State agency or a State contact person to coordinate homeless assistance efforts in the State, HUD will provide the designee with such program information as HUD deems appropriate to facilitate the coordination.

Subpart F—Relationship Between the Plan and Applications for Homeless Assistance

§ 90.50 Relationship between the Plan and applications for assistance.

(a) *Certification of consistency with CHAP.* Any application for assistance under the authorities of title IV of the Act must contain, or be accompanied by, a certification by the public official responsible for submitting the CHAP for the jurisdiction in which the proposed activities are to be located, that the activities are consistent with the CHAP. For further information on this requirement, the regulations for each of the authorities of title IV of the Act should be consulted.

(b) *Indication of need for assistance in Plan.* If a CHAP fails to indicate a need (as required by § 90.20(a)) for assistance under any of the authorities of Title IV of the Act, a subsequent application for assistance under any such authority will be disapproved on grounds that it is inconsistent with the CHAP.

Dated: October 26, 1989.

Jack Kemp,

Secretary.

OVERSIGHT BOARD

Strategic Plan for the Resolution Trust Corporation

AGENCY: Oversight Board.

ACTION: Proposed Strategic Plan.

SUMMARY: The Financial Institutions Reform, Recovery, and Enforcement Act of 1989, requires the Oversight Board to develop a strategic plan for the Resolution Trust Corporation's functions and activities. The Oversight Board is seeking public comment on the proposed strategic plan for the Resolution Trust Corporation. The strategic plan establishes overall goals and objectives for the RTC in six areas: case resolution, asset disposition, affordable housing, conflicts of interest and ethical standards, external relations, and administration.

DATES: Comments must be submitted on or before December 4, 1989. The strategic plan must be submitted to Congress by December 31, 1989.

ADDRESSES: Comments may be mailed to the Policy and Financial Analysis Unit, Oversight Board, Room 906, 1825 Connecticut Avenue NW., Washington, DC 20232.

FOR FURTHER INFORMATION CONTACT: Johathan L. Fiechter, the Policy and Financial Analysis Unit, Oversight Board, 202–376–5464.

SUPPLEMENTARY INFORMATION:

Background and Statutory Requirements

The Resolution Trust Corporation (RTC) and the Oversight Board of the Resolution Trust Corporation (Oversight Board) were established as instrumentalities of the United States on August 9, 1989, by the enactment of section 21A of the Federal Home Loan Bank Act (12 U.S.C. 1441a) as added thereto by section 501(a) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (Pub. L. No. 101–73, section 501(a), 103 Stat. 183, 363–393). Throughout this document, all references to section 21A are to section 21A of the Federal Home Loan Bank Act as amended by section 501(a) of FIRREA.

FIRREA requires the Oversight Board, in consultation with the RTC, to develop a strategic plan for the RTC's functions and activities, and to submit the plan to Congress no later than December 31, 1989. FIRREA establishes the minimum contents required for the strategic plan, which are listed in the Appendix to this Preamble. FIRREA further requires the Oversight Board to appear with the RTC, by January 31, 1990, before the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate to describe the strategic plan established for the RTC.

At its public meeting on September 21, 1989, the Oversight Board determined that it would be beneficial at an early stage in the development of the strategic plan to make a draft available for public comment. Accordingly, this preliminary, draft strategic plan is being published for comment. The Oversight Board wishes to emphasize that this is an early draft that will be revised in response to comments received and in the course of the Board's own further review and deliberation. The Board recognizes that certain aspects of this preliminary draft might be regarded by some as controversial or that others might recommend the inclusion of matters that are omitted. That is, of course, the purpose of soliciting comment on this proposed strategic plan. The Board will consider all comments received as it shapes the final plan for submission to Congress.

Duties of Resolution Trust Corporation and Oversight Board

The mission of the RTC is to carry out a program, under the general oversight of the Oversight Board, to manage and resolve institutions that come under its jurisdiction and to dispose of any residual assets in a manner that:

- Maximizes return and minimizes loss;
- Minimizes the impact on local real estate and financial markets; and
- Maximizes the preservation of the availability and affordability of residential property for low- and moderate-income individuals.

The duties of the Oversight Board are to oversee and be accountable for the RTC. The Oversight Board is required, in consultation with the RTC, to develop and establish overall strategies, policies, and goals for the RTC's activities, including the RTC's overall financial goals, plans and budgets. The Oversight Board is also required to review the overall performance of the RTC on a periodic basis, including its work, management activities, and internal controls and the performance of the RTC relative to approved budget plans pursuant to the terms of FIRREA.

Purpose and Contents of the Strategic Plan

The purpose of the strategic plan is to set forth the RTC's goals and objectives in support of its mission. The RTC will develop specific procedures for implementing the general guidance provided by the strategic plan. Until such specific procedures are developed by the RTC, the Oversight Board has directed the RTC to operate in accordance with existing FDIC procedures.

The strategic plan elaborates on the mission of the RTC through goals, objectives, and implementation procedures. The strategic plan's goals establish broad, general direction for the RTC in six areas: Case resolution, asset disposition, conflicts of interest and ethical standards, external relations, and administration.

The strategic plan's objectives provide more specific statements with respect to the goals set forth. Subject to the review of the Oversight Board, the RTC is responsible for adopting the rules, regulations, standards, policies, procedures, guidelines, and statements necessary to implement the strategic plan established by the Oversight Board.

The strategic plan will be refined and strengthened through experience and ongoing review. Additionally, the National and Regional Advisory Boards will provide input to the policies and procedures developed by the Oversight Board and RTC for the sale or disposition of real property assets.

Strategic Plan Development

The strategic plan was developed by Oversight Board staff in consultation with the staff of the RTC. At its first meeting, on August 9, 1989, the Oversight Board established a Joint Policy Development Task Force with staff from both the Oversight Board and the RTC to make recommendations to the Oversight Board on overall strategies, policies and goals for the RTC and the strategic plan.

In addition, the strategic plan reflects input from staff of the Treasury Department, the Department of Housing and Urban Development, the Federal Reserve Board, the Office of the Comptroller of the Currency, and the Office of Thrift Supervision.

Furthermore, the strategic plan incorporates individual policies that have been adopted by the Oversight Board during the period between the Oversight Board and the RTC's creation on August 9, 1989, and publication of this proposed strategic plan.

Request for Comment

At its September 21, 1989 Board meeting, the members of the Oversight Board decided unanimously to invite public participation in the development of the strategic plan before submitting it to Congress. The Oversight Board is seeking comments on all aspects of the strategic plan, and particularly on the questions posed by the Oversight Board. Public comment should contribute to a more effective strategic plan. It is hoped that publication of an early and preliminary draft of the strategic plan will promote participation in formulating the RTC's goals, objectives and implementation procedures.

In addition, the Board wants the strategic plan to reflect expertise available in the private as well as the public sector. The private sector has extensive expertise in matters of loan workouts, asset management and disposition, which would be invaluable to the Oversight Board in formulating the strategic plan. Furthermore, FIRREA requires the RTC to utilize the private sector in carrying out its duties, including real estate and loan portfolio asset management, property management, auction marketing, and brokerage services, to the extent that those services are available and their utilization by the RTC would be practicable and efficient. Because it is expected that the RTC will utilize the private sector in carrying out its mission, the Oversight Board believes it is important to receive comment from that sector in developing the strategic plan.

Appendix to the Preamble—FIRREA-Mandated Contents of the Strategic Plan

Section 21A(a)(14)(B) requires the strategic plan and implementing policies and procedures to contain, at a minimum, the following:

1. Factors for determining the order of resolutions.
2. Standards to select the type of resolution.
3. Factors to consider in deciding treatment of nonperforming assets in assisted acquisitions.
4. Plan for the disposition of assets.
5. Management objectives for measuring progress.
6. Plan for organizational structure, staffing, and use of third-party contracts.
7. Consideration of incentives to promote efficient asset management.
8. Standards for competition among and fair treatment of offerors.
9. Standards to prohibit discrimination in solicitation and consideration of offers.
10. Procedures for active solicitation of offers from minorities and women.
11. Procedures for notification of rejected offers.
12. Procedures for establishing the market value of assets.
13. Procedures requiring timely evaluation of purchase offers.
14. Procedures for bulk sales and auction marketing of assets.
15. Guidelines for determining which assets have no reasonable recovery value and may, therefore, be considered for public purposes.
16. Guidelines for conveyance of assets to state and local government agencies for use in HUD urban homesteading programs.
17. Policies and procedures for avoiding political favoritism and undue influence in contracts and decisions made by the Oversight Board and RTC.

I. Mission Statement

The Resolution Trust Corporation should carry out a program, under the general oversight of the Oversight Board, to manage and resolve institutions that come under the jurisdiction of the RTC and to dispose of any residual assets in a manner that:

- Maximizes return and minimizes loss;
- Minimizes the impact on local real estate and financial markets; and
- Maximizes the preservation of the availability and affordability of residential property for low- and moderate-income individuals.

II. Background

A. Case Resolution

FIRREA gives the Resolution Trust Corporation (RTC or the Corporation) the responsibility for managing and resolving all cases involving depository institutions previously insured by the Federal Savings and Loan Insurance Corporation (FSLIC) for which a conservator or receiver is appointed from January 1, 1989 through August 8, 1992. As of September 30, 1989 there were 256 institutions holding $101 billion in assets under RTC jurisdiction. Additional insolvent institutions are expected to be transferred to the RTC over the next three years.

Resolution Schedule

Given the expected costs associated with resolving the institutions under RTC jurisdiction, the large backlog of insolvent institutions and the potential disruption these resolutions could impose on the financial and real estate markets, it is important to carefully consider the process by which these institutions are resolved. Furthermore, given that institutional, financial, and human resource constraints preclude simultaneous resolution of insolvent institutions presently under RTC jurisdiction, it is important to establish a prioritization schedule for case resolutions. FIRREA stipulates that the strategic plan for the RTC will include the "factors the Corporation shall consider in deciding the order in which failed institutions or categories of failed institutions will be resolved."

There are numerous factors to consider in deciding which institutions to resolve first. For example, of primary importance is the deterioration at an institution, a measure of the cost savings the RTC could achieve by resolving an institution immediately. As such, institutions with the highest operating losses (both in absolute terms and relative to the expected cost of resolution) should be given first priority in order to save the RTC these additional losses.

Additionally, the estimated loss in franchise value due to eroding customer bases and the loss of key personnel and systems is important in determining deterioration and therefore, should also be evaluated in deciding the priority of resolutions. Likewise, the ongoing risk exposure to the RTC should be considered. Institutions posing the greatest risk to the RTC should be given priority. Also, the order of resolutions should reflect the most efficient use of RTC resources and staff. The strategic plan requires the RTC to evaluate all of these factors in establishing a case resolution schedule.

Many of the factors that need to be considered in establishing a priority schedule are not easily quantified. It would not be cost effective, however, to devote inordinate time and resources to developing a precise priority schedule if such an effort delays the resolution process. Therefore, in evaluating the various factors, the RTC may consider establishing priority deciles or quartiles rather than attempting to establish the order of resolution for each institution.

Method of Resolution

In addition to establishing resolution priorities, the RTC will need to select a method of resolution for each institution. Resolutions generally take the form of either liquidations accompanied by the payment of insured deposits, or assisted acquisitions. In paying insured deposits, the FDIC has generally paid cash to depositors, either directly, or indirectly

VOL 54 ISS 212 NO 3 1989 UMI

through a "paying agent." An insured depositor may choose to take the cash or use it to open a deposit account with the paying agent. The RTC may use the same techniques. Use of a paying agent is often referred to as an insured deposit transfer.

In an assisted acquisition, the acquiring entity assumes some portion of the assets and liabilities of the failed institution. The RTC provides sufficient cash to the acquiring institution to offset the difference between the amount of liabilities assumed and the market value of assets acquired from the failed institution—net of any premium paid by the acquiring institution. To the extent the acquiring institution acquires substantially all of the assets of the failed institution, the transaction is termed a "whole thrift" purchase and assumption. If the acquiring institution acquires only the "good" assets (e.g., cash, securities, and performing loans), the transaction is termed a "clean thrift" purchase and assumption.

There is no precise line of demarcation between a whole-thrift transaction and a clean-thrift transaction. Rather, they run on a continuum. In fact, the results of a deposit transfer can be similar to a purchase and assumption transaction. For example, if in its role as the paying agent, an institution is able to attract and retain the deposits from the failed institution and uses the deposits to purchase the good assets of the failed institution, the net result resembles a clean-thrift purchase and assumption. If the paying agent further purchases the problem assets, the net result resembles a whole-thrift purchase and assumption.

In selecting a method of resolution, FIRREA, by cross referencing the Federal Deposit Insurance Act, prohibits the RTC from providing assistance in an amount in excess of that required to liquidate an institution, unless the RTC determines that the continued operation of the institution is essential to provide adequate banking services in its community. FIRREA also stipulates that the RTC conduct its operations in a manner which "maximizes the net present value return from the sale or other disposition of institutions," and "minimizes the amount of any loss realized in the resolution of cases." Finally, FIRREA stipulates that the RTC's strategic plan and its implementing policies and procedures must include "standards the Corporation shall use to select the appropriate resolution action for a failed institution," and "factors the Corporation shall consider in deciding whether nonperforming assets of the failed institution will be transferred to the acquiring institution rather than retained by the Corporation for management and disposal." This latter requirement regarding the treatment of nonperforming assets draws attention to the whole-thrift versus clean-thrift decision. The strategic plan requires the RTC to consider each of these statutorily imposed criteria in selecting the preferred method of resolution.

One policy issue that arises in the selection of a resolution method is whether the RTC should sell an individual institution as a whole or in parts. For example, some have suggested that the RTC could obtain a higher price if it were to sell individual branches to separate acquirers rather than attempting to sell all the branches to one acquirer. It has been further argued that selling smaller pieces, such as individual branches, might also increase the pool of eligible bidders, thereby increasing the competitiveness of the bidding. A counter to these arguments is the amount of time and administrative costs associated with attempting to evaluate and compare multiple combinations of offers. Also, in deciding whether to pursue the sale of individual branches, consideration must be given to the effect of this policy on cash outlays, the expected volume of assets to be liquidated and the disruption payoffs of insolvent branches could cause.

Financial Assistance

Another area of policy debate is the type of assistance that the RTC may provide in order to facilitate an assisted acquisition. In the past, various forms of assistance have been used including, but not limited to, cash, notes, yield-maintenance agreements, capital-loss coverage, asset puts, and regulatory forbearances.

Yield maintenance was sometimes given to an acquirer that accepted problem assets (or assets with below market contract rates due to interest rate changes) in lieu of immediately paying the institution for the capital losses on the assets. The guaranteed yield for these assets was generally based on a cost-of-funds index, plus a spread to cover operating expenses associated with managing the asset and, in some cases, a profit margin. Capital-loss coverage effectively guarantees that the acquiring institution will not sustain any further capital losses on specified or "covered" assets after the sale of these assets to the institution. When capital loss coverage is offered in conjunction with yield maintenance, the provider (e.g., the RTC) effectively retains all the risks associated with problem assets and the acquiring institution may have disincentives to minimize the losses in the assets.

Asset-puts as a form of assistance can be used when the acquirer has not had sufficient time to evaluate the condition of all the assets in the portfolio or mark them to market. If an asset that has been sold to an institution becomes "bad" or non-performing, does not have clear title, or there is some litigation liability, the association may sell or "put" the asset back to the RTC in exchange for cash or other assets. An "asset-put" provision reduces the discount a purchaser would otherwise require on accepting assets of unknown quality and allows for more expedient disposition of institutions with problem assets. Asset-puts can be thought of as a form of capital loss coverage and, like the capital loss coverage and yield maintenance, creates a financial contingent liability for the RTC and reduces the incentive for acquiring institutions to maximize recoveries.

Ownership interests in resolved institutions allow the RTC to protect its interests when at the time of resolution there is continued uncertainty regarding the value of the resolved institution and, therefore, the appropriate amount of assistance. This uncertainty creates the potential for large upside gains for the acquirer. Equity participations, such as common stock, give the RTC a direct ownership position in a thrift and allow the RTC to share in upside gains. Equity participations, however, may create a conflict if the RTC assumes a controlling position and thereby becomes a competitor with other financial institutions. Warrants are passive equity instruments that allow the RTC to share in the profits of a resolved institution, but if structured properly, can avoid the control issue.

Regulatory forbearances occur when a merging institution is granted non-cash assistance by having the regulator abstain from enforcing certain regulatory requirements. In the past, regulators have granted forbearances from complying with capital requirements, liquidity requirements, and asset restrictions. In most, but not all, situations, forbearances do not reduce the requirement but merely preclude the regulator from taking action as a result of noncompliance. Forbearances were usually granted only for a limited period of time. Granting forbearances may reduce the resolution cost to the RTC and unlike other forms of assistance, often do not involve a direct financial outlay or immediate risk to the RTC. They may, however, transfer

risk to the insurance funds and are inherently difficult to value.

Each of these forms of assistance entails different costs and levels of ongoing risk exposure for the RTC. The Oversight Board has already adopted policies that: (1) Limit the period of assistance involving a financial contingency (e.g., asset-puts, asset guarantees, capital loss coverage, yield maintenance guarantees) for the RTC to the lesser of 6 months or the time necessary to complete due diligence; and (2) limit the RTC from taking an active equity positions in resolved institutions. The strategic plan requires the RTC to develop written guidelines for the use of various forms of financial assistance.

Bidding Procedures

A significant way to reduce the cost of resolutions is to encourage active participation in the resolution process by all qualified bidders. Also, FIRREA explicitly requires the RTC to develop standards for fair, non-discriminatory treatment and competition among prospective bidders and requires the RTC to encourage the active participation of women and minorities.

These requirements can best be fulfilled by having an open and widely publicized bidding procedure and a broad dissemination of information regarding institutions being marketed and the terms of previous transactions. This need for openness has been highlighted by the public reaction to the transactions completed by the Federal Home Loan Bank Board in December 1988. In addition, providing sufficient time to disseminate the pertinent information to a wide range of bidders and allowing adequate time for carefully constructing competitive bids, should assure that the RTC receives the best offer. Finally, the fair and consistent evaluation of all bids and the timely notification of rejected bids should encourage continued participation in future marketing efforts by prospective purchasers. The strategic plan identifies each of these items as an area for the RTC to develop implementation procedures.

Use of Private Sector

FIRREA requires the RTC to use the services of private persons if such services are available and the RTC determines that the utilization of such services are practicable and efficient. While the statute appears to presume that this will occur primarily in the asset disposition process, the RTC might use the services of private sector entities in activities related to the resolution of institutions. These services could include managing institutions or performing due diligence for the RTC. The strategic plan directs the RTC to identify areas where private sector services could be used in resolving institutions.

B. Asset Disposition

Assets not sold as a part of a thrift institution resolution will have to be disposed of separately by the RTC. The volume of assets the RTC will dispose of is uncertain and will depend in part on the method chosen by the RTC to resolve thrift institutions.

Whatever the eventual volume, most of the assets under RTC jurisdiction will fall into one of three categories: (1) Cash and readily marketable loans, servicing rights, and securities; (2) high risk or otherwise undesirable, but performing, loans; or (3) real estate owned and nonperforming loans, including loans in foreclosure. Most of the policy issues relate to the disposition of the second and third groups; accordingly, these assets are the focus of this section.

The task facing the RTC for asset disposition is unprecedented in magnitude and complexity. The RTC will need to try alternative approaches, learning from experience what works and what does not work. Nothing in this plan is intended to preclude that flexibility.

Use of the Private Sector to Maximize Net Present Value

The sheer number of assets to be worked out will require that the RTC rely heavily on private sector contractors for the management and disposition of these assets, subject to general oversight and audit by the RTC. In addition, the private sector's expertise and the opportunity for the RTC to utilize incentive-based contracts argue for the RTC to use private contractors whenever practicable and efficient, as called for in FIRREA.

The RTC should develop and employ incentive structures tailored to maximizing the net present value of the assets to the RTC. While the RTC staff will be monitoring its contractors, it will be the contractors who, in most instances, manage the assets and negotiate their disposition, subject to appropriate RTC approval. The RTC should, therefore, rely on incentive schemes for contractors as a means of assuring that the government receives the maximum net present value return on its assets. No incentive structure, however, can eliminate the need for managerial oversight by RTC staff.

Neither the eventual proceeds from asset disposition nor the interim operating returns will be known to the RTC or the contractor at the time the assets are placed under private control. Therefore, when practical, the RTC should enter into contracts that have the RTC and the contractor sharing in better-than-expected returns, as well as sharing the risk that net proceeds will fall short of expectations (i.e., yielding the contractor less than a market rate of return).

Competitive Procurement

Depending on the structure of the contract, a variety of procurement designs may be appropriate for promoting competition consistent with the objective of maximizing net present value. In all instances, the RTC must make available, in writing and to all requesting parties, its procurement policies and procedures.

Sales Methods

As a general rule, bulk contracts for management and disposition of a large block of assets should be used if the RTC deems that this is the strategy that will maximize the net present value of the proceeds. Furthermore, the administrative constraints on the number of separate transactions that can be directly executed by the RTC suggests that bulk transactions may be an efficient method for disposing of assets. The RTC should experiment with alternative methods of structuring bulk transactions. In bulk sales, modest discounting in price may be appropriate because of the reduction in the RTC's sales costs per unit.

The RTC can delegate many of the decisions regarding choice of disposition methods to private contractors, subject to guidelines established by the RTC. However, there may be instances in which the RTC should override the recommendation of its contractors. For example, using large-volume auctions to dispose of single-family homes or raw land in distressed areas may maximize near-term returns to the RTC but could have adverse market effects that could be avoided through an alternative sales method.

Continuing RTC Involvement with Assets

As with resolutions of insolvent thrifts, the RTC should avoid retaining long-term equity interests in assets under its jurisdiction. These assets should be sold expeditiously following orderly and thorough marketing. The RTC should explore ways, however, in which it can participate in any extraordinary gains realized at the time of disposition.

The RTC will have to develop criteria that must be met for the RTC to undertake major capital improvements (i.e., buildouts of incomplete properties

region of the country and buy properties in another.

Asset Disposition in Distressed Areas

future developments not reflected in the current market values of properties.

Marketing eligible residential properties may require special

The costs that can be avoided through an expedited sale include, but are not limited to, foregone real estate taxes, insurance, maintenance expenses,

VOL 54 ISS 212 NO 3 1989 UMI

The RTC will have to develop criteria that must be met for the RTC to undertake major capital improvements (i.e., buildouts of incomplete properties and major rehabilitation of completed structures) prior to marketing. There may be some special cases in which the net present value of properties to the RTC will be enhanced by capital improvements prior to sale, but in most instances properties should be sold in "as is" condition (exclusive of minor cosmetic repairs).

Financing of Asset Sales

If the RTC were to provide financing of asset sales, it should do so only when necessary to complete transactions that maximize the present value return to the RTC, net of the value of any concessions provided in the financing. Unless directed otherwise by the Oversight Board, the RTC should, in general, offer financing only as a marketing tool. If private sector lenders are unwilling to finance a proposed purchase on terms as favorable to the buyer as those offered by the RTC, then the RTC is providing a subsidy that should be recouped through a higher purchase price.

Data Base Development

To assure the RTC's capability to respond to future data requests, the database system developed to inventory RTC assets should be flexible and contain as many descriptors of assets as is practicable. As required by FIRREA, the data base should identify those properties with natural, cultural, recreational, or scientific values of special significance. Compliance with this requirement will be difficult, but the RTC should develop procedures and guidelines for determining these designations as quickly as practicable.

Ethics and Conflicts of Interest

Ongoing enforcement of ethics and conflicts of interest requirements will complement the incentive schemes and regular audits as methods of assuring that contractors promote the objectives of the RTC. The interim statement of Principles of Ethical Conduct for Independent Contractors to the RTC, on which public comment has been solicited, will be succeeded by regulations on this subject.

The ethics standards should not preclude asset managers from acting in more than one capacity for the RTC, if the RTC determines that no conflicts or potential conflicts of interest exist with respect to the services performed for the RTC by RTC contractors. For example, if appropriate, asset managers should be allowed to sell RTC properties in one region of the country and buy properties in another.

Asset Disposition in Distressed Areas

RTC will be a significant holder of real estate in some local real estate markets already beset by economic problems and experiencing declining real estate values. FIRREA notes this fact and calls for special asset disposition procedures to protect against the dumping of assets while not restricting the flexibility RTC needs to make sound business decisions. The RTC will consider providing seller financing in distressed areas.

FIRREA specifies that in distressed areas the RTC should not sell at less than a specified minimum disposition price. The legislation sets this price at 95 percent of market value and gives the RTC Board of Directors the authority to change this percentage if a change is deemed consistent with the overall objectives of the RTC. Outside of distressed areas, the RTC should strive as well to sell only at prices at or near market value, unless otherwise directed by the Oversight Board. The term "market value" is defined in FIRREA to mean "the most probable price which a property should bring in a competitive and open market if: (1) All conditions requisite to a fair sale are present, (2) the buyer and seller are acting prudently and are knowledgeable, and (3) the price is not affected by any undue stimulus."

Thorough marketing of properties will be particularly important in distressed areas for the RTC to secure offers near market value. But even with careful and comprehensive marketing, market value and, therefore, the disposition price of RTC properties in distressed areas may often be a small fraction of book value.

The RTC should avoid deferring the marketing of properties, subject to the right of first refusal marketing provisions in FIRREA. Holding properties off the market for an extended period of time will generally not serve the interests of either the local community or the taxpayer.

The uncertainty caused by an overhang of properties held off the market may depress local property values more than would their sale. Furthermore, holding rental housing off the market increases rents and, therefore, may place renters at a disadvantage. Properties held off the market especially vacant properties—can deteriorate and lose value, raising the cost to the RTC and ultimately to the taxpayer. Even properties that do not deteriorate impose carrying costs on the RTC. The RTC should not attempt to "outguess the market" by speculating on future developments not reflected in the current market values of properties.

The ongoing resolution of insolvent thrift institutions during the next several years, together with delays in securing clear title to properties that come under the RTC's control, will result in the disposition of RTC's assets over a multi-year period, even if individual properties are marketed expeditiously. If the RTC were to delay disposition of currently marketable properties, it would only concentrate the peak load problem, and place pressure on local markets in years to come.

While the RTC should dispose of properties expeditiously following thorough marketing, in some instances certain marketing methods may have adverse consequences for local property values that could be avoided. For example, in areas where the RTC is a large holder of similar properties, including raw land, disposition according to a pre-advertised multi-month marketing schedule may be preferable to disposing of a large number of properties by auction on a single day.

Keep the Market Informed

The RTC should keep market participants and other interested parties fully informed, to the extent practical, on RTC's plans for asset sales. Uncertainty increases the risk of investing in real estate and thereby depresses real estate values. The "overhang" of RTC properties in local real estate markets increases uncertainty and depresses real estate values for two reasons: (1) Market participants do not know the RTC's plans for these properties, and (2) even if RTC's plans were known, the resulting market effects are uncertain. RTC can eliminate at least part of this uncertainty by providing as much information as practical about its inventory and general policies and strategies for asset disposition to all interested parties in the local market areas where RTC has properties.

C. Affordable Housing Provisions

FIRREA mandates maximizing the preservation of the availability and affordability of residential real property for low and moderate-income individuals. One mechanism that FIRREA provides for meeting this mandate is to require a specified right of first refusal period for qualified purchasers of certain eligible single and multi-family properties.

The RTC's implementing procedures for housing disposition should be designed to maximize the effectiveness

of this initial marketing or right of first refusal period. Eligible properties are to be offered to qualifying households, public agencies, or nonprofit organizations so that the properties may be available for purchase or occupancy by lower-income families. To assure that its disposition strategies for low and moderate income housing are effectively implemented, the RTC should consult on an ongoing basis with local and state housing finance agencies, other governmental agencies, and local and national nonprofit organizations with specialized knowledge of low-income housing.

No later than March 30, 1990, the RTC will submit to the Oversight Board comprehensive guidelines and procedures to implement the low- and moderate-income housing provisions of FIRREA. (The specific coverage of these guidelines and procedures is detailed in a subsequent section of this strategic plan.) To avoid keeping needed housing off the market and to avoid any further deterioration of the eligible properties involved while comprehensive guidelines are developed by the RTC and reviewed by the Oversight Board, the RTC may sell eligible properties in accordance with the housing provisions of FIRREA prior to the delivery to the Oversight Board of these comprehensive guidelines. Prior to commencing such disposition, however, the RTC will prepare interim guidelines for disposition that are in accordance with the lower- and moderate-income housing provisions of FIRREA. The RTC will provide its interim guidelines to the Oversight Board and will keep the Board apprised of its disposition procedures. (Public comment is specifically invited on whether the RTC should begin disposing of eligible properties prior to development of comprehensive housing program guidelines.)

In order to facilitate the Oversight Board's review of the low- and moderate-income housing program as it evolves and to assist in identifying any areas needing special attention, the RTC will keep records on eligible properties and their disposition. As the RTC begins marketing eligible properties, it will compile data on the number of eligible properties offered for sale, the number of these properties that are purchased for low- and moderate-income housing, and any other pertinent data related to the effectiveness of the initial marketing period in meeting the FIRREA's housing goals. The RTC will report regularly to the Oversight Board on its experience in meeting its low- and moderate-income housing objectives under FIRREA, including providing any relevant data.

Marketing

Marketing eligible residential properties may require special techniques that differ from the RTC's normal marketing methods. The RTC should develop marketing strategies in consultation with state housing finance agencies, other government agencies, and non-profit organizations for implementation, either directly or through contractors (including government agencies and non-profit organizations). The RTC should also consider assigning low-income housing specialists to its field offices.

Clearinghouses

FIRREA requires that the RTC shall provide information on eligible properties to clearinghouses to make such information available to public agencies, non-profit organizations, and qualifying households. FIRREA authorizes state housing finance agencies and the Federal Housing Finance Board to act as clearinghouses. The RTC can also authorize national non-profit organizations as clearinghouses. The RTC shall develop guidelines for entering into contracts or other arrangements with clearinghouses to carry out their responsibilities.

To assure a maximum level of operating efficiency by all clearinghouses, RTC personnel should work with organizations, including the FHFB, to develop general strategies, including agreement on both the form and content of the information the RTC will provide regarding eligible properties. The information provided should be in a form suitable for immediate dissemination by the clearinghouses to eligible purchasers and include as much information as necessary to assure the most informed possible basis for judgement by the eligible purchasers.

The RTC should also investigate the extent to which information about eligible properties may be provided to clearinghouses before the RTC has clear title to the properties.

Disposition of Eligible Properties

FIRREA directs the RTC to determine a market value for each eligible residential property and sell eligible properties at the net realizable market value. The net realizable market value is the price below the market value that takes into account any reduction in certain holding and transactions costs resulting from expedited and direct sale of a property. Consequently, the price reduction represents an economic discount, not a price subsidy.

The costs that can be avoided through an expedited sale include, but are not limited to, foregone real estate taxes, insurance, maintenance expenses, security costs and the loss of use of its funds as well as the avoidance, if applicable, of fees paid to real estate brokers, auctioneers, or other individuals usually involved in the sale of property.

The RTC should consider selling eligible properties in bulk to capable non-profit organizations and state and local housing finance agencies. The reduction in transaction costs to the RTC resulting from a bulk sale may permit the RTC to sell properties at a below-market price and still maximize net present value.

Subsidies

FIRREA authorizes the RTC to provide subsidies such as concessionary financing and price discounts in the furtherance of FIRREA's housing objectives. If subsidies are deemed necessary to meet the housing objectives, the appropriate form of the subsidies, as well as the total amount of subsidy provided for this program, will be determined by the Oversight Board. Under section G of this strategic plan, Specific Questions for Public Comment, the staff of the Oversight Board specifically seek comment on subsidies and other issues related to the affordable housing provisions in FIRREA.

Qualifying Purchasers

The legislation specifies which households and organizations are eligible to bid on properties during the right of first refusal period. The RTC should investigate the feasibility of contracting for the service of qualifying households and institutions, in light of the relevant experience outside the RTC that could be drawn upon from such agencies and organizations as state housing finance agencies, other government agencies, and non-profit organizations.

Competing Bids

When selling single family properties, the RTC may have to choose between substantially similar competing offers from low- and moderate-income households. In the case of multi-family housing, the conference report directs the RTC to give preference to offers that propose to house more lower income families for longer periods of time and the RTC will establish guidelines to implement this directive. Given the RTC's mandate to maximize the affordability and availability of low-

VOL 54 ISS 212 NO 3 1989 UMI

income housing, the RTC will establish guidelines that among substantially similar offers for single family properties give preference to bids from lower-income families.

Consultation with Other Agencies

FIRREA directs the Secretary of Housing and Urban Development and the Secretary of Agriculture to expedite the processing of applications for assistance under a number of specified programs, including FHA mortgage insurance. To the extent practical, the RTC should consult with those parties, as well as with other organizations that can financially assist qualified households and organizations in purchasing and renting housing. These organizations include the federally sponsored housing credit agencies and corporations, and state and local housing finance agencies.

The legislation requires the Federal Housing Finance Board (FHFB) to establish an Affordable Housing Program to subsidize interest rates on advances to member savings institutions for lending for low- and moderate-income owner occupied and rental housing. The RTC should work with the FHFB as the FHFB designs its Affordable Housing Program to maximize the mutual effectiveness of the RTC's and FHFB's respective programs.

Use of Secondary Market Agencies

As required in FIRREA, the RTC shall, in consultation with the Secretary of HUD, explore opportunities to work with secondary market entities to provide housing for lower- and moderate-income households. The Secretary of HUD is authorized to work with the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, and other secondary market entities to develop risk-sharing structures, mortgage insurance, and other credit enhancements to assist in the provision of property ownership, rental, and cooperative housing opportunities for lower- and moderate-income families.

Enforcement of Low-Income Residency Requirements

FIRREA requires purchasers of qualifying multi-family property to make available a certain number of units for low- and very low-income residents during the remaining useful life of the property. (The requirements may be reduced for a temporary period if HUD or the applicable state housing finance agency determines that compliance is no longer financially feasible.) The residency requirements must be recorded in a deed or other legal instrument. FIRREA provides that the lower-income occupancy requirements shall be judicially enforceable against the purchasers of property by affected very low- and lower-income families.

Regional Advisory Boards

FIRREA directs the Oversight Board to select members of the regional advisory boards who will represent the views of low- and moderate-income consumers and small businesses, or who have knowledge and experience regarding business, financial, and real estate matters. These groups can advise the RTC about implementation strategies in specific regions.

D. Conflicts of Interest and Ethical Standards

Conflicts of Interest

Within 180 days from the date of enactment, FIRREA requires the RTC to promulgate rules and regulations applicable to independent contractors governing conflicts of interest, ethical responsibilities and use of confidential information. The RTC has adopted an interim statement of principles establishing minimum standards of ethical conduct applicable to independent contractors retained by the RTC. The RTC has also been charged with the obligation to utilize the private sector to the maximum extent possible. The RTC is facing a monumental task and will have to rely heavily on third party contractors to successfully accomplish that task. Accordingly, it is important that any conflicts of interest standards will not preclude participation by a significant proportion of the private sector.

If the standards established are too restrictive, the RTC will have difficulty hiring sufficient contractors to accomplish its mission. On the other hand, if the standards are too liberal or lax, they may not provide sufficient protection against unethical conduct by the RTC employees, contractors, and agents.

Proposed regulations concerning the conduct of the RTC's independent contractors are expected to be published for public comment in the near future. The proposed regulations are intended to require the RTC to preserve the integrity of the system while allowing it the flexibility needed to meet its statutory mandate.

Political Favoritism

FIRREA also requires that measures be taken to avoid political favoritism and undue influence with respect to the activities of the RTC. Until specific policies and procedures are developed, the RTC will draw upon current FDIC policies. The FDIC has attempted to guard against undue political pressure by having policies that allow them to investigate and provide information to those in political office in response to an inquiry, complaint or concern. The policies do not permit FDIC personnel to discuss the substance of pending decisions with respect to specific actions. In addition, the policies do not allow the FDIC personnel to alter or change an FDIC decision, policy or procedure at the request of any outside party.

However, the RTC will be operating in a more diverse and complex environment than the FDIC. Due to the greater number of special interest groups involved and the greater range of activities the RTC will be undertaking, the RTC may be subject to more political pressure. The policies the FDIC has in place may not be adequate to address the complexity of the RTC's mission.

Staff of the Oversight Board invites comments on how to most effectively implement the mandates of FIRREA regarding avoiding political favoritism in contracts and decisions made by the RTC.

E. External Relations

As a new instrumentality of the U.S., it is critical for the RTC to establish and maintain good relationships and open communications with other entities. The RTC must be responsive to Congressional inquiries and cooperate with other government offices. The nature of the mission of the RTC also makes imperative a positive relationship with the public. The External Relations section of the strategic plan provides guidance on RTC activities designed to establish and enhance the RTC's reputation as an efficient and capable agency in achieving its mission.

Communications with the Public

The National and Regional Advisory Boards, which will be established by the Oversight Board, will play an important role in maintaining open communications with the public regarding the RTC's policies and procedures for the sale or disposition of real property assets. The National and Regional Advisory Boards will bring local expertise and concerns to the attention of the RTC and the Oversight Board and will provide a means for the RTC and Oversight Board to improve public understanding of the RTC's activities.

Questions or concerns may also be raised by the public through mechanisms that will be developed by the RTC for accepting general complaints and complaints of discrimination on the basis of race, sex or ethnic group in the solicitation and consideration of offers. FIRREA requires that the strategic plan and its implementing policies and procedures include standards that prohibit discrimination. The complaint mechanism established by the RTC will provide a means for the public to provide input on the RTC's performance in this area.

Congressional Reports

FIRREA imposes two reporting periods on the RTC: (1) Semiannual reports covering the October 1–March 31 and April 1–September 30 periods; and (2) an annual report covering the January 1–December 31 period. In addition, FIRREA requires semiannual appearances by the Oversight Board before the House and Senate Banking Committees to report on RTC progress in certain areas. The specific information requested by Congress is somewhat different for the semiannual reports, the annual report, and the semiannual Congressional appearances by the Oversight Board. These reporting requirements as well as other reporting and disclosure obligations concerning the RTC's operations, which are required by Title V of FIRREA, are listed in the Appendix to this strategic plan.

F. Administration

The Oversight Board oversees and is accountable for the RTC. In its oversight capacity, the Board must periodically review the overall performance of the RTC including its work, management activities, internal controls, and performance relative to its approved budget plans. The Administration section of the strategic plan sets forth objectives and strategies to assure that the RTC has sufficient and effectively managed resources to achieve its mission.

Planning and Budgeting

The Administration section contains guidelines for the RTC's budgeting, planning, and staffing activities. FIRREA requires the strategic plan and implementing policies and procedures to contain management objectives and a plan for the organizational structure and staffing of the RTC. The section also includes guidelines to ensure fiscal responsibility. FIRREA requires the RTC to provide the Oversight Board with periodic financing requests for Oversight Board approval.

At the Oversight Board's first meeting, it adopted a policy regarding procedures and documentation for approving RTC financing requests. These procedures require the RTC, in advance, to support the need for authorization of disbursements of funds by the Oversight Board for case resolutions, working capital requests, high cost funds replacement, liquidity advances, and operating expenditures.

This has evolved into a two-step process.

The first step is the RTC's submission to the Oversight Board of a general business plan that describes its projected use of funds over succeeding weeks and requests a general authorization to spend the projected amount. After Board staff review, its recommendation and the RTC's request are submitted to the Oversight Board for a general authorization to spend all or part of the requested funds.

The Oversight Board's general authorization does not release the funds, however. That comes during the second step of the process, when the RTC submits a written request for funds needed for specific transactions that are consistent with the general authorization. The request is reviewed to determine if it includes all the required information, is signed by the Certifying Officer, and conforms with the uses of funds permitted by FIRREA and Oversight Board policies. If the Oversight Board has authorized sufficient funds to meet the request, a staff memorandum including recommended action is prepared and sent to the Oversight Board CEO. Only upon his approval are funds actually transferred to the RTC account.

Working Capital

In order for the RTC to effectively accomplish its goal of resolving institutions in an expeditious manner, it is important to develop a mechanism through which the RTC can raise working capital. The need for working capital arises from timing differences that occur in the case resolution process. For example, when the RTC liquidates an institution, the RTC must make up-front payments to depositors. This cash advance, however, does not represent the actual cost of resolution. The RTC will ultimately sell the assets of the failed institution and recover the fair market value of the assets. Since the sale of these assets takes time, but depositors must be paid up front, the resources provided by FIRREA could quickly be tied up in the illiquid assets acquired for resolved institutions. Working capital allows the RTC to proceed with case resolutions while continuing the orderly disposition of these assets. The strategic plan requires the RTC to establish the necessary systems and procedures for implementing a working capital program.

Reporting Requirements

FIRREA authorizes the Oversight Board to require from the RTC any reports, documents, and records it deems necessary to carry out its oversight responsibilities. Furthermore, FIRREA imposes reporting requirements on the RTC, including reports to Congress. The RTC, in consultation with the Oversight Board and Congress, will streamline the process for responding to the various reporting requirements imposed on the RTC by Congress, the Oversight Board, and others, to the extent possible.

Independent Audits and Other Appraisals of Operations

FIRREA established an Inspector General (IG) for the RTC. The Inspector General Act of 1978, as amended, requires the IG/RTC to prepare, by April 30 and October 31 of each year, semiannual reports containing certain information for the six-month periods ending on March 31 and September 30, respectively, for submission to Congress. FIRREA also requires the Comptroller General to annually audit the financial statements of the RTC unless the Comptroller General notifies the Oversight Board not later than 180 days before the close of a fiscal year that it will not perform an audit for that fiscal year. In that event, the Oversight Board must contract with an independent certified public accountant to perform the annual audit. (GAO, however, has indicated that agency will conduct an annual report of RTC's financial statement.)

The strategic plan requires the RTC to appraise its operations, including cooperating fully in audits such as those performed by the Inspector General, Comptroller General, and Oversight Board to assist its Board of Directors and management in ensuring an efficient, economical, and effective application of its resources.

G. Specific Questions for Public Comment

While the Oversight Board invites comments on all aspects of the proposed strategic plan, comment on the following key issues is especially requested.

1. The strategic plan identifies four factors that the RTC should consider in establishing its schedule for case resolutions: (1) Deterioration, (2) risk, (3)

recovery of franchise value, and (4) efficient use of staff. How should each of these factors be measured? For example, should deterioration be

services to be practicable and efficient. The Oversight Board staff requests public comment on the extent to which it is practicable and efficient for the

particular circumstances, including but not limited to price discounts or concessionary financing, as well as alternative program designs, (4) the

• The provisions in FIRREA regarding the continuation of minority-owned institutions.

Implementation Procedures: A. By

Objective 4. Establish computer systems and record keeping and reporting procedures necessary to keep the Oversight Board, the President,

Boards and revise written guidelines on an ongoing basis as necessary.

D. By December 29, 1989, develop record keeping requirements to facilitate

VOL
54
ISS
2
1
2
NO
3
1989
UMI

recovery of franchise value, and (4) efficient use of staff. How should each of these factors be measured? For example, should deterioration be measured as an absolute level (e.g., total operating losses) or on a relative basis (e.g., operating losses relative to expected cost of resolution or relative to total assets)? Are there other factors that should also be considered? What is the relative importance of each factor?

2. As noted in the background section, there are a number of policy questions regarding the method by which institutions are resolved. What factors should the RTC consider in selecting a particular method of resolution? For example, should the RTC attempt to sell individual branches? What are the advantages and disadvantages of selling the individual components of a thrift association versus selling the thrift as a total unit. Do the costs of administering a piecemeal liquidation approach outweigh the potential benefits of attracting a wider group of interested bidders?

3. There are a variety of forms of financial assistance available for the resolution of insolvent thrift institutions. The Oversight Board has adopted a policy limiting the maturity on assistance creating a financial contingency for the RTC to no greater than six months. Will limiting the terms of such assistance significantly discourage potential acquirers? What types of factors should the Oversight Board and the RTC consider is establishing policies and procedures regarding the use of financial assistance?

4. What methods are available to ensure that all interested bidders are fully informed regarding the bidding procedure and the institutions being marketed?

5. Asset management and disposition involve a number of services, including: property management, loan servicing and workout, accounting and legal services, capital improvements to completed or partially built structures, marketing of loans and properties, and negotiating the terms of sale of these assets. A distinction can be made between asset managers and property managers. Asset managers in the private sector have responsibility for overseeing all of these services on behalf of the owners of portfolios of loans and properties. FIRREA directs the RTC to utilize the private sector for such services—both the overall asset management function and its component services, including property management—if such services are available in the private sector and the RTC determines utilization of such services to be practicable and efficient. The Oversight Board staff requests public comment on the extent to which it is practicable and efficient for the RTC to utilize the private sector for the overall asset management function, rather than for RTC staff to serve as asset managers and contract directly with providers of the component services.

6. FIRREA calls for the RTC to utilize "clearinghouses" to serve as sources of information on eligible residential properties (i.e., properties held by the RTC that are subject to the special marketing provisions specified in the statute). FIRREA permits the following organizations to serve as clearinghouses: state housing finance agencies, the Office of Community Investment (or other comparable division) within the Federal Housing Finance Board, and any national nonprofit organizations that the RTC determines to have the capacity to act as a clearinghouse for information. The Oversight Board staff requests public comment on other functions, in addition to information dissemination, that might be performed for the RTC by these organizations (e.g., qualifying the bidders for eligible residential properties) and the advantages these organizations have in providing these services.

7. FIRREA contains several provisions relating to the objective of maximizing the preservation of the availability and affordability of residential real property for low- and moderate-income individuals. For example, provisions in FIRREA require a right of first refusal for qualified purchasers of eligible properties. FIRREA authorizes the RTC to provide subsidies to qualified purchasers of eligible residential properties to the extent necessary to facilitate purchases of properties by lower income families and to help public agencies and non-profit organizations to meet lower income occupancy requirements for properties which these entities wish to purchase.

The Oversight Board staff specifically requests public comment on strategies for and approaches to implementing the low and moderate income housing provisions of FIRREA. Comments are requested on (1) methods for implementing the FIRREA's right of first refusal provisions, (2) alternative approaches to providing subsidies to enable eligible individuals and public agencies to purchase properties for lower-income housing while at the same time providing maximum return to the Government, (3) the extent and nature of the subsidies that would be most useful, singularly or in combination, under particular circumstances, including but not limited to price discounts or concessionary financing, as well as alternative program designs, (4) the proposed role of government and nongovernment entities, including but not limited to national and regional nonprofit organizations, clearinghouses and other entities in carrying out FIRREA's housing objectives, and (5) the nature of Government assistance to best facilitate the program, *e.g.*, assistance to aid capacity building for nongovernment entities.

III. Goals, Objectives, and Implementation Procedures

A. Case Resolution

Goal: Resolve institutions under RTC jurisdiction in a timely and cost effective manner, while minimizing the negative effects on local financial and real estate markets.

Objective 1. Reduce resolution costs by establishing a resolution schedule for institutions under RTC jurisdiction that to the extent practicable:

- Gives priority to institutions with relatively high rates of deterioration;
- Minimizes the ongoing risk exposure to the RTC;
- Maximizes the recovery of franchise value; and,
- Makes the most efficient use of RTC resources and staff.

Implementation Procedures: A. By November 30, 1989, develop written guidelines and procedures for evaluating each institution under RTC jurisdiction.

B. By December 15, 1989, develop prioritization schedules for institutions to be resolved after January 1, 1990, and update thereafter at least 30 days before the end of each calendar quarter.

Objective 2. Establish procedures for the selection of the preferred method of resolution that is consistent with:

- The requirements in FIRREA that the RTC conduct its operations in a manner that maximizes the net present value of return from the sale or other disposition of institutions and minimizes the amount of any loss realized in the resolution of cases;
- Section 13(c)(4) of the Federal Deposit Insurance Act that prohibits providing assistance in an amount in excess of that required to liquidate an institution unless the RTC determines that the continued operation of the institution is essential to provide adequate banking services in its community;
- Minimizing the ongoing risk exposure to the RTC;
- Minimizing the effects on local real estate and financial markets: and,

- The provisions in FIRREA regarding the continuation of minority-owned institutions.

Implementation Procedures: A. By November 30, 1989, develop written guidelines for the "cost test" calculation required by Section 13(c)(4) of the FDI Act and the loss minimization criteria in FIRREA.

B. By December 15, 1989, identify the factors the RTC will consider in deciding whether non-performing assets of a failed institution will be transferred to the acquiring institution rather than retained by the RTC;

C. By December 15, 1989, develop written policies and procedures consistent with the provisions of FIRREA regarding the continuation of minority-owned institutions.

D. By January 31, 1990, establish written guidelines on the use of various forms of financial assistance available from the RTC.

Objective 3. Develop and implement bidding procedures for selling institutions under RTC jurisdiction that:

- Encourage active participation by all qualified bidders, including minorities and women;
- Provide sufficient time for bidders to file necessary applications and for the chartering, regulatory and insurance agencies to process and evaluate the applications;
- Provide for fair, nondiscriminatory treatment and competition among prospective bidders; and,
- Enable the RTC to notify bidders of a rejected bid within 30 days.

Implementation Procedures: A. As soon as possible, but not later than November 15, 1989, establish and publicize the criteria and procedures for qualifying bidders.

B. By December 29, 1989, develop written plans for soliciting bids from all interested qualified buyers without preference to type of organization, including procedures for encouraging the active participation in the bidding process by women and minorities.

C. By December 29, 1989, develop written procedures for:

- Making available to all interested qualified bidders, to the extent practical, full and consistent information on institutions under RTC jurisdiction and the terms of previous transactions;
- The timely and nondiscriminatory evaluation and selection of offers; and,
- Notifying rejected bidders within 30 days.

D. By March 30, 1990, establish written procedures for accepting and investigating complaints of discrimination or unfair treatment in the consideration of offers.

Objective 4. Establish computer systems and record keeping and reporting procedures necessary to keep the Oversight Board, the President, Congress and the general public informed of the case resolution process.

Implementation Procedures: A. By December 29, 1989, in consultation with the Oversight Board and the Congress, determine the extent of information required to be reported under the provisions of FIRREA and for full and complete disclosure of the case resolution process.

B. By March 30, 1990, develop and implement, to the extent possible, quarterly and other periodic reports that present all required information in clear and consistent formats.

Objective 5. To the extent practicable and efficient, use private sector entities for the management and disposition of institution under RTC jurisdiction.

Implementation Procedures: A. By December 29, 1989, identify areas where private sector entities could be used to facilitate the management and disposition of institutions.

B. Asset Disposition

Goal: To dispose of real estate and other assets in such a way as to maximize the net present value to the RTC while also minimizing the effect of these transactions on local real estate and financial markets.

Objective 1. Maximize the net present value recovery to RTC by establishing appropriate policies, procedures and/or guidelines concerning:

- appropriate methods of disposition;
- asset marketing of pools of assets;
- preserving and enhancing values during the asset management process;
- distressed area designations;
- establishing and defining market values;
- keeping market participants and other interested parties fully informed, to the extent practical, on RTC's inventory and plans for asset sales;
- the active solicitation of offers from minorities and women; and
- the prohibition of discrimination on the basis of race, sex, or ethnic group in the solicitation and consideration of offers.

Implementation Procedures: A. By March 30, 1990, establish comprehensive performance standards and written guidelines on overall asset disposition strategies.

B. By December 29, 1989, provide the Oversight Board with issues and alternatives for providing financing for assets sold.

C. Consult with the Oversight Board and the National and Regional Advisory Boards and revise written guidelines on an ongoing basis as necessary.

D. By December 29, 1989, develop record keeping requirements to facilitate the orderly disposition of assets and to comply with the required semi-annual reporting of RTC's national inventory of real property assets.

E. By December 29, 1989, develop policies and procedures for notifying rejected bidders within 30 days.

F. By December 29, 1989, develop policies and procedures for actively soliciting offers for assets from minorities and women.

G. By December 29, 1989, develop policies and procedures prohibiting discrimination on the basis of race, sex or ethnic group in the solicitation and consideration of offers.

H. By March 30, 1990, establish written procedures for accepting and investigating complaints of discrimination or unfair treatment in the consideration of offers of services to the RTC.

Objective 2. To the extent practicable and efficient, place assets under private control for management and disposition under a program that:

- Employs incentive schemes tailored to maximizing the net present value of the assets to the RTC;
- Assures compliance by contractors with the ethics and conflicts of interest provisions of FIRREA; and
- Assures open and fair competition for asset management and disposition contracts.

Implementation Procedures: A. By December 29, 1989, establish guidelines concerning contracting with public and private entities for performance of asset management and disposition functions.

B. By December 29, 1989, establish guidelines concerning incentive schemes in asset management and disposition contracts.

C. By December 29, 1989, establish procedures to assure compliance by contractors with the ethics and conflicts of interest provisions of FIRREA.

D. By December 29, 1989, establish guidelines to assure open and fair competition for asset management and disposition contracts.

E. By March 30, 1990, establish performance standards for asset management and disposition contracts.

F. By December 29, 1989, provide the Oversight Board with issues and alternatives for implementing the statutory mandates for minority contractors.

Objective 3. Minimize the impact of RTC transactions on local real estate and financial markets.

VOL 54 ISS 212 NO 3 1989 UMI

Implementation Procedures: A. By March 30, 1990, establish written guidelines for determining market values of assets based upon market analysis valuation techniques and sound asset appraisal practices.

B. By March 30, 1990, establish written general guidelines for acceptable disposition prices in non-distressed areas.

C. By March 30, 1990, develop guidelines for designating distressed areas and modifying the "95%-of-market value" rule for minimum disposition prices in distressed areas.

D. Establish an informal working group to consult with other federal agencies that are selling assets in the same geographical markets, as directed by Oversight Board Policy 11, "Interagency Consultation on Asset Sales".

Objective 4. Fully document asset management and disposition activities to ensure compliance with all relevant statutory requirements.

Implementation Procedures: A. By December 29, 1989, in consultation with the Oversight Board and the Congress, determine the extent of information required to be reported under the provisions of FIRREA and for full and complete disclosure of the asset disposition process.

B. By March 30, 1990, develop and implement, to the extent possible, semiannual and other periodic reports that present information in clear and consistent formats.

C. Affordable Housing Provisions

Goal: To dispose of qualifying single and multi-family residential properties in such a way as to maximize the availability and affordability of residential real property for low- and moderate-income households.

Objective 1. Implement the housing and public use provisions of FIRREA in order to maximize the preservation and affordability of housing for low- and moderate-income individuals.

Implementation Procedures: A. By March 30, 1990, establish guidelines for determining which national non-profit organizations have the capacity to act as clearinghouses; develop strategies to ensure the effective and efficient dispersal of information by the clearinghouses, including guidelines for contracting with clearinghouses.

B. By March 30, 1990, develop written guidelines to assure that adequate information, and access to properties, is made available to clearinghouses and eligible buyers on a timely basis.

C. By March 30, 1990, develop a strategy for actively marketing eligible properties for sale to qualifying individuals and organizations.

D. By March 30, 1990, develop and implement procedures for qualifying low- and moderate-income households, non-profit organizations, and for-profit entities for eligibility as preferred bidders on low-income properties.

E. By March 30, 1990, develop guidelines for determining the net realizable market value of eligible properties.

F. By March 30, 1990, develop and implement guidelines for choosing among substantially similar competing bids for single-family properties, consistent with the objectives of the low-income housing provisions and with the statutory directive that the RTC should choose among substantially similar bids for multifamily properties those offers that propose to house more lower income families for longer periods of time.

G. By March 30, 1990, develop procedures for coordinating RTC disposition of eligible residential properties with programs at HUD (including FHA and GNMA), the Farmers Home Administration, and other government agencies and organizations.

H. By June 29, 1990, in consultation with HUD, develop written guidelines for conveyance of assets to state and local government agencies and other agencies and organizations participating in HUD's urban homesteading programs.

I. By June 29, 1990, in consultation with HUD and state housing finance agencies, establish procedures to assure compliance of multi-family residential property owners with the low-income occupancy requirements.

J. By March 30, 1990, provide the Oversight Board with issues and alternatives regarding financing the purchase of low- and moderate-income housing.

K. Consult with the national and regional advisory boards about strategies for meeting the low-income housing goal.

L. Consult with the Federal Housing Finance Board about methods for coordinating, to the extent practical, the affordable housing program and the Community Reinvestment Program.

M. By March 30, 1990, establish guidelines for determining whether eligible properties should be sold individually or in bulk, including an evaluation of savings on disposition costs that may justify price discounts on bulk sales.

N. By March 30, 1990, establish written guidelines for determining if the value of an asset is so low that no reasonable recovery is anticipated. In such cases, the RTC may consider potential public uses, such as housing for lower-income families (including the homeless), urban open space, day care centers for the children of low- and moderate-income families, and other public purposes designated by the Secretary of Housing and Urban Development.

Objective 2. Fully document affordable housing activities to ensure compliance with all relevant statutory requirements.

Implementation Procedures: A. By December 29, 1989, in consultation with the Oversight Board and the Congress, determine the extent of information required to be reported under the provisions of FIRREA and for full and complete disclosure of affordable housing activities.

B. By March 30, 1990, develop and implement, to the extent possible, semiannual and other periodic reports that present information in clear and consistent formats.

D. Conflicts of Interest and Ethical Standards

Goal: Adopt conflicts of interest and ethical standards for RTC employees, officers, advisory board members, contractors, and agents.

Objective 1. Develop regulations and procedures that:

- Govern conflicts of interest, ethical responsibilities, post-employment restrictions and use of confidential information for RTC employees, officers, advisory board members, contractors, and agents and
- Ensure that RTC employees, officers, advisory board members, contractors, and agents meet appropriate competence, experience, integrity, and fitness standards.

Implementation Procedure: Final regulations should be promulgated within 180 days of enactment of FIRREA.

Objective 2. Develop policies and procedures for avoiding political favoritism and undue influence in RTC activities and decisions.

Implementation Procedure: By March 30, 1990, the RTC will develop specific written policies and procedures that draw upon current FDIC policies and that delineate internal operating procedures and methods for responding to inquiries from those who are or have been in political office.

E. External Relations

Goal: Establish and maintain open communications with the Congress, other government offices, and the public to increase understanding of RTC policies and actions.

Objective 1: Promote public understanding of the RTC's policies and actions.

Implementation Procedures: A. As soon as possible, but no later than March 30, 1990, develop written policies and procedures concerning:

- providing timely responses to public inquiries;
- the RTC's working relationship with the National and Regional Advisory Boards;
- mechanisms for accepting general complaints and mechanisms for accepting complaints of discrimination on the basis of race, sex or ethnic group in the solicitation and consideration of offers, as required by FIRREA.

B. Report to Congress on the operations of the RTC as required. The Congressionally-mandated reporting requirements included in Title V of FIRREA are listed in the Appendix to this plan.

C. Prepare other reports requested by the Congress on a timely basis.

Objective 2: As necessary, consult with other government offices in developing policies and procedures.

Implementation Procedures: As needed, create or participate on interagency working groups to resolve interagency issues.

F. Administration

Goal: Assure that the RTC has sufficient and effectively managed human and financial resources to achieve the mission and the goals of the agency.

Objective 1: Assure that the RTC's resources are effectively managed to respond properly and promptly to the agency's needs and priorities.

Implementation Procedures: A. Annually, develop and present to the Oversight Board an operating plan and budget, including a staffing plan, for the upcoming calendar year. The operating plan and budget for 1990 must be submitted to the Oversight Board 60 calendar days from the issuance date of this strategic plan. Subsequent annual budgets shall be presented to the Oversight Board by November 30.

B. Quarterly, the RTC will reassess the allocation of resources and make adjustments.

Objective 2: Ensure fiscal responsibility for operations.

Implementation Procedures: A. As required by FIRREA, provide the Oversight Board with periodic financing requests for prior approval that detail: a) anticipated funding requirements for operations including, case resolutions, high cost funds replacement, liquidity advances, administrative expenses and asset disposition; b) anticipated payments on previously issued notes, guarantees, other obligations, and related activities; and c) any proposed use of notes, guarantees or other obligations. Such financing requests shall be submitted on a quarterly basis or such other period as the Oversight Board determines necessary.

B. Manage assets under RTC jurisdiction and working capital in order to allow case resolutions to proceed at a rate that minimizes the net present value cost to the RTC and the American taxpayer.

C. As soon as practicable, after approval by the Oversight Board, establish the systems and procedures to implement the working capital program.

Objective 3: Respond to required reports in a timely and efficient manner.

Implementation Procedures: A. By December 29, 1989, in consultation with the Oversight Board and Congress, streamline the process for responding to the various reporting requirements imposed on the RTC by Congress, the Oversight Board, and others, to the extent possible.

B. As required by FIRREA, respond to requests from the Oversight Board for any reports, documents, and records that it deems necessary to carry out its oversight responsibilities.

Objective 4: Appraise operations within the RTC, including cooperating fully in independent audits, to assist the Board of Directors and management in ensuring an efficient, economical, and effective application of resources.

Implementation Procedures: A. By March 30, 1990, the RTC Board of Directors and senior management should develop management processes designed to ensure compliance with policies, laws, rules and regulations. At a minimum, these processes should address planning, policy making, personnel, administration, and management information systems.

B. Cooperate fully in the audits performed by the Inspector General.

C. Cooperate fully in the annual audit performed by the Comptroller General, or other independent certified public accountant selected by the Oversight Board, as required by FIRREA.

D. Cooperate fully in periodic reviews and audits of RTC activities performed by the Oversight Board in fulfilling its responsibility for reviewing the overall performance of the RTC, including its work, management activities, and internal controls, and the performance of the RTC relative to approved budget plans as required by FIRREA.

E. Within 60 days of receiving any audit or review, develop follow-up procedures to ensure that deficiencies and recommendations cited in audits and reviews by the Inspector General, Comptroller General, Oversight Board, public accounting firms or others, receive appropriate corrective action.

Appendix to the Strategic Plan—FIRREA, Title V Reporting and Disclosure Obligations for the Resolution Trust Corporation

The following reporting requirements are from Title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (Pub. L. No. 101-73, Section 501, 103 Stat. 183, 363-94) ("FIRREA"). All references to Section 21A, are to Section 21A of the Federal Home Loan Bank Act (12 U.S.C. 1441a), as added by Section 501(a) of FIRREA.

Section 21A(k)(2) (A), (B), and (C)

1. The RTC shall make available to the public:

- Any agreement by the RTC relating to a transaction that provides assistance pursuant to section 13(c) of the Federal Deposit Insurance Act ("section 13(c)"), not later than 30 days after the first meeting of the Oversight Board after such agreement is entered into; and
- All agreements relating to the RTC's review of prior cases pursuant to subsection (b)(11)(B) of 21A.

"Agreement" includes: (a) All documents that effectuate the terms and conditions of the assisted transaction; (b) a comparison by the RTC of the estimated cost of the transaction with the estimated cost of liquidating the insured institution, and (c) a description of any economic or statistical assumptions on which such estimates are based.

The Oversight Board may withhold public disclosure if it determines by a unanimous vote that disclosure would be contrary to the public interest. A written report containing a full explanation of the reasons for such a determination must be published in the Federal Register and transmitted to the House and Senate Banking Committees.

Section 21A(k)(2) (A), (B), and (C)

2. The RTC shall make available to the House and Senate Banking Committees any agreement by the RTC relating to a transaction for which the RTC provides section 13(c) assistance not later than 25 days after the first meeting of the Oversight Board after such agreement is entered into. This requirement is in addition to the RTC's obligation to make such agreements publicly available.

Section 21A(k)(3)(A)

3. The RTC shall submit a report to the Oversight Board and the Congress not later than March 30 of the year following the calendar year for which the report is made, but not later than June 30 of the year following that calendar year. The report shall include:

- The total amount expended on private contractors for the management and disposition of assets;
- The total amount expended on private contractors for the management and disposition of assets for each of the following categories:
  - (a) managing assets;
  - (b) managing or disposing of such assets;
- The total amount expended on private contractors for the management and disposition of assets for each of the following categories:
  - (a) managing assets;
  - (b) managing or disposing of such assets;

Friday
November 3, 1989

VOL 54 ISS 212 NO 3 1989 UMI

Section 21A(k)(3)(A)

3. The RTC shall submit a report to the Oversight Board and the Congress containing the results and conclusions of the review of 1988 and 1989 FSLIC transactions (pursuant to subsection (b)(11)(B) of 21A) and recommendations for legislative action that the RTC may determine to be appropriate.

Section 21A(k)(3)(B)

4. The RTC's Real Estate Asset Division shall publish before January 1, 1990 an inventory of real property assets of institutions subject to the jurisdiction of the RTC. The inventory must be updated semiannually and must identify properties with natural, cultural, recreational, or scientific values of special significance.

Section 21A(b)(12)(F)

5. Annually, the Comptroller General shall audit the financial statements of the RTC unless the Comptroller General notifies the Oversight Board not later than 180 days before the close of a fiscal year that it will not perform an audit for that fiscal year. In that event, the Oversight Board must contract with an independent certified public accountant to perform the annual audit. All books, records, accounts, reports, files, and property belonging to or used by the RTC, or the Oversight Board, or by an independent certified public accountant retained to audit the RTC's financial statement, shall be made available to the Comptroller General.

Sections 21A(k)(1) (A) and (B)

6. The Inspector General of the RTC shall comply with the reporting requirements imposed on the Inspector General pursuant to the Inspector General Act of 1978, as amended.

Section 501(b) of FIRREA

7. The RTC shall: (i) Document decisions made in the solicitation and selection process and the reasons for the decisions; and (ii) maintain such documentation in the offices of the RTC, as well as any other documentation relating to the solicitation and selection process.

Section 21A(b)(13)(C)

8. The Oversight Board and the RTC shall annually submit a full report of their respective operations, activities, budgets, receipts, and expenditures for the preceding 12-month period. The RTC shall submit the annual report to Congress and the President as soon as practicable after the end of the calendar year for which the report is made, but not later than June 30 of the year following that calendar year. The report shall include:

- Audited statements and such information as is necessary to make known the financial condition and operations of the RTC in accordance with generally accepted accounting principles;
- The RTC's financial operating plans and forecasts (including budgets, estimates of actual and future spending and cash obligations) taking into account the Corporation's financial commitments, guarantees, and other contingent liabilities;
- The number of minority and women investors participating in the bidding process for assisted acquisitions and the disposition of assets and the number of successful bids by such investors; and
- A list of the properties sold to State housing finance authorities (as such term is defined in section 1301 of FIRREA), the individual purchase prices of such properties, and an estimate of the premium paid by such authorities for such properties.

Sections 21A(k)(4) (A), (B), and (C)

9. The Oversight Board and the RTC shall submit to Congress not later than April 30 and October 31 of each calendar year, a semiannual report on the activities and efforts of the RTC, the FDIC, and the Oversight Board for the 6-month period ending on the last day of the month prior to the month in which such report is required to be submitted. The report shall include the following information with respect to the RTC's assets and liabilities and to the assets and liabilities of institutions for which the RTC is or has been the conservator or receiver:

- The total book value of all assets held or managed by the RTC at the beginning and end of the reporting period;
- The total book value of assets that are under contract to be managed by private persons and entities at the beginning and end of the reporting period;
- The number of employees of the Corporation, the Federal Deposit Insurance Corporation, and the Oversight Board at the beginning and end of the reporting period;
- The total amounts expended on employee wages, salaries, and overhead, during such period that are attributable to: (a) contracting with, supervising, or reviewing the performance of private contractors, or (b) managing or disposing of such assets;
- The total amount expended on private contractors for the management of such assets;
- The efforts of the RTC to maximize the efficient utilization of the resources of the private sector during the reporting period and in future reporting periods and a description of the policies and procedures adopted to ensure adequate competition and fair and consistent treatment of qualified third parties seeking to provide services to the RTC or the Federal Deposit Insurance Corporation;
- The total book value and total proceeds from such assets disposed of during the reporting period;
- Summary data on discounts from book value at which such assets were sold or otherwise disposed of during the reporting period.
- A list of all of the areas that carried a distressed area designation during the reporting period (including a justification for removal of areas from or addition of areas to the list of distressed areas);
- An evaluation of market conditions in distressed areas and a description of any changes in conditions during the reporting period;
- Any change adopted by the Oversight Board in the minimum disposition price and the reasons for such change; and,
- The valuation method or methods adopted by the Oversight Board or the RTC to value assets and the reasons for selecting such methods.

Sections 21A(k)(5) (A) and (B)

10. Before January 31, 1990, the Oversight Board and the RTC shall appear before the House and Senate Banking Committees to:

- Describe the strategic plan established for the operations of the RTC;
- Describe the policies and procedures established or proposed to be established for the RTC, including specific measures taken to avoid political favoritism or undue influence with respect to the activities of the RTC;
- Provide any regulation proposed to be prescribed by the RTC; and
- Provide the proposed case resolution schedule.

Sections 21A(k)(7) (A) and (B)

Title 3—

The President

Executive Order 12695

Delegation of Debt Relief Authority

By the authority vested in me as President by the Constitution and laws of the United States of America, including the Foreign Assistance Act of 1961, as amended, and section 572 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989 (Public Law 100-461, 102 Stat. 2268), and in order to delegate certain relief authority to the Administrator of the Agency for International Development, it is hereby ordered as follows:

Section 1. *Delegation of Presidential Authority under Section 572 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989.* Section 1-102(a) of Executive Order No. 12163, as amended, is further amended by (A) deleting "and" at the end of subsection (9), (B) deleting the period and inserting "; and" at the end of subsection (10), and (C) adding a subsection (11) as follows:

"(11) section 572 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989 (Public Law 100-461), to be exercised by the Administrator of the Agency for International Development within IDCA, with the concurrence of the Development Coordination Committee, as established by section 640B of the Act and as provided for herein.".

Sec. 2. *Effective Date.* This order shall take effect immediately.

THE WHITE HOUSE,
November 1, 1989.

Public Laws

are now available for the 101st Congress, 1st Session, 1989

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 101st Congress, 1st Session, 1989.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

Federal Register
Vol. 54, No. 213
Monday, November 6, 1989

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 54 FR 12345.

SUBSCRIPTIONS AND COPIES

PUBLIC

Subscriptions:

Paper or fiche	202–783–3238
Magnetic tapes	275–3328

THE FEDERAL REGISTER

WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

SAN FRANCISCO, CA

WHEN: November 29; at 9:00 a.m.
WHERE: Room 15138,
450 Golden Gate Avenue,
San Francisco, CA.
RESERVATIONS: Call Mary Walters at the San Francisco Federal Information Center,
415–556–0600.

SEATTLE, WA

WHEN: November 30; at 1:00 p.m.
WHERE: South Auditorium, 4th Floor,
915 2nd Avenue,
Seattle, WA.
RESERVATIONS: Call Carmen Meier or Peggy Groff at the Portland Federal Information Center on the following numbers:
Seattle: 206–442–0570,
Tacoma: 206–383–7970,
Portland: 503–326–2222.

WASHINGTON, DC

WHEN: December 7, at 9:00 a.m.
WHERE: Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC.
RESERVATIONS: 202–523–5240.

The President

Memorandum of October 26, 1989

Determination Under Subsections 402(a) and 409(a) of the Trade Act of 1974—Emigration Policies of the Republic of Hungary

Memorandum for the Secretary of State

Pursuant to the authority vested in me under the Trade Act of 1974 (Public Law 93–618, hereinafter "the Act"), I determine that the Republic of Hungary is not in violation of paragraph (1), (2), or (3) of Subsection 402(a) of the Act, 19 U.S.C. 2432 (a), or paragraph (1), (2), or (3) of Subsection 409(a) of the Act, 19 U.S.C. 2439(a).

You are authorized and directed to publish this Determination in the **Federal Register.**

Memorandum of October 31, 1989

Actions Concerning the Generalized System of Preferences

Memorandum for the United States Trade Representative

Pursuant to subsection 504(d)(1) of the Trade Act of 1974, as amended (the Act) (19 U.S.C. 2464(d)(1)), I have determined to modify the application of duty-free treatment under the Generalized System of Preferences (GSP) currently being afforded to beneficiary developing countries. Specifically, I have determined, pursuant to subsection 504(d)(1) of the Act, that the limitation provided for in subsection 504(c)(1)(B) of the Act should not apply with respect to certain eligible articles because no like or directly competitive article was produced in the United States on January 3, 1985. Such articles are provided for in the following Harmonized Tariff Schedule of the United States (HTS) subheadings:

HTS Subheading
9101.12.80
9101.91.20
9101.91.40
9101.91.60
9101.99.20

Vol. 54, No. 213
Monday, November 6, 1989

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 354

[Docket No. 89-180]

Commuted Traveltime Periods

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are amending the regulations concerning overtime services provided by employees of Plant Protection and Quarantine (PPQ) by adding or removing commuted traveltime allowances for various locations in California, Minnesota, and Texas. Commuted traveltime allowances are the periods of time required for PPQ employees to travel from their dispatch points and return there from the places where they perform Sunday, holiday, or other overtime duty. The Government charges a fee for certain overtime services provided by PPQ employees and, under certain circumstances, the fee may include the cost of commuted taveltime. This action is necessary to inform the public of the commuted traveltime between these locations.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Paul R. Eggert, Director, Resource Management Support, PPQ, APHIS, USDA, room 623, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-7764.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR, chapter III, and 9 CFR chapter I, subchapter D, require inspection, laboratory testing, certification, or quarantine of certain plants, plant products, animal and animal byproducts, or other commodities intended for importation into, or exportation from, the United States. When these services must be provided by an employee of Plant Protection and Quarantine (PPQ) on a Sunday or holiday, or at any other time outside the PPQ employee's regular duty hours, the Government charges a fee for the services in accordance with 7 CFR part 354. Under circumstances described in § 354.1(a)(2), this fee may include the cost of commuted traveltime. Section 354.2 contains administrative instructions prescribing commuted traveltime allowances, which reflect, as nearly as is practicable, the time required for PPQ employees to travel from their dispatch points and return there from the places where they perform Sunday, holiday, or other overtime duty.

We are amending § 354.2 of the regulations by adding or removing commuted traveltime allowances for various locations in California, Minnesota, and Texas. The amendments are set forth in the rule portion of this document. This action is necessary to inform the public of the commuted traveltime between the dispatch and service locations.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conforming with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

The number of requests for overtime services of a PPQ employee at the locations affected by our rule represents an insignificant portion of the total number of requests for these services in the United States.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Effective Date

The commuted traveltime allowance appropriate for employees performing services at ports of entry, and the features of the reimbursement plan for recovering the cost of furnishing port of entry services, depend upon facts within the knowledge of the Department of Agriculture. It does not appear that public participation in this rulemaking proceeding would make additional relevent information available to the Department.

Accordingly, pursuant to the administrative procedure provisions in 5 U.S.C. 553, we find upon good cause that prior notice and other public procedure with respect to this rule are impracticable and unnecessary; we also find good cause for making this rule effective less than 30 days after publication of this document in the **Federal Register**.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

List of Subjects in 7 CFR Part 354

BILLING CODE 3410-34-M

Agricultural Marketing Service

7 CFR Part 905

[Docket No. FV-89-095IR]

Oranges, Grapefruit, Tangerines, and Tangelos Crown in Florida; Handling Requirement Conforming Changes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule makes conforming changes in the handling requirements issued as informal rules under the marketing order for oranges, grapefruit, tangerines, and tangelos grown in Florida. These changes are necessary to bring the handling requirements into conformity with a recent marketing order amendment which reclassified Canada and Mexico as export rather than domestic markets for the purposes of grade, size and other regulatory activity. The amendment was effective September 8, 1989.

DATES: The conforming changes become effective November 6, 1989. Comments which are received by December 6, 1989, will be considered prior to issuance of the final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule to: Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525-S, Washington, DC 20090-6456. Three copies of all written material shall be submitted, and they will be made available for public inspection at the office of the Docket Clerk during regular business hours. All comments should reference the docket number, date, and page number of this issue of the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2525-S, Washington, DC 20090-6456; telephone: (202) 475-3918.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Marketing Order No. 905, both as amended (7 CFR part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 100 Florida citrus handlers subject to regulation under the marketing order covering oranges, grapefruit, tangerines, and tangelos grown in Florida. In addition, there are about 13,000 orange, grapefruit, tangerine, and tangelo producers in Florida. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having average annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. A minority of these handlers and a majority of the producers may be classified as small entities.

Marketing Order No. 905 was amended on September 8, 1989, (54 FR 37290). Under that amendment, §§ 905.9 and 905.52 were changed to classify Canada and Mexico as export markets to better meet the needs of buyers in those markets. Before the amendment, Canada and Mexico, along with the United States, were defined as the domestic market, and current handling regulations under the order were issued on that basis. The marketing order provides for different requirements for domestic and export shipments.

Minimum grade and size requirements are now in effect for several varieties of fresh Florida oranges, grapefruit, tangerines, and tangelos under § 905.306 of the order. Paragraph (a) of that section specifies the requirements for shipments to domestic market (United States, Canada, and Mexico). Paragraph (b) specifies the requirements for all other shipments (exports). This action amends § 905.306, so all Florida citrus fruit shipped to Canada and Mexico is regulated under paragraph (b) as exports, rather than under paragraph (a) as domestic shipments. Section 905.9 of the order was amended by changing the term "continental United States" to "contiguous 48 States and the District of Columbia of the United States". This change is incorporated in § 905.306. Some minor, non-substantive changes are also made for clarity.

This action will enable Florida citrus handlers to ship fruit to Canada and Mexico which meets the grade and size requirements for export shipments in conformance with the recent order amendment. Canada is an important market for Florida grapefruit, and this action will enable handlers to ship smaller sized grapefruit to Canada, which is in demand in that country.

Section 905.400 of the rules and regulations contains provisions which interpret the provisions of paragraph (d) in § 905.52. These provisions pertain to fruit incidentally packed as part of a lot for export when shipping holiday regulations are in effect for domestic shipments. Since the order amendment changed paragraph (d) in § 905.52 by deleting the reference to Canada and Mexico, this rule will make a corresponding changes in § 905.400, as well as several minor, non-substantive changes for clarity.

Both §§ 905.306 and 905.400 are effective on a continuing basis subject to change, suspension, or termination by the Secretary.

The Department's view is that the impact of this action upon handlers and producers will be beneficial because it will enable handlers to provide fruit consistent with the demand conditions in the domestic and export markets. Acceptable grades and sizes of Florida citrus fruit have been shipped to fresh markets over the past several years because handling requirements have been in effect under the marketing order.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented and other available information, it is found that this rule will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that, upon good cause, it is impracticable, unnecessary and contrary to the public interest to give notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action changes the handling requirements for Florida citrus to conform with the recently amended marketing order; (2) Florida citrus growers approved the order amendment which classified Canada and Mexico as export markets; (3) a majority of the Florida citrus handlers have signed the amended marketing agreement; (4) the 1989-90 Florida citrus shipping season began in early September, and the handling regulations should be changed as soon as possible to be of maximum benefit to the industry; and (5) the rule provides a 30-day comment period, and any comments received will be considered prior to issuance of a final rule.

List of Subjects in 7 CFR Part 905

Marketing agreements and orders, Florida, grapefruit, oranges, tangelos, tangerines.

For the reasons set forth in the preamble, 7 CFR part 905 is amended as follows:

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

1. The authority citation for 7 CFR part 905 continues to read as follows:

Authority: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.

2. The provisions of § 905.306 are amended by revising the text of paragraphs (a) and (b) preceding Tables I and II to read as follows:

Note: This action will be published in the Code of Federal Regulations.

§ 905.306 Orange, Grapefruit, Tangerine, and Tangelo Regulation 6.

(a) During the period specified in column (2) of Table I, no handler shall ship between the production area and any point outside thereof, in the 48 contiguous States and the District of Columbia of the United States, any variety of fruit listed in column (1) of such table unless such variety meets the applicable minimum grade and size (with tolerances for size as specified in paragraph (c) of this section) specified for such variety in columns (3) and (4) of such table.

* * * * *

(b) During the period specified in column (2) of Table II, no handler shall ship to any destination outside the 48 contiguous States and the District of Columbia of the United States any variety of fruit listed in column (1) of such table unless such variety meets the applicable minimum grade and size (with tolerances for size as specified in paragraph (c) of this section) specified for such variety in columns (3) and (4) of such table.

* * * * *

3. Section 905.400 is revised to read as follows:

§ 905.400 Interpretation of certain provisions.

(a) In interpreting the provisions of paragraph (d) of § 905.52, the limitation on shipment of any variety of fruit regulated pursuant to paragraph (a)(3) of that section, which was prepared for market during the effective period of such regulation, shall not be deemed to apply to shipment of such variety which was prepared for market incidentally as part of a lot packed for export and shipped following the period of regulation.

(b) Prior to shipment of any variety of fruit so prepared, the handler shall provide the Citrus Administrative Committee or its designated agent a copy of the shipping manifest applicable to such shipment with a notation thereon that the fruit was packed incidentally as part of a lot packed for export.

Dated: November 1, 1989.

William J. Doyle,

Acting Deputy Director, Fruit and Vegetable Division.

[FR Doc. 89-26092 Filed 11-3-89; 8:45 am]

BILLING CODE 3410-02-M

7 CFR Part 905

[Docket No. FV-89-106IR]

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida; Dancy Tangerine Minimum Size Relaxation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule temporarily reduces the minimum size requirements for domestic shipments of Florida Dancy tangerines from 2 9/16 inches in diameter to 2 5/16 inches in diameter. This action is based on an analysis of the size composition, maturity level, and current prospective market demand conditions for the 1989-90 Florida Dancy tangerine crop. The Florida Dancy tangerine size relaxation is effective for the period November 27, 1989 through August 19, 1990.

DATES: Effective November 27, 1989. Comments which are received by December 6, 1989, will be considered prior to issuance of the final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule to: Docket Clerk, Fruit and Vegetable Division, AMD, USDA, P.O. Box 96456, Room 2525-S, Washington, DC 20090-6456. Three copies of all written material shall be submitted, and they will be made available for public inspection at the office of the Docket Clerk during regular business hours. All comments should reference the docket number, date, and page number of this issue of the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. 96456, Room 2525-S, Washington, DC 20090-6456; telephone: (202) 475-3918.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Marketing Order No. 905, both as amended (7 CFR part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regultion 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the

VOL 54 ISS 213 NO 6 1989 UMI

Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 100 Florida citrus handlers subject to regulation under the marketing order covering oranges, grapefruit, tangerines, and tangelos grown in Florida. In addition, there are about 13,000 producers of these citrus fruits in Florida. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having average annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. A minority of Florida citrus handlers and a majority of the producers may be classified as small entities.

Section 905.306 of the rules and regulations (7 CFR 905.306) specifies minimum grade and size requirements for Florida Dancy tangerines for both the domestic and export markets. The domestic market requirements are specified in that section in Table I of subsection (a). The domestic market is defined as the 48 contiguous States and the District of Columbia of the United States by an amendment to the marketing order (54 FR 37290, September 8, 1989), which revised §§ 905.9 and 905.52. Section 905.306 has been amended by an interim final rule, published in the Federal Register concurrently with this interim final rule, which reflects these changes to the order.

This action reduces the minimum size requirements for domestic shipments of Florida Dancy tangerines to 2 4/64 inches in diameter from 2 9/64 inches for the period November 27, 1989 through August 19, 1990. This follows the practice of prior years of lowering size requirements for Dancy tangerines each season once the smaller fruit reaches an acceptable level of flavor and maturity. Dancy tangerine shipments normally start by mid-November and peak in mid-December. This action is designed to maximize shipments to fresh market channels. The increased shipments should result in an economic benefit to the handlers and producers.

The Citrus Administrative Committee (committee) unanimously recommended this action based on expected market conditions and a projection of the expected maturity, flavor level, and size composition of that portion of the 1989-90 crop remaining for shipment after November 26. Prior to that date smaller Dancy tangerines are typically too hard and sour to be acceptable to most consumers. Shipment of such fruit could result in consumer disappointment and reduced late season demand for tangerines. By November 27 of this season, the committee expects 2 4/64 inch Dancy tangerines to reach the level of maturity and flavor which consumers prefer.

The reduced size requirements for Dancy tangerines are effective only for the 1989-90 shipping season, and the tighter minimum requirements will resume on August 20, 1990, for 1990-91 season shipments. The resumption of tighter requirements recognizes that smaller Dancy tangerines are not sufficiently flavorful early in the season, and is based upon the anticipated maturity, size, quality, and flavor characteristics of the fruit early in the shipping season.

The committee, which administers the marketing order locally, met September 19, 1989, and unanimously recommended this action based on an analysis of current and prospective marketing conditions and the 1989-90 season crop. The committee meets prior to and during each season to review the handling requirements effective, on a continuous basis for each regulated citrus fruit. Committee meetings are open to the public, and interested persons may express their views at these meetings. The U.S. Department of Agriculture reviews committee recommendations and information submitted by the committee and other available information and determines whether modification, suspension, or termination of the handling requirements would tend to effectuate the declared policy of the Act.

Some Florida citrus fruit shipments are exempt from the handling requirements effective under the marketing order. Handlers may ship up to 15 standard packed cartons (12 bushels) of fruit per day under a minimum quantity exemption provision. Also, handlers may ship up to two standard packed cartons of fruit per day in gift packages which are individually addressed and not for resale, under the current exemption provisions. Fruit shipped for animal feed is also exempt under specific conditions. In addition, fruit shipped to commercial processors for conversion into canned or frozen products or into a beverage base is not subject to the handling requirements.

Based on the above, the Administrator of AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented, the information and recommendations submitted by the committee, and other available information, it is found that this action will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined, upon good cause, that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register because: (1) This action relaxes size requirements currently in effect for Florida Dancy tangerines; (2) Florida Dancy tangerine handlers are aware of this action which was recommended by the committee at a public meeting and they will need no additional time to comply with the relaxed requirements; (3) shipment of the 1989-90 season Florida Dancy tangerine crop will be underway by November 27, 1989; and (4) the rule provides a 30-day comment period, and any comments received will be considered prior to issuance of a final rule.

BILLING CODE 3410-02-M

7 CFR Part 906

[Docket No. FV-89-100FR]

Oranges and Grapefruit Grown in Lower Rio Grande Valley in Texas; 1989-90 Expenses and Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule authorizes expenditures and establishes an assessment rate for the 1989-90 fiscal period for the Texas Valley Citrus Committee (committee), established under Marketing Order No. 906. This action is needed by the committee to enable it to pay marketing order expenses, collect assessments from handlers to pay those expenses, and perform its other duties under the order.

EFFECTIVE DATES: August 1, 1989, through July 31, 1990.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525-S, Washington, DC 20090-6456, telephone 202-475-3916.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Marketing Order No. 906, both as amended (7 CFR part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 115 handlers subject to regulation under the marketing order for oranges and grapefruit grown in Texas, and about 2,500 orange and grapefruit producers in Texas. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of these handlers and producers may be classified as small entities.

The marketing order for Texas oranges and grapefruit, administered by the U.S. Department of Agriculture (Department), requires that the assessment rate for a particular fiscal period shall apply to all of the assessable commodities handled from the beginning of such period. An annual budget of expenses is prepared by the committee and submitted to the Department for approval. The members of the committee are handlers and producers of Texas oranges and grapefruit. They are familiar with the committee's needs and with the costs for goods, services, and personnel in their local area and are thus in a position to formulate an appropriate budget. The budget is formulated and discussed in public meetings. Thus, all directly affected persons have an opportunity to participate and provide input.

The assessment rate recommended by the committee is derived by dividing anticipated expenses by the expected shipments of Texas oranges and grapefruit in 7/10-bushel cartons. Because that rate is applied to actual shipments, it must be established at a rate which will produce sufficient income to pay the committee's expected expenses. The recommended budget and rate of assessment are usually acted upon by the committee shortly before a season starts, and expenses are incurred on a continuous basis. Therefore, budget and assessment rate approvals must be expedited so that the committee will have funds to pay its expenses.

The committee met on September 5, 1989, and unanimously recommended approval of expenditures of $1,498,634 for the 1989-90 fiscal period. In comparison, budgeted expenditures were $1,376,634 for 1988-89. Major expenditure items for 1989-90 compared with 1988-89 (in parentheses) are as follows: Program Administration—$150,000 ($153,000); Mexican Fruit Fly Program—$143,634; and Advertising and Promotion—$1,203,000 ($1,080,000). The expenditures for administration are generally comparable to those for the last fiscal period.

The committee also unanimously recommended approval of an assessment rate of $0.12 per 7/10-bushel carton of oranges and grapefruit shipped during the 1989-90 fiscal period. This same rate was in effect during the last fiscal period. Assessment income is estimated at $961,600 based on 8,015,000 cartons of assessable fruit shipped during 1989-90. Interest income is estimated at $30,000 for 1989-90. Also, the committee has $126,000 in prepaid advertising available and it expects its promotion and advertising effort to generate $98,000 from sales of promotional material. In addition, the committee contemplates withdrawing $282,834 from its reserve.

The committee further unanimously recommended that unexpended funds from the 1988-89 fiscal period be placed in its reserve fund. The committee's current reserve, which amounted to $706,486 on August 1, 1989, is well within the maximum authorized under the order.

While this action will impose some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs will be significantly offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

This action adds new § 906.229 and is based on the committee's recommendations and other information. A proposed rule concerning this action was published in the Federal Register (54 FR 41249, October 6, 1989). Comments on the proposed rule were invited from interested persons until

October 16, 1989. No comments were received.

After consideration of the information and recommendations submitted by the committee and other available

William J. Doyle,

Acting Deputy Director, Fruit and Vegetable Division.

considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of

October 16, 1989. No comments were received.

After consideration of the information and recommendations submitted by the committee and other available information, it is found that this final rule will tend to effectuate the declared policy of the Act.

This final rule should be expedited because the committee needs sufficient funds to pay its expenses, which are incurred on a continuous basis during the entire fiscal period. In addition, handlers are aware of the action, which was recommended by the committee at a public meeting. Therefore, it is found that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** (5 U.S.C. 553).

List of Subjects in 7 CFR Part 906

Grapefruit, Marketing agreements and orders, Oranges, Texas.

For the reasons set forth in the preamble, 7 CFR part 906 is amended as follows:

PART 906—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO VALLEY IN TEXAS

1. The authority citation for 7 CFR part 906 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. New § 906.229 is added to read as follows:

Note: This section prescribes the annual budget and assessment rate and will not be published in the Code of Federal Regulations.

§ 906.229 Expenses and assessment rate.

Expenses of $1,496,634 by the Texas Valley Citrus Committee are authorized, and an assessment rate of $0.12 per 7/10-bushel carton of assessable oranges and grapefruit is established for the fiscal period ending July 31, 1990. Unexpended funds from the 1988–89 fiscal period may be carried over as a reserve.

Dated: November 1, 1989.

7 CFR Part 926

[Docket No. FV–89–104]

California Tokay Grapes; Increase in Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule increases the assessment rate under Marketing Order 926, California Tokay grapes, for the 1989–90 fiscal period. Funds to administer this program are derived from assessments on handlers.

EFFECTIVE DATES: April 1, 1989 through March 31, 1990.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone 202–447–5331.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 93 and Marketing Order No. 926 (7 CFR Part 926), regulating the handling of Tokay grapes grown in San Joaquin County, California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 10 handlers of California Tokay grapes under this marketing order, and approximately 20 California Tokay grape producers. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of the handlers and producers may be classified as small entities.

The budget of expenses for the 1989–90 fiscal year was prepared by the Tokay Industry Committee (committee), the agency responsible for local administration of the marketing order, and submitted to the Department of Agriculture for approval. The members of the committee are handlers and producers of grapes. They are familiar with the committee's needs and with the costs for goods, services and personnel in their local area and are thus in a position to formulate an appropriate budget. The budget was formulated and discussed in public meetings. Thus, all directly affected persons have had an opportunity to participate and provide input.

The assessment rate recommended by the committee was derived by dividing anticipated expenses by expected shipments of Tokay grapes. Because that rate is applied to actual shipments, it must be established at a rate which will produce sufficient income to pay the committee's expected expenses. A recommended budget and rate of assessment is usually acted upon by the committee before the season starts, and expenses are incurred on a continuous basis. Therefore, budget and assessment rate approvals must be expedited so that the committee will have funds to pay its expenses.

On August 15, 1989, expenses of $13,575 by the Tokay Industry Committee were approved and an assessment rate of 6 cents per 23-pound lug of grapes was established for the fiscal period ending March 31, 1990 (54 FR 34483). The committee conducted a telephone poll on September 6, 1989, and unanimously recommended increasing the assessment rate established for the 1989–90 fiscal year from 6 cents to 7 cents per 23-pound lug. The reason for the assessment rate increase is that Tokay grape production for this season will be less than anticipated. Severe heat and heavy rains have contributed to a large number of Tokay grapes failing to meet fresh market requirements because of sunburn and decay. While fresh market shipments for the 1989 season were projected at 200,000 23-pound lugs, the estimate has been reduced to 175,000 lugs. The original assessment rate would have yielded $12,000 in assessment income if the level of expected fresh market shipments was achieved. With the reduced estimate, such income will fall about $1,500 short of the amount anticipated. Revenues would therefore be $3,075 less than the committee's budgeted expenses of $13,575. However, the committee does not have adequate funds in its reserve to meet this need. The assessment rate increase would yield $1,750 in additional income if the revised level of fresh market shipments is met.

While this action imposes some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs are offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

A proposed rule was published in the **Federal Register** on October 6, 1989 (54 FR 41251). That document contained a proposal to increase the assessment rate under M.O. 926. That rule provided that interested persons could file comments through October 16, 1989. No comments were received.

It is found that the 1989–90 fiscal period assessment rate increase, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

This action should be expedited because the committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. The 1989–90 fiscal period began in April, and the marketing order requires that the assessment rate apply to all assessable Tokay grapes handled during the fiscal period. Therefore, it is also found that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** (5 U.S.C. 553).

List of Subjects in 7 CFR Part 926

California, Marketing agreements and orders, Tokay grapes.

For the reasons set forth in the preamble, 7 CFR part 926 is amended as follows:

PART 926—TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

1. The authority citation for 7 CFR part 926 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 926.228 is revised to read as follows:

Note: This section prescribes an assessment rate increase and will not be published in the Code of Federal Regulations.

§ 926.228 Expenses and assessment rate.

Expenses of $13,575 by the Tokay Industry Committee are authorized and an assessment rate of $0.07 per 23-pound lug of grapes is established for the fiscal year ending March 31, 1990. Unexpended funds may be carried over as a reserve.

7 CFR Part 948

[Docket No. FV–89–080]

Irish Potatoes Grown in Colorado; Amendment to Establish Pack Requirements for Small Sized Potatoes and Revise Handling Requirements for Potatoes for Export

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule establishes pack requirements to permit the shipment of potatoes with a minimum diameter of 1 inch and a maximum diameter of 1¾ inches, that otherwise grade at least U.S. No. 1, to fresh domestic and export markets. The objective of this action is to facilitate the movement of such potatoes to meet current consumer demand. This rule also establishes a minimum grade requirement and revises the minimum size requirement for potatoes for export. The intent of this action is to require that all Colorado Area 2 potatoes, regardless of destination, meet the same minimum quality and size requirements established under the marketing order.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone (202) 447–5331.

SUPPLEMENTARY INFORMATION:

This rule is issued under Marketing Agreement No. 97 and Marketing Order No. 948 (7 CFR part 948), both as amended, regulating the handling of Irish potatoes grown in Colorado. The marketing agreement and order are authorized by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 100 handlers of Colorado Area 2 potatoes under this marketing order, and approximately 290 potato producers. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers may be classified as small entities.

Shipments of the 1988 Colorado Area 2 potato crop through June, 1989 totalled 13.5 million hundredweight. Typically, about 97 percent of total shipments are to fresh markets and 3 percent to processors.

By far, the majority of the potatoes shipped from the production area are of the Centennial Russet variety, which generally accounts for about 70 percent of the total. Approximately 24 percent is Russet Burbanks, five percent red varieties, and one percent other varieties.

The grade composition of fresh market shipments averages about 65 percent U.S. No. 1, 20 percent U.S. Commercial, 10 percent U.S. No. 2, and five percent U.S. No. 1/Size B.

The handling requirements for fresh market shipments of Colorado Area 2 potatoes are specified in 7 CFR 948.386 (as amended at 53 FR 8145, March 14, 1988; 54 FR 805, January 10, 1989; 54 FR 961, January 11, 1989; and 54 FR 11490, March 21, 1989) and, with the exception of the maturity requirements, are in effect all year long. The current minimum grade, size, and maturity requirements provide that fresh potatoes be shipped under the following conditions. Round variety potatoes must grade at least U.S. No. 2 and be at least 2 inches in diameter. All long type potatoe varieties, except Centennial Russets, must grade at least U.S. No. 2 and be at least 1⅞ inches to diameter. Centennial Russets must grade U.S. No. 2 or better and be at least 2 inches in diameter or 4 ounces in weight. All

VOL 54 ISS 213 NO 6 1989 UMI

varieties of potatoes may be size B if they otherwise grade U.S. No. 1 or better. Size B potatoes have a minimum diameter of 1⅛ inches and a maximum diameter of 2¼ inches. All varieties of potatoes being exported must be at least 1⅛ inches in diameter, and are not subject to a minimum grade requirement. Maturity requirements during the period August 25 through October 31 specify that potatoes grading U.S. No. 2 cannot be more than "moderately skinned" and potatoes grading other than U.S. No. 2 cannot be more than "slightly skinned".

This rule revises current requirements to permit the shipment of potatoes ranging in size from 1 inch to 1¾ inches in diameter if such potatoes otherwise grade at least U.S. No. 1. This action also requires potatoes shipped for export to meet the same quality and size requirements as those shipped domestically. These changes were unanimously recommended at a meeting held June 15, 1989, by the Colorado Potato Administrative Committee, San Luis Valley Office (Area 2) (committee), which is responsible for local administration of the marketing order.

In recent years, consumer demand for high quality, small-sized potatoes as a specialty food item has grown significantly. There is a specific market for high quality potatoes that are smaller than a size B, which range in size from 1⅛ to 2¼ inches in diameter. These smaller potatoes are referred to as "creamers", and when available, often command premium prices. Consumer demand has continued to strengthen for these high quality, smaller potatoes particularly for those that are red-skinned. Virtually all round potatoes grown in Colorado Area 2 are red-skinned, which typically account for approximately five percent of the total crop. Centennial Russets and Russet Burbanks (long white varieties) are the other dominant varieties. There are minimal shipments of round white potatoes from this area.

Given the changing market requirements, the committee has concluded that handlers should be provided the opportunity to ship "creamers", which range in size from 1 to 1¾ inches in diameter if they otherwise grade at least U.S. No. 1. This rule revises the handling regulation accordingly. These "creamers" will have to be segregated from potatoes of larger size, and cannot be commingled in the same container with those larger potatoes. This pack requirement will enable shippers to fill specific orders for the small, high quality potatoes, without adversely affecting the market for larger potatoes.

Currently, potatoes shipped to export markets are required to be at least 1⅛ inches in diameter and are not subject to a minimum grade requirement. The committee reports that export opportunities for Colorado shippers are limited, but that some production area potatoes are exported to Mexico. Problems have arisen in recent seasons when ungraded potatoes, often of marginal quality, were destined for Mexico but were subsequently diverted and actually sold in U.S. markets. The committee unanimously recommended that potatoes for export meet the same quality and size requirements as are imposed on potatoes sold in domestic markets. This action will provide assurance that only potatoes of acceptable quality and size enter commercial fresh market channels.

Quality assurance is very important to the Colorado Area 2 potato industry. Providing the public with quality potatoes which are appealing and responsive to consumer trends is necessary in order to maintain market share. This rule is expected to foster increased consumption and benefit Colorado Area 2 potato growers and handlers.

Section 8e of the Act requires that when certain domestically produced commodities, including Irish potatoes, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements. Section 8e also provides that whenever two or more marketing orders regulating a commodity produced in different areas of the United States are concurrently in effect, the Secretary shall determine which of the areas produces the commodity in most direct competition with the imported commodity. Imports then must meet the quality standards set for that particular area.

In the case of potatoes, the current import regulation (7 CFR 980.1) specifies that import requirements for long types be based on those in effect for potatoes grown in certain designated counties in Idaho, and Malheaur County, Oregon (7 CFR part 945) during each month of the year. The import requirements for round white types are based on those in effect for potatoes grown in Southeastern States from June 5 to July 31 (7 CFR part 953), and on those in effect for potatoes grown in Colorado Area 3 for the remainder of the year (7 CFR part 948).

The quality standards imposed upon imports of red-skinned, round type potatoes are based on that type grown in Washington during the months of July and August (7 CFR part 946). During the remainder of the year, the import requirements are based upon those in effect for potatoes grown in Colorado Area 2 (7 CFR part 948).

Because this rule establishes a mininum size requirement of 1 inch in diameter for all Colorado Area 2 potatoes grading at least U.S. No. 1, and since import requirements for red-skinned varieties are based on those established for potatoes grown in Colorado Area 2, this change is also applicable to imports of red-skinned, round type potatoes from September 1 to June 30 each season.

No change is required in the language of § 980.1 or § 948.386(h) Applicability to imports or the findings and the determinations made therein.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

Notice of this action was given in the August 21, 1989, **Federal Register** (54 FR 34524) providing interested persons until September 20, 1989, to file written comments. No comments were received.

After consideration of all relevant matter presented, including the information and recommendations submitted by the committee and other available information, it is hereby found that the rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because the shipping season for Colorado Area 2 potatoes has already begun and this rule, in order to be of maximum benefit, should apply to as many shipments as possible. Additionally, interested persons were provided a 30-day comment period with which to respond to the proposed rule.

List of Subjects in 7 CFR Part 948

Colorado, Marketing agreements and orders, Potatoes.

For the reasons set forth in the preamble, 7 CFR part 948 is amended as follows:

PART 948—IRISH POTATOES GROWN IN COLORADO

BILLING CODE 3410-02-M

7 CFR Part 955

[Docket No. FV–89–101]

Georgia Vidalia Onions; Expenses and Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule authorizes expenditures and establishes an assessment rate under Marketing Order 955 for the 1989–90 fiscal period. Authorization of this budget will allow the Vidalia Onion Committee to incur expenses that are reasonable and necessary to administer the program. Funds to administer this program are derived from assessments on handlers.

EFFECTIVE DATES: September 16, 1989 through September 15, 1990.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone 202–447–5331.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 955 and Marketing Order No. 955 (7 CFR part 955), regulating the handling of Vidalia onions grown in Georgia. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 160 handlers and 260 producers of Vidalia onions in that portion of Georgia covered under this marketing order. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of the handlers and producers may be classified as small entities.

The budget of expenses for the 1989–90 fiscal year was prepared by the Vidalia Onion Committee (committee), the agency responsible for local administration of the marketing order, and submitted to the Department of Agriculture for approval. The members of the committee are handlers and producers of Vidalia onions. They are familiar with the committee's needs and with the costs for goods, services and personnel in their local area and are thus in a position to formulate an appropriate budget. The budget was formulated and discussed in a public meeting. Thus, all directly affected persons have had an opportunity to participate and provide input.

The assessment rate recommended by the committee was derived by dividing anticipated expenses by expected shipments of Vidalia onions. Because that rate is applied to actual shipments, it must be established at a rate which will produce sufficient income to pay the committee's expected expenses.

The committee met on August 31, 1989, and unanimously recommended a 1989–90 budget of $157,808. Last season's budget was $150,000. Major expenses items include increases in committee staff salaries and marketing development and production research projects.

The committee also unanimously recommended an assessment rate of $0.10 per 50-pound bag, the same rate as last season's. This rate, when applied to anticipated shipments of 1.5 million 50-pound bags of onions, would yield $150,000 in assessment revenue. This amount when added to $7,808 from the reserve fund would be adequate to cover budgeted expenses.

While this action imposes some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs are offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

A proposed rule was published in the **Federal Register** on October 6, 1989 (54 FR 41252). That document contained a proposal to add § 955.202 to authorize expenses and establish an assessment rate for the committee. That rule provided that interested persons could file comments through October 16, 1989. No comments were received.

It is found that the specified expenses are reasonable and likely to be incurred and that such expenses and the specified assessment rate to cover such expenses will tend to effectuate the declared policy of the Act.

This action should be expedited because the committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. The 1989–90 fiscal period began in mid-September, and the marketing order requires that the rate of assessment apply to all assessable Vidalia onions handled during the fiscal period. In addition, handlers are aware of this action which was recommended by the committee at a public meeting. Therefore, it is also found that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** (5 U.S.C. 553).

Funds to administer this program are derived from assessments on handlers.

EFFECTIVE DATE: August 1, 1989 through July 31, 1990.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone 202–447–5331.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 125 and Marketing Order No. 966 [7 CFR part 966], regulating the handling of tomatoes grown in Florida. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended [7 U.S.C. 601–674], hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 100 handlers and 180 producers of Florida tomatoes covered under this marketing order. Small agricultural producers have been defined by the Small Business Administration [13 CFR 121.2] as those having annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of the handlers and producers may be classified as small entities.

The budget of expenses for the 1989–90 fiscal year was prepared by the Florida Tomato Committee (committee), the agency responsible for local administration of the marketing order, and submitted to the Department of Agriculture for approval. The members of the committee are handlers and producers of tomatoes. They are familiar with the committee's needs and with the costs for goods, services and personnel in their local area and are thus in a position to formulate an appropriate budget. The budget was formulated and discussed in a public meeting. Thus, all directly affected persons have had an opportunity to participate and provide input.

The assessment rate recommended by the committee was derived by dividing anticipated expenses by expected shipments of Florida tomatoes. Because that rate is applied to actual shipments, it must be established at a rate which will produce sufficient income to pay the committee's expected expenses.

The committee met on September 7, 1989, and unanimously recommended a 1989–90 budget of $1,613,500. Last season's budget was $1,537,000. The major expense allocation is for education and promotion projects, which at a total of $1,098,000 accounts for about 70 percent of the budget. Other major expense items include increases for production research projects, committee staff salaries, employee health insurance and retirement programs, office rent and social security taxes.

The committee also unanimously recommended an assessment rate of $0.025 per 25-pound container, the same rate as last year's. This rate, when applied to anticipated shipments of 58.2 million 25-pound containers, would yield $1,455,000 in assessment revenue. This amount when added to $45,000 of other income (e.g., interest revenue) and $113,500 from the reserve would be adequate to cover budgeted expenses. Additional reserve funds may be used to meet any deficit in assessment income.

While this action imposes some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs are offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

A proposed rule was published in the Federal Register on October 6, 1989 [54 FR 41253]. That document contained a proposal to add § 966.227 to authorize expenses and establish an assessment rate for the committee. That rule provided that interested persons could file comments through October 16, 1989. No comments were received.

It is found that the specified expenses are reasonable and likely to be incurred and that such expenses and the specified assessment rate to cover such expenses will tend to effectuate the declared policy of the Act.

This action should be expedited because the committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. The 1989–90 fiscal period began in August, and the marketing order requires that the rate of assessment for the fiscal year apply to all assessable tomatoes handled during the fiscal period. In addition, handlers are aware of this action which was recommended by the committee at a public meeting. Therefore, it is also found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register [5 U.S.C. 553].

List of Subjects in 7 CFR Part 966

Florida, Marketing agreements and orders, Tomatoes.

For the reasons set forth in the preamble, 7 CFR part 966 is amended as follows:

PART 966—TOMATOES GROWN IN FLORIDA

1. The authority citation for 7 CFR part 966 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. A new section 966.227 is added to read as follows:

Note: This section prescribes the annual expenses and will not be published in the Code of Federal Regulations.

§ 966.227 Expenses and assessment rate.

Expenses of $1,613,500 by the Florida Tomato Committee are authorized and an assessment rate of $0.025 per 25-pound container of tomatoes is established for the fiscal period ending July 31, 1990. Unexpended funds may be carried over as a reserve.

Dated: November 1, 1989.

William J. Doyle,

Acting Deputy Director, Fruit and Vegetable Division.

Expenses and Assessment Rate for Almonds Grown in California

AGENCY: Agricultural Marketing Service.

ACTION: Final rule.

SUMMARY: This final rule authorizes expenditures and establishes an assessment rate for the 1989–90 crop year under the marketing agreement and order for California almonds. Funds to administer this program are derived from assessments on handlers. This action is needed in order for the Almond Board of California (Board), which is responsible for local administration of the order, to have sufficient funds to meet the expenses of operating the program. Expenses are incurred on a continuous basis.

EFFECTIVE DATES: July 1, 1989, through June 30, 1990.

FOR FURTHER INFORMATION CONTACT: Allen Belden, Marketing Specialist, Marketing Order Administration Branch, F&V, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC, 20090–6456; telephone: (202) 475–3923.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Order No. 981 [7 CFR part 981], both as amended, regulating the handling of almonds grown in California. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended [7 U.S.C. 601–674), hereinafter referred to as the "Act."

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 100 handlers of California almonds, and there are approximately 7,500 producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.1) as those having average gross annual revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of almond handlers and producers may be classified as small entities.

The marketing order for California almonds requires that the assessment rate for a particular crop year shall apply to all assessable almonds handled from the beginning of such year. An annual budget of expenses is prepared by the Board and submitted to the U.S. Department of Agriculture (USDA) for approval. The members of the Board are handlers and producers of regulated almonds. They are familiar with the Board's needs and with the costs for goods, services, and personnel in their local areas and are thus in a position to formulate an appropriate budget. The budget is formulated and discussed in public meetings. Thus, all directly affected persons have an opportunity to participate and provide input.

The assessment rate recommended by the Board is derived by dividing anticipated expenses by expected shipments of assessable almonds. Because that rate is applied to actual shipments, it must be established at a rate which will produce sufficient income to pay the Board's expected expenses. The recommended budget and rate of assessment are usually acted upon by the Board shortly after July 1 of each crop year, and expenses are incurred on a continuous basis. Therefore, budget and assessment rate approvals must be expedited so that the Board will have funds to pay its expenses.

The Board met on July 21, 1989, and unanimously recommended 1989–90 marketing order program expenditures of $12,339,618 and an assessment rate for the 1989–90 crop year of 2.75 cents per pound (kernelweight basis). The Board also recommended that handlers should be eligible to receive credit for their own marketing promotion activities for up to 2.50 cents of this 2.75-cent-per-pound assessment rate.

The 2.75-cent-per-pound 1989–90 assessment rate compares with a 1988–89 assessment rate of 2.65 cents per pound. While the 2.50-cent-per-pound creditable rate is the same as the 1988–89 rate, the 0.25-cent-per-pound non-creditable portion of the total assessment, which handlers must pay to the Board, is 0.10 cent higher than the 0.15-cent-per-pound 1988–89 rate.

Projected expenses of $12,339,618 for 1989–90 compare with 1988–89 budgeted expenses of $16,130,309. Budget categories for 1989–90 are $890,200 for administrative expenses, $352,018 for production research, $937,700 for public relations, and $59,700 for the 1990 crop estimate. Comparable actual expenditures for the 1988–89 crop were $779,561, $197,101, $996,900, and $56,800, respectively. The remaining $10,100,000 of proposed 1989–90 expenses is the estimated amount which handlers would spend on their own marketing promotion activities based on a projected 1989–90 marketable California almond production of 404,000,000 kernelweight pounds and assumes that all handlers receive full credit against their 2.50-cent-per-pound creditable assessment obligations. For the 1988–89 crop year, $13,925,000 was budgeted for handler marketing promotion activities based on a projected marketable production of 557,000,000 kernelweight pounds. An actual figure is not yet available because handlers have until December 31, 1989, to complete marketing promotion activities for which they may receive credit toward their 1988–89 crop year creditable assessment obligations.

While this final action imposes some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. Further, these costs will be significantly offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not

have a significant economic impact on a substantial number of small entities.

This action adds a new § 981.336 and is based on Board recommendations and

and Executive Order 11338. Authority to implement the program is delegated to the Administrator, Agricultural Stabilization and Conservation Service. The Bureau of Indian Affairs (BIA),

VOL 54 ISS 213 NO 6 1989 UMI

have a significant economic impact on a substantial number of small entities.

This action adds a new § 981.336 and is based on Board recommendations and other available information. A proposed rule was published in the Federal Register on August 23, 1989 (54 FR 35000). Comments on the proposed rule were invited from interested persons until September 5, 1989. One comment was received from Brian C. Leighton, counsel to Cal-Almond, Inc. Mr. Leighton objected to the proposed rule for several reasons as discussed below.

Mr. Leighton stated that the length of the 10-day comment period provided in the proposed rule was insufficient due to the fact that considerable objection was expressed at the July 20, 1989, meeting of the Board's Public Relations and Advertising Committee concerning the 2.5-cent-per-pound creditable portion of the recommended assessment rate. However, the minutes of the July 20, 1989, meeting of the Public Relations and Advertising Committee meeting reflect that only three individuals indicated dissatisfaction with the 2.5-cent-per-pound creditable rate or the creditable promotion and advertising program, two of which were Mr. Leighton and his client, Cloyd F. Angle of Cal-Almond, Inc. On the other hand, the 2.5-cent-pound rate was unanimously recommended by both the Public Relations and Advertising Committee and the full Board.

Mr. Leighton also indicated that the 10-day comment period did not meet the requirements of either the Administrative Procedure Act (APA) or USDA's Departmental Regulation 1512–1. However, the APA only requires that a comment period be provided and does not require that the comment period be of any specific length. Departmental Regulation 1512–1 provides that a comment period of less than 30 days may be used when an emergency or other good reason exists. A finding was included in the proposed rule that a comment period of less than 30 days was appropriate because the Board must have sufficient funds to pay its expenses, which are incurred on a continuous basis. The board normally sends out its first assessment notice to handlers in November of each crop year, and this final rule should be in effect as soon as possible.

Concerning the individual budget categories discussed in the proposed rule, Mr. Leighton indicated that USDA did not attempt to analyze whether these expenses are reasonable and necessary. This is incorrect. While USDA relied on the Board, whose members are familiar with the costs for goods, services, and personnel in their local area, to recommend an appropriate budget, USDA carefully reviewed all recommended expenses on a line-by-line basis. For example, the administrative portion of the Board's 1989–90 recommended budget contained 33 separate items, including items such as salaries, rent, postage, and publications. Also, itemized budget sheets were submitted by the Board for each individual production research project and for the public relations program. USDA reviewed these items on a line-by-line basis to determine that all recommended expenses were reasonable and necessary for the maintenance and functioning of the Board and for activities authorized under the order.

In his comment, Mr. Leighton contested the order's creditable promotion and advertising program, providing for expenditures by handlers for domestic promotion and advertising. Mr. Leighton submitted a table which indicated that from the 1982–83 crop year through the 1988–89 crop year, creditable assessments totaled $74,693,350. Mr. Leighton stated that of this amount, $58,754,680 was spent on domestic advertising. Mr. Leighton's table also indicated that domestic shipments during that period increased by a cumulative total of 71 million pounds for all years over an annual base of 128 million pounds—the amount of almonds shipped domestically during the 1982–83 crop year. Mr. Leighton concluded that the industry has spent over 80.00 cents per pound for each increased pound sold domestically since 1982.

This analysis looks only at the increase in domestic shipments over the 1982–83 base year and ignores total domestic shipments. The analysis also does not consider how domestic shipments would have been affected if there was no creditable advertising and promotion program. Also, it should be noted that the 71-million-pound increase in domestic shipments has been achieved while the creditable assessment rate has remained constant at 2.5 cents per pound.

Mr. Leighton stated that assessments paid to the Board by handlers in lieu of receiving credit are not used by the Board to advertise almonds. This statement is inaccurate. In fact, all of the money paid by handlers under the creditable assessment rate has been used by the Board to promote almonds. The order provides authority for marketing promotion activities, including paid advertising, and handlers may receive credit against the creditable portion of their assessments for their own marketing promotion activities, including paid advertising. While the Board has chosen to spend the money paid to it to promote almonds by means other than paid media advertising, it nevertheless has used these assessment funds for marketing promotion activities.

Mr. Leighton also quoted from an appendix to USDA's "Marketing Agreement and Order Operations Manual" which stated that USDA is not opposed to Federal legislation authorizing domestic food commodity research and promotion programs containing provisions whereby assessments collected from producers are refunded to those producers who do not wish to participate. Mr. Leighton requested that USDA comply with its own policy statement and permit Cal-Almond, Inc., an exemption from the 1989–90 crop year creditable advertising assessment or a refund on that assessment. However, that appendix quoted by Mr. Leighton reflected the legislative guidelines that applied to proposed legislation for commodity research and promotion programs. The almond marketing order is established pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and this Act does not provide for refunding assessments to handlers who do not wish to participate in the program.

Finally, Mr. Leighton contended in his comment that any provisions of the order assessing handlers for the purpose of advertising almonds or provisions of the order allowing handlers to promote or advertise almonds on their own in lieu of paying assessments to the Board are a violation of the First Amendment rights of Cal-Almond, Inc. It is USDA's position that all provisions of the order are authorized under the Act and that the order in no way infringes upon the First Amendment rights of Cal-Almond, Inc.

For the reasons stated above, Mr. Leighton's objections are denied.

After consideration of the information and recommendations submitted by the Board and other available information, it is found that this final rule will tend to effectuate the declared policy of the Act.

This action should be expedited because the Board needs to have sufficient funds to pay its expenses, which are incurred on a continuous basis. In addition, handlers are aware of this action, which was recommended by the Board at a public meeting. Therefore, it is also found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register (15 U.S.C. 553).

PART 981—ALMONDS GROWN IN CALIFORNIA

For the reasons set forth in the preamble, 7 CFR part 981 is amended a follows: [This section will not appear in the code of Federal Regulations.]

1. The authority citation for 7 CFR part 981 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674

2. Section 981.336 is added to read as follows:

§ 981.336 Expenses and assessment rate.

Expenses of $12,339,618 by the Almond Board of California are authorized for the crop year ending June 30, 1990. An assessment rate for that crop year payable by each handler in accordance with § 981.81 is fixed at 2.75 cents per pound of almonds (kernelweight basis) less any amount credited pursuant to § 981.41, but not to exceed 2.50 cents per pound of almonds (kernelweight basis).

Dated: November 1, 1989.

William J. Doyle,

Acting Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410–02–M

Commodity Credit Corporation

7 CFR Part 1475

Emergency Livestock Assistance

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This action adopts as a final rule a proposed rule published in the Federal Register on May 19, 1989 (54 FR 21625), which proposed amendments to the Emergency Livestock Assistance Regulations to allow eligible Indian livestock owners to participate in the livestock feed programs at the same time as they are receiving donated Commodity Credit Corporation grain under the Indian Acute Distress Donation Program (IADDP). Previously, eligible Indians could receive assistance under either the livestock feed programs or the IADDP but not under both programs at the same time.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Clarence B. Domire, Program Specialist, Emergency Operations and Livestock Program Division, Agricultural Stabilization and Conservation Service, Department of Agriculture, (USDA) P.O. Box 2415, Washington, DC 20013. Telephone (202) 447–7673.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures established in accordance with provisions of Departmental Regulations 1512–1 and Executive Order 12291 and has been classified "not major." It has been determined that these program provisions will not result in an annual effect on the economy of $100 million or more. The title and number of the Federal Assistance Program to which this final rule applies are Title—Commodity Loans and Purchases, Number 10.051 as found in the Catalog of Federal Domestic Assistance.

An Environmental Evaluation with respect to the livestock feed programs has been completed. It has been determined that this action is not expected to have any significant impact on the quality of human environment. In addition, it has been determined that this action will not adversely affect environmental factors such as wildlife habitat, water quality, and land use and appearance. Accordingly, neither an Environmental Assessment nor an Environmental Impact Statement is needed. This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the notice related to 7 CFR part 3015, Subpart V, published at 48 FR 29115 (June 24, 1983).

Background

The regulations at 7 CFR part 1475 currently set forth the regulations used to administer the livestock feed programs. These programs are authorized by the Agricultural Act of 1949 (the 1949 Act) as amended by the Disaster Assistance Act 1988 (Public Law 100–387). Sections 605, 606, and 607 of the 1949 Act provide that the Secretary of Agriculture shall make one or more of certain specified programs available to eligible livestock producers if a livestock emergency exists in a State, county, or area. These programs include the Emergency Feed Program (EFP) whereby livestock producers receive cost-share payments on purchased feed and the Emergency Feed Assistance Program (EFAP) whereby livestock producers can purchase Commodity Credit Corporation (CCC)-owned grain at reduced prices.

The Indian Acute Distress Donation Program (IADDP) is administered in accordance with section 407 of the 1949 Act; the CCC Charter Act, as amended; and Executive Order 11336. Authority to implement the program is delegated to the Administrator, Agricultural Stabilization and Conservation Service. The Bureau of Indian Affairs (BIA), Department of the Interior, may request the program be implemented upon a determination that the economic distress of the needy members of an Indian tribe is materially increased by severe drought, flood, hurricane, blizzard or other uncontrollable catastrophe affecting land utilized by members of such tribe for grazing livestock. Assistance is in the form of donated CCC-owned feed grains with freight and handling paid by CCC to transport the grain to one or more central distribution points. The program is administered at the local level by the Tribal Council under the supervision of local authorities of the BIA, Department of the Interior.

Previously, Indian livestock owners who were eligible to receive assistance under both EFP or EFAP and the IADDP had to choose to participate in the IADDP or in the EFP or EFAP. Under the recently revised EFP or EFAP regulations, eligible livestock owners have a choice of two options. Under one option, livestock owners will: (a) Include all their eligible livestock, (b) have their loss reduced by, and their feed on hand increased by, the feed value of any payment received from Federal Crop Insurance Corporation (FCIC) crop insurance, (c) have a maximum daily feed allowance of 10 pounds feed grain equivalent (FGE) per day per animal unit, and (d) receive an EFP cost-share rate of 50 percent not to exceed 5 cents per pound FGE for purchased feed. Under the other option, livestock owners will: (a) Choose whether to include or exclude nongrazing livestock on their application, (b) not have their application adjusted for any benefits received from FCIC crop insurance payments, (c) have a maximum daily feed allowance of 12.5 pounds FGE per day per animal unit, and (d) receive an EFP cost-share rate of 42.5 percent not to exceed 5 cents per pound FGE for purchased feed. If the livestock owner elects to purchase CCC-owned grain under the EFAP, the remaining allowance will be reduced by the result of multiplying the pounds of feed grain purchased times 1.176. Grain purchased under the EFAP will continue to be purchased at 50 percent of the posted county price. All other provisions of the EFP and EFAP will be treated the same under both options. Under the IADDP, eligible Indian livestock owners can receive 4 pounds of donated CCC-

VOL
54

1989
UMI

owned feed grain per day per animal unit.

This final rule provides that eligible Indian livestock owners can receive 4 pounds of feed grain under the IADDP and can also receive a maximum 6 pounds FGE under Option 1 or 8.5 pounds FGE under Option 2 under the revised EFP or EFAP provided they meet the eligibility requirements for both programs. With this combination, eligible Indian livestock owners can obtain a maximum of 10 or 12.5 pounds FGE per animal unit per day depending on the option elected, including 4 pounds of donated feed grain under the IADDP and a maximum 6 or 8.5 pounds FGE under the EFP or EFAQP depending on the option chosen.

Comments

A total of 5 comments were received concerning the proposed rule. All comments were in favor of the proposed rule. Comments were received from a Senator, an area office of the Bureau of Indian Affairs, 2 representatives of Indian reservations, and an individual Indian.

The information collection requirements of this subpart has been approved by the Office of Management and Budget (OMB) for the purposes of the Paperwork Reduction Act and OMB Number 0560-0029 has been assigned to 7 CFR part 1475.

Assistance grant programs—agriculture livestock.

Final Rule

Accordingly, the proposed rule published on May 19, 1989 (54 FR 21625), is adopted as a final rule with the following changes:

PART 1475—EMERGENCY LIVESTOCK ASSISTANCE

1. The authority citation for part 1475 is revised to read as follows:

Authority: 7 U.S.C. 1427, and 1471–1471j; 15 U.S.C. 714b and 714c.

2. Section 1475.3 is amended by revising the following definition to read as follows:

§ 1475.3 Definitions.

* * * * *

"Daily allowance" means for all livestock, except fish for food, 10 pounds or 12.5 pounds of FGE (6 or 8.5 pounds for eligible Indian-owned livestock if the eligible Indian owner is receiving grain from CCC under the Indian Acute Distress Donation Programs) per day per animal unit as provided in § 1475.6 of this subpart, or lesser amount as determined by the State or county ASC committee, except that for the 1989 and subsequent years; livestock feed crop losses due to a natural disaster, the producer may elect to take one and only one of the options available.

* * * * *

3. Section 1475.6 is amended by revising paragraphs (d)(5), (e)(13) and (g)(1)(i)(A) to read as follows:

§ 1475.6 Application and approval.

* * * * *

(d) * * *

(5) Any loss of production otherwise computed shall be reduced due to the receipt of other government benefits, except as provided in paragraph (c)(3)(iii)(A)–(E) of this section for FCIC crop insurance indemnity payments and 1988 and 1989 crop disaster payments which are paid the owner with respect to livestock feed normally grown by the owner provided no reduction shall be made for CCC-owned grain that is donated to eligible Indian livestock owners under the Indian Acute Distress Donation Program. * * *

(e) * * *

(13) Any donated feed on hand except for feed grain donated by CCC under the Indian Acute Distress Donation Program.

* * * * *

(g)(1)(i) * * *

(A) The smaller of 10 or 12.5 pounds, of FGE (6 or 8.5 pounds for eligible Indian owned livestock if the eligible Indian owner is receiving donated grain from CCC under the Indian Acute Distress Donation Programs) per day per animal unit, as applicable, in accordance with paragraph (c) of this section, or a lesser quantity determined to be adequate by the State or county ASC committee, times:

* * * * *

Signed at Washington, DC on October 31, 1989.

Keith D. Bjerke,

Executive Vice President, Commodity Credit Corporation.

[FR Doc. 89-26130 Filed 11-3-89; 8:45 am]

BILLING CODE 3410-05-M

DEPARTMENT OF JUSTICE

Office of the Attorney General

28 CFR Part 73

[Order No. 1373-89]

Notification of Obligations of Agents of Foreign Governments

AGENCY: Department of Justice.

ACTION: Notice of final rulemaking.

SUMMARY: The regulations define the notification obligations of agents of foreign governments under 18 U.S.C. 951. They set forth the date, place, time, manner and contents of the notification required by the statute, and provide specific guidance for foreign law enforcement personnel and other agents requiring special attention. In FR Doc. 89-17344 (54 FR 30910, July 25, 1989), the Department of Justice published a Notice of Proposed Rulemaking for public notice and comment.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Joseph E. Clarkson, Chief, Registration Unit, Internal Security Section, Criminal Division, United States Department of Justice, 1400 New York Avenue NW., Washington, DC 20530, telephone (202) 786-4923.

SUPPLEMENTARY INFORMATION: The regulations provide guidance to agents of foreign governments who must notify the Attorney General of their agency status, and the date, place, time, manner and content of the required notification. The regulations specify the custodian of these records in a manner calculated to assure timely notice to the Departments and Agencies most concerned.

This is not a major rule within the meaning of Exec. Order No. 12291. It will not have a significant effect on a substantial number of small businesses.

List of Subjects in 28 CFR Part 73

Foreign relations.

Accordingly, title 28, chapter I, of the Code of Federal Regulations is amended by adding a new part 73 to read as follows:

PART 73—NOTIFICATIONS TO THE ATTORNEY GENERAL BY AGENTS OF FOREIGN GOVERNMENTS

Sec.

73.1 Definition of terms.
73.2 Exceptions.
73.3 Form of notification.
73.4 Partial compliance not deemed compliance.
73.5 Termination of notification.
73.6 Relation to other statutes.

Authority: 18 U.S.C. 951, 28 U.S.C. 509, 510.

§ 73.1 Definition of terms.

(a) The term "agent" means all individuals acting as representatives of, or on behalf of, a foreign government or official, who are subject to the direction or control of that foreign government or official, and who are not specifically excluded by the terms of the Act or the regulations thereunder.

(b) The term "foreign government" includes any person or group of persons exercising sovereign de facto or de jure political jurisdiction over any country, other than the United States, or over any part of such country, and includes any subdivision of any such group or agency to which such sovereign de facto or de jure authority or functions are directly or indirectly delegated. Such term shall include any faction or body of insurgents within a country assuming to exercise governmental authority whether such faction or body of insurgents has or has not been regarded by the United States as a governing authority.

(c) The term "prior notification" means the notification letter, telex, or facsimile must be received by the addressee named in § 73.3 prior to commencing the services contemplated by the parties.

(d) When used in 18 U.S.C. 951(d)(1), the term "duly accredited" means that the sending State has notified the Department of State of the appointment and arrival of the diplomatic or consular officer involved, and the Department of State has not objected.

(e) When used in 18 U.S.C. 951(d) (2) and/or (3), the term "officially and publicly acknowledged and sponsored" means that the person described therein has filed with the Secretary of State a fully-executed notification of status with a foreign government; or is a visitor, officially sponsored by a foreign government, whose status is known and whose visit is authorized by an agency of the United States Government; or is an official of a foreign government on a temporary visit to the United States, for the purpose of conducting official business internal to the affairs of that foreign government; or where an agent of a foreign government is acting pursuant to the requirements of a Treaty, Executive Agreement, Memorandum of Understanding, or other understanding to which the United States or an agency of the United States is a party and which instrument specifically establishes another mechanism for notification of visits by agents and the terms of such visits.

(f) The term "legal commercial transaction," for the purpose of 18 U.S.C. 951(d)(4), means any exchange, transfer, purchase or sale, of any commodity, service or property of any kind, including information or intellectual property, not prohibited by federal or state legislation or implementing regulations.

§ 73.2 Exceptions.

(a) The exemption provided in 18 U.S.C. 951(d)(4) for a "legal commercial transaction" shall not be available to any person acting subject to the direction or control of a foreign government or official where such person is an agent of the Soviet Union, the German Democratic Republic, Hungary, Czechoslovakia, Poland, Bulgaria, Romania or Cuba; or has been convicted of or entered a plea of nolo contendere to any offense under 18 U.S.C. 792–799, 831 or 2381, or under section 11 of the Export Administration Act of 1979, 50 U.S.C. App. 2410.

(b) The provisions of 18 U.S.C. 951(e)(2)(A) do not apply if the Attorney General, after consultation with the Secretary of State, determines and reports to Congress that the national security or foreign policy interests of the United States require that these provisions do not apply in specific circumstances to agents of such country.

(c) The provisions of 18 U.S.C. 951(e)(2)(B) do not apply to a person described in this clause for a period of more than five years beginning on the date of the conviction or the date of entry of the plea of nolo contendere.

§ 73.3 Form of notification.

(a) Notification shall be made by the agent in the form of a letter, telex, or facsimile addressed to the Attorney General, directed to the attention of the Registration Unit of the Criminal Division, except for those agents described in paragraphs (b) and (c) of this section. The document shall state that it is a notification under 18 U.S.C. 951, and provide the name or names of the agent making the notification, the firm name, if any, and the business address or addresses of the agent, the identity of the foreign government or official for whom the agent is acting, and a brief description of the activities to be conducted for the foreign government or official and the anticipated duration of the activities. Each notification shall contain a certification, pursuant to 28 U.S.C. 1746, that the notification is true and correct.

(b) Notification by agents engaged in law enforcement investigations or regulatory agency activity shall be in the form of a letter, telex, or facsimile addressed to the Attorney General, directed to the attention of Interpol-United States National Central Bureau. Notification by agents engaged in intelligence, counterintelligence, espionage, counterespionage or counterterrorism assignment or service shall be in the form of a letter, telex, or facsimile addressed to the Attorney General, directed to the attention of the nearest FBI Legal Attache. In case of exceptional circumstances, notification shall be provided contemporaneously or as soon as reasonably possible by the agent or the agent's supervisor. The letter, telex, or facsimile shall include the information set forth in paragraph (a) of this section.

(c) Notification made by agents engaged in judicial investigations pursuant to treaties or other mutual assistance requests or letters rogatory, shall be made in the form of a letter, telex, or facsimile addressed to the Attorney General, directed to the attention of the Office of International Affairs, Criminal Division. The letter, telex, or facsimile shall include the information set forth in paragraph (a) of this section.

(d) Any subsequent change in the information required by paragraph (a) of this section shall require a notification within 10 days of the change.

(e) Notification under 18 U.S.C. 951 shall be effective only if it has been done in compliance with this section, or if the agent has filed a registration under the Foreign Agents Registration Act of 1938, as amended, 22 U.S.C. 611, *et seq.*, which provides the information required by paragraphs (a) and (d) of this section.

§ 73.4 Partial compliance not deemed compliance.

The fact that a notification has been filed shall not necessarily be deemed full compliance with 18 U.S.C. 951 or these regulations on the part of the agent; nor shall it indicate that the Attorney General has in any way passed on the merits of such notification or the legality of the agent's activities; nor shall it preclude prosecution, as provided for in 18 U.S.C. 951, for failure to file a notification when due, or for a false statement of a material fact therein, or for an omission of a material fact required to be stated therein.

§ 73.5 Termination of notification.

(a) An agent shall, within 30 days after the termination of his agency relationship, advise the Attorney General of such change.

(b) All notifications pursuant to this part will automatically expire five years from the date of the most recent notification.

(c) An agent, whose notification expires pursuant to (b) above, must file a new notification within 10 days if the relationship continues.

§ 73.6 Relation to other statutes.

The filing of a notification under this section shall not be deemed compliance with the requirements of the Foreign

VOL 54 ISS 213 NO 6 1989 UMI

Agents Registration Act of 1938, as amended, 22 U.S.C. 611, *et seq.*, nor compliance with any other statute.

Dated: October 26, 1989.

Dick Thornburgh,

Attorney General.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1910

[Docket No. S-012A]

RIN 1218-AA53

Control of Hazardous Energy (Lockout/Tagout)

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Final rule; suspension of effective date.

SUMMARY: OSHA's final rule on Control of Hazardous Energy (Lockout/Tagout), which was issued on September 1, 1989 (54 FR 36644), was originally scheduled to become effective 60 days after publication, or October 31, 1989. For reasons set forth below, OSHA is hereby suspending the effective date of that final rule until January 2, 1990 to provide an extension of time for employers to come into compliance with the final rule.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Mr. James F. Foster, Occupational Safety and Health Administration, Room N3649, U.S. Department of Labor, Washington, DC 20210, (202)-523-8148.

SUPPLEMENTARY INFORMATION: On September 1, 1989 (54 FR 36644), OSHA issued its final rule on Control of Hazardous Energy (Lockout/Tagout), 29 CFR 1910.147. The final rule was scheduled to become effective 60 days after publication, or October 31, 1989. The paperwork requirements of the final rule had not been approved by the Office of Management and Budget (OMB) at the time the final rule was issued. OMB received OSHA's request for review of the paperwork requirements on September 21, 1989, and issued its approval on September 26, 1989. OSHA published a supplemental notice to that effect on October 17, 1989 (54 FR 42498). Because the OMB approval was received prior to the original effective date of the final rule, the effective date of October 31, 1989 was not affected.

Since the final rule was published, OSHA has received several requests for extension of the period for compliance, together with at least one petition for a temporary variance from the standard. After carefully evaluating these requests, and in consideration of the information discussed below, OSHA has determined that there is good cause to further delay the effective date of the final rule.

As was noted in the September 1, 1989 final rule, the lockout/tagout standard requires employers to develop and utilize an energy control program and documented procedures, and to provide employees with training in the utilization of these energy control measures. Because this is a "generic" rule, which applies to a wide range of machines and equipment, the employer must tailor the general provisions of the standard to the particular energy control situations encountered in that employer's workplace. In addition, the final rule adds various hardware requirements for lockout and tagout devices. Because of the breadth of the rule and the elements necessary for developing and implementing an effective energy control program, OSHA now believes that the original October 31, 1989 effective date has not provided adequate time for employers to come into compliance with the standard, and that an additional two month delay in the effective date is warranted.

Although the effective date of the standard has been delayed, as noted above, OSHA will still require employees to be protected from the unexpected energization or start up of machines and equipment during servicing and maintenance operations, and will enforce this employer obligation under section 5(a)(1) of the Occupational Safety and Health Act (the "general duty clause" of the Act). This provision of the Act requires the employer to provide a workplace and place of work which is free from recognized hazards which are, or are likely, to cause death or serious physical harm.

This document was prepared under the direction of Gerard F. Scannell, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. It is issued under the authority of sections 4, 6(b), and 8(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 653, 655, 657), Secretary of Labor's Order No. 9-83 (48 FR 35736), and 29 CFR part 1911.

Accordingly, the requirements of the Lockout/Tagout standard, 29 CFR 1910.147, are suspended until January 2, 1990.

Signed at Washington, DC, this 31st day of October 1989.

G.F. Scannell,

Assistant Secretary of Labor.

Information Security Program Regulation; Correction

AGENCY: Department of Defense.

ACTION: Final rule; correction.

SUMMARY: This document corrects an administrative error in a final rule on information security program regulation previously published in the **Federal Register** on June 27, 1989 (54 FR 26958). It incorrectly designated paragraph 159a.57(c), "Confidential Information". The correct designation is paragraph 159a.57(d).

FOR FURTHER INFORMATION CONTACT: Ms. L. M. Bynum, Correspondence and Directives Directorate, Pentagon, Washington, DC 20301-1155, telephone (202) 697-4111.

SUPPLEMENTARY INFORMATION:

List of Subjects in 32 CFR Part 159a

Classified information; Security.

Accordingly, 32 CFR part 159a is amended as follows:

PART 159a—[AMENDED]

1. The authority citation for part 159a continues to read as follows:

Authority: 5 U.S.C. 301.

2. Section 159a.57 is amended by redesignating paragraph 159a.57(c), "Confidential Information" as paragraph 159a.57(d).

Dated: October 31, 1989.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 17

RIN 2900-AC66

Health Professional Scholarship Program

AGENCY: Department of Veterans Affairs.

ACTION: Final rule; Correction.

SUMMARY: The Department of Veterans Affairs (VA) is correcting previously published information concerning the Health Professional Scholarship Program.

EFFECTIVE DATE: May 20, 1988.

FOR FURTHER INFORMATION CONTACT: Charlotte Beason, Ed.D., Director, Health Professional Scholarship Program (14N), Office of Academic Affairs, Veterans Health Services and Research Administration, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-3588.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of July 7, 1989 (54 FR 28673), VA published a final regulation amending 38 CFR 17.600-17.611 concerning the amendments to the law governing the VA health professional scholarship program made by the Veterans' Benefits and Services Act of 1988. In that final regulation, in § 17.610 a formula was inadvertently misstated and is hereby corrected.

Dated: October 27, 1989.

Donald R. Howell,

Acting Chief, Directives Management Division.

PART 17—[AMENDED]

In 38 CFR Part 17, MEDICAL, the formula in § 17.160(c) is correctly revised to read as follows:

§ 17.610 Failure to comply with terms and conditions of participation.

* * * * *

(c) * * *

$$A = 30 \left(\frac{t - s}{t} \right)$$

BILLING CODE 3320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL-3628-9]

Approval and Promulgation of Implementation Plans; Indiana

AGENCY: U.S. Environmental Protection Agency (USEPA).

ACTION: Notice of final rulemaking.

SUMMARY: In a September 14, 1988, (53 FR 35527) notice of proposed rulemaking, USEPA proposed to approve a submission by the State of Indiana as a revision to the Indiana State Implementation Plan (SIP) for ozone. This revision provides for an alternative compliance schedule for Uniroyal Plastics Company, Incorporated (Uniroyal), which is located in St. Joseph County, Mishawaka, Indiana. This SIP revision extended the compliance for Uniroyal from December 31, 1986, until November 7, 1987, allowing time for Uniroyal's reformulation of its coatings for two fabrics coaters and four vinyl printers.

Today's notice is approving this revision because the State has demonstrated that Uniroyal's compliance date extension is expeditious and will not interfere with reasonable further progress toward attainment.

DATE: This action will be effective December 6, 1989.

ADDRESSES: Copies of the SIP revision and technical support documents are available at the following addresses for review: (It is recommended that you telephone Uylaine E. McMahan, at (312) 886-6031, before visting the Region V office.)

U.S. Environmental Protection Agency, Region V, Air and Radiation Branch (5AR-26), 230 South Dearborn Street, Chicago, Illinois 60604,

Office of Air and Management Department of Environmental Management, 105 South Meridian Street, P.O. Box 6015, Indianapolis, Indiana 46206-6015.

A copy of today's revision to the Indiana SIP is available for inspection at: U.S. Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW., Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT: Uylaine E. McMahan, Air and Radiation Branch (5AR-26), U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6031.

SUPPLEMENTARY INFORMATION: On July 23, 1987, the Indiana Department of Environmental Management submitted to USEPA a request for a site-specific revision to Indiana's ozone SIP. This revision consists of compliance date extensions until November 7, 1987, for Uniroyal's two fabric coaters and four vinyl printers at its Mishawaka plant, located in St. Joseph County, Indiana. St. Joseph County is designated as an urban nonattainment area for ozone.

Under the existing federally approved SIP, each coater and each vinyl printer is subject to VOC control requirements contained Rule 325 IAC 8-2-12. Rule 325 IAC 325 8=1.1-3 requires compliance with the limits by December 31, 1986. USEPA approved these rules as meeting the reasonably control technology (RACT) requirements of the Clean Air Act on February 10, 1986 (51 FR 4912).

Compliance Date Extension Policy

USEPA's August 7, 1986, memorandum, "Policy of SIP Revisions Requesting Compliance Date Extension for VOC Sources", from J. Craig Potter, then Assistant Administrator for Air and Radiation, states that a compliance date extension must be as expeditious as practicable in order to be approved.

In addition, this policy requires the State to demonstrate that the extension will not interfere with the timely attainment and maintenance of the ozone standard and, where relevant, "Reasonably Further Progress" (RFP) towards timely attainment.

USEPA Action

There were no Comments on the September 14, 1988, notice. USEPA has determined that the compliance date extension for Uniroyal is expeditious and will not interfere with RFP toward the ozone standard. Therefore, USEPA is approving the revision. The Office of Management and Budget has exempted this rule form the requirements of Section 3 of Executive Order 12291.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from date of publication). This action may not be challenged later in the proceedings to enforce its requirements. (See section 307(b)(2) of the Act.)

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each

request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

40 CFR Part 52

[FRL 3677-7]

North Carolina SO_2 Regulations

Copies of the permit and correspondence are available at the EPA Region IV Office. Contact Rosalyn Hughes at the aforementioned address.

positive net air quality benefit are also contained in Regulation 401 KAR 51:052 which was referenced prior to the amendment being approved today. Therefore, adverse effects on any

implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and

request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This action has been classified as a Table Three action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989, (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table Two and Three SIP revisions (54 FR 2222) from the requirements of Section 3 of Executive Order 12291 for a period of 2 years.

List of Subjects in 40 CFR Part 52

Environmental Protection, Air pollution control, Ozone, Hydrocarbon, Carbon monoxide, Incorporation by reference, Intergovernmental Offices.

Note: Incorporation by reference of the State Implementation Plan for the State of Indiana was approved by the Director of the Federal Register on July 1, 1982.

Basil G. Constantelos,

Acting Regional Administrator.

Title 40 of the Code of Federal Regulations, chapter 1, part 52, is amended as follows:

PART 52—[AMENDED]

Subpart P—Indiana

1. The authority citation of part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642

2. Section 52.770 is amended by adding paragraph (c)(74) to read as follows:

§ 52.770 Identification of plan.

* * * * *

(c) * * *

(74) On July 23, 1987, the Indiana Department of Environmental Management submitted to USEPA a request for a site-specific revision to Indiana's ozone SIP. This revision consists of compliance date extensions until November 7, 1987, for Uniroyal's two fabric coaters and four vinyl printers at its Mishawaka plant, located in St. Joseph County, Indiana.

(i) Incorporation by reference.

(A) Air pollution Operation Permits Numbers: U 2 33–15A, U 2 34–23, U 2 33–14C, U 2 34–3C, U 2 33–16, U 2 33–18, Date issued December 1, 1988, and Date Expires December 1, 1990.

[FR Doc. 89–26018 Filed 11–3–89; 8:45 am]

BILLING CODE 6560–50–M

40 CFR Part 52

[FRL 3677-7]

North Carolina SO_2 Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; clarification of state implementation plan.

SUMMARY: On December 7, 1982 (47 FR 54934) EPA approved for all but 24 sources a revision to the North Carolina regulation 15 NCAC 2D.0516 which relaxed the sulfur dioxide (SO_2) limit for fuel burning sources from 1.6 pounds per million BTU heat input (lb/MBTU) to 2.3 lb/MBTU. Some of these sources are undergoing additional analysis in order for EPA to approve the relaxed limit. However, the Hoechst Celanese Corporation (formerly Fiber Industries) will remain at 1.6 lb/MBTU by permit restrictions.

ADDRESSES: Copies of the material submitted by the State may be examined during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region IV, Air Programs Branch, 345 Courtland Street NE., Atlanta, Georgia 30365

Division of Environmental Management, North Carolina Department of Environment, Health and Natural Resources, 512 N. Salisbury Street, Raleigh, North Carolina 27611–7687.

FOR FURTHER INFORMATION CONTACT: Ms. Rosalyn D. Hughes, Air Programs Branch, Region IV at the above address and telephone number (404) 347–2864 or FTS 257–2864.

SUPPLEMENTARY INFORMATION: On December 7, 1982 (47 FR 54939), EPA approved, for all but 24 sources in the State of North Carolina, a revision to State regulation 2D.0516 which relaxed the SO_2 limit for fuel burning sources. The original version of 2D.0516 prescribed a stepdown in SO_2 emissions for all fuel-burning sources from 2.3 lb/MBTU to 1.6 lb/MBTU by July 1, 1980. Air quality dispersion modeling submitted by the State indicated that removal of the SO_2 stepdown requirement was approvable for all but 24 sources.

The notice indicated if future modeling could show the relaxation to 2.3 lb/MBTU adequately protected the National Ambient Air Quality Standards (NAAQS), the stepdown requirement could be eliminated for other sources as well. This notice serves to inform the public that the Hoechst Celanese Corporation (formerly Fiber Industries) in Cleveland County will remain at the 1.6 lb/MBTU limit.

Copies of the permit and correspondence are available at the EPA Region IV Office. Contact Rosalyn Hughes at the aforementioned address.

Dated: October 24, 1989.

Joe R. Franzmathes,

Acting Regional Administrator.

BILLING CODE 6560–50–M

40 CFR Part 52

[FRL-3676-1; KY-051]

Approval and Promulgation of Implementation Plans, Kentucky; Prevention of Significant Deterioration of Air Quality

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today approves as a State Impelementation Plan (SIP) revision an amendment to Kentucky Regulation 401 KAR 51:017, Prevention of Significant Deterioration of Air Quality. This amendment deletes the reference to Kentucky Regulation 401 KAR 51:052, Review of New Sources in or Impacting Upon Non-attainment Areas, contained in section 12(e) of Regulation 401 KAR 51:017 and replaces it with a reference to 40 CFR part 51, appendix S, section IV. In its prior approval of Regulation 401 KAR 51:017, EPA deferred action on section 12(e) regarding ozone monitoring requirements since the section referenced Regulation 401 KAR 51:052 which is not currently a part of the federally-approved State Implementation Plan (SIP). EPA requested that this deletion and addition be made in order for Kentucky's SIP for the Prevention of Significant Deterioration of Air Quality to be fully approvable.

DATE: This action will be effective on January 5, 1990 unless notice is received within 30 days that someone wishes to submit adverse or critical comments. Such notice may be submitted to Richard Schutt at the EPA Regional Office address listed below.

ADDRESSES: Copies of the material submitted by the State may be examined during normal business hours at the following locations:

Public Information Reference Unit, Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

Environmental Protection Agency, Region IV, Air Programs Branch, 345 Courtland Street, NE., Atlanta, Georgia 30365.

Natural Resources and Environmental Protection Cabinet, Division for Air Quality, 18 Reilly Road, Frankfort Office Park, Frankfort, Kentucky 40601.

FOR FURTHER INFORMATION CONTACT: Richard Schutt of the EPA Region IV Air Programs Branch at the above address, telephone (404) 347–2864 or FTS 257–2864.

SUPPLEMENTARY INFORMATION: On February 9, 1988, the Commonwealth of Kentucky submitted an amendment to Regulation 401 KAR 51:017, Prevention of Significant Deterioration of Air Quality. A public hearing was held to receive comments on Regulation 401 KAR 51:017 on November 30, 1987. EPA had requested that the amendment discussed herein be made in order for Kentucky's SIP for the Prevention of Significant Deterioration of Air Quality to be fully approvable.

Regulation 401 KAR 51:017 applies to major stationary sources and major modifications constructing in areas which are designated as attainment or unclassified. Section 12(e) of this regulation is being amended to delete the reference to Kentucky Regulation 401 KAR 51:052, Review of New Sources in or Impacting Upon Non-attainment Areas. In its prior approval of Regulation 401 KAR 51:017 (September 1, 1989 at 54 FR 36307), EPA deferred action on section 12(e) since the section referenced Regulation 401 KAR 51:052 which is not currently a part of the federally-approved SIP. The reference to Regulation 401 KAR 51:052 is being replaced with a reference to 40 CFR part 51, appendix S, section IV by the amendment being approved today.

Section 12(e) of Regulation 401 KAR 51:017 applies to an owner or operator of a proposed stationary source or modification of volatile organic compounds who wishes to provide post-construction monitoring data for ozone in lieu of providing preconstruction monitoring data. The owner or operator of such a source or modification will be allowed to provide post-construction monitoring data under section 12(e) if the conditions contained in 40 CFR part 51, Appendix S, section IV are satisfied. This monitoring option is also contained in 40 CFR 51.166(m)(1)(v). The conditions contained in 40 CFR part 51, Appendix S, Section IV which require the owner or operator of such a source to meet the lowest achievable emission rates, to certify that the course is in compliance with all applicable emission standards, to obtain offsets, and to certify that the offsets will provide a positive net air quality benefit are also contained in Regulation 401 KAR 51:052 which was referenced prior to the amendment being approved today. Therefore, adverse effects on any affected sources are not anticipated to result due to the previously discussed amendment. The meaning of Regulation 401 KAR 51:017 has not been changed.

Final Action: The amendment to section 12(e) of Kentucky Regulation 401 KAR 51:017 which replaces the reference to Kentucky Regulation 401 KAR 51:052 with a reference to 40 CFR part 51, appendix S, section IV, has been requested by EPA in order for Kentucky's SIP for the Prevention of Significant Deterioration of Air Quality to be fully approvable. Since the amendment is consistent with EPA policy and requirements, the amendment is hereby approved.

EPA is publishing this action without prior proposal because the agency views this as a noncontroversial amendment and anticipates no adverse comments. This action will be effective January 5, 1990 unless, within 30 days of its publication, notice is received that adverse or critical comment will be submitted. If such notice is received, this action will be withdrawn and two subsequent notices will be published before the effective date. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

Under 5 U.S.C. 605(b), I certify that this SIP revision will not have a significant economic impact on a substantial number of small entities (see 46 FR 8709).

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 5, 1990. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

List of Subjects in 40 CFR Part 52

Air pollution control, Incorporation by reference, Intergovernmental relations.

Note: Incorporation by reference of the State Implementation Plan for the Commonwealth of Kentucky was approved by the Director of the Federal Register on July 1, 1982.

Dated: September 29, 1989.

Joe R. Franzmathes,

Acting Regional Administrator.

PART 52—[AMENDED]

Part 52 of chapter I, title 40, Code of Federal Regulations, is amended as follows:

Subpart S—Kentucky

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.920 is amended by adding paragraph (c)(56) to read as follows:

§ 52.920 Identification of plan.

* * * * *

(c) * * *

(56) A revision to Kentucky Regulation 401 KAR 51:017, Prevention of Significant Deterioration of Air Quality, submitted on February 9, 1988, by the Kentucky Natural Resources and Environmental Protection Cabinet. The revision to section 12(1)(e) replaces the reference to Regulation 401 KAR 51:052 with a reference to 40 CFR part 51, Appendix S, section IV. This revision became State-effective on December 11, 1987.

(i) Incorporation by reference.

(A) Kentucky Regulation 401 KAR 51:017, Prevention of Significant Deterioration of Air Quality, section 12(1)(e), which became State-effective on December 11, 1987.

(ii) Other material.

(A) Letter of February 9, 1988, from the Kentucky Natural Resources and Environmental Protection Cabinet.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Part 424

[BPD-811-CN]

RIN 0938-AE07

Medicare Program; Physician Involvement in Physical Therapy and Speech Pathology Services

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Correction of interim final rule with comment.

SUMMARY: This document corrects a technical error in the interim final rule with comment that was published in the Federal Register on September 20, 1989 (54 FR 38677) on Medicare conditions of participation concerning physician involvement in physical therapy and speech pathology services.

FOR FURTHER INFORMATION CONTACT: William A. Roskey, (301) 966-4677.

SUPPLEMENTARY INFORMATION: In Federal Register document 89-22170, on page 38679 in the issue of September 20, 1989, make the following correction:

In the next to the last line of the third column, revise "424.25(e)" to read "424.25(e)(1)".

(Catalog of Federal Domestic Assistance Program No. 13.774, Medicare—Supplementary Medical Insurance.)

Dated: October 31, 1989.

James E. Larson,

Deputy Assistant Secretary for Information and Resources Mangement.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 89-17; RM-6543; RM-6732; RM-6733]

Radio Broadcasting Services; Warren Grove, Tuckerton, and Manahawkin, NJ

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of SD Radio Partners, allots Channel 259A to Tuckerton, New Jersey, as the community's first local radio service, and, at the request of Jersey Shore Broadcasting Corporation, allots Channel 289B1 to Manahawkin, New Jersey, as its second local FM service. Channel 259A can be allotted to Tuckerton in compliance with the Commissions' minimum distance separation requirements with a site restriction of 9.9 kilometers (6.2 miles) southeast to avoid a short-spacing to Station WJRZ(FM), Channel 261A, Manahawkin, at coordinates North Latitude 39-33-24 and West Longitude 74-14-30. Channel 289B1 can be allotted to Manahawkin in compliance with the Commissions' minimum distance separation requirements with a site restriction of 11.7 kilometers (7.3 miles) east to avoid a short-spacing to Station WBNJ, Channel 288A, Cape May, New Jersey, Station WQSR, Channel 289B, Catonsville, Maryland, and Station WNWK, Channel 290B1, Newark, New Jersey, at coordinates North Latitude 39-43-30 and West Longitude 74-07-40. With this action, this proceeding is terminated.

DATES: Effective December 15, 1989. The window period for filing applications will open on December 18, 1989, and close on January 17, 1990.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 89-17, adopted October 6, 1989, and released October 31, 1989. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

[MM Docket No. 89-12; RM-6545]

Radio Broadcasting Services; Oakes, ND

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of CERM Broadcasting Corporation, substitutes Channel 223C1 for Channel 222C2 at Oakes, North Dakota, and modifies its license for Station KDDR-FM to specify the higher powered channel. Channel 223C1 can be allotted to Oakes in compliance with the Commission's minimum distance separation requirements without the imposition of a site restriction. The coordinates for this allotment are North Latitude 46-08-12 and West Longitude 98-05-36. Canadian concurrence has been received since Oakes is located within 320 kilometers of the U.S.-Canadian border. With this action, this proceeding is terminated.

EFFECTIVE DATE: December 15, 1989.

[MM Docket No. 89-13; RM-6547]

Radio Broadcasting Services; Gleneden Beach, Sweet Home and Toledo, Oregon

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Galaxy Broadcast Partners, substitutes Channel 296C2 for Channel 296A at Sweet Home, Oregon, and modifies its license for Station KNKN to specify operation on the higher powered channel. Channel 296C2 can be allotted to Sweet Home in compliance with the Commission's minimum distance separation requirements and can be used at Station KNKN's present transmitter site. The coordinates for the Sweet Home allotment are North Latitude 44-26-05 and West Longitude 122-42-23. In addition, Channel 264A is substituted for Channel 296A at Toledo, Oregon, and the license of Station KTDO-FM is modified accordingly. Channel 264A can be allotted to Toledo in compliance with the Commission's minimum distance separation requirements and can be used at Station KTDO-FM's present transmitter site at North Latitude 44-38-40 and West Longitude 124-00-52. Channel 248C2 is substituted for unoccupied but applied for Channel 264C2 at Gleneden Beach, Oregon, Channel 248C2 can be allotted to Gleneden Beach in compliance with the Commission's minimum distance separation requirements without the imposition of a site restriction at North Latitude 44-52-53 and West Longitude 124-02-57. Channel 248C2 can also be used at the transmitter sites specified in the pending applications of Linn and Fowler, BPH-880118MA and BPH-880118MB, respectively. With this action, this proceeding is terminated.

EFFECTIVE DATE: December 14, 1989.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 1

[OST Docket No. 1; Amdt. 1–232]

Organization and Delegation of Powers and Duties

AGENCY: Office of the Secretary (OST), DOT.

ACTION: Final rule.

SUMMARY: The Assistant Secretary for Administration has delegated authority to the OST Director of Financial Management to approve OST employee claims allowable under 31 U.S.C. 3721 for amounts of $500 or less.

EFFECTIVE DATE: October 2, 1989.

FOR FURTHER INFORMATION CONTACT: Robert W. Gordon, Office of Financial Management, M–80, (202) 366–5628, Department of Transportation, 400 7th Street, SW., Washington, DC 20590.

SUPPLEMENTARY INFORMATION: Under 31 U.S.C. 3721 the head of an agency may approve claims of agency employees for damage to, or loss of, personal property incident to Federal service. The Secretary of Transportation has delegated this authority for OST employees to the Assistant Secretary for Administration under § 1.59(c)(4), DOT 1100.60A, Department of Transportation Organization Manual. When amounts of $500 or less are involved, the Assistant Secretary for Administration has redelegated this authority for OST employees to the OST Director of Financial Management.

The Code of Federal Regulations does not reflect this delegation, therefore, a change is necessary.

Since this amendment relates to Departmental management, procedures, and practice, notice and comment are unnecessary, and it may be made effective in fewer than thirty days after publication in the **Federal Register**. The delegation is effective immediately.

List of Subjects

Authority delegations (Government agencies), Organization and functions (government agencies).

In accordance with the Assistant Secretary's authority, the following change is made.

In consideration of the foregoing, part 1 of title 49, Code of Federal Regulations, is amended to read as follows:

PART 1—[AMENDED]

1. The authority citation for part 1 continues to read as follows:

Authority: 49 U.S.C. 322.

2. Section 1.59a is amended by adding a new paragraph (c)(6) to read as follows:

§ 1.59a Redelegations by the Assistant Secretary for Administration.

* * * * *

(c) * * *

(6) Approve claims of OST employees allowable under 31 U.S.C. 3721 for amounts of $500 or less.

Issued on: October 2, 1989.

Melissa Jane Allen,

Deputy Assistant Secretary for Administration.

BILLING CODE 4910–62–M

Federal Highway Administration

49 CFR Part 391

[FHWA Docket No. MC–116]

RIN 2125–AA79

Controlled Substances Testing; Implementation Dates

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Final rule; deferred implementation of random and mandatory post-accident testing requirements; interpretation.

SUMMARY: On November 21, 1988, the FHWA issued a final rule requiring motor carriers to have an anti-drug program. This program includes drug testing drivers who operate commercial motor vehicles (CMV) in interstate commerce. The final rule set forth the classes of controlled substances, the types of tests to be conducted, the dates for implementation of testing and, through reference to 49 CFR part 40, Procedures for Transportation Workplace Drug Testing Programs, the procedures for testing and reporting of the test results.

This notice states FHWA's policy regarding implementation in view of a preliminary injunction issued on January 6, 1989, enjoining the FHWA from implementing random and certain mandatory post-accident testing of CMV drivers. This notice also clarifies the types of testing that must be implemented by December 21, 1989.

DATES: This final rule is effective November 6, 1989. Implementation of the random and certain mandatory post-accident testing provisions of the final rule will be deferred until further notice; other types of testing required by the final rule will be implemented as specified in the rule.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas P. Kozlowski, Office of Motor Carrier Standards, (202) 366–2981, or Mr. Thomas P. Holian, Office of Chief Counsel, (202) 366–1350, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m. e.t., Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION:

Background

The FHWA published a final rule on November 21, 1988, setting forth regulations requiring motor carriers who operate CMV in interstate commerce to establish and maintain anti-drug programs, including testing of CMV drivers for the use of controlled substances. 53 FR 47134. Testing under this regulation must be conducted prior to employment/use, periodically, upon reasonable cause, after a reportable accident, and randomly. Generally, interstate drivers of CMV, which are defined as vehicles with gross vehicle weight ratings (GVWR) of more than 26,000 pounds, vehicles transporting hazardous materials that are required to be placarded, or vehicles designed to transport more than 15 passengers, including the driver, are covered by this rule.

On the same date, November 21, 1988, the Office of the Secretary, Department of Transportation (OST), published an interim final rule, "Procedures for Transportation Workplace Drug Testing Programs," setting forth the testing and reporting procedures applicable to the FHWA rule. 53 FR 47002.

Six lawsuits have been filed challenging the FHWA's controlled substances testing regulation. In *Owner-Operators Indep. Drivers Ass'n (OOIDA)* v. *Burnley*, 705 F. Supp. 481 (N.D. Cal. 1989), the court granted plaintiff OOIDA a preliminary injunction on January 6, 1989, enjoining the FHWA from implementing random and certain mandatory post-accident testing of CMV drivers. *Id.* at 485.

On August 1, 1989, the court in *OOIDA* denied the Government's motion for judgment on the pleadings on the ground of lack of subject matter jurisdiction. The court, however, certified the question of jurisdiction for interlocutory appeal under 28 U.S.C. 1292(b). On August 11, 1989, the Government filed a petition for interlocutory appeal in the Ninth Circuit Court of Appeals. Case No. 89–80273. The Court of Appeals granted the petition October 17, 1989, setting an expedited briefing schedule. Meanwhile, by order issued August 21, 1989, the district court stayed further proceedings; however, the injunction against random and certain mandatory post-accident testing remains in effect.

In addition, the other challenges to the FHWA's controlled substances testing regulation have been consolidated in the Ninth Circuit under the name *International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, et al.* v. *U.S. Department of Transportation*, No. 89–70165. No petitioner in that consolidated proceeding contests the jurisdiction of the court of appeals; however, OOIDA has been granted amicus status to brief and argue the jurisdictional question (Order, July 17, 1989); and the Ninth Circuit has indicated that it will decide the jurisdictional question with the merits. June 6, 1989, Order. An expedited briefing schedule for this consolidated case has been set, but a resolution before December 21, 1989, now appears unlikely.

In view of the rapidly approaching date for implementation of testing by larger carriers, and the uncertainty of the timing of judicial resolution of this matter, the FHWA is hereby providing notice to motor carriers nationwide that implementation of random testing and certain mandatory post-accident testing, now preliminarily enjoined, is deferred until further notice. If the Government prevails before the Ninth Circuit, the preliminary injunction will be dissolved; and the FHWA will publish a **Federal Register** Notice advising motor carriers of the implementation dates for random and mandatory post-accident testing, which we expect to be approximately 90 days after publication of such Notice.

In deferring implementation of random and certain mandatory post-accident testing, the agency emphasizes that motor carriers nationwide must implement pre-employment or pre-use, periodic, reasonable cause, and unenjoined post-accident drug testing in accordance with the implementation schedule set forth in the November 21, 1988, final rule. The agency intends to enforce these requirements.

With respect to this required implementation, the FHWA advises that unenjoined post-accident testing permitted under the terms of the preliminary injunction is defined as testing when there is any reasonable suspicion of drug usage, or reasonable cause to believe a driver has been operating a vehicle while under the influence of drugs, or reasonable cause to believe the driver was at fault in the accident and drug usage may have been a factor. Accordingly, the FHWA expects motor carriers to instruct their drivers that drug testing will be required after accidents under certain conditions, and to require their drivers to submit to such testing.

The FHWA also takes this opportunity to further clarify the duty of motor carriers to comply with the requirements of this rule:

1. Motor carriers with 50 or more "drivers subject to testing" on December 21, 1989, must implement a testing program for controlled substances by December 21, 1989. Motor carriers must evaluate their employment records, driver contracts, and all other related documents as of December 21, 1989, to determine if they meet the size threshold requiring implementation of testing by December 21, 1989. This requirement is applicable regardless of the size of a motor carrier on any other date. In determining the number of "drivers subject to testing," the drivers at all terminals and other facilities operated by that carrier must be considered, regardless of whether the carrier has obtained divided record authority under 49 CFR 395.8(k)(2).

2. Motor carriers with fewer than 50 "drivers subject to testing" on December 21, 1989, must begin testing no later than December 21, 1990.

3. Motor carriers required to implement testing on December 21, 1989, for those drivers who meet the requirements of "drivers subject to testing," as defined in the rule, must test new employee-drivers and drivers under contract for more than 90 days during the period December 21, 1989, through December 21, 1990. This requirement will provide drivers who are not regularly used by a carrier ample time to join a motor carrier's or consortium's testing program. This provision also is consistent with the two-tiered implementation phase-in currently in the final rule regarding smaller carriers.

4. All CMV drivers employed or used by motor carriers must be participating in a controlled substances testing program that meets the requirements of subpart H by December 21, 1990. This includes those drivers for motor carriers who were required to implement testing by December 21, 1989, but who were not defined as "drivers subject to testing."

VOL 54 ISS 213 NOV 6 1989 UMI

Regulatory Procedures

The FHWA has determined that this document does not contain a major rule under Executive Order 12291 or significant regulation under the regulatory policies and procedures of the Department of Transportation. Since the amendment contained in this document is being issued to clarify the existing rule, further public comment is considered unnecessary. Further notice and opportunity for comment are not required under the regulatory policies and procedures of the Department of Transportation because it is not anticipated that such action could result in the receipt of useful information. Therefore, the FHWA finds good cause to make the amendment final without notice and opportunity for comment and without a 30-day delay in effective date under the Administrative Procedure Act. Accordingly, this amendment is effective upon publication in the **Federal Register.**

To the extent that any economic impacts exist, the amendment will lessen regulatory burdens by increasing the time available to comply with existing regulatory requirements. For this reason, a full regulatory evaluation is not required. For the same reason, and under the criteria of the Regulatory Flexibility Act, the FHWA hereby certifies that this action will not have a significant economic impact on a substantial number of small entities. This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

A regulatory information number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 49 CFR Part 391

Controlled substances, Drug testing, Highways and roads, Highway safety, Motor carriers, Motor vehicle safety.

(Catalog of Federal Domestic Assistance Program Number 20.217, Motor Carrier Safety)

Issued on: October 31, 1989.

T. D. Larson,

Administrator.

In consideration of the foregoing, the FHWA is amending title 49, Code of Federal Regulations, subtitle B, chapter III, part 391 as set forth below:

PART 391—QUALIFICATIONS OF DRIVERS

1. The authority citation for part 391 continues to read as follows:

Authority: 49 U.S.C. App. 2505; 49 U.S.C. 504 and 3102; 49 CFR 1.48.

Subpart H—Controlled Substance Testing

2. In § 391.93, paragraphs (b) and (c) are revised to read as follows:

§ 391.93 Implementation schedule.

* * * * *

(b) Motor carriers with 50 or more "drivers subject to testing" on December 21, 1989, are required to implement a controlled substance testing program which meets the requirements of this subpart by:

(1) December 21, 1989, for "drivers subject to testing," and

(2) December 21, 1990, for all commercial motor vehicle drivers. (c) Motor carriers with less than 50 "drivers subject to testing" on December 21, 1989 are required to implement a controlled substance testing program by December 21, 1990, for all commercial motor vehicle drivers.

BILLING CODE 4910-22-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1054

[Ex Parte No. MC-29; Sub-No. 5]

Incidental Charter Rights; Simplification of Regulations

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Commission is adopting final rules, as set forth below, governing the exercise by motor passenger carriers of incidental charter rights under 49 U.S.C. 10932(c) and 49 CFR part 1054. A notice of proposed rules was published in the **Federal Register** on June 12, 1989 at 54 FR 24918. The revised rules simplify and broaden somewhat the present rules, which had become practically obsolete as a consequence of the statutory amendments in the Bus Regulatory Reform Act of 1982, Public Law 97-261, 96 Stat. 1102 (1982).

EFFECTIVE DATE: December 6, 1989.

FOR FURTHER INFORMATION CONTACT: James L. Brown, (202) 275-7898, or Richard B. Felder, (202) 275-7691. (TDD for hearing impaired: (202) 275-1721).

SUPPLEMENTARY INFORMATION: The revised rules: (1) Clarify the applicability of the rules; (2) broaden the territorial scope of existing incidental charter rights to permit service between any points and places in the United States (including Alaska and Hawaii); and (3) specify certain exceptions to the exercise of incidental charter rights.

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289-4357/4359. (Assistance for the hearing impaired is available through TDD services at (202) 275-1721.)

Environmental and Energy Considerations

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

Regulatory Flexibility Analysis

We affirm our prior certification. The rules we are adopting simplify the regulations applicable to incidental charter rights, eliminate a number of obsolete requirements, and broaden the territorial scope of incidental charter authority to that typically authorized in certificates specifically authorizing charter operations. Very few, if any, carriers actually use incidental charter rights at this time. Most small entities that do not hold qualifying regular-route authorities already have or can easily obtain specific charter authority through "fitness-only" application procedures. As a consequence, although all discernible impacts of this action are positive, no significant impact is anticipated on any small entities.

List of Subjects in 49 CFR Part 1054

Buses, Motor carriers.

Decided: October 30, 1989.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners André, Lamboley, and Phillips.

Noreta R. McGee,

Secretary.

For the reasons set forth in the preamble, title 49, chapter X, part 1054 of the Code of Federal Regulations is revised to read as follows:

PART 1054—INCIDENTAL CHARTER RIGHTS

Sec.

1054.1 Applicability.
1054.2 Authority.
1054.3 Exceptions.

Authority: 5 U.S.C. 553 and 559 and 49 U.S.C. 10321, 10922, and 10932.

§ 1054.1 Applicability.

The regulations in this part apply to incidental charter rights authorized under 49 U.S.C. 10932(c). These regulations do not apply to interpreting authority contained in a certificate to transport passengers in special and/or charter operations.

§ 1054.2 Authority.

Motor carriers transporting passengers, in interstate or foreign commerce, over regular routes authorized in a certificate issued as a result of an application filed before January 2, 1967, may transport special or chartered parties, in interstate or foreign commerce, between any points and places in the United States (including Alaska and Hawaii). The term "special or chartered party" means a group of passengers who, with a common purpose and under a single contract, and at a fixed charge for the vehicle in accordance with the carrier's tariff, have acquired the exclusive use of a passenger-carrying motor vehicle to travel together as a group to a specified destination or for a particular itinerary.

§ 1054.3 Exceptions.

(a) Incidental charter rights do not authorize the transportation of passengers to whom the carrier has sold individual tickets or with whom the carrier has made separate and individual transportation arrangements.

(b) Service provided under incidental charter rights may not be operated between the same points or over the same route so frequently as to constitute a regular-route service.

(c) Passenger transportation within the Washington Metropolitan Area Transit District (as defined in the Washington Metropolitan Area Transportation Regulation Compact, Pub. L. No. 86-794, 74 Stat. 1031 (1960), as amended by Pub. L. No. 87-767, 76 Stat. (1962) is not authorized by these regulations, but is subject to the jurisdiction and regulations of the Washington Metropolitan Area Transportation Commission.

(d) A private or public recipient of governmental assistance (within the meaning of 49 U.S.C. 10922(c)(1)(F)) may provide service under incidental charter rights only for special or chartered parties originating in the area in which the private or public recipient provides regularly scheduled mass transportation services under the specific qualifying certificate that confers its incidental charter rights.

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 675

[Docket No. 81131-9019]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of inseason adjustment.

SUMMARY: NOAA announces the apportionment of amounts of Alaska groundfish to the domestic annual processing (DAP) portion of the domestic annual harvest (DAH). This action, taken under provisions of the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP), is necessary to assure optimum use of groundfish in that area. It is a conservation and management measure intended to promote fishery objectives of the North Pacific Fishery Management Council.

DATES: Effective October 31, 1989. Comments will be accepted through November 21, 1989.

ADDRESS: Comments should be mailed to Steven Pennoyer, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, AK 99802, or be delivered to Room 453, Federal Building, 709 West Ninth Street, Juneau, Alaska.

FOR FURTHER INFORMATION CONTACT: Jessica A. Gharrett (Resource Management Specialist, NMFS), 907-586-7229.

SUPPLEMENTARY INFORMATION: The FMP is implemented by rules appearing at 50 CFR 611.93 and part 675.

Initial specifications for DAH, DAP and joint venture processing (JVP) for 1989 were published at 54 FR 3605 (January 25, 1989). The same notice established a 15 percent non-specific reserve and then apportioned amounts from that reserve to JVP in order to provide bycatch amounts for JVP fisheries.

Some of the DAP amounts were revised in September (54 FR 37112, September 7, 1989) based on new information about DAP potential. This information indicated some amounts excess to DAP needs in 1989, as well as DAP amounts that could require supplementation. Amounts that may be needed to supplement DAP were retained in the non-specific reserve, to be apportioned to DAP if the need arose later in the year. Amounts in DAP and reserve in excess of DAP requirements were apportioned to JVP.

Later in September (54 FR 38666, September 20, 1989) the DAP for Atka mackerel was supplemented by 3,043 mt of the non-specific reserve, and in October (54 FR 41977, October 13, 1989) the DAP for Greenland turbot was supplemented by 1,200 mt of the non-specific reserve.

Reapportionment

The following actions are taken by this notice to reapportion groundfish from the non-specific reserve (see table 1). To the Bering Sea and Aleutian Islands DAPs for sablefish:

Effective February 3, 1989, the entire sablefish total allowable catch (TAC) in the Bering Sea subarea was set aside as bycatch to support other target groundfish fisheries (54 FR 6134, February 3, 1989). Sablefish directed fishing was allowed in the Aleutian Islands subarea until July 30, 1989 (54 FR 31842, August 2, 1989), at which time directed fishing was terminated to provide adequate bycatch amounts to support other directed groundfish fisheries. The Director, Alaska Region, NMFS, later determined that only minimal amounts are expected to be needed to support other directed groundfish fisheries during the remainder of the fishing year, and the directed fisheries for sablefish in the Bering Sea and Aleutian Islands subareas recommenced on October 20, 1989 (54 FR 39741, September 28, 1989). At current effort levels, the DAP quotas for sablefish in the Bering Sea and Aleutian Islands subareas (2,380 mt and 2,890 mt, respectively) will be reached shortly.

Rather than require sablefish to be discarded, as would occur if the DAP quota were reached, the DAP for sablefish is increased from the non-specific reserve by 420 mt in the Bering Sea subarea, and 510 mt in the Aleutian Islands subarea.

These apportionments do not result in overfishing of sablefish, as the resulting TAC amounts do not exceed the acceptable biological catches (ABC's).

VOL 54 ISS 213 NO 6 1989 UMI

Classification

This action is taken under the authority of § 675.20(b) and complies with Executive Order 12291.

The Assistant Administrator for Fisheries NOAA, finds for good cause that it is impractical and contrary to the public interest to provide prior notice and comment. Immediate effectiveness of this notice is necessary to benefit domestic fishermen who otherwise would be required to terminate a fishery earlier than necessary. However, interested persons are invited to submit comments in writing to the address above for 15 days after the effective date of this notice.

Proposed Rules

Federal Register
Vol. 54, No. 213
Monday, November 6, 1989

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 890

RIN 3206-AD23

Federal Employees Health Benefits Program—Opportunity for Certain Annuitants to Reenroll

AGENCY: Office of Personnel Management.

ACTION: Notice of withdrawal of proposed regulations.

SUMMARY: The Office of Personnel Management (OPM) is withdrawing its proposal to revise the Federal Employees Health Benefits (FEHB) Program regulations to permit reenrollment for certain annuitants who are entitled to part B of Medicare and cancel their FEHB coverage to enroll in a Medicare risk or cost contract under section 1876 of the Social Security Act. The proposed regulations, issued on August 8, 1988 (53 FR 29886), would have limited this reenrollment opportunity to annuitants who: (1) Were previously enrolled in FEHB, (2) dropped the FEHB coverage to enroll in a Medicare risk or cost plan, and (3) subsequently lost the Medicare risk or cost plan coverage due to either a move out of the plan enrollment area or discontinuance of the plan. In July of 1989, Public Law 101-76 was enacted, which includes a provision requiring OPM to submit to the Congress by February 1990 recommendations to reform the FEHB Program. In light of the likely reform of the Program, it would be untimely to pursue a change of this significance now. Any further consideration of this issue is being deferred until further study during the FEHB reform process.

FOR FURTHER INFORMATION CONTACT: Bill Smith, (202) 632-4634.

U.S. Office of Personnel Management.

Constance Berry Newman,

Director.

BILLING CODE 3325-01-M

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 905

[Docket No. FV-89-105PR]

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida; Proposed Handling Requirement Changes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule proposes changes in the handling requirements effective under the marketing order for fresh oranges, grapefruit, tangerines, and tangelos grown in Florida. These proposed changes would reduce the minimum size requirement for domestic and import shipments of pink seedless grapefruit, and increase the minimum size requirements for export shipments of early and midseason oranges, navel oranges, Valencia and similar late maturing oranges, tangelos, temple oranges, and Robinson tangerines. This proposed action is based on an analysis of the 1989-90 season Florida citrus crop and current and prospective market conditions.

DATES: Comments must be received by November 16, 1989.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule to: Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525-S, Washington, DC 20090-6456. Three copies of all written material shall be submitted, and they will be made available for public inspection at the office of the Docket Clerk during regular business hours. All comments should reference the docket number, date, and page number of this issue of the Federal Register.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525-S, Washington, DC 20090-6456; telephone: (202) 475-3918.

SUPPLEMENTARY INFORMATION: This proposed rule is issued under Marketing Agreement and Marketing Order No. 905, both as amended (7 CFR part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

This proposed rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 100 Florida citrus handlers subject to regulation under the marketing order covering oranges, grapefruit, tangerines, and tangelos grown in Florida. In addition, there are about 13,000 producers of these citrus fruits in Florida, and about 26 importers who import grapefruit into the United States. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having average annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. A minority of these handlers and a majority of the producers and importers may be classified as small entities.

Section 905.306 (7 CFR 905.306) specifies minimum grade and size requirements for most varieties of Florida oranges, grapefruit, tangerines, and tangelos for both the domestic and export markets. The requirements for the domestic markets are specified in that section in Table I of paragraph (a) and for export markets in Table II of paragraph (b). The domestic markets were redefined as the 48 contiguous States and the District of Columbia of the United States and export markets as

any destination other than the 48 contiguous States and the District of Columbia of the United States by an amendment to the marketing order (54 FR 37290, September 8, 1989), which

the 1989-90 season crop. The committee meets prior to and during each season to review the handling requirements, effective on a continuous basis, for each

imported pink seedless grapefruit. An exemption provision in the grapefruit import regulation permits persons to import up to 10 standard packed ⅘-

2. The provisions of § 905.306 are amended as follows:

Note: This action will be published in the Code of Federal Regulations.

Tangelos			
Tangelos.....	On and after [1].	U.S. No. 1.....	2¼

[1] Insert date of publication of the final rule in the FEDERAL REGISTER.

would amend the regulations concerning quarantine facilities for animals imported into the United States. The proposed rule would (1) establish requirements for approval of permanent

any destination order than the 48 contiguous States and the District of Columbia of the United States by an amendment to the marketing order (54 FR 37290, September 8, 1989), which revised §§ 905.9 and 905.52. Section 905.306 has been amended by an interim final rule, published in the Federal Register concurrently with this proposed rule, which reflects these changes to the order.

This proposed action would reduce the minimum size requirements for domestic shipments of pink seedless grapefruit to 3⁹⁄₁₆ inches in diameter from 3⁹⁄₁₆ inches in diameter. The Citrus Administrative Committee (committee) reports that this season's grapefruit crop is maturing earlier, that the fruit is smaller than normal, and that a multiple bloom will require spot picking during most of the season. The committee recommended this action due to these current crop conditions, since it would permit domestic shipments of smaller fruit early in the season. The committee requested this relaxation for the period October 16, 1989 through October 21, 1990. Eleven committee members voted in favor of this action. Two members voted against the action because they wanted to wait until early or mid-winter to release the smaller size 56 grapefruit, as the industry has done in the past. Two members abstained because they represent districts which ship mostly oranges, tangerines, and tangelos.

This proposed action would also increase the minimum size requirements for export shipments of early and midseason oranges, navel oranges, Valencia and similar late maturing oranges, tangelos, and temple oranges to 2⁹⁄₁₆ inches in diameter from 2⁹⁄₁₆ inches, and Robinson tangerines to 2⁹⁄₁₆ inches in diameter from 2⁹⁄₁₆ inches. Canada is a major export market for Florida oranges, tangerines, and tangelos and shipments of these fruits to that market have historically been limited to the larger sizes consistent with market requirements. The order provisions were amended September 8, 1989, to designate Canada as an export market rather than a domestic market. This proposal would change minimum size requirements for export shipments of oranges, tangerines and tangelos to the same requirements that were applicable to shipments to Canada prior to the amendment.

The committee, which administers the program locally, met September 19, 1989, and recommended these actions based on the analysis of the current and prospective marketing conditions and the 1989–90 season crop. The committee meets prior to and during each season to review the handling requirements, effective on a continuous basis, for each regulated citrus fruit. Committee meetings are open to the public, and interested persons may express their views at these meetings. The U.S. Department of Agriculture (Department) reviews committee recommendations and information submitted by the committee and other available information and determines whether modification, suspension, or termination of the handling requirements would tend to effectuate the declared policy of the Act.

Some Florida citrus fruit shipments are exempt from the handling requirements effective under the marketing order. Handlers may ship up to 15 standard packed cartons (12 bushels) of fruit per day under a minimum quantity exemption provison. Also, handlers may ship up to two standard packed cartons of fruit per day in gift packages which are individually addressed and not for resale, under the current exemption provisions. Fruit shipped for animal feed is also exempt under specific conditions. In addition, fruit shipped to commercial processors for conversion into canned or frozen products or into a beverage base are not subject to the handling requirements.

Section 8e of the Act (7 U.S.C. 608e–1) provides that whenever specified commodities, including oranges and grapefruit, are regulated under a Federal marketing order, imports of these commodities into the United States are prohibited unless they meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodities. Section 8e also provides that whenever two or more marketing orders regulate the same commodity produced in different areas of the United States, the Secretary shall determine which area the imported commodity is in most direct competition with and appply the regulations for that area to the imported commodity.

Grapefruit import requirements are specified in § 944.106 (7 CFR part 944), and are effective under section 8e of the Act. That section requires that grapefruit imported into the United States must meet the same minimum grade and size requirements as those specified for the various varieties of Florida grapefruit in Table I of paragraph (a) in § 905.306. Since this action reduces minimum size requirements for domestically produced Florida pink seedless grapefruit, the reduced size requirements also apply to imported pink seedless grapefruit. An exemption provision in the grapefruit import regulation permits persons to import up to 10 standard packed ⅘-bushel cartons exempt from the import requirements.

Orange import requirements are specified in § 944.312 (7 CFR part 944), and are effective under section 8e of the Act. That section requires that oranges imported into the United States must meet the same minimum grade and size requirements as those established in § 906.365 for Texas oranges under M.O. 906 (7 CFR part 906). Accordingly, the findings and determinations for imported oranges contained in part 944 would not be changed by this proposed action and no changes to these provisions of Part 944 would be necessary. Thus, orange import requirements would continue to be based upon the Texas orange requirements under M.O. 906.

This proposed action reflects the committee's and the Department's appraisal of the need to make the proposed handling requirement changes. The Department's view is that this proposed action would have a beneficial impact on producers and handlers since it would allow Florida citrus handlers to ship those sizes of fruit needed to meet buyer requirements consistent with this season's crop and market conditions.

Based on the above, the Administrator of the AMS has determined that this proposed action would not have have a significant economic impact on a substantial number of small entities.

It is found and determined that a comment period of less than 30 days is appropriate because this action, if adopted, would need to become effective promptly, so that it would apply to as much as possible of this season's shipments, which have already begun.

List of Subjects in 7 CFR Part 905

Florida, Grapefruit, Marketing agreements and orders, Oranges, Tangelos, Tangerines.

For the reasons set forth in the preamble, 7 CFR Part 905 is proposed to be amended as follows:

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

1. The authority citation for 7 CFR part 905 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. The provisions of § 905.306 are amended as follows:

Note: This action will be published in the Code of Federal Regulations.

A. In paragraph (a), Table I, the entry for seedless pink grapefruit is revised to read as set forth below.

B. In paragraph (b), Table II, the entries for all varieties of oranges, for Robinson tangerines, and for tangelos are revised to read as follows:

BILLING CODE 3410–02–M

Animal and Plant Health Inspection Service

9 CFR Part 92

[Docket No. 89–195]

Horse Quarantine Facility Standards; Collection of Fees at Animal Quarantine Facilities

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of extension of comment period.

SUMMARY: We are extending the comment period for our proposal to amend the regulations concerning quarantine facilities for horses being imported into the United States, and concerning the collection of fees at animal quarantine facilities. This extension will provide interested persons with additional time to prepare comments on the proposed rule.

DATE: Consideration will be given only to written comments on Docket No. 85–061 received on or before January 5, 1990.

ADDRESSES: To help ensure that your written comments are considered, send an original and three copies to Chief, Regulatory Analysis and Development, PPD, APHIS, USDA, Room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket No. 85–061. Comments received may be inspected at USDA, Room 1141, South Building, 14th Street and Independence Avenue, SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. Harvey A. Kryder, Senior Staff Veterinarian, Import-Export Products Staff, VS, APHIS, USDA, Room 756, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301–436–7885.

SUPPLEMENTARY INFORMATION: On September 6, 1989, we published in the Federal Register (54 FR 36986–36990, Docket No. 85–061) a proposed rule that would amend the regulations concerning quarantine facilities for animals imported into the United States. The proposed rule would (1) establish requirements for approval of permanent, privately operated quarantine facilities for horses; (2) add new requirements to those already in the regulations for approval of temporary, privately operated quarantine facilities for horses; and (3) specify that the government collect payment from each privately operated quarantine facility for services the government provides at that facility. Comments on the proposed rule were required to be received on or before November 6, 1989.

During the comment period for the proposed rule, we received two requests that we extend that comment period. One of the requests was from the American Horse Council (AHC), which stated that it would like to have the proposed rule discussed at the annual convention of the American Association of Equine Practitioners (AAEP), to be held December 3–6, 1989. The AHC requested that we extend the comment period to a date past the AAEP convention, to allow its members to comment on the proposed rule in light of discussion at the convention. The second request was from a representative of a brokerage firm, who requested that we extend the comment period 60 days beyond its scheduled closing date, to allow the equine industry additional time to notify its members of the proposed rule, and to provide additional time for comments from that industry.

In response to these requests, we are extending the comment period for Docket No. 85–061, in order to allow for comments following the AAEP convention, and to allow the equine industry additional time to notify its members of the proposed rule. We will consider all written comments received on or before January 5, 1990. This action will allow the requestors and all other interested persons additional time to prepare comments.

Authority: 7 U.S.C. 1622; 19 U.S.C. 1306; 21 U.S.C. 102–105, 111, 134a, 134b, 134c, 134d, 134f, and 135; 31 U.S.C. 9701; 7 CFR 2.17, 2.51, and 371.2(d).

Done in Washington, DC, this 31st day of October, 1989.

Larry B. Slagle,

Acting Administrator, Animal and Plant Health Inspection Service.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

RIN 3150-AD19

Stabilization and Decontamination Priority, Trusteeship Provisions, and Amount of Property Insurance Requirements

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission proposes to amend the provisions of its property insurance regulations applicable to commercial power reactor licensees. The changes are proposed to (1) clarify the scope and timing of the stabilization and decontamination processes after an accident at a covered reactor; (2) specify that the insurance is required to ensure that commercial power reactor licensees will have sufficient funds to carry out their obligation to clean up and decontaminate after an accident; and (3) eliminate the requirement that insurance proceeds after an accident are paid to an independent trustee. In addition, Chairman Carr and Commissioner Rogers support the staff proposal to solicit comments on the appropriate level of required insurance in view of inflation of decontamination and cleanup costs. This proposed rule responds to issues raised in three petitions for rulemaking.

DATES: The comment period expires January 5, 1990. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: Submit written comments to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attn: Docketing and Service Branch. Hand deliver comments to: 11555 Rockville Pike, Rockville, MD, between 7:30 a.m. and 4:15 p.m. (Telephone (301) 492–1960). Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street, NW., Lower Level, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Robert S. Wood, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 492–1280.

SUPPLEMENTARY INFORMATION:

I. Background

On August 5, 1987, the Commission published in the **Federal Register** (52 FR 28963) a final rule that amended 10 CFR 50.54(w). The rule increased the amount of onsite property damage insurance required of commercial power reactor licensees. The purpose of the rule was to provide an assured source of funds for onsite decontamination and cleanup of a power reactor facility after an accident. In particular, the 1987 amendments required licensees to obtain insurance policies in which any proceeds from such policies are to be used for stabilization of a reactor after an accident and then for decontamination of the facility before any other purpose. The rule also required that any insurance proceeds be paid to a trustee, who would be required to disburse funds according to the decontamination priority. The Commission believed that these provisions would effectively protect insurance proceeds from claims by bondholders or their representatives or, in the event of licensee default or bankruptcy, by other creditors. The Commission based this belief on comments submitted by the Association of the Bar of the City of New York (hereinafter referred to as NYC Bar). (See comment number 12 in response to the 1984 proposed rule (49 FR 44645, November 8, 1984)).

Subsequent to publication of the 1987 final rule, the NRC received three petitions for rulemaking that sought (1) clarification of the scope and timing of the stabilization process after an accident at a covered reactor; (2) clarification of the procedures by which the NRC determines and approves expenditures of funds necessary for decontamination and cleanup, and clarification of how such procedures affect both insurers' needs to secure appropriate proofs of loss and when payments may be made for non-cleanup purposes; (3) a change in the terminology of the required insurance from "property" insurance to "decontamination liability" insurance so as to better forestall claims to insurance proceeds by a licensee's bondholders; and (4) rescission of the provision that proceeds of the required insurance are to be paid to an independent trustee, who will disburse the proceeds for decontamination and cleanup of the facility before any other purpose.

Notice of receipt of the three petitions for rulemaking was published on September 19, 1988 (53 FR 36335). These petitions are (1) Petition for Rulemaking (PRM–50–51) dated June 3, 1988, from Linda S. Stein, Steptoe & Johnson, counsel to American Nuclear Insurers and MAERP Reinsurance Association (ANI/MAERP); (2) Petition for Rulemaking (PRM–50–51A) dated June 21, 1988, from J. B. Knotts, Jr., Bishop, Cook, Purcell & Reynolds, counsel to the Edison Electric Institute (EEI), the Nuclear Utility Management and Resources Council (NUMARC) and several power plant licensees; and (3) Petition for Rulemaking (PRM–50–51B), received July 18, 1988, from Peter D. Lederer, Baker & McKenzie, counsel to Nuclear Mutual Limited and Nuclear Electric Insurance Limited (NML and NEIL–II). Interested persons may examine and copy for a fee the above letters and petitions for rulemaking at the NRC Public Document Room, 2120 L Street, NW., Lower Level, Washington, DC.

Four comments were received on the petitions for rulemaking, all of which supported the amendments recommended in the petitions. In addition, NYC Bar submitted on June 30, 1988, a clarification and revision of its comments on the earlier property insurance rulemakings and called for rescinding the trusteeship provision that it had supported previously. The NYC Bar's submission was docketed as comment number 36 under the 1984 proposed rule (49 FR 44645, November 8, 1984).

II. Analysis of and Response to Issues Raised by Petitioners

A. Clarification of the scope and timing of the stabilization process after an accident at a covered reactor.

Petitioners' Concerns

Petitioners believe that the stabilization process should be defined and clarified in the rule. Insurers are concerned that, because the existing rule requires a priority on insurance proceeds first for stabilizing a reactor after an accident and then for decontaminating the reactor, and because proceeds for decontamination but not stabilization are to be paid to an independent trustee, there could be confusion regarding when, to whom, and in what amount proceeds for stabilization should be paid. In addition, petitioners believe that the stabilization priority should not be invoked until the estimated costs of stabilization and decontamination exceed a threshold of $100 million and that this priority should only last for 30 days unless extended by the NRC. These changes would prioritize use of insurance proceeds for relatively more serious accidents in which there would be concern about the availability of adequate funds to protect public health and safety. Petitioners believe that placing a threshold and time limit on the stabilization priority, when coupled with a procedure for estimating and authorizing expenditures for decontamination and cleanup after stabilization has been completed, would simplify the claims payment process and reduce the likelihood that insurance proceeds for cleanup would be tied up while claims by competing parties are being resolved.

NRC Response

The NRC believes that petitioners' recommendations with respect to clarifying the stabilization priority generally merit incorporation in the rule. During the process that culminated in the 1987 rulemaking, the Commission believed, and continues to believe, that stabilization is a relatively brief process occurring in the immediate aftermath of an accident where quick and effective response is necessary. For that reason, the NRC chose not to make stabilization subject to the trusteeship provision. For the same reasons, the Commission did not define the stabilization process in the rule itself. However, petitioners believe that protection of public health and safety would be better served by more explicit treatment of the stabilization process in the NRC's regulations.

The NRC has no reason to dispute petitioners' views and believes that petitioners' proposals in this area do not substantively change the Commission's policy as expressed in the preamble to the 1987 final rule. Consequently, the NRC proposes to accept in large measure petitioners' recommendations, but also proposes to further clarify the stabilization process beyond petitioners' recommended wording. Also, because in certain circumstances initial stabilization could take more than 30 days, the NRC proposes an initial stabilization period not to exceed 60 days, with extensions up to 60 days each, if necessary.

B. Clarification of the procedures by which the NRC determines and approves estimates and expenditure of funds necessary for stabilization, decontamination and cleanup. Clarification of how such procedures affect both insurers' needs to secure appropriate proofs of loss and when payments may be made for non-cleanup purposes.

Petitioners' Concerns

Petitioners expressed several related concerns with respect to the operation of the decontamination priority within the overall coverage of the policy. Petitioners are particularly concerned that the insurance proceeds not needed for stabilization, decontamination, or cleanup would be tied up until cleanup was completed. This could occur both for any coverage exceeding the $1.06 billion that NRC requires and for coverage falling within the $1.06 billion required but in excess of the amount needed for stabilization, decontamination, and cleanup after a particular accident. Thus, once it is determined that a particular accident will require, for example, $500 million for stabilization, decontamination and cleanup, licensees may need early access to the remaining insurance proceeds. Early access to these funds would help the licensee to better cope with any adverse financial effects of the accident and would reduce the likelihood that a licensee's financial hardship would havean adverse impact on the protection of public health and safety. Additionally, insurers believe that by specifically incorporating in the rule the flexible release of insurance proceeds not needed for accident cleanup without regard to whether such insurance is part of the primary or excess layers being offered[1] they will avoid problems with timing of proof of loss required under the insurance policies and the potential adverse effect such timing could have on the payment of stabilization, decontamination, and cleanup costs. By specifying a mechanism in the rule by which the NRC can approve stabilization, decontamination, and cleanup cost estimates, these problems can be avoided.

NRC Response

Although the NRC is not convinced that petitioners' proposed amendments are essential to the efficient payment of stabilization, decontamination, and cleanup costs, petitioners' recommendations in this area are being proposed by the NRC because they are consistent with NRC policy as expressed in the August 5, 1987 rulemaking. As stated in that rulemaking (52 FR 28963 at 28970),

> Obviously, the NRC would not interpret a priority in so rigid a manner as to preclude prudent practices necessary to an orderly decontamination, such as equipment purchases, stabilization activities, etc. The decontamination priority was not meant to be applied sequentially in that all expenditures on cleanup would have to be made before any others. The priority has been worded to allow licensee flexibility, particularly after a reactor has been stabilized after an accident. Despite possible utility reluctance, the priority should be compatible with the broadest range of actions necessary to protect public health and safety. Further, the decontamination priority is meant to be invoked only when there would be serious concern over the availability of funds for decontamination.

The NRC has proposed modifying petitioners' suggested amendatory language so that NRC responsibilities and concerns are more clearly presented.

C. A change in the terminology of the required insurance from "property insurance" to "decontamination liability" insurance so as to better forestall claims to insurance proceeds by a licensee's bondholders and other possible creditors.

Petitioners' Concerns

Petitioners continue to believe that the NRC decontamination priority directly conflicts with indenture language that requires "property" insurance to be maintained for the benefit of those owning the indentures issued to finance the facility. To effect this requirement, bondholders are to be named the "loss payee" of any property insurance held on the bonded property. Thus, NRC's requirement for "property" insurance directly conflicts with provisions to protect bondholders' interests in the mortgage indentures. The insurers believe that this conflict places them in a position of having to choose to whom to pay the proceeds with the result that they will likely make any insurance proceeds payable jointly to the independent trustee representing the NRC interest in protecting public health and safety and the trustee representing bondholders' interests. Such action could result in extensive litigation and delay in cleanup.

Petitioners recommend a way out of this dilemma. They propose that NRC require "hybrid" insurance policies similar to those currently offered by NEIL–II. A hybrid policy combines a licensee's obligation to stabilize, decontaminate, and clean up its reactor facility with the physical damage loss coverage of traditional property insurance. Because the hybrid policy would incorporate a stabilization and decontamination priority in the amount required by the NRC and because bondholders would not be entitled to proceeds under the stabilization and decontamination obligation portion of the coverage, petitioners believe that claims would be paid for stabilization and decontamination expenses without being challenged by bondholders. Although this hybrid policy currently is in effect only for NEIL–II excess

[1] Primary insurance covering the first $500 million in damages is offered by NML or ANI/MAERP. Insurance in excess of the first $500 million in damages is offered by NEIL–II ($825 million) and ANI/MAERP ($400 million). One of the primary policies and both excess policies may be combined for total coverage of $1.725 billion. *NRC Response*

VOL 54 ISS 213 NOV 6 1989 UMI

coverage, representatives for ANI/MAERP and NML indicate that they would be willing to offer similar coverage.

NRC Response

NRC has been aware that a hybrid policy similar to that offered by NEIL–II would eliminate the potential problem of claims by bondholders against the stabilization and decontamination portion of insurance proceeds. NRC had been informed of this possibility in comments submitted in the 1984 rulemaking (see particularly comment number 12 from the NYC Bar, (49 FR 44645)). However, the NRC's expressed policy has been not to mandate the terms and conditions of insurance policies unless agreed to by insurers. At the time of the 1987 rulemaking it was not clear that insurers other than NEIL–II and perhaps NML would be willing to offer a hybrid policy. Further, NRC believed that the preamble of the 1987 rule made it clear that it was decontamination insurance that was being required, notwithstanding the general reference to "property" insurance. Thus, the NRC declined to require it explicitly.

However, because hybrid insurance polices now apparently will be available from all insurers and offer a reasonable likelihood of sheltering proceeds for stabilization and decontamination expenses from bondholders' claims, the NRC proposes to clearly require insurance to cover stabilization and decontamination of the reactor and the reactor station site. Hybrid policies discussed above would satisfy this requirement.

D. Rescission of the requirement that proceeds of the required insurance are to be paid to an independent trustee, who will disburse the proceeds for decontamination and cleanup of the facility before any other purpose.

Petitioners' Concerns

Petitioners believe that the trustee provision contained in 10 CFR 50.54(w)(4) is "unworkable, unnecessary, ineffective and will likely be counterproductive" (PRM–50–51A, p. 5.) (Other petitioners expressed similar thoughts.) According to petitioners, by requiring that insurance proceeds for decontamination and cleanup be disbursed by a bondholders' trustee, NRC is adding a further burden to an already complex process.

As explained in II.C. above, because of mortgage indenture provisions and because petitioners construe NRC as requiring "property" insurance, the independent trustee could be in conflict with the bondholders' trustee and might be reluctant to pay out funds for decontamination and cleanup until such conflict is resolved. Avoiding this conflict—one primary purpose for the trustee (i.e., to protect against claims by bondholders)—would be accomplished by NRC's requiring a hybrid policy.

In its comments, the NYC Bar indicated that it no longer recommends that NRC require an independent trustee. (The NRC relied extensively on NYC Bar's comments in the 1987 rulemaking.) Rather, a combination of the hybrid policy, explicit procedures for payment of claims, and recent decisions in bankruptcy cases may more effectively protect decontamination and cleanup expenses from competing claims. Short of bankruptcy, the hybrid insurance policy by itself will protect proceeds for use for stabilization, decontamination, and cleanup.

The NYC Bar believes, along with other petitioners, that insurance policy proceeds can be protected from claims of creditors in a bankruptcy or pre-bankruptcy situation if—

(1) the insurance policy contains a priority for the payment of decontamination expenses, (2) the policy provides coverage for decontamination expenses only as they are incurred, and (3) the policy requires the utility to use the proceeds received for payment of the decontamination expenses it has incurred. The utility would then have a contractual obligation to use the insurance proceeds for decontamination and not for other purposes. These restrictions should only apply to the extent necessary to protect public health and safety.

In a pre-bankruptcy situation, the licensee would be bound by the terms of its insurance contract. If the policy contains a decontamination priority, it will not be possible to divert the insurance proceeds to other purposes. In addition, if the policy so provided the proceeds for decontamination would not be payable until decontamination expenses were actually incurred, thus the licensee would need to make suitable arrangements for the work to be done before submitting its claim for insurance. Finally, once it were to receive the insurance proceeds, the licensee would be required by its contract to use the proceeds to pay the expenses which form the basis of its insurance claim.

In the post-bankruptcy situation, the trustee in bankruptcy or its equivalent may, subject to court approval, assume or reject executory contracts such as the insurance policy * * *. Once the trustee assumes the insurance contract (Since the trustee's right to receive up to $1.06 billion of insurance proceeds would depend upon an assumption of the contract, we regard it as unlikely that any trustee would reject it.), it too would be bound by the terms of the insurance agreement and would be required to use the insurance proceeds in a manner consistent with that agreement * * *. Creditors of the bankrupt licensee would have no claim on the insurance proceeds since the utility's right to the proceeds would be conditioned both on its incurring decontamination expenses and on its using the proceeds to pay the expenses which form the basis of its claim * * *. (We do not think, particularly in the pre-bankruptcy situation, that it is likely third party contractors would be concerned about reimbursement for work undertaken by them. As noted above, payment of the proceeds would be conditioned upon their use to pay the expenses on which the insurance claim is based. It is also likely that a licensee would assign its interest in the insurance proceeds to a contractor, in advance of the bankruptcy, in exchange for the contractor's agreement to perform the cleanup work. The assignment should effectively remove the insurance proceeds from the estate of the bankrupt.) (See comment number 36, 49 FR 44645, pp. 11–13. Parenthetical statements are footnotes in the original text.)

Petitioners also cite recent decisions by bankruptcy courts that tend to support the view that, notwithstanding the procedural remedies outlined above, expenditures to protect public health and safety would take priority over many other types of claims. In a memorandum attached to PRM–50–51A, petitioner argues that:

A debtor in possession or a trustee may make expenditures to comply with an agency's regulations or orders if the expenditure is necessary to comply with an action by the agency to enforce its police or regulatory power * * *. Agency enforcement actions to protect public health and safety or the environment constitute valid police powers, and such actions are exempt from the automatic statutory stay of proceedings against the debtor * * *. Moreover, the Supreme Court has made it clear that a debtor in possession or trustee may not abandon its obligations to comply with laws which are reasonably designed to protect public health or safety * * *. Proceeds of property insurance are normally part of the bankrupt estate and are treated like any other cash collateral. (Memorandum, pp. 2–3.)

Finally, petitioners maintain that it may be impossible to find someone to act as trustee. Petitioners have assured the NRC that they have made a good-faith effort to obtain trustees but have been unsuccessful. They believe that the reason for their lack of success is twofold. First, trustees with sufficient expertise and resources to manage over $1 billion in insurance proceeds are currently acting as bondholders' trustees. This situation results in a conflict of interest in which potential trustees would be ethically constrained from engaging. Second, trustees are apparently averse to assuming responsibility for disbursing potentially over $1 billion in insurance proceeds and the resulting exposure to possible litigation for wrongful disbursement. Because the trust would only be funded in the event of an accident and because

trustees' fees are usually based in part on the amount of assets under management, trustees would only be eligible for modest fees. These fees apparently would be insufficient to compensate trustees for the risk they believe they would be assuming.

NRC Response

The NRC has no evidence to contradict petitioners' assertions that they cannot find persons both willing and able to act as trustees. The NRC also acknowledges that in most, but perhaps not all, situations, the need for a trustee would be mitigated by using a hybrid insurance policy and by recent developments in bankruptcy case law.

At the same time, however, the NRC notes that, if the other proposed changes to 10 CFR 50.54(w) are adopted, some of the potential trustees' concerns should be reduced. For example, the hybrid policy, if it operates as petitioners suggest, would largely eliminate questions of whom to pay and thus should lower the risk of wrongful disbursement. Although for some potential trustees the problems of conflict of interest and inadequate fees would remain, the proposed changes might encourage others to assume the duties of trustee.

The NRC is not as sanguine as petitioners that recent developments in bankruptcy law have eliminated all likelihood of competing claims to insurance proceeds. For example, the recent decision of "In re Smith-Douglass, Inc." (Nos. 87–1683, –1684 (4th Circuit, September 6, 1988)) allowed unconditional abandonment of a hazardous waste site that violated State environmental laws because the estate had no unencumbered assets and the site did not pose any serious public health and safety risks. The court did indicate that it would have found differently if unencumbered assets were available. But the decision does raise again the issues of whether insurance proceeds would be considered unencumbered assets and whether a court would take it upon itself to decide what level of accident cleanup constitutes a "less-than-serious" public health and safety risk.

The NRC concludes that requiring an independent trustee to hold and disburse insurance proceeds may still be warranted in some circumstances. Nevertheless, given the reality of lack of trustee availability, the NRC proposes to eliminate, at least temporarily, the trustee requirement. The Commission retains the authority to impose such requirements in individual cases, if warranted. At the same time, the NRC will seek authority to receive and retain such funds itself. If the NRC obtains such authority, it will consider whether to exercise such authority and the best method of implementing such authority. The NRC may reinstitute the trusteeship requirement.

III. Level of Insurance

Although not raised by petitioners, the NRC staff believes that this rule should also address the issue of how much insurance should be required. Chairman Carr and Commissioner Rogers agree with the staff proposal and consequently request public comment on this issue.

In the 1987 rulemaking, the NRC concluded that it found no effective way to determine future costs of accident stabilization, decontamination, and cleanup other than by periodic updates of the study from which the current $1.06 billion requirement was derived.[2] The Commission believed that a general index of inflation such as the Consumer Price Index or even the Handy-Whitman construction cost index was too general for escalating the cost of accident cleanup. Subsequent to the 1987 amendments to 10 CFR 50.54(w), the Commission has issued its final decommissioning regulations (53 FR 24018, June 27, 1988). Those regulations, in part, adopted formulas for estimating decommissioning cost based on reactor size and type and future decommissioning costs based on a weighted index of three major decommissioning cost components—labor, energy, and waste burial costs. Inflation estimates for the labor and energy components will be derived from producer price indices published annually by the Bureau of Labor Statistics of the U.S. Department of Labor. Waste burial charge estimates will be derived from an NRC-published report.

Although decommissioning costs and accident cleanup costs are not strictly equivalent, many activities are common to both. The precise formula adopted for estimating future decommissioning costs may not be appropriate for accident cleanup costs; nevertheless, the staff concludes that the methodology used in the decommissioning inflation formula may be appropriate for accident cleanup inflation. Although no specific formula is being proposed at this time, Chairman Carr and Commissioner Rogers are requesting comments on the appropriateness of the methodology and any suggestions for the factors and weights that could be used.

IV. Environmental Assessment and Finding of No Significant Environmental Impact

If adopted, these proposed amendments would (1) clarify the sequence of events covered by required accident cleanup insurance during the period of stabilization and decontamination after an accident; (2) make explicit the requirement for a combined accident decontamination obligation and physical damage loss insurance policy; and (3) rescind the existing requirement that insurance proceeds be paid to and disbursed by an independent trustee. In addition, this notice of proposed rulemaking seeks comments on establishing a methodology for estimating future accident cleanup costs. This action is required to increase the effectiveness of the accident cleanup insurance required under 10 CFR 50.54(w) so that public health and safety is not adversely affected during the cleanup process. The alternative to this action is to maintain the existing rule without change.

Neither this action nor its alternative has any significant impact on the environment. Although changes in insurance requirements may affect the financial arrangements of licensees and may have economic and social consequences, they will not, if adopted, alter the environmental impact of the licensed activities. The alternative to the proposed action likewise would not have any significant impact on the environment. Accordingly for the foregoing reasons, the Commission has determined under the National Environmental Policy Act of 1969, as amended, and the Commission's regulations in subpart A of 10 CFR part 51, that this rule, if adopted, would not be a major Federal action significantly affecting the quality of the human environment, and therefore an environmental impact statement is not required. No other agencies or persons were contacted for this proposed action, and no other documents related to the environmental impact of this proposed action exist. The foregoing constitutes the environmental assessment and finding of no significant impact for this proposed rule.

V. Paperwork Reduction Act Statement

This proposed rule amends information collection requirements that are subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). This rule will be submitted to the Office of Management and Budget for review and

[2] "Technology, Safety and Costs of Decommissioning Reference Light Water Reactors Following Postulated Accidents," (NUREG/CR–2601) Pacific Northwest Laboratory, November 1982. This report is available for purchase from the U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013–7082.

approval of the paperwork requirements.

VI. Regulatory Analysis

On August 5, 1987, the NRC published in the Federal Register (52 FR 28963) a final rule amending 10 CFR 50.54(w). The rule increased the amount of onsite property damage insurance required to be carried by NRC's commercial power reactor licensees. The rule also required these licensees to obtain insurance policies that prioritized insurance proceeds for stabilization and decontamination after an accident and provided for payment of proceeds to an independent trustee who would disburse funds for decontamination and cleanup before any other purpose. Subsequent to publication of the 1987 rule, the NRC received three petitions for rulemaking that sought clarification of the stabilization and decontamination priority provisions and rescission of the trusteeship provision. The petitions further stated that the trusteeship provisions may actually have an effect counter to their intended purpose by delaying the payment of claims and thus possibly the cleanup process. The proposed rule developed in response to the petitions for rulemaking should help clarify the mechanism by which accident cleanup funds may be assured to be used for their intended purpose. Even without formal stabilization and decontamination priority and trusteeship provisions, NRC has authority to take appropriate enforcement action to order cleanup in the unlikely event of an accident.

Chairman Carr and Commissioner Rogers request public comment on the appropriateness and need for developing formulas that would both base the required amountof accident cleanup insurance on reactor size and type and establish a mechanism for changing future insurance amounts to reflect changes in major accident cleanup cost components. Although the effect of these formulas, if developed and adopted, would be to increase the required amount of insurance for some licensees, there should be little impact on insurance costs to licensees because almost all licensees buy the maximum amount of insurance available. Additionally, by rescinding the trusteeship requirement, the Commission would be eliminating licensees' costs to obtain trustee services. Thus, the proposed rule will not create substantial costs for licensees.

The proposed rule will not have significant impacts on state and local governments and geographical regions, on the environment, or create substantial costs to the NRC or other Federal agencies. The foregoing discussion constitutes the regulatory analysis for this proposed rule.

VII. Regulatory Flexibility Certification

As required by the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission certifies that this rule, if adopted, will not have a significant impact upon a substantial number of small entities. The proposed rule affects approximately 113 power reactor licenses. None of the holders of these licenses could be considered small entities.

VIII. Backfit Analysis

The NRC has determined that the backfit rule, 10 CFR 50.109, does not apply to this proposed rule because the proposed rule, if adopted, would not impose a backfit as defined in § 50.109(a)(1). Therefore, a backfit analysis is not required for this proposed rule.

List of Subjects in 10 CFR Part 50

Antitrust, Classified information, Fire protection, Incorporation by reference, Intergovernmental relations, Nuclear power plants and reactors, Penalty, Radiation protection, Reactor siting criteria, Reporting and recordkeeping requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 553, the NRC is proposing to adopt the following amendment to 10 CFR part 50.

PART 50— DOMESTIC LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

1. The authority citation for part 50 continues to read as follows:

Authority: Secs. 102, 103, 104, 105, 161, 182, 183, 186, 189, 68 Stat. 936, 937, 938, 948, 953, 954, 955, 956, as amended, sec.234, 83 Stat. 1224, as amended (42 U.S.C. 2132, 2133, 2134, 2135, 2201, 2232, 2233, 2236, 2239, 2282); secs. 201 as amended, 202, 206, 68 Stat. 1242, as amended 1244, 1246 (42 U.S.C. 5841, 5842, 5846). Section 50.7 also issued under Pub. L. 95–601, sec. 10, 92 Stat. 2951 (42 U.S.C. 5851). Section 50.10 also issued under secs. 101, 185, 68 Stat. 936, 955, as amended (42 U.S.C. 2131, 2235); sec. 102, Pub. L. 91–190, 83 Stat. 853 (42 U.S.C. 4332). Sections 50.13 and 50.54(dd) also issued under Sec. 108, 68 Stat. 939 as amended (42 U.S.C. 2138). Sections 50.23, 50.35, 50.55, and 50.56 also issued under sec. 185, 68 Stat. 955 (42 U.S.C. 2235). Sections 50.33a, 50.55a and Appendix Q also issued under sec. 102, Pub. L. 91–190, 83 Stat. 853 (42 U.S.C. 4332). Sections 50.34 and 50.54 also issued under sec. 204, 88 Stat. 1245 (42 U.S.C. 5844). Sections 50.58, 50.91, and 50.92 also issued under Pub. L. 97–415, 96 Stat. 2073 (42 U.S.C. 2239). Section 50.78 also issued under sec. 122, 68 Stat. 939 (42 U.S.C. 2152). Sections 50.80 through 50.81 also issued under sec. 184, 68 Stat. 954, as amended (42 U.S.C. 2234). Section 50.103 also issued under sec. 108, 68 Stat. 939, as amended (42 U.S.C. 2138). Appendix F also issued under sec. 187, 68 Stat. 955(42 U.S.C. 2237).

For the purposes of sec. 223, 68 Stat. 958, as amended (42 U.S.C. 2273); §§ 50.46(a) and (b), and 50.54(c) are issued under sec. 161b, 68 Stat. 948, as amended (42 U.S.C. 2201(b)); §§ 50.7(a), 50.10 (a)–(c), 50.34 (a) and (e), 50.44 (a)–(c), 50.46 (a) and (b), 50.47(b), 50.48 (a), (c), (d), and (e), 50.49(a), 50.54 (a), (i), (i)(1), (1)–(n), (p), (q), (t), (v), and (y), 50.55(f), 50.55a (a),(c)–(s), (g), and (h), 50.59(c), 50.60(a), 50.62(c), 50.64(b), and 50.80 (a) and (b) are issued under sec. 161i, 68 Stat. 949, as amended (42 U.S.C. 2201(i)); and §§ 50.49 (d), (h), and (j), 50.54 (w), (z), (bb), (cc), and (dd), 50.55(e), 50.59(b), 50.61(b), 50.62(b), 50.70(a), 50.71 (a)–(c) and (e), 50.72(a), 50.73 (a) and (b), 50.74, 50.78, and 50.90 are issued under sec. 161o, 68 Stat. 950, as amended (42 U.S.C. 2201(o)).

2. Section 50.54 is amended by revising paragraph (w) to read as follows:

§ 50.54 Conditions of licenses.

* * * * *

(w) Each electric utility licensee under this part for a production or utilization facility of the type described in § 50.21(b) or § 50.22 shall take reasonable steps to obtain insurance available at reasonable costs and on reasonable terms from private sources or to demonstrate to the satisfaction of the Commission that it possesses an equivalent amount of protection covering the licensee's obligation, in the event of an accident at the licensee's reactor, to stabilize and decontaminate the reactor and the reactor station site at which the reactor experiencing the accident is located, Provided that:

(1) The insurance required by paragraph (w) of this section must have a minimum coverage limit for each reactor station site of either $1.06 billion or whatever amount of insurance is generally available from private sources, whichever is less. The required insurance must clearly state that, as and to the extent provided in paragraph (w)(4) of this section, any proceeds must be payable first for stabilization of the reactor and next for decontamination of the reactor and the reactor station site. If a licensee's coverage falls below the required minimum, the licensee shall within 60 days take all reasonable steps to restore its coverage to the required minimum. The required insurance may, at the option of the licensee, be included within policies that also provide coverage for other risks, including, but not limited to, the risk of direct physical damage.

(2)(i) With respect to policies issued or annually renewed on or after [insert a date one year after the effective date of the rule] the proceeds of such required insurance must be dedicated, as and to the extent provided in this paragraph, to reimbursement or payment on behalf of the insured of reasonable expenses incurred or estimated to be incurred by the licensee in taking action to fulfill the licensee's obligation, in the event of an accident at the licensee's reactor, to ensure that the reactor is in, or is returned to, and maintained in, a safe and stable condition and that radioactive contamination is removed or controlled such that personnel exposures are consistent with the occupational exposure limits in 10 CFR part 20. These actions must be consistent with any other obligation the licensee may have under this chapter and must be subject to paragraph (w)(4) of this section. As used in this section, an "accident" means an event that involves the release of radioactive material from its intended place of confinement within the reactor or on the reactor station site such that there is a present danger of release offsite in amounts that would pose a threat to public health and safety.

(ii) The stabilization and decontamination requirements set forth in paragraph (w)(4) of this section must apply uniformly to all insurance policies required under paragraph (w) of this section.

(3) The licensee shall report to the NRC on April 1 of each year the current levels of this insurance or financial security it maintains and the sources of this insurance or financial security.

(4)(i) In the event of an accident at the licensee's reactor, whenever the estimated costs of stabilizing the licensed reactor and of decontaminating the reactor and the reactor station site exceed $100 million, the proceeds of the insurance required by paragraph (w) of this section must be dedicated to and used, first, to ensure that the licensed reactor is in, or is returned to, and can be maintained in, a safe and stable condition so as to prevent any significant risk to public health and safety and, second, to decontaminate the reactor and the reactor station site in accordance with the licensee's cleanup plan as approved by order of the Director of the Office of Nuclear Reactor Regulation. This priority on insurance proceeds shall remain in effect for 60 days or, upon order of the Director, for such longer periods, in increments not to exceed 60 days except as provided for activities under the cleanup plan required in paragraphs (w)(4) (iii) and (iv), as the Director may find necessary to protect the public health and safety. Actions needed to bring the reactor to and maintain the reactor in a safe and stable condition may include one or more of the following, as appropriate:

(A) Shutdown of the reactor;

(B) Establishment and maintenance of long-term cooling with stable decay heat removal;

(C) Maintenance of sub-criticality;

(D) Control of radioactive releases; and

(E) Securing of structures, systems, or components to minimize radiation exposure to onsite personnel or to the offsite public or to facilitate later decontamination or both.

(ii) The licensee shall inform the Director of the Office of Nuclear Reactor Regulation in writing when the reactor is and can be maintained in a safe and stable condition so as to prevent any significant risk to the public health and safety. Within thirty (30) days after the licensee informs the Director that the reactor is in this condition, or at such earlier time as the licensee may elect or the Director may for good cause direct, the licensee shall prepare and submit a cleanup plan for the Director's approval. The cleanup plan must identify and contain an estimate of the cost of each cleanup operation that will be required to decontaminate the reactor sufficiently to permit the licensee either to resume operation of the reactor or to apply to the Commission under § 50.82 of this part for authority to decommission the reactor and to surrender the license voluntarily. Cleanup operations may include one or more of the following, as appropriate:

(A) Processing any contaminated water generated by the accident and by decontamination operations to remove radioactive materials;

(B) Decontamination of surfaces inside the auxiliary and fuel handling buildings and the reactor building to levels consistent with the Commission's occupational exposure limits in 10 CFR part 20, and decontamination or disposal of equipment;

(C) Decontamination or removal and disposal of internal parts and damaged fuel from the reactor vessel; and

(D) Cleanup of the reactor coolant system.

(iii) Following review of the licensee's cleanup plan, the Director will order the licensee to complete all operations that the Director finds are necessary to decontaminate the reactor sufficiently to permit the licensee either to resume operation of the reactor or to apply to the Commission under § 50.82 for authority to decommission the reactor and to surrender the license voluntarily. The Director shall approve or disapprove, in whole or in part for stated reasons, the licensee's estimate of cleanup costs for such operations. Such order may not be effective for more than 1 year, at which time it may be renewed. Each subsequent renewal order, if imposed, may be effective for not more than 6 months.

(iv) Of the balance of the proceeds of the required insurance not already expended to place the reactor in a safe and stable condition pursuant to paragraph (w)(2)(i) of this section an amount sufficient to cover the expenses of completion of those decontamination operations that are the subject of the Director's order shall be dedicated to such use. Provided that, upon certification to the Director of the amounts expended previously and from time to time for stabilization and decontamination and upon further certification to the Director as to the sufficiency of the dedicated amount remaining, policies of insurance may provide for payment to the licensee or other loss payees of amounts not so dedicated, and the licensee may proceed to use in parallel (and not in preference thereto) any insurance proceeds not so dedicated for other purposes.

* * * * *

Dated at Rockville, Maryland, this 27th day of October, 1989.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-D

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900–AE25

Exchange Rates for Foreign Currencies

AGENCY: Department of Veterans Affairs.

ACTION: Proposed Rule.

SUMMARY: The Department of Veterans Affairs (VA) is proposing to amend its adjudication regulations to establish a procedure for converting foreign currencies into U.S. dollar equivalents. This action is necessary because some beneficiaries receive income, or pay expenses affecting their entitlement, in foreign currencies. The intended effect

of this amendment is to establish a regulatory method for calculating the rates or amounts due those beneficiaries.

DATES: Comments must be received on

accrued benefits as reimbursement from the person who bore the expenses of a deceased beneficiary's last illness or burial, we propose to use the rate for the quarter in which the expenses were paid

(3) It will not have significant adverse effects on competition, employment investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-

of the claim were paid. If the claim is filed by an unpaid creditor, however, the quarterly rate for the quarter in which the veteran died shall apply. When entitlement originates during a quarter

Reilly, No. C826850 RPA, northern district of California). A settlement agreement was negotiated between the EPA and the plaintiffs which the court

SUMMARY: On April 6, 1988, the Coast Guard published an advance notice of proposed rulemaking (ANPRM) in the **Federal Register** (53 FR 11440) advising

of this amendment is to establish a regulatory method for calculating the rates or amounts due those beneficiaries.

DATES: Comments must be received on or before December 6, 1989. Comments will be available for public inspection until December 16, 1989. This change is proposed to be effective 30 days after the date of publication of the final rule.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, or objections regarding this change to the Secretary of Veterans Affairs (271A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. All written comments received will be available for public inspection only in the Veterans Service Unit, room 132, at the above address and only between the hours of 8:00 a.m. and 4:30 p.m. Monday through Friday (except holidays) until December 18, 1989.

FOR FURTHER INFORMATION CONTACT: Donald England, Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration (202) 233-3005.

SUPPLEMENTARY INFORMATION: Under the income-based programs administered by VA, benefit amounts are determined according to formulas which allow adjustments to countable income based on medical expenses paid by the claimant. The amounts payable for burial, plot and headstone allowances, or for claims filed by someone other than a surviving spouse or dependent child for accrued benefits due a deceased beneficiary, are determined from the amount of expenses borne by the claimant. Entitlement to these benefits is calculated assuming that all financial transactions are in U.S. dollars, but some beneficiaries living outside of the United States receive income, or pay expenses, in the currency of the country in which they reside. We are proposing a method for converting income received or expenses paid in a foreign currency into U.S. dollar equivalents for the purpose of determining entitlement to VA benefits.

We propose to perform these calculations using quarterly exchange rates established by the Department of the Treasury. The quarterly Treasury rates are averages of daily rates obtained from State Department disbursing officers, and the rates are available to the public. We propose to implement this procedure by adding new § 3.32 to Title 38, Code of Federal Regulations.

In claims for burial, plot and headstone allowances and claims for accrued benefits as reimbursement from the person who bore the expenses of a deceased beneficiary's last illness or burial, we propose to use the rate for the quarter in which the expenses were paid or, if the claim is filed by an unpaid creditor, for the quarter in which the veteran died. In any claim where entitlement originated during a quarter for which an exchange rate has not yet been published, the most recent quarterly rate would be used.

Since exchange rates fluctuate and cannot be predicted in advance, the most recent quarterly exchange rate would also be used to project payment rates in improved pension or parents' dependency and indemnity compensation (DIC) claims. Retroactive adjustments required by fluctuations in exchange rates would be performed annualy when the Eligibility Verification Report (EVR) is submitted and would be calculated using the exchange rate obtained by averaging the four most recent quarterly rates. Unusual medical expenses may be reported up to one year after the close of an EVR period, and adjustments to prior EVR periods would be calculated using the average of the four quarterly rates which were the most recent available as of the closing date of the twelve-month EVR period in question.

This method was chosen because it minimizes the administrative burdens as well as the complexity of the mathematical computations involved. Although other methods, such as one using daily bank rates, were considered, they are not being proposed because they would impose unreasonable administrative burdens while offering little or no additional benefit to claimants.

The Secretary hereby certifies that this regulatory amendment will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA) 5 U.S.C. 601-612. The reason for this certification is that this amendment would not directly affect any small entities. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this amendment is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that this regulatory amendment is non-major for the following reasons:

(1) It will not have an annual effect on the economy of $100 million or more.

(2) It will not cause a major increase in costs or prices.

(3) It will not have significant adverse effects on competition, employment investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Catalog of Federal Domestic Assistance program numbers are 64.101, 64.104, 64.105 and 64.110.

List of Subjects in 38 CFR Part 3

Administrative practice and procedure, Claims, Handicapped, Health care, Pension, Veterans.

Approved: October 13, 1989.

Edward J. Derwinski,

Secretary.

PART 3—[AMENDED]

38 CFR part 3, Adjudication, is proposed to be amended by adding § 3.32 to read as follows:

§ 3.32 Exchange rates for foreign currencies.

When determining the rates of pension or parents' DIC or the amounts of burial, plot or headstone allowances or accrued benefits to which a claimant or beneficiary may be entitled, income received, or expenses paid, in a foreign currency shall be converted into U.S. dollar equivalents employing quarterly exchange rates established by the Department of the Treasury.

(a) *Pension and parents' DIC.* (1) Because exchange rates for foreign currencies cannot be determined in advance, rates of pension and parents' DIC shall be projected using the most recent quarterly exchange rate and shall be adjusted retroactively based upon actual exchange rates when an annual eligibility verification report is filed.

(2) Retroactive adjustments due to fluctuations in exchange rates shall be calculated using the average of the four most recent quarterly exchange rates. If the claimant reports income and expenses for a prior reporting period, the retroactive adjustment shall be calculated using the average of the four quarterly rates which were the most recent available on the closing date of the twelve-month period for which income and expenses are reported.

(b) *Burial, plot or headstone allowances and accrued benefits.* Payment amounts for burial, plot or headstone allowances and claims for accrued benefits as reimbursement from the person who bore the expenses of a deceased beneficiary's last illness or burial shall be determined using the quarterly exchange rate for the quarter in which the expenses forming the basis of the claim were paid. If the claim is filed by an unpaid creditor, however, the quarterly rate for the quarter in which the veteran died shall apply. When entitlement originates during a quarter for which the Department of the Treasury has not yet published a quarterly rate, amounts due shall be calculated using the most recent quarterly exchange rate.

(Authority: 38 U.S.C. 210(c))

Cross-References: *Accrued benefits.* See § 3.1000. *Accrued benefits payable to foreign beneficiaries.* See § 3.1006.

BILLING CODE 8320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AD-FRL-3678-3]

Assessment of Visibility Impairment; Extension of Comment Period

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice of comment period extension.

SUMMARY: This notice extends for 30 days the initial comment period for the proposed visibility regulations published on September 5, 1989 (54 FR 36964). The EPA is extending the deadline at the request of the Salt River Project, the operator and joint owner of Navajo Generating Station (NGS)—one of the sources potentially affected by the proposed regulations.

DATES: The public comment period will now end on December 6, 1989.

FOR FURTHER INFORMATION CONTACT: Denise Scott at telephone number (919) 541-0870 or FTS 629-0870.

SUPPLEMENTARY INFORMATION: On December 2, 1980, EPA promulgated required visibility regulations (45 FR 80084 codified at 40 CFR 51.300 et seq.). Among other things, these regulations required 36 States listed in § 51.300(b) to develop a program to assess and remedy visibility impairment from new and existing sources. For various reasons, most of these States, including Maine, Arizona, and Utah, failed to submit revised State implementation plans (SIP's) to EPA addressing visibility protection in Class I areas. In December of 1982, the Environmental Defense Fund and other environmental groups sued EPA for failing to promulgate Federal implementation plans (FIP's) for the 35 affected States which failed to submit revised SIP's to EPA (*EDF* v. *Reilly*, No. C826850 RPA, northern district of California). A settlement agreement was negotiated between the EPA and the plaintiffs which the court approved by order on April 20, 1984. This agreement placed EPA on a schedule to promulgate FIP's for the affected States. Among other things, EPA was required to address certified visibility impairments in seven Class I areas. The settlement agreement was revised several times, most recently by court order dated July 6, 1988, in order to allow EPA time to collect and analyze data on the visibility impairments in these Class I areas. On September 5, 1989, EPA proposed actions for three Class I areas. In the September 5, 1989 Federal Register notice, EPA proposed not to revise the regulations for the States of Maine and Utah to address visibility impairments in Moosehorn Wilderness and Canyonlands National Park. Also in this notice, EPA proposed to attribute a significant portion of the visibility impairment observed during the winter months in Grand Canyon National Park to the NGS. The settlement agreement requires proposal of new emission limits for NGS by February 1, 1990.

The Salt River Project, which operates the NGS, has filed a motion with the court to delay the present deadlines. A court hearing on the motions is scheduled for November 9, 1989. In order to provide comments following the court hearing, the Salt River Project requested a 30-day extension of the comment period. The EPA is granting Salt River Project's request for a comment period extension to December 6, 1989.

Dated: November 1, 1989.

Robert D. Brenner,

Acting Assistant Administrator for Air and Radiation.

Coast Guard

46 CFR Part 174

[CGD 87-094]

RIN 2115-AC87

Dry Cargo Ship Subdivision and Damage Stability Regulations

AGENCY: Coast Guard, DOT.

ACTION: Advance Notice of Proposed Rulemaking; reporting of the comment period.

SUMMARY: On April 6, 1988, the Coast Guard published an advance notice of proposed rulemaking (ANPRM) in the Federal Register (53 FR 11440) advising the public that the Coast Guard was considering regulations to require new, oceangoing, foreign and domestic cargo ships greater than 330 feet (100 meters) in length and of 500 gross tons or over entering U.S. ports to meet a minimum standard of subdivision and damage stability. Draft regulations were included as an appendix and public comment was solicted. Since the publication of the ANPRM, the Maritime Safety Committee (MSC) of the International Maritime Organization (IMO), revised the draft standard proposed by the IMO Subcommittee on Stability and Load Lines and on Fishing Vessels Safety (SLF), which was the basis for the Coast Guard's draft regulations. The Coast Guard is revising its draft regulations to conform to the proposed international standard and is reopening the comment period of the ANPRM.

DATES: Comments on this revision to the advance notice must be received on or before January 5, 1990.

ADDRESSES: Comments should be mailed to the Executive Secretary, Marine Safety Council (G-LRA-2/3600), (CGD 87-094), U.S. Coast Guard, 2100 Second St., SW., Washington, DC 20593-0001. The comments and materials referenced in this notice will be available for examination and copying between 8 a.m. and 3 p.m., Monday through Friday, except holidays, at the Marine Safety Council, Room 3600, Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20593-0001. Comments may also be hand delivered to this address.

FOR FURTHER INFORMATION CONTACT: Lieutenant Randall R. Gilbert, Office of Marine Safety, Security, and Environmental Protection (G-MTH-3/13), Room 1308, U.S. Coast Guard Headquarters, Washington, DC 20593-0001, (202) 267-2988.

SUPPLEMENTARY INFORMATION: The public is invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice as CGD 87-094 and the specific sections of the proposal to which their comments apply, and give reasons for the comments. If acknowledgment of receipt of a comment is desired, a stamped self-addressed postcard or envelope should

VOL
54

UMI

be enclosed. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Informing

The principal persons involved in the drafting of this proposal are Lieutenant Randall R. Gilbert, Project Manager, Office of Marine Safety, Security, and Environmental Protection, and Lieutenant Commander Don M. Wrye, Project Attorney, Office of Chief Counsel.

Discussion

The United States has been pressing for an international agreement on Dry Cargo Ship Subdivision since the 1960 SOLAS Convention. In 1985, the MSC instructed the SLF technical sub-committee to develop a subdivision and damage stability standard based on the probabilistic analysis method. The SLF draft standard was studied by all countries for two years. At the SLF meeting in September 1987 (SLF 32), the SLF draft standard was agreed upon and sent to the MSC for their review of the level of subdivision which should be required. In April 1988, shortly after the ANPRM was published, the MSC approved publication of the SLF draft standard and circulated it for one year in order to gain experience so the level of the required subdivision index (the "R" formula) could be determined.

The SLF standard was studied, and many countries, including the United States, submitted results of their calculations to the MSC so they could set the level of required subdivision and finalize the regulations. At the MSC meeting in April 1989 (MSC 57) there were detailed discussions concerning the level of safety indicated by the "R" formula, particularly for certain ships with difficulties in meeting the safety level which is represented by the "R" formula. An alternative formula was adopted which was just slightly lower than the formula published in the ANPRM on April 6, 1988.

This notice reflects changes to the SLF draft standard, which have been made and approved by the IMO Maritime Safety Committee, and which will be referred to now as the IMO standard. The IMO standard is now being circulated as a draft amendment to the International Convention for the Safety of Life at Sea, 1974, as amended (SOLAS 74/83), and is scheduled to be adopted in May 1990. If adopted as an amendment to SOLAS 74/83, the IMO standard would apply to oceangoing dry cargo vessels greater than 330 feet (100 meters) in length and 500 gross tonnage or over constructed on or after February 1, 1992.

The purpose of reopening this ANPRM is to solicit comments on both the technical merits and the probable economic effect of the revised Required Subdivision Index formula. Comments from the maritime community and any other interested parties are requested. All comments received will be considered in preparing the Notice of Proposed Rulemaking.

Specific Change to the Draft Regulations

Appendix 2—Draft Rules for the Subdivision and Damage Stability of Dry Cargo Ships

The Required Subdivision Index formula ("the 'R' formula") in Regulation 3 of the SLF draft standard published as Appendix 1 to the ANPRM, and in § XXX.210 in the Coast Guard's draft regulations published as Appendix 2 to the ANPRM, was as follows:

$$R = (C_1 + C_2 L_s)^{1/3}$$

where:
$C_1 = 0.0$
$C_2 = 0.0003048$, if L_s is in feet
$C_2 = 0.001$, if L_s is in meters

The amendment to the draft standard revises the coefficients C_1 and C_2 to read as follows:

$C_1 = 0.002$
$C_2 = 0.000274$, if L_s is in feet
$C_2 = 0.0009$, if L_s is in meters

The complete IMO standard, as amended, is detailed in MSC 57/WP.17, a copy of which may be obtained by contacting the person identified in **"FOR FURTHER INFORMATION CONTACT"** above. The setting of the Required Subdivision Index formula is the only significant change to the SLF draft standard published as Appendix 1 in the ANPRM. The other changes are either editorial in nature or add sections concerning the maintaining of the watertight integrity of the ship and its bulkheads.

Dated: September 21, 1989.

J.D. Sipes,

Rear Admiral, U.S. Coast Guard, Chief, Office of Maine Safety, Security and Environmental Protection.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 89-469, RM-6815]

Radio Broadcasting Services; Naples Park and Solana, FL

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by Wodlinger Broadcasting of Naples Inc., licensee of Station WIXI(FM), Channel 288A at Naples Park, Florida, proposing the substitution of Channel 288C3 for Channel 288A at Naples Park and modification of its license to specify operation on the higher class co-channel. In order to accomplish the Naples Park substitution, the substitution of Channel 285A for Channel 287A at the current site of the construction permit (BPH-880827MB) at Solana, Florida, is required. The coordinates for Channel 288C3 at Naples Park are North Latitude 28-13-56 and West Longitude 81-45-10, and the coordinates for Channel 285A at Solana are North Latitude 26-50-41 and West Longtitude 82-02-15. We are herein issuing Wayne L. Dilucente, permittee of construction permit (BPH-880827MB) at Solana, Florida, an *Order to Show Cause* regarding the proposal to change his channel.

DATES: Comments must be filed on or before December 22, 1989, and reply comments on or before January 8, 1990.

ADDRESSES: Federal Communications Commission, Washington, DC 20544.

In addition to filing comments with the FCC, interested parties should serve the petitioners, or their counsel or consultant, as follows: Michael R. Miller, Southmayd, Powell & Taylor, 1764 Church Street, NW. Washington, DC 20036 (Attorney for petitioner).

FOR FURTHER INFORMATION CONTACT: Nancy J. Walls, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 89-469, adopted October 6, 1989, and released October 31, 1989. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

[MM Docket No. 89-466, RM-6906]

Radio Broadcasting Services; Oil City, PA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition by Stephen M. Olszowka seeking the allotment of Channel 242A to Oil City, Pennsylvania, as the community's second local FM service. Channel 242A can be allotted to Oil City in compliance with the Commission's minimum distance separation requirements without the imposition of a site restriction. The coordinates for this allotment are North Latitude 41-25-30 and West Longitude 79-42-24. Canadian concurrence is required since Oil City is located within 320 kilometers of the U.S.-Canadian border.

DATES: Comments must be filed on or before December 22, 1989, and reply comments on or before January 8, 1990.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Stephen M. Olszowka, WKQW Radio, 234 Elm Street, P.O. Box 1222, Oil City, Pennsylvania 16301 (Petitioner).

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 89-466, adopted October 6, 1989, and released October 31, 1989. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1056

[Ex Parte No. MC-19 (Sub-No. 41)]

Practices of Motor Common Carriers of Household Goods; Limitations of Liability

AGENCY: Interstate Commerce Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to revise its regulation at 49 CFR Part 1056 to permit motor common carriers of household goods to file released rates that will limit their liability for loss or damage to items of "extraordinary" or "unusual" value under certain circumstances.

The present rule at 49 CFR Part 1056.12, which restricts a household goods mover's ability to limit its cargo liability, was prescribed in *Practices of Motor Common Carriers of Household Goods (Limitations of Liability)*, 124 M.C.C. 395 (1976), *aff'd. sub nom. Household Goods Carriers' Bureau* v. *I.C.C.*, 584 F.2d 437 (D.C. Cir. 1978) to protect the interests of consumers and to eliminate the ambiguities surrounding the application of the term "extraordinary" value by household goods movers. Adoption of the proposed rule would require shippers to list all items of extraordinary value or be subject to a reduction in payment of claims.

DATES: Comments are due on December 6, 1989.

ADDRESSES: Send comments (an original and 10 copies) referring to Ex Parte No. MC-19 (Sub-No. 41) to: Interstate Commerce Commission, Office of the Secretary, Case Control Branch, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Heber P. Hardy (202) 275-7148

or

John W. Fristoe (202) 275-7844 [TDD for hearing impaired (202) 275-1721].

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To obtain a copy of the full decision, write to the Office of the Secretary, Room 2215, Interstate Commerce Commission, 12th Street and Constitution Ave., NW., Washington, DC 20423, or call (202) 275-7428 [assistance for the hearing impaired is available through TDD services (202) 275-1721 or by pickup from Dynamic Concepts, Inc., in Room 2229 at Commission headquarters].

Energy and Environmental Considerations

We preliminarily conclude that the proposed rule revision will not affect significantly either the quality of the human environment or the conservation of energy resources

Regulatory Flexibility Analysis

We preliminarily conclude that this action will not have a significant impact on a substantial number of small entities.

List of Subjects in 49 CFR Part 1056

Moving of household goods, Consumer protection.

Decided: October 27, 1989.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners André, Lamboley, and Phillips. Commissioner Lamboley commented with a separate expression.

Noreta R. McGee,

Secretary.

For the reasons set forth in the preamble, title 49, chapter X, part 1056 of the Code of Federal Regulations is proposed to be amended as follows:

VOL
54

Assistant Secretary, Marketing and Inspection Services.

[FR Doc. 89-26223 Filed 11-3-89; 8:45 am]

BILLING CODE 3410-02-M

Commodity Credit Corporation

1989 Crop Soybeans

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Notice of Determinations with respect to 1989 Crop Soybeans.

SUMMARY: The purpose of this notice is to affirm the announcement that the level of price support for the 1989 soybean crop is $4.53 per bushel. This announcement is made pursuant to section 201(i) of the Agricultural Act of 1949, as amended (the "1949 Act"). In accordance with section 1009 of the Food Security Act of 1985, as amended, any determinations with respect to implementation of cost reduction options will be made at a later date.

EFFECTIVE DATE: September 22, 1989.

FOR FURTHER INFORMATION CONTACT: Orville I. Overboe, Agricultural Economist, Commodity Analysis Division, ASCS-USDA, P.O. Box 2415, Washington, DC 20013, Telephone (202) 447-4417. An impact analysis has been prepared and is available from the above named individual.

SUPPLEMENTARY INFORMATION: This notice has been reviewed under Department of Agriculture procedures established in accordance with Executive Order 12291 and Departmental Regulation No. 1512-1 and has been designated as "major". It has been determined that these program provisions will result in an annual effect on the economy of $100 million or more.

The title and and number of the federal assistance program to which this notice applies are: Title—Commodity Loans and Purchases; Number—10.051 as found in the Catalog of Federal Domestic Assistance.

It has been determined by an environmental evaluation that this action will have no significant impact on the quality of the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is needed.

This program is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, Subpart V, published at 48 FR 29115 (June 24, 1983).

Section 1017 of the Food Security Act of 1985 provides that the Secretary of Agriculture shall determine the rate of loans, payments and purchases under a program established under the Agricultural Act of 1949 (the "1949 Act") for any of the 1986 through 1990 crops without regard to the requirements for notice and public participation. Accordingly, public comments are not required with respect to the level of loans and purchases under the price support program for the 1989 crops of soybeans.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since the Commodity Credit Corporation is not required by 5 U.S.C. or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this notice.

Section 201(i)(1)(A) of the 1949 Act provides that the price of soybeans for each of the 1986 through 1990 marketing years shall be supported through loans and purchases. Section 201(i)(1)(B) provides that the support price for the 1986 and 1987 crops of soybeans shall be $5.02 per bushel. Section 201(i)(1)(C) provides that the support price for each of the 1988 through 1990 crops shall be established at a level equal to 75 percent of the simple average price received by producers for soybeans in the preceding 5 marketing years excluding the years with highest and lowest prices, except that the level of support may not be reduced by more than 5 percent in any year and in no event below $4.50 per bushel. Calculating 75 percent of the simple average market price received by producers for soybeans for the 5 marketing years preceding the 1989 marketing year, excluding the years with the highest and lowest prices, results in a price of $4.19 per bushel. Since this price is more than 5 percent below the level of price support established for the preceding crop of soybeans (i.e. $4.77 per bushel), prior to any adjustments, the level of support for the 1989 crop of soybeans using this formula is $4.53.

If the Secretary of Agriculture determines in accordance with section 201(i)(2) that the price support level for soybeans determined for a marketing year would discourage the exportation of soybeans and cause excessive stocks of soybeans in the United States, the Secretary may reduce the price support level for soybeans by the amount the Secretary determines necessary to maintain domestic and export markets for soybeans, except that the price support level cannot be reduced by more than 5 percent in any year nor below $4.50 per bushel. Any reduction made in accordance with section 201(i)(2) in the price support level for soybeans shall not be considered in determining the price support level for soybeans for subsequent years.

Section 201(i)(5) of the 1949 Act provides that the Secretary shall make a preliminary announcement of the level of price support for a crop of soybeans not earlier than 30 days prior to September 1, the beginning of the soybean marketing year, based upon the latest information and statistics then available. The Secretary must make a final announcement of such level as soon as full information and statistics are available. The final level of price support must be announced no later than October 1 of the marketing year to which the announcement is applicable.

VOL
54
SS
2
1
3
NO
6
1989
UMI

Since the final level of support cannot be less than that of the preliminary announcement, and the preliminary level of support has not been reduced, the preliminary and final levels of price support for the 1989-crop of soybeans are both established at $4.53 per bushel.

Section 201(i)(3) of the 1949 Act provides that, if the Secretary determines that such action will assist in maintaining the competitive relationship of soybeans in domestic and export markets after taking into consideration the cost of producing soybeans, supply and demand conditions, and world prices for soybeans, the Secretary may permit a producer to repay a loan for a crop at a level that is the lesser of (1) the announced loan level for such crop or (2) the prevailing world market price for soybeans, as determined by the Secretary. If the Secretary permits a producer to repay a loan as described above, the Secretary shall prescribe by regulation (1) a formula to define the prevailing world market price for soybeans and (2) a mechanism by which the Secretary shall announce periodically the prevailing world market price for soybeans.

Section 1009(a) of the Food Security Act of 1985 provides that, whenever the Secretary determines that an action authorized by section 1009 (c), (d) or (e) will reduce the total of the direct and indirect costs to the Federal Government of a commodity program administered by the Secretary without adversely affecting income to small and medium sized producers participating in such programs, the Secretary shall take such action with respect to that commodity program. These actions include: (1) The commercial purchases of commodities by the Secretary; (2) the settlement of nonrecourse loans at an amount less than the total of the principal loan amount and accumulated interest, but not less than the principal amount, if such action will result in: (A) Receipt of a portion rather than none of the accumulated interest, (B) avoidance of default of the loan, and (C) elimination of storage, handling and carrying charges on the forfeited loan collateral; and (3) the reopening of a production control or loan program established for a crop at any time prior to harvest of such crop for the purpose of accepting bids from producers for the conversion of acreage planted to a program crop to diverted acreage in return for in-kind payments if the Secretary has determined that: (1) Changes in domestic or world supply or demand conditions have substantially changed after announcement of the program for that crop and (2) without action to further adjust production, the Federal Government and producers will be faced with a burdensome and costly surplus. Such payments are not subject to the maximum payment limitation provision of section 1001 of the Food Security Act of 1985 but are limited to $20,000 per year per producer for any one commodity.

A press release was issued on August 29, 1989, which made an announcement of the loan and purchase level for the 1989 crop of soybeans of $4.53 per bushel. Since the level of support has not been reduced, this establishes the preliminary and final announcement of loan and purchase level for the 1989 crop of soybeans. The purpose of this notice is to affirm that determination.

Determinations

A. Loan and Purchase Level

The announcement with respect to the price support level for the 1989 crop of soybeans is that it shall be $4.53 per bushel.

B. Cost Reduction Options

The decision to implement any cost reduction will be made at a later date.

Authority: Section 201 of the Agricultural Act of 1949, as amended, 63 Stat. 1052, as amended (7 U.S.C. 1446(i)).

Signed at Washington, DC, on October 31, 1989.

Keith D. Bjerke,

Executive Vice President, Commodity Credit Corporation.

[Docket No. 24-89]

Foreign-Trade Zone 70, Detroit, Michigan; Application for Subzone Alps Auto Parts Plant, Auburn Hills, MI

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Detroit Foreign-Trade Zone, Inc., grantee of FTZ 70, requesting special-purpose subzone status for the testing and distribution facility of Alps Electric (USA), Inc., (Alps) (a subsidiary of Alps Electric Company, Ltd., Japan) located in Auburn Hills, Michigan, adjacent to the Detroit Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on October 27, 1989.

The Alps facility (10 acres) is located at 1500 Atlantic Boulevard in Metro North Technology Park, Auburn Hills, Michigan, some 20 miles north of Detroit. The facility is used for the storage and distribution as well as testing of electronic components for automobiles, such as electro-mechanical switches and resistors. Most of the components are shipped to U.S. auto assembly plants.

Zone procedures would exempt Alps from Customs duty payments on merchandise that is reexported. On shipments into the Customs territory, Alps would pay duties at the rate on components (3.1 to 6.0 percent). Shipments to U.S. auto assembly plants with subzone status would qualify for the duty rate that applies to autos (2.5 percent), as if the components had been shipped directly from abroad. The application indicates that subzone status will help Alps compete with foreign facilities that ship products directly to U.S. auto subzones.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: Dennis Puccinelli (Chairman), Foreign-Trade Zones Staff, U.S. Department of Commerce, Washington, DC 20230; William L. Morandini, District Director, U.S. Customs Service, North Central Region, 2nd Floor, Patrick V. McNamara Building, 477 Michigan Avenue, Detroit, Michigan 48226; and Colonel John D. Glass, District Engineer, U.S. Army Engineer District Detroit, P.O. Box 1027, Detroit, Michigan 48231.

Comments concerning the proposed subzone are invited in writing from interested parties. They should be addressed to the Board's Executive Secretary at the address below and postmarked on or before December 18, 1989.

A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

U.S. Department of Commerce, District Office, Room 565, 1140 McNamara Building, 477 Michigan Avenue, Detroit, Michigan 48226

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, 14th and Pennsylvania Avenue, NW., Room 2835, Washington, DC 20230

Dated: October 31, 1989.

John J. Da Ponte, Jr.,

Executive Secretary.

International Trade Administration

[A-427-001]

Sorbitol From France; Preliminary Results of Antidumping Duty; Administrative Review

AGENCY: International Trade Administration/Import Administration; Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In reponse to a request by a manufacturer/exporter, the Department of Commerce has conducted an administrative review of the antidumping duty order on sorbitol from France. The review covers the one known manufacturer/exporter of this merchandise to the United States and the period April 1, 1987 through March 31, 1988. The review indicates the existence of dumping margins during the period.

As a result of the review, the Department has preliminarily determined to assess dumping duties equal to the calculated differences between United States price and foreign market value. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Robin Gray or John Kugelman, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone (202) 377-1130/3601.

SUPPLEMENTARY INFORMATION:

Background

On June 8, 1988, the Department of Commerce ("the Department") published in the **Federal Register** (53 FR 21506) the final results of its last administrative review of the antidumping duty order on sorbitol from France (47 FR 15391, April 9, 1982). Roquette Freres requested in accordance with 19 section 353.53a(a) (1988) of the Commerce Regulations that we conduct an administrative review. We published a notice of initiation on May 23, 1988 (54 FR 18324). The Department has now conducted that administrative review in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

On September 19, 1988, Roquette Freres asked for revocation from the antidumping duty order and agreed to reinstatement of the order should the Department find future sales at margin. Pursuant to § 353.25 of the Department's regulations published in the **Federal Register** on March 28, 1989 (54 FR 12742) (to be codified at 19 CFR 353.25), we preliminarily determine that Roquette Freres does not qualify for revocation because it has not demonstrated at least three consecutive years of sales at not less than foreign market value.

Scope of Review

The United States has developed a system of tariff classification based on the international harmonized system of customs nomenclature. On January 1, 1989, the United States fully converted to the Harmonized Tariff Schedule (HTS), as provided for in section 1201 *et seq.* of the Omnibus Trade and Competitiveness Act of 1988. All merchandise entered, or withdrawn from warehouse, for consumption on or after that date is now classified solely according to the appropriate HTS item number(s).

Imports covered by the review are shipments of French crystalline sorbitol. Crystalline sorbitol is a polyol produced by the catalytic hydrogenation of sugars (glucose). It is used in the production of sugarless gum, candy, groceries, and pharmaceuticals. During the review period such merchandise was classifiable under item 493.6820 of the Tariff Schedules of the United States Annotated. This merchandise is currently classifiable under HTS item number 2905.44.00. The review covers the one known French manufacturer/exporter of crystalline sorbitol to the United States, Roquette Freres, and the period April 1, 1987 through March 31, 1988.

United States Price

In calculating United States price the Department used purchase price, as defined in section 772 of the Tariff Act. Purchase price was based on the packed, duty-paid, f.o.b. U.S. port price to unrelated purchasers in the United States. We made deductions, where applicable, for foreign inland freight, ocean freight, marine insurance, U.S. Customs duties, and brokerage fees. We made an addition for an import levy imposed by the European Community on corn which was not collected by reason of exportation of the sorbitol to the United States. No other adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value the Department used home market price, as defined in section 773 of the Tariff Act, since sufficient quantities of such or similar merchandise were sold in the home market to provide a basis for comparison. Home market price was based on the packed delivered price to unrelated purchasers in the home market. We made adjustments, where applicable, for inland freight and differences in credit costs and packing. We disallowed claimed adjustments for warehousing and inventory carrying costs.

We found that any warehousing expenses that were incurred pursuant to the warehousing contract with one customer were incurred by the customer, not Roquette Freres, since the merchandise was stored in the customer's warehouse. In addition, any inventory carrying costs or interest expenses were incurred prior to the reported date of sale, and Roquette Freres failed to prove that any such presale inventory carrying costs were directly related to, or a condition of, the sales under review. Thus, the claimed expenses would have been borne regardless of whether the particular sales under review were made.

With respect to another customer, Roquette Freres also claimed that it incurred presale inventory carrying expenses or interest expenses. Roquette Freres maintains a sixty-day supply of merchandise in a separate silo in anticipation of future sales to this particular customer. Roquette Freres, however, failed to prove that such expenses were directly related to, or a condition of, the sales under review.

No other adjustments were claimed or allowed.

Preliminary Results of Review

As a result of our comparison of United States price to foreign market value, we preliminarily determine that a margin of .94 percent exists for the period April 1, 1987 through March 31, 1988.

Interested parties may request disclosure and/or an administrative protective order within 5 days of the date of publication of this notice and may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first workday thereafter. Pre-hearing briefs and/or written comments from interested parties may be submitted no later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written

VOL
54
ISS
213
NO

1989
UMI

comments, limited to issues raised in those comments, may be filed not later than 37 days after the date of publication. The Department will publish the final results of the administrative review, including the results of its analysis of issues raised in such comments or at a hearing.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between United States price and foreign market value may vary from the percentage stated above. The Department will issue appraisement instructions directly to the Customs Service.

Further, as provided by § 353.22(c)(10) of our antidumping regulations, published in the **Federal Register** on March 28, 1989 (54 FR 12742) (to be codified at 19 CFR 353.22(c)(10)), a cash deposit of estimated antidumping duties of .94 percent shall be required for all shipments of French sorbitol entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. Since the basis for Roquette Frere's revocation request was the absence of shipments for several years and no sales at margin in this administrative review period, and since our new regulations, effective April 27, 1989, do not permit revocation based on the absence of shipments, we will not further consider the firm for revocation.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.22 of the Department's new regulations (54 FR 12742, March 28, 1989) (to be codified at 19 CFR 353.22).

Dated: October 30, 1989.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

Tuners (of the Type Used in Consumer Electronic Products) From Japan; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In response to a request by a respondent, the Department of Commerce has conducted an administrative review of the antidumping duty finding on tuners (of the type used in consumer electronic products) from Japan. The review covers one exporter of this merchandise to the United States, Kanematsu-Gosho Ltd., and the period December 1, 1987 through November 30, 1988. There were no known shipments of the merchandise to the United States covered by the finding during the period

Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Sheila Forbes or Robert Marenick, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-5255.

SUPPLEMENTARY INFORMATION:

Background

On February 7, 1989, the Department of Commerce ("the Department") published in the **Federal Register** (54 FR 5994) the final results of its last administrative review of the antidumping duty finding on tuners (of the type used in consumer electronic products) from Japan (35 FR 18914, December 12, 1970). An exporter, Kanematsu-Gosho Ltd., requested in accordance with 19 CFR 353.53a(a) (1988) that we conduct an administrative review. We published a notice of initiation of the antidumping duty administrative review on April 6, 1989 (54 FR 13913). The Department has now conducted that administrative review in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

The United States has developed a system of tariff classification based on the international harmonized system of customs nomenclature. On January 1, 1989, the United States fully converted to the Harmonized Tariff Schedule ("HTS"), as provided for in section 1201 *et seq.* of the Omnibus Trade and Competitiveness Act of 1988. All merchandise entered, or withdrawn from warehouse, for consumption on or after that date is now classified solely according to the appropriate HTS item number(s).

Imports covered by the review are shipments of tuners (of the type used in consumer electronic products) consisting primarily of television receiver tuners and tuners used in radio receivers such as household radios, stereo and high fidelity radio systems, and automobile radios. They are virtually all in modular form, aligned and ready for simple assembly in the consumer electronic product for which they were designed. The term "consumer electronic product" includes television sets, radios, and other electronic products of the type commonly bought at retail by household consumers, whether or not used in or around the household. Excluded are complete stereophonic tuners which are consumer products themselves, but not excluded are modular-type stereophonic tuners. During the review period, such merchandise was classifiable under items 685.0200 and 685.3300 of the Tariff Schedules of the United States Annotated. This merchandise is currently classifiable under HTS items 8529.90.10 and 8529.90.50. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers one exporter of Japanese tuners to the United States, Kanematsu-Gosho Ltd., and the period December 1, 1987 through November 30, 1988.

Preliminary Results of the Review

As a result of our review, we preliminarily determine that there were no shipments of merchandise to the United States by Kanematsu-Gosho, Ltd. covered by the finding during the period December 1, 1987 through November 30, 1988, because all such merchandise was produced and sold for export to the United States by Alps Electric Co., Ltd. which was revoked from the finding on February 23, 1987 (52 FR 5478).

Interested parties may request disclosure and/or an administrative protective order within 5 days of the date of publication of this notice, and may request a hearing within 10 days of the date of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first workday thereafter. Prehearing briefs and/or written comments may be submitted not later than 30 days after the date of publication. Rebuttal briefs or rebuttals to written comments, limited to issues raised in those comments, may be filed not later than 37 days after the date of publication. The Department will publish the final results of the administrative review, including the results of its analysis of any such comments or hearing.

As provided for by section 751(a)(1) of the Tariff Act, no cash deposit of estimated antidumping duties shall be required on entries of tuners sold by Kanematsu-Gosho, Ltd., if the merchandise is produced by Alps Electric Co., Ltd. A cash deposit of estimated antidumping duties of 23.66 percent shall be required on entries of tuners sold by Kanematsu-Gosho, Ltd., if the merchandise is produced by any manufacturer other than Alps Electric Co., Ltd. For any future shipments of this merchandise from the remaining known manufacturers/exporters not covered in this review, the cash deposit will continue to be at the rate published in the final results of the last administrative review of those firms. For any future entries of this merchandise from a new exporter not covered in this or prior administrative reviews, whose first shipments occurred after November 30, 1988, and who is unrelated to any of the reviewed firms, or any previously reviewed firms, no cash deposit shall be required. These deposit requirements are effective for all shipments of Japanese tuners (of the type used in consumer electronic products) entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)), and § 353.22(a) of the Commerce Department's revised regulations published in the **Federal Register** on March 28, 1989 (54 FR 12742) (to be codified at 19 CFR 353.22(a).

Dated: October 30, 1989.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

Environmental Assessment of the Office of Ocean and Coastal Resource Management (OCRM) Section 306A Low-cost Land Acquisition and Construction Projects

AGENCY: Office of Ocean and Coastal Resource Management, National Ocean Service, NOAA, Commerce.

ACTION: Notice of availability of an environmental assessment.

SUMMARY: Notice is hereby given that the OCRM has available an environmental assessment of the section 306A low-cost land acquisition and construction projects. This analysis reveals OCRM's determination that the majority of section 306A projects are small scale (under $100,000) and that any potential environmental impacts associated with these projects are minimal, and thus qualify as categorical exclusions (CEs) under the requirements of the NOAA's National Environmental Policy Act (NEPA) Directive 02.10. With regard to all future section 306A projects, OCRM maintains the option of reviewing projects that are not typical or not consistent with the kinds of projects that are described in this environmental assessment and therefore are not covered by the categorical exclusion determination as concluded in this document. OCRM maintains overview responsibilities of section 306A NEPA compliance requirements through the CZMA section 312 Evaluation reviews.

Comments on the Environmental Assessment should be made within 30 days of the date of this Notice. Address comments to: James P. Burgess, Chief, Coastal Programs Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1825 Connecticut Avenue, NW., Washington, DC 20235, (202) 673-5161.

Travel and Tourism Administration

Travel and Tourism Advisory Board; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. (App. 1976) notice is hereby given that the Travel and Tourism Advisory Board of the U.S. Department of Commerce will meet on November 29, 1989 at 2:00 p.m. at the Tokyo American Club, Board Room, Tokyo, Japan.

Established March 19, 1982, the Travel and Tourism Advisory Board consists of 15 members, representing the major segments of the travel and tourism industry and state tourism interests, and includes one member of a travel labor organization, a consumer advocate, an academician and a financial expert.

Members advise the Secretary of Commerce on matters pertinent to the Department's responsibilities to accomplish the purpose of the National Tourism Policy Act (Pub. L. 97-63), and provide guidance to the Assistant Secretary for Tourism Marketing in the preparation of annual marketing plans.

Agenda items are as follows:

I. Call to Order
II. Approval of Minutes
III. Outlook for Tourism
IV. Review of Far East Opportunities and Strategies
V. Rural Tourism Study
VI. Update on revision of National Tourism Policy Act
VII. 1990 Berlin Meeting
VIII. 1989 Annual Report Secretarial Recommendations
IX. Miscellaneous
X. Adjournment

A very limited number of seats will be available to observers from the public and the press. To assure adequate seating, individuals intending to attend should notify the Committee Control Officer in advance. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available, the presentation of oral statements is allowed.

Karen M. Cardran, Committee Control Officer, United States Travel and Tourism Administration, Room 1865, U.S. Department of Commerce, Washington, DC 20230 (telephone: 202-377-0140) will respond to public requests for information about the meeting.

Rockwell A. Schnabel,

Under Secretary of Commerce for Travel and Tourism.

COMMISSION ON RAILROAD RETIREMENT REFORM

Meeting; Discussion of Benefit Analysis Study

ACTION: Meeting.

SUMMARY: The Commission on Railroad Retirement Reform ("the Commission") will hold a meeting on Tuesday, November 21, 1989. The Commission was established by section 2101 of the Omnibus Budget Reconciliation Act of 1987, Public Law 100–203, enacted December 22, 1987.

Date, Time, and Place: November 21, 1989, 9:30 a.m.–3:30 p.m., Association of American Railroads, 50 F Street NW., Washington, DC (4th Floor Conference Center).

Status: The first hour of the meeting will be closed to discuss personnel and contract matters.

Agenda: The open portion of the meeting will include a discussion of the benefit analysis study conducted by Hay/Huggins, Inc., the coverage of divorced spouses under the Railroad Retirement Act, and a presentation by the Regional Railroad Association.

FOR ADDITIONAL INFORMATION: Contact Maureen Kiser, 202–254–3223, Commission on Railroad Retirement Reform, 1111 18th Street NW., Washington, DC 20036.

SUPPLEMENTARY INFORMATION: See Federal Register, volume 54 FR, No. 40, Thursday, March 2, 1989, Page 8856.

BILLING CODE 8820–63–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Pakistan

October 31, 1989.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs increasing limits.

EFFECTIVE DATE: November 1, 1989.

FOR FURTHER INFORMATION CONTACT: Anne Novak, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 343–6498. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION:

Authority. Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories in Group I and the Group II limit are being increased, variously, for carryforward and carryover.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 53 FR 44937, published on November 7, 1988). Also see 53 FR 50438, published on December 15, 1988.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

October 31, 1989.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive of December 12, 1988 issued to you by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports into the United States of certain cotton, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Pakistan and exported during the twelve-month period which began on January 1, 1989 and extends through December 31, 1989.

Effective on November 1, 1989, the directive of December 12, 1988 is amended further to increase the limits for the following categories, as provided under the terms of the current bilateral textile agreement between the Governments of the United States and Pakistan:

Category levels in group I	Adjusted 12-month limit [1]
225/313	89,505,506 square meters.
315	50,977,107 square meters.
336	3,415,432 dozen.
339	783,866 dozen.
340	181,453 dozen.
341	313,746 dozen.
347/348	408,259 dozen.
363	29,500,575 numbers.
369–R [2]	6,036,229 kilograms.
Group II: 300, 301, 314, 317, 326, 330, 332, 333, 345, 349, 350, 353, 354, 359, 360–362, 369–S [3] and 369–O [4], as a group.	69,043,210 square meters equivalent.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1988.

[2] In Category 369–R, only HTS number 6307.10.2020.

[3] In Category 369–S, only HTS number 6307.10.2005.

[4] In Category 369–O, all HTS number except 6302.60.0010, 6302.91.0005 and 6302.91.0045 in Category 369–D; 6307.10.2020 in Category 369–R; and 6307.10.2005 in Category 369–S.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 89–26052 Filed 11–3–89; 8:45 am]

BILLING CODE 3510–DR–M

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Singapore

October 31, 1989.

AGENCY: Committee for the Implementation of Textile Agreement (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 535–6736. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION:

Authority. Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The Governments of the United States and Singapore agreed to increase the current designated consultation level for Category 659–O.

Also, the current limit for Group II and certain categories in Groups I and II are being adjusted, variously, for swing, special shift and decreased carryover.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 53 FR 44937, published on November 7, 1988). Also see 53 FR 50440, published on December 15, 1988.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

October 31, 1989.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on December 12, 1988 by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in Singapore and exported during the period which began on January 1, 1989 and extends through December 31, 1989.

Effective on November 8, 1989 the directive of December 12, 1988 is being amended further to adjust the current limits for the following categories, as provided by the current agreement between the Governments of the United States and Singapore:

Category levels in group I	Adjusted 12-month limit [1]
239	334,401 kilograms.
331	324,580 dozen pairs.
335	132,226 dozen.
338/339	937,833 dozen of which not more than 535,345 dozen shall be in Category 338 and not more than 602,766 dozen shall be in Category 339.
341	122,012 dozen.
347/348	841,836 dozen of which not more than 521,783 dozen shall be in Category 347 and not more than 407,471 dozen shall be in Category 348.
435	2,051 dozen.
604	89,558 kilograms.
631	177,381 dozen pairs.
635	131,406 dozen.
638	596,923 dozen.
639	3,387,204 dozen.
640	95,130 dozen.
645/646	129,025 dozen.
647	362,089 dozen.
648	1,517,261 dozen.
Group II: 200–229, 237, 300/301, 313–330, 332, 333/633, 336, 345, 349, 350, 351/651, 352/652, 353/354/653/654, 359–369, 400–434, 436, 438, 439, 440–444, 445/446, 447, 448, 459–469, 600–603, 606, 607, 611–630, 632, 636, 642–644, 649, 650, 659–S [2], 659–V [3], 659–O [4], and 665–670, as a group.	36,714,813 square meters equivalent.
Sublevel in Group II	
237	99,008 dozen.
659–O	150,000 kilograms.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1988.

[2] In Category 659–S, only HTS numbers 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020.

[3] In Category 659–V, only HTS numbers 6110.30.1030, 6110.30.1040, 6110.30.2030, 6110.30.2040, 6110.30.3030, 6110.30.3035, 6110.90.0052, 6110.90.0054, 6201.93.2020, 6202.93.2020, 6211.33.0050 and 6211.43.0060.

[4] In Category 659–O, all HTS numbers except 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020 in Category 659–S; and 6110.30.1030, 6110.30.1040, 6110.30.2030, 6110.30.2049, 6110.30.3030, 6110.30.3035, 6110.90.0052, 6110.90.0054, 6201.93.2020, 6202.93.2020, 6211.33.0050 and 6211.43.0060 in Category 659–V.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 89–26053 Filed 11–3–89; 8:45 am]

BILLING CODE 3510–DR–M

Implementation of Certain Import Restraint Limits Based on Date of Entry

October 31, 1989.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Notice.

EFFECTIVE DATE: January 1, 1990.

FOR FURTHER INFORMATION CONTACT: Ross Arnold and Diana Solkoff, International Trade Specialists, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The purpose of this notice is to advise the public that, effective January 1, 1990, CITA reserves the right to implement all import restraint limits resulting from article 3 and section 204 calls based on date of entry rather than date of export for countries with agreements that have expired or will expire after November 6, 1989.

Consequently, the Chairman of CITA shall direct the Commissioner of Customs to charge to the appropriate level those goods which are entered into the United States for consumption, and withdrawn from warehouse for consumption, during the established retraint period, regardless of the date of export. Customs shall prohibit entry of goods entered during the restraint period in excess of the restraint limit.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 89–26054 Filed 11–3–89; 8:45 am]

BILLING CODE 3510–DR–M

COMMODITY FUTURES TRADING COMMISSION

Chicago Board of Trade Proposed Option Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity option contract.

SUMMARY: The Chicago Board of Trade ("CBT" or "Exchange") has applied for designation as a contract market in options on Long-Term Japanese Government Bond futures. For this proposed futures option contract, the CBT's application also contains a petition for an exemption from the volume requirement for the underlying futures contract specified in the Commission's rules. The Director of the Division of Economic Analysis ("Division") of the Commission, acting pursuant to the authority delegated by Commission Regulation § 140.96, has determined that publication of the proposal for comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before December 6, 1989.

BEST COPY AVAILABLE

VOL 54 ISS 213 NO 6 1989 UMI

ADDRESS: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581. Reference should be made to the CBT Long-Term Japanese Government Bond option.

FOR FURTHER INFORMATION CONTACT: Please contact Steven Sherrod of the Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, at (202) 254–7227.

SUPPLEMENTARY INFORMATION: In addition to requesting comment on the terms and conditions of the proposed option contract, the Division also is requesting comment on the merits of a petition filed by the CBT pursuant to § 33.11 of the Commission's rules. For the proposed Long-Term Japanese Government Bond option, the petition requests exemptive relief from the trading volume tests set forth in the Commission's rules. In that regard, § 33.4(a)(5)(iii) of the Commission's rules requires, as a condition of designation for proposed options on futures contracts, that the exchange demonstrate that:

> * * * the volume of trading in all contract months for futures delivery of the commodity for which the option designation is sought has averaged at least 3,000 contracts per week on such board of trade for the 12 months preceding the date of application for option contract market designation, or alternatively, that such futures contract market, based on its trading history, substantially meets this total volume requirement in less than the 12 months preceding the date of application. . . .

The Division notes that the CBT Long-Term Japanese Government Bond futures contract which will underlie the proposed option contract has not been listed for trading.[1] Therefore, the futures trading volume requirement for the proposed option contract has not been met.

As discussed in more detail in previous **Federal Register** notices (see, for example, 52 FR 41755, October 30, 1987), the Commission has stated that it believes that, at the minimum, a petition for exemption from the trading volume tests may be granted only if the underlying cash market for the commodity exhibits a high level of liquidity. Cash market liquidity would be evidenced by extensive and frequent trading activity, a large number of participants in the market, and tight bid/ask spreads. Further, the terms of the futures contract should ensure the opportunity for arbitrage and close alignment between the cash and futures markets. In combination, the liquidity of the underlying cash market and the opportunities for arbitrage are major factors in determining the extent to which a less liquid futures contract could be disrupted by the exercise of options and the alternatives available to those exercising the options. In addition, to enable position holders to evaluate accurately the value of their option positions in the absence of active trading in the underlying futures contract, the Commission stated its belief that there should exist an accurate and widely available price series which would be representative of values of the commodity underlying the future.[2]

In requesting comment on the CBT's proposed option on Long-Term Japanese Government Bond futures, the Division is seeking specific comment on whether it should grant the CBT's request for an exemption from the requirements of § 33.4(a)(5)(iii) for the proposed contract. Commenters are requested to consider the issues noted above. Also, commenters are requested to address whether, if the petition were granted, additional surveillance activities and expiration reviews, particularly at the outset of trading, should be implemented by the CBT for the proposed contract.

Copies of the terms and conditions of the proposed contract will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the CBT in support of the application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR part 145 (1987)), except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or argument on the terms and conditions of the proposed option contract, or with respect to other materials submitted by the CBT in support of the application, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, by the specified date.

Issued in Washington, DC on October 31, 1989.

Steven Manaster,

Director.

[FR Doc. 89–26050 Filed 11–3–89; 8:45 am]

BILLING CODE 6351-01-M

[1] The CBT was designated as a futures contract market in Long-Term Japanese Government Bonds on November 22, 1986

[2] The Division notes that in those cases where the underlying futures contract fails to develop a sufficient level of trading volume, the option on the futures contract would become subject to the delisting criteria set forth in § 5.4 of the Commission's rules. Specifically, if the volume in the underlying futures contract market falls below an average weekly volume of 1,000 contracts for all months listed for the six-month period following designation of the option contract, no new option contract months may be listed until the volume in the underlying futures contract rises above an average of 2,000 contracts per week for all trading months listed for a period of three consecutive months.

DEPARTMENT OF DEFENSE

Office of the Secretary

Availability of Change 2 to DoD 5025.1–I, DoD Directives System Annual Index

ACTION: Notice.

SUMMARY: This notice is to inform the public and U.S. Government Agencies other than the Department of Defense of the availability of Change 2 to DoD 5025.1–I, January 1989 edition. The Change may be purchased from the following organizations:

National Technical Information (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, Telephone number (703) 487–4600,

or

U.S. Naval Publications and Forms Center (NPFC), 5801 Tabor Avenue, Attention: Code 1062, Philadelphia, Pennsylvania 19120–5099, Telephone number (215) 697–3321.

Change 2 supersedes Change 1 of the Index. The NTIS accession number for Change 2 is PB89 100705; NPFC identifies it as Change 2 to DoD 5025.1–I.

FOR FURTHER INFORMATION CONTACT: Ms. Linda Bynum, Correspondence and Directives Directorate, Directives Division, Room 2A286, the Pentagon, Washington, DC 20301–1155, telephone number (202) 697–4111.

Dated: October 31, 1989.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Department of Defense Wage Committee; Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, December 5, 1989; Tuesday, December 12, 1989; Tuesday, December 19, 1989; and Tuesday, December 26, 1989 at 10:00 a.m. in Room 1E801, The Pentagon, Washington, DC.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Force Management and Personnel) concerning all matters involved in the development and authorization of wage schedules for federal prevailing rate employees pursuant to Public Law 92–392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92–463, meetings may be closed to the public when they are "concerned with matters listed in 5 U.S.C. 552b." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b.(c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b.(c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b.(c)(2)), and the detailed wage data considered from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b.(c)(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the chairman concerning matters believed to be deserving of the Committee's attention.

Additional information concerning this meeting may be obtained by writing the Chairman, Department of Defense Wage Committee, Room 3D264, The Pentagon, Washington, DC 20301.

Dated: October 31, 1989.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Department of the Air Force

USAF Scientific Advisory Board; Meeting

October 24, 1989.

The USAF Scientific Advisory Board Space Subpanel of the Strategic Cross-Matrix Panel will meet on 28–30 November 1989, from 8:00 a.m. to 5:00 p.m., at Rockwell, Los Angeles, CA; McDonnell Douglas, St. Louis, MO; and General Dynamics, Fort Worth, TX.

The purpose of this meeting will be to gather information on space-related technologies. The meeting at Rockwell, McDonnell Douglas, and General Dynamics will involve discussions of classified defense matters listed in section 552b(c) of title 5, United State Code, specifically subparagraph (1) and (4) thereof, and accordingly will be closed to the public.

For further information, contact the Scientific Advisory Board Secretariat at (202) 697–8845.

Department of the Army

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee Meeting:

Name of the Committee: Army Science Board (ASB).

Date of the Meeting: 28 November 1989.

Time: 0800–1700 hours.

Place: US Army Signal Center, Fort Gordon, Georgia.

Agenda: The Army Science Board 1989 Summer Study on Maintaining State-of-the-Art in the Army Command and Control System (ACCS) will meet to investigate the role of the Signal Center in ACCS with emphasis on the tactical communication systems being developed and fielded to support the Army Tactical Command and Control System. This meeting will be closed to the public in accordance with section 55(c) of title 5, U.S.C., specifically subparagraph (1) thereof, and title 5, U.S.C., Appendix 2, subsection 10(d). Contact the Army Science Board Administrative Officer, Sally Warner, for further information at (202)–695–0781.

Sally A. Warner,

Administrative Officer, Army Science Board.

BILLING CODE 3710-8-M

Department of the Navy

Notice of Intent To Prepare an Environmental Impact Statement for Alternate Transportation Route for Munitions at Naval Weapons Station Concord, CA

Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council of Environmental Quality regulations (40 CFR parts 1500–1508), the Department of the Navy announces its intent to prepare an Environmental Impact Statement (EIS) for creating an alternate transportation route for munitions that are moved from storage to outload facilities at Naval Weapons Station (NWS), Concord, California.

The NWS is composed of two main areas connected by a railroad and an access road. At present, it is necessary for munition trains and trucks to cross Port Chicago Highway at grade in order to get from the inland area to the tidal area. This movement necessitates a substantial law enforcement effort, involving Navy, Contra Costa County, and California Highway Patrol personnel in order to allow safe crossing of Port Chicago Highway. The purpose of the proposed action is to alleviate the problems associated with the transportation of munitions across Port Chicago Highway.

Alternatives identified thus far include:

1. Port Chicago Highway underpass at the main gate.
2. Navy railroad and tidal area access road overpass.
3. Relocation of the railroad and access road east of the town of Clyde.
4. Port Chicago overpass at the main gate.
5. Navy control of the section of Port Chicago Highway traversed during freight shipments between the inland and tidal areas.
6. No action.

Alternatives that are identified during the public scoping and review process will also be addressed in the EIS.

To determine the scope of issues related to this action, the Navy will hold a public scoping meeting on November 28, 1989 at 7 p.m., in the Contra Costa County Water District Board Room, 1331 Concord Avenue, Concord, California.

VOL
54
SS
2
1
3
NO
6
1989
UMI

This meeting will be advertised in the Concord and Contra Costa County newspapers. A formal presentation will precede the request for public comments. Navy representatives will be available at this meeting to receive comments from the public regarding issues of concern. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed during the preparation of the EIS.

Agencies and the public are also invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the scoping meeting, to be most helpful, the scoping comments should clearly describe specific issues or topics which the commentor believes the EIS should address. Written statements should be mailed no later than December 15, 1989 to Commanding Officer, Western Division, Naval Facilities Engineering Command, Attn: Mr. Louis Rivero, P.O. Box 727, San Bruno, California 94066-0720.

Dated: November 2, 1989.

Sandra M. Kay,

Department of the Navy, Alternate Federal Register Liaison Officer.

DEPARTMENT OF EDUCATION

[CFDA No. 84.133E]

Office of Special Education and Rehabilitation Services' National Institute on Disability and Rehabilitation Research; Notice Inviting Applications for A New Award Under the Rehabilitation Engineering Center Program for Fiscal Year 1990

Purpose of Program: A consolidated application package (CAP) for several programs sponsored by the National Institute on Disability and Rehabilitation Research (NIDRR) was published in the Federal Register at 54 FR 27570 on June 29, 1989. The CAP announced closing dates and other information for priorities that were published in the Federal Register on April 25, 1989 at 54 FR 17898. No applications were received for a Rehabilitation Engineering Center on Applications of Technology to the Rehabilitation of Children with Orthopedic Disabilities. However, the Department is convinced that this remains an important priority area. The purpose of this notice is to establish a new closing date for applications under this priority. Potential applicants should use the forms included in the CAP and refer to the notice of final funding priorities.

Deadline for Transmittal of Applications: February 12, 1990

Available Funds: $500,000

Estimated Number of Awards: One

Estimated Average Size of Award: $500,000

Applicable Regulations: The following regulations apply to this program: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 80, 81, and 85, and (b) the program regulations in 34 CFR parts 350 and 353.

Note: The Department of Education is not bound by any estimates in this notice, except as otherwise provided by statute.

FOR FURTHER INFORMATION CONTACT: Peer Review Unit, National Institute on Disability and Rehabilitation Research, (202) 732-1207.

Authority: 29 U.S.C. 760-762.

Dated: October 31, 1989.

Robert R. Davila,

Assistant Secretary for Special Education and Rehabilitative Services.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed; State of Hawaii

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10220. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224-011005-001

Title: State of Hawaii Terminal Agreement.

Parties: State of Hawaii, Matson Terminals, Inc.

Synopsis: The Agreement restates paragarph 5 of the basic agreement to provide that the annual rental as determined under section 24B of Exhibit A of the basic agreement shall be set forth in amendments filed with the FMC and effective under the Shipping Act of 1984.

By Order of the Federal Maritime Commission.

Dated: October 31, 1989.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

ABN/LaSalle North America, Inc., et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a) (2) or (f) of the Board's Regulation Y (12 CFR 225.23(a) (2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated for the application or the offices of the Board of Governors not later than November 24, 1989.

A. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

VOL 54 ISS 213 NO 6 1989 UMI

1. ABN/LaSalle North America, Inc., Chicago, Illinois; A.B.N.-Stichting, Amsterdam, The Netherlands; Algemene Bank Nederland N.V., Amsterdam, The Netherlands; and LaSalle National Corporation, Chicago, Illinois; to acquire Union Realty Mortgage Co., Inc., Chicago, Illinois, and thereby engage in making and servicing loans pursuant to § 225.25(b)(1) of the Board's Regulation Y.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. Union Planters Corporation, Memphis, Tennessee; to acquire Union Planters Investment Bankers Corporation, Memphis, Tennessee, and thereby engage in underwriting and dealing in obligations of the United States, general obligations of the states and their political subdivisions, and other obligations, including bankers' acceptances and certificates of deposit, pursuant to § 225.25(b)(16); providing portfolio investment advice and research and furnishing general economic statistical forecasting services and industry studies in connection with and incident to the proposed bank-eligible securities activities, pursuant to § 225.25(b)(4); acting as a futures commission merchant in the execution and clearance on major commodity exchanges of futures contracts and options on futures contracts for government securities, certificates of deposit, and other money market instruments that a bank may buy or sell in the cash market for its own account pursuant to § 225.25(b)(18); providing investment advice, including counsel, publications, written analyses and reports in connection with and incident to its activities as a futures commission merchant and as a commodity trading advisor, pursuant to § 225.25(b)(19); providing securities brokerage services, related securities credit activities, and incidental activities such as individual retirement accounts, pursuant to § 225.25(b)(15); acquiring and servicing loans or other extensions of credit for its own account or for the accounts of others, such as would be made by consumer finance companies, credit card companies, mortgage companies, commercial finance companies, and factoring companies pursuant to § 225.25(b)(1); and acquiring leases of personal property, subject to, and in accordance with prescribed restrictions pursuant to § 225.25(b)(5) of the Board's Regulation Y. These activities will be conducted out of the main office in Memphis, Tennessee, and out of branch offices in Schaumberg, Illinois; Little Rock, Arkansas; Sarasota, Florida; Seattle, Washington; and Houston, Texas.

C. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. Peoples National Bancshares of Checotah, Inc., Checotah, Oklahoma; to acquire a *de novo* subsidiary, Peoples Credit Insurance Agency, Inc., Checotah, Oklahoma, and thereby engage in credit-related insurance under § 225.25(b)(8)(i); and to acquire Cantwell Insurance Agency, Inc., Checotah, Oklahoma, and thereby engage in the sale of general insurance only in the town of Checotah, Oklahoma, which has a population of approximately 3,500 pursuant to § 225.25(b)(iii)(A) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, October 31, 1989.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Auburn National Bancorporation; Notice of Application To Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted through the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a haring, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be agtgrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than November 24, 1989.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. Auburn National Bancorporation, Auburn, Alabama; to engage *de novo* through its subsidiary, ANB Systems, Inc., Auburn, Alabama, in data processing activities pursuant to § 225.25(b)(7) of the Board's Regulation Y. These activities will be conducted throughout the states of Alabama, Florida, and Georgia.

Board of Governors of the Federal Reserve System, October 31, 1989.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 89-26045 Filed 11-3-89; 8:45 am]

BILLING CODE 6210-01-M

DBT Holding Co., et al.; Formations of Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than November 24, 1989.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. DBT Holding Company, Vidalia, Georgia; to become a bank holding company by acquiring 100 percent of the voting shares of Darby Bank and Trust Company, Vidalia, Georgia.

2. First American Corporation, Nashville, Tennessee; to acquire 100 percent of the voting shares of First American Trust Company, N.A., Nashville, Tennessee.

3. Merchant Bankshares Group, Inc., Fort Myers, Florida; to become a bank holding company by acquiring 80 percent of the voting shares of Merchant National Bank, Fort Myers, Florida.

B. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 LaSalle Street, Chicago, Illinois 60690:

1. First Mid-America Bancorp, Inc., Davenport, Iowa; to become a bank holding company by acquiring 100 percent of the voting shares of The State Bank of Annawan, Annawan, Illinois.

2. Goodenow Bancorporation, Wall Lake, Iowa; to acquire 80 percent of the voting shares of First Trust & Savings Bank, Armstrong, Iowa.

C. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. Financial Bancshares, Inc., St. Louis, Missouri; to acquire at least 30.2 percent of the voting shares of First Bank of East Prairie, East Prairie, Missouri.

2. First Eldorado Bancshares, Inc., Eldorado, Illinois; to become a bank holding company by acquiring at least 80 percent of the voting shares of First State Bank of Eldorado, Eldorado, Illinois.

Board of Governors of the Federal Reserve System, October 31, 1989.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

[Announcement No. 005]

Cooperative Agreements for Minority Community-Based Human Immunodeficiency Virus (HIV) Prevention Projects

Introduction

The Centers for Disease Control (CDC) announces the availability of Fiscal Year 1990 funds for cooperative agreements for Human Immunodeficiency Virus (HIV) Prevention Projects for minority community-based organizations (CBOs) serving populations with and at risk of HIV infection and acquired immunodeficiency syndrome (AIDS). This supplements Announcements Number 908, **Federal Register**, January 9, 1989, [54 FR 663], (corrections January 24, 1989) [54 FR 3557] and February 16, 1989 [54 FR 7089], by expanding eligibility to 4 additional metropolitan statistical areas.

Authority

This program is authorized under the Public Health Service Act: section 301(a) [42 U.S.C. 241(a)], as amended and section 317 (42 U.S.C. 247b), as amended.

Eligible Applicants

Eligible applicants are nonprofit minority community-based organizations (MCBO), located in the Metropolitan Statistical Areas (MSAs) with minority communities most heavily affected by HIV infection/AIDS. Congress has authorized funds to provide direct financial and technical assistance to MCBOs in those areas where minority populations have been most heavily affected by the HIV epidemic so that they may work in their own communities to achieve a reduction of the risky behavior that leads to HIV transmission. In July 1989, MCBOs in 27 MSAs were awarded funds. This announcement extends eligibility to 4 additional MSAs where minority populations have been heavily affected by the HIV epidemic. These additional areas, as defined by cumulative number of AIDS cases in minority populations reported to CDC and entered into the CDC surveillance database as of June 1, 1988, are: Connecticut: Bridgeport-Milford, New Haven-Meriden; New Jersey: Middlesex-Hunterdon-Sommerset Counties; and Texas: San Antonio. Only MCBOs in these four MSAs are eligible under this announcement.

Eligible applicants located in the above MSAs must be nonprofit corporations or associations whose net earnings in no part lawfully accrue to the benefit of any private shareholder or individual and which represent and serve minority persons and whose governing body is composed of more than 50% racial and/or ethnic minority group members (Asians, blacks, Latinos/Hispanics, Native Americans, and Pacific Islanders).

Any of the following is acceptable evidence of nonprofit status:

A. A reference to the applicant organization's listing in the Internal Revenue Service's most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS code;

B. A copy of a currently valid IRS tax exemption certificate;

C. A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a nonprofit status and that none of the net

VOL
54
ISS
2
13
NO
6
1989
UMI

earnings accrue to any private shareholders or individuals;

D. A certified copy of the organization's certificate of incorporation or similar document that clearly establishes nonprofit status; or,

E. Any of the above proof for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local nonprofit affiliate.

This proof must be included in the application. No award will be made without proof of nonprofit status.

Availability of Funds

It is expected that approximately $600,000 will be available in Fiscal Year 1990 to support approximately 4 projects. Awards will range from $20,000 to $200,000 with an average award of $150,000. Priority will be given to supporting at least one project in each of the eligible MSAs.

Awards will be made for a 12-month budget period within a 1 to 3 year project period. (Budget Period is the interval of time into which the project period is divided for funding and reporting purposes. Project Period is the total time for which a project has been programmatically approved.) Continuation awards for new budget periods within an approved project period are made on the basis of satisfactory performance and availability of funds. No funds will be provided for patient treatment or care. These funds may not be used to supplant existing funds. Funding estimates outlined above may vary and are subject to change.

Purpose

The purpose of this program is to provide assistance to minority CBOs to: (1) develop and implement innovative community-based HIV prevention programs related to achieving national goals, (2) establish collaboration among community organizations, HIV education/prevention service agencies, and public organizations including local and State health departments, and (3) evaluate the effectiveness of HIV prevention programs for which support is provided.

Cooperative Activities

Recipient Activities

1. Needs Assessment

Applicants should assess the need for the proposed program by:

A. Contacting their State or local health department AIDS Coordinators to obtain information on HIV prevalence in the target populations and HIV/AIDS related baseline knowledge, attitudes, beliefs, and, when available, behavior data and other information relevant to the needs of the target population;

B. Idenifying other organizations and agencies providing services to the target populations which are related to or supportive of the activities being proposed by the applicant; and briefly listing the services which these organizations and agencies are providing; and

C. Identifying gaps in HIV prevention activities directed to the target populations.

2. Health Education/Risk Reduction

Based on the needs assessment:

A. Develop specific, time-phased, and measurable program objectives.

B. Target these programs to racial and ethnic minority individuals whose behavior places them at increased risk of HIV transmission, including:

(1) infected persons;

(2) men who have or have had sex with men;

(3) individuals who exchange sex for drugs or money;

(4) intravenous drug users who share paraphernalia;

(5) persons with sexually transmitted diseases; and,

(6) persons who are or were sex or needle sharing partners of those listed above, especially female partners.

C. Develop and conduct culturally sensitive and language specific HIV prevention education programs to reduce or eliminate risky behavior. In addition, some members of the target population may have disabilities which hinder learning and which may require special approaches to communication.

D. Address the need for prevention and treatment of other sexually transmitted diseases in carrying out HIV prevention programs.

3. Collaboration

In implementing programs:

A. Plan and conduct program activities in collaboration and coordination with State/local health departments.

B. Collaborate and coordinate activities with other organizations involved in HIV prevention and education programs serving the target population in the local area, whenever possible. Such organizations would include, as appropriate:

(1) community groups/organizations, including churches and religious groups, especially those with a racial/ethnic minority membership and focus, and those that serve populations at increased risk;

(2) AIDS service organizations;

(3) schools, boards of education, and other local education agencies; and

(4) federally-funded community networks.

Examples of such collaboration include letters of support or workplans jointly developed with local health departments and other community organizations and agencies.

4. Evaluation

Develop and implement an evaluation plan to:

A. Monitor the accomplishment of program activities and progress toward achieving each objective; and

B. Determine how program activities affect the target population and how they will help ensure that State, local, and national HIV prevention goals are addressed. Collaboration with the State or local health department is essential for this activity.

Centers for Disease Control Activities

1. Provide consultation and technical assistance in planning, operating, and evaluating prevention activities.

2. Provide up-to-date scientific information regarding risk factors for HIV infection, prevention measures, and program strategies for prevention of HIV infection.

3. Assist in the evaluation of program effectiveness.

4. Assist recipients in collaborating with State and local health departments and other PHS supported HIV/AIDS recipients.

5. Facilitate the transfer of successful intervention programs to other areas.

Evaluation Criteria

Eligible applications submitted under this announcement number will be evaluated by a CDC convened review committee on an individual basis according to the following criteria:

A. The need for program support. (20 points)

B. Evidence of ability of the applicant to carry out the proposed program. (25 points)

C. The extent to which the proposed objectives are specific, measurable, and time-phased. (20 points)

D. The quality of the applicant's plan for conducting program activities. (20 points)

E. The extent to which the evaluation plan measures the accomplishment of program objectives. (15 points)

In addition, consideration will be given to the appropriateness and reasonableness of the budget request, proposed use of project funds, the extent to which the applicant is contributing its own resources to HIV/AIDS prevention activities, and the need to provide support in each of the eligible MSAs.

Funding Priorities

Priority will be given to supporting at least one project in each of the eligible MSAs.

Executive Order 12372 Review

Applications are not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 13.118.

Other Requirements

Recipients must comply with the document titled: Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions (October 1988). In complying with the Program Review Panel requirements contained in the above document, recipients are encouraged to use an existing Program Review Panel such as the one created by the health department's AIDS/HIV Prevention Program.

[54 FR 10049, March 9, 1989]

Application Workshops

Technical assistance will be available in the form of workshops in locations convenient to the eligible MSA. Workshops for some MSA will be combined and will be held November 27, 1989, in San Antonio, November 30, 1989, in Hartford, Connecticut, and November 29, 1989, in Morris Plains, New Jersey. Preregistration for these workshops is encouraged and may be done by calling (404) 639-1235.

Application Submission and Deadline

The original and two copies of the application (PHS Form 5161-1) must be submitted to Candice Nowicki, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, N.E., Room 300, Atlanta, GA 30305, on or before January 15, 1990.

1. Deadline: Applications shall be considered as meeting the deadline if they are either:

A. Received on or before the deadline date, or

B. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks will not be acceptable proof of timely mailing.

2. Late Applications: Applications which do not meet the criteria in 1.A. or B. will be considered late applications. Late applications will not be considered in the current funding cycle and will be returned to the applicant.

Where to Obtain Additional Information

Information on application procedures, copies of application forms, and other material may be obtained from Nealean K. Austin, Marsha D. Driggans, and Carole J. Tully, Grants Management Specialists, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, N.E., Room 300, Atlanta, GA 30305, (404) 842-6640.

Announcement Number 005, "Cooperative Agreements for Minority Community-Based Human Immunodeficiency Virus (HIV) Prevention Projects" must be referenced in all requests for information pertaining these projects.

Technical assistance may be obtained from Jack Kirby, Division of Sexually Transmitted Diseases, Center for Prevention Services, Centers for Disease Control, Atlanta, GA 30333, (404) 639-1230 or (404) 639-1235.

Dated: October 30, 1989.

Robert L. Foster,

Acting Director, Office of Program Support, Centers for Disease Control.

BILLING CODE 4160-18-M

Food and Drug Administration

Johnson & Johnson; Withdrawal of Approval of NADA

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of a new animal drug application (NADA) held by Johnson & Johnson. The NADA provides for the use of Surgicel® Absorbable Hemostat (oxidized regenerated cellulose) in dogs, cats, and horses. The firm requested the withdrawal of approval.

EFFECTIVE DATE: November 16, 1989.

FOR FURTHER INFORMATION CONTACT: Mohammad I. Sharar, Center for Veterinary Medicine (HFV-216), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4093.

SUPPLEMENTARY INFORMATION: Johnson & Johnson, 501 George St., New Brunswick, NJ 08903-2400, is the sponsor of NADA 33-756, which was originally approved April 28, 1966. NADA 33-756 provides for use of Surgicel® Absorbable Hemostat (oxidized regenerated cellulose) in dogs, cats, and horses. The knitted fabric strips were approved for use to control capillary or venous bleeding or small arterial hemorrhage when conventional means of control are technically impractical.

By letter of June 12, 1989, the sponsor requested voluntary withdrawal of approval of the NADA on the grounds that the product is no longer being marketed.

Therefore, under the Federal Food, Drug, and Cosmetic Act, sec. 512(e) (21 U.S.C. 360b(e)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Center for Veterinary Medicine (21 CFR 5.84), and in accordance with § 514.115 Withdrawal of approval of applications (21 CFR 514.115), notice is given that approval of NADA 33-756 and all supplements thereto is hereby withdrawn, effective November 16, 1989.

Dated: October 31, 1989.

Gerald B. Guest,

Director, Center for Veterinary Medicine.

[Docket No. 89N-0465]

Drug Export, Abbott IMx® HBsAg Text Kit

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Abbott Laboratories, Abbott Park, IL 60064, has filed an application requesting approval for the export of the biological product Abbott IMx® HBsAg test kit to Belgium, Denmark, Finland, The Netherlands, Norway, Sweden, and The United Kingdom.

ADDRESSES: Relevant information on this application may be directed to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, and to the contact person identified below. Any future inquires concerning the export of human biological products under the Drug Export Amendments Act of 1986 should also be directed to the contact person.

FOR FURTHER INFORMATION CONTACT: Boyd Fogle, Jr., Center for Biologics Evaluation and Research (HFB-120), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8191.

SUPPLEMENTARY INFORMATION: The Drug Export Amendments Act of 1986 (Pub. L. 99-660) (section 802 of the Federal Food, Drug, and Cosmetic Act (the act) 21 U.S.C. 382)) provides that FDA may approve applications for the export of drugs that are not currently approved in the United States. The approval process is governed by section 802(b) of the act. Section 802(b)(3)(B) of the act sets forth the requirements that must be met in an application for approval. Section 802(b)(3)(C) of the act requires that the agency review the application within 30 days of its filing to determine whether the requirements of section 802(b)(3)(B) have been satisfied. Section 802(b)(3)(A) of the act requires that the agency publish a notice in the **Federal Register** within 10 days of the filing of an application for export to facilitate public participation in its review of the application. To meet this requirement, the agency is providing notice that Abbott Laboratories, Abbott Park, IL 60064, has filed an application requesting approval for the export of the biological product Abbott IMx® HBsAg test kit to Belgium, Denmark, Finland, The Netherlands, Norway, Sweden, and The United Kingdom. The Abbott HBsAg assay test is a qualitative third generation Microparticle Enzyme Immunoassay for the detection of Hepatitis B Surface Antigen (HBsAg) in human serum or plasma. The complete application was received and filed in the Center for Biologics Evaluation and Research on October 19, 1989, which shall be considered the filing date for purposes of the act.

Interested persons may submit relevant information on the application to the Dockets Management Branch (address above) in two copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. These submissions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The agency encourages any person who submits relevant information on the application to do so by November 16, 1989, and to provide an additional copy of the submission directly to the contact person identified above, to facilitate consideration of the information during the 30-day review period.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 802, Pub. L. 99-660 (21 U.S.C. 382)) and under authority delegated to the Commissioner of Food Drugs (21 CFR 5.10) and redelegated under 21 CFR 5.44.

Dated October 25, 1989.

Thomas S. Bozzo,

Director, Office of Compliance, Center for Biologics Evaluation and Research.

BILLING CODE 4160-01-M

Health Resources and Services Administration

Rescission of Announcement for Retention Program for Health Professions Schools With Individuals From Disadvantaged Backgrounds

The Health Resources and Services Administration announced in the **Federal Register**, Vol. 54, No. 161, pages 34825 and 34826, dated Tuesday, August 22, 1989, that applications for Fiscal Year 1990 Retention Program for Health Professions Schools With Individuals From Disadvantaged Backgrounds Grants were being accepted under the authority of section 787A of the Public Health Service Act, as established by Public Law 100-607. That notice is hereby rescinded.

Section 787A authorizes a supplement grant program to award grants to schools of medicine, schools of osteopathic medicine, optometry, podiatric medicine, pharmacy, or public health that demonstrate sufficient graduation of students from disadvantaged backgrounds. It now appears that no funds will be available for that program in Fiscal Year 1990. Accordingly, the Department will not consider applications for section 787A grants during this fiscal year, and the August 22, 1989, announcement is rescinded.

Dated: October 31, 1989.

John H. Kelso,

Acting Administrator.

BILLING CODE 4160-15-M

National Institutes of Health

Meeting of the Biomedical Research Technology Review Committee

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Biomedical Research Technology Committee (BRTC), Division of Research Resources (DRR), November 13-14, 1989, at the Holiday Inn—Bethesda (Peppermill Room), 8120 Wisconsin Avenue, Bethesda, Maryland 20814.

This meeting will be open to the public on November 13, from 8:30 a.m. to 10:30 a.m., during which time there will be comments by the Acting Director, DRR, the Chief of Review, DRR, and a report of the Director, Biomedical Research Technology Program. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and sec. 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 13, from 10:45 a.m. to 5 p.m., and November 14, from 8:30 a.m. to 5 p.m. for the review, discussion, and evaluation of individual grant applications.

The applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would consitute a clearly unwarranted invasion of personal privacy.

Mr. Michael Fluharty, Acting Information Officer, Division of Research Resources, National Institutes of Health, Westwood Building, Room 857, Bethesda, Maryland 20892, (301) 496-5545, will provide a summary of the meeting, and a roster of the committee members upon request. Dr. Daniel Eskinazi, Acting Executive Secretary, Biomedical Research Technology Review Committee, Division of Research Resources, National Institutes of Health, Westwood Building, Room 10A16, (301) 496-4390, will provide substantive program information upon request.

(Catalog of Federal Domestic Assistance Program no. 13.371, Biotechnology Research, National Institutes of Health).

Dated: October 30, 1989.

Betty J. Beveridge,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D-89-893, FR-2595]

Delegation of Authority; Office of the General Counsel

AGENCY: Office of the Secretary, HUD

ACTION: Delegation of authority to approve production or disclosure of HUD materials or information and requests for testimony in 24 CFR part 15, Subparts H and I.

SUMMARY: This delegation of authority designates the officials who may exercise the Secretary's authority to approve disclosure of HUD information in response to subpoenas and other demands and for requests for testimony of HUD employees under 24 CFR part 15, Subparts H and I.

EFFECTIVE DATE: November 6, 1989.

FOR FURTHER INFORMATION CONTACT: Gershon Ratner, Associate General Counsel for Litigation, Room 10258, Department of Housing and Urban Development, 451 7th Street, SW. Washington, DC 20410. Phone (202) 755-1300. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The delegation of authority published on January 31, 1989 at 54 FR 4913 is amended as follows:

1. By adding at the end of paragraph 1 in Section C (54 FR 4914) the following: "In addition, the same authority referenced in the preceding sentence shall be vested in each Associate General Counsel for HUD Headquarters employees in those programs for which the Associate provides legal advice, and each Regional Counsel for HUD employees within the territorial jurisdiction of his or her region."

2. And by adding the following new paragraph after paragraph 7 in the section entitled "Delegations Revoked": ¶"8. 53 FR 50586 (December 16, 1988) [Docket No. D-88-890]."

Authority: Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d).

Dated: September 12, 1989.

Jack Kemp,

Secretary.

BILLING CODE 4210-32-M

Office of the Regional Administrator-Regional Housing Commissioner

[Docket No. D-89-897; FR-2710]

Redelegation of Authority; Region IV (Atlanta)

AGENCY: Department of Housing and Urban Development (HUD) Office of the Regional Administator-Regional Housing Commissioner, Region IV, Atlanta, Georgia.

ACTION: Notice of redelegation of authority.

SUMMARY: This Notice announces a redelegation of authority to officials of HUD Regional and Field Offices in Region IV. The Authority relates to section 255 of the National Housing Act.

EFFECTIVE DATE: September 28, 1989.

FOR FURTHER INFORMATION CONTACT: Neil A. Zittrauer, Acting Director, Office of Housing, Atlanta Regional Office, Department of Housing and Urban Development, Room 546, Richard B. Russell Federal Building, 75 Spring Street, SW., Atlanta, Georgia 30303-3388, 404-331-4127. (This is not a toll free number.).

SUPPLEMENTARY INFORMATION: This redelegation of authority is made pursuant to a redelegation of authority issued by the Assistant Secretary for Housing-Federal Housing Commissioner on July 7, 1989, 54 FR 30112 (July 18, 1989).

Authorities Redelegated

A. Each Director of the Housing Development Division, Chief of the Mortgage Credit Branch, and Commitment Loan Specialist in the Mortgage Credit Branch is redelegted the power and authority of the Regional Administrator-Regional Housing Commissioner, Deputy Regional Administrator, Director of the Office of Housing in the Regional Office, Managers of the HUD Field Offices and Deputy Managers of the HUD Field Offices in region IV with respect to the following functions and responsibilities under section 255 of the National Housing Act, 12 U.S.C. 1715z-20.

1. Commit to insure and insure home equity conversion mortgages in accordance with section 255(c).

2. Cause mortgagees to make available to mortgagors, at the time of application, a list of third party information sources, as required by section 255(e)(1).

3. Cause disclosure information to be made available to mortgagors by mortgagees, both prior to the individual loan closing as required by section 255(e)(2), and annually thereafter in the form of summary statements as required by section 255(e)(3).

B. Each of the Housing Development Division, Chief of the Valuation Branch, and Commitment Appraiser in the Valuation Branch is redelegated the following function and responsibility.

1. Conditionally commit to insure home equity conversion mortgages in accordance with section 255(c).

C. Each Chief of the Mortgage Credit Branch, Chief of the Clerical Processing Unit, and Endorsement Clerk in the Mortgage Credit Branch/Clerical Processing Unit is redelegated the following function and responsibility.

1. Insure home equity conversion mortgages in accordance with section 255(c).

D. Each Director of the Housing Management Division, Chief of the Loan Management Branch, Chief of the Loan Management and Property Disposition Branch, Chief of the Single Family Loan Management Branch, Chief of the Property Disposition/Single Family Servicing Branch, Loan Specialist in the Loan Management Branch, Loan Specialist in the Loan Management and Property Disposition Branch, Loan Specialist in the Single Family Loan Management Branch, and Loan Specialist in the Property Disposition/Single Family Servicing Branch is redelegated the following functions and responsibilites.

1. Provide, or cause to be provided, counseling to mortgagors as specified in section 255(f), including the approval pursuant to section 255(e)(1) of information sources as being responsible and able to provide counseling information to mortgagors.

2. Cause disclosure information to be made available to mortgagors by mortgagees, both prior to the individual loan closing as required by section 255(e)(2), and annually thereafter in the form of summary statements as required by section 255(e)(3).

3. Pursuant to section 255(i)(1), provide funds to mortgagors when the mortgagee or other party responsible for making the equity conversion payments fails to make them; obtain, by legal, equitable, or administrative means, repayment from any source of funds disbursed; and take such actions described in section 255(i)(2) as may be necessary to enable funds to be provided to mortgagors and mortgagees.

4. Service and foreclose (or accept deeds in lieu of foreclosure) on mortgages assigned to the Secretary, sell, or otherwise convey interest in acquired property, and in all respects carry out the responsibilities of the Secretary under section 7(i) of the

Department of Housing and Urban Development Act, 42 U.S.C. 3535(i).

5. Enter into such contracts and agreements, including loan agreements with mortgagors, as may be necessary or desirable to carry out the responsibilities delegated above, with the exception of procurement contracts.

This Redelegation is effective September 28, 1989 and until such time as it may be expressly terminated or superseded.

Atlanta, Georgia, 1989.

Raymond A. Harris,

Regional Administrator, Regional Housing Commissioner.

[FR Doc. 89-26028 Filed 11-3-89; 8:45 am]

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Intent To Prepare an Environmental Impact Statement; Alturas Resource Area, CA

AGENCY: Bureau of Land Management, Interior, Susanville District Office, Hayden Hill Gold Mine Operation, Susanville, California.

ACTION: Notice of intent to prepare an environmental impact statement/environmental impact report (EIS/EIR).

SUMMARY: The Bureau of Land Management, as a cooperating agency with the Forest Service, Department of Agriculture and Lassen County, California will prepare a combined (EIS/EIR) for the proposed open pit gold mine operation located in the Hayden Hill area of the Alturas Resource Area, Susanville District, California. The Lead Federal Agency will be the Susanville District of the Bureau of Land Management. The agency invites written comments and suggestions on the scope of the analysis. In addition, the agency gives notice of the full environmental analysis and decision-making process that will occur on the proposal so that interested and affected people are aware of how they may participate and contribute to the final decision.

DATE: Comments concerning the scope of the analysis must be received by January 15, 1990.

ADDRESSES: Submit written comments and suggestions concerning the scope of the analysis to Lynda Roush, Area Manager, Alturas Resource Area, 120 S. Main Street, Alturas, CA 96101.

FOR FURTHER INFORMATION CONTACT: Direct questions about the proposed action and environmental impact statement to Lynda Roush, Area Manager, Alturas Resource Area, 120 S. Main Street, Alturas, CA 96101 or phone (916) 233-4666.

SUPPLEMENTARY INFORMATION: Hayden Hill Operating Company, a joint venture of AMAX Gold and U.S. Gold, has filed a plan of operation with the Bureau of Land Management, for an open pit gold mine in the Hayden Hill area. The project area is approximately 1,200 acres and consists of an open pit, waste rock disposal site, processing plants, heap leach systems, mill and tailing ponds, gold recovery processing plant and ancillary facilities and access roads. The present plan of operation proposes the waste rock site and tailings pond be adjacent to Forest Service administered lands, and the project will primarily be located on private and BLM managed lands. The plan proposes to have access and some ancillary facilities on National Forest System Lands. The BLM will issue an approval of the plan of operation or permits, for those activities occurring on BLM managed lands, based upon the Record of Decision.

In preparing the EIS/EIR, the agencies will identify and consider a range of alternatives for this site. One of these will be no development of the site. Other alternatives will consider relocation of the access route, waste rock and or tailings ponds.

Lynda Roush, Alturas Resource Area Manager, Bureau of Land Management, in Alturas, CA, is the responsible official.

Public participation will be especially important at several points during the analysis. The first point is during the scoping process (40 CFR 1501.70). The agencies will be seeking information, comments, and assistance from Federal, State, and local agencies and other individuals or organizations who may be interested in or affected by the proposed action. This input will be used in preparation of the draft EIS/EIR. The scoping process includes:

1. Identifying potential issues.
2. Identifying issues to be analyzed in depth.
3. Eliminating insignificant issues or those which have been covered by a relevant previous analysis.
4. Exploring additional alternatives.
5. Identifying potential environmental effects of the proposed action and alternatives (i.e., direct, indirect, and cumulative effects and connected actions).

The agencies will hold a public scoping meeting at the Adin Community Hall, Adin, California, from 3 p.m. til 9:30 p.m. on Thursday, November 30, 1989.

The draft EIS/EIR is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review by May 1990. At that time EPA will publish a notice of availability of the DEIS/EIR in the FR.

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency's notice of availability appears in the FR. It is very important that those interested in the management of the Hayden Hill area participate at that time. To be most helpful, comments on the Draft EIS/EIR should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed (see the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3). In addition, Federal court decisions have established that reviewers of draft EIS's must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions, *Vermont Yankee Nuclear Power Corp. v. NEDC*, 435 US 519, 553 (1978), and that environmental objections that could not have been raised at the draft stage may be waived if not raised until after completion of the final environmental impact statement. *Wisconsin Heritages, Inc., v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). The reason for this is to ensure that substantive comments and objections are made available to the agencies at the time when it can meaningfully consider them and respond to them in the final.

After the comment period ends on the Draft EIS/EIR, the comments will be analyzed and considered by the agencies in preparing the final environmental impact statement. The final EIS/EIR is scheduled to be completed by July 1990. In the Final EIS/EIR, the agencies are required to respond to the comments received (40 CFR 1503.4). The responsible official will consider the comments, responses, environmental consequences discussed in the EIS, and applicable laws, regulations, and policies in making a decision regarding this proposal. The responsible official will document the decision and reasons for the decision in the Record of Decision (ROD). After the

VOL 54 ISS 213 NO 6 1989 UMI

ROD is signed, the Plan of Operation can be authorized and that authorization will be subject to appeal under part 4, title 43 CFR.

Robert J. Sherve,
Acting, District Manager.

Roseburg District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The District Advisory Council for the Bureau of Land Management, Roseburg District will meet December 5, 1989, beginning at 8:30 a.m. in the Roseburg District Office Auditorium. The meeting will be a continuation of the October 19 meeting and tour. The Council will consider the issues and the information presented at the previous meeting and offer recommendations and advice to the District Manager. The issues relate to public land management adjacent to rural residential areas.

ADDRESS: Bureau of Land Management, Roseburg District Office, 777 NW Garden Valley Blvd., Roseburg, OR 97470.

FOR FURTHER INFORMATION CONTACT: Mel Ingersol, Public Affairs Specialist Roseburg District (503) 672-4491.

SUPPLEMENTARY INFORMATION: The meeting is open to the public, and a public comment period will be provided at 9 a.m. Written statements for the Council can be mailed to the District Manager prior to the meeting or presented to the Council during the meeting. The Council will make recommendations on all or some of the following issues: Access, road maintenance, rights-of-way, potential impacts to the timber base, fire protection, slash burning, and trespass.

Dated: October 30, 1989.

James A. Moorhouse,
District Manager.

Conveyance of Mineral Interests in California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of segregative effect—conveyance of the reserved mineral interests.

SUMMARY: The private lands described in this notice, aggregating 200.00 acres are segregated and made unavailable for filings under the public land laws including the mining laws, to determine their suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of October 21, 1976. The mineral interests will be conveyed in whole or in part upon favorable mineral examination.

The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those interests where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.

FOR FURTHER INFORMATION CONTACT: Lavonia C. Silva, California State Office, Federal Office Building, 2800 Cottage Way, Room 2845, Sacramento, California 95825, (916) 978-4820.

Serial Number—CACA 25717

Section 27.
Acres—199.07
County—Los Angeles

Upon publication of this Notice of Segregation in the **Federal Register** as provided in 43 CFR 2720.1-1(b), the mineral interests owned by the United States in the private lands covered by the application shall be segregated to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. The segregative effect of the application shall terminate by publication of an opening order in the **Federal Register** specifying the date and time of opening; upon issuance of a patent or other document of conveyance to such mineral interests; or two years from the date of publication of this notice, which ever occurs first.

Dated: October 24, 1989.

Two lots are encumbered by the Florence Mining Claim. Sale of these lots will not be made until the lots are no longer encumbered by this mining claim.

DATES: The sale offering will begin on Tuesday, January 16, 1990, at 10:00 a.m. and continue until Tuesday, January 30, 1990, at 4:00 p.m., at which time and date this sale offering will be suspended.

The previously described lands are hereby segregated from appropriation under the public land laws and the mining laws except for direct sale pursuant to section 203 of the Federal Land Policy and Management Act of 1976, for a period of 270 days from the date of publication of this notice in the **Federal Register** or until patent is issued, whichever occurs first.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, Bureau of Land Management at the address shown below.

ADDRESS: The sale offering will be held at the Bureau of Land Management, Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.

FOR FURTHER INFORMATION CONTACT: Detailed information concerning the conditions of the sale can be obtained by contacting Blackie Bruegman at (208) 334-1582.

SUPPLEMENTARY INFORMATION: When patented, the lands will be subject to the following reservations:

1. Reservation to the United States of ditches and canals constructed by the authority of the United States as provided by the Act of August 30, 1890 (43 U.S.C. 945).

2. Reserving to the United States all minerals in the lands together with the right to prospect for, mine and remove the minerals under applicable law and such regulations as the Secretary may prescribe.

3. Excepting and reserving to the public a right-of-way for existing roads across the lots for public access.

4. Patents will be subject to Silver City Zoning Ordinance Number 88-03 dated October 11, 1988.

The lots are being sold individually to the above identified current habitable building owners, by direct, non-competitive sales in order to give the Silver City community a more permanent character and the building owners a tenure interest in the land on which these buildings are located.

Selling these parcels to the building owners will provide incentive to maintain the buildings in the historical nature in which they were built, thus maintaining a valuable part of our early history in this historic mining district.

Offers must be submitted for at least fair market value. A thirty percent (30%) deposit must accompany each offer. The deposit must be paid by certified check, money order, bank draft or cashier's check. Offers will be rejected if accompanied by a personal check.

Federal law requires that purchasers must be U.S. citizens 18 years of age or older, or, in the case of a corporation, subject to the laws of any State of the U.S. Proof of citizenship shall accompany the offer. The remainder of the full price offer shall be paid within 180 days of the date of the sale. Failure to pay the full price within the 180 days shall disqualify the purchaser and cause the deposit to be forfeited to the Bureau of Land Management.

Objections to this Notice of Realty Action will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

Dated: October 20, 1989.

Gene L. Schloemer,
Acting District Manager.

PRT-742358

Applicant: Denver Zoological Gardens, Denver, CO.

The applicant requests a permit to import two captive-bred Amur leopards (*panthera pardus orientalis*). The male will be imported from Helsinki Zoo, Finland. The female will be imported from the Rotterdam Zoo, Holland. The importation of these animals is for zoological exhibition and propagation.

PRT-683006

Applicant: Florida Power and Light Company, West Palm Beach, FL.

The applicant requests amendment of their current permit which allows take (relocate, radio-tag, perform environmental contaminant analysis on tissues taken from dead specimens or failed eggs and assess growth and survivorship of hatchlings) of American crocodiles (*Crocodylus actus*). The amendment would allow an increase in the total number of crocodiles to be

captured from 125 to 250, from their property, for scientific research and enhancement of propagation and survival.

PRT–742914

Applicant: San Diego Zoological Society, San Diego, CA.

The applicant requests a permit to import a pair of captive-born L'Hoest's monkeys (*Cercopithecus lhoesti*) from parc Zoologique et Botanique de la Ville de Mulhouse, Mulhouse, France and Naturierpark Strohen, Strohen, W. Germany for the purpose of enhancement of propagation.

PRT–689914

Applicant: Regional Director—Region 2, U.S. Fish and Wildlife Service.

The applicant requests a permit to amend an existing permit to include take of endangered and threatened sea turtles in the waters of southern California and possibly on land. Their current permit authorizes take (capture for radiotelemetry, blood sampling, banding, and determining abundance and distribution) within Region 2 and import of eggs, salvaged hatchlings, and salvaged parts from worldwide sources for scientific research or enhancement of propagation or survival.

Documents and other information submitted with these applications are available to the public during normal business hours (7:45 am to 4:15 pm), Room 432, 4401 N. Fairfax Dr., Arlington VA 22203, or by writing to the Director, U.S. Office of Management Authority, P.O. Box 3507, Arlington, Virginia 22203–3507.

Interested persons may comment on any of these applications within 30 days of the date of this publication by submitting written views, arguments, or data to the Director at the above address. Please refer to the appropriate PRT number when submitting comments.

Dated: October 31, 1989.

Karen Willson,

Acting Chief, Branch of permits, U.S. Office of Management Authority.

Office of Surface Mining Reclamation and Enforcement

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the proposed collection of information and related form may be obtained by contacting the Bureau's clearance officer at the phone number listed below. Comments and suggestions on the proposal should be made directly to the bureau clearance officer and to the Office of Management and Budget, Paperwork Reduction Project (1029–0030), Washington, DC 20503, telephone 202–395–7340.

Title: State Process for Designating Areas Unsuitable for Surface Coal Mining Operations, 30 CFR part 764.

OMB approval number: 1029–0030.

Abstract: This part establishes the minimum requirements for designating areas as unsuitable for all or certain types of surface coal mining operations. The information requested will be used by the regulatory authority to make its decision to approve or disapprove a petition to designate an area as unsuitable for surface coal mining or to terminate such a designation. The information will also be used to maintain a data base and inventory system.

Bureau form number: None.

Frequency: On occasion.

Description of respondents: Persons petitioning to have land designated as unsuitable for surface coal mining operations or to have such a designation terminated, and State regulatory authorities who compile and maintain a data base and inventory system.

Estimated completion time: 168 hours.

Annual responses: 5.

Annual burden hours: 841.

Bureau clearance officer: Andrew F. DeVito 202–343–5954.

Dated: October 2, 1989.

Annetta L. Cheek,

Chief Regulatory, Development and Issues Management.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Public Information Collection Requirements Submitted to OMB for Review

The Agency for International Development (A.I.D.) submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Comments regarding these information collections should be addressed to the OMB reviewer listed at the end of the entry no later than ten days after publication.

Comments may also be addressed to, and copies of the submissions obtained from the Reports Management Officer, John H. Elgin, (703) 875–1608, IRM/PE, Room 1100B, SA–14, Washington, DC 20523.

Date Submitted: October 27, 1989.

Submitting Agency: Agency for International Development.

OMB Number: 0412–0510.

Type of Submission: Renewal.

Title: Information Collection Requirements Contained in A.I.D.'s Handbook 13 (Grants and Cooperative Agreements).

Purpose: Section 635(b) of the Foreign Assistance Act (FAA) authorizes A.I.D. to make grants and cooperative agreements with any corporation or body of persons, whether within or without the United States, and international organizations in furtherance of the purposes and within the limitations of the FAA. A.I.D. is required to ensure the recipients are responsible and that they prudently manage public funds. These information collection and recordkeeping requirement are necessary for A.I.D. to review and monitor recipient's responsibility and compliances with U.S. Government requirements concerning use of funds.

Respondents will have a submission burden of one response per year.

Reviewer: Donald Arbuckle (202) 395–7340, Office of Management and Budget, Room 3201, New Executive Office Building, Washington, DC 20503.

Dated: October 26, 1989.

Wayne H. Van Vechten,

Planning and Evaluation Division.

Advisory Committee on Voluntary Foreign Aid; Meeting

Pursuant to the Federal Advisory Committee Act, notice is hereby given of a meeting of the Advisory Committee on Voluntary Foreign Aid (ACVFA) on Wednesday and Thursday, December 6–7, 1989. The topic to be discussed is "The Relationship Between United States Private Voluntary Organizations and Indigenous Non-Governmental Organizations."

Date: December 6–7, 1989

Time: Wednesday, December 6th, 9:00 a.m.–5:30 p.m., Thursday, December 7th, 9:00 a.m.–11:30 p.m.

Place: The National Press Club, 14th and F Streets, N.W., Washington, D.C. 20045

The meeting is free and open to the public. However, Notification by November 27, 1989 Through the Advisory Committee Headquarters is Required.

Persons wishing to attend the meeting must call Melissa Nuwaysir, (703) 875–4407, or write, not later than November 27th to: The Advisory Committee on Voluntary Foreign Aid, Room 310, SA–6, Agency for International Development, Washington, DC 20523.

Dated: October 26, 1989.

Sally H. Montgomery,

Deputy Assistant Administrator, Private and Voluntary Cooperation, Food for Peace and Voluntary Assistance.

BILLING CODE 6116–01–M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31558]

CSX Transportation, Inc.; Trackage Rights Exemption

Live Oak, Perry and South Georgia Railway Company has agreed to grant overhead trackage rights to CSX Transportation, Inc., between milepost 26.5±, at Quitman, GA, and milepost 40.0+1.53±, at Foley, FL, a distance of approximately 56 miles. The trackage rights were to have become effective on October 23, 1989.

This notice is filed under 49 CFR 1180.2(d)(7). Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Charles M. Rosenberger, CSX Transportation, Inc., 500 Water Street, Jacksonville, FL 32202.

As a condition to the use of this exemption, any employees affected by the trackage rights will be protected pursuant to *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354, I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Dated: October 31, 1989

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

[FR Doc. 89–25941 Filed 11–3–89; 8:45 am]

BILLING CODE 7035–01–M

[Docket No. AB–266 (Sub-No. 4X)]

New York, Susquehanna and Western Railway Corp.; Discontinuance to Trackage Rights Exemption in Hudson County, NJ

Applicant has filed a notice of exemption under 49 CFR 1152 subpart F—Exempt Abandonments and Discontinuances of Service and Trackage Rights to discontinue its trackage rights over a 5-mile line of Consolidated Rail Corporation (Conrail) between milepost 8.2, at North Bergen Township, and milepost 3.2, at Jersey City, Hudson County, NJ. Conrail will continue to operate over the line.

Applicant has certified that: (1) No local traffic has moved over the line under the trackage rights agreement for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the discontinuance shall be protected under Oregon Short Line R. Co.—Abandonment—Goshen, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on December 6, 1989 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues[1] and formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2) [2] must be filed by November 16, 1989. Petitions for reconsideration must be filed by November 27, 1989, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Michael F. Armani, The New York, Susquehanna and Western Railway Corporation, 1 Railroad Avenue, Cooperstown, NY 13326.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, from this discontinuance.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by November 8, 1989. Interested persons may obtain a copy of the EA from SEE by writing to it (Room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief, SEE at (202) 275–7684. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental conditions will be imposed, where appropriate, in a subsequent decision.

Decided: November 1, 1989.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

[FR Doc. 89–26160 Filed 11–3–89; 8:45 am]

BILLING CODE 7035–01–M

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. *See* Exemption of Out-of-Service Rail Lines, 5 I.C.C.2d 377 (1989). Any entity seeking a stay involving environmental concerns is encouraged to files its request as soon as possible in order to permit this commission to review and act on the request before the effective date of this exemption.

[2] *See* Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987).

DEPARTMENT OF JUSTICE

Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with departmental policy, 28 CFR 50.7 notice is hereby given that on October 5, 1989, a proposed consent decree in *United States of America* v. *Township of North Bergen, New Jersey*, consolidated with *United States* v. *City of Hoboken*, Civil Action No. 79–2030, was lodged with the United States District Court for the District of New Jersey. The proposed consent decree settles the United States' claims against North Bergen under the Clean Water Act, relating to discharges from North Bergen's Woodcliff sewage treatment plant in violation of effluent limitations and other applicable permit requirements.

The proposed consent decree requires North Bergen to expand and upgrade its Woodcliff facility to provide secondary treatment to all flows to that facility, by December 1, 1990. The decree also requires (1) payment of $58,000 in settlement of the United States' civil penalty claims, (2) compliance with interim effluent limitations until secondary treatment is achieved, and (3)

VOL 54 ISS 213 NO 6 1989 UMI

various interim operating improvements at North Bergen's existing treatment facilities.

The Department of Justice will receive comments relating to the proposed consent decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *City of North Bergen*, D.J. Ref. 90–5–1–1–2494.

The proposed consent decree may be examined at the offices of the United States Attorney, Federal Building, 970 Broad Street, Newark, New Jersey 07102, and at the Region II office of the Environmental Protection Agency, 26 Federal Plaza, New York, NY 10278. A copy of the consent decree may also be examined at the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1517, Ninth Street and Pennsylvania Avenue, NW., Washington, DC 20530. Copies of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. In requesting a copy, please enclose a check in the amount of $2.90 (10 cents per page reproduction cost) payable to the Treasurer of the United States.

Richard B. Stewart,

Assistant Attorney General, Land & Natural Resources Division.

BILLING CODE 4410–01–M

Antitrust Division

Notice Pursuant to the National Cooperative Research Act of 1984; Advanced Television Test Center, Inc.

Notice is hereby given that, pursuant to section 6(a) of the National Cooperative Research Act 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), the Advanced Television Test Center, Inc. ("the Test Center") on September 29, 1989 filed a written notification simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the members of this joint venture and (2) the nature and objectives of this joint venture. The notification was filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to this joint venture, and its general areas of planned activity are given below:

The current parties to this joint venture are the following:

Advanced Television Test Center, Inc.
Association of Independent Television Stations, Inc.
Association of Maximum Service Telecasters, Inc.
Capital Cities/ABC, Inc.
CBS Inc.
Electronic Industries Association
National Association of Broadcasters, Inc.
National Broadcasting Company, Inc.
Public Broadcasting Service, Inc.

The area of planned activity of this joint venture is to design and conduct, either directly or through agreements with third parties, objective, subjective, and other tests relating to advanced television systems to provide the data that the Federal Communications Commission and its Advisory Committee on Advanced Television Service, as well as the Advanced Television Systems Committee, will require and utilize to determine appropriate actions with regard to the introduction of advanced television service in the United States. The parties to this joint venture may also undertake additional ATV tests not required by the Advisory Committee on Advanced Television Service.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

BILLING CODE 4410–01–M

DEPARTMENT OF LABOR

Employment and Training Administration

Federal-State Unemployment Compensation Program: Certifications Under the Federal Unemployment Tax Act for 1989

On October 31, 1989, the Secretary of Labor signed the annual certifications under the Federal Unemployment Tax Act, 26 U.S.C. 3301 et seq., thereby enabling employers who make contributions to State unemployment funds to obtain certain credits for their liability for the Federal unemployment tax. By letter of the same date the certifications were transmitted to the Secretary of the Treasury. The letter and the certifications are printed below.

Dated: October 31, 1989.

Roberts T. Jones,

Assistant Secretary of Labor

October 31, 1989.

Secretary of Labor

The Honorable Nicholas F. Brady,
Secretary of the Treasury, Washington, DC 20220

Dear Nick: Transmitted herewith are an original and one copy of the certifications of the States and their unemployment compensation laws for the 12-month period ending October 31, 1989. One is required with respect to normal Federal unemployment tax credit by section 3304 of the Internal Revenue Code of 1986, and the other is required with respect to additional tax credit by section 3303 of the Code.

The certification pursuant to section 3304 lists all 53 jurisdictions, except New Jersey. New Jersey is ommitted from both certifications because of unresolved issues concerning the requirements of section 3304(a) of the Internal Revenue Code of 1986. If these issues are resolved satisfactorily, I will, of course, forward to you the certifications with respect to New Jersey. The certification pursuant to section 3303 also omits Puerto Rico because the unemployment compensation law of this jurisdiction contains no experience rating provisions and permits no reduced rates of contributions.

With my warmest regards,

Sincerely,
Elizabeth Dole.

Certification of States to the Secretary of the Treasury Pursuant to Section 3304 of the Internal Revenue Code of 1986

In accordance with the provisions of section 3304(c) of the Internal Revenue Code of 1986 (26 U.S.C. 3304(c)), I hereby certify the following named States to the Secretary of the Treasury for the 12–month period ending on October 31, 1989, in regard to the unemployment compensation laws of those States which heretofore have been approved under the Federal Unemployment Tax Act:

State	
Alabama	Maryland
Alaska	Massachusetts
Arizona	Michigan
Arkansas	Minnesota
California	Mississippi
Colorado	Missouri
Connecticut	Montana
Delaware	Nebraska
District of Columbia	Nevada
Florida	New Hampshire
Georgia	New Mexico
Hawaii	New York
Idaho	North Carolina
Illinois	North Dakota
Indiana	Ohio
Iowa	Oklahoma
Kansas	Oregon
Kentucky	Pennsylvania
Louisiana	Puerto Rico
Maine	Rhode Island
South Carolina	Virginia
South Dakota	Virgin Islands
Tennessee	Washington
Texas	West Virginia
Utah	Wisconsin
Vermont	Wyoming

This certification is for the maximum normal credit allowable under section 3302(a) of the Code.

Signed at Washington, DC, on October 31, 1989.

Elizabeth Dole,

Secretary of Labor.

Certification of State Unemployment Compensation Laws to the Secretary of the Treasury Pursuant to Section 3303(b)(1) of the Internal Revenue Code of 1986

In accordance with the provisions of paragraph (1) of section 3303(b) of the Internal Revenue Code of 1986 (26 U.S.C. 3303(b)(1)), I hereby certify the unemployment compensation laws of the following named States, which heretofore have been certified pursuant to paragraph (3) of section 3303(b) of the Code, to the Secretary of the Treasury for the 12-month period ending on October 31, 1989:

State	
Alabama	Montana
Alaska	Nebraska
Arizona	Nevada
Arkansas	New Hampshire
California	New Mexico
Colorado	New York
Connecticut	North Carolina
Delaware	North Dakota
District of Columbia	Ohio
Florida	Oklahoma
Georgia	Oregon
Hawaii	Pennsylvania
Idaho	Rhode Island
Illinois	South Carolina
Indiana	South Dakota
Iowa	Tennessee
Kansas	Texas
Kentucky	Utah
Louisiana	Vermont
Maine	Virginia
Maryland	Virgin Islands
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Mississippi	Wyoming
Missouri	

This certification is for the maximum additional credit allowable under section 3302(b) of the Code.

Signed at Washington, DC, on October 31, 1989.

Elizabeth Dole,

Secretary of Labor.

[FR Doc. 89–26116 Filed 11–3–89; 8:45 am]

BILLING CODE 4510–30–M

NUCLEAR REGULATORY COMMISSION

Southern California Edison Co., et al.; San Onofre Nuclear Generating Station, Units 2 and 3; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses No. NPF–10 and No. NPF–15 issued to Southern California Edison Company, San Diego Gas and Electric Company, the City of Riverside, California and the City of Anaheim, California (the licensees), for operation of San Onofre Nuclear Generating Station, Units 2 and 3, located in San Diego County, California.

Environmental Assessment

Identification of Proposed Action

The proposed amendments would revise Technical Specification 3/4.1.3.4, "CEA Drop Time" and its associated Bases, to use both an arithmetic average control element assembly (CEA) drop time and a maximum individual CEA drop time. The maximum individual CEA drop time restriction would be used to limit the CEA drop time distribution from the arithmetic average.

The Need for the Proposed Action

The proposed amendments are required to allow effective use of the new CEA Drop Time Test software methodology in use at San Onofre Nuclear Generating Station, Unit Nos. 2 and 3. In order to preclude a delayed entry into Mode 2 (Startup) following testing using the new methodology, the proposed amendments would allow an increase in the margin between the Technical Specification limit and the measured values derived from the new methodology.

Environmental Impacts of the Proposed Action

The proposed action would not involve a significant change in the probability or consequences of any accident previously evaluated, nor does it involve a new or different kind of accident. Consequently, any radiological releases resulting from an accident would not be significantly greater than previously determined. The proposed amendments do not otherwise affect routine radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed amendments. The Commission also concludes that the proposed action will not result in a significant increase in individual or cumulative occupational radiation exposure.

With regard to nonradiological impacts, the proposed amendments do not affect nonradiological plant effluents and have no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed amendments.

The Notice of Consideration of Issuance of Amendments and Opportunity for Hearing in connection with this action was published in the **Federal Register** on September 7, 1989 (54 FR 37172). No request for hearing or petition for leave to intervene was filed following this notice.

Alternatives to the Proposed Action

Since the Commission concluded that there are no significant environmental effects that would result from the proposed action, any alternatives with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested amendment. This would not reduce environmental impacts of plant operation and would result in reduced operational flexibility.

Alternative Use of Resources

This action does not involve the use of resources not previously considered in connection with the Final Environmental Statement related to operation of San Onofre Nuclear Generating Station, Units 2 and 3, dated April 1981 and its Errata dated June 1981.

Agencies and Persons Consulted

The NRC staff has reviewed the licensees' request that supports the proposed amendments. The NRC staff did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed amendments.

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for amendments dated July 31, 1989 which is available for public inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC 20555, and at the General Library,

VOL 54 ISS 213 NOV 6 1989 UMI

University of California, P.O. Box 19557, Irvine, California 92713.

Dated at Rockville, Maryland, this 31st day of October, 1989.

For the Nuclear Regulatory Commission.

Charles M. Trammell,

Acting Director, Project Directorate V, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

[FR Doc. 89-26047 Filed 11-3-89; 8:45 am]

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 34-27405; File No. SR-DTC-89-12]

Self-Regulatory Organizations; Depository Trust Company; Order Approving a Proposed Rule Change Concerning Clarification and Technical Revision of Depository Trust Company's Rules

October 30, 1989.

On July 3, 1989, the Depository Trust Company ("DTC") filed a proposed rule change (SR-DTC-89-12) with the Commission pursuant to section 19(b)(1) [1] of the Securities Exchange Act of 1934 ("Act"). On July 31, 1989, the Commission published notice in the **Federal Register** to solicit comments from interested parties.[2] On September 6, 1989, DTC consented to extend the time period for consideration of its proposal to September 29, 1989.[3] No comments were received. As discussed below, the Commission is approving this proposal.

I. Introduction

The proposed rule change would make certain technical revisions to DTC's rules. These revisions would clarify the meaning of DTC's rules and would make some technical drafting changes to DTC's rules to reflect the current technological state of the securities industry. Because these revisions do not change the substance of DTC's rules, they will not be discussed in this release.

The proposed rule change also makes two substantive changes to DTC's rules. First, DTC is eliminating its requirement that securities eligible for DTC's services must have a transfer agent that is located in the United States. In addition, DTC is changing its rule governing the circumstances under which DTC may reverse a delivery made by a participant to the National Securities Clearing Corporation ("NSCC") through DTC's facilities.

II. Description

DTC proposes to change its rules concerning the securities eligible for the services offered by DTC. Under DTC's current rules, an issue of securities may be eligible for the services provided by DTC if (i) such issues lawfully may be transferred by book-entry; and (ii) the transfer agent for such securities is located in the United States. DTC proposes to revise this rule by eliminating the second requirement. This would expand the number of issues of securities eligible for DTC's services.

DTC also proposes to change its rules with respect to the circumstances under which it may reverse a delivery made from a participant's account to NSCC. The proposal allows DTC to combine all of a participant's account positions in DTC's next-day funds settlement ("NDFS") system in a single security issue when DTC determines the extent to which it may reverse a participant's CNS deliveries (defined below) before they become final,[4] thus shifting all the losses resulting from the participant's activity in NSCC's continuous net settlement ("CNS") system from DTC to NSCC. Under DTC's current rules,[5] a participant, or NSCC acting as a special representative of such participant ("Participant"), may instruct DTC to deliver securities from the Participant's account to NSCC's account at DTC ("CNS instruction"). DTC, however, will not deem such a delivery to be final until DTC determine either (i) that the Participant's net credit balance exceeds his net debit balance for the day; or (ii) the Participant pays his net debit balance for the day. If DTC ceases to act [6] for the Participant before such delivery becomes final, and, as a consequence, (i) securities which another participant ("Delivering Participant") was obligated to deliver to the Participant's account at DTC ("subject account") were either retained by the Delivering Participant or sold out by DTC (because the Participant defaulted); (ii) the Participant's subject account is reduced by virtue of DTC's delivery of securities to NSCC ("CNS delivery"); (iii) the Participant has a short position in his subject account as a result of such actions; and (iv) the securities which the Participant instructed DTC to deliver to NSCC's account are of the same issue as that in which the Participant has a short position ("subject securities"), then the CNS instruction will not be effective and DTC will reverse the deliveries it made from the Participant's subject account to NSCC's account to the extent necessary to offset the Participant's net debit obligation for that day. If such a reversal causes NSCC to have a short position in its DTC account (because it has already delivered out the securities delivered to it by DTC), NSCC would be required to deliver securities to DTC in an amount sufficient to cover its short position. NSCC must deposit on demand an amount equal to 100% of the market value of its short securities position until such delivery is made.

As an example, assume a Participant has both a proprietary account and an agency account at DTC, has 150 shares of XYZ in his proprietary account, is expecting to receive 150 shares of XYZ into his agency account in a transaction versus payment, and that the value of XYZ is $1.00 per share. The Participant instructs DTC to transfer 150 shares of XYZ to NSCC from his proprietary account and to transfer 150 shares of XYZ to NSCC from his agency account. Assume the Participant defaults on his obligation to pay the Delivering Participant for the 150 shares of XYZ and that the Delivering Participant retains such shares as a result. Further assume that the Participant has a net debit obligation to DTC of $300 on the day these transactions occur. Under DTC's current rules, DTC would be able to reverse its delivery of 150 shares of XYZ delivered out of the Participant's agency account to cover the Participant's net debit obligation.[7] However, DTC does not have the authority to reverse the delivery of XYZ shares made out of the Participant's proprietary account. As a result, DTC would suffer a loss of $150.

[1] 15 U.S.C. § 78s(b)(1) (1982).

[2] 54 FR 31601 (July 31, 1989).

[3] *See* letter from Richard B. Nesson, General Counsel, DTC, to Ester Saverson, Jr., Branch Chief, Division of Market Regulation, dated September 6, 1989.

[4] Under DTC's rules, a delivery is final when the participant receiving the delivery is determined to have a NDFS credit balance or the participant pays its NSFS debit balance. *See* DTC Rule 9(B).

[5] *Id.*

[6] DTC may cease to act for a participant if, among other things, the participant has failed to pay any amounts owing with respect to securities delivered to it. *See* DTC Rule 10, section 1(iv).

[7] After such a reversal, NSCC, as a settlement guarantor with respect to CNS transactions, must buy-in the subject securities to deliver to the receiving participant. Such a buy-in may cause NSCC to suffer a loss which may first be recovered by reversing any credit balance the Participant has at NSCC. Because the Participant probably has no credit balance (otherwise he would not have defaulted), NSCC must then assess the Participant's contribution to NSCC's clearing fund to cover any loss caused by the buy-in. *See* NSCC Rule 4, section 3. If the Participant's clearing fund contribution is insufficient to satisfy the loss, NSCC would then have to satisfy such loss out of its retained earnings or a pro-rata assessment of the clearing fund contributions of all of the members. *See* NSCC Rule 4, section 4.

The effect of this rule is to allocate a loss arising out of a Participant's CNS activity between DTC and NSCC. DTC's current rule attempts to allocate such loss to NSCC by allowing DTC to reverse the deliveries it made from the Participant's subject account to NSCC to the extent of the Participant's net debit obligation to DTC. However, as illustrated by the above example, because DTC's authority to reverse CNS deliveries of subject securities is limited to reversing only those CNS deliveries made from the Participant's subject accounts, these reversals may not be sufficient to cover the losses incurred by DTC.

DTC proposes to revise its method of determining which deliveries are eligible for reversal under the above scenario. Under DTC's proposal, DTC would have the authority to reverse CNS deliveries of subject securities made from all of the Participant's accounts, subject to existing limitations designed to protect fully-paid securities held in the account. Consequently, under the above example, DTC could also reverse the delivery of 150 shares of XYZ made from the Participant's proprietary account, thus satisfying the Participant's net debit obligation to DTC for that day.

III. Rationale

DTC believes that its proposal is consistent with section 17A of the Act because it facilitiates the immobilization and book-entry transfer of securities. DTC believes that its proposal is consistent with section 17A(b)(3)(A) [8] of the Act in general because it facilitates the immobilization and book-entry transfer of foreign securities. In addition, DTC believes that its proposal is consistent with section 17A(b)(3)(B) of the Act, which provides that, subject to certain exceptions, the rules of a registered clearing agency must allow any other clearing agency.[9] DTC believes that its proposal facilitates such participation because it allows DTC to maintain the appropriate balance between encouraging other registered clearing agencies (and their participants) to participate in DTC while adequately protecting DTC from losses arising out of such participation.

IV. Discussion

One of the purposes of section 17A of the Act is to encourage the immobilization of securities in depositories and the transfer of such immobilized securities by book-entry.[10] Since section 17A was enacted, the securities markets have become increasingly internationalized.[11] For example, with respect to trading of equity securities, some foreign equity exchanges have formed trading links with domestic equity exchanges.[12] In addition, linkages also have been developed between various domestic and foreign clearance and settlement systems.[13]

The Commission believes that DTC's proposal to include as eligible for DTC's safekeeping services securities issued by non-U.S. entities and serviced by non-U.S. transfer agents is consistent with the Act and the development of facilities for improved clearance and settlement of transactions in securities. Improvements in mail and courier delivery services during the last decade appear to reduce the likelihood that foreign security certificates will be lost or delayed in transit to a non-U.S. transfer agent, and the availability of book-entry delivery facilities in the United States would appear to be essential to efficient clearance and settlement of trades among U.S. broker-dealers and U.S. investors in those securities.[14]

The Commission believes DTC's proposal concerning its authority to reverse certain deliveries is consistent with section 17A(b)(3) (A) and (B) of the Act [15] because it appropriately allocates the risk of loss from CNS activities to NSCC and increases DTC's protection in the event of member default. Under NSCC's rules, members using NSCC's CNS system must establish an account at a qualified depository such as DTC before being allowed to use the CNS system.[16] To make a delivery against payment in the CNS system, a NSCC participant directs NSCC to instruct DTC to deliver securities from the participant's securities account at DTC to NSCC's securities account at DTC; and NSCC instructs DTC to deliver securities from NSCC's securities account to the receiving participant's securities account at DTC.[17] All money obligations relating to such deliveries settle at NSCC in next day funds.[18]

As explained above, under its current rules, DTC may reverse a CNS delivery of subject securities only if the delivery was made from the same account of the Participant with respect to which the Participant previously received the subject securities in a delivery versus payment transaction. Any CNS delivery of subject securities made from another one of the Participant's account is not subject to reversal. Thus, if the value of the securities subject to reversal is insufficient to satisfy the Participant's net debit obligation to DTC, DTC may not reverse CNS deliveries of the subject securities made from a different account of the Participant to cover the shortfall. DTC proposes to change this result by allowing it to aggregate all of the Participant's CNS deliveries of subject securities regardless of the account from which such deliveries were made. By doing so, any shortfall in the Participant's net debit obligation to DTC which is not offset by reversing a CNS delivery of the subject securities from one of the Participant's accounts may be satisfied by reversing CNS deliveries of the subject securities made from another one of the Participant's accounts. As a consequence, DTC would have increased protection in the event Participants are unable to satisfy their obligations which arise out of CNS activity.

The Commission also believes that DTC's proposal is consistent with section 17A(b)(3)(F) of the Act [19]

[8] *See* 15 U.S.C. 78q-1(b)(3)(A) (1982).

[9] *See* 15 U.S.C. 78q-1(b)(3)(B) (1982).

[10] *See* Senate Report 94-75, which sets forth the legislative history of the Securities Acts Amendments of 1975 (April 14, 1975).

[11] For a thorough description of this development, *see* Internationalization of the Securities Markets, Report of the Staff of the United States Securities and Exchange Commission ("Internationalization Report") (July 27, 1987).

[12] *See* chapter 5 of the Internationalization Report at 45-60.

[13] *See* chapter 5 of the Internationalization Report at 61-70. *See also* letters from Jonathan Kallman, Assistant Director, Division of Market Regulation, to Karen L. Saperstein, Associate General Counsel, International Securities Corporation, dated March 23, 1988 and September 20, 1988.

[14] The Commission understands that the proposal eliminates an existing obstacle in DTC's rules to DTC's ability to make non-U.S. securities issues eligible for DTC services. At such time as DTC determines to make eligible securities serviced by transfer agents located outside of North America, however, the Commission expects DTC to file notice for review under section 19(b)(1) of the Act.

[15] Section 17A(b)(3)(A) requires that the rules of a registered clearing agency must be designed, among other things, to facilitate the prompt an accurate clearance and settlement of securities transactions for which it is responsible. *See* 15 U.S.C. 78q-1(b)(3)(A) (1982). Section 17a(b)(2)(B) provides that the rules of a registered clearing agency must provide that any . . . other registered clearing agency . . . may become a participant in such clearing agency. *See* 15 U.S.C. 78q-1(b)(3)(B) (1982).

[16] *See* NSCC Rule 29.

[17] *See* NSCC Rule 11, section 3.

[18] *See generally* NSCC Rule 12.

[19] Section 17A(b)(3)(F) provides that the rules of a registered clearing agency must be designed . . . to remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions. *See* 15 U.S.C. 78q(b)(3)(F) (1982).

VOL 54 ISS 213 NO 6 1989 UMI

because it facilitates the development of the national system for the prompt and accurate clearance and settlement of securities transactions. Immobilizing securities in depositories and transferring such securities by book-entry is one of the essential elements of a national clearance and settlement system. NSCC's CNS system plays a major role in encouraging the immobilization and book-entry transfer of securities by providing a facility whereby members may make a number of money and securities transfers by book-entry and still arrive at one net money settlement obligation and one net securities settlement obligation at the end of the day that are guaranteed by NSCC. In addition, by allowing a member to carry his securities settlement positions forward from day to day, NSCC's CNS system encourages a member to stay within the book-entry environment by reducing the need for him to go outside of such environment to meet his securities delivery obligations. However, because NSCC itself is not a depository, the CNS system can function only if NSCC participants immobilize their securities in a NSCC-approved depository such as DTC. Consequently, because of its role as an ajunct to the CNS system, DTC may end up effecting securities transfers on behalf of members of a facility for which DTC is not primarily responsible. As demonstrated by the above example, this may expose DTC to substantial financial risk. Therefore, it seems reasonable to allow DTC and NSCC to allocate losses arising out of CNS activity to NSCC. Failing to allow DTC to allocate losses in this manner would discourage DTC (or any other depository) from allowing NSCC participants to establish accounts at DTC in connection with CNS activity. This, in turn, would impede the development of the national clearance and settlement system by inhibiting the immobilization and book-entry transfer of securities.

The Commission acknowledges that DTC's proposal may expose NSCC to greater uncertainty and increased financial exposure by subjecting it to more reversals. However, DTC's proposal does not increase the amount of risk involved in the national clearance and settlement system as a whole, because either DTC or NSCC would have to bear the loss resulting from the Participant's default. Instead, it merely transfers the risk of loss resulting from CNS activity from DTC to NSCC. Because NSCC sponsors the CNS system, monitors its members' activity in such system and structures its financial safeguards accordingly,[20] NSCC appears to be better suited to bear any such loss and to protect against such loss.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change (File No. SR–DTC–89–12) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010–01–M

[Rel. No. 34–27404; File No. SR–MBS–89–5]

Self-Regulatory Organizations; Filing and Immediate Effectiveness of Proposed Rule Change by MBS Clearing Corp. Relating to Fees for Failure to Resolve Uncompared or Inconsistent Settlement Balance Order ("SBO") Information, Appearing on the Advisory Report

October 30, 1989.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 3, 1989, the MBS Clearing Corporation ("MBSCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is MBSCC's proposed revision to its fee schedule.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to impose fees for delinquent notifications of SBO settlements. Under MBSCC's rules and procedures, participants are required to promptly notify MBSCC of the settlement of SBO transactions. If MBSCC receives inconsistent information regarding settled SBO transaction(s), MBSCC prepares and distributes Advisory Reports. Participants are then required, within specified time frames, to resolve (by either deleting or matching) uncompared or inconsistent information appearing on Advisory Reports. (During the past several months, both MBSCC and individual Participants have increased and enhanced the automation of the input and output of SBO settlement notification).

In order to ensure compliance with MBSCC rules and procedures regarding the prompt notification of SBO settlement, as well as the matching and the resolution of uncompared or inconsistent open SBO settlement items, MBSCC has established a fee for delinquent Participant activity. The fees are effective October 3, 1989. Specific fees, ranging from $25 to $50 per day are imposed on participants failing to take required actions within required time frames, including the failure to delete or match uncompared or inconsistent open SBO settlement information.

The revised fee schedule is consistent with section 17A of the Act in that it provides for the equitable allocation of reasonable dues, fees and other charges among MBSCC Participants.

(B) Self-Regulatory Organization's Statement on Burden on Competition

MBSCC does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Participants were formally advised of the proposed fees on July 18, 1989. No written comments have been received.

[20] For example, NSCC has the authority to require members who participate in the CNS system that maintain positions in "high risk" or "volatile" securities (as defined by NSCC) to make additional mark to market payments. *See* NSCC Rule 11, section 9.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act and subparagraph (e) of Rule 19b–4 thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest for the protection of investors, or otherwise is furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written statements should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the principal office of the above-referenced self-regulatory organization.

All submissions should refer to file number SR–MBS–89–5 and should be submitted by November 27, 1989.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

EXHIBIT A

Action	Notification of settlement period (Clearance date +1)	Challenge period (Nos entry date +1–3)	Warning period (Nos entry date +3–5, close of business)	Penalty period (Nos entry date +6, at close of business until matched/deleted)

BILLING CODE 8010–01–M

[Rel. No. 34–27409; File No. SR–NASD–89–5]

Self-Regulatory Organizations; Filing of Amendment to Proposed Rule Change by National Association of Securities Dealers, Inc., Relating to the Prompt Receipt and Delivery of Securities

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 3, 1989, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission ("Commission") Amendment No. 3 [1] to the above-numbered proposed rule change, as described in Items I, II, and III below. Notice of the original proposed rule change, and Amendment No. 1 thereto, was given by the issuance of a Commission release (Securities Exchange Act Rel. No. 26746, April 20, 1989) and by publication in the **Federal Register**, (54 FR 18185, April 27, 1989).

In response to several negative comment letters,[2] the NASD has revised the text of the proposed rule change in the present amendment, and the Commission is publishing this notice to solicit comments on the revised proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change amends the NASD Board of Governor's Interpretation on Prompt Receipt and Delivery of Securities (the "Interpretation"). The amendment would require members to make an affirmative determination, before effecting a short sale for their own accounts, that the security will be borrowed or delivered prior to the settlement date, except in certain specified circumstances.

The following is the complete text of the revised proposed rule change. Language added by Amendment No. 3 is italicized.

(b) No member shall effect a "short" sale for its own account in any security unless the member makes an affirmative determination that it can borrow the securities or otherwise provide for delivery of the securities by the settlement date. This requirement will not apply to transactions in corporate debt securities, to bona fide market making transactions by a member in securities in which it is registered as a NASDAQ market maker, *to bona fide market maker transactions in the non-NASDAQ securities in which the market maker publishes a two-sided quotation to an independent quotation medium,* or to transactions which result in fully hedged or arbitraged positions.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the

[1] Amendment No. 2, filed August 21, 1989, added new language to the text of the proposed rule change. Amendment No. 3 revised the language added by Amendment No. 2 and added an explanation of the reasons for the new language.

[2] A copy of the complete file on the proposed rule change, including the comment letters, is available in the Commission's Public Reference Room.

VOL 54 ISS 213 NO 6 1989 UMI

places specified in Item IV below. The NASD has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Over the last several years, the NASD Board of Governors has adopted rules providing for additional regulation of short sale practices in the over-the-counter market. In addition, it has amended its Interpretation on Prompt Receipt and Delivery of Securities to establish requirements for accepting customer short sale orders.

The Interpretation currently prohibits members from accepting a short sale order from a customer unless the member makes an affirmative determination that it will receive delivery of the security from the customer or that it can borrow the security on behalf of the customer for delivery by settlement date. The term "customer," as defined in Article II, section 1(f) of the NASD Rules of Fair Practice, excludes brokers and dealers.

The proposed rule change would impose a similar requirement upon members effecting short sales for their own accounts. Under the proposed rule change, a member would be prohibited from effecting a short sale for its own account in any security unless the member makes an affirmative determination that it can borrow the security or otherwise provide for delivery of the security by the settlement date. The proposed amendment is intended to address unnecessary speculation in connection with the short selling of broker-dealers' proprietary positions caused by the member's ability to go short without securities to cover the short position. The proposed amendment would not apply to transactions in corporate debt securities. It would also not apply to bona fide market making transactions by a member in securities in which it is registered as a NASDAQ market maker, to bona fide market maker transactions in non-NASDAQ securities in which the market maker publishes two-sided quotations to an independent quotation medium, or to transactions which result in fully hedged or arbitraged positions. These latter exemptions have been included to recognize that many short selling transactions are engaged in for risk reduction and market liquidity and to ensure their availability for bona fide purposes only.

Amendment No. 3 to the original rule filing adds to the list of transactions exempted from the requirement to make an affirmative determination that delivery can be made, market making transactions in non-NASDAQ securities for which the member is publishing two-sided quotations to an independent quotation medium. The amendment is in response to comments received on the original filing that argued that the market making exemption was too narrowly drawn, applying as it did to NASDAQ securities only. The Board determined that transactions in non-NASDAQ over-the-counter securities should be afforded the exemption, provided the member was engaged in bona fide market making, as evidenced by its publication of a two-sided quotations to a quotation medium, such as the "pink sheets."

The NASD believes the proposed rule change is consistent with section 15A(b)(6) of the Act. In pertinent part, section 15A(b)(6) mandates that the rules of a national securities association be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and to protect investors and the public interest, among other things. By requiring members to make an affirmative determination that they can borrow a security or otherwise provide for delivery of the security prior to settlement date before effecting a short sale for their own account, the proposed rule change will enhance the integrity of the market, correct the anomaly that now exists between the obligations of customers and members, and prevent abuses that harm public investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change imposes any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The previous publication of the proposed rule change by the Commission elicited several comments regarding the failure to include within the exemptions bona fide market making transactions in non-NASDAQ over-the-counter stocks. The amended rule change is in response to such comments.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the NASD consents, the Commission will:

A. by order approve such proposed rule change, or

B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by November 27, 1989.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Dated: October 31, 1989.

Jonathan G. Katz,

Secretary.

[FR Doc. 89-26020 Filed 11-3-89; 8:45 am]

BILLING CODE 8010-01-M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Chicago Board Options Exchange, Inc. (File No. 7-5434)

October 25, 1989.

The Chicago Board Options Exchange, Inc. ("CBOE") has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1) (B) and (C) of the Securities Exchange Act of 1934 ("Act") and Rule 12f-1 thereunder for unlisted trading privileges ("UTP") in American Greetings Corporation and John H. Harland Company for the purpose of trading the common stock of these securities as part of a market basket on the Standard & Poor's 500 and 100 Indexes ("Index").[1] As indicated in their application, American Greetings Corporation is an over-the-counter ("OTC") security that is quoted on the National Association of Securities Dealers Automated Quotation System ("NASDAQ") and that is not registered on any national securities exchange.[2] Last sale information in the stock is reported through NASDAQ facilities. John H. Harland Company is listed and registered on the New York Stock Exchange, Inc. and is reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 16, 1989 written data, views and arguments concerning the above-referenced application.[3] Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Commentators are asked to address whether they believe the requested grants of UTP would be consistent with section 12(f)(2) of the Act. Under this Section the Commission can only approve the UTP application if it finds, after this notice and opportunity for hearing, that the extensions of unlisted trading privileges pursuant to such application is consistent with the maintenance of fair and orderly markets and the protection of investors.

Further, in considering the CBOE's application for extension of UTP in a stock not registered on another national securities exchange, section 12(f)(2) of the Act requires the Commission to consider, among other matters, the public trading activity in such securities, the character of such trading, the impact of such extension of the existing markets for such securities, and the desirability of removing impediments to and the progress that has been made toward the development of a national market system. The Commission may not grant such application if any rule of the national securities exchange making an application under section 12(f)(1) of the Act would unreasonably restrict competition among dealers in such securities or between such dealers acting in the capacity of market makers who are specialists and such dealers who are not specialists.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 89-26013 Filed 11-3-89; 8:45 am]

BILLING CODE 8010-01-M

[1] See proposed rule filing SR-CBOE-89-20. The CBOE previously applied for UTP in the 500 stocks comprising the Standard and Poor's 500 Index to accommodate CBOE's proposal to trade market baskets. See Securities Exchange Act Release No. 27237, 54 FR 28676. After that application, however, Standard & Poor's announced the two securities as replacement stocks for the Index.

[2] In its previous application the CBOE also registered UTP for 31 OTC stocks.

[3] Notice already has been sent to the issuer and the relevant markets.

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Cincinnati Stock Exchange, Inc.

October 30, 1989.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder for unlisted trading privileges in the following securities:

ACME Electric Corp.
Common Stock, $1.00 Par Value (File No. 7-5435)
Benetton Group
American Depository Shares (File No. 7-5436)
IDEX Corp.
Common Stock, $.01 Par Value (File No. 7-5437)
Integrated Resources
$4.25 Cm. Cv. Pfd., $1.00 Par Value (File No. 7-5438)
Network Equipment Technologies
Common Stock, $.01 Par Value (File No. 7-5439)
Total System Services, Inc.
Common Stock, $.10 Par Value (File No. 7-5440)
Weirton Steel Corp.
Common Stock, $.01 Par Value (File No. 7-5441)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 21, 1989, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Midwest Stock Exchange, Inc.

October 31, 1989.

The Midwest Stock Exchange, Inc. ("MSE") has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(C) of the Securities Exchange Act of 1934 ("Act") and Rule 12f–1 thereunder for unlisted trading privileges ("UTP") in the 16 securities listed below solely for the purpose of trading these securities as part of a portfolio transaction traded through the MSE's Portfolio Trading System during its Secondary Trading Session. The 16 securities listed below are all over-the-counter securities that are quoted on the National Association of Securities Dealers Automated Quotation System ("NASDAQ").[1] Last sale information for these securities are reported through NASDAQ facilities.

Interested persons are invited to submit on or before November 16, 1989, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Commentators are asked to address whether they believe the requested grants of UTP would be consistent with section 12(f) of the Act. Under this Section the Commission can only approve the UTP application if it finds, after this notice and opportunity for hearing, that the extensions of unlisted trading privileges pursuant to such application is consistent with the maintenance of fair and orderly markets and the protection of investors.

Further, in considering the MSE's application for extension of UTP in the 16 NASDAQ stocks, Section 12(f)(2) of the Act requires the Commision to consider, among other matters, the public trading activity in such securities, the character of such trading, the impact of such extension on the existing markets for such securities, and the desirability of removing impediments to and the progress that has been made toward the development of a national market system. The Commisison may not grant such application if any rule of the national securities exchange making an application under section 12(f)(1)(C) of the Act would unreasonably restrict competition among dealers in such securities or between such dealers acting in the capacity of market makers who are specialists and such dealers who are not specialists.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,
Secretary.

[Release No. 34-27410; File No. SR-OCC-89-06]

Self Regulatory Organization; The Options Clearing Corporation; Order Approving a Proposed Rule Change Increasing the Minimum Required Contribution to OCC's Clearing Fund and Allowing OCC to Charge Certain Losses and Deficiencies Against Retained Earnings

October 31, 1989.

On June 28, 1989, the Options Clearing Corporation ("OCC") filed a proposed rule change (File No. SR–OCC–89–06) pursuant to Section 19(b) of the Securities Exchange Act of 1934 ("Act").[1] The proposed rule would increase the minimum required contribution to OCC's Stock Clearing Fund ("Stock Fund") and Non-Equity Securities Clearing Fund ("Non-Equity Fund") (collectively "Clearing Fund"). The proposed rule also gives OCC's Board of Directors ("Board") more flexibility in dealing with OCC's financial affairs. Notice of the proposed rule change appeared in the Federal Register on July 27, 1989.[2] No comments were received. This release approves OCC's proposed rule change.

I. Description of the Proposal

OCC's proposed rule change amends OCC's Rules by increasing a member's minimum required contribution to OCC's Clearing Fund. The proposal amends Rule 1001(a) [3] by increasing a member's minimum required contribution to the Stock Fund from $10,000 to $75,000. It also amends Rule 1001(b) [4] by increasing a member's minimum required contribution to the Non-Equity Fund from $50,000 to $75,000.

The proposal also amends OCC's By-laws by giving OCC's Board of Directors ("Board") more discretion in dealing with OCC's financial affairs. The proposal grants the Board the authority to increase a member's minimum required contribution to the Clearing Fund during the first three months of membership.[5] The proposal further allows OCC to charge any loss caused by a clearing member's default or a deficiency in a member's required clearing fund contribution against OCC's retained earnings.[6]

II. OCC's Rationale

OCC believes that the proposed rule change is consistent with Section 17A of the Act [7] because it will provide additional financial integrity to OCC's guaranty of the clearance and settlement of exchange-traded options. OCC believes that its proposal will increase investor confidence by ensuring that OCC maintain an independent source of liquidity with sufficient funds to cover losses arising out of member default.

III. Discussion

A. Increase in Minimum Required Contribution to Clearing Fund

Section 17A of the Act provides that the rules of a clearing agency must, among other things, be designed to assure the safeguarding of funds and securities which are in the custody or control of the clearing agency or for which it is responsible. A clearing agency's rules must also be designed to protect investors and the public interest.[8] As explained in the Division of Market Regulation's standards for review of clearing agency registration applications ("Standards"),[9] one way to protect participants from risk is for clearing agencies to establish, by rule, an appropriate level of clearing fund contributions based, among other things, on an assessment of the risks to which they are subject.[10] OCC has reassessed the risks to which it is subject in light of the events of October, 1987[11] and, based on that assessment, believes that increasing the minimum required contribution to the Clearing Fund is appropriate at this time.[12]

The Commission believes that OCC's decision to increase minimum required contribution to its Clearing Fund is appropriate and consistent with the Act.[13] OCC's minimum required contribution to its Stock Fund and Non-Equity Fund have remained constant since 1972 (the year of OCC's inception) and 1984 respectively. Since these dates, activity in OCC-issued stock and non-equity options has increased dramatically. For example, volume for combined equity and non-equity options increased (on an average daily basis) 30% between 1985 and 1988.[14] In addition, average non-equity option premiums have increased over 50% between 1984 and 1988.[15]

The Commission also believes that raising OCC's minimum required contribution to the Stock Fund will better protect OCC from any realistic exposure inherent in options trading.[16] For example, OCC's minimum required contribution to the Stock Fund ($10,000) has not been increased since OCC's formation in 1972. Thus, because of the effects of inflation, this amount no longer provides OCC with the same degree of coverage that it initially provided.

The Commission recognizes that increasing the minimum required contribution to OCC's Clearing Fund may serve as a barrier to entry to prospective clearing members, particularly for members and prospective members who desire to participate only in the stock option markets. The Commission believes, however, that the benefits of enhancing OCC's protection against member default outweighs any additional cost to prospective members and existing members with limited capital resources by increasing the amount of capital necessary to participate in OCC. Any prospective member or existing member, who is precluded from becoming or remaining a member because it can not meet OCC's minimum required Clearing Fund contribution, may participate indirectly in OCC by entering into correspondent relationships with other OCC clearing members.

Although the Commission traditionally has not attempted to determine whether a specific dollar amount of Clearing Fund contributions are appropriate,[17] the Commission must review the proposed fund contributions to determine whether the minimum contribution level set by OCC is reasonable in relation to the risks posed

[11] On October 19, 1987, OCC, among others, was monitoring the financial condition of one of its clearing members, Shaine, because of its difficulty in meeting settlement obligations and its high risk exposure in uncovered S&P 100 put options. Because of the dramatic decrease in the price of such options on October 19, Shaine was unable to meet its margin calls on that day. Consequently, on October 20, Shaine was placed in liquidation. OCC converted Shaine's margin and clearing fund deposits to cash, netted out Shaine's open positions, and closed out Shaine's netted positions by the end of the day. OCC sustained an $8.5 million loss on the liquidation and allocated such loss pro-rata among OCC's clearing members. This was the first time that OCC's members had been assessed pro-rata for losses caused by a clearing member's default.

Because almost all of Shaine's positions were in non-equity options, 99.25 percent of the loss was charged to the Non-Equity Fund and 0.75 percent was charged to the Stock Fund. *See The October 1987 Market Break,* Report by the Division of Market Regulation, United States Securities and Exchange Commission, at 10–45, (February, 1988) ("Market Break Report").
[12] On August 31, 1988, a subcommittee of OCC's margin committee issued a report to OCC's Board of Directors analyzing various aspects of OCC's risk management policies and procedures. ("Backup System Report"). The subcommittee recommended that in view of the events of October, 1987, the minimum required contribution to the Stock Fund and Non-Equity Fund be increased to $75,000. *See* Backup System Report at 58.
[13] The President's Working Group on Financial Markets recommended that clearing organizations review the adequacy of their required clearing fund contributions. *See* Interim Report of the President's Working Group on Financial Markets (May 1988) Appendix D ("Working Group Report").
[14] OCC's combined equity and non-equity contract volume has increased from 774,450 (on an average daily basis) at the end of 1984 to an average of 1,012,000 (on an average daily basis) for the period 1985 through 1988. *See* Securities Exchange Act Release No. 27046 (July 20, 1989) 54 FR 31276.
[15] OCC's average non-equity options premium has increased from $247.08 per contract in 1984 to an average of $371.12 per contract for the period between 1985 through 1988. *See* Securities Exchange Act Release No. 27046 (July 20, 1989) 54 FR 31276.
[16] OCC studied the impact of its proposed increase in minimum required clearing fund contributions by picking an arbitrary date (June 30, 1989) and examining whether its clearing fund, as increased under OCC's proposal, would be sufficient to cover OCC's five largest net pays and collects on that date. OCC has informed the Commission that its clearing fund levels on June 30, 1989 would have been three times greater than the total of the five largest net pays to OCC, and fifteen times greater than the total of the five largest collects from OCC.
[17] *See* Securities Exchange Act Release No. 19988 (July 21, 1983), 48 FR 34554.

to OCC by the activity of its members and is consistent with OCC's obligation to safeguard funds and securities in its custody and control under section 17A of the Act.[18]

The Commission believes that OCC's proposed minimum required clearing fund contributions enhance OCC's ability to safeguard funds and securities and are adequate in light of the risks posed to OCC by its members' trading activity.[19] As an initial matter, OCC's proposal would result in approximately a 3 percent increase in the overall dollar amount of OCC's Clearing Fund.[20] Moreover, the composition of OCC's Clearing Fund is such that OCC is assured of having a liquid pool of assets to draw upon in the event of a member default. Under OCC's Bylaws, contributions to its Clearing Fund must be in the form of cash or U.S. Treasury securities.[21] OCC protects the assets in its Clearing Fund against market risk by marking to market daily the Treasury securities contributed to the Clearing Fund. OCC also protects the assets in the Clearing Fund against liquidation risk by valuing short term Treasury securities (i.e., those with less than one year to maturity) at the lesser of their par value or their current market value. Similarly, all other Treasury securities are valued at the lesser of their par value or 95 percent of their current market value.

OCC's proposal also allows OCC's Clearing Fund to better fulfill one of its basic objectives. For many years, OCC has attempted to set its Clearing Fund requirements at a level sufficient to replace the individual margin deposits of all but the very largest clearing members. OCC has studied whether the proposed increase to its minimum required Clearing Fund contribution would meet this standard by examining the extent to which the Clearing Fund, as increased under OCC's proposal, would cover the margin requirements of its members on a particular day. OCC has informed the Commission that its Stock Fund and Non-Equity Fund on April 15, 1988, would have been sufficient to cover the margin requirements of all but three or four, respectively, of its members' margin requirements on that date.[22] In addition, OCC also has examined whether its Clearing Fund, as increased under the proposal, would be sufficient to cover its five largest net pays and collects under normal market conditions. OCC has informed the Commission that its Clearing Fund levels on April 15, 1988, would have been nine times greater than the total of the five largest net pays to OCC, and eleven times greater than the five largest net collects from OCC on that date.[23]

Firm A	$109.76 million
Firm B	$108.52 million
Firm C	$89.43 million
Firm D	$75.07 million
Firm E	$61.07 million
Firm A	$126.62 million
Firm B	$94.26 million
Firm C	$73.03 million
Firm D	$63.09 million
Firm E	$50.14 million

It is important to note that OCC's Clearing Fund is just one aspect of the systems OCC has in place to protect against the risks posed by member trading activity. Since the October, 1987 market break, OCC has taken a number of steps to increase its level of protection against member default.[24] For example, OCC has increased its members' initial and maintenance net capital requirements from $150,000 and $100,000 to $1,000,000 and $750,000, respectively. OCC has also increased the capital requirements for clearing members that clear for other firms as facilities managers.[25] Moreover, OCC also has a concentration monitoring system in place which monitors its members' positions on a real time basis to determine whether any member has established an unusually large position in a single class of options.[26] OCC has also taken steps to reduce the number of intermarket payment flows by entering into a cross-margining agreement with the Chicago Mercantile Exchange.[27] In addition, OCC has decreased from 45 to 15 minutes the amount of time needed to calculate variation (i.e. intraday) margin calls and has established procedures allowing it to debit its members' accounts directly to fund these calls.

OCC has also taken steps to improve the quality of information it receives about its members' financial situation. For example, OCC is a member of the Securities Clearing Group, a group of seven clearing agencies that have agreed to consult with one another whenever a common member has been placed on surveillance and to facilitate the monitoring of common member financial condition.[28] OCC also has agreed to participate in the Chicago Board of Trade Clearing Corporation's ("CBTCC") centralized pay and collect system.[29] The Commission believes that, viewed as a whole, all of the above actions will reduce the systemic risk inherent in the clearance and settlement process by better enabling OCC to fulfill

[18] Under section 17A(b)(3)(A), a registered clearing agency must be so organized and have the capacity to safeguard funds and securities that are subject to its custody or control, or for which it is responsible. *See* 15 U.S.C. 78q–1(b)(3)(A) (1982).

[19] After approval of the instant proposal, OCC's clearing fund will incorporate most of the recommendations suggested by the Working Group Report, the Back-up System Report and the Market Break Report.

[20] This figure is derived by calculating the total dollar amount of assets in OCC's Clearing Fund on April 15, 1988, under OCC's present Clearing Fund formula and under OCC's proposed Clearing Fund. Under OCC's proposal, those amounts would be increased to $50.6 million and $36.39 million respectively.

[21] *See* Article 8, section 3 of OCC's By-laws. OCC's policy of accepting only cash or Treasury securities as acceptable forms of clearing fund deposits is consistent with the Working Group's recommendation that clearing organizations reduce their clearing funds' reliance on letters of credit and increase the liquidity of such funds by accepting only highly liquid assets (such as U.S. Treasury securities) as acceptable forms of deposit.

[22] For example, OCC's five largest equity option margin requirements on April 15, 1988, were as follows:

Under OCC's proposal, OCC would have had $83.39 million in its Stock Fund on the above date.

Under OCC's proposal, OCC would have had $59.63 million in its Non-Equity Fund on the above date. Telephone conversation between Michael Cahill, Assistant Vice-President, OCC, and Ross Pazzol, Attorney, Division of Market Regulation, October 3, 1989.

[23] On April 15, 1988, the five largest net pays to OCC totaled $14.99 million, while the five largest net collects from OCC totaled $12.49 million. Under OCC's proposed increase, OCC would have had $143.02 million in its Clearing Fund on April 15, 1988. Telephone conversation between Michael Cahill, Assistant Vice-President, OCC, and Ross Pazzol, Attorney, Division of Market Regulation, October 3, 1989.

[24] Many of the actions taken by OCC were suggested by either the Market Break Report, the Working Group Report or the Backup System Report.

[25] *See* Securities Exchange Act Release No. 28640 (May 19, 1989), 54 FR 23004.

[26] OCC determines the theoretical liquidating value of a member's position with a projection of the margin interval (*i.e.*, the assumed maximum one-day price movement in the asset or index underlying the option) on each option product at three times its regular interval. The projected theoretical portfolio liquidating value is then compared to the margin requirement for the position at its regular interval. The difference between the projected value and the current margin is compared to the excess net capital of the member. This analysis is done by option class and product group for each member account. OCC's surveillance staff reviews any account in which the difference between the projected value and the current margin held exceeds 40 percent of the member's excess net capital. OCC reviews any account where such difference is 100 percent in greater detail. If OCC determines that a member's position poses concentration risk, OCC first requires that member to provide cover for short call positions. OCC also may require members to reduce their exposure to large market moves by purchasing or selling options contracts to hedge their position. OCC also may require members to maintain higher than normal margin deposits for concentrated positions. *See* Backup System Report at 47–49.

[27] *See* Securities Exchange Act Release No. 27298 (September 26, 1989) [File No. SR–OCC–89–1]. This development also implements one of the recommendations made in the Working Group Report.

its role as the guarantor of its members' settlement obligations.[30]

It should be noted that OCC's proposal, would, for the first time, establish parity between the minimum required contribution to the Stock Fund and the Non-Equity Fund. Under section 17A(b)(3)(D) of the Act,[31] the rules of a clearing agency must provide for the equitable allocation of reasonable dues, fees and other charges among its participants. The Commission believes OCC's proposal is consistent with this standard for the reasons provided below.

Historically, OCC's minimum required clearing fund contribution for non-equity options always has been higher than its minimum required clearing fund contribution for stock options. This disparity was the result of a number of factors. For example, the premium [32] for non-equity options generally was higher than the premium for stock options.[33] Further, the value of the unit of trading for non-equity options generally was greater than such value for equity options.[34]

In addition, OCC, along with all other market participants, sought to provide adequate protection against unforseen risks of loss when non-equity options were first introduced. Thus, OCC believed that its exposure in connection with members non-equity options activity was greater than its exposure resulting from members' stock options activity.[35]

After gaining some experience with respect to non-equity options, OCC, in 1984, reassessed the risks associated with such options and decreased its minimum required Non-Equity Fund contribution from $100,000 to $50,000.[36] OCC believed that decrease was appropriate because the majority of non-equity option trading involved options on broad-based stock indices whose premiums were at approximately the same level as equity option premiums.[37] In addition, because of the high volume of non-equity options trading in general, and of stock index option trading in particular, OCC estimated that the volume weighted average dollar amount of a non-equity options contract was much lower than expected.[38] Even after this decrease became effective, however, OCC still required a minimum contribution to its non-equity clearing fund which was five times greater than the minimum required contribution to OCC's Stock Fund.

The Commission believes that OCC's proposal to establish parity between the minimum required contributions to its Stock Fund and Non-Equity Fund is consistent with section 17A(b)(3)(D) of the Act. OCC has a number of mechanisms in place which help it offset any possible additional risks associated with the issuance, clearance and settlement of non-equity options. For example, OCC monitors its members' positions on a real time basis to determine whether any member has established an unusually large position in a single class of options.[39] OCC also uses a sophisticated portfolio analysis to determine the appropriate level of a member's daily non-equity options margin requirement.[40] Finally, OCC has gained substantial experience with a wide variety of non-equity options during different market conditions and is familiar with the risks associated with such options. Accordingly, the Commission believes that OCC's identical minimum contribution requirements are appropriate under section 17A(b)(3)(D).

B. Board of Directors Discretion to Increase a New Member's Minimum Required Clearing Fund Deposit

OCC is also amending its rules to grant the Board the authority to increase a member's minimum required clearing fund deposit during its first three months as a member. Currently, OCC requires new members to deposit the minimum required amount to the appropriate clearing fund upon admission to membership at OCC. This amount remains constant during the member's first three months of membership.[41] After such time period, a member's minimum required clearing fund contribution may be increased to reflect the risks posed to OCC by such member's trading activity. OCC proposes to grant the Board the authority to increase a member's minimum required clearing fund contribution during the first three months of its membership.

The Commission believes that the proposal serves to protect investors and the public interest and is thus consistent with section 17A. As stated previously,[42] The Standards require a clearing agency to make an assessment of the risks to which it is subject and set its clearing fund requirements accordingly. The Commission views this obligation to be fluid rather than static and believes that a clearing agency's rules should give it the flexibility to make adjustments to its minimum required clearing fund contributions as circumstances may necessitate.

Under OCC's current rules, a new member's required clearing fund contribution is fixed for three months, but a member's level of options activity is not limited accordingly during such period. The anomalous result is that OCC is required to allow a new member to maintain a minimum required clearing fund deposit which may bear no reasonable relationship to the risk such member's options activity poses to OCC during the initial phase of its membership.[43] Such a result is inconsistent with the policy established by the Standards and with OCC's previous actions.[44] Therefore, the

[28] *See* Securities Exchange Act Release No. 27044 (July 18, 1989), 54 FR 30963.

[29] The CBTCC has in place a system for the routine electronic exchange of pay and collect data provided by various futures clearing organizations and OCC. OCC's participation in this system follows the Working Group's recommendation that securities and futures clearing organizations work toward developing a centralized facility for the collection of pay and collect data.

[30] The Commission notes that OCC has still not completed action on some of the recommendations made in the Backup Report, including, guaranteeing trades as they are compared, instead of making OCC's guarantee conditional upon payment of the premium.

[31] *See* 15 U.S.C. 78q–1(b)(3)(D) (1982).

[32] The "premium" of an option is its contract price.

[33] *See* Securities Exchange Act Release No. 19139 (October 14, 1982), 47 FR 46940.

[34] *Id.*

[35] *See* Securities Exchange Act Release No. 21437 (October 31, 1984), 49 FR 44347.

[36] *Id.*

[37] *See* note 20, *supra*.

[38] Both OCC's equity and non-equity option margin calculations are based, in part, on options premiums. In both systems, margin is marked to market daily based on closing ask prices. The second component of equity options margin is based on a flat 30% of the current value of the underlying securities. The second component of non-equity options margin is more flexible and is adjusted according to the current risk posed to OCC by the member's position. *See* Market Break Report at 10–50.

OCC's non-equity options margin system uses options price theory to project the cost of liquidating a member's position in the event of an assumed "worst-case" change in the price of the underlying asset or index. The margin requirement on the same class of options equals the premium plus the additional margin for that class group. OCC calculates the additional margin by determining the assumed maximum one-day price movement in the underlying assets and by projecting the liquidating value of such position. To provide additional protection, OCC presumes that the cost of liquidating a member's out of the money positions would increase by a minimum of 25% of the margin interval. *See* Market Break Report at 10–36. For a more detailed description of OCC's non-equity options margin system, *see* Backup System Report at 24–28. OCC recently filed a proposed rule change with the Commission which would apply OCC's non-equity options margin methodology to equity options. *See* File No. SR–OCC–89–12.

[39] *See* Article 8, section 2 of OCC's By-laws.

[40] See discussion at note 10, *supra*.

[41] Other protective measures reduce the potential risk to OCC. For example, a new member's margin deposit requirement is not subject to any fixed limit and will vary depending on the risk associated with the member's options positions. *See* note 20, *supra*.

Commission believes that OCC's proposal to give the Board the flexibility to adjust a new member's minimum required clearing fund contribution is designed to safeguard securities and

in the profits, losses, and tax credits and a 20% to 99% interest in the distributable cash flow of each Operating Partnership, with the balance remaining with the operating general partners ("Operating

active or passive income, but not portfolio income, to use the low-income tax credits and losses for approximately ten to twelve years after investing in BACs. In addition, the Partnership

Commission believes that OCC's proposal to give the Board the flexibility to adjust a new member's minimum required clearing fund contribution is designed to safeguard securities and funds in OCC's custody or control or for which it is responsible under section 17A(b)(3)(A).

C. Charging Losses to Retained Earnings

OCC also is amending its rules to permit it to charge losses resulting from clearing member, bank or clearing organization defaults to OCC's retained earnings, instead of charging such losses either pro-rata to the clearing fund contributions of non-defaulting clearing members or to OCC's current earnings. Similar to OCC's proposal to give the Board discretion to increase a member's minimum required clearing fund deposit, the discretion to charge losses to retained earnings gives OCC additional flexibility in dealing with losses by providing it with an additional source of funds to draw upon in the event of a default. Accordingly, the Commission believes that this proposal is consistent with section 17A of the Act.

IV. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act, That the proposed filing (SR–OCC–89–06) be, and is hereby, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010–01–M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Philadelphia Stock Exchange, Inc.

October 30, 1989

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder for unlisted trading privileges in the following securities:

Allstate Municipal Income Trust III
Shares of Beneficial Interest, $.01 Par Value (File No. 7–5457)

Crown Cork and Seal Company, Inc.
Common Stock, $5 Par Value (File No. 7–5458)

Federal Home Loan Mortgage Corp.
Voting Common Stock, $2.50 Par Value (File No. 7–5459)

Woolworth Corporation
Common Stock, $1 Par Value (File No. 7–5460)

Texaco, Inc.
Series C Variable Rate Cm. Pfd. Stock (File No. 7–5461)

First Union real Estate Equity and Mortgage Investments
Shares of Beneficial Interest, $1 Par Value (File No. 7–5462)

Gundle Environmental Systems, Inc.
Common Stock, $0.01 Par Value (File No. 7–5463)

Lomas Mortgage Securities Fund, Inc.
Common Stock, $0.01 Par Value (File No. 7–5464)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 21, 1989, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[Rel. No. IC–17197; 812–7360]

Boston Capital Tax Credit Fund II Limited Partnership and Boston Captital Associates II Limited Partnership; Notice of Application

October 31, 1989.

Agency: Securities and Exchange Commission ("SEC").

Action: Notice of Application for Exemption under the Investment Company Act of 1940 ("1940 Act").

Applicants: Boston Capital Tax Credit II Limited Partnership, a Delaware limited partnership (the "Partnership"), and its general partner, Boston Capital Associates II Limited Partnership ("General Partner").

Relevant 1940 Act Sections: Exemption under section 6(c) from all provisions of the 1940 Act.

Summary of Application: Applicants seek an order exempting the Partnership from all provisions of the 1940 Act and the rules thereunder to permit the partnership to invest in other limited partnership that in turn will engage in the development, rehabilitation, ownership, and operation of housing for low and moderate income persons.

Filing Date: The application was filed on July 26, 1989 and amended on August 23, 1989, September 25, 1989, and October 19, 1989. An amendment, the substance of which has been set forth in letters to the Commission dated October 25 and 27, 1989, will be filed during the notice period.

Hearing or Notification of Hearing: If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m., on November 24, 1989. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicants with the request, either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

Addresses: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. Applicants, 313 Congress Street, Boston, Massachusetts 02110–1232.

For Further Information Contact: Barbara Chretien-Dar, Staff Attorney, at (202) 272–3022, or Stephanie M. Monaco, Branch Chief, at (202) 272–3030 (Division of Investment Management, Office of Investment Company Regulation).

Supplementary Information: Following is a summary of the application; the complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier who can be contacted at (800) 231–3282 (in Maryland (301) 258–4300).

Applicants' Representtions

1. The Partnership was organized on June 28, 1989, under the Delaware Revised Uniform Limited Partnership Act. Pursuant to registration under the Securities Act of 1933, the Partnership plans to offer 20,000,000 units of beneficial interest of $10.00 each with a minimum investment of $5,000. Purchasers of these units ("Investors" or "BAC Holders") will become holders of beneficial assignee certificates ("BACs") evidencing an assignment of the limited partnership interest in the Partnership of BCTC II Assignor Corp., a Delaware corporation (the "Assignor Limited Partner").

2. The Assignor Limited Partner was formed for the sole purpose of acting as assignor of all of its limited partnership interest in the Partnership and will not engage in any other business. After the admission of Investors, the Assignor Limited Partner will not retain any ownership interest in the Partnership. The Assignor Limited Partner must vote the assigned limited partnership interests as directed by the BAC Holders. Each BAC Holder will be entitled to all the economic benefits of a limited partner of the Partnership. In addition, the Partnership's counsel will render an opinion stating that the BAC Holders, more likely than not, will be able to realize the tax benefits disclosed in the Prospectus, and unqualified opinions that BAC Holders will be treated as limited partners of the Partnership for federal income tax purposes and that all of the rights granted to BAC Holders by the Partnership Agreement are valid and enforceable under Delaware law. The BACs are used solely for administrative convenience and to facilitate transferability.

3. The Partnership will operate as a "two-tier" entity, *i.e.*, the Partnership, as a limited partner, will invest in other limited partnerships ("Operating Partnerships") which will acquire, develop, construct and/or rehabilitate, operate and maintain multifamily residential apartment complexes ("Apartment Complexes") each of which will qualify for the low-income housing tax credit under Section 42 of the Internal Revenue Code of 1986 (the "Code"). The investment in the Operating Partnerships is in accordance with the purposes and criteria set forth in Investment Company Act Release No. 8456 (August 9, 1974) ("Release No. 8456"). The Partnership intends to realize: (i) A potential capital appreciation through increases in value and, to the extent applicable, amortization of the mortgage indebedness of the Apartment Complexes; (ii) to the extent available, limited cash flow from operations; (iii) cash distributions from liquidation, sale or refinancing of the Apartment Complexes; and (iv) certain tax benefits including low-income housing tax credits.

4. The Partnership will generally attempt to acquire a 51% to 99% interest in the profits, losses, and tax credits and a 20% to 99% interest in the distributable cash flow of each Operating Partnership, with the balance remaining with the operating general partners ("Operating General Partners"). However, regardless of the percentage interest in an Operating Partnership, the Partnership will have certain rights under the terms of the Operating Partnership Agreements which will include, subject only to a determination that the existence or exercise of any such rights will jeopardize the limited liability of the Partnership as a limited partner: (a) The right to approve or disapprove any sale or refinancing of an Apartment Complex; (b) the right to replace an Operating General Partner on the basis of performance; (c) the right to approve or disapprove the dissolution of an Operating Partnership; (d) the right to approve or disapprove amendments to an Operating Partnership Agreement materially and adversely affecting the Partnership's investment; and (e) the right to direct the Operating General Partner to convene meetings and submit matters to a vote. In addition, the Partnership will require all Operating Partnerships to provide to the limited partners thereof substantially all of the rights required by Section VII of the Statement of Policy on Real Estate Programs adopted by the North American Securities Administrators Association, Inc. (the "NASAA guidelines").

5. When placing an order for BACs, each Investor must represent in writing that he/she or it meets the following applicable suitability standards: (a) Each Investor must have (i) a net worth (exclusive of home, home furnishings, and automobiles) in excess of $75,000, or (ii) annual gross income of $35,000 and a net worth (exclusive of home, home furnishings, and automobiles) of not less than $35,000, and (iii) for those noncorporate Investors who do not have or anticipate having any net passive income, a maximum adjusted gross income of $250,000; and (b) for corporate Investors (i) a corporation that is neither closely held nor a personal service corporation and is not subject to Subchapter S of the Code (a "C Corporation") may use the low-income tax credits to offset income from all sources, but should reasonably expect to have sufficient federal taxable income from all sources to use the low income tax credits and losses for ten to twelve years after investing in BACs, and (ii) a closely-held C Corporation that is not a personal service corporation should reasonably expect to have sufficient active or passive income, but not portfolio income, to use the low-income tax credits and losses for approximately ten to twelve years after investing in BACs. In addition, the Partnership Agreement requires evidence of a transferee's suitability in order to record a transfer on its books. Units will be sold in certain states only to persons who meet different standards which will be set forth in the Prospectus. In no event shall the Partnership employ suitability standards which are less restrictive than those set forth above except to the extent that the standard in item (a)(iii) above is modified as a result of changes in federal income tax law or with respect to investments in Apartment Complexes expected to qualify for state housing tax credits, in addition to the federal low income housing tax credits, where the $250,000 adjusted gross income maximum is inapplicable.

6. The Partnership will be controlled by its General Partner. The Investors, consistent with their limited liability status, will not be entitled to participate in the control of the business of the Partnership. However, a majority in interest of the Investors will have the right to amend the Partnership Agreement, dissolve the Partnership, remove any General Partner and consent to a successor General Partner. In addition, under the Partnership Agreement, each Investor is entitled to review all books and records of the Partnership at any and all reasonable times.

7. The Partnership Agreement provides that certain significant actions cannot be taken by the General Partner without the express consent of a majority in interest of the Limited Partners. Such actions include: (a) The sale of the Partnership's interests in the Operating Partnerships or the sale at any one time of all or substantially all of the assets of the Partnership; (b) dissolution of the Partnership; (c) consent to the sale of a substantial portion of the Apartment Complexes by the Operating Partnerships; and (d) the admission of a successor or additional General Partner.

8. Boston Capital Services, Inc., an affiliate of the General Partner (the "Selling Agent"), will receive selling commissions, dealer-manager fees, and reimbursement of due diligence expenses in connection with BACs. The Selling Agent may reallow a portion of its dealer-manager fees and due diligence expense reimbursement to other soliciting dealers. Any selling

commissions and fees charged by the Selling Agent or other soliciting dealers will be consistent with the guidelines of the National Association of Securities Dealers, Inc.

9. During the offering and organizational phase, the General Partner and its affiliates will receive from the Partnership reimbursement of organizational and offering expenses.

10. Acquisition phase fees payable by the Partnership to the General Partner or its affiliates in connection with the acquisition of interests in Operating Partnerships will be limited by the NASAA guidelines. During the operating phase, the Partnership may pay additional fees or compensation to the General Partner or its affiliates, including an annual management fee and reimbursement for administrative services. In addition to the foregoing fees and interests, the General Partner will be allocated generally one percent of profits and losses of the Partnership.

11. None of the fees payable to the General Partners and their affiliates has been or will be negotiated at arm's length. All such fees and compensation, however, will be fair and shall be no greater than the amount the Partnership would be required to pay to independent third parties for comparable services in the same geographic location. The Partnership believes that all potential conflicts of interest, including the receipt of commissions, fees, and other compensation by the General Partner and its affiliates, will be disclosed in the Prospectus. The Partnership Agreement and the Prospectus will contain various provisions designed to eliminate or significantly reduce these conflicts. For example, the Partnership Agreement provides that in the event an investment in an Operating Partnership becomes available that would satisfy the investment criteria of the Partnership and any other public partnership in which General Partner and/or its affiliates have an interest, the following criteria will be followed with respect to determining which entity should acquire such investment. The General Partner and its affiliates will review the investment portfolio of each such entity (including any series being offered by each such partnership) and will in their sole determination decide which such entity will acquire the investment of the basis of various factors such as the amount of funds available; the length of time such funds have been available for investment; the cash requirements of each such entity; and the effect of the acquisition on each such entity's portfolio. If funds should be available to two or more public limited partnerships to purchase a given investment and all factors have been evaluated and deemed equally applicable to each entity (including any series being offered by each such partnerhsip), then the General Partner and its affiliates will acquire such investments for the entities on a basis of rotation, with the order of priority determined by the dates of formation of the entities.

12. All proceeds of the offering of Units will initially be deposited and held in trust for the benefit of the Investors in an escrow account or accounts with the Bank of New England, N.A. The Partnership intends to apply such proceeds to the acquisition of Operating Partnership interests as soon as possible. Such proceeds may be temporarily invested in bank time deposits, certificates of deposit, bank money market accounts, and government securities. The Partnership will not trade or speculate in temporary investments.

13. The Partnership Agreement provides for indemnification of the General Partner and its affiliates for losses, liability or damage incurred by them in connection with the business of the Partnership. However, the Partnership has been advised that in the opinion of the SEC, indemnification for liabilities under federal securities laws is contrary to public policy and therefore unenforceable.

Applicants' Legal Conclusions

1. The exemption of the Partnership from all provisions of the 1940 Act is both necessary and appropriate in the public interest, because: (a) Investment in low and moderate income housing in accordance with the national policy expressed in Title IX of the Housing and Urban Development Act of 1968 is not economically suitable for private investors without the tax and organizational advantages of the limited partnership form; (b) the limited partnership form insulates each Investor from personal liability, limits his financial risk to the amount he has invested in the program, and permits the pass-through to the Investor, on his individual tax return, of his proportionate share of the income and losses from the investment; (c) the limited partnership form of organization is incompatible with many provisions of the 1940 Act, such as the requirement of annual approval by investors of a management contract and the requirements concerning election of directors and the termination of the management contract; and (d) the concerns underlying the asset coverage limitations of section 18 of the 1940 Act are not justified in real estate investments and are inapposite to the mortgage financing and other government assisted programs developed for low income and moderate income housing. Also, an exemption from these basic provisions is necessary and appropriate in the public interest so as not to discourage two-tier limited partnership arrangements or frustrate the public policy established by the housing laws.

2. Release No. 8456 contemplates that the exemptive power of the SEC under section 6(c) may be applied to two-tier partnerships which engage in the kind of activities in which the Partnership will engage, that is, "two-tier partnerships that invest in limited partnerships engaged in the development and building of housing for low and moderate income persons . . . ." The release lists two conditions, designed for the protection of investors, which must be satisfied in order to qualify for such an exemption: (1) "Interests in the issuer should be sold only to persons for whom investments in limited profit, essentially tax-shelter, investments would not be unsuitable;" and (2) "requirements for fair dealing by the General Partners of the issuer with the limited partners of the issuer should be included in the basic organizational documents of the company." The Partnership will comply with these conditions and will otherwise operate in a manner designed to insure investor protection.

3. The contemplated arrangement of the Partnership is not susceptible to abuses of the sort the 1940 Act was designed to remedy. The requirements for fair dealing provided by the Partnership's governing instruments, and pertinent governmental regulations imposed on the Operating Partnerships by various federal, state and local agencies, provide protection to Investors comparable to, and in some respects greater than, that provided by the 1940 Act. An exemption would therefore be entirely consistent with the protection of Investors and the purposes and policies of the 1940 Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 89-26117 Filed 11-3-89; 8:45 am]

BILLING CODE 8010-01-M

Issuer Delisting; Application To Withdraw From Listing and Registration; Knoll International, Inc., 9⅞% (formerly 8⅛%) Subordinated Debentures Due August 15, 2003; 11⅛% Senior Subordinated Debentures Due April 15, 2001 (File No. 1-8535)

October 26, 1989.

Knoll International, Inc. ("Company"), has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder to withdraw the above specified security from listing and registration on the American Stock Exchange, Inc. ("AMEX").

The reasons alleged in the application for withdrawing these securities from listing and registration include the following:

As of August 18, 1989, there were 53 registered holders of the Subordinated Debentures. Additionally, since the original issuance of the Subordinated Debentures in August of 1983, trading volume has been relatively low. For example, in 1988, there were 51 transactions in the Subordinated Debentures with a total volume of $599,000 and in 1989 (through August 19, 1989), there were 19 transactions with a total volume of $205,000. Furthermore, the continued listing of the Subordinated Debentures is costly to the Company.

The Company believes that a delisting of the Senior Subordinated Debentures from the AMEX is warranted. As of August 18, 1989, there were 15 registered holders of the Senior Subordinated Debentures. Additionally, since the original issuance of the Senior Subordinated Debentures in April of 1986, trading volume has been relatively low. For example, in 1988, there were two transactions in the Senior Subordinated Debentures with a total volume of $45,000, and in 1989 (through August 30, 1989), there was one transaction with a total volume of $10,000. Finally, the continued listing of the Senior Subordinated Debentures is costly to the Company.

Any interested person may, on or before November 17, 1989, submit by letter to the Secretary of the Commission, 450 Fifth Street, NW., Washington, DC 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchanges and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-11-M

Issuer Delisting; Notice of Application To Withdraw From Listing and Registration; Oregon Steel Mills, Inc., Common $.01 Par Value (File No. 1-9897)

October 26, 1989.

Oregon Steel Mills, Inc. ("Company"), has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder to withdraw the above specified security from listing and registration on the American Stock Exchange, Inc. ("AMEX").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The Company's common stock recently was listed on the New York Stock Exchange ("NYSE"). Trading in the Company's stock on the NYSE commenced on October 19, 1989. In making the decision to withdraw its common stock from listing on the AMEX, the Company considered the direct and indirect costs and expenses attendant on maintaining the dual listing of its common stock on the NYSE and the AMEX. The Company does not see any particular advantage in the dual trading of its stock and believes that dual listing would fragment the market for its common stock.

Any interested person may, on or before November 17, 1989, submit by letter to the Secretary of the Commission, 450 Fifth Street, NW., Washington DC 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchanges and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

Vessel Certificates and Exemptions Under the International Regulations for Preventing Collisions at Seas (72 COLREGS)

AGENCY: Coast Guard, DOT.

ACTION: Notice of granting of Certificates of Alternative Compliance to vessels.

SUMMARY: This notice lists a vessel granted a Certificate of Alternative Compliance. This notice lists a vessel which, due to its special construction and purpose, cannot comply fully with certain provisions of the International Regulations for Preventing Collisions at Sea (72 COLREGS) without interfering with the vessel's special functions. The intent of this notice is to allow the mariner to be aware of the listing of this vessel that has been granted a Certificate of Alternative Compliance.

EFFECTIVE DATE: October 20, 1989.

FOR FURTHER INFORMATION CONTACT: CDR Arthur E. Adkins, Chief, Commercial Vessel Safety Branch, U.S. Coast Guard, Commander (mvs), Fourteenth Coast Guard District, PJKK Federal Bldg., 300 Ala Moana Blvd., Room 9149, Honolulu, Hawaii 96850-4982. Telephone (808): 541-2114.

SUPPLEMENTARY INFORMATION: Under the provisions of subsection 1605(c) of title 33 United States Code, the Coast Guard publishes, in the **Federal Register**, a listing of vessels granted Certificates of Alternative Compliance. Certificates of Alternative Compliance are based on a determination that a vessel cannot comply fully with International Rules of light(s), shape(s) and sound signal provisions without interference with the vessel's special function. The listing consists of vessels granted certificates after authority of issuance was transferred to the Chief of the Marine Safety Division of the Coast Guard Districts on April 1, 1982 (33 CFR 81). The alternative allowed results in the closest possible compliance with Annex I of the 72 COLREGS. The following vessel is not in compliance with 72 COLREGS and has been issued a Certificate of Alternative Compliance.

Vessel and Official Number

The following vessel's after masthead light separation from the forward masthead light is less than one half the length of the vessel (Annex I(3)(a)). The length overall of the vessel is 188 feet and the horizontal separation between the lights is 44 feet vice the required 94 feet.

"COURAGEOUS"—299091.

Dated: October 20, 1989.

A.E. Tanos,

Captain, U.S. Coast Guard, Chief, Marine Safety Division, Fourteenth Coast Guard District.

Lower Mississippi River Waterway Safety Advisory Committee; Aids to Navigation Subcommittee Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Aids to Navigation Subcommittee of the Lower Mississippi River Waterway Safety Advisory Committee. The meeting will be held on Tuesday, November 28, 1989 at the Crescent River Port Pilots' Office, 409 Belle Chasse Highway South, Belle Chasse, Louisiana. The meeting is scheduled to begin at 9:00 a.m. The agenda for the meeting consists of the following items:

1. Old VTS New Orleans.
2. Vessel management systems now in operation in the Mississippi River System.
3. Status of Proposal in Washington concerning VTS New Orleans.
4. Any discussion concerning present or proposed aids to navigation.
5. Adjournment.

Attendance is open to the public. Members of the public may present written or oral statements at the meeting.

Additional information may be obtained from Commander Gary A. Bird, USCG, Executive Secretary, Lower Mississippi River Waterway Safety Advisory Committee, c/o Commander, Eighth Coast Guard District (oan), Room 1209, Hale Boggs Federal Building, 501 Magazine Street, New Orleans, LA 70130-3396, telephone number (504) 589-3074.

Dated: October 23, 1989.

W.F. Merlin,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

BILLING CODE 4910-14-M

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

October 3, 1989.

The Department of Treasury has made revisions and resubmitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2224, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: 1545-1019
Form Number: Schedule S (Form 706)
Type of Review: Resubmission
Title: Increased Estate Tax on Excess Retirement Accumulations
Description: Schedule S (Form 706) is used by estates to compute any pay the increased estate tax imposed by Internal Revenue Code section 4980A(d). IRS uses the information to determine whether the tax was correctly computed and paid.
Respondents: Individuals or households
Estimated Number of Respondents: 1,000
Estimated Burden Hours Per Response/Recordkeeping:
Recordkeeping: 40 minutes
Learning about the law or the form: 32 minutes
Preparing the form: 45 minutes
Copying, assembling, and sending the form to IRS: 25 minutes
Frequency of Response: On occasion
Estimated Total Recordkeeping/Reporting Burden: 2,160 hours

OMB Number: 1545-1036
Form Number: 8716
Type of Review: Resubmission
Title: Election to Have a Tax Year Other Than a Required Tax Year
Description: Form 8716 is filed by partnerships, S Corporations, and personal service corporation, under section 444(a), to retain or to adopt a tax year that is not a required tax year. Service Centers accept Form 8716 and use the form information to assign master-file codes that allow the Center to accept the filer's tax return filed for a tax year (fiscal year) that would not otherwise be acceptable.
Respondents: Farms, Businesses or other for-profit, Small businesses or organizations
Estimated Number of Respondents: 40,000
Estimated Burden Hours Per Response/Recordkeeping:
Recordkeeping: 2 hours, 23 minutes
Learning about the law or the form: 1 hour, 12 minutes
Preparing and sending the form to IRS: 1 hour, 12 minutes
Frequency of Response: Nonrecurring, one-time filing to elect a nonrequired tax year
Estimated Total Recordkeeping/Reporting Burden: 198,250 hours
Clearance Officer: Garrick Shear (202) 535-4297, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224
OMB Reviewer: Milo Sunderhauf, (202) 395-6880, Office of Management and Budget, Room 3001, New Executive Officer Building, Washington, DC 20503

Lois K. Holland,

Departmental Reports Management Officer.

BILLING CODE 4810-35-M

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 670; Ref. ATF O 1100.151]

Delegation Order—Authority To Issue Firearms and Explosives Licenses and Permits Under 27 CFR Part 55, Commerce in Explosives, and Part 178, Commerce in Firearms and Ammunition

Delegation Order

1. Purpose

This order delegates the authority to issue firearms and explosives licenses and permits under 27 CFR parts 55 and 178.

2. Background

The authority to issue firearms and explosives licenses and permits now resides in the Regional Directors (Compliance). In order to take advantage of a more efficient technology, the licensing function is being consolidated into one office in Atlanta, Georgia, under the authority of the Chief, Firearms and Explosives Licensing Center. Regional Directors (Compliance) will retain the authority for denial and revocation of such licenses and permits.

3. Delegation

Pursuant to the authority vested in the Director, Bureau of Alcohol, Tobacco and Firearms, by Treasury Department Order No. 120-01, effective July 1, 1972, and by 26 CFR 301.7701-9, authority is hereby delegated to the Chief, Firearms and Explosives Licensing Center, to issue licenses and permits under 27 CFR parts 55 and 178. This authority does not extend to denials or revocations of licenses or permits, which remain within the authority of Regional Directors (Compliance).

4. Redelegation

The authority delegated herein may not be redelegated.

5. For Information Contact

J. Barry Fields, Firearms and Explosives Operations Branch, 1200 Pennsylvania Avenue, NW., Washington, DC 20226, (202) 789–3026.

6. Effective Date

This delegation order becomes effective on November 6, 1989.

Approved: October 30, 1989.

Stephen E. Higgins,

Director.

[FR Doc. 89–26006 Filed 11–3–89; 8:45 am]

BILLING CODE 4810–31–M

Internal Revenue Service

Tax on Certain Imported Substances; Notice of Filing of Petition

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice.

SUMMARY: This notice announces the acceptance under Notice 89–61, 1989–21 I.R.B. 25, of petitions requesting that *butyl acrylate, methyl acrylate, ethyl acrylate,* and *2-ethylhexyl acrylate* be added to the list of taxable substances in section 4672(a)(3) of the Internal Revenue Code. Publication of this notice is in compliance with Notice 89–61. This is not a determination that the list of taxable substances should be modified.

DATE: Written comments and requests for a public hearing relating to these petitions must be delivered or mailed by January 5, 1990.

ADDRESS: Send comments and requests for a public hearing to the Internal Revenue Service, Attention: CC:CORP:T:R (Petition), Room 4429, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Ruth Hoffman, Office of Assistant Chief Counsel (Passthoughs and Special Industries). Telephone 202–566–4475 (not a toll-free number).

SUPPLEMENTARY INFORMATION: The petitions were received on August 18, 1989. The petitioner is Hoechst Celanese, a manufacturer and exporter of these substances. The following is a summary of the information contained in the petitions. The complete petitions are available in the Internal Revenue Service Freedom of Information Reading Room.

Butyl Acrylate

Harmonized Tariff System number: 2916.12.50 308
Schedule B number: 2916.12.5030
Chemical Abstract Service number: 141–32–2

This substance is derived from the taxable chemicals *propylene* and *methane*. Butyl acrylate is produced by esterification of acrylic acid with butanol. Acrylic acid is produced by oxidation of propylene. Butanol is produced from propylene using the vapor phase technology.

The stoichiometric material consumption formula for this substance is:

$2\ C_3H_6$ propylene + $1.5\ O_2$ oxygen + CH_4 methane ——> $CH_2CHCOOC_4H_9$ butyl acrylate + H_2 hydrogen + H_2O water

According to the petition, taxable chemicals constitute 67.6 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $4.38 per ton. This is based upon a conversion factor for propylene of 0.7841 and a conversion factor for methane of 0.162.

Methyl Acrylate

Harmonized Tariff System number: 2916.12.40 102
Schedule B number: 2916.125020
Chemical Abstract Service number: 96–33–3

This substance is derived from the taxable chemicals *propylene* and *methane*. Methyl acrylate is produced by esterification of acrylic acid with methanol. Acrylic acid is produced by oxidation of propylene. Methanol is obtained by steam reforming natural gas.

The stoichiometric material consumption formula for this substance is:

C_3H_6 propylene + $1.5\ O_2$ oxygen + CH_4 methane ——> $CH_2CHCOOCH_3$ methyl acrylate + H_2 hydrogen + H_2O water

According to the petition, taxable chemicals constitute 54.7 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $4.29 per ton. This is based upon a conversion factor for propylene of 0.5534 and a conversion factor for methane of 0.463.

Ethyl Acrylate

Harmonized Tariff System number: 2916.12.50 102
Schedule B number: 2916.12.5010
Chemical Abstract Service number: 140–88–5

This substance is derived from the taxable chemicals *propylene* and *ethylene*. Ethyl acrylate is produced by esterification of acrylic acid with ethanol. Acrylic acid is produced by oxidation of propylene. Ethanol is produced from ethylene.

The stoichiometric material consumption formula for this substance is:

C_3H_6 propylene + $1.5\ O_2$ oxygen + C_2H_4 ethylene ——> $CH_2CHCOOCH_2CH_3$ ethyl acrylate + H_2O water

According to the petition, taxable chemicals constitute 59.3 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $3.85 per ton. This is based upon a conversion factor for propylene of 0.4861 and a conversion factor for ethylene of 0.3039.

2-Ethylhexyl Acrylate

Harmonized Tariff System number: 2916.12.50 406
Schedule B number: 2916.12.5040
Chemical Abstract Service number: 103–11–7

This substance is derived from the taxable chemicals *propylene* and *Methane*. 2-ethylhexyl acrylate is produced by direct esterification of acrylic acid with 2-ethylhexanol in the presence of sulfuric acid. Acrylic acid is obtained from propylene by two stage oxidation. 2-ethylhexanol is produced from propylene, using n-butyraldehyde as an intermediary.

The stoichiometric material consumption formula for this substance is:

$3\ C_3H_6$ propylene + $1.5\ O_2$ oxygen + $2\ CH_4$ methane ——> $CH_2CHCOOC_8CHC_4H_9C_2H_5$ 2-ethylhexyl acrylate + H_2O Water + $2\ H_2$ hydrogen

According to the petition, taxable chemicals constitute 76.7 per cent by weight of the materials used to produce this substance. The rate of tax for this substance would be $5.08 per ton. This is based upon a conversion factor for propylene of 0.9741 and a conversion factor for methane of 0.2376.

DEPARTMENT OF VETERANS AFFAIRS

Advisory Committee on Readjustment Problems of Vietnam Veterans; Meeting

The Department of Veterans Affairs (VA) gives notice under Public Law 92–463 that a meeting of the Advisory Committee on Readjustment Problems of Vietnam Veterans will be held November 16 and 17, 1989. This is a regularly scheduled meeting for the purpose of reviewing VA and other relevant services to Vietnam veterans, to review Committee work in progress and to formulate Committee recommendations and objectives. The meeting on both days will be held in the Lafayette Building, Room 442, 811 Vermont Avenue, NW., Washington, DC 20420.

The meetings on November 16 and 17 will both begin at 8:30 a.m. and conclude at 4 p.m. The agenda for November 16 will consist of internal Committee review, discussion and planning regarding reports and other work activities in progress. Topics to be covered will include field visit reports regarding VA medical centers and vet centers in maine and Massachusetts, services to incarcerated Vietnam veterans, the clinical mission and administration of VA vet centers, post-war readjustment needs of veterans of other eras, and the compensation and treatment of war-related post-traumatic stress disorder. The agenda for November 17 will address Committee procedural issues, a review of Committee organization and role, and a planning session regarding Committee objectives and field visits for the coming year. The meeting on November 17 will also include a presentation on VA drug and alcohol treatment programs. Both days' meetings will be open to the public to the seating capacity of the room.

We were unable to give the 15 days public notice due to administrative delays.

Due to limited seating capacity of the room, those who plan to attend or who have questions concerning the meeting should contact Arthur S. Blank, Jr., M.D., Director, Readjustment Counseling Service, Department of Veterans Affairs, (phone number: 202 233–3317/3303).

Dated: October 25, 1989.

By direction of the Secretary.

Sylvia Chavez Long,

Committee Management Officer.

VOL 54 ISS 213 NO 6 1989 UMI

Sunshine Act Meetings

Federal Register
Vol. 54, No. 213
Monday, November 6, 1989

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:00 p.m. on Tuesday, October 31, 1989, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider the following:

Application of Provident Bank—Dallas, Dallas, Texas ("Provident Bank"), an insured State nonmember bank, for consent to merge, under its charter and title, with The Security State Bank of Commerce, Commerce, Texas ("Commerce"), DeSoto State Bank, DeSoto, Texas ("DeSoto"), and First State Bank, Wylie, Texas ("Wylie"), insured State nonmember banks, and Provident Bank-Denton, Denton, Texas ("Denton"), an insured State member bank, for consent to establish the five offices and two facilities of Commerce, DeSoto, Wylie, and Denton as branches of Provident Bank, and for consent to operate a full service branch at 13655 Preston Road, Dallas, Texas, a former main office location of Provident Bank.

Administrative enforcement proceedings.

Matters relating to the Corporation's assistance agreement with an insured bank.

Recommendations regarding the liquidation of a depository institution's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. FL-89-0013
Capital Federal Savings & Loan Association, Mount Pleasant, Iowa
Case No. FL-89-0015
Sunbelt Savings, FSB, Dallas, Texas

Matters relating to the possible closing of an insured bank.

Matters relating to the Corporation's corporate activities.

Personnel matter.

In calling the meeting, the Board determined, on motion of Director Robert L. Clarke (Comptroller of the Currency), seconded by Director M. Danny Wall (Director of the Office of Thrift Supervision), concurred in by Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10)).

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street, N.W., Washington, D.C.

Dated: November 1, 1989.

Federal Deposit Insurance Corporation.

M. Jane Williamson,

Assistant Executive Secretary.

BILLING CODE 6714-01-M

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

November 1, 1989.

TIME AND DATE: 10:00 a.m., Wednesday, November 8, 1989.

PLACE: Room 600, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will hear oral argument on the following:

1. *Clinchfield Coal Company,* Docket No. VA 89-67-R. (Issues include whether the judge erred in extending the time for abatement of a violation and whether the time for abatement should be extended further.)

Any person intending to attend this hearing who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission in advance of those needs. Subject to 29 CFR § 2706.150(a)(3) and § 2706.160(e).

TIME AND DATE: Immediately following oral argument.

STATUS: Closed [Pursuant to 5 U.S.C. § 552b(c)(1)].

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. *Clinchfield Coal Company,* Docket No. VA 89-67-R. (See oral argument listing)

It was determined by a unanimous vote of Commissioners that this item be discussed in closed session.

CONTACT PERSON FOR MORE INFO: Jean Ellen (202) 653-5629/(202) 708-9300 for TDD Relay 1-800-877-8339 Toll Free.

SECRUITIES AND EXCHANGE COMMISSION

Agency Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Secruities and Exchange Commission will hold the following meeting during the week of November 6, 1989.

A closed meeting will be held on Tuesday, November 7, 1989, at 2:30 p.m.

The Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may also be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A) and (10) and 17 CFR 200.402(a) (4), (8), (9)(i) and (10), permit consideration of the scheduled matters at a closed meeting.

Commissioner Fleischman, as duty officer, voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, November 7, 1989, at 2:30 p.m., will be:

Institution of injunctive actions.
Settlement of injunctive actions.
Institution of administrative proceeding of an enforcement nature.
Formal order of investigation.
Settlement of administrative proceeding of an enforcement nature.
Regulatory matter regarding financial institutions.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Ronald Mueller at (202) 272-2200.

Dated: November 1, 1989.

Jonathan G. Katz,

Secretary.

Part II

Department of Education

Perkins Loan, College Work-Study, and Supplemental Educational Opportunity Grant Programs; Closing Date for Institutions To File "Request for Institutional Eligibility for Program"; Notice

VOL
54
ISS
213
NO
6
1989
UMI

DEPARTMENT OF EDUCATION

Perkins Loan, College Work-Study, and Supplemental Educational Opportunity Grant Programs; Closing Date for Institutions To File "Request for Institutional Eligibility for Programs"

AGENCY: Department of Education.

ACTION: Notice of closing date for Institutions to file "Request for Institutional Eligibility for Programs" (ED Form E-40-34P, OMB #1840-0098 approved through December 31, 1989) to participate in the Perkins Loan, College Work-Study, and Supplemental Educational Opportunity Grant Programs for the 1990-91 Award Year.

SUMMARY: The Secretary invites currently ineligible institutions of higher education that filed a Fiscal Operations Report and Application to Participate (FISAP) (ED Form 646-1) in one or more of the "campus-based programs" for the 1990-91 award year to submit to the Secretary an institutional eligibility application form.

The campus-based programs are the Perkins Loan Program, the College Work-Study Program, and the Supplemental Educational Opportunity Grant Program and are authorized by Title IV of the Higher Education Act of 1965, as amended. The 1990-91 award year is July 1, 1990 through June 30, 1991.

DATES: *Closing Date for Filing Application.* To participate in a campus-based program in the 1990-91 award year, a currently ineligible institution must mail or hand deliver its "Request for Institutional Eligibility for Programs" form to the address indicated below on or before January 12, 1990.

ADDRESSES:

Applications Delivered by Mail.

An institutional eligibility application delivered by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: DEC/DCMAS/OPE, 400 Maryland Avenue, SW., Washington, DC 20202-4725.

An applicant must show proof of mailing consisting of one of the following: (1) A legibly dated U.S. Postal Service postmark; (2) a legible mail receipt with the date of mailing stamped by the U.S. Postal Service; (3) a dated shipping label, invoice, or receipt from a commercial carrier; (4) any other proof of mailing acceptable to the U.S. Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Institutions that submit eligibility applications after the closing date will not be considered for funding under the campus-based programs for award year 1990-91.

Applications Delivered by Hand. An institutional eligibility application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center (ACC), Room 3633, Regional Office Building 3, 7th and D Streets, SW., Washington, DC. The Application Control Center will accept hand-delivered applications between 8:00 a.m. and 4:30 p.m. (Eastern Standard Time) daily, except Saturdays, Sundays, and Federal holidays. An application for the 1990-91 award year eligibility that is hand-delivered will not be accepted after 4:30 p.m. on the closing date.

SUPPLEMENTARY INFORMATION: Under the three campus-based programs, the Secretary allocates funds to eligible institutions of higher education. The Secretary will not allocate funds under the campus-based programs for award year 1990-91 to any currently ineligible institution unless the institution files its "Request for Institutional Eligibility for Programs" form (ED Form E-40-34P) by the closing date. If the institution submits its institutional eligibility application after the closing date, the Secretary will use this application in determining the institution's eligibility to participate in the campus-based programs beginning with the 1991-92 award year.

For purposes of this notice, ineligible institutions only include:

(1) An institution that has not been designated as an eligible institution by the Secretary but has previously filed a FISAP.

(2) An off campus site of an eligible institution that is currently not included in the Department's eligibility certification for that eligible institution but has been included in the institution's 1990-91 FISAP.

(3) A branch campus that is currently part of an eligible institution but has filed its own FISAP and is seeking eligibility as a separate institution of higher education.

The Secretary wishes to advise institutions that the institutional eligibility form "Request for Institutional Eligibility for Programs" (ED Form E-40-34P) should not be confused with the FISAP (ED Form 646-1) that institutions were required to submit, by September 8, 1989 for paper FISAP filers and September 29, 1989 for electronic FISAP filers, in order to be considered for funds under the campus-based programs for the 1990-91 award year.

Applicable Regulations

The following regulations apply to the campus-based programs:

(1) Student Assistance General Provisions, 34 CFR part 668.

(2) Perkins Loan Program, 34 CFR part 674.

(3) College Work-Study Program, 34 CFR part 675.

(4) Supplemental Educational Opportunity Grant Program, 34 CFR part 676.

(5) Institutional Eligibility Under the Higher Education Act of 1965, as amended, 34 CFR part 600.

FOR FURTHER INFORMATION CONTACT: For information concerning designation of eligibility, contact Carol F. Sperry, Director, Division of Eligibility and Certification, Office of Postsecondary Education, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, DC 20202-5242. [Docket No. 114; Notice No. 1]

RIN 2137-AB77

Amendment of an Operator's Plans or Procedures

AGENCY: Office of Pipeline Safety (OPS), RSPA, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: OPS is proposing to make changes in the procedures and policy by which it addresses deficiencies in procedures and plans. As proposed, OPS would move to part 190 the substance of current § 195.402(b), relating to the process for amending an operator's procedures for conducting normal operations and maintenance activities, and handling abnormal operations and emergencies, making it applicable to gas and LNG pipeline facilities as well as to hazardous liquid pipeline facilities. The amendment process would also be applicable to other plans and procedures required by part 193 and § 199.7. In addition, OPS is proposing to make operators subject to all enforcement sanctions under the Natural Gas Pipeline Safety Act of 1968, as amended (NGPSA) (49 App. U.S.C. 1671 *et seq.*), and the Hazardous Liquid Pipeline Safety Act of 1979, as amended (HLPSA) (49 App. U.S.C. 2001 *et seq.*), for failure to maintain all plans and procedures in accordance with applicable requirements.

DATES: Comments must be received on or before December 6, 1989. Late filed comments will be considered to the extent practicable.

ADDRESSES: Address comments to the Dockets Unit, Office of Pipeline Safety, Room 8417, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590. Comments should identify the docket and notice number and be submitted in duplicate. Persons wishing to receive confirmation of receipt of their comments should include self-addressed stamped postcards. This notice and all docketed materials are available for inspection and copying in Room 8421, between 8:30 a.m. and 5:00 p.m. each working day, or telephone the Dockets Unit on (202) 366-5046.

FOR FURTHER INFORMATION CONTACT: Cesar De Leon on (202) 366-1640.

SUPPLEMENTARY INFORMATION: The proposals in this notice will clarify the exercise of OPS's delegated authority under the NGPSA and HLPSA to assure that operations and maintenance (O&M) and related plans and procedures are adequate to achieve safe operations. In accordance with section 13 of the NGPSA (49 App. U.S.C. 1680) and section 210 of the HLPSA (49 App. U.S.C. 2009), OPS administers a statutory process for amending plans it finds to be inadequate. At the present time, however, this process has been implemented in regulation only in parts 193 and 195. Therefore, OPS proposes to move the current procedures found in §§ 195.402(b) and 193.2017(b) (with appropriate modification) to a new § 190.9, which would be applicable to all plans and procedures in parts 192, 193, 195, and 199. To accommodate this change, paragraph (b) of §§ 193.2017 and 195.402 would be deleted, and the remainder of the latter section redesignated.

OPS is also proposing to strengthen its enforcement of the inspection and maintenance requirements prescribed in the NGPSA and the HLPSA, which it has traditionally viewed as a compliance and enforcement focus separate from other subjects regulated under those statutes. These other subjects—for example, testing, cathodic protection, and leak surveying—have been addressed with the statutory enforcement tools of civil penalties and compliance orders or, where appropriate, with hazardous facility orders.

There is no reason to restrict enforcement of written plans and procedures to the amendment process. The current approach to correcting deficient O&M plans has had the effect of limiting the enforcement tools available to the Department in addressing the quality and effectiveness of O&M plans, which are the foundation of sound operations. Consequently, OPS should have the widest latitude to assure that operators develop O&M and related plans that comply with applicable safety requirements, and that operators and their employees, as their agents, in turn comply with the plans. Therefore, if adopted, operators would be subject to the assessment of civil penalties (and criminal penalties if a violation is committed knowingly and willfully) and any other appropriate sanction available under either the NGPSA to the HLPSA. In the case of civil penalties, an operator's due process protections would be substantially the same as those afforded under the O&M amendment process, including prior notice and an opportunity for an informal hearing before final agency action is taken.

Miscellaneous

Sections in part 190 concerning or referencing hearings would be revised for consistency.

Administrative Procedures

Because these proposals relate to agency procedures and policy, notice and public procedure are not required. However, OPS is providing 30 days' notice for comment because it believes a brief comment period is in the public interest, and because it seeks comment on whether any plans or procedures required by parts 192, 193, 195, and 199 should not be subject to all enforcement sanctions in part 190.

Paperwork Reduction Act

The rule proposed by this notice contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Impact Assessment

The rule proposed by this notice is considered to be nonmajor under Executive Order 12291 and is not significant under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Because it proposes no substantive revisions that could be expected to require significant changes in operator procedures or compliance burdens, and because the economic impact would be slight, a full regulatory evaluation is not required.

Accordingly, I certify under section 605 of the Regulatory Flexibility Act that the rule proposed by this notice, if adopted as final, will not have a significant economic impact on a substantial number of small entities.

OPS has analyzed this rulemaking action in accordance with the principles and criteria of E.O. 12612 (52 FR 41685) and has determined that it does not have sufficient Federalism implications to warrant preparing a Federalism Assessment.

List of Subjects

49 CFR Part 190

Enforcement, Operations and maintenance procedures, Pipeline safety, Reporting and recordkeeping requirements.

49 CFR Part 193

Pipeline safety, Reporting and recordkeeping requirements.

49 CFR Part 195

Operations and maintenance procedures, Pipeline safety, Procedural manual, Reporting and recordkeeping requirements.

In consideration of the foregoing, title 49, Code of Federal Regulations, parts 190, 193, and 195 would be amended as follows:

PART 190—[AMENDED]

1. The authority citation for part 190 is revised to read as follows:

Authority: 49 App. U.S.C. 1672, 1677, 1679a, 1679b, 1680, 1681, 1804, 2002, 2006, 2007, 2008, 2009, and 2010; 49 CFR 1.53.

2. Section 190.9 would be added to read as follows:

§ 190.9 Amendment of plans or procedures.

(a) A Region Chief, OPS, begins a proceeding to determine whether an operator's plans or procedures required under parts 192, 193, 195 and 199 of this chapter are inadequate to assure safe operation of a pipeline facility by issuing a notice of amendment. The notice shall provide an opportunity for a hearing under § 190.211 and shall specify the alleged inadequacies and the proposed action for revision of the plans or procedures. The notice shall allow the operator 30 days after receipt of the notice to submit written comments or request a hearing. After considering all material presented in writing or at the hearing, the Director, OPS, shall determine whether the plans or procedures are inadequate as alleged and, if they are inadequate, order the required amendment, or withdraw the notice. In determining the adequacy of an operator's plans and procedures, the Director, OPS, shall consider:

(1) Relevant available pipeline safety data,

(2) Whether the plans or procedures are appropriate in accordance with the requirements of this chapter for the particular type of pipeline transportation or facility,

(3) The reasonableness of the plans or procedures, and

(4) The extent to which the plans or procedures contribute to public safety.

(b) The amendment of an operator's plans or procedures prescribed in paragraph (a) of this section is in addition to, and may be used in conjunction with, the appropriate enforcement actions prescribed in subpart B of this part.

3. Section 190.211(a) would be revised to read as follows:

§ 190.211 Hearing.

(a) A request for a hearing provided for in this part must be accompanied by a statement of the issues that the respondent intends to raise at the hearing. The issues may relate to the allegations in the notice, the proposed corrective action, or the proposed civil penalty amount. A respondent's failure to specify an issue may result in waiver of his right to raise that issue at the hearing. The respondent's request must also indicate whether or not he will be represented by counsel at the hearing.

* * * * *

4. Section 190.233(a) would be revised to read as follows:

§ 190.233 Hazardous facility orders.

(a) Except as provided by paragraph (b) of this section, if the Director, OPS, finds, after reasonable notice and opportunity for hearing in accordance with paragraph (c) of this section and § 190.211(a), a particular pipeline facility to be hazardous to life or property, he shall issue an order pursuant to this section requiring the owner or operator of the facility to take corrective action. Corrective action may include suspended or restricted use of the facility, physical inspection, testing, repair, replacement, or other action, as appropriate.

* * * * *

PART 193—[AMENDED]

5. The authority citation for part 193 continues to read as follows:

Authority: 49 App. U.S.C. 1671 *et seq.*; 49 CFR 1.53.

§ 193.2017 [Amended]

6. In § 293.2017, paragraph (b) would be removed, and the designation (a) would be removed from the remaining paragraph.

PART 195—[AMENDED]

7. The authority citation for part 195 continues to read as follows:

Authority: 49 App. U.S.C. 2002; and 49 CFR 1.53.

§ 195.402 [Amended]

8. In § 195.402, paragraph (b) would be removed and paragraphs (c), (d), (e), and (f) would be redesignated as paragraphs (b), (c), (d), and (e), respectively, and all internal references in the newly designated paragraphs would be changed accordingly.

§§ 195.404 and 195.408 [Amended]

9. In §§ 195.404(a)(1)(vi) and 195.408(b)(1), the reference to "§ 195.402(c)(9)" would be changed to read "195.402(b)(9)".

Issued in Washington, DC, on October 31, 1989.

Richard L. Beam,

Director, Office of Pipeline Safety.

Operation and Maintenance Procedures for Pipelines

AGENCY: Office of Pipeline Safety (OPS), RSPA, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to clarify and delineate the items that must be addressed in procedures for operations and maintenance (O&M) of gas pipeline facilities. The current rule is not sufficiently detailed to assure that operators take timely and appropriate actions under normal conditions or in responding to abnormal situations. More detailed O&M procedures should reduce the likelihood of failures and provide a better basis for personnel training. In addition, operators of gas and hazardous liquid pipelines would be required to establish procedures for personnel safety in trenches where there may be a hazardous accumulation of vapor or gas.

DATE: Comments must be received by February 5, 1990. Late filed comments will be considered so far as is practicable.

ADDRESSES: Send comments in duplicate to the Dockets Unit, Room 8417, Office of Pipeline Safety, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Identify the docket and notice numbers stated in the heading of this notice. All comments and docketed material will be available for inspection and copying in Room 8426 between 8:30 a.m. and 5:00 p.m. each business day.

FOR FURTHER INFORMATION CONTACT: Bernard Liebler, (202) 366-2392, regarding changes to safety standards; or the Dockets Unit, (202) 366-5046, for copies of this notice or other material in the docket.

SUPPLEMENTARY INFORMATION:

Background

Between November 1984 and February 1986, a major operator of gas

transmission pipelines experienced four accidents that resulted in four deaths, 36 injuries, and significant property damage. This unusually high accident

[Note that a sixth activity, concerning reporting safety-related conditions, has been added to § 192.605 as paragraph (f), effective September 20, 1988. (53 FR 24950). This activity is not a subject of this proceeding.

Amend 49 CFR parts 192 and 195 to require that operators of pipelines develop and conduct selection, training, and testing programs to annually qualify employees for correctly carrying out each assigned

enhanced by making the two regulations reasonably similar while honoring the technical distinctions between gas and liquid pipelines.

operation and maintenance. In contrast, § 192.603(b) simply requires the operator to "keep records necessary to administer" the O&M plan. This section

restarted, and appropriate procedures are vital for maintaining the safety of the pipeline. The proposed

VOL 54 SS 213 NO 6 1989 UMI

transmission pipelines experienced four accidents that resulted in four deaths, 36 injuries, and significant property damage. This unusually high accident rate prompted OPS to form a Task Force to review, among other things, the operator's O&M procedures.

The Task Force, which comprised personnel from OPS's Eastern, Southern, Southwest, and Central Region offices, spent three months inspecting the pipeline facilities and reviewing the written O&M procedures. The reviewers found the procedures, established under §§ 192.603 and 192.605, to be performance oriented, very much like the part 192 standards they were intended to implement. In many areas, the procedures simply repeated the part 192 requirements rather than specifying precisely how to perform required tasks.

As a result of this finding, the Task Force examined the O&M procedures of five other major pipeline operators. The purpose of examining the procedures of the other operators was to establish whether the performance-oriented presentation adopted by the operator having the four incidents was the exception or the rule. The Task Force found disparity in the scope and depth of coverage of the five operators' procedures. This disparity prompted the Task Force to make the following recommendation:

OPS should revise § 192.605, "Essentials of operating and maintenance plans," to provide more guidance (similar to § 192.615 regarding emergency plans, and § 195.402 regarding liquid pipeline procedural manuals).

Need for Action

The primary section governing O&M procedures for gas pipeline facilities in part 192 is § 192.605, Essentials of operating and maintenance plan. This section comprises a list of five broad categories of activities that must be covered in O&M procedures:

(a) Instructions for employees covering operating and maintenance procedures during normal operations and repairs.

(b) Items required to be included by the provisions of Subpart M [Maintenance] of this part.

(c) Specific programs relating to facilities presenting the greatest hazard to public safety either in an emergency or because of extraordinary construction or maintenance requirements.

(d) A program for conversion procedures, if conversion of a low-pressure distribution system to a higher pressure is contemplated.

(e) Provisions for periodic inspections to ensure that operating pressures are appropriate for the class location.

[Note that a sixth activity, concerning reporting safety-related conditions, has been added to § 192.605 as paragraph (f), effective September 29, 1988, (53 FR 24950). This activity is not a subject of this proceeding, but is included in the proposed revised text of § 192.605 as paragraph (d)].

While these requirements are fairly comprehensive, they are also extremely general in their description. For example, subsection (a) mandates the inclusion of instructions for normal operations and repair activities, but does not specify precisely what activities the instructions should cover. Similarly, subsection (b) refers the operator to Subpart M, which in three instances (§§ 192.706, 192.723, and 192.727) requires operators to develop O&M procedures, but is vague about the content of the procedures. Finally, subsection (c) requires "specific programs" relating to facilities of unusual hazard, but does not say what the purpose or goal of the programs must be.

The intent of § 192.605 is to ensure that personnel who operate or maintain a gas pipeline have available to them a document that provides procedures for the proper operation and maintenance of the pipeline under part 192 standards. It has been, and remains, RSPA policy to write pipeline safety standards as much as possible in performance language to permit operators flexibility in compliance and to allow for innovation in the industry. This is particularly important with respect to requirements for O&M procedures under § 192.605 because of the many variations in gas pipeline systems. Such flexibility is not desirable, however, in documents meant to implement § 192.605 and guide individuals in performing their duties. A document providing specific requirements would better serve the intent of the regulations and reduce the likelihood of confusion or the application of poor judgment by individuals.

The consequences of inadequate O&M procedures can be serious. Vague, unspecific procedures lead to inconsistent handling of repairs and maintenance activities. Such inconsistency can then result in unpredictable operating conditions and, ultimately, failures. OPS has found that operators with adequate O&M procedures and personnel trained to execute them minimize the opportunity for failures.

In 1986 the National Transportation Safety Board (NTSB) investigated two Texas Eastern incidents at Beaumont and Lancaster, Kentucky and recommended that RSPA:

Amend 49 CFR parts 192 and 195 to require that operators of pipelines develop and conduct selection, training, and testing programs to annually qualify employees for correctly carrying out each assigned responsibility which is necessary for complying with 49 CFR parts 192 and 195 as appropriate. (P-87-2)

Although this proceeding is not addressing qualification of employees (a matter that is the subject of a separate notice of proposed rulemaking to be published later this year), the NTSB recommendation is pertinent in that training and testing in the implementation of very generally stated O&M procedures are not feasible. If a procedure is not specific, the range of available responses is so broad that it is not possible to anticipate a response and project its ramifications comprehensively in a training course. Furthermore, an individual trained under such a regimen does not have sufficient guidance from the regulations in how to discharge his responsibilities.

In response to its Task Force recommendation, OPS published an Advance Notice of Proposed Rulemaking (Docket PS-94) (52 FR 9189, March 23, 1987) to elicit the opinions of other interested parties on the broader issue of personnel qualifications. As part of that notice, OPS asked how regulations governing O&M procedures for gas pipeline operators should differ from the part 195 regulations governing O&M procedures for hazardous liquid pipelines. Two-thirds of the respondents stated that the two sets of regulations (§§ 192.605 and 195.402) need not be parallel. About one-fourth of the commenters suggested that the two could be similar, but several recommended that distinctions be made between transmission and distribution systems or among the products carried. Still another group also believed that the two need not be the same, but recommended changes to part 192 to include requirements for training personnel in the aspects of the O&M procedures needed to perform their duties and to gather all part 192 requirements pertaining to O&M procedures into a single location.

OPS does not agree with the position that parallelism need not be maintained between the O&M procedure requirements of parts 192 and 195. The very existence of two separate sets of regulations is an acknowledgment of the distinctions between gas and liquid pipelines. However, OPS believes that the O&M similarities vastly outnumber the differences and that compliance (particularly for operators who have both liquid and gas pipelines) is

enhanced by making the two regulations reasonably similar while honoring the technical distinctions between gas and liquid pipelines.

The primary goal of this proceeding is to clarify and specify the existing requirements of § 192.605 by including a specific list of essentials that must be covered by gas pipeline O&M procedures. The intended effect of the rulemaking is to cause gas pipeline operators to develop effective O&M procedures and use them to take timely and appropriate action in conducting normal activities and in responding to abnormal situations. A subsidiary goal of this proceeding is to implement RSPA's policy to make the regulations governing O&M procedures for gas and liquid pipelines as similar as practicable. Training connected with O&M procedures is scheduled for rulemaking in Docket PS-94.

Current and Proposed Requirements

The requirements governing O&M procedures for hazardous liquid pipelines are in § 195.402, Procedural manual for operations, maintenance, and emergencies. Some of these requirements parallel those in §§ 192.603 and 192.605, but are significantly more detailed. The following discussion will compare § 195.402 with §§ 192.603 and 192.605 and propose appropriate amendments.

Section 195.402(a), in addition to requiring that the operator prepare and follow a manual of written procedures for conducting O&M activities and for handling emergencies, requires the operator to evaluate its effectiveness annually and update and revise the manual as necessary. The subsection also requires that appropriate parts of the manual be available at locations where operations and maintenance activities are conducted. This subsection also states that the manual must be prepared before initial operation of a pipeline system commences. Section 192.603(b) requires operators to establish a written O&M plan, but not in manual form. The remaining provisions of § 195.402(a) are not matched in §§ 192.603 and 192.605. Sections 192.603(b) and 192.605(a) would be revised to agree with § 195.402(a).

Section 195.402(c) requires procedures for several different, specifically-referenced O&M activities, many of which, although pertinent to gas systems, are not addressed directly or are addressed in less detail in part 192, as discussed below.

Section 195.402(c)(1) requires the operator to make construction records, maps, and operating history available to O&M personnel as necessary for safe operation and maintenance. In contrast, § 192.603(b) simply requires the operator to "keep records necessary to administer" the O&M plan. This section does not have the same effect in regard to availability or kinds of records as § 195.402(c)(1). As set forth below, the proposed § 192.605(b)(2) is comparable to § 195.402(c)(1).

Section 195.402(c)(2) requires procedures for the collection of data needed for reporting accidents to RSPA. Section 192.605 does not require that operators have similar procedures. Therefore, a new § 192.605(b)(4) is proposed to agree with § 195.402(c)(2).

Section 195.402(c)(3) requires procedures for operating, repairing, and maintaining the pipeline system in accordance with the O&M regulations in subpart F of part 195. Sections 192.603(b) and 192.605(b) have similar intent, but it is not as clearly stated. The existing § 192.605(b) would be revised and redesignated as the proposed § 192.605(b)(1) to agree with § 195.402(c)(3).

Section 195.402(c)(4) requires procedures for determining which facilities require immediate response in the event of failure or malfunction. Section 192.605 does not address this issue. A new § 192.605(b)(5) is proposed to agree with § 195.402(c)(4).

Section 195.402(c)(5) covers analyzing pipeline accidents to determine their causes, and procedures for this topic are covered adequately by § 192.617. However, for conformity with § 195.402, OPS is proposing under § 192.605(e) that these procedures be included in the O&M manual. This proposal would serve to unite all O&M procedures in a single manual and clarify that the accident investigation procedures required by § 192.617 must be written.

Section 195.402(c)(6) requires procedures for minimizing potential hazards at those locations identified under § 195.402(c)(4) and for minimizing the recurrence of accidents. Section 192.605(c) requires "[s]pecific programs relating to facilities presenting the greatest hazard to public safety," but does not elaborate on the intent of the programs. A new § 192.605(b)(6) is proposed to parallel § 195.402(c)(6) with regard to minimizing the potential for hazards. Procedures to minimize accident recurrence are required by § 192.617.

Section 195.402(c)(7) requires procedures for pipeline startup and shutdown within appropriate operating parameters. Part 192 does not contain a similar requirement, except with regard to compressor stations under § 192.729. Gas pipelines are shut down, intentionally and unintentionally, and restarted, and appropriate procedures are vital for maintaining the safety of the pipeline. The proposed § 192.605(b)(7) is comparable to § 195.402(c)(7).

Sections 195.402(c)(8) and (c)(9) pertain to monitoring pipelines that are not equipped to fail safe for operation outside of normal limits. Part 192 does not contain a similar requirement. Liquid pipelines can fail in extremely short times as a result of pressure excursions. Gas pipelines do not exhibit similar behavior. Therefore, provisions comparable to (c)(8) and (c)(9) need not be added to § 192.605.

Section 195.402(c)(10) requires procedures for abandoning pipeline facilities. In part 192, § 192.727 covers this topic in appropriate detail and requires that procedures for abandonment be included in each operator's O&M plan. Thus, there is no need for further treatment of this topic under § 192.605.

Section 195.402(c)(11) addresses minimizing the potential for ignition of vapors at locations determined to require immediate response under § 195.402(c)(4) where the potential exists for the presence of flammable liquids or gases. Section 192.751 similarly requires operators to minimize the potential for gas ignition in structures and other locations where the presence of gas constitutes an ignition or explosion hazard. Although this section does not require written procedures, they would have to be prepared and included in the O&M manual under the proposed § 192.605(b)(1), which would require procedures for implementing all subpart M maintenance standards. OPS is not proposing any other change to § 192.605 to compare with § 195.402(c)(11).

Section 195.402(c)(12) addresses establishing and maintaining liaison with police, fire, and other public officials so that operator and public response capabilities are known in advance of any emergency. part 192 covers this topic adequately in § 192.615(c), and it need not be added to § 192.605.

Section 195.402(c)(13) requires periodic review of the work of operator personnel to determine the effectiveness of O&M procedures. It requires further that the operator correct any deficiencies encountered. Section 192.605 does not require similar review and revision of O&M procedures. Thus, § 192.605(b)(10) is proposed to compare with § 195.402(c)(13).

The proposed § 192.605(b)(11) is the existing § 192.605(e).

The existing requirements of § 192.605(d) regarding the conversion of

a low-pressure distribution system to a higher pressure would be deleted because such conversion is equivalent to uprating, and § 192.553(c) requires a

address. A large fraction of pipeline maintenance, particularly leak repair, is done in excavated trenches where escaping gas or evaporating liquid can

compressor stations. In addition § 192.737 requires a plan for inspection and testing of pipe-type and bottle-type holders. OPS proposes to delete these

Federalism

This action has been analyzed in accordance with the principles and criteria contained in E.O. 12612. RSPA

commence, and appropriate parts must be kept at locations where operations and maintenance activities are conducted.

(i) Provision for detecting external corrosion before the strength of the container has been impaired;

(ii) Periodic sampling and testing of

1989
UMI

a low-pressure distribution system to a higher pressure would be deleted because such conversion is equivalent to uprating, and § 192.553(c) requires a written procedure to ensure compliance with subpart K, Uprating.

Section 195.402(d) addresses abnormal operations. It requires procedures to provide safety when operating design limits are exceeded, as indicated by, among other items, operation of safety devices, unintended closure of valves or shutdowns, pressure excursions beyond normal limits, and loss of communications. Part 192 does not currently require procedures to respond to abnormal operations, but OPS believes such procedures are appropriate for transmission lines. Since abnormal conditions on transmission lines can worsen, creating an imminent hazard or emergency, they should properly be addressed in the O&M procedures. Therefore, a new § 192.605(c) is proposed to agree with § 195.402(d). Section 195.402(d)(3) has not been included because it would be redundant with the proposed § 192.605(c)(1)(ii).

Section 195.402(e) covers emergency response procedures. Under part 192, such procedures are required by § 192.615. However, for conformity with § 195.402, OPS is proposing under § 192.605(e) that the gas pipeline emergency procedures be included in the O&M manual. Many operators now do so. This proposal would serve to unite all O&M procedures in a manual. The public education program required by § 192.615(d) would be restated as § 192.616 to not confuse it with the emergency procedures to be added to the O&M manual. Also, § 195.440 separates similar education requirements from requirements for emergency procedures.

Also, to unite all O&M procedures in a manual, the proposed § 192.605(e) would require that the surveillance procedures operators must prepare under § 192.613(a) be included in the O&M manual.

Personnel Safety

The intent of the Federal minimum safety standards embodied in parts 192 and 195 is to protect the public from the hazards attendant to the transportation of gas and hazardous liquids by pipeline. Included implicitly in this statement is the goal of protecting pipeline personnel, as they also constitute a part of the general public.

Personnel protection is for the most part an indirect consequence of the regulations and need not often be addressed explicitly. However, OPS has identified two areas that do merit direct address. A large fraction of pipeline maintenance, particularly leak repair, is done in excavated trenches where escaping gas or evaporating liquid can create a hazardous environment. Although pipeline personnel are generally trained to work in such environments, OPS believes that, to ensure the safety of personnel, each O&M procedures manual should include procedures for: (1) Taking adequate precautions in excavated trenches to protect personnel from the hazards of unsafe accumulations of vapor or gas; and (2) making available at the excavation emergency rescue equipment, including a breathing apparatus and a rescue harness and line. The proposed § 192.605(b)(12) and § 195.402(b)(14) would establish these requirements.

Other Related Sections

In subpart I of part 192, § 192.453 requires gas operators to establish procedures to implement the corrosion control requirements of the subpart. In keeping with OPS's objective of requiring gas operators to collect all required procedures for pipeline maintenance in a single manual, the requirement of § 192.453 to establish corrosion control procedures would be transferred to § 192.605(b)(2), and § 192.453 would be revised appropriately. By including this requirement in § 192.605, it would be clear that gas pipeline corrosion control procedures must be written and be a part of the O&M manual.

In subpart M of part 192, § 192.706, Transmission lines: Leakage surveys, § 192.723, Distribution systems: Leakage surveys and procedures, and § 192.727, Abandonment or inactivation of facilities, each contain an explicit requirement that the operator cover the respective subject in its O&M procedures. Each section then provides relevant safety requirements. Because the proposed § 192.605(a) would require procedures for operating and maintaining pipelines generally, and § 192.605(b)(1) would require procedures to meet all of the O&M requirements of subparts L and M, the specific references to O&M procedures in §§ 192.706, 192.723, and 192.727 would no longer be needed and could be construed to limit the application of § 192.605(b)(1). Therefore, §§ 192.706, 192.723, and 192.727 would be modified to remove the reference to O&M procedures.

Three other sections in subpart M of part 192, §§ 192.729, 192.731, and 192.733 require procedures for starting, operating, and shutting down compressors and for maintaining compressor stations. In addition § 192.737 requires a plan for inspection and testing of pipe-type and bottle-type holders. OPS proposes to delete these sections and move the requirements they contain to § 192.605(b)(8), (9), and (13). This would serve to consolidate all O&M plans and procedures in a single manual and to clarify that the plans and procedures required for compressors and for pipe-type and bottle-type holders must be written.

Impact Assessment

Gas pipeline operators are currently required to have written comprehensive O&M procedures. This proposal would merely specify more clearly the required contents of such procedures. Thus, most operators' procedures should already cover the proposed topics, although possibly not in the detail being proposed or in manual form. The expense associated with compliance would be for collection and organization of existing procedures, with some elaboration where necessary. Therefore, this proposal is considered to be nonmajor under Executive Order 12291 but is considered significant under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979) because of the need for adequate procedures to provide a basis for training and qualifying operator personnel. Since the proposed rule should require minimal compliance expense, it does not warrant preparation of a Draft Evaluation. Also, based on the facts available concerning the impact of this proposal, I certify under section 605 of the Regulatory Flexibility Act that it would not, if adopted as final, have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This proposed rulemaking would modify existing information collection requirements in § 192.605. This proposed modification will be submitted to the Office of Management and Budget (OMB) for approval under the Paperwork Reduction Act of 1980 (44 U.S.C. chap. 35). Persons desiring to comment on these information collection requirements should submit their comments to the Office of Regulatory Policy, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503, Attention: Desk Officer. Research and Special Programs Administration (RSPA). Persons submitting comments to OMB are also requested to submit a copy of their comments to RSPA as indicated above under ADDRESS.

Federalism

This action has been analyzed in accordance with the principles and criteria contained in E.O. 12612. RSPA has determined that it does not have sufficient federalism implications to warrant preparation of a Federalism Assessment.

List of Subjects

49 CFR Part 192

Emergency, Maintenance, Operations, Pipeline safety, Reporting and recordkeeping requirements.

49 CFR Part 195

Emergency, Maintenance, Operations, Pipeline safety, Reporting and recordkeeping requirements.

In consideration of the foregoing, OPS proposes to amend parts 192, and 195 as set forth below:

1. The authority citation for part 192 continues to read as follows:

Authority: 49 App. U.S.C. 1672 and 1804; and 49 CFR 1.53.

3. Section 192.453 would be revised to read as follows:

§ 192.453 General.

The corrosion control procedures required by § 192.605(b)(2) of this part, including those for the design, installation, operation, and maintenance of cathodic protection systems, must be carried out by, or under the direction of, a person qualified by experience and training in pipeline corrosion control methods.

4. Section 192.603(b) would be revised to read as follows:

§ 192.603 General provisions.

* * * * *

(b) Each operator shall keep records necessary to administer the procedures established under § 192.605 of this part.

5. Section 192.605 would be revised to read as follows:

§ 192.605 Procedural manual for operations, maintenance, and emergencies.

(a) *General.* Each operator shall prepare and follow for each pipeline, a manual of written procedures for conducting normal operations and maintenance activities and handling emergencies. For transmission lines, the manual must also include procedures for handling abnormal operations. This manual must be reviewed at intervals not exceeding 15 months, but at least once each calendar year, and appropriate changes made as necessary to ensure that the manual is effective. This manual must be prepared before initial operations of a pipeline system commences, and appropriate parts must be kept at locations where operations and maintenance activities are conducted.

(b) *Maintenance and normal operations.* The manual required by paragraph (a) of this section must include procedures for the following to provide safety during maintenance and normal operations:

(1) Operating, maintaining, and repairing the pipeline in accordance with each of the requirements of this subpart and subpart M of this part.

(2) Controlling corrosion in accordance with each of the requirements of subpart I of this part.

(3) Making construction records, maps, and operating history available to appropriate personnel as necessary for safe operation and maintenance.

(4) Gathering of data needed for reporting incidents under part 191 of this chapter in a timely and effective manner.

(5) Determining which pipeline facilities are located in areas that would require an immediate response by the operator to prevent hazards to the public if the facilities failed or malfunctioned.

(6) Minimizing the potential for hazards identified under paragraph (b)(5) of this section.

(7) Starting up and shutting down any part of the pipeline in a manner designed to assure operation within the MAOP limits prescribed by this part, plus the build-up allowed for operation of pressure-limiting and control devices.

(8) Maintaining compressor stations, including provisions for isolating units or sections of pipe and for purging before returning to service.

(9) Starting, operating, and shutting down gas compressor units.

(10) Periodically reviewing the work done by operator personnel to determine the effectiveness of the procedures used in normal operation and maintenance and taking corrective action where deficiencies are found.

(11) Periodic inspections to ensure that operating pressures are appropriate for the class location.

(12) Taking adequate precautions in excavated trenches to protect personnel from the hazards of unsafe accumulations of vapor or gas, and making available when needed at the excavation emergency rescue equipment, including a breathing apparatus and a rescue harness and line.

(13) Systematic and routine testing and inspection of pipe-type or bottle-type holders including—

(i) Provision for detecting external corrosion before the strength of the container has been impaired;

(ii) Periodic sampling and testing of gas in storage to determine the dew point of vapors contained in the stored gas which, if condensed, might cause internal corrosion or interfere with the safe operation of the storage plant; and

(iii) Periodic inspection and testing of pressure limiting equipment to determine that it is in a safe operating condition and has adequate capacity.

(c) *Abnormal operation.* For transmission lines, the manual required by paragraph (a) of this section must include procedures for the following to provide safety when operating design limits have been exceeded:

(1) Responding to, investigating, and correcting the cause of:

(i) Unintended closure of valves or shutdowns;

(ii) Increase or decrease in pressure or flow rate outside normal operating limits;

(iii) Loss of communications;

(iv) Operation of any safety device;

(v) Any other malfunction of a component, deviation from normal operation, or personnel error which could cause a hazard to persons or property.

(2) Checking variations from normal operation after abnormal operation has ended at sufficient critical locations in the system to determine continued integrity and safe operation.

(3) Notifying responsible operator personnel when notice of an abnormal operation is received.

(4) Periodically reviewing the response of operator personnel to determine the effectiveness of the procedures controlling abnormal operation and taking corrective action where deficiencies are found.

(d) *Safety-related condition reports.* The manual required by paragraph (a) of this section must include instructions enabling personnel who perform operation and maintenance activities to recognize conditions that potentially may be safety-related conditions that are subject to the reporting requirements of § 191.23 of this chapter.

(e) *Surveillance, emergency response, and accident investigation.* The procedures required by §§ 192.613(a), 192.615, and 192.617 of this part must be included in the manual required by paragraph (a) of this section.

§ 192.615 [Redesignated as § 192.616(d)]

6. Section 192.615(d) would be redesignated as § 192.616 *Public education,* and the paragraph designation would be removed.

§ 192.706 [Amended]

7. In § 192.706, paragraph (a) would be removed, the introductory text of paragraph (b) would be redesignated as the introductory text of the section, and paragraphs (b)(1) and (b)(2) would be redesignated paragraphs (a) and (b), respectively.

8. In § 192.723, the section heading and paragraph (a) would be revised to read as follows:

§ 192.723 Distribution systems: Leakage surveys.

(a) Each operator of a distribution system shall conduct periodic leakage surveys in accordance with this section.

* * * * *

9. In § 192.727, the section heading and paragraph (a) would be revised to read as follows:

§ 192.727 Abandonment or deactivation of facilities.

(a) Each operator shall conduct abandonment or deactivation of pipelines in accordance with the requirements of this section.

* * * * *

§ 192.729 [Removed]

10. Section 192.729 would be removed.

§ 192.733 [Removed]

11. Section 192.733 would be removed.

§ 192.737 [Removed]

12. Section 192.737 would be removed.

PART 195—[AMENDED]

13. The authority citation for part 195 continues to read as follows:

Authority: 49 App. U.S.C. 2002; 49 CFR 1.53.

14. In § 195.402, a new paragraph (b)(14) would be added to read as follows:[1]

[1] Editorial Note: Elsewhere in this Part III, the Research and Special Programs Administration is proposing to redesignate current paragraph (c) in § 195.402 as paragraph (b). This proposed amendment would affect newly designated paragraph (b).

§ 195.402 Procedural manual for operations, maintenance, and emergencies.

* * * * *

(b) * * *

(14) Taking adequate precautions in excavated trenches to protect personnel from the hazards of unsafe accumulations of vapor or gas, and making available when needed at the excavation emergency rescue equipment, including a breathing apparatus and a rescue harness and line.

* * * * *

Issued in Washington, DC, on October 26, 1989.

Richard L. Beam,

Director, Office of Pipeline Safety.

DEPARTMENT OF EDUCATION

34 CFR Part 673

RIN 1840-AB04

Income Contingent Loan Program

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Higher Education Admendments of 1986 authorize the Secretary to implement an Income Contingent Direct Loan Program Demonstration Project (ICL Demonstration Project) beginning with the 1987–88 award year. The Secretary is issuing regulations to implement the due diligence procedures for the ICL Demonstration Project. The ICL Demonstration Project is examining the feasibility of a loan program that uses the income contingent repayment method in order to increase the economic and full use of student loan funds.

EFFECTIVE DATE: These regulations take effect either 45 days after publication in the **Federal Register** or later if Congress takes certain adjournments, with the exception of §§ 673.52, 673.53, 673.55, 673.57, 673.58 and 673.59. Sections 673.52, 673.53, 673.55, 673.57, 673.58, and 673.59 will become effective after the information collection requirements contained in those sections have been submitted by the Department of Education and approved by the Office of Management and Budget under the Paperwork Reduction Act of 1980. A document announcing the effective date will be published in the **Federal Register**. If you want to know the effective date of these regulations, call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: Mr. Harold McCullough, Division of Policy and Program Development, Office of Student Financial Assistance, U.S. Department of Education, 400 Maryland Avenue, SW., (Regional Office Building 3, Room 4310), Washington, DC 20202. Telephone number: (202) 732–4490.

SUPPLEMENTARY INFORMATION: In the **Federal Register** on August 5, 1987, 52 FR 29120–29138, the Secretary promulgated final rules governing those aspects of the Income Contingent Loan (ICL) Demonstration Project, other than the billing and collection of ICL loans. On November 30, 1987, the Secretary published a notice of proposed rulemaking (NPRM) pertaining to billing and collection in the **Federal Register**, 52 FR 45570. The Secretary now publishes final rules for this aspect of the ICL program, as subpart E—Due Diligence.

These ICL due diligence regulations require each institution participating in the ICL Program (1) to inform ICL borrowers of their rights and responsibilities, (2) to attempt to collect from borrowers, and, under certain conditions, (3) to sue defaulted borrowers. The Secretary has utilized the Perkins Loan Program due diligence requirements for the ICL Program with modifications necessary to address those issues that are unique to the ICL Program. A few significant changes have been made to the NPRM as explained in the following analysis.

Analysis of Comments and Changes

In response to the Secretary's invitation in the NPRM, seven parties submitted comments on the proposed regulations. An analysis of the comments and of the changes in the regulations since publication of the NPRM follows.

Major issues are grouped according to subject, with appropriate sections of the regulations referenced in parentheses. Other substantive issues are discussed under the section of the regulations to which they pertain. Technical and other minor changes—and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority—are not addressed.

General

Comments: Several commenters supported the adoption of the Perkins Loan due diligence requirements as a basis for those for the ICL Program on the ground that this approach minimizes confusion caused by conflicting requirements for similar programs.

Two commenters objected to the manner in which the NPRM was promulgated, *i.e.*, using the final Perkins Loan due diligence regulations as the comment document and requesting comments on the appropriate adjustments needed to these regulations to operate the ICL Program.

Discussion: As with other aspects of the ICL Program, the due diligence procedures for the ICL Demonstration Project have been closely modeled on the Perkins Loan Program requirements. The Secretary believes that this consistency between the programs facilitates the administration of both programs.

The manner in which the NPRM was promulgated reflected the intention of the Secretary to utilize the same due diligence requirements set forth in the Perkins Loan Program regulations for the ICL Program, with minor modifications, as well as the need to establish final regulations for due diligence procedures for the ICL Program before institutions participating in the ICL Demonstration Project during the 1987–88 academic year would be presented with the need to use due diligence procedures to collect these loans. Since all participating ICL institutions are required to have demonstrated a thorough and effective familiarity with the loan collection rules in effect in the Perkins Loan Program in order to qualify for an ICL award, the Secretary believes that the method of promulgation for the NPRM was the most efficient way in which to achieve the goals of the Demonstration Project in a timely manner.

Changes: None.

Comments: Two commenters recommended that the Secretary continue to evaluate the requirements of the ICL Program throughout the Demonstration Project.

Discussion: The Higher Education Amendments of 1986 authorized the Secretary to conduct an Income Contingent Loan Demonstration Project beginning with the 1987–88 award year and charged the Secretary with providing an evaluation of the Demonstration Project to Congress. As indicated in the regulations published August 5, 1987, the Secretary is evaluating the ICL Demonstration Project on an on-going basis and, as a result of this evaluation, may propose modifications to the statute and to the regulations governing the ICL Program throughout the Demonstration Project.

Changes: None.

Comments: One commenter agreed that the Secretary should not routinely accept assignments of defaulted ICLs at this time.

Discussion: The ICL Program provides a great deal of flexibility for institutions and borrowers who can therefore tailor repayment terms to fit their financial circumstances. As a result, the Secretary anticipates that the default rate for the ICL Program will be low, and that, at the present time, it is not necessary to implement procedures for institutions to assign defaulted ICLs to the Department.

Changes: All references to the assignment of defaulted ICLs have been deleted.

Enforcement Policy and Procedures for Failure to Submit Required Income Information

Comments: A number of commenters wanted the Secretary to adopt an alternative method for calculating the annual repayment obligation of a borrower who failed to submit the required income information in a timely manner.

Discussion: Failure to pay an established installment payment on an ICL or Perkins loan presents the same problem to the institution, and there was little need to reconsider the NPRM to address the enforcement of the loan obligation in the case of a "financial default." Only ICL obligations present the added responsibility to submit income information to adjust a previously set installment payment level, and failure to meet that obligation is a default on the loan as well.

The Secretary noted in the NPRM that the need to secure from the borrower annual income information was the principal difference between enforcement of Perkins loans and Income Contingent Loans, and he has reconsidered several provisions of the NPRM, which were based on the Perkins Loan enforcement regulations, with particular attention to this need. The Secretary recognizes in particular that the institution will be faced with the dilemma of deciding on appropriate enforcement action with regard to a borrower who fails to submit required income information but continues to make regular payments at a previously-established rate.

The Secretary believes that additional study is needed before a decision is made to implement any alternative repayment model of the type suggested by one commenter for these "information defaults." The Secretary also recognizes that the "information defaulter" demonstrates some degree of compliance with the loan contract by submitting payments, and that too abrupt a transition into enforced collection, including litigation, could result in a careless but not yet recalcitrant borrower deciding to withhold payment of any kind until compelled to do so by a court judgment. Although this may result in the establishment of a firm policy that the income information must be submitted, it could jeopardize the continued receipt of payments on these loans, a matter of consequence to a loan fund designed to operate as a revolving fund. Not only would more forceful collection steps on an "information default," including acceleration of the loan, risk causing an interruption of the payments currently being made, but routine treatment of an "information default" in the same manner as a "financial default" would mean that the institution would engage a collection firm to handle the debt. It is not reasonable to incur contingent fees on an account on which the borrower has submitted, and continues to submit, regular payments, because those collection efforts have not produced the payments against which they would be charged. Whether or not those costs are fully charged to the borrower, their imposition seems unnecessary and detrimental to the program. Too lenient an enforcement policy, on the other hand, would undermine the integrity of the ICL program by permitting those borrowers whose incomes have substantially increased, and therefore have the most reason to withhold information, to disregard that duty with impunity.

These considerations suggest the need for greater flexibility for the institution in the selection of enforcement tools for "information defaults" than is permitted for "financial defaults". Credit bureau reporting may be especially effective for that group of borrowers who may be inclined to withhold information showing recent and substantial increases in their incomes, because those individuals may be more likely than the average borrower to seek those larger extensions of credit and employment in those positions for which a credit examination will be routinely performed. Default based on failure to supply income information is a default nonetheless, and the borrower does not qualify for additional title IV aid while that default persists; however, the sanction of ineligibility for further aid may be less useful in dealing with this group of borrowers. An institution that adopts a policy of withholding academic transcripts for loan defaulters might appropriately use that sanction for "information defaults" as well.

The Secretary notes that a borrower who defaults remains in default until a satisfactory written repayment agreement has been reached with the institution. 34 CFR 668.7(e)(2)(ii), 673.2(b), 674.2(b). The institution may insist that the "information defaulter," by that repayment agreement, repay the loan on a schedule fixed by the institution without regard to future changes in income.

Changes: The Secretary does not believe it prudent to adopt an alternative repayment method at this time, and no change has been made to adopt this recommendation. However, the Secretary has made other changes to the NPRM to address the problem of the "information default" described by the commenter. First, § 673.52(a) has been amended to require explanation during the exit interview of the duty to supply income information. Section 673.52(c) has been amended to require the institution to contact the borrower by October 1 of each year of the repayment period to remind the borrower to submit the required income information by the following November 1.

To deal with the need for flexibility in the use of collection methods, the Secretary has amended §§ 673.53 and 673.55 to require the institution to report "information defaults" that are not (yet) "financial defaults" to credit bureaus, but to permit the institution to defer more forceful collection action—in particular, the use of collection firms and resort to litigation—until after it accelerates the loan, or until after the borrower misses a payment and becomes a "financial default" as well. In reporting an "information default" to a credit bureau, the institution should use the credit bureau status that indicates that the account is "not being paid in accordance with the agreement between the creditor and the borrower" (e.g., TRW status code 70, CBI status code 079). Although credit bureaus use various codes to do so, the Secretary believes that this adverse rating is widely used and understood by credit bureaus and their customers. The Secretary considers this relatively inexpensive sanction an appropriate enforcement tool to deal with "information defaults" in light of the negative consequences that may follow more forceful collection techniques. The institution may use its discretion in determining when to accelerate the loan; the institution may do so when it determines that the borrower has demonstrated persistent or repeated failure to report income information. The Secretary believes that this determination can be reasonably made when the borrower has failed, despite demand, to submit required information for a full year; the institution may accelerate earlier than that, depending on the facts presented in a particular case, including failure in the past to submit this information timely, or an intervening failure to submit a payment of any kind.

Sections 673.53 Billing Procedures and 673.55 Collection Procedures

Comments: Two commenters suggested that the cost of maintaining funds received at billing services and collection agencies in interest-bearing accounts will not be offset by the interest earnings on the accounts and requested modification to the regulations to allow banking costs not offset by interest earnings to be charged to the fund.

Discussion: The Secretary believes that the overall net income to the fund as a result of maintaining ICL funds in interest-bearing accounts offsets any loss to a particular school. Furthermore,

VOL 54 ISS 213 NO 6 1989 UMI

billing services and collection agencies may each commingle in their accounts the ICL funds collected as long as they can identify the interest earnings by institution. In addition, although banking costs not offset by interest earnings may not be charged to the fund, an institution may use its administrative cost allowance to cover these costs.

Changes: None.

Section 673.54 Address Searches

Comments: One commenter supported the use of procedures under § 673.54, "Address Searches", covering past-due payments for delays in submission of income information when the delay in submission is the result of a bad address.

Discussion: The Secretary agrees with the commenter and notes that the procedures outlined under § 673.54 are to be used by the institution to attempt to locate a borrower whenever the institution has sent mail, other than unclaimed mail; to the borrower which is returned undeliverable.

Changes: None.

Section 673.57 Costs Chargeable to the Fund

Comments: Two commenters asked the Secretary to clarify the imposition of costs to the borrower in the collection process.

Discussion: If the institution has incurred costs in following the prescribed due diligence procedures, these costs must be passed on to the borrower. Certain costs, such as those associated with address searches and credit bureau reporting, may be paid directly from the fund and later passed on to the borrower. The payments received from the borrower are then to be applied to these accrued collection costs and to contingency fees charged by collection agencies.

Changes: None.

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Assessment of Educational Impact

In the notice of proposed rulemaking, the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the proposed rules and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 673

Education, Loan programs—education, Student aid.

(Catalog of Federal Domestic Assistance Number N/A)

Dated: October 4, 1989.

Lauro F. Cavazos,

Secretary of Education.

The Secretary amends part 673 of title 34 of the Code of Federal Regulations by adding a new Subpart E, to read as follows:

PART 673—INCOME CONTINGENT LOAN PROGRAM

Subpart E—Due Diligence

Sec.

673.51 Due diligence—general requirements.
673.52 Contact with the borrower.
673.53 Billing procedures.
673.54 Address searches.
673.55 Collection procedures.
673.56 Litigation procedures.
673.57 Costs chargeable to the Fund.
673.58 Use of contractors to perform billing and collection or other program activities.
673.59 Bankruptcy of borrower.

Subpart E—Due Diligence

Authority: 20 U.S.C. 1087a–1087e, unless otherwise noted.

§ 673.51 Due diligence—general requirements.

(a) *General.* Each institution shall exercise due diligence in collecting loans by complying with the provisions in this subpart. In exercising this responsibility, each institution shall, in addition to complying with the specific provisions of this subpart—

(1) Keep the borrower informed, on a timely basis, of all changes in the program that affect his or her rights or responsibilities; and

(2) Respond promptly to all inquiries from the borrower or any endorser.

(b) *Due diligence with regard to endorser.* If a borrower does not respond satisfactorily to the final demand letter required in § 673.53(c)(2) and the loan has been accelerated, an institution shall, in addition to pursuing the borrower, pursue recovery of the debt from any endorser using the steps described in this subpart.

(c) *Coordination of information.* An institution shall ensure that information available in its offices (including the admissions, business, alumni, placement, financial aid, and registrar's offices) is provided to those offices responsible for billing and collecting loans, in a timely manner, as needed to determine—

(1) The enrollment status of the borrower;

(2) The expected graduation or termination date of the borrower;

(3) The date the borrower withdraws, is expelled, or ceases enrollment on at least a half-time basis; and

(4) The current name, address, telephone number, and Social Security number of the borrower.

(Authority: 20 U.S.C. 1087c)

§ 673.52 Contact with the borrower.

(a) *Exit interview.* (1) An institution shall conduct an exit interview with each borrower before he or she leaves the institution. If an individual interview is not feasible, the institution may conduct a group interview. During the interview the institution shall restate for the borrower the terms and outstanding balance of the loan held by the institution, and the borrower's duty to repay the loan in accordance with the repayment schedule as it may vary depending on changes in the income of the borrower and his or her spouse. The institution shall explain to the borrower the consequences of defaulting including, at a minimum, possible referral to a collection firm, reporting to a credit bureau, and litigation. Furthermore, the institution shall explain the borrower's rights and responsibilities under the loan, including the following:

(i) The borrower's responsibility to inform the institution immediately of any change of name, address, telephone number, or Social Security number.

(ii) The borrower's right to deferment, cancellation, or postponement of repayment, and the procedures for filing for those benefits.

(iii) The borrower's responsibility to contact the institution in a timely manner, before the due date of any payment he or she cannot make.

(iv) The borrower's responsibility to submit the income information required under § 673.43(b)(3) to the institution by November 1 of each calendar year.

(2) An institution shall disclose the following information during the exit interview, and shall include it in the promisorry note or in another written statement provided to the borrower:

(i) The name and the address of the institution to which the debt is owed and the name and address of the official or servicing agent to whom communications, incuding the annual required income information, should be sent.

(ii) The name and the address of the party to which payments should be sent.

(iii) The estimated balance owed by the borrower on the loan held by the institution on the date on which the repayment period is scheduled to begin.

(iv) The stated interest rate on the loan, and, if that rate is variable, the manner in which it is determined.

(v) The current payment formula used to calculate the borrower's annual repayment obligation, the date the first installment payment is due, and the frequency of required payments.

(vi) A statement that the borrower has the right to prepay all or part of the loan at any time without penalty.

(vii) A description of the charges imposed for failure of the borrower to pay all or part of an installment when due.

(viii) A description of any charges that may be imposed as a consequence of default, such as liability for expenses reasonably incurred in attempts by the institution to collect on the loan.

(ix) The estimated total of interest charges which the borrower will pay on the loan pursuant to the projected repayment schedule.

(3) At the time of the exit interview the institution shall—

(i) Have the borrower sign a copy of the disclosure statement of the current payment formula;

(ii) Provide a copy of the signed promissory note and the signed disclosure statement of the current payment formula to the borrower; and

(iii) Retain signed copies of both the note and the disclosure statement of the current payment formula in the institution's files.

(4) The institution shall contact a borrower promptly after it determines that the borrower either has not attended an exit interview that he or she was scheduled to attend or has already left the institution, and shall—

(i) Provide the borrower, either in person or by mail, the information described in paragraphs (a) (1) and (2) of this section; and

(ii) Provide a copy of the note and two copies of the disclosure statement of the current payment formula to the borrower and request that the borrower promptly sign and return one of the statements to the institution.

(b) *Contact with the borrower during the grace period.* (1) The institution shall contact the borrower three times within the grace period.

(2) (i) The institution shall contact the borrower for the first time 90 days after the commencement of the grace period. The institution shall at this time remind the borrower of his or her responsibility to comply with the terms of the loan and shall send the borrower the following information:

(A) The total amount remaining outstanding on the loan account, including principal and interest expected to accrue over the remaining life of the loan.

(B) The date of the first required payment.

(C) (*1*) The amount of the first required payment if the borrower does not submit the income information as specified in § 673.43(b)(3); or

(*2*) The formula used to calculate the amount of the first required payment if the borrower does submit the income information as specified in § 673.43(b)(3).

(D) An explanation of the borrower's right to choose the payment amount derived under paragraph (b)(2)(i)(C)(*1*) or (b)(2)(i)(C)(*2*) of this section without penalty. This explanation includes informing the borrower of his or her option to submit the income information specified in § 673.43(b)(3) for the initial repayment period.

(ii) The institution shall contact the borrower the second time 150 days after the commencement of the grace period. The institution shall at this time notify the borrower of the date of the first required payment and the information specified in paragraphs (b)(2)(i) (C) and (D) of this section.

(iii) The institution shall contact the borrower the third time 240 days after the commencement of the grace period, and shall then inform him or her of the date and amount of the first required payment and the information specified in paragraphs (b)(2)(i) (C) and (D) of this section.

(c) *Contact with the borrower during the repayment period.* (1) The institution shall contact the borrower by October 1 of each year of the repayment period to remind the borrower of his or her obligation to submit the required income information as specified in § 673.43(b)(3).

(2) The institution shall notify the borrower of his or her annual repayment obligation and the amount and frequency of payments for each year at least 30 days before the first payment for that year is due.

(Authority: 20 U.S.C. 1087c)

§ 673.53 Billing procedures.

(a) The term "billing procedures," as used in this subpart, includes that series of actions routinely performed to notify borrowers of payments due on their accounts, to remind borrowers to submit overdue payments or required income information, and to demand payment of overdue amounts. An institution shall use the following billing procedures:

(1) If the institution uses a coupon payment system, it shall send the coupons to the borrower at least 30 days before the first payment of the annual repayment obligation is due.

(2) If the institution does not use a coupon system, it shall send to the borrower—

(i) A written notice giving the name and address of the party to which payments are to be sent and a statement of account at least 30 days before the first payment of the annual repayment obligation is due; and

(ii) A statement of account at least 15 days before the due date of each subsequent payment.

(b) (1) An institution shall send a first overdue notice within 15 days after the due date for a payment or the required income information if the institution has not received—

(i) The required payment;

(ii) A request for deferment;

(iii) A request for cancellation; or

(iv) The required income information.

(2) Subject to § 673.57(a), the institution shall assess a late charge for loans during the period in which the institution takes any steps described in this section to secure—

(i) Any part of an installment payment not made when due;

(ii) A request for deferment or cancellation of repayment on the loan that contains sufficient information to enable the institution to determine whether the borrower is entitled to the relief requested; or

(iii) The income information required to be submitted annually by the borrower.

(3) The institution shall determine the amount of the late charge based on either—

(i) Actual costs incurred for actions required under this section to secure the required payment of information from the borrower; or

(ii) The average cost incurred for similar attempts to secure payments or information from other borrowers.

(4) The institution may not require a borrower to pay late charges in an amount, for each late payment, income information submission, or request, exceeding 20 percent of the installment payment most recently due.

(5) The institution shall notify the borrower of the amount of the charge it has imposed, and whether the institution—

(i) Has added that amount to the principal amount of the loan as of the first day on which the installment was due; or

VOL 54 NO 6 1989 SS 213 UMI

(ii) Demands payment for that amount in full no later than the due date of the next installment.

(c) If the borrower does not satisfactorily respond to the first overdue notice, the institution shall continue to contact the borrower as follows, until the borrower makes satisfactory repayment arrangements, submits the required income information, or demonstrates entitlement to deferment of cancellation:

(1) The institution shall send a second overdue notice within 30 days after the first overdue notice is sent.

(2) The institution shall send a final demand letter within 15 days after the second overdue notice. This letter must inform the borrower that, as appropriate—

(i) If the institution does not receive the required income information within 30 days of the date of the letter, it will report the default to a credit bureau;

(ii) If the institution does not receive a payment or a request for deferment or cancellation within 30 days of the date of the letter, it will refer the account for collection or litigation, and will report the default to a credit bureau.

(d) Notwithstanding paragraphs (b) and (c) of this section, an institution may send a borrower a final demand letter if the institution has not within 15 days after the due date received a payment, the required income information, or a request for deferment or cancellation, and if—

(1) The borrower's repayment history has been unsatisfactory, e.g., the borrower has previously failed to make payment(s) when due, to submit the required income information, or to request deferment in a timely manner, or has previously received a final demand letter; or

(2) The institution reasonably concludes that the borrower neither intends to repay the loan or to submit the required income information nor intends to seek deferment or cancellation of the loan.

(e) (1) An institution that accelerates a loan as provided in § 673.42 (i.e., makes the entire outstanding balance of the loan, including accrued interest and any applicable late charges, payable immediately) shall—

(i) Provide the borrower, at least 30 days before the effective date of the acceleration, written notice of its intention to accelerate; and

(ii) Provide the borrower on or after the effective date of acceleration, written notice of the date on which it accelerated the loan and the total amount due on the loan.

(2) The institution may provide these notices by including them in other written notices to the borrower, including the final demand letter.

(f) If the borrower does not respond to the final demand letter within 30 days from the date it was sent, the institution shall attempt to contact the borrower by telephone before beginning collection procedures.

(g) (1) An institution shall ensure that any funds collected as a result of billing the borrower are—

(i) Deposited in interest-bearing bank accounts that are—

(A) Insured by an agency of the Federal Government; or

(B) Secured by collateral of reasonably equivalent value; or

(ii) Invested in low-risk income-producing securities, such as obligations issued or guaranteed by the United States.

(2) An institution shall exercise the level of care required of a fiduciary with regard to these deposits and investments.

(Authority: 20 U.S.C. 1087c)

§ 673.54 Address searches.

(a) If mail, other than unclaimed mail, sent to a borrower is returned undelivered, an institution shall take steps to locate the borrower. These steps must include—

(1) Reviews of records in all appropriate institutional offices;

(2) Reviews of telephone directories or inquires of information operators in the locale of the borrower's last known address; and

(3) Use of the Department of Education's skip-tracing service.

(b) If an institution is unable to locate a borrower by the means described in paragraph (a) of this section, it shall—

(1) use its own personnel to attempt to locate the borrower, employing and documenting efforts comparable to commonly accepted commercial skip-tracing practices; or

(2) Refer the account to a firm that provides commercial skip-tracing services.

(c) If the institution acquires the borrower's address or telephone number through the efforts described in this section, it shall use that new information to continue its efforts to collect on that borrower's account in accordance with the requirements of this subpart.

(d) If the institution is unable to locate the borrower after following the procedures in paragraphs (a) and (b) of this section, the institution shall make reasonable attempts to locate the borrower at least twice a year until—

(1) Litigation to collect the borrower's account is barred under the applicable statute of limitations; or

(2) The account is written off under § 673.57(g).

(Authority: 20 U.S.C. 1087c)

§ 673.55 Collection procedures.

(a) The term "collection procedures," as used in this subpart, includes that series of more intensive efforts, including litigation as described in § 673.56, to recover amounts owed from defaulted borrowers who do not respond satisfactorily to the demands routinely made as part of the institution's billing procedures. If a borrower does not satisfactorily respond to the final demand letter or the following telephone contact made in accordance with § 673.53(f), the institution shall take the following actions—

(1) Report the defaulted account to a credit bureau, unless specifically prohibited by State law;

(2) Use its own personnel to collect the amount due or demand the required income information; or

(3) Engage a collection firm to collect any account that has been accelerated or on which the borrower is not making payments at regularly scheduled intervals.

(b)(1) An institution shall select one or more credit bureaus for its information referrals with due regard for the coverage provided by the bureau or bureaus. An institution may select a bureau which serves—

(i) The areas from which the major portion of its students was drawn; or

(ii) The areas in which all or a major portion of its alumni/ae now reside.

(2) An institution shall report, according to the reporting procedures of the bureau, any changes in account status to the bureau to which it reported the defaulted account, and shall respond promptly and accurately to any inquiry from any bureau regarding the information reported on the loan account.

(c) (1) If the institution, or the firm it engages, pursues collection activity for up to 12 months and does not succeed in converting the account described in paragraph (a)(3) of this section to required repayment status, or the borrower does not qualify for deferment or cancellation on the loan, the institution shall either—

(i) Litigate; or

(ii) Make a second effort to collect the account as follows:

(A) If the institution first attempted to collect the account using its own personnel, it shall, unless specifically prohibited by State law, refer the account to a collection firm.

(B) If the institution first attempted to collect the account by using a collection firm, it shall either attempt to collect the account using institutional personnel, or place the account with a different collection firm.

(2) If the collection firm retained by the institution does not succeed in placing an account into a repayment status described in paragraph (c)(1) of this section after 12 months of collection activity, the institution shall require the collection firm to return the account to the institution.

(d) If the institution is unable to place the loan in a repayment status described in paragraph (c)(1) of this section after following the procedures in paragraphs (a), (b), and (c) of this section, the institution shall continue to make annual attempts to collect from the borrower until recovery in litigation to collect the account would be barred under the applicable statute of limitations.

(e) (1) Subject to § 673.57(d), the institution shall assess against the borrower all reasonable costs incurred by the institution with regard to a loan obligation.

(2) The institution shall determine the amount of collection costs that shall be charged to the borrower for actions required under this section, and §§ 673.54, 673.56, 673.58, and 673.59, based on either—

(i) Actual costs incurred for these actions with regard to the individual borrower's loan; or

(ii) Average costs incurred for similar actions taken to collect loans in similar stages of delinquency.

(3) The Fund must be reimbursed for collection costs initially charged to the Fund and subsequently paid by the borrower.

(f) (1) An institution shall ensure that any funds collected from the borrower are—

(i) Deposited in interest-bearing bank accounts that are—

(A) Insured by an agency of the Federal Government; or

(B) Secured by collateral of reasonably equivalent value; or

(ii) Invested in low-risk income-producing securities, such as obligations issued or guaranteed by the United States.

(2) An institution shall exercise the level of care required of a fiduciary with regard to these deposits and investments.

(Authority: 20 U.S.C. 1087c, 1091a)

§ 673.56 Litigation procedure.

(a) (1) If the collection efforts described in § 673.55(c)(1) do not result in the repayment of a loan, the institution shall determine at least annually, until litigation to collect the account is barred under the applicable statute of limitations, whether—

(i) The total amount owing on the borrower's account, including outstanding principal, accrued interest, collection costs, and late charges on all of the borrower's ICLs held by that institution, is more than $200;

(ii) The borrower can be located and served with process;

(iii) (A) The borrower has sufficient assets attachable under State law to satisfy a major portion of the outstanding debt; or

(B) The borrower has income from wages or salary which may be garnished under applicable State law sufficient to satisfy a major portion of the debt over a reasonable period of time;

(iv) The borrower does not have a defense that will bar judgment for the institution; and

(v) The expected cost of litigation, including attorney's fees, does not exceed the amount which can be recovered from the borrower.

(2) The institution shall sue the borrower if it determines that the conditions in paragraph (a)(1) of this section are met.

(3) The institution may sue a borrower in default, even if the conditions in paragraph (a)(1) of this section are not met.

(b) The institution shall assess against and attempt to recover from the borrower—

(1) All litigation costs, including attorney's fees, court costs, and other related costs, to the extent permitted under applicable law; and

(2) All prior collection costs incurred and not yet paid by the borrower.

(c) (1) An institution shall ensure that any funds collected as a result of litigation procedures are—

(i) Deposited in interest-bearing bank accounts that are—

(A) Insured by an agency of the Federal Government; or

(B) Secured by collateral of reasonably equivalent value; or

(ii) Invested in low-risk income-producing securities, such as obligations issued or guaranteed by the United States.

(2) An institution shall exercise the level of care required of a fiduciary with regard to these deposits and investments.

(Authority: 20 U.S.C. 1087c)

§ 673.57 Costs chargeable to the Fund.

(a) *General: billing costs.* (1) Except as provided in paragraph (c) of this section, the institution shall assess against the borrower, in accordance with § 673.53(b)(2), the cost of actions taken with regard to past-due payments on the loan.

(2) If the amount recovered from the borrower does not suffice to pay the amount of the past-due payments and the late charges, the institution may charge the Fund only that portion of the late charges which represents the unpaid portion of the cost of telephone calls to the borrower pursuant to § 673.53 to demand payment of overdue amounts and income information not timely submitted.

(b) *General: collection costs.* (1) Except as provided in paragraph (d) of this section, the institution shall assess against the borrower, in accordance with §§ 673.55(e) and 673.56(b), the costs of actions taken on the loan obligation pursuant to §§ 673.54, 673.55, 673.56, 673.58, and 673.59.

(2) If the amount recovered from the borrower is not sufficient to pay the amount on the past-due payments, late charges, and these collection costs, the institution may charge against the Fund the unpaid collection costs in accordance with paragraph (e) of this section.

(c) *Waiver: late charges.* The institution may waive late charges assessed against a borrower who repays the full amount of the past-due payments on a loan.

(d) *Waiver: collection costs.* Before filing suit on a loan, the institution may waive that percentage of the collection costs applicable to the amount then past due on the loan equal to the percentage of that past-due balance that the borrower pays within 30 days of the date on which the borrower and the institution enter into a written repayment agreement on the loan.

(e) *Limitations on costs charged to the Fund.* The institution may charge to the Fund the following costs not paid by the borrower, including amounts waived under paragraph (d) of this section:

(1) A reasonable amount for the cost of a successful address search required in § 673.54(b).

(2) Costs related to the use of credit bureaus as provided in § 673.55(b)(1).

(3) For first collection efforts pursuant to § 673.55(a)(3), an amount that does not exceed 33⅓ percent of the amount of principal, interest, and late charges collected.

(4) For second collection efforts pursuant to § 673.55(c)(1)(ii), an amount that does not exceed 50 percent of the amount of principal, interest, and late charges collected.

(5) For litigation costs, including attorney's fees, court costs, and other

related costs, an amount which does not exceed—

(i) Actual costs incurred in taking specific actions in bankruptcy

employees to perform these duties or may contract with other parties to perform them.

(b) An institution that contracts for

known, any changes to the borrower's Social Security number;

(iii) Amounts collected from the borrower; and

institution to the party during a two-month period.

(4) The institution shall review annually the amount of repayments

(4) If the institution concludes that repayment would not impose an undue hardship, the institution shall determine whether the costs reasonably expected

(C) Whether grounds exist under 11 U.S.C. 1307 to move for conversion or dismissal of the chapter 13 case.

(ii) If the institution determines that

VOL 54 ISS 213 NO 6 1989 UMI

related costs, an amount which does not exceed—

(i) Actual costs incurred in taking specific actions in bankruptcy proceedings required or authorized under § 673.59;

(ii) That portion of costs of other actions in bankruptcy proceedings which, together with costs authorized and incurred under paragraph (e)(5)(i) of this section, do not exceed one-third of the total amount of the judgment obtained on the loan; and

(iii) In all other cases, 50 percent of the amount collected on a judgment obtained against the borrower.

(6) If a collection firm performs or contracts for the performance of both collection and litigation activities on a defaulted loan, an amount for both of the functions that does not exceed 33⅓ percent of the amount of principal, interest, and late charges collected by a first collection effort as required in § 673.55(a), or 50 percent for a second collection effort as required in § 673.55(c)(1).

(f) *Records.* For audit purposes, an institution shall support the amount of collection costs charged to the Fund with appropriate documentation, including telephone bills and receipts from collection firms. The documentation must be maintained in the institution's files as provided in § 673.32.

(g) *Write-offs.* (1) An institution may write off an account if—

(i) (A) It carries out the procedures in §§ 673.53, 673.54 and 673.55; and

(B) The total amount owing on a borrower's loan account held by that institution, including outstanding principal, accrued interest, late charges, and collection costs on all of the borrower's ICLs is $200.00 or less; or

(ii) (A) The loan is discharged in bankruptcy; and

(B) The institution has exhausted the procedures in this subpart with regard to any endorser.

(2) An institution which writes off an account under this paragraph may no longer include the amount of the account as an asset of the Fund.

(3) If an institution receives a payment from a borrower after the loan has been written off, it shall deposit that payment into the Fund.

(Authority: 20 U.S.C. 1087c, 1091a)

§ 673.58 Use of contractors to perform billing and collection or other program activities.

(a) The institution is responsible for ensuring compliance with the billing and collection procedures set forth in this subpart. The institution may use employees to perform these duties or may contract with other parties to perform them.

(b) An institution that contracts for performance of any duties under this subpart remains responsible for compliance with the requirements of this subpart in performing these duties, including decisions regarding cancellation or deferment of repayment, extension of the repayment period, other billing and collection matters, and the safeguarding of all funds collected by its employees and contractors.

(c) If an institution uses a billing service to carry out billing procedures under § 673.53, the institution shall ensure that the service—

(1) Provides at least quarterly, a statement to the institution which shows—

(i) Its activities with regard to each borrower;

(ii) Any changes in the borrower's name, address, telephone number, and, if known, any changes to the borrower's Social Security number; and

(iii) Amounts collected from the borrower;

(2) Provides at least quarterly, a statement to the institution with a listing of its charges for skip-tracing activities and telephone calls;

(3) Does not deduct its fees from the amount it receives from borrowers;

(4) (i) Instructs the borrower to remit payment directly to the institution;

(ii) Instructs the borrower to remit payment to a lock-box maintained for the institution; or

(iii) Deposits those funds received directly from the borrower immediately upon receipt in an institutional trust account; and

(5) Maintains a fidelity bond or comparable insurance in accordance with the requirements in paragraph (f) of this section.

(d) If the institution uses a collection firm, the institution shall ensure that the firm—

(1) (i) Instructs the borrower to remit payment directly to the institution;

(ii) Instructs the borrower to remit payment to a lock-box maintained for the institution; or

(iii) Deposits those funds received directly from the borrower promptly in an institutional trust account, after deducting its fees, if authorized to do so by the institution; and

(2) Provides at least quarterly, a statement to the institution which shows—

(i) Its activities with regard to each borrower;

(ii) Any changes in the borrower's name, address, telephone number and, if known, any changes to the borrower's Social Security number;

(iii) Amounts collected from the borrower; and

(3) Maintains a fidelity bond or comparable insurance in accordance with the requirements in paragraph (f) of this section.

(e) If an institution uses a billing service to carry out § 673.53 (billing procedures), it may not use a collection firm that—

(1) Owns or controls the billing service;

(2) Is owned or controlled by the billing service; or

(3) Is owned or controlled by the same corporation, partnership, association, or individual that owns or controls the billing service.

(f) (1) An institution that employs a third party to perform billing or collection services required under this subpart shall ensure that the party has and maintains in effect a fidelity bond or comparable insurance in accordance with the requirements of this paragraph.

(2) If the institution does not authorize the third party to deduct its fees from payments from borrowers, the institution shall ensure that the party is bonded or insured in an amount not less than the amount of funds that the institution reasonably expects to be repaid over a two-month period on accounts it refers to the party.

(3) If the institution authorizes the third party performing collection services to deduct its fees from payments from borrowers, the institution shall ensure that—

(i) If the amount of funds that the institution reasonably expects to be paid over a two-month period on accounts it refers to the party is less than $100,000, the party is bonded or insured in an amount equal to the lesser of—

(A) Ten times the amount of funds that the institution reasonably expects to be repaid over a two-month period on accounts it refers to the party; or

(B) The total amount of funds that the party demonstrates will be repaid over a two-month period on all accounts of any kind on which it performs billing and collection services; and

(ii) If the amount of funds that the institution reasonably expects to be repaid over a two-month period on accounts it refers to the party is more than $100,000, the institution shall ensure that the party has and maintains in effect a fidelity bond or comparable insurance— ution

(A) Naming the institution as beneficiary; and

(B) In an amount not less than the amount of funds reasonably expected to be repaid on accounts referred by the institution to the party during a two-month period.

(4) The institution shall review annually the amount of repayments expected to be made on accounts it refers to a third party for billing or collection services, and shall ensure that the amount of the fidelity bond or insurance coverage maintained continues to meet the requirements of this paragraph.

(Authority: 20 U.S.C. 1087c)

§ 673.59 Bankruptcy of borrower.

(a) *General.* If an institution receives notice that a borrower has filed a petition for relief in bankruptcy, usually by receiving a notice of meeting of creditors, the institution and its agents shall immediately suspend any collection efforts outside the bankruptcy proceeding—

(1) Against the borrower; and

(2) If the borrower has filed for relief under chapter 12 or 13 of the Bankruptcy Code, against any endorser.

(b) *Proof of claim.* The institution shall file a proof of claim in the bankruptcy proceeding, unless, in the case of a proceeding under Chapter 7 of the Bankruptcy Code, the notice of meeting of creditors states that the borrower has no assets.

(c) *Borrower's request for determination of dischargeability.* (1) The institution shall follow the procedures in this paragraph if it is properly served with a complaint in a proceeding under chapter 7, 11, or 12 of the Bankruptcy Code, or under 11 U.S.C. 1328(b), for a determination of dischargeability under 11 U.S.C. 523(a)(8)(B) on on the ground that repayment of the loan would impose an undue hardship on the borrower and his or her dependents.

(2) If more than five years of the repayment period on the loan, excluding periods of deferment granted to the borrower, has passed before the borrowrer filed the petition for relief in bankruptcy, the institution may not oppose a determination of dischargeability requested under 11 U.S.C. 523(a)(8)(B) on the ground of undue hardship.

(3) If less than five years of the repayment period on the loan, excluding periods of deferment granted to the borrower, has passed before the borrower filed the petition for relief, the institution shall determine, on the basis of reasonably available information, whether repayment of the loan under either the current repayment schedule or any adjusted schedule authorized under § 673.44(h) would impose an undue hardship on the borrower and his or her dependents.

(4) If the institution concludes that repayment would not impose an undue hardship, the institution shall determine whether the costs reasonably expected to be incurred to oppose discharge will exceed one-third of the total amount owed on the loan, including all unpaid principal, interest, late charges, and collection costs.

(5) If the expected costs of opposing discharge of such a loan do not exceed one-third of the total amount owed on the loan, the institution shall—

(i) Oppose the borrower's request for a determination of dischargeability; and

(ii) If the borrower is in default on the loan, seek a judgment for the amount owed on the loan.

(6) In opposing a request for a determination of dischargeability, the institution may compromise a portion of the amount owed on the loan if it reasonably determines that the compromise is necessary in order to obtain a judgment for the institution on the loan.

(d) *Request for determination of non-dischargeability.* The institution may file a complaint for a determination that a loan obligation is not dischargeable and for judgment on the loan if the institution would have been required under paragraph (c) of this section to oppose a request for a determination of dischargeability with regard to that loan.

(e) *Chapter 13 repayment plan.* (1) The institution shall follow the procedures in this paragraph in response to a repayment plan proposed by a borrower who has filed for relief under chapter 13 of the Bankruptcy Code.

(2) The institution is not required to respond to a proposed repayment plan, if—

(i) The borrower proposes under the repayment plan to repay all principal, interest, late charges, and collection costs on the loan; or

(ii) The repayment plan makes no provision with regard either to the loan obligation or to general unsecured claims.

(3)(i) If the borrower proposes under the repayment plan to repay less than the total amount owed on the loan, the institution shall determine from its own records and court documents—

(A) The amount of the loan obligation dischargeable under the plan by deducting the total payments on the loan proposed under the plan from the total amount owed;

(B) Whether the plan or the classification of the loan obligation under the proposed plan meets the requirements of section 1325 of the Code; and

(C) Whether grounds exist under 11 U.S.C. 1307 to move for conversion or dismissal of the chapter 13 case.

(ii) If the institution determines that grounds exist to support these actions and reasonably expects that costs of the appropriate actions will not exceed one-third of the dischargeable loan debt, the institution shall—

(A) Object to confirmation of a proposed plan that does not meet the requirements of 11 U.S.C. 1325; and

(B) If grounds can be established under 11 U.S.C. 1307, either

(*1*) Move to dismiss the case, or

(*2*) If the loan entered repayment less than five years, excluding periods of deferment, before the petition for relief, move to convert the case.

(4)(i) The institution shall monitor the borrower's compliance with the requirements of the plan confirmed by the court. If the institution determines that the debtor has not made the payments required under the plan, or has filed a request for a "hardship discharge" under 11 U.S.C. 1328(b), the institution shall determine from its own records and information derived from documents filed with the court—

(A) Whether grounds exist under 11 U.S.C. 1307 to convert or dismiss the case; and

(B) Whether the borrower has demonstrated entitlement to the "hardship discharge" by meeting the requirements of 11 U.S.C. 1328(b).

(ii) If the institution determines that grounds exist to support these actions and reasonably expects that costs of the appropriate actions, when added to the costs already incurred in taking actions authorized under this section, will not exceed one-third of the dischargeable loan debt, the institution shall—

(A) (*1*) Move to dismiss the case, or

(*2*) If the loan entered repayment less than five years, excluding periods of deferment, before the petition for relief, move to convert the case; and

(B) Oppose the requested discharge where the debtor has not demonstrated that the requirements of 11 U.S.C. 1328(b) are met.

(f) *Resumption of collection from the borrower.* The institution shall resume billing and collection action prescribed in this subpart after—

(1) The borrower's petition for relief in bankruptcy has been dismissed;

(2) The borrower has received a discharge under 11 U.S.C. 727, 11 U.S.C. 1141, 11 U.S.C. 1228, or 11 U.S.C. 1328(b), unless—

(i) The court has found that repayment of the loan would impose an undue hardship on the borrower and the dependents of the borrower; or

VOL

1
3
NO
6
1989
UMI

(ii)(A) The loan entered the repayment period more than five years, excluding periods of deferment, before the filing of the petition, and

(B) The loan is not excepted from discharge under other applicable provisions of the Code; or

(3) The borrower has received a discharge under 11 U.S.C. 1328(a) after completion of a repayment plan which made no provisions with regard to either—

(i) The loan obligation; or

(ii) Unsecured claims in general.

(g) *Resumption of collection from the endorser.* The institution shall resume billing and collection action against an endorser of a borrower who has filed for relief under chapter 12 or 13 of the Code after the borrower's case has been completed or dismissed, or the stay applicable to such action has been lifted.

(h) *Termination of collection and write-off.* (1) An institution shall terminate all collection action and write off a loan on which there is no endorser if it receives—

(i) A general order of discharge under chapter 7, 11, or 12 of the Bankruptcy Code or a discharge order under 11 U.S.C. 1328(b) for a borrower owing a student loan obligation which entered the repayment period more than 5 years, excluding periods of deferment, before the date on which a petition for relief was filed;

(ii) A discharge order under chapter 13 of the Bankruptcy Code, except an order under 11 U.S.C. 1328(b) for a borrower owing a student loan obligation which entered the repayment period less than 5 years, excluding periods of deferment, before the filing of the petition of relief.

(iii) A judgment that repayment of the debt would constitute an undue hardship, and that the debt is therefore dischargeable.

(2) If an institution receives a repayment from a borrower after a loan has been discharged, it shall deposit that payment in its Fund.

(3) An institution may write off a loan on which there is an endorser only after it has exhausted the procedures in this subpart with regard to the endorser.

Department of Labor

Employment and Training Administration

Federal-State Unemployment Compensation Program; Quality Control Annual Administrative Determination; Notice

VOL 54 ISS 213 NO 6 1989 UMI

DEPARTMENT OF LABOR

Federal-State Unemployment Compensation Program; Quality Control Annual Administrative Determination

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice of opportunity to comment on options for federal administrative action resulting from the annual determination of the adequacy of State Quality Control programs.

SUMMARY: The final regulation to establish the permanent Quality Control (QC) program for the Unemployment Insurance (UI) program provides for an annual determination of the adequacy of administration of the State QC program. The regulation further provides in § 602.41 that the Secretary of Labor may require repayment of an expenditure for the operation of the QC program if it is found, after reasonable notice and opportunity for hearing to the State agency, that such expenditure is not necessary for the proper and efficient administration of the QC program in that State.

This notice sets forth proposed options for Administrative action in cases where State QC operations and expenditures for QC do not meet the criteria for proper and efficient administration of the program. The options set forth describe a basis for repayment or other administrative actions. Comments are requested on each of these options.

DATE: Written comments must be received by the close of business on December 6, 1989.

ADDRESS: Submit comments to Mary Ann Wyrsch, Director, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, Room S–4231, Frances Perkins Building, 200 Constitution Avenue, NW., Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: Charles Atkinson, Director, Office of Quality Control, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, Room S–4015, Frances Perkins Building, 200 Constitution Avenue, NW., Washington, DC 20210. Telephone (202) 535–0220 (not a toll free number).

SUPPLEMENTARY INFORMATION:

A. Introduction

1. Description of the Benefits QC Program

The Unemployment Insurance Benefits Quality Control program became mandatory in all 52 State Employment Security Agencies (SESAs) on October 5, 1987 with the publication at 20 CFR Part 602 of the final regulation to establish a permanent Quality Control program for the Federal-State Unemployment Insurance system. This program examines paid claims only. It does not address denied claims or revenue functions at this time. Calendar year 1988 represented the first full year of operation of the mandatory program.

The QC program consists of a continuing comprehensive review of a statewide probability sample of UI payments to assess the accuracy of the State's payment process. Each week a sample of original intrastate payments made for a week of unemployment is randomly selected. The relevant population excludes supplemental payments, waiting weeks, interstate payments, and extended benefits.

An audit of the selected claims is conducted by State QC staff. The QC staff examines all aspects of a claimant's eligibility to receive unemployment compensation during the sampled week. The investigation includes, but is not limited to, verifications of wages used to establish monetary entitlements, the claimant's reason for being unemployed, and efforts to find work during the week. The findings are then numerically coded and entered into a microcomputer located in each State.

The data collected in accordance with these procedures enables the QC program to meet its primary objective of strengthening the controls that prevent errors and/or fraud and abuse in the payment of UI benefits. QC provides both Federal and SESA administrators with a management system for accurately measuring the rate of incorrect payments, the reasons for incorrect payments, and a basis for reducing incorrect payments in each State. Identification of specific types, causes, and responsibility for errors provides information about the effectiveness of State programs and the quality of their underlying policies, thereby serving as a basis to improve and strengthen program operations. QC data should lead State and national program managers to make significant program improvements resulting in dollar savings, and continuing benefit payment integrity.

One of the several consensus principles accepted by the Department, and embodied in the QC regulation (§ 602.43) is that the Department will use neither sanctions nor funding incentives to influence the States to take actions to achieve particular error rates. Instead, QC is to serve a public information function. The regulation, at § 602.21(g), requires that States release QC results at the same time each year using a standardized format. States released results of the QC program for CY 1988 to the public in June 1989 and the Department published a compendium of the releases in July.

2. The Secretary's Responsibilities

While the consensus principles as outlined in the regulation governing QC provide that no sanctions or funding incentives would be used to force the achievement of specified error rates under QC, the regulation provides for specific measures to be applied in cases where the States fail to adequately administer the QC program in accordance with required methods and procedures.

The QC Regulation requires the Department to take action when QC program operations are not consistent with Handbook No. 395 and the annual funding allocations.

Section 602.31, Oversight, of the QC Regulation (20 CFR part 602) requires the Department of Labor to annually review the adequacy of the administration of a State's QC program for purposes of determining eligibility for grants. The Department is committed to ensuring the integrity and utility of the data collected by the QC program so that it can properly serve its State management and Federal oversight functions. There is concern, therefore, when a State does not sample at a level that will provide sufficient data to conduct anaylsis and establish sufficiently precise estimates of error rates.

The Department has identified three areas of QC operations that are key to optimal program operation where failure to perform represents inadequacies in administration. These areas are: failure to sample at the allocated level for the year; failure to sample for a week(s) or sampling below the weekly allowable minimum; and failure to complete the required percentage of cases within the established case completion timeframes. These areas represent the measures used to ensure the key features of precision, coverage and timeliness. These three quantifiable areas were selected because the quality of investigation and therefore of the QC program can be essentially measured by these indicators. QC results need to be accurate to properly guide State corrective actions and to insure that accurate data is being released to the public. It is for these three areas that the Department will determine whether repayment of QC administrative funds will be expected when standards for these areas are not met.

3. Statistical Basis for the QC Program

a. Precision of estimates of errors

Precision is the degree an estimate from a sample can be expected to deviate from the expected value (average) obtained from repeated samples. The larger the sample, the greater the precision. Thus, to estimate the rate of the payment error in a population with a sufficient degree of precision, States must sample and complete enough cases. Within its fiscal constraints, the Department has allocated via the Program Budget Plan sample sizes that are set at levels that will result in acceptably precise estimates of payment errors. States with larger UI case loads—where errors have larger dollar consequences—have been allocated larger sample sizes in order to obtain precise estimates of errors in subgroups of their more diverse populations. They are also allocated additional resources to enable these States to perform more extensive analyses.

b. Coverage

Coverage refers to the ability to make estimates for the entire population (52 weeks of UI payment decisions), and not just selected portions of the population. Thus QC procedures require that a minimum number of cases be sampled each week to ensure coverage of each week's (batch's) activity. Failure to sample for one or more weeks results in the inability of a State to draw inferences about a portion of the population. Loss of coverage will obscure seasonal and cyclical fluctuations in QC data and lessen its usefulness as a management tool.

c. Timeliness

The preceding categories are intended to ensure that samples reflect with adequate precision (i.e. small enough error due to the variability from one sample to another) the entire population of UI payments. Timeliness of case completion is necessary to minimize non-sampling error i.e., errors in the verification of QC cases. If too much time passes between the time a case is selected for review and the actual investigation, the information obtained may be of less quality than if it is gathered in a timely manner. The respondents (claimants, employers, and third parties) may have difficulty remembering where the work research was conducted, whether or not the claimant actually inquired about employment of an employer, et cetera. The current timelapse criterion of 95% case completion within 90 days is intended to give the investigator enough time to complete a thorough investigation but ensure it is done before respondents' recall weakens.

4. Statement of the Problem

Review of selection and timelapse performance data for CY 1988 indicates problems in some States in the key areas of precision, coverage and timeliness. Twenty eight SESAs did not meet the sample allocation for CY 1988 (precision). In addition, thirty-nine SESAs did not meet the 90-day case completion standard for CY 1988 (timeliness). The selection of the proper sample and timely investigation of the selected cases should lead to quality investigations. Failure to sample at the allocated level makes it difficult for a State to conduct analysis and establish error rates that are sufficiently precise to take the proper corrective actions. Failure to investigate cases in a timely manner casts doubt on the accuracy of the information gathered during the investigation.

B. Options for Administrative Actions

1. Options for Addressing Failure To Sample at the Required Level for the Calendar Year (Precision)

Discussion

Each year funding is provided to State Employment Security Agencies (SESAs) to investigate the number of cases assigned to them. The primary reason for sampling under the UI/QC program is for the purposes of: (1) Drawing inferences about the total caseload, and (2) utilizing the results from the weekly samples to develop corrective action plans that will eliminate errors in the total caseload.

Several factors that reflect a State's diversity and complexity were considered in determining State sample sizes, including measures of the population size (number of weeks compensated), measures of the potential population (covered employment), and geographic area. For example, the State of California is assigned 2000 cases while the State of Delaware is assigned 500 cases. The funding is predicated on the assumption that one investigator can complete approximately 100 cases in a one-year period (about two cases per week).

States are allocated sample sizes necessary to produce accurate error rates and to allow them to identify and remove special causes of variation in the system. States are also able to measure the effects of corrective actions through analysis of subsequent QC findings.

In calendar year 1988, 28 SESAs did not complete the number of cases assigned to them. One of the primary reasons for not meeting the required sampling levels was the difficulty encountered in hiring up to increased staff. This problem has been resolved and it should not recur in calendar year 1989 since the sample levels will not be increased.

Option No. I: Floor of 50 Cases—Flat Rate

Under this option, SESAs would be required to repay the Department at the rate of one full time position equivalent (FTE) for each 100 cases not sampled in the calendar year. However, the repayment requirement would not be instituted until the number of cases undersampled exceeded 50. The rationale for establishing this floor beyond which SESAs would not have to reimburse the Department is that a cutoff should be established in recognition of unforeseen administrative problems that could befall SESAs within a year.

Option No. II: Floor of Five Percent

Under this option, the SESAs would not be required to repay the Department until they reached a fixed percentage of cases not sampled. This would translate to a varying cutoff point for each SESA depending upon its assigned sample size. The rationale for establishing a floor of five percent is that the sample size varies so greatly that all SESAs should not be treated in the same manner. In practice, a State with a sampling level of 1500 cases would be subject to repayment when it reached 75 cases ($1500 \times .05 = 75$). In contrast, a State with a sampling level of 600 cases would be subject to repayment when it exceeded 30 cases ($600 \times .05 = 30$).

Option No. III: No Floor

Under this option, all SESAs would be required to repay the Department for any portion of their assigned allocation which they did not achieve. If a SESA undersampled by 50 cases, the SESA would have to reimburse the Department for one half of a FTE. The rationale for this option is that the SESA is receiving funding to accomplish the task. If the task is not completed, repayment would be required.

2. Options for Failure to Sample for a Week(s) (Coverage)

Discussion

The usefulness of the QC data is based upon two elements—precision and coverage. Precision is achieved by sampling the annual allocated number of cases and the weekly minimum number of cases. Coverage, however, is affected by the degree to which sampling is not conducted for a portion of the population. This is especially important in the UI program where seasonal aspects impact heavily on the data in a State. For example, using Random Audit (the forerunner of QC) data showed that dropping the data for one quarter from the annual error rate calculation in one State would lower the annual error rate by approximately 11.70 percent for dollars and 7.8 percent for weeks overpaid. This large change was due to the historically high error rates which were observed in that quarter.

The Department recognizes that some situations may occur which prevent the SESAs from being able to conduct a sample for a given week; however, that should be relatively rare. If, for example, a SESA's mainframe would be down for an entire week, it would be difficult or impossible to select a sample.

Option No. I: Proportional Assessment

Under this option, the SESA would be required to reimburse the Department based on its failure to investigate a sample for a week. The percentage assessment rate would be established at two percent of the annual grant for QC administration and would be applied to each of the weeks in which samples are not drawn for investigation. The rationale for this assessment is that two percent per week is a reasonably proportional amount of the entire grant.

Option No. II: Flat Rate Assessment

Under this option, the SESAs would be required to reimburse the Department a flat amount for each incidence of non sampling. An assessment would be made for each incidence. This option would address the issue that resources provided are not being utilized for the purpose provided. The proposed action seeks to encourage full funding utilization.

3. Options for Failure To Meet the 90-Day Timelapse Criterion for Case Completion

Discussion

Prompt completion of investigations is important to ensure the integrity and accuracy of the information being collected by questioning claimants and employers before the passage of time affects recollections. Associated data entry is necessary for the Department to maintain a current data base and to monitor SESA performance. Therefore the Department has established time limits for the completion of all cases for the year. At present a minimum of 95 percent of cases assigned for the year must be completed within 90 days of the ending date of the calendar year. Due to questions raised about the ability of the SESAs to achieve this level, the Department has undertaken a study to determine if cases can be administratively controlled by a SESA to meet the 95% criterion. The results of the review may affect the current criterion.

The Department has acknowledged that there may be situations which are beyond the control of the SESA and where good cause exists for not achieving the required criterion. These situations will be reviewed on a case-by-case basis by the Department. If an agency has managed cases so investigations are promptly carried out they will be judged to fall within the criterion.

Option No. I: Percentage Assessment Based on Allocation

Under this option, the percentage of cases assigned that were completed within 90 days will be subtracted from the 90-day case completion standard and the result converted into the number of cases the resulting percentage represents of the annual allocation. States would be required to repay one FTE for each 100 cases not completed within 90 days. Based on the current case completion criteria, a State with an allocation of 1000 cases that completed 75 percent of assigned cases within 90 days would have to repay two FTEs. Completion of 90 percent of the cases would require repayment of .5 FTEs. There would be no repayment if the amount would be less than .5 FTEs.

Option No. II: Percentage Assessment Based on Cases Investigated

Under this option, the percentage of cases not completed within the case completion criteria would be computed using the actual number of cases assigned (sampled) rather than the annual allocation. Thus for a State which only investigated 800 out of an allocated 1000 cases and completed 75% within 90 days, the repayment would be 1.6 FTEs (95% minus 75% times 800). Otherwise the assessment would be applied in the same manner.

C. Applicability to Data for Calendar Years 1988 and 1989

The Department has no plans to apply administrative measures to the data for Calendar Years 1988 or 1989. This notice is intended to solicit comments on possible administrative measures and related issues.

D. Additional Questions for Comment

1. Exceptions

Are there any exceptions to the above options that should be allowed? If so what are they and why should they be allowed? What items are beyond the control of the SESA and which fall within the control of the SESA?

2. Administrative Relevance

At what level(s) do the administrative measures suggested serve as a deterrence to unacceptable levels of performance? Are the levels suggested in the options appropriate? If not, what are appropriate levels?

3. Administrative Process

How should the Department proceed with the assessments? How can disagreements on factual information be best resolved? Should there be informal discussions of the data to ensure accuracy before the assessment is recommended?

4. Timeliness of Investigations

At what point does a late case equal a case not investigated? What is the erosion of case quality in relation to timelapse? What is the optimal definition of a closed case? (Supervisor sign-off, investigation completed, other)

5. Overlap of Administrative Measures

Should the three areas identified for review be looked at independently or should they be combined? If they should be combined, how could this be accomplished?

6. Other Administrative Measures

Are there other measures which would be more appropriate for ensuring that the work is carried out in a manner to achieve the three objectives of precision, coverage, and timeliness? Should other objectives be substituted for the proposed items? If so, what are they and why are they more important in ensuring that the data produced by the QC program can be used by management to make valid conclusions?

Signed at Washington, DC, on October 30, 1989.

Roberts T. Jones,

Assistant Secretary of Labor.

Department of Labor

Employment and Training Administration

20 CFR Part 602

Federal State Unemployment Insurance Program; Revenue Quality Control Design Issues; Notice and Opportunity To Comment

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 602

Federal State Unemployment Insurance Program; Revenue Quality Control Design Issues

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice and opportunity to comment on status and procedural directions of Quality Control program for State unemployment insurance revenue operations (Revenue Quality Control).

SUMMARY: The Employment and Training Administration wishes to inform interested parties of current developments in the design of and procedures for a Quality Control program for State unemployment insurance (UI) revenue operations. The program, called Revenue Quality Control (RQC), is intended to assist State managers in efforts to improve their UI programs by providing them with objective information on the quality of existing UI revenue collection operations. RQC will be used to help carry out the Secretary of Labor's responsibilities to oversee the Federal-State unemployment compensation program. A previous notice, issued December 23, 1988 (53 FR 52108), solicited comment on basic design issues. This notice discusses some preliminary directions based on those comments.

DATE: Comments must be received in the Department of Labor by the close of business on January 5, 1990.

ADDRESS: Submit comments to Mary Ann Wyrsch, Director, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–4231, Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: Janet Sten, Director, Revenue Quality Control Work Group, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–4015, Washington, DC 20210. Telephone (202) 535–0634 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION

A. Background

On December 23, 1988, the Department of Labor (the Department) published a Notice (53 FR 52108) announcing the development of a quality control program for UI tax operations, called RQC. The Notice requested comments on basic design issues regarding the nature and scope of the proposed RQC program. Twenty-eight responses to the notice were received; 23 were from State employment security agencies (SESAs).

The December 23, 1988, **Federal Register** notice stated that the Department would use the initial comments in preparing design specifications for the RQC program, and solicit additional comments on more specific design issues through subsequent notices. This Notice is to inform interested parties of the outcomes of the first comment process and indicate the directions of the RQC program. It is intended to provide project status information and to solicit comments on the contents of section C of this Notice, the RQC Design Approach. Section C defines tax program quality and identifies the objectives to which measures of performance (indicators) must relate.

B. Major Design Directions

The Department proposes to take the following major design directions, all of which had strong support in the responses to the first Notice:

(1) *Meaning of Quality.* Quality in UI tax operations encompasses accuracy, timeliness, and completeness. Completeness pertains only to certain operations, such as collections and status determinations. Although timeliness and accuracy are often traded off against one another, they can be directly related: failure to complete an operation (e.g., registering an employer) in a timely manner can adversely affect "downstream" processes (e.g., issuing forms and instructions to obtain quarterly reports and contributions).

(2) *Classification.* Tax operations will be broken down into the following functions for purposes of RQC: Status Determination; Cashiering; Report Delinquency; Collections; Field Audit; and Account Maintenance. Blocked Claims, suggested as a possible functional category in the December 23, 1988, Notice, will not be a focus of RQC. Although Blocked Claims are a major workload item for Field Operations staff, from a performance standpoint they actually reflect any one of several problems, each of which is best assessed by adequate indicators tracking the timeliness and accuracy of wage and contributions data.

(3) *RQC Indicators (Measures).* (a) RQC will focus on measuring the quality of various tax collection functions. This will usually be done by examining directly the end-products (outcomes) of those functions. However, for some functions, it may be as effective and more efficient to review also some processes as part of the assessment. (E.g., assessment may consist of reviewing internal controls followed by investigation of a small sample of output transactions).

(b) All indicators will be function-specific. RQC does not envision as an end product a single overall "error rate" that aggregates all internal and external influences on State tax performance. Instead, it will provide indicators enabling State managers to track performance of separate functions, which are more likely to lead to program improvements. Accuracy measures will be designed to indicate exception rates by function.

(c) RQC will produce an overall indicator of the impact on UI contributions of employers' departures from full compliance with State UI tax laws governing reporting and payment. RQC may also develop information on how much inaccuracy of employer reporting of covered employment and wages, and delinquencies in payments contribute to the overall impact.

(4) *State vs. Federal Roles.* The Federal government will design the program with the input of State agencies, employers, labor representatives, and other organizations with an interest in the UI program. The State agencies will operate RQC; the Federal government will be responsible for monitoring/validating the data gathered by the SESAs. Many State responses to the December 23, 1988, Notice stressed that RQC should be designed to involve less Federal monitoring than benefits QC; care will be taken in the type and level of Federal monitoring proposed for RQC.

(5) *Standard Methodology.* Initially, RQC intends to require standard methodology for gathering and evaluating all measures.

RQC's development is also being guided by the following premises stated in the December 23, 1988, Notice, and general comments on that Notice:

(6) *Scope.* Through the RQC program, assessment and technical assistance will cover all tax functions except cash management (this is being handled through a separate UIS cash management Initiative). Development of the cash management assessment program will be fully coordinated with RQC, however. The cash management indicators will be incorporated into the RQC program design and into the Performance Measurement Review.

(a) It is intended that RQC's assessment of UI tax operations will be limited to the quality of State operations. RQC will not attempt to measure the influences of changes in economic environment, tax rates, etc., on overall tax program performance.

(b) SESAs are responsible for promoting and facilitating voluntary compliance among subject employers. RQC intends to assess the level of registered employers' compliance in reporting covered wages and making payments. Information about the extent of employer compliance in reporting covered wages will not be used to judge SESAs' effectiveness, but rather to help them focus compliance-related efforts (e.g., targeting their tax audits and employer education efforts).

(c) The primary focus of RQC is to develop indicators (i.e., measures of the timeliness, accuracy, etc., with which particular functions were accomplished) which will assist UI tax managers in program evaluation and improvements. The assessment indicators developed by RQC will be phased in through the Performance Measurement Review project to replace the tax-related indicators now reported through the Quality Appraisal system to serve Federal oversight needs.

(7) *Resources.* RQC will operate in an environment in which resources devoted to all UI QC programs are expected to remain unchanged. However, the Department is committed to ensuring that the RQC program, as designed and mandated, will be adequately funded. This necessitates an economical design for the RQC program. As presently envisioned, one way this will be fostered is to make the fullest possible use of outputs from continuing State operations and machine-gathered counts as inputs for RQC assessment. Where such cannot be used, and special data gathering is deemed essential, every effort will be made to avoid high-frequency sampling and investigation. For example, efforts are being made to develop an approach which focuses on the existence of internal controls, thereby reducing sample sizes significantly. To the extent that additional resources are needed for RQC, they will be obtained by shifting resources from other data-gathering efforts in UI. A primary source of resources for RQC is expected shrinkage in Benefits QC staff needs due to anticipated savings from alternative approaches (e.g., telephone instead of in-person investigations).

(8) *Assessment of Audit Function.* Many comments on the December 23, 1988, Notice expressed the concern that RQC's means of assessing the quality of field audits might be to reaudit a sample of employers who had already been audited by a SESA. This, they felt, would be extremely burdensome on employers. In view of this burden, and the belief that workable alternatives to such an approach can be developed, a decision has been made that RQC will not assess the field audit (Field Operations) function by reauditing employers.

(9) *Program Improvements.* RQC will emphasize sharing information and providing technical assistance about "systems of quality" which contribute to quality UI tax programs.

C. The RQC Design Approach

Every attempt is being made to design the RQC program systematically. The basic approach is as follows: Focus on the UI tax program's mission; develop objectives that support the mission; devise alternative indicators which measure attainment of each objective; evaluate alternative indicators against various suitability criteria; and devise ways of collecting the indicators which are as economical as possible. This approach is grounded in the notion that quality means fulfilling the mission of an organization by accomplishing its objectives. If a SESA tax operation accomplishes its critical functions timely, accurately and completely, it can be termed a "quality" operation.

The following statements of tax program mission and objectives are proposed as the basis for RQC. Comments are sought on these statements and other design guidance contained in this section of the notice.

(1) *SESA Tax Mission.* The mission (or purpose) is the special task or function for which an organization exists; it must be the basis around which notions of quality, assessment and improvement are formed. For UI tax operations, it is to obtain and process contributions and employee wage information timely, accurately and completely.

(2) *SESA Program Objectives.* As noted earlier, tax operations are categorized into various supporting functions. For each function, RQC will develop objectives which support achievement of the mission. Briefly, these are as follows:

(a) *Status Determination:* Achieve timely and accurate identification and registration of employers by (i) taking all reasonable actions to identify subject employers; (ii) determining employer status timely and accurately and (iii) recording employer status information accurately.

(b) *Cashiering:* Achieve prompt and accurate processing of employer remittances for deposit by (i) depositing all remittances promptly and (ii) processing all remittances accurately.

(c) *Report Delinquency:* Promote employer compliance with SESA reporting requirements by taking reasonable steps to obtain delinquent reports: (i) reduce the number of employers delinquent in submitting quarterly wage and contributions reports to an acceptable level and (ii) secure delinquent reports within an acceptable time period.

(d) *Collections:* Promote compliance with contribution requirements by achieving timely collection of all receivables: (i) issue employer billings timely and accurately; (ii) collect employer account receivables timely; and (iii) suspend uncollectible account receivables timely and accurately.

(e) *Field Audit:* Promote and verify employer compliance with State UI laws, regulations, and policies by (i) determining the level of employer compliance and type and cause of noncompliance; (ii) targeting audit selection at non-compliance; (iii) ensuring that Field Audits are of adequate quality; and (iv) maintaining an acceptable level of audit production.

(f) *Account Maintenance:* Establish and maintain accounts accurately and timely by (i) maintaining accuracy in quarterly contribution accounting; (ii) maintaining accuracy and timeliness in wage records; (iii) maintaining accuracy in benefit charging; and (iv) maintaining accuracy in employer experience rating.

(3) *Indicators to Measure Achievement of Objectives.* The very fact that an activity is measured tends to cause SESAs to emphasize that action. Items selected for measurement must have a clear and demonstrable relationship to the achievement of program objectives and thus to the overall mission of the UI program. Failure to identify program objectives correctly, or the selection of the wrong items for measurement, can force SESA's to use scarce resources to do things or correct "problems" that have no real impact on the true quality of the UI program. Proposed indicators having the desired characteristics are being developed now.

(4) *Evaluation of Potential Indicators.* As discussed in section B(1) above, RQC will develop measures for up to three dimensions of quality for each function: accuracy; timeliness; and completeness. Whether a measure is warranted, and the choice of specific measures, will be determined by applying three criteria: (a) Materiality, (b) Cost Effectiveness, and (c) Legal Compliance. (a) *Materiality* refers to whether the dimension is significant with respect to

VOL
54
ISS
2
1
3
NO
6
1989
UMI

the function: does it make a significant difference in achieving the SESA tax program mission? (b) *Cost Effectiveness:* how is the cost of gathering the information related to the gain it brings to improved program administration? (c) *Compliance:* Does Federal/State law require that a given dimension of quality of performance be measured, and does the indicator in question really measure whether or not a State is complying with the law?

(5) *Economical Data Collection Approaches.* RQC is attempting to develop data collection approaches which provide adequate information for State management and Federal oversight purposes, and are appropriate to each indicator and function being assessed. Where possible, use of machine counts of outputs from program operations collected via regular reports with data validation is preferred. Alternatives are investigation of a sample or a review of internal controls combined with investigation of a small sample or (e.g., for reviewing field audit quality) use of a quality checklist.

D. Ensuring Broad and Effective Participation in the Revenue QC Design

Four different approaches are being used to ensure that RQC receives all relevant technical and organizational perspectives during the design period. They are:

(1) *Continuing In-person Dialogues.* Visits to various SESAs and briefings of national public interest groups have helped shape the RQC design and been a major means of keeping groups aware of its status. Dialogues have continued at national and regional conferences.

(2) *State Specialists on the RQC Workgroup.* The following State experts, working under Intergovernmental Personnel Act details, help staff the RQC workgroup: James Alexander (Utah); Betty Castillo (New Mexico); Gail Eulenstein (Alabama); Nick Guarriello (Oregon); and Gerald Smart (Texas).

(3) *Reality Testing With Expert Panels.* Two panels of experts regularly review RQC goals and progress. A panel of DOL regional tax specialists is consulted approximately every 3 months. They represent each of the 10 DOL regions, as follows: Region I, Paul Raiche; Region II, Pat Rowe; Region III, Leo Bull; Region IV, Connie Carter; Region V, Bill Browne; Region VI, Pat Silva; Region VII, Steve Weigel; Region VIII, Bill Mannion; Region IX, John Humphrey; and Region X, Larry Heasty.

In addition, a panel of senior-level State UI tax experts is consulted on technical questions by Abt Associates, Inc., the RQC task force's technical consultant. The State experts are: John Mezzio, UI Director, Connecticut; Tom Malone, Director of UI Tax Liability and Field Audit, New York; Jim Oxenburg, Tax Chief, District of Columbia; Rett Hensley, Deputy Chief (Tax Enforcement), Florida; Fred Siegenthaler, Tax Director, Wisconsin; Dave Marrie, Deputy Administrator, Oklahoma; Richard Hobold, Chief of Employer Contributions, Missouri; Michael Buske, Labor Program Administrator (Tax), South Dakota; Karl Grossenbacher, Deputy Agency Director (Tax), California; and Kurt Malisio, Chief of Tax, Washington.

(4) *Federal Register Notices.* This is the second in a continuing series of Notices. The next, containing proposed measures of performance and data collection techniques, will be issued this coming winter. That Notice will reflect the input of the DOL Regional Advisory Panel and the panel of State UI tax experts.

E. Comments

The preceding material is presented for the general information of those interested in the nature and progress of the RQC program design. Comments on any and all of this material are welcomed, and, as with the preceding Notice, will help shape the directions followed by the RQC task force.

Signed at Washington, DC, on October 31, 1989.

Roberts T. Jones,

Assistant Secretary of Labor.

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Proposed Water Supply Improvement Project, Regulatory Permit Application No. 17194E76, Alameda, Contra Costa, Sacramento, Solano, San Joaquin, Amador, Calaveras, Alpine, and Yolo Counties, CA.

AGENCY: San Francisco District, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent to prepare a DEIS.

SUMMARY:

1. Proposed Action

East Bay Municipal Utility District (EBMUD), Oakland, California has applied for a Department of the Army permit under section 10 of the River and Harbor Act of 1899 (33 U.S.C. 403) and under section 404 of the Clean Water Act (33 U.S.C. 1344) to construct water supply improvements including Buckhorn Dam, Folsom South Canal Connection, and levee and foundation improvements.

Buckhorn dam would be an embankment approximately 370 feet high with a crest length of approximately 1,600 feet, constructed on the Buckhorn/Kaiser Creeks arm of the Upper San Leandro Reservoir. When full, the water surface area would be approximately 1,124 acres. A pipeline, tunnels, and a pumping plant would connect the Reservoir outlet to the EBMUD water supply system in Moraga.

The Folsom South Canal Connection would provide a supplemental water supply of up to 150,000 acre-feet per year from the American River, by construction of a pipeline connection between EBMUD's turnout on the Folsom South Canal and the existing Mokelumne Aqueducts.

EBMUD also plans to make a number of levee reinforcements. Levee reinforcements would minimize the risk of levee failure at the river crossings and the potential for damage to the aqueducts from scour. The levees would be reinforced on either side of the aqueducts and on each levee at the aqueduct river crossings. Locations of levee reinforcement include crossings at San Joaquin River, Trapper Slough, Middle River, Old River, and Indian Slough. This would also include field testing and preliminary design of possible pile support systems and an emergency pipeline across the Delta.

The San Francisco District, Corps of Engineers and EBMUD will prepare a joint federal/state environmental impact document (Environmental Impact Report/Environmental Impact Statement (EIR/EIS)) for the proposed project pursuant to the National Environmental Policy Act and the California Environmental Quality Act.

2. Alternatives

The alternatives being considered by the EBMUD at this time fall into the following categories:

a. No Action (permit denial)
b. Water Conservation
c. Water Reclamation
d. New Aqueduct across the Delta
e. New Reservoirs—Terminal Storage Projects
f. Interties with Other Agencies
g. Watershed Management
h. Water Exchange

Additional alternatives identified during the scoping process would also be considered in the EIR/EIS.

3. Scoping Process

a. Scoping meetings will be held in Sacramento and in Oakland. The scoping meeting in Oakland will be held on Wednesday, December 6, 1989 at Kaiser Center–2nd Floor Auditorium, 300 Lakeside Drive, Oakland, California, from 7 p.m. to midnight. Two scoping meetings will be held in Sacramento at the Clarion Hotel, Terrace Room, Main Floor, 700 16th Street, Sacramento. The meetings will be held at 1:00–5:00 p.m. (for agencies) and 7:00 p.m. to midnight (for the general public).

Public and private interest groups, and the public are invited to participate in the scoping process by attending the evening scoping meetings. The purpose of the scoping meetings is to identify significant issues and alternatives to be considered in the EIR/EIS.

Any person may also participate in the scoping process by submitting written comments to the Corps of Engineers. Comments should be addressed to the District Engineer, San Francisco District, Corps of Engineers, 211 Main Street, San Francisco, California, 94105–1905 and received within 30 days of the date of this notice.

b. The significant issues which have been identified to date and which would be analyzed in the EIR/EIS include impacts on:

(1) Water quality and Hydrology
(2) Air quality
(3) Noise conditions
(4) Wildlife and habitat
(5) Aesthetics
(6) Recreation and Land Use
(7) Geology & Soils
(8) Cultural Resources
(9) Transportation and Utilities
(10) Public Health & Safety
(11) Growth Inducement

Additional significant issues identified during the scoping process would also be analyzed in the EIR/EIS.

c. Environmental review and consultation as required by Sections 401 and 404 of the Clean Water Act, as amended (33 U.S.C. 1341 AND 1344); Section 307 of the Coastal Zone Management Act of 1972, as amended (16 U.S.C. 1456(c)); the Fish and Wildlife Coordination Act (16 U.S.C. 661 *et seq.*); the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470 *et seq.*); the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*); Executive Order 11988, "Floodplain Management", 24 May 1977; Executive Order 11990, "Protection of Wetlands", 24 May 1977; and other applicable statutes or regulations will be conducted concurrently with the EIR/EIS process.

Dated: 27 October 1989.

Jack E. Farless,

Deputy District Engineer, Project Manager.

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last List November 2, 1989

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783–3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

* Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

* No amendments to this volume were promulgated during the period Jan. 1, 1988 to Dec. 31, 1988. The CFR volume issued January 1, 1988, should be retained.

* No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1988. The CFR volume issued January 1, 1987, should be retained.

* The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

* The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 54 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

SAN FRANCISCO, CA

WHEN: November 29; at 9:00 a.m.
WHERE: Room 15138,
450 Golden Gate Avenue,
San Francisco, CA.
RESERVATIONS: Call Mary Walters at the San Francisco Federal Information Center,
415-556-6600.

SEATTLE, WA

WHEN: November 30; at 1:00 p.m.
WHERE: South Auditorium, 4th Floor,
915 2nd Avenue,
Seattle, WA.

Rules and Regulations

Federal Register
Vol. 54, No. 214
Tuesday, November 7, 1989

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agriculture Marketing Service

7 CFR Part 911

[Docket No. FV-89-074FR]

Limes Grown in Florida; Relaxation of Container Requirements

AGENCY: Agriculture Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule relaxes container requirements currently in effect for Florida grown limes, by authorizing Florida lime handlers to use an additional container to ship fresh Florida limes to market. Container requirements ensure the packing of fruit in suitable containers for shipment to market, so that it arrives in the marketplace in good condition. This is in the interest of growers, handlers, and consumers.

EFFECTIVE DATE: November 7, 1989.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2525–S, Washington, DC 20090–6456, telephone (202) 475–3918.

SUPPLEMENTARY INFORMATION

This final rule is issued under Marketing Agreement and Marketing Order No. 911, both as amended (7 CFR part 911), regulating the handling of limes grown in Florida. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1, and has been determined to be a "non-major" rule under the criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this proposed action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act and rules issued thereunder are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 26 lime handlers subject to regulation under the marketing order for limes grown in Florida. In addition, there are about 230 lime growers in Florida. Small agricultural growers have been defined by the Small Business Administration (13 CFR 121.2) as those having average annual gross revenues for the last three years of less than $500,000, and agricultural services firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of the handlers and growers may be classified as small entities.

A proposed rule regarding relaxing the container requirements for fresh Florida limes was issued on September 1, 1989 and published in the **Federal Register** (54 FR 37336, September 8, 1989). That rule provided that interested persons could file written comments through October 10, 1989. No comments were received.

Section 911.329 (7 CFR 911.329) specifies the container requirements for shipments of fresh limes grown in Florida. These requirements authorize Florida lime handlers to use specific containers for shipping fresh limes to market, and they have been in effect on a continuous basis for several seasons. The container requirements make sure the limes are packed in suitable containers for shipment to market, so that they arrive in the marketplace in good condition. Florida lime growrs and handlers have found such requirements beneficial in the successful marketing of their limes.

This action redesignates current § 911.329(a)(2)(x) as § 911.329(a)(2)(xi) and adds a new paragraph (a)(2)(x) to § 911.329, authorizing handlers to use an additional container to ship fresh limes to market. This container has inside dimensions of 12⅝ by 8¾ by 5⅝ inches, and it must contain not less than 10 pounds of limes. This action also revises the title of § 911.329, for purposes of clarity.

The Florida Lime Administrative Committee (committee) recommended that this container be authorized. The committee recently conducted a research project on this container to determine if it would palletize efficiently when transported by truck. The research results indicate that the container ships well on pallets.

The Committee works with the Department in administering the marketing agreement and order. The committee meets prior to and during each season to consider recommendations for modification, suspension, or termination of the regulatory requirements for Florida limes. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department reviews committee recommendations and information submitted by the committee and other available information, and determines whether modification, suspension, or termination of the regulatory requirements would tend to effectuate the declared policy of the Act.

Some Florida lime shipments are exempt from container requirements. Handlers may ship up to 55 pounds of limes during any one day under a minimum quantity exemption and may make gift shipments in individually addressed containers of up to 20 pounds of limes each. Also, limes utilized in commercial processing are not covered by the container requirements.

This action reflects the Department's appraisal of the need to relax the container requirements applicable to shipment of fresh Florida limes. The Department's view is that the relaxation will benefit lime handlers. The application of container requirements over the past several years has helped keep the limes in good condition during shipment to market. Although compliance with container requirements may impose additional costs to handlers, these costs are significantly offset by the benefits resulting to growers, handlers, consumers, and the trade from the fruit being in better

VOL 54 ISS 214 NO 7 1989 UMI

condition upon arrival in the marketplace.

Based on the above, the Administrator of the AMS has determined that this proposed action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented, the information and recommendations submitted by the committee, and other available information, it is found that this action will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action relaxes container requirements currently in effect for Florida limes; (2) Florida lime handlers are aware of this action which was recommended by the committee at a public meeting and they will need no additional time to comply with the relaxed requirements; (3) shipment of the 1989–90 season Florida lime crop is currently underway, and handlers should be given an opportunity to take advantage of the additional container as soon as possible; and (4) the proposed rule provided a 30-day comment period, and no comments were received.

List of Subjects in 7 CFR Part 911

Florida, Limes, Marketing agreements and orders.

For the reasons set forth in the preamble, 7 CFR part 911 is amended as follows:

PART 911—LIMES GROWN IN FLORIDA

1. The authority citation for 7 CFR part 911 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 911.329 is amended by revising the section title, by redesignating current paragraph (a)(2)(x) as paragraph (a)(2)(xi), and by adding a new paragraph (a)(2)(x) to read as follows:

Note: This section will appear in the Code of Federal Regulations.

§ 911.329 Florida lime container regulation.

(a) * * *

(2) * * *

(x) Containers with inside dimensions of 12⅜ by 8¾ by 5⅞ inches: *Provided,* That such containers shall contain not less than 10 pounds net weight of limes.

* * * * *

Dated: November 2, 1989.

William J. Doyle,

Acting Director, Fruit and Vegetable Division.

7 CFR Part 917

[Docket No. FV-89-079FR]

Fresh Pears, Plums and Peaches Grown in California; Modification of Grade Requirements for Pears for the 1989 Season

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department is adopting as a final rule the provisions of an interim final rule which relaxed grade requirements applicable to organically grown Bartlett or Max-Red (Max Red Bartlett and Red Bartlett) pears grown in California, for the 1989 season. Organically grown pears are produced without application of synthetically compounded fertilizers, pesticides or growth regulators. The relaxed grade requirements specify that shipments of organically grown pears of these varieties must grade at least U.S. Combination grade, with at least 50 percent, by count, grading U.S. No. 1 and the balance of each lot grading at least U.S. No. 2. The committee believes that a limited market exists for organically grown pears, and that handlers should be given the opportunity to meet market needs. Non-organically grown pears must continue to grade at least U.S. Combination with not less than 80 percent, by count, of the pears grading at least U.S. No. 1, with the balance of each lot grading at least U.S. No. 2.

EFFECTIVE DATE: This final rule becomes effective November 7, 1989.

FOR FURTHER INFORMATION CONTACT: George Kelhart, Marketing Order Administration Branch, F&V, AMS, P.O. Box 96456, room 2525–S, Washington, DC 20090–6456, telephone: (202) 475–3919.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Marketing Order No. 917 (7 CFR part 917) regulating the handling of fresh pears, plums and peaches grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this final rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 45 handlers of pears subject to regulation under the pear, plum and peach marketing order (7 CFR part 917), and there are approximately 300 producers of pears in the regulated area. Small agricultural producers have been defined by the Small Business Administration (SBA) (13 CFR 121.2) as those having average gross annual revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers of California pears may be classified as small entities.

Shipments of California pears are regulated by grade, size and pack under Pear Regulation 12 (7 CFR 917.461). Because these regulations do not change substantially from season to season, they have been issued on a continuing basis, subject to amendment, modification or suspension as may be recommended by the Pear Commodity Committee (committee) and approved by the Secretary.

Fresh California pears shipped during the 1988 season totalled approximately 127.4 million pounds. The packinghouse door value of the pears in 1988 was approximately $20.2 million.

This final rule finalizes an interim final rule which relaxed grade requirements for organically produced pears. The interim final rule was based upon a unanimous recommendation of the committee and other available information. It was issued August 4, 1989, and published in the **Federal Register** on August 10, 1989 (54 FR 32794). The rule provided that interested persons could submit written comments until September 3, 1989. No comments were received.

Recent consumer interest in "natural" or "organic" foods offers a potentially viable new market for pear producers—one which the committee would like to meet. This action finalizes the interim final rule which provided additional opportunities for producers to utilize organic cultural practices to meet consumer demand in these markets for the 1989 season.

For the purposes of this rulemaking action, "organically grown" pears is defined as pears which are produced, harvested, distributed, stored, processed and packaged without the application of synthetically compounded fertilizers, pesticides or growth regulators. No synthetically compounded fertilizers, pesticides or growth regulators shall be applied by the grower to the orchard in which the pears are grown for 12 months prior to the appearance of flower buds and throughout the entire growing and harvest season for pears. This definition is consistent with applicable provisions of the term "organically grown" as defined in section 26569.11(a) (1) and (2) of the California Health and Safety Code, as enacted by the California Organic Food Act of 1979, as amended.

Prior to issuance of the interim final rule, no handler could ship any package or container of Bartlett or Max-Red (Max-Red Bartlett or Red Bartlett) pears unless the pears graded at least U.S. Combination with no less than 80 percent, by count, of the pears grading at least U.S. No. 1. Organically grown pears usually have more russetting and other appearance defects than non-organically produced fruit. Hence, it is difficult for organically produced fruit to meet the more restrictive grade requirements.

This rule finalizes the relaxed grade requirements which permitted the shipment of organically grown pears for the 1989 season, grading at least U.S. Combination with no less than 50 percent, by count, U.S. No. 1 pears and the balance of the pears must grade at least U.S. No. 2 quality. The relaxation permits the shipment of fruit with more appearance defects and enables all handlers of organically grown pears to meet the needs of their buyers. Such defects do not affect the eating quality of the fruit. Size, container and pack requirements as specified in paragraphs (a)(2) through (a)(6) of § 917.461 continue to apply to such organically grown pears.

Field officers of the committee will continue to closely monitor the packing of organically grown pears during the 1989 season. Handlers who intend to ship organic pears in accordance with these relaxed grade requirements shall provide, upon the request of the committee, with the approval of the Secretary, information indicating that the pears were grown in accordance with the provisions of § 917.461(b)(5). The committee, with the approval of the Secretary, has the authority to require handlers to furnish information as may be necessary to perform its duties under the marketing order. Most producers of organic fruit in the production area are members of associations that certify that produce is grown without the aid of synthetically compounded fertilizers, pesticides or growth regulators. Additionally, the California Department of Food and Agriculture (CDFA) currently requires that all agricultural producers register their chemical use.

This marketing experiment is in place for the 1989 season only. The committee will meet to discuss the grade relaxation and whether to recommend that the relaxed standards for organic pears be continued in subsequent seasons.

This action allows producers of organically grown pears to market a larger portion of their production. Without the grade relaxation, an estimated 1,500 packages would be shipped during the 1989 season. With the grade relaxation, approximately 3,000 packages of organic pears are expected to be shipped. This amount represents an estimated one-tenth of one percent of the entire California pear market. The relatively small increase in appearance defects and number of packages shipped are not expected to adversely affect market conditions for non-organically grown pears, particularly since organic fruit is normally sold in specialty markets. Further, information obtained on the marketing of organically grown pears during the 1989 shipping season will be used to evaluate the desirability of authorizing such shipments on a continuing basis.

This action also deletes obsolete wording from the introductory text of § 917.461. Provisions are also added to paragraph (b) of § 917.461 defining "organic pears" and indicating that "U.S. No. 2" means the same as defined in the United States Standards for Summer and Fall Pears (7 CFR 51.1280–51.1286).

Based on available information, the Administrator of the AMS has determined that this final rule will not have a significant impact on a substantial number of small entities.

After consideration of all relevant information presented, including the committee's recommendation, and other information, it is found that the modification of the grade requirements, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) this action adopts, without change, the provisions of an interim final rule in effect since August 10, 1989 (54 FR 32794); (2) a period of 30 days was provided for receipt of written comments and no comments were received; and (3) no useful purpose would be served by delaying the effective date of this final rule.

List of Subjects in 7 CFR Part 917

California, Marketing agreements and orders, Peaches, Pears, Plums.

For the reasons set forth in the preamble, 7 CFR part 917 is amended as follows:

PART 917—FRESH PEARS, PLUMS AND PEACHES GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 917 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Accordingly, the interim final rule amending the provisions of 7 CFR part 917, published in the **Federal Register** on August 10, 1989 (54 FR 32794), is adopted as a final rule.

Note: This section will not appear in the Code of Federal Regulations.

Dated: November 2, 1989.

Kiwifruit Grown in California; Final Rule Establishing an Interest Charge on Delinquent Assessments

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule establishes an interest charge for delinquent handler assessments. This action should encourage California kiwifruit handlers to pay their assessments in a timely manner so that the Kiwifruit Administrative Committee will be assured that there are adequate funds available to cover program expenses.

EFFECTIVE DATE: November 7, 1989.

FOR FURTHER INFORMATION CONTACT: Robert F. Matthews, Marketing Order

VOL 54 ISS 214 NO 7 1989 UMI

Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2525–S, Washington, DC 20090–6456, telephone (202) 447–2431.

SUPPLEMENTARY INFORMATION:

This rule is issued under Marketing Agreement No. 920 and Marketing Order No. 920 (7 CFR part 920), regulating the handling of kiwifruit grown in California. The Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirement set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disaproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 145 handlers of California kiwifruit subject to regulation under the marketing order and approximately 1,225 producers in the production area. The Small Business Administration (13 CFR 121.2) has defined small agricultural producers as those having average annual gross revenue for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers of California kiwifruit may be classified as small entities.

The Kiwifruit Administrative Committee (committee), which is responsible for local administration of the marketing order, met on July 19, 1989, and recommended that an interest charge be established for delinquent handler assessments. Under § 920.40 of the marketing order, the committee is authorized to incur expenses that are reasonable and necessary to operate the program. Section 920.41 provides that handlers be assessed on a pro-rata basis to cover costs. Further, § 920.41 authorizes the committee, with the approval of the Secretary, to establish an interest charge on assessments that are not paid within a time period prescribed by the committee.

The timely payment of assessments is important to the efficient functioning of the committee. The committee incurs expenses on a continuous basis and must be assured of a positive cash flow in order to meet its financial obligations, such as salaries and rent.

At its meeting on July 19, 1989, the committee recommended that handlers whose assessments were in arrears be subject to an interest charge of 18 percent per year or 1.5 percent per month on the balance owed. In order to give handlers time to make payment before being subject to this charge, assessments will not be considered subject to interest charges until 60 days after billing by the committee office. Interest will begin to accrue immediately following this 60-day grace period.

Therefore, a new § 920.112 is added to the rules and regulations under the kiwifruit marketing order which will specify that an interest charge of 18 percent per year or 1.5 percent per month will be charged on assessments not received 60 days after billing by the committee.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant ecnomic impact on a substantial number of small entities.

Notice of this action was given in a proposed rule published in the September 6, 1989, **Federal Register** (54 FR 36984) affording interested persons until October 6, 1989, to file written comments. None were received.

It is further found that the effective date of this rule should not be postponed until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because the shipping season has begun and to be of maximum benefit to the committee, this interest charge should apply to as many delinquent assessments that may occur as possible during the season.

List of Subjects in 7 CFR Part 920

California, Kiwifruit, Marketing agreements and orders.

For the reasons set forth in the preamble, 7 CFR part 920 is amended as follows:

PART 920—KIWIFRUIT GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 920 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Part 920 is amended by adding a new § 920.112 to read as follows:

Note: This section will appear in the Code of Federal Regulations.

§ 920.112 Late payments.

Pursuant to § 920.41(a), late payment of assessments shall be subject to an interest charge of 1½ percent per month on the balance due. Assessments shall be deemed late 60 days after the invoice date.

Dated: November 2, 1989.

William J. Doyle,

Acting Director, Fruit and Vegetable Division.

7 CFR Part 947

[Docket No. FV–89–075]

Irish Potatoes Grown in Designated Areas in California and Oregon; Amendment To Revise Handling Requirements for Certain Small Sized Potatoes and Establish Reporting Requirements for Shipments to Processors

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule eliminates current pack and reporting requirements associated with shipments of small non-red-skinned potatoes that otherwise grade at least U.S. No. 1. The objective of this action is to facilitate the movement of such potatoes to meet current consumer demand by relieving shippers from handling requirements that are no longer deemed necessary. This rule also establishes reporting requirements for potatoes shipped for canning, freezing, prepeeling and other processing. The intent of this action is to provide assurance that potatoes shipped without regard to the size, quality and inspection requirements of the handling regulation are shipped to authorized exempt outlets.

EFFECTIVE DATE: November 7, 1989.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone (202) 447–5331.

SUPPLEMENTARY INFORMATION:

This rule is issued under Marketing Agreement No. 114 and Marketing Order No. 947 (7 CFR part 947), both as amended, regulating the handling of potatoes grown in Modoc and Siskiyou

Counties, California, and in all counties in Oregon, except Malheur County. The marketing agreement and order are authorized by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 50 handlers of Oregon-California potatoes subject to regulation under the marketing order, and approximately 470 producers in the production area. The Small Business Administration (13 CFR 121.2) has defined small agricultural producers as those having annual gross revenue for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers of Oregon-California potatoes may be classified as small entities.

The 1988 crop of potatoes grown in the production area totalled 23,623,460 hundredweight (cwt.). About 36 percent of the crop (8,559,575 cwt.) was shipped to fresh markets, and an additional 22 percent was used for seed. The remaining 42 percent of the crop was utilized primarily in processing outlets. Potatoes shipped to fresh markets are required to meet the handling requirements specified in 7 CFR 947.340 [as amended at 53 FR 2998, February 3, 1988, and 53 FR 49114, December 6, 1988]. The current requirements are that potatoes grade at least U.S. No. 2 and, if shipped within the continental United States, be at least 2 inches in diameter or at least 4 ounces in weight. Potatoes shipped to export destinations must meet a minimum diameter of 1¼ inches and grade at least U.S. No. 2.

Currently, red-skinned varieties of potatoes may be shipped without regard to the minimum size requirements if they otherwise grade at least U.S. No. 1. Non-red-skinned potatoes that are 1⅞ inches or less in diameter may be shipped if they grade at least U.S. No. 1, and are packed in containers of at least 50 pounds. In addition, handlers who ship such potatoes must meet certain reporting requirements. Also included in the handling regulation are safeguard procedures for potatoes shipped to authorized exempt outlets, which are not required to meet the established quality and size requirements.

At a meeting held on June 9, 1989, the Oregon-California Potato Committee (committee), which is responsible for local administration of the marketing order, recommended the following changes in the existing requirements to become effective in late fall, when the 1989–90 marketing season begins.

Upon the basis of the committee's recommendation, this rule revises the size requirements for non-red-skinned potatoes by providing that such potatoes that are 1¾ inches in diameter or smaller that otherwise grade at least U.S. No. 1 may be shipped, and by eliminating the pack and reporting requirements. This rule also adds reporting requirements for all potatoes shipped for canning, freezing, prepeeling and other processing to assure that these potatoes for processing are shipped to exempt outlets and are not sold in fresh markets.

Until fairly recently, consumer demand for smaller sized potatoes was limited. Over the last several seasons, however, opportunities for marketing small, high quality potatoes have expanded. To determine the potential market demand for these potatoes and to promote market expansion, the handling regulation was amended in February 1987 (52 FR 7119) to relax the minimum size requirements for potatoes shipped under certain conditions. That action temporarily relaxed the minimum size requirements for high quality white-fleshed potatoes handled for market expansion purposes and exempted all non-white fleshed varieties of potatoes from handling regulations under the order. These relaxed size requirements became effective February 3, 1988, on a continuous basis (53 FR 2995). Prior to shipping potatoes under these relaxed size requirements, handlers were required to apply for and obtain from the committee each marketing season a special purpose certificate authorizing shipment of the potatoes. In addition, handlers who shipped potatoes under the relaxed minimum size provisions were required to promptly report information requested by the committee relating to such shipments, including the grade and usage of the potatoes, once the shipments were concluded. The reporting requirements were designed to provide adequate safeguards to assure that the potatoes shipped under these provisions were shipped to the intended market for the purpose of market expansion, and to provide the committee with information necessary to monitor and evaluate the effects of such shipments on the overall market for Oregon-California potatoes.

The committee reports that these actions, intended to further the development of new markets and expand marketing opportunities for Oregon-California potato growers and handlers, have proven successful. Shipments of the smaller-sized potatoes have been well received and have not adversely impacted the market for larger-sized potatoes. Demand was particularly strong for small red-skinned potatoes, and in 1988 the safeguard provisions pertaining to such potatoes were eliminated (53 FR 31650).

Based on an additional year of experience, the committee believes that shipping non-red-skinned potatoes that are 1¾ inches in diameter or less that otherwise grade at least U.S. No. 1 should be permitted without the reporting and pack requirements. The reporting requirements have served their purpose and are no longer necessary. The deletion of the 50-pound pack requirement will allow handlers to ship non-red-skinned potatoes in smaller containers. This will provide handlers with maximum flexibility in marketing such potatoes, and enable them to take advantage of current market demand. This change will benefit consumers by providing them with a product they desire, and producers and handlers by increasing sales. The committee believes that permitting the shipment of small, high quality, non-red-skinned potatoes will not adversely affect the market for larger sized potatoes.

The handling regulation specifies that potatoes shipped for certain exempt purposes are not required to meet the size and quality standards established for those shipped to commercial fresh market outlets. Among the exempt purposes are certified seed, livestock feed, and charity. Handlers shipping for these purposes are required to comply with established safeguard procedures. These include applying for and obtaining a Certificate of Privilege from the committee prior to making such shipments, and filling reports with the committee after such shipments are made. These requirements are in place to provide the committee with the information necessary to determine that potatoes shipped without regard to the

VOL 54 ISS 214 NO 7 1989 UMI

fresh requirements enter authorized exempt outlets, and are not sold in fresh markets.

All varieties of potatoes shipped for canning, freezing, prepeeling and other processing are also exempt from the size and quality requirements of the handling regulation. For such shipments, no handler reporting requirements are currently in effect. The regulation only provides that handlers making shipments for such purposes must ship them to persons or firms the committee has designated as manufacturers of potato products. The committee believes that the current requirement does not provide adequate assurance that the potatoes are actually shipped to designated processors. For that reason, the committee recommended that handlers making shipments to these outlets be required to obtain a Certificate of Privilege from, and file shipment reports with, the committee. This procedure will enable the committee to ascertain compliance with the requirements of the handling regulation.

Section 8e of the Act requires that when certain domestically produced commodities, including Irish potatoes, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements. Section 8e also provides that whenever two or more marketing orders regulating a commodity produced in different areas of the United States are concurrently in effect, the Secretary shall determine which of the areas produces the commodity in most direct competition with the imported commodity. Imports then must meet the quality standards set for that particular area. The import requirements for all non-red-skinned potatoes are based on those established under the marketing orders covering Virginia-North Carolina potatoes (M.O. 953), Colorado Area No. 3 potatoes (M.O. 948), and Idaho-Eastern Oregon potatoes (M.O. 945). These changes in the handling requirements for Oregon-California potatoes will not change the findings and determinations or provisions that appear in the potato import regulation (7 CFR 980.1)

The information collection requirements contained in this rule have been previously approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. chapter 35 and have been assigned OMB No. 0581-0112. This action reduces the current information collection burden by eliminating the reporting requirements applicable to shipments of small, high quality non-red-skinned potatoes. The appropriate forms for reporting potatoes for processing have been submitted previously to the OMB for approval and are currently approved by OMB to be used for information collection purposes.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

Notice of this action was given in the August 21, 1989, **Federal Register** (54 FR 34522) providing interested persons until September 20, 1989 (as corrected, 54 FR 35756 (August 29, 1989)), to file written comments. No comments were received.

After consideration of all relevant matter presented, including the information and recommendations submitted by the committee and other available information, it is hereby found that the rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because the shipping season for Oregon-California potatoes has already begun and this rule, in order to be of maximum benefit to producers, should apply to as many shipments as possible.

List of Subjects in 7 CFR Part 947

California, Marketing agreements and orders, Oregon, Potatoes.

For the reasons set forth in the preamble, 7 CFR part 947 is amended as follows:

PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES, CA, AND ALL COUNTIES IN OREGON, EXCEPT MALHEUR COUNTY

1. The authority citation for 7 CFR part 947 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 947.340 is amended by revising paragraphs (b)(3) and (h)(3) to read as follows:

Note: This section will appear in the annual Code of Federal Regulations.

§ 947.34 Handling regulation.

* * * * *

(b) * * *

(3) All non-red-skinned varieties of potatoes that measure 1¾ inches in diameter or less may be shipped if such potatoes otherwise grade at least U.S. No. 1.

* * * * *

(h) * * *

(3) Each handler making shipments pursuant to paragraph (g)(7) of this section may ship such potatoes only to persons or firms designated as manufacturers of potato products by the committee pursuant to § 947.134. Further, each handler making such shipments shall obtain a Certificate of Privilege from the committee and shall promptly report each shipment to the committee on Special Purpose Shipment Report forms.

7 CFR Part 982

[Docket No. FV-89-020FR]

Filberts/Hazelnuts Grown in Oregon and Washington; Administrative Changes to Rules and Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action makes deletions, revisions, and additions to the administrative rules and regulations under the Federal marketing order for filbert/hazelnut grown in Oregon and Washington. These changes were unanimously recommended by the Filbert/Hazelnut Marketing Board (Board), which is responsible for local administration of the order. These changes are intended to reflect the Board's current needs and practices by making administrative changes to improve administration of the order.

EFFECTIVE DATE: December 7, 1989.

FOR FURTHER INFORMATION CONTACT: Patricia A. Petrella, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 475-3920.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Order No. 982 (7 CFR part 982), as amended, regulating the handling of filbert/hazelnut grown in Oregon and Washington. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 26 handlers of filberts/hazelnuts subject to regulation under the filbert/hazelnut marketing order and approximately 1,000 producers in the Oregon and Washington production area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having average gross annual revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose average gross annual receipts are less than $3,500,000. The majority of handlers and producers of filberts/hazelnuts may be classified as small entities.

This rule will make several changes to the administrative rules and regulations of the filbert/hazelnut marketing order. Several changes are necessary to reflect the August 19, 1988, (51 FR 2947) amendments to the marketing order.

In addition, form numbers specified in the administrative rules and regulations need to be changed to reflect the current form numbers used by the Board. Additionally, for clarity, other specific form references will be inserted into sections that previously contained only a general reference to reporting requirements. No new forms are added as a result of reference changes.

Further, the term "hazelnuts" will be added to the rules and regulations to reflect the fact that filberts may also be called hazelnuts. This change also conforms with the definition of filberts in the order. In addition, hazelnuts is the term used in Europe where a portion of the domestic crop is marketed. Therefore, this rule will change all references to filberts to filberts/hazelnuts.

The first change will delete § 982.432 from the rules and regulations. This section describes nomination procedures which independent growers should follow when nominating independent grower members for Board membership. During the formal rulemaking process completed in 1988, § 982.30 was changed to no longer distinguish between independent and cooperative grower members on the Board. Therefore, § 982.432 is deleted as it is unnecessary.

Most of § 982.446, dealing with inspection documentation of restricted filberts/hazelnuts is no longer applicable. The industry no longer uses seals, stamps, or tags as specified in § 982.446(a) to identify product. Rather, the industry uses the identification procedures specified in current § 982.446(c). Therefore, this rule will delete paragraph (a) of § 982.446 from the rules and regulations and § 982.446 will be revised to reflect the current identification procedures contained in paragraph (c).

Paragraphs (b)(1), (b)(2), (b)(3), and (d) of § 982.446 will also be deleted from the rules and regulations because the industry no longer has reason to physically identify stored inshell filberts/hazelnuts as free or restricted filberts/hazelnuts. Currently filberts/hazelnuts declared as restricted are identified by lot numbers on records kept by handlers. In the past, handlers stored free and restricted filberts/hazelnuts in 100-pound sacks that were labeled free or restricted. Handlers no longer use these sacks. Rather, large bins or cartons are used to store such filberts/hazelnuts. Designation as free and restricted is easily identifiable in handlers' records.

Section 982.450 provides procedures for handling restricted filberts/hazelnuts. The Board has recommended that specific form references be inserted in paragraphs (a), (b), and (c) of § 982.450 to identify the forms that handlers are currently required to submit. Under this rule, references to F/H Form 1d will be added to paragraph (a), F/H Form 4 will be added to paragraph (b), and F/H Form 1d and F/H Form 7 will be added to paragraph (c). In addition, revisions of paragraph (c) of § 989.450 provides gender neutral language.

Paragraphs (a)(1), (a)(2), and (b) of § 982.452 provide procedures for the disposition of restricted filberts/hazelnuts and contain outdated form number references. The Board recommended that these be changed to the new form number references. In paragraph (a)(1) of § 982.452 the form reference will be changed to F/H Form B, and in paragraph (a)(2) the form reference will be changed to F/H Form 7. The form reference for the export agreement between handlers and the Board found in paragraph (b) will be stated as F/H Form A. Paragraph (b) of § 982.452 provides authority for handlers to act as agents of the Board in arranging sales of inshell filberts/hazelnuts into export markets. The Board recommended revising the language of paragraph (b) to reference the provisions of § 982.52(b) of the order. Therefore, the phrase "including those as set forth in § 982.52(b)" will be added to this paragraph. Revisions of paragraphs (a) (1) and (2) of § 982.452 provide gender neutral language. The proposed rule inadvertently did not include language to retain § 982.452(c). This action retains that provision.

Handlers are required to be bonded if they intend to defer their withholding obligations under the order into the next season. Section 982.454 describes the types of bonds accepted by the Board. The Board currently requires handlers to submit F/H Form C to document handlers' use of this provision. Therefore, based on the Board's recommendation, this action will add the specific form reference to § 982.454.

Section 982.456 describes procedures for interhandler transfers of filberts/hazelnuts and contains an outdated form reference. Under this action, the form reference will be changed to F/H Form 2.

In 1986, § 982.57 of the order was amended to allow growers acting as handlers to sell unlimited quantities of their own production directly to consumers from their orchards, at roadside stands, or at farmers' markets. Quantities of filberts/hazelnuts sold in this manner are exempt from the volume regulation and assessment provisions of the order. Section 982.457 allows handlers to be exempt from certian order requirements (inspection, certification, restricted obligation, assessment, and reporting requirements) if they handle less than 250 pounds of inshell filberts/hazelnuts during any fiscal year. Section 982.457 was originally implemented to allow growers who acted as handlers by selling small quantities of their filberts/hazelnuts directly to consumers to be exempt from the order's regulatory and assessment provisions. Section 982.57, however, now provides authority for growers to sell unlimited quantities of the grower's own production directly to consumers. Therefore, since the 250-pound limitation no longer applies, § 982.457 will be deleted from the rules and regulations.

Section 982.460 provides procedures for transferring excess restricted credits of filberts/hazelnuts and contains outdated form references. The Board recommended that these be changed to

VOL 54 ISS 214 NO 7 1989 UMI

the new form references. Therefore, in paragraphs (b) and (c) of § 982.460, the form reference will be changed to F/H Form 3. In addition, the revision of paragraph (b) will provide gender neutral language.

The Board recommended that § 982.466 include a reference to the complete series of forms currently used. Reference to F/H Forms 1a through 1e should be added to § 982.466. Also, the Board recommended changing the frequency of reports on these forms. The Board has indicated that handlers have found it difficult to submit weekly reports of shipments in October, November, and December (the busiest time of the marketing season) in a timely manner. The Board, therefore, recommended that F/H Forms 1a through 1e be submitted once a month, rather than weekly. Accordingly, this change will reduce the information collection requirements subject to the Paperwork Reduction Act, 44 U.S.C. Chapter 35. Such reports will include shipment transactions from the beginning of the month to the end of the month. Such reports will be due in the Board office 10 days following the end of the reporting period. The Board indicated that monthly reporting will provide sufficient and timely information essential to the filbert/hazelnut industry. The Board also recommended that provisions be added to § 982.466 to allow the Board to request reports on other dates, with the approval of the Secretary. Therefore, this action will revise § 982.466 accordingly.

Section 982.468 contains two outdated form references that will be changed to reflect new form references. The outdated form references will be changed to F/H Form 5 and F/H Form 6 in § 982.468. In addition, the dates of the reporting periods will be changed to make them correspond with the order's marketing year and, as recommended by the Board, provision will be made for the Board to request reports on other dates, with the approval of the Secretary. Section 982.17 of the order was amended in 1988 to change the dates of the marketing year.

Sections 982.455 and 982.471 will be revised to change references to "filberts" to "filberts/hazelnuts." The Board recommended that "filberts" be changed to "hazelnuts." However, the order provides that the term "filberts" means filberts or hazelnuts produced in the States of Oregon and Washington from trees of the genus *Corylus*. Therefore, the Department substituted the term "filbert/hazelnut" in this rule and in appropriate sections of the rules and regulations. The term "filbert/hazelnut" will accomplish the Board's purpose. It will also avoid the confusion which might have occurred if the order referred to "filberts" alone and the rules and regulations referred to "hazelnuts."

One change in the proposed rule will not be made by this action. The proposed rule indicated that § 982.453 would be revised to change references to "filberts" to "filberts/hazelnuts". This change was previously made when new safeguards concerning the disposition of inshell or shelled substandard filberts/hazelnuts were added on June 7, 1989 (54 FR 24326). Therefore, it is not necessary to revise § 982.453.

A proposed rule was published in the September 5, 1989, issue of the **Federal Register** (54 FR 36803). Comments on the proposed rule were invited from interested persons until October 5, 1989. No comments were received.

Based on available information, the Administrator of the AMS has determined that the issuance of this final rule will not have a significant economic impact on a substantial number of small entities.

The information collection requirements contained in the revised sections of the regulations have been previously approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. chapter 35 and have been assigned OMB No. 0581-0144.

After consideration of all relevant material presented, including the information and recommendation submitted by the Board and other available information, it is found that the changes to the administrative rules and regulations, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

List of Subjects in 7 CFR Part 982

Filberts/hazelnuts, Marketing agreements and orders, Oregon and Washington.

For the reasons set forth in the preamble, 7 CFR part 982 is revised as follows:

Note: These sections will appear in the annual Code of Federal Regulations.

PART 982—FILBERTS/HAZELNUTS GROWN IN OREGON AND WASHINGTON

1. The authority citation for 7 CFR part 982 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

Subpart—Administrative Rules and Regulations

2. Section 982.432 is removed.

§ 982.432 [Removed]

3. Section 982.446 is revised to read as follows:

§ 982.446 Inspection documentation.

Pursuant to § 982.46(b), handlers are required to use the following identification on bags and cartons of 25 pounds or larger capacity which contain certified filberts/hazelnuts:

(a) The words "This Produce Inspected and Certified Per Federal Marketing Order No. 982" shall be contained within an outline of the combined States of Oregon and Washington; and

(b) This identification shall be printed on the upper right quarter of the printed side of a bag; or

(c) This identification shall be printed on the upper right quarter of one of the side panels of a carton.

4. Section 982.450 is revised to read as follows:

§ 982.450 Application of restricted obligation.

(a) Each handler required to withhold restricted filberts/hazelnuts pursuant to § 982.50 or § 982.51 shall hold such filberts/hazelnuts separate from all other filberts/hazelnuts and shall maintain the identity of each lot so withheld. The restricted product withheld must be reported to the Board on F/H Form 1d, Restricted Inshell Certified.

(b) Each handler making the election pursuant to § 982.50(c) in connection with certified merchantable filberts/hazelnuts which have not been handled, shall thereupon give written notification to the Board on F/H Form 4 of the particular election and of the weight and identity of the filberts/hazelnuts involved.

(c) Pursuant to § 982.50(d), a handler may withdraw from withholding restricted filberts/hazelnuts in excess of such handler's restricted obligation upon advising the Board of the weight and lot identity of the filberts/hazelnuts to be withdrawn. When the quantity of restricted filberts/hazelnuts to be withdrawn from withholding consists of a part of a lot of ungraded filberts/hazelnuts, no part of such lot shall be withdrawn unless the remainder of such lot is reinspected and meets the requirements of § 982.51. Handlers will use F/H Form 1d prior to the end of the marketing year or F/H Form 7 after the end of the marketing year, when reporting the withdrawal of restricted filberts/hazelnuts from withholding status.

5. Section 982.452 is amended by revising the introductory text and paragraphs (a)(1) (i), (ii) and (iii), (a)(2) and (b) to read as follows:

§ 982.452 Disposition of restricted filberts/hazelnuts.

(a) *Shelling.* (1) Any person desiring to shell restricted filberts/hazelnuts during a fiscal year may do so upon being designated by the Board as an authorized sheller for such year. Application for such designation shall be made in duplicate on F/H Form B and include, in addition to the conditions specified in § 982.52(a), the following: (i) The location of the applicant's shelling operation; (ii) the number of years such person has operated a filbert/hazelnut shelling plant; and (iii) the daily (8-hour) shelling capacity of the plant. * * *

(2) When an authorized sheller completes the shelling of a lot of restricted filberts/hazelnuts, the sheller shall submit a report thereon to the Board on F/H Form 7 showing: (i) The date shelling was completed; (ii) the inspection certificate or lot number; (iii) the quantity shelled; (iv) the weight of the kernels produced; and (v) the location where restricted filberts/hazelnuts were held immediately prior to shelling.

(b) *Exports.* Any handler who desires to act as agent of the Board in negotiating export sales of certified merchantable restricted filberts/hazelnuts may do so upon the execution of an "Export Agreement", F/H Form A, wherein the handler agrees, among other things, to negotiate such export sales at not less than such price as the Board may prescribe, and in conformity to and compliance with the other terms and conditions of the Export Agreement including those set forth in § 982.52(b).

* * * * *

6. Section 982.454 is revised to read as follows:

§ 982.454 Sureties acceptable to the Board.

Bonds secured by cash, cashier's or certified checks, or by assets that are entirely separate and apart from the handler named in the bond may be accepted by the Board pursuant to § 982.54(a). As a condition of accepting any surety, the Board may require such financial statements or other information relating to the ability of such surety to guarantee a handler's bond as it deems necessary. Handlers are also required to submit F/H Form C to the Board to document the handler's execution of a bond.

7. Section 982.455 is revised to read as follows:

§ 982.455 Exchange of certified merchantable filberts/hazelnuts withheld.

Each handler desiring to exchange filberts/hazelnuts pursuant to § 982.55 shall prior thereto file a written notification with the Board setting forth for the respective quantities of filberts/hazelnuts involved in the exchange, the inspection certificate numbers, quantities, locations, and applicable lot numbers.

8. Section 982.456 is revised to read as follows:

§ 982.456 Interhandler transfers.

Each interhandler transfer of filberts/hazelnuts pursuant to § 982.56 (a) and (c) may be made upon notification to the Board in triplicate by the receiving handler on F/H Form 2 signed by both the transferring handler and the receiving handler which shall include the following information: (a) Date of transfer; (b) names of the transferring and receiving handlers; (c) locations between which the filberts/hazelnuts were transferred; (d) whether uncertified inshell or certified merchantable; (e) net weight of the filberts/hazelnuts transferred, by size and variety; (f) the inspection certificate, or lot number covering the filberts/hazelnuts; and (g) if certified merchantable, the name of the handler responsible for compliance with the applicable requirements pursuant to this part relating to such filberts/hazelnuts.

9. Section 982.457 is removed.

§ 982.457 [Removed]

10. Section 982.460 is amended by revising the first sentence in paragraph (b) and revising paragraph (c) to read as follows:

§ 982.460 Transfer of excess restricted credits.

* * * * *

(b) *Application.* Each handler who has excess restricted credits and desires to transfer them to another handler, may submit such request to the Board on F/H Form 3. * * *

(c) *Transfer.* The Board shall transfer the requested amount of the excess restricted credits from one handler to a designated handler upon receipt of a completed F/H Form 3 together with such information as may be required by this section.

11. Section 982.466 is revised to read as follows:

§ 982.466 Reports of inshell filberts/hazelnuts handled, shelled and withheld.

Each handler shall report to the Board monthly on F/H Forms 1 and F/H Forms 1a through 1e, as applicable, the quantities of inshell filberts/hazelnuts handled or withheld for restricted use and all product shelled and certified since the last report. All reports shall be submitted to include transactions through the end of each month, or other reporting periods established by the Board, and are due in the Board office on the tenth day following the end of the reporting period. The quantities of inshell filberts/hazelnuts handled shall be reported by size. The respective quantities of merchantable or ungraded filberts/hazelnuts withheld as restricted product shall be reported separately, and with respect to filberts/hazelnuts certified for shelling, or certified kernels withheld, the kernel weight and inshell equivalent weight shall be reported separately by size.

12. Section 982.468 is revised to read as follows:

§ 982.468 Report of filbert/hazelnut receipts, disposition, and inventory.

On or before January 15 and July 15, or any other date requested by the Board with the approval of the Secretary, each handler shall:

(a) Report to the Board on F/H Form 6 such handler's receipts and disposition of inshell filberts/hazelnuts and production of filbert/hazelnut kernels during the respective preceding six-month period of July 1 to December 31, and the preceding 12-month period of July 1 to June 30; and

(b) Report to the Board on F/H Form 5 such handler's inventory of filberts/hazelnuts as of January 1 and July 1, respectively, showing the quantities of inshell filberts/hazelnuts separately in terms of certified merchantable, graded uncertified merchantable, restricted, and ungraded. The certified merchantable filberts/hazelnuts shall be reported on the basis of whether located within or outside the production area and whether or not the restricted obligation has been met.

13. Section 982.471 is revised to read as follows:

§ 982.471 Records.

Each handler shall maintain complete and accurate records showing the receipt, shipment and sale of all filberts/hazelnuts handled, used or otherwise disposed of and shall retain such records for the two-year period prescribed in § 982.71. Handlers shall also maintain a current record of all filberts/hazelnuts held in inventory.

7 CFR Part 989

[Docket No. FV-89-081FR]

Raisins Produced From Grapes Grown in California; Addition of the Dominican Republic as a Country Eligible for Exports of Reserve Pool Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The U.S. Department of Agriculture is adopting, without modification, as a final rule the provisions of an interim final rule which adds the Dominican Republic as a country eligible for exports of reserve pool California raisins. This action was unanimously recommended by the Raisin Administrative Committee (RAC), which is responsible for local administration of the Federal marketing order regulating raisins produced in California. By providing handlers with another market for their reserve raisins, this action will reduce the burden or oversupply currently confronting the industry.

EFFECTIVE DATE: November 7, 1989.

FOR FURTHER INFORMATION CONTACT: Maureen T. Pello, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, Room 2522-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 382-1754.

SUPPLEMENTARY INFORMATION:

This final rule is issued under marketing agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation No. 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 23 handlers of raisins who are subject to regulation under the raisin marketing order and approximately 5,000 producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having gross annual revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. A majority of producers and a minority of handlers of California raisins may be classified as small entities.

The raisin order provides for the establishment of "free" and "reserve" percentages by variety of raisin for each crop year. "Free" raisins are those which may be shipped freely to any market. Raisins in excess of free tonnage are reserve raisins which must be held by handlers in a pool for the account of the RAC. Most reserve raisins withheld under the order have been marketed as food in domestic and eligible export outlets. In crop years with inadequate raisin production, reserve raisins are available to supplement new crop supplies.

Pursuant to § 989.221, reserve raisins are currently sold to handlers for export to islands on the continental shelf of South America and to all other markets in the world except the following: Canada, Mexico, and all islands adjacent to these countries, and all of the Caribbean Islands north of the 12th parallel, including the Dominican Republic. Canada, Mexico, and the mentioned islands are excluded because of the potential for shipment of raisins back to the United States for sale in competition with free tonnage raisins.

Adding the Dominican Republic as a country eligible for exports of reserve pool raisins will give handlers another market outlet for their reserve raisins. Since this provision utilizes reserve raisins, it will reduce the burden of oversupply that is currently confronting the industry.

According to the RAC, the Dominican Republic is a developing market for California raisins and the potential for expansion is good. The fact that nearly all raisins imported into the Dominican Republic are already in readily identifiable consumer packages is an effective deterrent to the transshipment of raisins to the United States.

Further, upon addition of the Dominican Republic as a country eligible for export of reserve raisins, the RAC has indicated that it would seek approval under § 989.53 for the implementation of an export incentive program for the Dominican Republic.

In addition, this rule makes editorial changes to § 989.221 for the purpose of clarity.

An interim final rule adding the Dominican Republic as a country eligible for exports of reserve raisins was published in the **Federal Register** on August 21, 1989 (54 FR 34404). That rule provided that interested persons could file written comments through September 20, 1989. No comments were received. Accordingly, the addition of the Dominican Republic as established by that interim final rule is adopted as a final rule without change.

Based on the available information, the Administrator of the AMS has determined that issuance of this final rule will not have a significant economic impact on a substantial number of small entities.

After consideration of all available information, it is found that the revision of § 989.221, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) The 1989-90 crop year began on August 1; (2) interested persons were provided a 30-day comment period in which to respond; (3) this final rule is an adoption, without modification, of an interim final rule effective August 21, 1989, adding the Dominican Republic as a country eligible for exports of reserve pool raisins.

List of Subjects in 7 CFR Part 989

California, Grapes, Marketing agreements and orders, Raisins.

For the reasons set forth in the preamble, 7 CFR part 989 is amended as follows:

Note: This section will appear in the Code of Federal Regulations.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 989 continues to read as follows:

Authority: Secs. 1-19, 48 Stat. 31, as amended, 7 U.S.C. 601-674.

2. Section 989.221 is revised to read as follows:

§ 989.221 Sale and export of reserve raisins by handlers.

(a) *Eligible countries.* Pursuant to § 989.67(c), the Committee shall sell reserve raisins to handlers for export to the Dominican Republic, islands on the continental shelf of South America, and to all other markets in the world except those listed in paragraph (b) of this section.

(b) *Non-eligible countries.* The Committee shall not sell reserve raisins to handlers for export to Canada, Mexico, and all islands adjacent to these countries, and all other Caribbean Islands north of the 12th parallel, except for the Dominican Republic.

Dated: November 1, 1989.

BILLING CODE 3410-02-M

7 CFR Part 1139

[DA-89-837]

Milk in the Great Basin Marketing Area; Order Suspending Certain Provisions

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Suspension of rule.

SUMMARY: This action suspends for the months of October 1989 through April 1990 a provision in the Great Basin milk order. The suspended provision relates to a "touch base" requirement where a dairy farmer, who was not a producer under the Great Basin order in the previous month, would not be eligible to have milk diverted to a nonpool plant until after one day's production is received at a pool plant. Suspension of this provision was requested by a cooperative association whose members supply a majority of the milk marketed under the Great Basin order. This suspension action is necessary to prevent considerable inconvenience and unnecessary expense in the movement of milk to assure that the cooperative association's member dairy farmers will not be caused to forfeit pool participation in a market where they provide an integral part of the reserve milk supply.

EFFECTIVE DATE: November 7, 1989.

FOR FURTHER INFORMATION CONTACT: Richard A. Glandt, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, Room 2968, South Building, P.O. Box 96456, Washington, DC 20090-6456, (202) 447-4829.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:.

Notice of Proposed Suspension: Issued October 3, 1989; published October 6, 1989 (54 FR 41254).

The Regulatory Flexibility Act (5 U.S.C. 601-612) requires the Agency to examine the impact of a proposed rule on small entities. Pursuant to 5 U.S.C. 605(b), the Administrator of the Agricultural Marketing Service has certified that this action will not have a significant economic impact on a substantial number of small entities. This action lessens the regulatory impact of the order on certain milk handlers and tends to ensure that dairy farmers will continue to have their milk priced under the order and thereby receive the benefits that accrue from such pricing.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under the criteria contained therein.

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and of the order regulating the handling of milk in the Great Basin marketing area.

Notice of proposed rulemaking was published in the **Federal Register** on October 6, 1989 (54 FR 41254) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon. No comments were received.

After consideration of all relevant material, including the proposal in the notice, and other available information, it is hereby found and determined that for the months of October 1989 through April 1990 the following provisions of the order do not tend to effectuate the declared policy of the Act:

Section 1139.13(d)(6)

Statement of Consideration

This action suspends for the months of October 1989 through April 1990 a "touch base" provision of the Great Basin Federal milk order. The suspension of this provision removes the requirement that a dairy farmer, who was not a producer under the Great Basin order in the previous month, will not be eligible to have milk diverted to a nonpool plant until after one day's production is received at a pool plant. The suspension action was requested by Western Dairymen Cooperative, Inc. (WDCI), whose members supply a majority of the milk marketed under the Great Basin order.

WDCI's need to adjust milk pick up routes over great distances in response to changes in demand at the many plants that it supplies with supplemental milk makes it unreasonable to expect delivery of at least one day's milk production be made to a pool plant before such milk is qualified for diversion, and thus for pooling under the order. This is further complicated by the fact that confirmation of delivery of a day's milk production to a pool plant is not known until after a month's end without incurring unnecessary increased expenses involved in tracking milk.

WDCI's claim that milk which it diverts in excess of fluid needs, or that is shifted from plant to plant, serves an integral role in the market's Grade A milk supply and thus deserves to be pooled under the Great Basin order is supported in this suspension action. Neither the producer members, nor the market in general, is served by maintenance of this touch base provision during the months indicated for this suspension action when production volumes and changes in demand create the greatest need for flexibility.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) The suspension is necessary to reflect current marketing conditions and to assure orderly marketing conditions in the marketing area in that uneconomic movements of milk would likely be made solely for the purpose of pooling the milk of producers who have regularly been associated with the market.

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension. No comments were filed in opposition to this action.

Therefore, good cause exists for making this order effective upon publication in the **Federal Register.**

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 89-ANE-27; Amdt. 39-6365]

Airworthiness Directives; Pratt & Whitney (PW) JT8D-7, -7A, and -7B Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which would require repetitive inspections of first stage stator polyurethane spacers incorporated on certain PW JT8D–7 series engines. Second stage fan disk fractures have occurred on engines modified by United Airlines (UAL) to incorporate a polyurethane spacer. This AD will also require repetitive inspections of the second stage fan disk on all engines which had incorporated a spacer. The AD is needed to prevent uncontained fracture of the second stage fan disk which could result in engine failure, cowl penetration, fire, or aircraft damage.

DATES: *Effective:* November 13, 1989.

Compliance: As indicated in the body of the AD.

FOR FURTHER INFORMATION CONTACT: Thomas Boudreau, Engine Certification Branch, ANE–141, Engine Certification Office, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7121.

SUPPLEMENTARY INFORMATION: There have been three uncontained second stage fan disk fractures and two other second stage fan disks found cracked during inspection. The five fractured or cracked second stage fan disks were installed on engines which were reconfigured by UAL to incorporate a first stage stator polyurethane spacer.

The FAA has determined that spacers installed by UAL extruded into the fan gas path during engine operation and resulted in an aerodynamic disturbance which was detrimental to the second stage fan disk. The aerodynamic disturbance increases the vibratory stresses in the second stage fan blades and disk, and can result in an uncontained failure of the disk. Since this condition is likely to exist or develop on other engines of the same type design which incorporate a first stage stator polyurethane spacer, an AD is being issued which requires inspection for spacer presence and protrusion, removal of the first stage stator assembly and spacer, and establishes a repetitive inspection program for the second stage fan disk on certain PW JT8D–7 series engines.

Presently, UAL is the only known engine overhaul shop which incorporated the spacer. However, UAL does not have sufficient records identifying all the engines which were reconfigured with the spacer. Consequently, the AD will require an initial visual inspection for spacer presence on all PW JT8D–7 series engines unless the operator can provide records to the FAA showing UAL has never performed maintenance on the engine.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket (otherwise, an evaluation is not

required). A copy of it, if filed, may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Engines, Air transporation, Aircraft, and Aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration (FAA) amends part 39 of the Federal Aviation Regulations (14 CFR 39.13) as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive (AD):

Pratt & Whitney: Applies to Pratt & Whitney (PW) JT8D–7, –7A, and –7B turbofan engines.

Compliance is required as indicated, unless already accomplished.

To prevent engine failure, cowl penetration, fire, or airframe damage associated with a second stage fan disk fracture, accomplish the following:

(a) Visually inspect for the presence and protrusion of a spacer within 100 cycles in service (CIS) after the effective date of this AD. NOTE (1) defines the spacer location. If a spacer is found during inspection, accomplish the following:

(1) If the spacer radial protrusion is in excess of 0.125 inches, trim the spacer to the fan case inner flow surface.

(2) If the spacer radial protrusion is in excess of 0.250 inches over a circumferential length greater than 3 inches, remove the second stage fan disk, first stage stator assembly, and the spacer. Inspect the disk in accordance with paragraphs (d)(1), (d)(2), and (d)(3), within 100 CIS after inspection and thereafter, reinspect the disk in accordance with paragraph (e).

(b) Thereafter, visually reinspect for first stage stator spacer protrusion, if a spacer is installed, in accordance with the limits noted in paragraphs (a)(1) and (a)(2), at intervals not to exceed 200 CIS since last inspection (SLI) and until the first stage stator assembly and spacer are removed per paragraph (c) below.

(c) Remove the first stage stator assembly and spacer, and install a new or a refurbished first stage stator assembly in accordance with PW JT8D Engine Manual, Part Number (P/N) 481672, at the next engine shop visit, but no later than 4,000 CIS after the effective date of this AD.

(d) Inspect all second stage fan disks which have operated in an engine with a spacer installed at the next engine shop visit, but no later than 4,000 CIS after the effective date of this AD, or as required by paragraph (a)(2) above. The inspection shall include the following:

(1) Eddy current inspect disk pin holes and remove from service all disks defined as not serviceable in accordance with the instructions in the Appendix to this AD.

(2) Visually inspect the inner surface of the disk pin hole for evidence of galling or other surface damage. Reject disks with damage in excess of 0.003 inches deep.

(3) Dimensionally inspect the disk pin hole diameters. Reject disks if any disk pin hole diameter exceeds 0.5496 inches (Reference PW JT8D Engine Manual, Section 72–33–04, Inspection –01, Page 801, Reference 222).

(e) Thereafter, reinspect second stage fan disks in accordance with paragraphs (d)(1), (d)(2), and (d)(3) above, at intervals not to exceed 4,000 CIS SLI if the disk operated in an engine with a spacer radial protrusion in excess of the limits established in paragraph (a)(2) above.

(f) If a first stage stator spacer is found during the initial visual inspection, report the following information in writing within 30 days of the inspection to the Manager, Engine Certification Office, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; Telex Number 949301 FAANE BURL:

(1) Engine serial number (S/N).

(2) Inspection date.

(3) First stage stator spacer maximum radial protrusion and circumferential length of protrusion.

(4) Second stage fan disk P/N and S/N.

(g) Report the following information in writing within 30 days of the second stage fan disk inspection to the Manager, Engine Certification Office, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; Telex Number 949301 FAANE BURL:

(1) Engine serial number (S/N).

(2) Inspection data.

(3) Second stage fan disk P/N and S/N.

(4) Second stage fan disk total time and cycles (if estimate, so note).

(5) Second stage fan disk time and cycles since installation.

(6) Second stage fan disk inspection results for rejected disks (specify rejection criteria used).

Information collection requirements contained in this regulation (§ 39.13) have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and have been assigned OMB Control Number 2120–0056.

(h) Records showing that United Airlines (UAL) has not performed maintenance on the engine may be used in lieu of the visual inspection requirements of paragraph (a) above to verify the absence of the spacer, provided the operator's FAA Airworthiness Inspector is supplied with a complete maintenance history of the engine and determines that UAL has never maintained, overhauled or altered the engine after October 10, 1972.

Notes: (1) The location where the first stage stator spacer would be installed is shown in the PW JT8D Engine Manual, P/N 481672, Section 72–33–05, Repair–00, Page 901/902, Figure 901, Index 3.

(2) Engine shop visit is defined as the input of an engine to a repair shop with low pressure compressor rotor overhaul capability where the subsequent engine maintenance entails the following:

(a) Separation of a major engine flange (lettered or numbered) other than flanges mating with major sections of the nacelle or reverser. Separation of flanges purely for purposes of shipment, without subsequent internal maintenance, is not a "shop visit."

(b) Removal of a disk, hub, or spool.

(i) Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

(j) Upon submission of substantiating data by an owner or operator through an FAA Airworthiness Inspector, an alternate method of compliance with the requirements of this AD or adjustments to the compliance times specified in this AD, may be approved by the Manager, Engine Certification Office, ANE–140, Engine and Propeller Directorate, Aircraft Certification Service, Federal Aviation Administration, 12 New England Executive Park, Burlington Massachusetts 01803.

This amendment becomes effective on November 13, 1989.

Issued in Burlington, Massachusetts, on October 5, 1989.

Arthur J. Pidgeon,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

Eddy Current Instrument: ELOTEST B1

Eddy Current Probe: GK BPRO .535 4½

Test Piece: UALSTD–8–C2–001

The operator should read the respective instrument manual for the complete understanding of the equipment operating procedures.

The interpretation of the various patterns that appear on the scope will be discussed during the training and check-out session.

No personnel will be qualified to operate the equipment and perform the inspection until they have received personal instruction by a qualified operator, as determined by the dayshift foreman.

Modifications to the probes or equipment are not allowed. In case of difficulty notify the dayshift foreman for instructions.

VOL 54 ISS 214 NO 7 1989 UMI

1. Cable Connection
   A. Connect the ELOTEST B1 to the hand rotor utilizing the B1–RS adapter.
2. System Calibration
   A. Push the ON key on the front panel.
   B. Push the ENTER key, then push the SELECT key until User-Settings are displayed on the LCD window. Push the ENTER key again to display Recall Settings. Push the ENTER key again to display the Task Name. Turn the knob until the required task name is displayed and then push the ENTER key again. The settings are now loaded for the task selected.
   C. Connect the probe type shown in the LCD window and push the ENTER key again. Verify the Test Piece number shown in the LCD window.
   D. Push the EXIT key three times and proceed with the inspection.
   E. At this time the settings for the assigned task are displayed in the LCD window.
      (1) Settings for Task 1: JT8D–7 C2 DISC
         (a) Freq: 640 Khz
         (b) Phase Angle: 143°
         (c) Gain Y: 58dB Timebase
         (d) Filt: BP 800 Hz
   F. Insert probe into standard and rotate.
   G. Insure that there is a 30% vertical amplitude indication from the center rail EDM notch. Adjust the gain if necessary by pushing the dB key and rotating the knob to achieve the required 30% vertical amplitude the EXIT key to return to the Task Settings Display, per E.1.
3. Inspection
   A. Translate probe through each pin hole in all three rails.
4. Rejection Criteria
   A. Any crack signal simular to the crack standard signature.
   B. Any crack signal equal to or greater than 50% of the crack standard should be evaluated to confirm the presence of cracking.
5. Record of Accomplishment
   A. Sign off JPC eddy current inspection block or other inspection request paperwork.
   B. Record inspection in E49 History log book.

[FR Doc. 89–26170 Filed 11–6–89; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 89–ANE–11; Amdt. 39–6359]

Airworthiness Directives; Teledyne Continental Motors (TCM) Engines, Models TSIO–520B, BB, D, DB, E, EB, J, JB, K, KB, N, NB, UB, and VB

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires a one time inspection and, if necessary, replacement of the scavenge oil pump gears on certain TCM models TSIO–520B, BB, D, DB, E, EB, J, JB, K, KB, N, NB, UB, and VB. This AD is needed to prevent possible failure of the scavenge pump which could result in total loss of engine power.

DATES: *Effective:* November 20, 1989.

Compliance: As indicated in the body of the AD.

ADDRESSES: The applicable service bulletin (SB) No. M89–4, dated February 9, 1989, may be obtained from Teledyne Continental Motors, P.O. Box 90, Mobile, Alabama 36601, or may be examined in the Regional Rules Docket, Room 311, Office of the Assistant Chief Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Jerry Robinette, Aerospace Engineer, Propulsion Branch, ACE–140A, Atlanta Aircraft Certification Office, Small Airplane Directorate, Aircraft Certification Service, Federal Aviation Administration, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia 30349; telephone (404) 991–3810.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (FAR) to include an AD which requires a one-time inspection and, if necessary, replacement of the scavenge oil pump gears on certain TCM engines, models TSIO–520B, BB, D, DB, E, EB, J, JB, K, KB, N, NB, UB, and VB, was published in the **Federal Register** on June 23, 1989 (54 FR 26393). The proposal was prompted by service difficulty reports (39 since 1983) of scavenge pump gear failures on certain TCM engines, models TSIO–520B, BB, D, DB, E, EB, J, JB, K, KB, N, NB, UB and VB. Failure of the scavenge pump gears results in total loss of engine power due to lack of lubrication. This problem is addressed in TCM SB M89–4 which recommends a one-time inspection of marked gears and replacement of any unmarked gear or any marked gear which fails the inspection. The gears, part numbers (P/N's) 635334 and 639388, have a shallow hardness depth, and wear or pressure abrasive cleaning procedures can destroy the hardened layer. TCM introduced carburized gears, P/N's 649157 and 649159, which have much greater resistance to wear. However, they did not mark the early production gears by drill point as is currently being done. Therefore, there are unidentifiable carburized gears in use. These carburized gears (P/N's 649157 and 649159) are to replace P/N's 635334 and 639388 and unmarked gears P/N's 649157 and 649159.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received.

Accordingly, the proposal is adopted without change.

The regulations adopted herein do not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule will not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation involves 8,481 engines and will cost approximately $310 per engine for a total cost of $2,629,110. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Engines, Air transportation, Aircraft, and Aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration (FAA) amends part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive (AD):

Teledyne Continental Motors (TCM): Applies to TCM engines, models TSIO–520B, BB, D, DB, E, EB, J, JB, K, KB, N, NB, UB, and VB, equipped with scavenge oil pump gears, part numbers (P/N's) 635334, 639388, 649157, and 649159.

Compliance is required within 500 flight hours after the effective date of this AD, or at any maintenance event during which the scavenge oil pump gears are removed from the engine, whichever occurs first, unless already accomplished.

To prevent possible failure of scavenge oil pump gears which could result in total loss of engine power, accomplish the following:

(a) Remove the scavenge oil pump gears from the scavenge oil pump housing and inspect the gear teeth for a drill point as shown in Figure 1 of the Appendix to this AD.

(1) If the drill point is present, inspect the gears in accordance with the inspection procedures outlined in the Appendix to this AD.

(2) If the drill point is not present or the gears fail the inspection specified in the Appendix to this AD, replace the gears with serviceable P/N 649157 and/or P/N 649159 gears having the drill point marking.

(b) Make an appropriate log book entry showing compliance with this AD.

(c) Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

(d) Upon submission of substantiating data by an owner or operator through an FAA Airworthiness Inspector, an alternate method of compliance or adjustments to the compliance time specified in this AD may be approved by the Manager, Atlanta Aircraft Certification Office, Small Airplane Certification Directorate, Aircraft Certification Service, Federal Aviation Administration, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia 30349.

This amendment becomes effective on November 20, 1989.

Issued in Burlington, Massachusetts, on October 2, 1989.

Jack A. Sain,

Manager, Engine and Propeller Directorate, Aircraft Certification Service.

Appendix—*Source:* Teledyne Continental Aircraft Engine Service Bulletin No. M89–4, Dated February 9, 1989, Pertains To This Inspection

The scavenge pump gears, not marked with a drill point as outlined must be retired from service. The scavenge pump gears, P/N 649157 and P/N 649159 that are marked with a drill point should be inspected as follows: See Figure 1.

Figure 1

Prior to inspection, the scavenge oil pump gears should be cleaned with an approved carbon cleaner and thoroughly rinsed with a mineral spirit solvent. After proper cleaning has been accomplished, the gears should be inspected using the dimensions specified in the Table of Limits and the Magnaflux procedures covered in the TSIO520 Permold Series Overhaul Manual X30574A. If the gears are found to be within serviceable limits, they should further be visually inspected for uneven wear, pitting or excessive galling. If these indications are revealed, the gears should be replaced. A light amount of polishing is normal and to be expected.

CAUTION . . . Do not pressure abrasive blast gears. This may remove surface hardness thus causing excessive gear wear.

14 CFR Part 39

[Docket No. 89–ANE–19; Amdt. 39–6386]

Airworthiness Directives; Teledyne Continental Motors (TCM) Model TSIO–520–UB Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires repetitive inspections of the turbocharger inlet assembly on certain TSIO–520–UB engines. This AD is needed to detect possible cracking of the turbocharger inlet assembly which could result in the introduction of hot exhaust gases into the engine compartment with the possibility of engine compartment fire.

DATES: *Effective*—December 4, 1989.

Compliance—As indicated in the body of the AD.

FOR FURTHER INFORMATION CONTACT: Jerry Robinette, Aerospace Engineer, Propulsion Branch, ACE–140A, Atlanta Aircraft Certification Office, Federal Aviation Administration, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia 30349; telephone (404) 991–3810.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (FAR) to include an AD which requires repetitive inspections of the turbocharger inlet assembly on certain TSIO–520–UB engines was published in the **Federal Register** on July 13, 1989 (54 FR 29582). The proposal was prompted by service difficulty reports (SDR) of cracking of the turbocharger inlet assembly on certain TCM model TSIO–520–UB engines which could could introduce hot exhaust gases into the engine compartment. This problem was addressed in Beechcraft Service Communique No. 70, dated October 28, 1983, in which 100 hour inspection intervals are recommended. TCM introduced a replacement (cast) part in 1985 to replace the original (welded) part. The SDR's received since that time indicate that the original part is still in service and the rate of cracking may be increasing due to repairs, aging, and installation errors. There were 7 SDR's from 1981 through 1984 with an additional 12 reports from 1985 through 1988.

Interested persons have been afforded an opportunity to participate in the making of this amendment and no comments were received. Accordingly, the proposal is adopted without change.

The regulations adopted herein do not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation involves 452 engines, and will cost approximately $160 per inspection per engine. If a replacement part must be used, the cost of the part is $3,138.00 and there would be an additional 6 hours ($240) labor for installation. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, The Federal Aviation Administration (FAA) amends part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

BEST COPY AVAILABLE

VOL 54 ISS 214 NO 7 1989 UMI

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive (AD):

Teledyne Continental Motors (TCM): Applies to TCM Model TSIO-520-UB engines, serial numbers 515000 thru 515999 and 527000 thru 527070, and to all remanufactured and overhauled engines of this model, regardless of serial number, which are equipped with part number P/N 642668 turbocharger inlet assembly.

Compliance is required at the next 100 hour inspection or annual inspection, or within 100 flight hours, whichever occurs first after the effective date of this AD, and thereafter at intervals not to exceed 100 flight hours.

To prevent possible cracking of the turbocharger inlet assembly which could result in engine compartment fire, accomplish the following:

(a) Visually inspect turbocharger inlet assembly P/N 642668 for cracks especially in the weld joints just above the turbine inlet temperature boss. If a crack is found, replace P/N 642668 with P/N 646705 turbocharger inlet assembly, prior to further flight.

(b) Make appropriate log book entry showing compliance with this AD.

Notes: (1) Beechcraft Aircraft Corporation Service Communique No. 76, dated October 28, 1983, refers to this subject.

(2) When determining the P/N assembly installed in order to comply with this AD, a distinguishing feature of the P/N 642668 turbocharger inlet assembly is 4 ribs (approximately 0.25 inches in height, 0.1 inches in width, and 2.1 inches in length) on the top of the turbocharger mating flange.

(3) If P/N 642668 is not installed, no action is required.

(c) Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

(d) Upon submission of substantiating data by an owner or operator through an FAA Airworthiness Inspector, an alternate method of compliance with the requirements of this AD or adjustments to the compliance schedule specified in this AD may be approved by the Manager, Atlanta Aircraft Certification Office, Federal Aviation Administration, 1669 Phoenix Parkway, Suite 210C, Atlanta, Georgia 30349.

This amendment becomes effective on December 4, 1989.

Issued in Burlington, Massachusetts, on October 25, 1989.

Jack A. Sain,

Manager, Engine and Propeller Directorate, Aircraft Certification Service.

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS); Changes to the CHAMPUS DRG-Based Payment System Rates and Weights

AGENCY: Office of the Secretary, DoD.

ACTION: Corrections to notice of revised rates.

SUMMARY: This document corrects technical errors that appeared in the notice of revised rates which was published on October 10, 1989 (54 FR 41487), and which revised the weights and rates to be used in the CHAMPUS DRG-based payment system effective for admissions occurring on or after October 1, 1989.

FOR FURTHER INFORMATION CONTACT: Stephen E. Isaacson, Office of Program Development, OCHAMPUS, Aurora, Colorado 80045, telephone (303) 361-4005.

SUPPLEMENTARY INFORMATION: In 54 FR 41487 which was published on October 10, 1989, make the following corrections:

1. On pages 41488 through 41494, the table heading "CRG Description" is corrected to read "DRG Description."

1a. On page 41488, the DRG description reading "Nonspecific cerebrovascular disorders w/o CC" is DRG number 17.

2. On page 41488, DRG 28, the DRG description is corrected to read "Traumatic stupor & coma, coma <1 hr age >17 w CC".

3. On page 41488, DRG 29, the DRG description is corrected to read "Traumatic stupor & coma, coma <1 hr age >17 w/o CC".

4. On page 41488, DRG 30, the DRG description is corrected to read "Traumatic stupor & coma, coma <1 hr age 0-17".

5. On page 41488, DRG 31, the DRG description is corrected to read "Concussion age >17 w CC".

6. On page 41488, DRG 32, the DRG description is corrected to read "Concussion age >17 w/o CC".

7. On page 41488, DRG 40, the DRG description is corrected to read "Extraocular procedures except orbit age >17".

8. On page 41488, DRG 41, the DRG description is corrected to read "Extraocular procedures except orbit age 0-17".

9. On page 41488, DRG 46, the DRG description is corrected to read "Other disorders of the eye age >17 w CC".

10. On page 41488, DRG 47, the DRG description is corrected to read "Other disorders of the eye age >17 w/o CC".

11. On page 41489, DRG 53, the DRG description is corrected to read "Sinus and mastoid procedures age >17".

12. On page 41489, DRG 55, the long stay threshold (A) is corrected to read "5".

13. On page 41489, DRG 57, the DRG description is corrected to read "T&A proc, except tonsillectomy &/or adenoidectomy only, age >17".

14. On page 41489, DRG 58, the DRG description is corrected to read "Tonsillectomy &/or adenoidectomy only, age >17".

15. On page 41489, DRG 61, the DRG description is corrected to read "Myringotmy w tube insertion age >17".

16. On page 41489, DRG 62, the DRG description is corrected to read "Myringotmy w tube insertion age 0-17".

17. On page 41489, DRG 68, the DRG description is corrected to read "Otitis media & URI age >17 w CC".

18. On page 41489, DRG 69, the DRG description is corrected to read "Otitis media & URI age >17 w/o CC", and the weight is corrected to read "0.5444".

19. On page 41489, DRG 73, the DRG description is corrected to read "Other ear, nose, mouth & throat diagnoses age >17".

20. On page 41489, DRG 79, the DRG description is corrected to read, "Respiratory infections & inflammations age >17 w CC".

21. On page 41489, DRG 80, the DRG description is corrected to read "Respiratory infections & inflammations age >17 w/o CC".

22. On page 41489, DRG 89, the DRG description is corrected to read "Simple pneumonia & pleurisy age >17 w CC".

23. On page 41489, DRG 90, the DRG description is corrected to read "Simple pneumonia & pleurisy age >17 w/o CC".

24. On page 41489, DRG 96, the DRG description is corrected to read "Bronchitis & asthma age >17 w CC".

25. On page 41489, DRG 97, the DRG description is corrected to read "Bronchitis & asthma age >17 w/o CC".

26. On page 41490, DRG 193, the DRG description is corrected to read "Biliary tract proc except only tot cholecyst w or w/o C.D.E. w CC".

27. On page 41490, DRG 194, the DRG description is corrected to read "Biliary tract proc except only tot cholecyst w or w/o C.D.E. w/o CC".

28. On page 41493, DRG 435, the short stay threshold should stay blank.

29. On page 41493, DRG 436, the short stay threshold should stay blank.

30. On page 41494, DRG 473, the DRG description is corrected to read "Acute leukemia w/o major O.R. procedure age >17".

31. On page 41494, DRG 601, the DRG description is corrected to read "Neonate, transferred <5 days old".

32. On page 41494, DRG 602, the DRG description is corrected to read "Neonate, birthwt <750G, discharged alive".

33. On page 41494, DRG 603, the DRG description is corrected to read "Neonate, birthwt <750G, died".

34. On page 41494, DRG 612, the weight should be annotated with a "#" to indicate that it may be revised.

35. On page 41494, DRG 616, the weight is corrected to read "1.1671#".

36. On page 41494, DRG 627, the weight should be annotated with a "#" to indicate that it may be revised.

37. On page 41494, DRG 900, the DRG description is corrected to read "Alc/Drug abuse or depend, detox or oth sympt treat w/o CC age <21".

38. On page 41494, DRG 901, the DRG description is corrected to read "Alc/Drug abuse or depend, detox or oth sympt treat w/o age >21".

39. On page 41494, the NOTE at the end of Table 2 is corrected to read "Long stay threshold B is used for childrens' hospital discharges."

Dated: November 1, 1989.

BILLING CODE 3810-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 15

Compliance Date for Cable System Terminal Devices

AGENCY: Federal Communications Commission.

ACTION: Clarification of compliance date.

SUMMARY: This document responds to several inquiries regarding when cable system terminal devices (CSTD's) must comply with 47 CFR part 15. Formerly, CSTD's that were marketed to cable systems could demonstrate compliance with the standards in 47 CFR part 76. CSTD's marketed to consumers were required to be authorized under 47 CFR part 15. As adopted in the *Memorandum, Opinion and Order* in GEN Docket No. 85-301, 53 FR 46615, November 18, 1988, all CSTD's manufactured or imported on or after July 1, 1990, must comply with the standards and equipment authorization requirement in 47 CFR part 15, regardless of the party to whom the equipment is marketed.

DATE: The compliance date is July 1, 1990.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: John A. Reed, Office of Engineering and Technology, (202) 653-7313.

SUPPLEMENTARY INFORMATION:

Compliance Date for Cable System Terminal Devices

October 6, 1989.

The Commission has received several inquiries regarding the date that cable system terminal devices (CSTD's) must comply with the standards contained in part 15. We are issuing this public notice to serve as a reminder that all CSTD's manufactured or imported on or after July 1, 1990, must be authorized under the Commission's notification procedure and must comply with the part 15 standards specified for CSTD's.

As defined in § 15.3(e), a CSTD is a TV interface device that serves, as its primary function, to connect a cable system operating under part 76 of our rules to a TV broadcast receiver or other subscriber premise equipment. Channel selection boxes used with cable systems are examples of CSTD's.

On October 13, 1988, the Commission adopted the *Memorandum, Opinion and Order (MO&O)* in GEN Docket No. 85-301. The rules adopted in the MO&O required CSTD's manufactured or imported on or after July 1, 1990, to be authorized under the Commission's notification procedure and to demonstrate compliance with the TV interface device rules contained in subpart H, part 15 of the rules. Those requirements applied to all cable system terminal devices, including devices marketed to cable companies for lease to consumers.

Subsequently, the Commission in GEN Docket No. 87-389 revised part 15 of its rules. This revision incorporated the rules adopted in GEN Docket No. 85-301 for CSTD's. Accordingly, any CSTD that is manufactured or imported on or after July 1, 1990, must comply with the standards specified in part 15 for cable system terminal devices. Further, CSTD's marketed to consumers already must comply with the part 15 rules.

Questions regarding this Public Notice should be directed to Mr. John Reed at Room 7122, FCC Washington, DC 20554, or at (202) 653-7313.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 32

RIN 1018-AA71

Refuge-Specific Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Fish and Wildlife Service (Service) is amending certain regulations in 50 CFR part 32 that pertain to migratory game bird, upland game, and big game hunting on individual national wildlife refuges. Refuge hunting programs are reviewed annually to determine whether the regulations governing individual refuge hunts should be modified, deleted or added to. Changing environmental conditions, state and Federal regulations, and other factors affecting wildlife populations and habitats may warrant modifications to ensure the continued compatibility of hunting with the purposes for which the individual refuges involved were established and, to the extent practical, make refuge hunting programs consistent with state regulations.

EFFECTIVE DATE: December 7, 1989.

FOR FURTHER INFORMATION CONTACT: Larry LaRochelle, Division of Refuges, U.S. Fish and Wildlife Service, 18th and C Streets NW., MS 670-ARLSQ, Washington, DC 20240; Telephone (703) 358-2043.

SUPPLEMENTARY INFORMATION: 50 CFR part 32 contains provisions governing hunting on national wildlife refuges. Hunting is regulated on refuges to (1) ensure compatibility with refuge purposes, (2) properly manage the wildlife resource, (3) protect other refuge values, and (4) ensure refuge user safety. On many refuges, the Service policy of adopting state hunting regulations is adequate in meeting these objectives. On other refuges, it is necessary to supplement State regulations with more restrictive Federal regulations to ensure that the Service meets its management responsibilities, as outlined under the section entitled "Conformance with Statutory and Regulatory Authorities." Refuge-specific hunting regulations may be issued only after a wildlife refuge is opened to migratory game bird, upland game, or big game hunting through publication in the **Federal Register**. These regulations may list the wildlife species that may be hunted, seasons, bag limits, methods of hunting, descriptions of open areas, and other provisions. Previously issued refuge-specific regulations for migratory game bird, upland game, and big game hunting are contained in 50 CFR 32.12, 32.22, and 32.32 respectively. Many of the amendments to these sections are being promulgated to standardize and clarify the existing language of these regulations.

The policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. In the July 28, 1989, issue of the **Federal Register** beginning on page 31348 the Service published a proposed rulemaking the amend certain reguations in 50 CFR part 32 and invited the public to comment. The Service's responses to those comments are contained in the following section.

Responses to Comments Received

Written comments on the proposed rule were received from six parties opposing the proposed horsepower restrictions on the use of electric motors on Unit 9 of the Lower Klamath National Wildlife Refuge in California and Oregon. The Service is therefore withdrawing those proposals. No other comments were received on the Service's proposals nor were any received concerning information collection under the Paperwork Reduction Act.

Conformance With Statutory and Regulatory Authorities The National Wildlife Refuge System Administration Act (NWRSAA) of 1966, as amended (16 U.S.C. 668dd), and the Refuge Recreation Act of 1962 (16 U.S.C. 460k) govern the administration and public use of national wildlife refuges. Specifically, section 4(d)(1)(A) of the NWRSAA authorizes the Secretary of the Interior to permit the use of any area within the Refuge System for any purpose, including but not limited to, hunting, fishing and public recreation, accommodations and access, when he determines that such uses are compatible with the major purpose(s) for which the area was established.

The Refuge Recreation Act authorizes the Secretary to administer areas within the Refuge System for public recreation as an appropriate incidental or secondary use only to the extent that it is practicable and not inconsistent with the primary purpose(s) for which the areas were established. The Refuge Recreation Act also authorizes the Secretary to issue regulations to carry out the purposes of the Act. Hunting plans are developed for each refuge prior to opening it to hunting. In many cases, refuge-specific hunting regulations are included in the hunting plan to ensure the compatibility of the hunting programs with the purposes for which the refuge was established. Initial compliance with the NWRSAA and Refuge Recreation Act is ensured when hunting plans are developed, and the determinations required by these acts are made prior to the addition of refuges to the lists of areas open to hunting in 50 CFR. Continued compliance is ensured by annual review of hunting programs and regulations.

Considering the rapidly approaching hunting seasons and the ones presently taking place, there is an immediate need to place these regulations into effect. The absence of refuge-specific hunting regulations for these hunting seasons would be contrary to the public interest (confusion on hours, bag limits, or

firearm restrictions), and wildlife conservation. Thus, the Department concludes that good cause exists within the meaning of 5 U.S.C. 553(d)(3) to make these regulations effective upon publication in the **Federal Register**.

Economic Effect

Executive Order 12291 requires the preparation of regulatory impact analyses for major rules. A major rule is one likely to result in an annual effect on the economy of $100 million or more; or a major increase in costs or prices for consumers, individual industries, government agencies or geographic regions. The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) further requires the preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions.

These amendments to the codified refuge-specific hunting regulations make relatively minor adjustments to existing hunting programs. The regulations are not expected to have any gross economic effect and will not cause an increase in costs or prices for consumers, individual industries, Federal, state, or local governments, agencies, or geographic regions. The benefits accruing to the public are expected to exceed by a large margin the costs of administering this rule. Accordingly, the Department of the Interior has determined that this rule is not a "major rule" within the meaning of E.O. 12291 and will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Paperwork Reduction Act

The Service has approval from the Office of Management and Budget (OMB) for the information collection requirements of these regulations pursuant to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). These requirements are presently approved by OMB as cited below:

Type of Information Collection	OMB Approval No.
Economic and public use permits	1018-0014

Public reporting burden for this form is estimated to average six (6) minutes per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments on the burden estimate or any other aspect of this form to: Information Collection Officer, U.S. Fish and Wildlife Service, MS 224 ARLSQ, Washington, DC 20240; and the Office of Management and Budget, Paperwork Reduction Project (1018-0014), Washington, DC 20503.

Environmental Considerations

Compliance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4332(C)) and the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) is ensured when hunting plans are developed, and the determinations required by these acts are made prior to the addition of refuges to the lists of areas open to hunting in 50 CFR. Refuge-specific hunting regulations are subject to a categorical exclusion from the NEPA process if they do not significantly alter the existing use of a particular national wildlife refuge. The changes enacted in this rulemaking do not substantially alter the existing uses of the refuges involved. Information regarding hunting permits and the conditions that apply to individual refuge hunts and maps of the hunt areas are available at refuge headquarters or can be obtained from the regional offices of the U.S. Fish and Wildlife Service at the addresses listed below:

Region 1—California, Hawaii, Idaho, Nevada, Oregon, and Washington. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, 1002 NE Hollaay Street, Portland, Oregon 97232; Telephone (503) 231-6214.

Region 2—Arizona, New Mexico, Oklahoma, and Texas. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103; Telephone (505) 766-1829.

Region 3—Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio and Wisconsin. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Federal Buildings, Fort Snelling, Twin Cities, Minnesota 55111; Telephone (612) 725-3507.

Region 4—Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Tennessee, South Carolina, Puerto Rico and the Virgin Islands. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Richard B. Russell Federal Building, 75 Spring Street, SW., Atlanta, Georgia 30303; Telephone (404) 331-0833.

Region 5—Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, One Gateway Center, Suite 700, Newton Corner, Massachusetts 02158; Telephone (617) 965-5222.

Region 6—Colorado, Kansas, Montana, Nebraska, North Dakota, South Dakota, Utah and Wyoming. Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, Box 25486, Denver Federal Center, Denver, Colorado 80225; Telephone (303) 236-8145.

Region 7—Alaska (Hunting on Alaska refuges is in accordance with State regulations. There are no refuge-specific hunting regulations for these regions). Assistant Regional Director—Refuges and Wildlife, U.S. Fish and Wildlife Service, 1011 E. Tudor Road, Anchorage, Alaska 99503; Telephone (907) 786-3538.

Larry LaRochelle, Division of Refuges, U.S. Fish and Wildlife Service, Washington, DC 20240, is the primary author of this rulemaking document.

(4) *D'Arbonne National Wildlife Refuge.* * * *

(i) Either-sex deer hunting with firearms will be for 9 consecutive days beginning with the first day of the Union Parish either-sex season.

* * * * *

(7) *Tensas National Wildlife Refuge.* Hunting of white-tailed deer and turkey is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(8) *Upper Quachita National Wildlife Refuge.* * * *

(i) Either-sex deer hunting with firearms will be for 9 consecutive days beginning with the first day of the Union Parish either-sex season.

* * * * *

(cc) Nevada—(1) Desert National Wildlife Range. Hunting of bighorn sheep and deer is permitted on designated areas of the range subject to the following conditions:

(i) Bighorn sheep and deer guides are required to obtain a Special Use Permit prior to taking clients on to the range.

(ii) Natural bighorn sheep mortalities (pick-up heads) found on the range are government property and possession or removal of them from the range is not permitted.

(dd) New Jersey—* * *

(3) *Supawna Meadows National Wildlife Refuge.* * * *

(iv) Use or possession of alcoholic beverages while hunting is prohibited.

* * * * *

(gg) *North Carolina*—* * *

(3) *Mackay Island National Wildlife Refuge.* Hunting of deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

(4) *Pee Dee National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following conditions: Permits are required.

* * * * *

(11) *South Carolina*—* * *

(2) *Carolina Sandhills National Wildlife Refuge.* * * *

(v) In addition to the State bag limits, two antlerless deer may be taken during each of the three hunt seasons. * * *

(vii) Hunters are required to wear a minimum of 500 square inches of florescent orange material visible above the waistline.

(viii) Firearms must be unloaded and cased or dismantled while being transported in a vehicle.

(ix) Hunting within 100 feet of maintained roads or within 500 feet of the paved wildlife drive is prohibited.

* * * * *

(3) *Pinckney Island National Wildlife Refuge.* Hunting of white-tailed deer is permitted on designated areas of the refuge subject to the following condition: Permits are required.

* * * * *

(oo) *Texas—(1) Aransas National Wildlife Refuge.* * * *

(viii) Baiting in any form, introduction of any material or food as bait or attractant, or possession of such food or material is prohibited. This includes, but is not limited to, corn, grain, hay and mineral blocks. * * *

(x) Hunters must satisfy the entrance fee requirement authorized by the Emergency Wetlands Resources Act.

* * * * *

(rr) *Virginia*—* * *

(2) *Chincoteague National Wildlife Refuge.* * * *

(iv) Hunters, during the State firearms season, must wear in a conspicuous manner on head, chest and back a minimum of 400 square inches of solid-colored hunter orange clothing or material.

* * * * *

Dated: October 4, 1989.

Richard N. Smith,

Acting Director, Fish and Wildlife Service.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

1 CFR Part 305

Complaints, Grievances and Appeals in the Federal Personnel System

AGENCY: Administrative Conference of the United States.

ACTION: Proposed recommendation and notice of meeting.

SUMMARY: The Administrative Conference's Committee on Governmental Processes has under consideration a draft recommendation on procedures for handling complaints, grievances and appeals in the Federal personnel system. Interested persons are invited to comment on the draft recommendation. Copies of the background report are available on request.

DATES: Comments should be submitted no later than November 17, 1989. The committee may hold a meeting for further discussion of the recommendation on November 22, 1989, at 9:30 a.m.

FOR FURTHER INFORMATION CONTACT: David M. Pritzker, Office of the Chairman, Administrative Conference of the United States, 2120 L Street NW., Suite 500, Washington, DC 20037. Telephone: 202–254–7065. Comments may also be submitted to this address.

SUPPLEMENTARY INFORMATION: The Administrative Conference's Committee on Governmental Processes has under consideration a draft recommendation on procedures for handling complaints, grievances and appeals in the Federal personnel system. The proposed recommendation is based in part on a draft report by Professor William V. Luneburg of the University of Pittsburgh School of Law. The text of the draft recommendation is printed in full below. Copies of the draft report are available from the Office of the Chairman of the Administrative Conference. The public is invited to submit comments on the draft recommendation. Comments should be sent to the address given above not later than November 17, 1989.

The Conference's Committee on Governmental Processes may hold a meeting on Wednesday, November 22, 1989, for further discussion of the draft recommendation. If the meeting takes place, it will be at 9:30 a.m., at the offices of Covington and Burling, 1201 Pennsylvania Avenue NW., Washington, DC (11th floor).

Important note: For information on whether this meeting will actually take place, please call David M. Pritzker at the Office of the Chairman after November 17.

It is anticipated that a recommendation will be proposed for consideration by the Administrative Conference at its Plenary Session scheduled for December 14 and 15, 1989.

Proposed Recommendation

In 1978 Congress enacted the most comprehensive revision of the Federal civil service laws since the adoption of the Pendleton Act of 1883. The Civil Service Reform Act (CSRA) of 1978 created new institutions and processes for personnel management, including a substantially restructured system for considering complaints, grievances and appeals filed by Federal employees in response to personnel actions.[1] Those actions include removal from the service, reductions in pay or grade, suspensions, furloughs, promotion and award decisions, and reductions-in-force, to name only a few. An agency decision to take such action may be founded on a variety of considerations including inadequate performance and the need to discipline for service-connected conduct.

Congress' 1978 revision of the framework for considering employee complaints, grievances and appeals was in part prompted by the confusing, complex and time-consuming nature of the existing procedures. Those were seen as intimidating to both employees and managers and, therefore, likely to deter managers from taking appropriate personnel action and to discourage employees from pursuing available avenues to vindicate their rights.

Nevertheless, the statutory framework created in 1978 retained considerable complexity, due in large part to the expanded scope of negotiated grievance procedures available to Federal employees included in collective bargaining units and to various compromises made in the legislative process. The monetary and other costs resulting from the CSRA, both for individual federal employees and Federal agencies (whether they act as employers or administrators of the system), have proven to be very significant. Complexity and redundancy have led to confusion on all sides and delays in final resolution of controversies, accompanied by predictable and substantial resource commitments.

The Administrative Conference believes that procedures for resolving federal employee disputes should be as simple, fair, and economical as feasible. The present recommendation suggests certain procedural elements that we believe would help achieve these goals. We recognize, of course, that the competing interests that led to the current scheme continue to exist. While we cannot advise Congress on how to make political choices among these interests, the recommendation identifies some specific areas where simplification is possible without loss of fairness or effectiveness.

The recommendation focuses on three main areas: (i) The Government's right to appeal to the courts in cases involving claims of discrimination; (ii) the enforcement of arbitral awards; and (iii) certain procedural options for employees raising claims of discrimination.[2] In addition, the recommendation proposes that the Office of Personnel Management and other agencies closely scrutinize and, where appropriate, seek ways to improve the adequacy of agency administrative grievance procedures and the patterns of communication within agencies regarding the workings of the complaint, grievance and appeal system.

The Conference has determined not to recommend any change to the existing structure for administrative adjudication of "mixed" cases. These are controversies involving employment actions appealable to the MSPB, where an employee alleges that unlawful discrimination was a basis for the agency's action. The statutory procedure for mixed cases provides the opportunity for sequential consideration by the MSPB and the EEOC, with the possibility of further administrative proceedings before a Special Panel consisting of one member of the MSPB, one member of the EEOC, and a chairman appointed by the President with the advice and consent of the Senate. Through these provisions, the CSRA embodies Congress' effort to bring to bear both the MSPB's expertise in general issues of personnel law and the EEOC's expertise with discrimination issues.

In most mixed cases presented to the EEOC, the Commission has accepted the MSPB decision and, where it has not, the MSPB has deferred to the Commission's expertise in matters of discrimination law. During the first ten years of the CSRA, there have been only three Special Panel proceedings. Despite the complexity of the procedure, the intricate balance of expertise that underlies this jurisdictional arrangement suggests that no change should be recommended.

A. Cases Raising Claims of Discrimination

1. *A single hearing in mixed cases.* Under present law Federal employees, unlike employees in the private sector, on allegations of employment discrimination may obtain a full trial-type hearing at the MSPB and, if unsuccessful, obtain a second de novo adjudicatory hearing in the district court.

General policies favoring the conservation of judicial and other resources counsel against two trial-type hearings on the same claim. These policies suggest that an employee who has been afforded a trial-type administrative hearing in a mixed case should be entitled only to judicial review on the administrative record [3]—as is generally appropriate for formal administrative adjudications. This recommendation assumes that the administrative adjudication would afford the opportunity for a full evidentiary hearing on the record on all relevant matters. To eliminate duplicate trial-type hearings, Congress should provide that an employee with a mixed case may *either* seek a trial-type administrative hearing (with subsequent review in the court of appeals) *or* a district court trial, but not both.

2. *Government's right to appeal in discrimination cases.* Under existing law the government's opportunity to seek direct judicial review of administrative and arbitral decisions in discrimination cases is either non-existent [4] or uncertain. Moreover, such review is in many cases contingent on the government's refusing to comply with administrative or arbitral decisions.

Congress should expressly provide that where the Director of OPM determines that an administrative or arbitral decision in a case raising claims of discrimination constitutes an incorrect interpretaton of civil service or discrimination law that may have a substantial impact, the Director should be authorized to petition for judicial review in the United States Court of Appeals for the Federal Circuit. The granting of such a petition should be within the discretion of the reviewing court (as it currently is in non-mixed cases).

B. Enforcement of Arbitration Awards

Although Federal employee grievance arbitration awards are intended to be binding, Federal agencies do not always comply with them. Under the CSRA, the only mechanism available to a Federal employee seeking to enforce an arbitral award is an unfair labor practice proceeding before the FLRA. Such a proceeding requires filing of a compliant by the Authority's General Counsel, and a hearing before the FLRA, followed by judicial review and enforcement of the resulting FLRA order. This procedure for enforcement of arbitration awards can be confusing and time-consuming and can divert the FLRA's resources from other important issues of Federal labor law.

The Conference therefore recommends that Congress amend the CSRA to provide for direct judicial enforcement of Federal sector grievance arbitration awards in the Federal Circuit, where arbitration awards in the major performance and disciplinary actions are now reviewed. In the enforcement proceeding, the non-complying agency should be limited to raising only those legal issues that were raised before the FLRA in the arbitral review proceeding.

C. Agency Administrative Grievance Systems

Agency administrative grievance systems have increasing importance as the only [5] avenue of redress available to an individual employee in cases not falling within MSPB or EEOC jurisdiction or within the scope of a negotiated grievance procedure. Information about the usage and effectiveness of these systems is difficult to obtain. Further studies should be undertaken by the Office of Personnel Management and other agencies to ensure that these systems in fact provide fair, efficient, and timely resolution of workplace disputes. In reviewing these processes, agencies give careful consideration to alternative means of dispute resolution.

D. Better Communication Within Agencies and to Employees

To use the personnel grievance system effectively, employees must have clear and reliable information about options available to them and the consequences of choosing one route over another. The Office of Personnel Management and other agencies should seek to communicate such information in as straightforward and clear a manner as possible.

Multiple avenues for relief, even with the changes recommended by the Conference, present the danger of parallel, duplicative proceedings. Internal organizational restructuring, installation of systems of computer case tracking, or other measures could enable agencies to discover and eliminate instances of duplicaton.

Recommendation

A. Cases Raising Claims of Discrimination

1. Congress should amend the Civil Service Reform Act of 1978 to provide that a Federal employee who raises (or

---

[1] Five institutions share in the administration of the CSRA:

1. Office of Personnel Management (OPM), which is vested with the general authority to execute, administer and enforce the laws and rules governing the civil service except with respect to those functions vested in other agencies;
2. Merit Systems Protection Board (MSPB), which is an independent adjudicatory body charged with hearing and deciding employee appeals from agency personnel actions of various kinds including major performance and disciplinary actions;
3. Office of the Special Counsel (OSC), which is charged with the investigation and prosecution before the MSPB of requests for corrective and disciplinary action where prohibited personnel practices have allegedly occurred;
4. Equal Employment Opportunity Commission (EEOC), which enforces various anti-discrimination statutes as they apply to both public and private employment, including Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Rehabilitation Act; and
5. Federal Labor Relations Authority (FLRA), which is an independent agency charged with hearing and deciding complaints of unfair labor practices and reviewing arbitration awards on matters falling within the scope of negotiated grievance procedures established by collective bargaining agreements.

[2] "Discrimination" refers to discrimination on the basis of race, color, religion, sex, national origin, age, and handicapping condition.

[3] See, e.g., *Kremer* v. *Chemical Construction Corp.*, 456 U.S. 461 (1982).

[4] See, e.g., *Moore* v. *Devine*, 780 F.2d 1559 (11th Cir. 1986).

[5] See, e.g., *Harrison* v. *Bowen*, 815 F.2d 1505 (D.C. Cir. 1987).

VOL 54 ISS 214 NO 7 1989 UMI

could raise) a claim of discrimination in a personnel case and who then has a full trial-type, on-the-record administrative adjudication, should be entitled to subsequent judicial review on the administrative record under the substantial evidence test, but not a judicial trial de novo.

2. Congress should expressly provide that the Director of the Office of Personnel Management may petition the Court of Appeals for the Federal Circuit for judicial review of final administrative and federal sector grievance arbitral decisions involving claims of discrimination. Review should extend to issues of civil service law and issue of discrimination law, but should be limited to decisions likely to have a significant impact. The granting of a petition for review should be at the discretion of the Court. There should be a short time limit on OPM's right to file such petitions.

B. Enforcement of Arbitration Awards

Congress should amend the Civil Service Reform Act of 1978 to provide that where the Federal Labor Relations Authority has entered an order in favor of an employee with regard to a grievance arbitration award (or such an arbitration award in favor of an employee has otherwise become binding as a matter of law), and where the employing agency does not comply with the order in the Federal Circuit. In the enforcement proceeding, the employing agency should be permitted to raise only those legal issues that were presented to and considered by the FLRA in its review of the arbitration award.

C. Agency Administrative Grievance Systems

The Office of Personnel Management and individual agencies should review the structure and operation of agency administrative grievance systems to ensure that they provide a fair, efficient and timely avenue for consideration and appropriate redress of employee workplace disputes. Such reviews should include consideration of use of alternative means of dispute resolution.[*]

D. Better Communication Within Agencies and to Employees

1. Each agency should take steps to ensure that there are consistent patterns of communication among its personnel, labor relations, and equal employment opportunity staffs to reduce the likelihood of parallel, duplicative proceedings in personnel actions where such duplication is not permitted by law.

2. The Office of Personnel Management and other agencies should ensure that there exist written materials that inform Federal employees of their complaint, grievance and appeal options and the consequences of their choice of one complaint, grievance, or appellate route over another. These materials should be readily available to employees, written clearly and succinctly in plain English.

Federal Aviation Administration

14 CFR Parts 43, 65, and 145

[Docket No. 25865]

RIN 2120-AC36

Repair Station and Repairmen Certification Rules; Regulatory Review; Meetings

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public meetings; correction.

SUMMARY: By notice of October 24, 1989 (54 FR 43934; October 27, 1989), the Federal Aviation Administration (FAA) announced four public meetings in which the FAA will solicit information from the public concerning revision of the repair station rules, repairmen certification rules, and sections of the maintenance, preventive maintenance, rebuilding, and alteration rules as applicable to repair stations.

This notice corrects the location of the public meeting scheduled for December 12 and 13, 1989, in San Francisco, California as previously published. Due to earthquake damage, the San Francisco meeting will be held at Dunfey Hotel, 1770 South Amphlett Boulevard, San Mateo, California 94402. The date and time for the meeting for both days will remain unchanged: December 12 and 13, 1989, 9:00 a.m. to 4:00 p.m. with registration and informal discussions with FAA panel members at 8:00 a.m.

FOR FURTHER INFORMATION CONTACT: Questions concerning the logistics of the meeting should be directed to Barbara Crawford, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-3760. For questions concerning the subject matter of the meetings, contact Leo Weston, Aircraft Maintenance Division (AFS-320), Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-8363.

Issued in Washington, DC on October 31, 1989.

Daniel C. Beaudette,

Acting Director, Flight Standards Service.

BILLING CODE 4910-13-M

Coast Guard

33 CFR Part 110

[CGD8-89-12]

Anchorage Grounds; Lower Mississippi River

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is considering amending the anchorage regulations on the Lower Mississippi River by establishing a new deep draft anchorage. This action is necessary to provide needed additional anchorage space for deep draft vessels.

DATE: Comments must be received on or before December 22, 1989.

ADDRESS: Comments should be mailed to Commander, Eighth Coast Guard District (OAN), Hale Boggs Federal Building, 501 Magazine Street, New Orleans, LA 70130-3396. The comments and other materials referenced in this notice will be available for inspection and copying in Room 1209 at the above address. Normal office hours are between 7:00 a.m. and 3:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: LTJG J.D. Irino, Project Officer, Commander, Eighth Coast Guard District (OAN), Hale Boggs Federal Building, 501 Magazine Street, New Orleans, LA 70130-3396, Tel. (504) 589-4555.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data or arguments. Persons submitting comments should include their names and addresses, identify this notice, CGD8-89-12, the specific section of the proposal to which their comments apply, and give reasons for each comment. Receipt of comments will be acknowledged if a stamped, self-addressed postcard or envelope is enclosed. The regulations may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before the final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The drafters of this regulation are LTJG J.D. Irino, Project Officer, Eighth Coast Guard District Aids to Navigation Branch, and CDR J.A. Unzicker, Project Attorney, Eighth Coast Guard District Legal Office.

Discussion of Regulation

The U.S. Army Corps of Engineers conducts revetment work along the banks of the Mississippi River to protect against erosion and caving. This work is essential to preserve the levee system. Currently, articulated concrete mattress revetment is used and federal law prohibits vessels from anchoring over this revetment. Members of the maritime community have expressed their concerns that this revetment work has a devastating impact on the amount of available anchorage space. To alleviate these concerns, the Corps of Engineers formed a study team consisting of the Coast Guard, Pilots, the New Orleans Steamship Association, and the Corps of Engineers.

Currently there are 14 anchorages which have reduced usable space due to revetment ranging from the Lower Sunshine Anchorage at mile 167.1 down to the Boothville Anchorage at mile 12.2. Typically, the revetment extends 400 feet out into an anchorage thereby reducing it's usable space by one-half. The Corps of Engineers plans to revet Lower Nine Mile Point (mile 62.7 to mile 85.0) the fall of 1989. Anchorages at New Orleans General (mile 90.5 to mile 91.5), Belle Chasse (mile 73.2 to mile 75.3), Wills Point (mile 66.8 to mile 67.7), and Ostrica (mile 23.5 to mile 24.3) are designated critical, requiring close monitoring for future work.

In September of 1988, the Coast Guard withdrew proposed rulemaking for the establishment of a permanent anchorage from mile 153.3 to mile 155.0 due to the lack of compelling need for additional anchorage space in the area at the time. However, due to the dwindling available space for anchoring ships on the Lower Mississippi River, the Coast Guard proposes to establish an anchorage from mile 153.3 to mile 155.5 AHOP LMR. From mile 153.3 to mile 154.5 the anchorage will have a width of 700 feet measured 100 feet from the riverward edge of the Belmont Revetment located 300 feet from the Low Water Reference Plane (LWRP). From mile 154.5 to mile 155.5 the anchorage will have a width of 1100 feet as measured from the LWRP. This regulation is issued pursuant to 33 U.S.C. 471 as set out in the authority citation for all of part 110.

Federalism Assessment

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Economic Assessment and Certification:

These proposed regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). In the same area which the anchorage is proposed, a permit to establish a barge fleeting and midstream transfer operation has been filed with the Corps of Engineers and is pending approval. Due to the lack of sufficient anchorage space for the Port of New Orleans, the Coast Guard feels the location would better serve the public interest as an anchorage area. If an anchorage is established, the permit to build such an operation will be denied. However, there will be a positive impact on boat launch and ship support facilities. This regulation will establish an anchorage 2.2 miles long. The new anchorage will enhance safe navigation by providing an additional area out of the navigable channel for ships to anchor.

Since this proposal will only impact a potential barge fleeting and midstream transfer operation and have a positive affect on boat launch and ship support facilities, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 110

Anchorage grounds.

Proposed Regulation:

In consideration of the foregoing, the Coast Guard proposes to amend part 110 of title 33, Code of Federal Regulations as follows:

1. The authority citation for part 110 continues to read as follows:

Authority: 33 U.S.C. 471, 2030, 2035 and 2071; 49 CFR 1.46 and 33 CFR 106-1(g). Sec. 110.1a and each section listed in 110.1a are also issued under 33 U.S.C. 1223 and 1231.

2. Section 110.195(a)(31) is added to read as follows:

§ 110.195 Mississippi River below Baton Rouge, LA, including South and Southwest Passes.

(a) * * *

(31) *Belmont Anchorage.* (Mile 153.3 to mile 155.5 above Head of Passes). The waters bounded by a line connecting the following points:

Latitude	*Longitude*
30°00'07.0" N	90°48'00.0" W
30°00'05.0" N	90°47'55.0" W
30°00'44.0" N	90°47'08.0" W
30°00'39.0" N	90°47'01.0" W
29°59'15.5" N	90°46'30.0" W
29°59'23.0" N	90°46'37.0" W

and thence along the left descending bank to the point of beginning.

Dated: October 23, 1989.

W.F. Merlin,

Rear Admiral, U.S. Coast Guard Commander, Eighth Coast Guard District.

BILLING CODE 4910-14-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 261

[SW-FRL-3678-2]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Denial

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule and request for comment.

SUMMARY: The Environmental Protection Agency (EPA or Agency) today is proposing to deny a petition submitted by Allegan Metal Finishing Company (Allegan), Allegan, Michigan, to exclude certain solid wastes generated at its facility from the lists of hazardous wastes contained in 40 CFR 261.31 and 261.32. This action responds to a delisting petition submitted under 40 CFR 260.20, which allows any person to petition the Administrator to modify or revoke any provision of parts 260 through 268, 124, 270, and 271 of title 40 of the Code of Federal Regulations, and under 40 CFR 260.22, which specifically provides generators the opportunity to petition the Administrator to exclude a waste on a "generator-specific" basis

VOL 54 ISS 214 NO 7 1989 UMI

from the hazardous waste lists. Today's proposed decision is based on an evaluation of waste-specific information provided by the petitioner.

The Agency is also proposing the use of a fate and transport model and its application in evaluating the waste-specific information provided by the petitioner. This model has been used in evaluating the petition to predict the concentration of hazardous constituents released from the petitioned wastes, once they are disposed of.

DATES: EPA is requesting public comments on today's proposed decision and on the applicability of the fate and transport model used to evaluate the petition. Comments will be accepted until December 22, 1989. Comments postmarked after the close of the comment period will be stamped "late".

Any person may request a hearing on this proposed decision and/or the model used in the petition evaluation by filing a request with Joseph Carra, whose address appears below, by November 22, 1989. The request must contain the information prescribed in 40 CFR 260.20(d).

ADDRESSES: Send three copies of your comments to EPA. Two copies should be sent to the Docket Clerk, Office of Solid Waste (OS-305), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460. A third copy should be sent to Jim Kent, Variances Section, Assistance Branch, PSPD/OSW (OS-343), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460. Identify your comments at the top with this regulatory docket number: "F-89-ALDP-FFFFF".

Requests for a hearing should be addressed to Joseph Carra, Director, Permits and State Programs Division, Office of Solid Waste (OS-340), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

The RCRA regulatory docket for this proposed rule is located at the U.S. Environmental Protection Agency, 401 M Street, SW. (Room M2427), Washington, DC 20460, and is available for viewing from 9 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. Call (202) 475-9327 for appointments. The public may copy material from any regulatory docket at a cost of $0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline, toll free at (800) 424-9346, or at (202) 382-3000. For technical information concerning this notice, contact Chichang Chen, Office of Solid Waste (OS-343), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 382-4671.

SUPPLEMENTARY INFORMATION:

I. Background

A. Authority

On January 16, 1981, as part of its final and interim final regulations implementing section 3001 of RCRA, EPA published an amended list of hazardous wastes from non-specific and specific sources. This list has been amended several times, and is published in 40 CFR 261.31 and § 261.32. These wastes are listed as hazardous because they typically and frequently exhibit one or more of the characteristics of hazardous wastes identified in subpart C of part 261 (*i.e.*, ignitability, corrosivity, reactivity, and extraction procedure (EP) toxicity) or meet the criteria for listing contained in 40 CFR 261.11 (a)(2) or (a)(3).

Individual waste streams may vary, however, depending on raw materials, industrial processes, and other factors. Thus, while a waste that is described in these regulations generally is hazardous, a specific waste from an individual facility meeting the listing description may not be. For this reason, 40 CFR 260.20 and 260.22 provide an exclusion procedure, allowing persons to demonstrate that a specific waste from a particular generating facility should not be regulated as a hazardous waste.

To have their wastes excluded, petitioners must show that wastes generated at their facilities do not meet any of the criteria for which the wastes were listed. See 40 CFR 260.22(a) and the background documents for the listed wastes. In addition, the Hazardous and Solid Waste Amendments (HSWA) of 1984 require the Agency to consider any factors (including additional constituents) other than those for which the waste was listed, if there is a reasonable basis to believe that such additional factors could cause the waste to be hazardous. Accordingly, a petitioner also must demonstrate that the waste does not exhibit any of the hazardous waste characteristics (*i.e.*, ignitability, reactivity, corrosivity, and EP toxicity), and must present sufficient information for the Agency to determine whether the waste contains any other toxicants at hazardous levels. See 40 CFR 260.22(a), 42 U.S.C. 6921(f), and the background documents for the listed wastes. Although wastes which are "delisted" (*i.e.*, excluded) have been evaluated to determine whether or not they exhibit any of the characteristics of hazardous waste, generators remain obligated under RCRA to determine whether or not their waste remains non-hazardous based on the hazardous waste characteristics.

In addition to wastes listed as hazardous in 40 CFR 261.31 and 261.32, residues from the treatment, storage, or disposal of listed hazardous wastes and mixtures containing hazardous wastes also are eligible for exclusion and remain hazardous wastes until excluded. See 40 CFR 261.3 (c) and (d)(2). The substantive standard for "delisting" a treatment residue or a mixture is the same as previously described for listed wastes.

B. Approach Used to Evaluate This Petition

This petition requests a delisting for a listed hazardous waste. In making the initial delisting determination, the Agency evaluated the petitioned waste against the listing criteria and factors cited in 40 CFR 261.11 (a)(2) and (a)(3). Based on this review, the Agency disagrees with the petitioner's claim that the waste is non-hazardous with respect to the original listing criteria. (Because the Agency found, based on this review, that the waste remains hazardous based on the factors for which the waste was originally listed, EPA today is proposing to deny the petition.) EPA also evaluated the waste with respect to other factors or criteria to assess whether there is a reasonable basis to believe that such additional factors could cause the waste to be hazardous. The Agency considered whether the waste is acutely toxic, and considered the toxicity of the constituents, the concentration of the constituents in the waste, their tendency to migrate and to bioaccumulate, their persistence in the environment once released from the waste, plausible and specific types of management of the petitioned waste, the quantities of waste generated, and any other additional factors which may characterize the petitioned waste.

For this delisting determination, the Agency used such information to identify plausible exposure routes for hazardous constituents present in the petitioned wastes, and is proposing to use a particular fate and transport model to predict the concentration of hazardous constituents that may be released from the petitioned wastes after disposal and to determine the potential impact of the unregulated disposal of Allegan's petitioned wastes on human health and the environment. Specifically, the model was used to predict compliance-point concentrations which will be compared directly to the levels of regulatory concern for particular hazardous constituents.

EPA believes that this fate and transport model represents a reasonable worst-case waste disposal scenario for the petitioned wastes, and that a reasonable worst-case scenario is appropriate when evaluating whether the wastes should be relieved of the protective management constraints of RCRA subtitle C. Because a delisted waste is no longer subject to hazardous waste control, the Agency is generally unable to predict and does not control how a waste will be managed after delisting. Therefore, EPA currently believes that it is inappropriate to consider extensive site-specific factors. For example, a generator may petition the Agency for delisting of a metal hydroxide sludge which is currently being managed in an on-site landfill and provide data on the nearest drinking water well, permeability of the aquifer, dispersivities, etc. If the Agency were to base its evaluation solely on these site-specific factors, the Agency might conclude that the waste, at that specific location, cannot affect the closest well, and the Agency might grant the petition. Upon promulgation of the exclusion, however, the generator is under no obligation to continue to manage the waste at the on-site landfill. In fact, it is likely that the generator will either choose to send the delisted waste off site immediately, or will eventually reach the capacity of the on-site facility and subsequently send the waste off site to a facility which may have very different hydrogeological and exposure conditions.

Allegan petitioned the Agency for a one-time upfront exclusion (for wastes that have not yet been generated) based on a bench-scale waste treatment process (*i.e.*, a scaled down version of a proposed treatment system), untreated waste characteristics, and process descriptions. The Agency encourages the use of upfront delisting petitions because they have the advantage of allowing the applicant to know what treatment levels for constituents should be sufficient to render specific wastes non-hazardous, before investing in new or modified waste treatment systems. Therefore, upfront delisting will allow new facilities to receive exclusions prior to generating waste that, without upfront exclusions, would have been subject to management as hazardous waste. Upfront delistings for existing facilities could be processed concurrently during construction or permitting activities; therefore, new or modified treatment systems should be capable of producing wastes that are considered non-hazardous sooner than otherwise would be possible. At the same time, conditional batch testing requirements to submit data verifying that the delisting levels are achieved by the fully operational manufacturing/treatment systems will maintain the integrity of the delisting program and will ensure that only non-hazardous wastes are removed from subtitle C control. Conditions for upfront exclusions which the Agency proposes to grant are described on a petition-specific basis in the proposed Federal Register notice for each exclusion. However, because the Agency is proposing to deny Allegan's petition it is not necessary to specify conditions.

The Agency also considers the applicability of ground-water monitoring data during the evaluation of delisting petitions. In this case, the Agency determined that, because Allegan is seeking a one-time upfront exclusion for wastes which have not yet been generated or disposed of, ground-water monitoring data collected from the petitioner's facility would not characterize the effects of the petitioned wastes on the underlying aquifer at the site(s) eventually used for disposal. Therefore, the Agency did not consider the ground-water monitoring data submitted by Allegan in the evaluation of the petition.

Finally, the Hazardous and Solid Waste Amendments of 1984 specifically require the Agency to provide notice and an opportunity for comment before granting or denying a final exclusion. Thus, a final decision will not be made until all public comments (including those at requested hearings, if any) on today's proposal are addressed.

II. Disposition of Delisting Petition

A. Allegan Metal Finishing Company, Allegan, Michigan

1. Petition for Exclusion

Allegan Metal Finishing Company (Allegan), located in Allegan, Michigan, electroplates carbon steel with zinc chloride/zinc cyanide on a job shop basis. Allegan petitioned the Agency for a one-time upfront exclusion of wastewater treatment sludges, presently contained on-site in two sand seepage lagoons and proposed to be physically and chemically stabilized with 10 percent (by weight) reclaimed lime. Allegan's petitioned wastes are presently listed in 40 CFR 261.31 as EPA Hazardous Waste No. F006—"Wastewater treatment sludges from electroplating operations except from the following processes: (1) Sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum". The listed constituents for EPA Hazardous Waste No. F006 are cadmium, hexavalent chromium, nickel, and cyanide (complexed) (see 40 CFR part 261, appendix VII).

Allegan petitioned to exclude its lime-stabilized lagoon sludges because it does not believe that the wastes will meet the criteria of the listing. Allegan believes that the lime-stabilized lagoon sludges, once generated, will be non-hazardous because the constituents of concern will either be present in insignificant concentrations or, if present at significant levels, will be in essentially immobile forms. Allegan also believes that these wastes will not be hazardous for any other reason (*i.e.*, there will be no additional constituents or factors that could cause the wastes to be hazardous). Review of this petition included consideration of the original listing criteria, as well as the additional factors required by the Hazardous and Solid Waste Amendments (HSWA) of 1984. See section 222 of HSWA, 42 U.S.C. 6921(f), and 40 CFR 260.22(d) (2)-(4). Today's proposal to deny this petition for delisting is the result of the Agency's evaluation of Allegan's petition.

2. Background

Allegan petitioned the Agency on June 23, 1986 for a one-time upfront exclusion of its lagoon sludges, proposed to be stabilized with reclaimed lime. Additional information was submitted in support of its petition on February 18, 1988, May 12, 1988, June 23, 1988, and July 5, 1988. In support of its petition, Allegan submitted (1) partial descriptions of its manufacturing and treatment processes, including schematic diagrams; (2) a partial list of raw materials (and Material Safety Data Sheets for all tradename materials) used in the manufacturing processes; (3) descriptions of procedures for stabilizing the lagoon sludges; (4) results from total constituent and EP analyses on representative samples (bench-scale) of the lime-stabilized lagoon sludges; (5) results from total oil and grease analyses on representative samples (bench-scale) of the lime stabilized lagoon sludges; (6) results from characteristics testing for ignitability and reactivity on representative samples (bench-scale) of the lime-stabilized lagoon sludges, including reactive cyanide and reactive sulfide analyses; and (7) total constituent analyses for those constituents listed in 40 CFR part 261, appendix IX on one sample of the reclaimed lime, which is to be used in

VOL 54 ISS 214 NO 7 1989 UMI

full-scale stabilization of the lagoon sludges.

Allegan electroplates carbon steel with zinc chloride and zinc cyanide on a job shop basis. Various other metal coating operations, including chromating, are also conducted at the facility. The waste streams from Allegan's manufacturing processes contributing to Allegan's wastewater treatment plant include: Zinc chloride rinsewaters, zinc cyanide rinsewaters, chromate rinsewaters, acid and alkali rinsewaters, and boiler blowdown rinsewaters. Process wastewaters are treated on an individual basis. There are basically three waste types: cyanide wastes, chromate wastes, and acid and alkali wastes. All wastes flow by gravity from the plating lines into separate wastewater collection sumps. Wastes are then transferred to three 6,000 gallon tanks, which are used as reaction and storage vessels. Treatment for each waste type is performed batchwise as needed. Cyanide is destroyed through alkaline chlorination; chromate wastes are pH adjusted with acid and treated with sulfur dioxide to reduce the hexavalent chromium; the acid and alkali wastes are blended together to neutralize the waste streams. In addition, the chromate and zinc waste streams are treated with liquid caustic soda to precipitate metals as hydroxides. Following chemical treatment, wastes are discharged into one of two on-site seepage lagoons, also referred to as the north and south lagoons. (Allegan also claims that the only wastes discharged to the lagoons are the three waste types noted above.) The lagoons act as large sand filters. The treated wastewater passes through the soil and into the ground water, allowing suspended and precipitated solids to collect within the lagoons. The sludges contained in the two lagoons are proposed to be stabilized with 10 percent reclaimed lime and are the subject of today's notice. The sludges have been accumulating in the lagoons since late 1981/early 1982.

In its petition, Allegan provided scaled schematics of the two lagoons. From these schematics, the Agency estimated that the areas of the north and south lagoons are approximately 27,000 square feet and 9,700 square feet, respectively. For lagoons like Allegan's (*i.e.*, areas less than 40,000 square feet), petitioners are normally requested to divide each unit into four quadrants and randomly collect five full-depth core samples from each quadrant. The five full-depth core samples are then composited (mixed) by quadrant to produce a total of four composite samples (per lagoon or bed). See "Test Methods for Evaluating Solid Wastes: Physical/Chemical Methods," U.S. EPA, Office of Solid Waste and Emergency Response, Publication SW–846 (third edition), November 1986, and "Petitions to Delist Hazardous Wastes—A Guidance Manual," U.S. EPA, Office of Solid Waste, (EPA/530–SW–85–003), April 1985.

Allegan's original delisting petition submitted on June 23, 1986 included bench-scale demonstrations of lime stabilization of the waste with varied amounts of lime. Allegan concluded from these demonstrations that 10 percent reclaimed lime (by weight) would effectively stabilize their lagoon sludges. The samples used in the bench-scale demonstrations, however, were only taken from the south lagoon and were not collected and composited according to the above referenced protocols. In addition, Allegan tested only one sample (stabilized with 10 percent lime) for leachable levels of all the EP toxic metals.

The Agency, therefore, requested Allegan to submit new sampling and analytical data on both lagoons following the appropriate delisting sampling protocols. On February 18, 1988, Allegan submitted data for two samples which had been stabilized with 10 percent reclaimed lime (by weight). These two samples had been taken from a single composite sample which was composed of 25 full-depth cores from the south lagoon. The Agency did not believe that these two samples completely characterized the petitioned wastes because Allegan collected both samples from a single composite and this composite was only from one lagoon. The Agency believes, nevertheless, that these two samples adequately represent, for delisting purposes, the levels of hazardous constituents that are potentially present in the south lagoon waste. The Agency, therefore, decided to include these sample analyses in the evaluation of the petitioned south lagoon waste.

The Agency again requested that Allegan collect additional samples to complete the characterization of the wastes contained in each quadrant of both the north and south lagoons. On July 5, 1988, Allegan submitted analysis results for four samples collected from the north lagoon and four samples collected from the south lagoon that had been stabilized with 10 percent reclaimed lime (by weight). The Agency believes that Allegan used the appropriate sampling and compositing protocols for these samples. Therefore, a total of six lime-stabilized sludge samples from the south lagoon and four lime-stabilized sludge samples from the north lagoon were considered in the evaluation of Allegan's petition.

The analyses of the two samples submitted on February 18, 1988 included analyses for the total constituent concentrations (*i.e.*, mass of a particular constituent per mass of waste) of cadmium, chromium, nickel, lead, and cyanide; the extraction procedure (EP) leachate concentrations (*i.e.*, mass of a particular constituent per unit volume of extract) of the EP toxic metals and nickel; and total oil and grease. The analyses of the eight samples submitted on July 5, 1988 included analyses for the total constituent and EP leachate concentrations of the EP toxic metals, nickel, and cyanide. Analyses for total oil and grease, total sulfide, reactive cyanide and sulfide, and results on the characteristic of ignitability were also provided. On June 23, 1988, Allegan submitted analysis data on one sample of the reclaimed lime, which is to be used in the stabilization of the lagoon sludges. This sample was analyzed for the total constituent concentrations of those constituents listed in 40 CFR part 261, appendix IX, including the EP toxic metals, nickel, cyanide, and sulfide.

3. Agency Analysis

Allegan used the following methods published in "EPA Methods for Chemical Analysis of Water and Wastes" to quantify the EP total constituent and leachable concentrations of the EP toxic metals, nickel, cyanide, and sulfide: Arsenic—Method 206.2, barium—Method 208.1, cadmium—Method 213.1, chromium—Method 218.2, lead—Method 239.2, mercury—Method 245.1, selenium—Method 270.2, silver—Method 272.1, nickel—Method 249.1, cyanide—Method 335.2, and sulfide—Method 376.1. Allegan used SW–846 Methods 9010 and 9030 to quantify the total constituent concentrations of reactive cyanide and reactive sulfide, respectively. Total constituent and EP toxicity analyses of the ten bench-scale lime-stabilized samples from the February 18, 1988 and July 5, 1988 submittals for the hazardous inorganic constituents revealed the maximum concentrations reported in Table 1. (Analysis for EP leachable concentrations of sulfide (or reactive sulfide) is not necessary because the Agency's level of regulatory concern is based on the total constituent concentration of reactive sulfide.) The Agency did not evaluate the samples collected by Allegan for the original bench-scale demonstration (submitted on June 23, 1988). These samples were not representative of the petitioned wastes since they were only taken from the south lagoon and were not collected and composited according to appropriate protocols.

TABLE 1.—MAXIMUM TOTAL CONSTITUENT AND EP LEACHATE CONCENTRATIONS (PPM) BENCH-SCALE LIME-STABILIZED LAGOON SLUDGES

Constituents	Total constituent analyses		EP leachate analyses	
	North lagoon	South lagoon	North lagoon	South lagoon
Arsenic	1.1	1.6	<0.005	<0.005
Barium	28	37.7	<1.0	3.3
Cadmium	20	19	0.110	0.17
Chromium	2,230	16,800	0.075	0.075
Lead	40	210	1.0	1.0
Mercury	0.77	0.83	0.00056	0.0016
Nickel	31	55	0.24	0.35
Selenium	<0.98	<0.98	0.013	0.0072
Silver	6.6	19	0.026	0.043
Cyanide	242	1,020	0.19	0.04
Cyanide (reactive)	<0.5	<0.5		
Sulfide	37.0	4.16		
Sulfide (reactive)	<0.5	<0.5		

<: Denotes that the constituent was not detected at the detection limit specified in the table.

The detection limits in Table 1 represent the lowest concentrations quantifiable by Allegan, when using the appropriate analytical methods to analyze the petitioned wastes. (Detection limits may vary according to the waste and waste matrix being analyzed (*i.e.*, the "cleanliness" of waste matrices varies and "dirty" waste matrices may cause interferences, thus raising the detection limits.)

Using SW–846 Method 3540, Allegan determined that oil and grease levels ranged between 0.0005 and 0.013 percent in the bench-scale lime-stabilized sludges from the south lagoon. The maximum oil and grease content reported for the bench-scale lime-stabilized sludges from the north lagoon was 0.0025 percent. Therefore, the EP analyses did not have to be modified in accordance with the Oily Waste EP (OWEP) methodology. Wastes having more than one percent total oil and grease may either have significant concentrations of constituents of concern in the oil phase, which may not be assessed using the standard EP leachate procedure, or the concentration of oil and grease may be sufficient to coat the solid phase of the sample and interfere with the leaching of metals from the sample. See SW–846 Method 1330.

Allegan provided test data indicating that the bench-scale lime-stabilized sludges are not ignitable. Allegan concluded that because the samples were neither liquid nor aqueous in nature that they were not corrosive. Testing of the bench-scale lime-stabilized sludges for reactivity yielded negative results. See 40 CFR 261.21, 261.22, and 261.23, respectively.

Allegan used SW–846 Methods 7040 through 7760 to analyze the total constituent concentrations of the EP toxic metals, nickel, and antimony in the reclaimed lime, which is to be used in the stabilization of the lagoon sludges. Allegan used SW–846 Methods 9010 and 9030 to analyze the reclaimed lime for the total constituent concentrations of cyanide and sulfide, respectively. The total constituent concentrations of the EP toxic metals, nickel, cyanide and sulfide reported for the reclaimed lime are presented in Table 2.

TABLE 2.—TOTAL CONSTITUENT CONCENTRATIONS (PPM) RECLAIMED LIME SAMPLE

Constituents	Total constituent analyses
Antimony	340
Arsenic	0.25
Barium	1,200
Cadmium	4.9
Chromium	<1.0
Lead	15
Mercury	<0.04
Nickel	<20
Selenium	0.19
Silver	5.6
Cyanide	3.7
Sulfide	820

<: Denotes that the constituent was not detected at the detection limit specified in the table.

Allegan submitted a signed certification stating that approximately 1,980 and 1,000 cubic yards of stabilized sludge will result from treatment of the wastes contained in the north and south lagoons, respectively. The Agency reviews a petitioner's estimates and, on occasion, has requested a petitioner to re-evaluate estimated waste volume. EPA accepts Allegan's certified estimate of 2,980 cubic yards for the total volume of lime-stabilized sludge.

EPA does not generally verify submitted test data before proposing delisting decisions, and has not verified the data upon which it proposes to deny Allegan's petition. The sworn affidavit submitted with this petition binds the petitioner to present truthful and accurate results. The Agency, however, has initiated a spot-check sampling and analysis program to verify the representative nature of data for some percentage of the submitted petitions, and may select facilities likely to be proposed for exclusion for spot-check sampling.

4. Agency Evaluation

The Agency considered the appropriateness of alternative disposal scenarios for stabilized sludges such as Allegan's and decided that disposal in a landfill is the most reasonable, worst-case scenario for these wastes. Under a landfill disposal scenario, the major exposure route of concern for any hazardous constituents would be ingestion of contaminated ground water. The Agency evaluated Allegan's petitioned wastes using its vertical and horizontal spread (VHS) landfill model which predicts the potential for ground-water contamination from wastes that are landfilled. See 50 FR 7862 (February 26, 1985), 50 FR 48896 (November 27, 1985), and the RCRA public docket for these notices for a detailed description of the VHS model and its parameters. This modeling approach, which includes a ground-water transport scenario, was used with conservative, generic parameters to predict reasonable worst-

VOL 54 ISS 214 NO 7 1989 UMI

case contaminant levels in ground water at a hypothetical receptor well or compliance point (*i.e.*, the model estimates the dilution of a toxicant within the aquifer for a specific volume of waste). The Agency requests comments on the use of the VHS model as applied to the evaluation of Allegan's wastes.

Specifically, the Agency used the VHS model to evaluate the mobility of the hazardous inorganic constituents detected in the EP extract of representative samples of Allegan's bench-scale lime-stabilized lagoon sludges. The Agency's evaluation of the stabilized lagoon sludges, using the estimated waste volume of 2,960 cubic yards and the maximum EP leachate concentrations reported in the petition for the February 18, 1988 and July 5, 1988 bench-scale stabilized lagoon sludge samples (see Table 1), generated the compliance-point concentrations shown in Table 3. The Agency did not evaluate the mobility of the remaining inorganic constituents (*i.e.*, arsenic for both lagoons and barium for the north lagoon) from Allegan's bench-scale lime-stabilized lagoon sludges because they were not detected in the EP extract using the appropriate analytical test methods (see Table 1). The Agency believes that it is inappropriate to evaluate non-detectable concentrations of a constituent of concern in its modeling efforts if the non-detectable value was obtained using the appropriate analytical method. Specifically, if a constituent cannot be detected (when using the appropriate analytical method), the Agency assumes that the constituent is not present and therefore does not present a threat to either human health or the environment.

TABLE 3.—VHS MODEL: COMPLIANCE-POINT CONCENTRATIONS (PPM) BENCH-SCALE LIME-STABILIZED LAGOON SLUDGES

Constituents	Compliance-point concentrations		Levels of regulatory concern [1]
	North lagoon	South lagoon	
Barium	([2])	0.46	1.0
Cadmium	0.015	0.024	0.01
Chromium	0.01	0.01	0.05
Lead	0.14	0.14	0.05
Mercury	0.00008	0.00025	0.002
Nickel	0.033	0.049	0.7
Selenium	0.0018	0.001	0.01
Silver	0.0036	0.006	0.05
Cyanide	0.026	0.0056	0.7

[1] See "Docket Report on Health-based Regulatory Levels and Solubilities Used in the Evaluation of Delisting Petitions," June 8, 1988, located in the RCRA public docket.

[2] Leachable barium levels for the North Lagoon were not evaluated using the VHS model because barium was not detected in the EP extract using appropriate analytical methods.

The stabilized lagoon sludge samples (as shown in Table 3) exhibited cadmium and lead concentrations at the compliance point above the health-based levels used in delisting decisionmaking. Leachable lead levels in eight lime-stabilized sludge samples (four from each lagoon) failed the VHS model evaluation. Four of the ten lime-stabilized lagoon sludge samples (two from each lagoon) exhibited leachable cadmium levels which failed the VHS model evaluation. The lagoon sludges exhibited barium, chromium, mercury, nickel, selenium, silver, and cyanide levels at the compliance point below the health-based levels used in delisting decision-making.

The concentrations of reactive cyanide and reactive sulfide in the stabilized lagoon sludge (see Table 1) are below the Agency's interim standards of 250 and 500 ppm, respectively. See "Interim Agency Thresholds for Toxic Gas Generation," July 12, 1985, Internal Agency Memorandum in the RCRA public docket. Therefore, reactive cyanide and sulfide levels are not of concern.

On the basis of test results and information provided by Allegan, pursuant to 40 CFR 260.22, the Agency believes that Allegan's stabilized lagoon sludges do not exhibit any of the characteristics of ignitability, corrosivity, or reactivity. See 40 CFR 261.21, 261.22, and 261.23, respectively.

The Agency also reviewed Allegan's raw material list and material safety data sheets; however, without detailed descriptions of the manufacturing processes, the Agency was unable to determine if the lagoon sludges will contain any other hazardous constituents (*e.g.*, those listed in 40 CFR part 261, appendix VIII) used at the facility or formed as by-products in the processes. Because Allegan did not indicate how the raw materials are used in the manufacturing processes or how raw materials are segregated from process wastes, the Agency believes that additional hazardous constituents, other than those tested for, could potentially be present in the petitioned wastes. The Agency typically requires petitioners to either provide analytical data or mass balance calculations to quantify levels of hazardous constituents potentially present in petitioned wastes. The Agency requested this information from Allegan on November 18, 1987 and April 6, 1988; however, Allegan did not provide the requested information. Because there was sufficient basis to propose denial of the petition without this information, the Agency chose to proceed with the review of the petition.

5. Conclusion

The Agency believes that Allegan has not demonstrated that its petitioned wastes will not be hazardous. Based on its evaluation of the petition, the Agency determined that the composite samples collected from the north and south lagoons and treated with 10 percent reclaimed lime adequately represent constituent variation of the hazardous inorganic constituents that may occur in the wastes petitioned for exclusion. The Agency's evaluation of analytical data provided by Allegan indicate that the bench-scale lime-stabilized lagoon sludges exhibit concentrations of leachable cadmium and lead that yield compliance-point concentrations exceeding the Agency's health-based levels used in delisting decision-making. Furthermore, the Agency believes that a more complete characterization of hazardous constituents in the lagoon sludges might have shown the presence of other hazardous constituents. The Agency proposes to deny Allegan Metal Finishing Company's petition for a one-time upfront exclusion of its wastewater treatment sludges described in its petition as EPA Hazardous Waste No. F006 and contained in its two sand seepage lagoons at its Allegan, Michigan facility. These wastes should continue to be subject to regulation under 40 CFR parts 260 through 268 and the permitting standards of 40 CFR part 270.

III. Effective Date

This rule, if finally promulgated, will become effective immediately upon such final promulgation. The Hazardous and Solid Waste Amendments of 1984 amended section 3010 of RCRA to allow rules to become effective in less than six months when the regulated community does not need the six-month period to come into compliance. That is the case here, because this rule, if finalized, would not change the existing requirements for persons generating hazardous wastes. This facility has been obligated to manage its wastes as hazardous before and during the Agency's review of its petition. Because a six-month deadline is not necessary to achieve the purpose of section 3010, EPA believes that this denial should be effective immediately upon final promulgation. These reasons also provide a basis for making this rule effective immediately, upon promulgation, under the Administrative Procedures Act, pursuant to 5 U.S.C. 553(d).

IV. Regulatory Impact

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. The proposed denial of this petition, if promulgated, would not impose an economic burden on this facility because prior to submitting and during review of the petition, this facility should have continued to handle its wastes as hazardous. The denial of the petition means that they are to continue managing their wastes as hazardous in the manner in which they have been doing, economically, and otherwise. There is no additional economic impact, therefore, due to today's rule. This proposal is not a major regulation, therefore, no Regulatory Impact Analysis is required.

V. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601–612, whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (*i.e.*, small businesses, small organizations, and small governmental jurisdictions). The Administrator or a delegated representative may certify, however, that the rule will not have a significant economic impact on a substantial number of small entities.

This amendment, if promulgated, will not have an adverse economic impact on small entities. The facility included in this notice may be considered a small entity, however, this rule only affects one facility in one industrial segment. The overall economic impact, therefore, on small entities is small. Accordingly, I hereby certify that this proposed regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. This regulation, therefore, does not require a regulatory flexibility analysis.

VI. Paperwork Reduction Act

Information collection and recordkeeping requirements associated with this proposed rule have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511, 44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2050–0053.

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 86–283; RM–5222]

Radio Broadcasting Services; Potosi, MO

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; dismissal of petition.

SUMMARY: This document dismisses a petition filed by EZ Communications, Inc. to substitute FM Channel 267A for Channel 249A (vacant) at Potosi, Missouri. The proposed substitution was intended to enable FM Station KYKY, St. Louis, Missouri, to upgrade to a full Class C facility. EZ Communications' license for KYKY has been modified to specify operation as a C1 facility. The C1 Channel does not require a channel substitution at Potosi, and no other interest has been expressed in the channel substitution in the community. With this action, this proceeding is terminated.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 86–283, adopted September 29, 1989, and released October 27, 1989. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 611 and 672

[Docket No. 91050–9250]

Foreign Fishing; Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of proposed 1990 initial specifications of groundfish and apportionment of reserves; request for comments.

SUMMARY: NOAA proposes 1990 total allowable catches (TACs) and apportionments for each category of groundfish and apportionment of groundfish reserves in the Gulf of Alaska. Information relevant to management of Pacific halibut bycatch and prohibited species catch (PSC) limits for fully utilized groundfish species, which might pertain to joint ventures, is provided. This action is

VOL 54 ISS 214 NOV 7 1989 UMI

necessary to provide the public with the Secretary of Commerce's (Secretary) preliminary determinations of the initial TACs, apportionments, PSC limits, and reserve apportionments, and to obtain public comment on those determinations. The intended effect of this notice is to provide the Secretary with the best available information on which to base final 1990 initial specifications of TAC and apportionments and to provide opportunity for public participation in this decision-making process.

DATE: Comments will be received through December 1, 1989.

ADDRESS: Comments should be sent to Steven Pennoyer, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 021668, Juneau, AK 99802.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Management Biologist, NMFS), 907–586–7230.

SUPPLEMENTARY INFORMATION:

Background

This notice invites comments on management proposals related to groundfish management in the Gulf of Alaska for the 1990 fishing year. These proposals are: (A) Specifications of TAC and apportionments among domestic annual processing (DAP), joint venture processing (JVP), total allowable level of foreign fishing (TALFF), and reserves; (B) apportionments of groundfish reserves, (C) PSC limits for fully utilized groundfish species, and (D) assumed Pacific halibut bycatch and mortality rates. Each of these proposals is discussed below:

(A) Total Allowable Catches

Specifications of TACs for groundfish species in the Gulf of Alaska are authorized by the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). This FMP was developed under the Magnuson Fishery Conservation and Management Act (Magnuson Act) and is implemented by regulations appearing at 50 CFR 611.92 and part 672. The sum of the TACs for all species must fall within the combined optimum yield (OY) range of 116,000–800,000 metric tons (mt), which is established for these species.

TACs are apportioned initially among DAP, JVP, reserves, and TALFF for each species under §§ 611.92 and 672.20(a)(2). DAP amounts are intended for harvest by U.S. fishermen for delivery and sale to U.S. processors. JVP amounts are intended for joint ventures in which U.S. fishermen deliver their catches to foreign processing vessels authorized to receive U.S.-harvested groundfish. TALFF amounts are intended for harvest by foreign fisherman. The reserves for the Gulf of Alaska are 20 percent of the TAC for pollock, Pacific cod, and flatfishes (formerly referred to as "flounder"), and the "other species" category. These reserve amounts are set aside for possible reapportionment to DAP or to JVP if the initial apportionments prove inadequate. Reserves which are not reapportioned to DAP may be reapportioned to JVP or TALFF. Reserves not reapportioned to JVP may be reapportioned to TALFF.

Under § 672.20(c)(1), the preliminary specifications of DAP will be the amounts harvested during the previous year plus any additional amounts the Secretary finds will be harvested by the U.S. fishing industry for delivery to U.S. processors. The preliminary specifications of JVP will be amounts harvested during the previous year plus any additional amounts the Secretary finds will be harvested by the U.S. fishing industry for delivery to foreign processors, subject to reductions to accommodate increasing DAP. These additional amounts will reflect as accurately as possible the projected increases in U.S. processing and harvesting capacity and the extent to which U.S. processing and harvesting will occur during the coming year. These projections will be based on the latest reliable information that is available, including industry surveys, market data, and stated intentions by representatives for the U.S. fishing industry.

The Council met during September 28–29, 1989, to review information on the status of groundfish stocks. Much of that information is contained in the Stock Assessment and Fishery Evaluation (SAFE) Report available from the Council upon request. Some additional information may also be available to the Council at its December 1989 meeting. The Council considered recommendations made by its Advisory Panel (AP), its Scientific and Statistical Committee (SSC), and the Plan Team for the Gulf of Alaska. For the first time, the Plan Team recommended separate acceptable biological catches (ABCs) for arrowtooth flounder, deepwater flatfish, and shallow water flatfish. Deepwater flatfish consists of rex sole, Dover sole, and flathead sole. The shallow water flatfish category consists of rock sole, yellowfin sole, butter sole, starry flounder, and other flatfish not specifically defined. In the past, the TACs for these species groups have been combined into a single "flounder" TAC. The general designation of "flatfish" is used for the first time to be consistent with a similar general designation in the Bering Sea and Aleutian Islands. The SSC adopted the Plan Team's recommended ABCs for sablefish. The SSC recommended ABCs for pollock, Pacific cod, flatfish groups, and rockfish groups that differed from the Plan Team's. The AP recommended TACs for each target species and the "other species" category equal to the SSC's recommended ABCs. The Council also considered public testimony.

A summary of the Plan Team's SAFE report, which formed the basis for deliberations by the AP, SSC, and the Council, and also Council recommended TACs for each of the target species and "other species" categories follow:

Pollock

Results from the 1989 hydroacoustic survey of Gulf of Alaska pollock indicate a continued decline in the abundance of pollock in 1989. The continued decline is due to the lack of any strong year class recruiting to the fishery since the 1979 year class. Estimates of the 1989 biomass for ages 3+ to 10+ range from 197,000 to 721,000 mt. A preliminary estimate of age 2+ from the 1989 hydroacoustic survey is 305,000 mt.

The 1989 stock assessment showed that, given the range of recruitment possibilities, a quota of 10,000 to 65,000 mt could be taken in 1990. At this time only preliminary information is available on the abundance of the 1986–88 year classes. However, the 1986 year class is likely below average, because year classes of age 2 and 3 fish were not abundant in the hydroacoustic and fishery data.

Considering the uncertainty in the current condition of the stock in the Western/Central Regulatory Area, the Plan Team recommended an ABC range of 10,000 to 37,500 mt, of which no more than 6,250 mt should be harvested from the Shelikof Strait District. The Plan Team had no new information for pollock stocks in the Eastern Gulf of Alaska and suggested the 1990 ABC be set at the 1989 level of 3,400 mt. The Plan Team recommended that a TAC of 10,000 mt be established between 151°30' and 147° W. longitudes for data collection purposes.

The SSC believed that the Plan Team's estimated ABC is too conservative and recommended, that ABC be set at 58,000 mt in the Western/Central Regulatory Area with no more than 6,250 mt be allowed for harvest from the Shelikof Strait District. The SSC noted that an ABC of 58,000 mt was derived from the most pessimistic expectation for recruitment contained in the SAFE report, and resulted in a conservative ABC. It also provides an exploitation rate of 9.1 percent similar to the level at which stock biomass increased from previous low levels in the 1970s and similar to the 10 percent exploitation rate used in 1989.

On this basis, the Council adopted a preliminary ABC range for pollock of 13,400 to 61,400 mt for all of the Gulf of Alaska. Of this amount, ABC is set at 3,750 to 51,750 in the Western/ Central Regulatory Area, exclusive of the Shelikof Strait District. The ABC for the Shelikof Strait District is 6,250 mt. No information is available to change the 3,400 mt ABC for pollock in the Eastern Regulatory Area. The pollock TAC for the Western/Central Regulatory area, excluding Shelikof Strait District, is proposed as a point value of 51,750 mt within the ABC range of 3,750 to 51,750 mt for this area. Proposed TACs for the Shelikof Strait District and Eastern Regulatory Area are 6,250 mt and 3,400 mt, respectively.

In addition, the Council proposes that a TAC of 10,000 mt of pollock be allowed between 151°30' and 147° W. longitudes during January 15–April 15, 1990. These dates encompass the usual pollock spawning period. The Council took this action to encourage exploratory fishing outside of the known spawning areas to determine if exploitable spawning stocks exist elsewhere.

Pacific Cod

The Pacific cod stock in the Gulf of Alaska is currently healthy. The best estimate of exploitable biomass is 498,044 mt. Although this value is about 11 percent less than the estimate of last year (558,700 mt), the reduction is primarily due to changes made in new mathematical procedures used in analysis, which in fact produce a better fit to the survey biomass estimates. The Plan Team recommended an ABC of 60,500 mt, based on the current exploitable biomass and exploitation rate of 10 percent. The SSC recommended that the ABC should be 120,000 mt, based on a higher exploitation rate of 25 percent.

The Council adopted a preliminary ABC range for Pacific cod of 60,500 to 120,000 mt, but proposed a preliminary TAC equal to 71,200 mt to minimize bycatches of Pacific halibut. TAC is apportioned to the management areas as follows: Western—13,500 mt; Central—52,000 mt; and Eastern—5,700 mt.

Flatfish

Flatfish stocks in the Gulf of Alaska are in good condition. Biomass estimates from surveys conducted in 1984 and 1987 show that the resource is stable. Current ABCs for flatfish stocks were estimated by applying F_{max} and $F_{0.1}$ exploitation rate levels to the 1987 biomass estimates, resulting in an ABC for all flatfish species of 722,000 mt. Gulf-wide flatfish catches in 1988 were less than 2 percent of this amount.

The Plan Team recommended that the flatfish complex be separated into three groups with separate ABCs: Deepwater flatfish at 171,300 mt; shallow water flatfish at 207,100 mt; and arrowtooth flounder at 343,300 mt. The Plan Team recommended that the ABC be apportioned to the individual management areas as the biomass is distributed. The SSC recommended ABCs lower than those recommended by the Plan Team on the basis that a more conservative exploitation rate is more appropriate. Accordingly, respective ABCs recommended by the SSC are 129,200 mt, 64,500 mt, and 194,600 mt for the deepwater flatfish, shallow water flatfish and arrowtooth flounder components of the flatfish complex.

The Council adopted the SSC's ABC ranges and proposed preliminary TACs that are equal to ABCs for the three flatfish categories as follows:

Deepwater flatfish—129,200 mt apportioned among the regulatory areas as follows: Western—21,500 mt; Central 89,900 mt, and Eastern—17,800 mt.

Shallow water flatfish—64,500 mt apportioned among the regulatory areas as follows: Western—30,200 mt; Central 52,200 mt; and Eastern—2,100 mt.

Arrowtooth flounder—194,600 mt apportioned among the regulatory areas as follows: Western—27,000 mt; Central 141,000 mt; and Eastern—26,600 mt.

Sablefish

The Plan Team recommended an ABC range of 25,000 to 36,300 mt for sablefish, based on the $F_{0.1}$ exploitation rate applied to pessimistic and point estimates of biomass, respectively. These values will be updated by results of sablefish longline surveys that were underway at the time the Plan Team developed the SAFE report. Preliminary results of a sablefish survey, conducted by the Alaska Department of Fish and Game in inside waters of Southeastern Alaska, indicate a significant decrease in catch per unit of effort from 1988 to 1989. The SSC adopted the Plan Team's recommendation for ABC, which in turn was adopted by the Council. The Council recommends preliminary TACs among the regulatory areas and districts as follows: Western—3,770 mt; Central—11,700 mt; West Yakutat—4,550 mt; and Southeast Outside/East Yakutat—5,980 mt.

Rockfish Assemblages

The same three categories of rockfish in the genus *Sebastes* are proposed to be managed in 1990 as in 1989. These categories are "other rockfish", pelagic shelf rockfish, and demersal shelf rockfish. They are described as follows:

Other rockfish—In the Western and Central Regulatory Areas and the Eastern Regulatory Area west of 137° W. longitude, "other rockfish" means the 16 species of slope rockfish and the 10 species of demersal shelf rockfish listed in footnotes 5 and 7, respectively, to Table 1 of this notice. TACs will be established for these combined assemblages in these management areas. In the Southeast Outside District, "other rockfish" means the 16 species of slope rockfish, only. TACs will be established for this assemblage of 16 species in the Southeast Outside District.

The Plan Team recommended an ABC range of 6,000 to 17,600 mt for the slope rockfish assemblage. An F_{max} exploitation rate derived from a conservative recruitment function and an F=M exploitation rate used to obtain the range, were adjusted due to concern that the proportion of shortraker and rougheye rockfish in the harvest is greater than their proportion in the assemblage biomass. Therefore, the assemblage exploitation rates have been adjusted downward to maintain exploitation rates of these species at the intended rates. The SSC however did not believe that reducing ABCs by 50 percent to protect shortraker and rougheye rockfish was warranted, because conservative estimates of biomass and exploitation rates were already used. The SSC recommended an ABC of 23,600 mt, which represents the midpoint of the ABC ranges that would have been obtained without reducing the estimates by 50 percent. The Council recommends an ABC range of 6,000–23,600 mt and proposes TACs be apportioned among the regulatory areas as follows: Western—3,750 mt; Central—6,500 mt, and Eastern—4,750 mt.

Pelagic shelf rockfish—In the Western, Central, and Eastern Regulatory Areas, pelagic shelf rockfish means the five rockfish species listed in footnote 6 to Table 1 of this notice. The Plan Team recommends an ABC range of 3,800 to 8,200 mt, based on fishing rates obtained from analyses of Pacific ocean perch stocks that were applied to biomass estimates of pelagic shelf rockfish. The SSC recommended an ABC of 6,600 mt and the Council adopted the SSC's recommendation. The

VOL 54 ISS 214 NO 7 1989 UMI

Council recommends that TAC be set equal to its 1990 value, apportioned among the three regulatory areas as follows: Western—1,000 mt; Central—4,800 mt; and Eastern-600 mt.

Demersal shelf rockfish—In the Southeast Outside District of the Eastern Regulatory Area, demersal shelf rockfish means the ten rockfish species listed in footnote 7 to Table 1 of this notice. A TAC of 470 mt is proposed in the Southeast Outside District. No new information exists to estimate total biomass, exploitable biomass, or ABC for demersal shelf rockfish in the Southeast Outside District. The State of Alaska has adopted a rockfish management plan that establishes directed fishing quotas for each of the five management areas used by the State of Alaska, three of which are located in the Southeast Outside District. This plan also provides for some retention of demersal shelf rockfish in fisheries for other species after the closure of the directed fishery.

A combined quota of 370 mt has been established for the directed fishery in the three State of Alaska management areas that make up the Southeast Outside District. Based on past harvest records, bycatch needs, in other fisheries may be as high as 100 mt. The State of Alaska recommended that a TAC of 470 mt be set for the Southeast Outside District for the 1990 fishing year. The SSC did not recommend an ABC, but the Council recommends that ABC be 470 mt, and set TAC equal to ABC.

Thornyhead Rockfish

Longline and trawl surveys show somewhat conflicting information in thornyhead stock trends. Longline surveys suggest a decline while trawl survey data suggest an increase. However, the 1987 trawl survey provides the most reliable estimate of current exploitable biomass—86,700 mt. DAP catches continue to increase, with 1989 catches through August 12 being the highest recorded. The Plan Team recommended that ABC be set equal to 3,800 mt. However, a decline in the longline indices suggests that the current ABC value may not be sustainable. The SSC and the Council adopted the Plan Team's recommendation of a single TAC equal to ABC for the entire Gulf of Alaska.

Other Species

FMP procedures define the TAC for this category to be set at 5 percent of the sum of the TACs established for the target species categories.

The Council requested that the Secretary propose the above TACs under § 672.20(c)(1). Regulations implementing the FMP stipulate that initial reserves, equal to 20 percent of the TACs for pollock, Pacific cod, flatfish, and the "other species" category be established for possible reapportionment to DAP, JVP, or TALFF. The Council did not recommend the reserves should be withheld from DAP at this time, but instead recommended that DAP be set equal to TAC for each target species and the "other species" category. Section 672.20(c)(1) requires that JVP be set at least equal to amounts harvested in 1989, subject to reductions to accommodate any increases in DAP. Because JVP fishermen did not harvest any groundfish in 1989, the Council did not recommend any amounts for JVP. TALFF is set equal to zero, because the Secretary expects all species will be fully utilized by U.S. fishermen in 1990 in DAP fisheries.

The Secretary has reviewed the Council's recommendations for ABCs and the current specifications of TAC and DAP and proposes them in this notice to allow for public comment. Each ABC, TAC, and apportionment to DAP is subject to change following the December 1989 Council meeting. The final determinations of the extent to which U.S. processing and harvesting will occur during the coming year will be made based upon the public comments on this notice and a domestic processor survey made by the Regional Director in November 1989.

Any additional information on the actual plans of U.S. fishermen and processors for harvesting and processing groundfish will be considered by the Secretary when making his final decision on the Council recommendations for 1990 initial apportionments of TACs in the Gulf of Alaska.

(B) Apportionment of Groundfish Reserves

Under § 672.20(a)(2)(i), reserves are established for pollock, Pacific cod, flatfish, and the "other species" category. Under 672.20(d)(1)(ii) and (d)(3), the Secretary may apportion any amounts of any reserve to DAP. At this time, the Secretary has determined preliminarily that DAP will harvest all of the 1990 TACs and proposes that all of the reserves be apportioned to DAP.

(C) PSC Limits For Fully Utilized Species

Section 672.20(b)(1) specifies that if the Secretary, after consultation with the Council, determines that the TAC for any species or species group will be fully harvested in the DAP fishery, he may specify for each calendar year the PSC limit applicable to the JVP and TALFF fisheries for that species or species group. Any PSC limit specified shall be for bycatch only and cannot be retained. At this time, no PSC limits are provided, because DAP is set equal to TAC for each species, precluding any JVP and TALFF specifications.

(D) Assumed Pacific Halibut Bycatch and Mortality Rates

At this time the Secretary is reviewing Amendment 16 to the FMP, which among other measures, proposes to set aside for the 1990 fishing year regulations at § 672.20(f)(2)(i) that specify a framework procedure for setting PSC limits for Pacific halibut. Should the Secretary approve this measure, PSC limits will be established and apportioned to trawl and longline gear that are equal to 2,000 mt and 750 mt, respectively, with no further action by the Council, which otherwise would have recommended initial PSC limits at its December 1989 meeting.

The PSC limits in Amendment 16 were derived from industry sources. Assumed halibut bycatch and mortality rates that might be used while managing the 1990 groundfish fishery are derived from several sources, including older JVP catch data and more recent information reported by Alaska Department of Fish and Game observers on rates experienced by vessels while targeting on groundfish. These bycatch rates, expressed as percentages in the following tabulation, are proposed for use in projecting when the 1990 halibut PSC limits might actually be reached during the fishing year. These rates are subject to adjustment during the fishing year on the basis of the best available information, which might include actual rates during the fishery as observed and reported by NMFS observers.

[Assumed halibut bycatch rates, as percent of total catch, by DAP gear type in the Gulf of Alaska for purposes of managing halibut bycatches in 1990.]

	Bottom trawl	Mid-water trawl	Hook-and-line	Pot
Target species				
Roundfish mixed	5.4			
Pollock	5.3	0.01		
Pacific cod	5.1			
Flatfish, mixed	3.1			
Flatfish, deep	2.6			
Flatfish, shallow	4.6			
Sablefish			39.8	
Pacific cod			22.0	0.4

Public comment on the appropriateness of these rates relative to the health of halibut stocks, fishery-experienced rates in 1989, and the goals and objectives of the FMP that pertain to halibut management are particularly requested.

Public comments are also requested on the appropriateness of the estimate of halibut mortality assumed for the various DAP fisheries as shown in the following tabulation. The values of 65 and 13 percent shown for bottom trawl and hook-and-line gear, respectively, were recommended by the International Pacific Halibut Commission for 1990 following a study of available information on mortality rates, and are proposed by the Council.

[Assumed halibut mortality rates in percent, for purposes of managing halibut bycatches in 1990.]

Gear type	Assumed mortality in 1989	Proposed assumed mortality in 1990
Bottom trawl	50	65 *
Off-bottom Trawl	0	0
Hook-and-line	25	13

* Relevant to shore-based trawl vessels. The Plan Team will be developing information for purposes of establishing a mortality rate that would be applicable to catcher/processor vessels.

Public comments on the above groundfish apportionments, reserve reapportionments, determinations about fully utilized species, and Pacific halibut bycatch and mortality assumptions, will be accepted by the Secretary for 30 days after this notice is filed for public inspection with the Office of the Federal Register. The Secretary will consider timely comments and, after consultation with the Council, specify the annual TAC for each target species and the "other species" category and apportionments thereof among DAP, JVP, TALFF, and reserves. These final amounts will be published as a notice in the Federal Register on or about January 1, 1990. These amounts will replace the corresponding amounts that were in place during 1989.

Other Matters

This action is taken under § 611.92 and § 672.20 and complies with Executive Order 12291.

1. See figure 1 of § 672.20 for description of regulatory areas/districts.
2. The category "deepwater flatfish" means rex sole, Dover sole, and flathead sole.
3. The category "shallow-water flatfish" means rock sole, yellowfin sole, butter sole, starry flounder, and other flatfish not specifically defined.
4. The category "other rockfish" in the Western and Central Regulatory Areas and in the West Yakutat and East Yakutat Districts includes Slope rockfish and Demersal shelf rockfish. The category "other rockfish" in the Southeast Outside District includes Slope rockfish.
5. The category slope rockfish includes *Sebastes polyspinis* (Northern rockfish), *S. aleutianus* (Rougheye), *S. zacentrus* (Sharpchin), *S. borealis* (Shortraker), *S. aurora* (Aurora), *S. melanostomus* (Blackgill), *S. goodei* (Chilipepper), *S. crameri* (Darkblotch), *S. elongatus* (Greenstriped), *S. variegatus* (Harlequin), *S. wilsoni* (Pygmy), *S. babcocki* (Red banded), *S. jordani* (Shortbelly), *S. diploproa* (Splitnose), *S. saxicola* (Stripetail), *S. miniatus* (Vermilion), and *S. reedi* (Yellowmouth)
6. The category pelagic shelf rockfish includes *Sebastes melanops* (Black) *S. mystinus*, (Blue) *S. ciliatus* (Dusky) *S. entomelas* (Widow), and *S. flavidus* (Yellowtail)
7. The category demersal shelf rockfish includes *Sebastes paucispinis* (Bocaccio), *S. nebulosus* (China), *S. caurinus* (Copper), *S. maliger* (Quillback), *S. proriger* (Redstripe), *S. helvomaculatus* (Rosethorn), *S. brevispinis* (Silvergrey), *S. nigrocinctus* (Tiger), *S. rubrivinis* (Yelloweye), *S. pinningers* (Canary).
8. The category "other species" includes Atka mackerel, sculpins, sharks, skates, eulachon, smelts, and octopus. The TAC is equal to 5 percent of the TACs of the target species.

[FR Doc. 89-25123 Filed 11-1-89; 3:05 pm]
BILLING CODE 3510-22-M

50 CFR Parts 611 and 675

[Docket No. 91046-9246]

Groundfish of the Bering Sea and Aleutian Islands; Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of preliminary 1990 initial specifications of groundfish; request for comments.

SUMMARY: NOAA proposes 1990 initial specifications of total allowable catches (TACs) and initial apportionments for each category of groundfish in the Bering Sea and Aleutian Islands (BSAI) area. This action is necessary to solicit public comments on preliminary determinations of the initial specifications of TAC and apportionments of groundfish that may be harvested in the BSAI area in 1990. The intended effect of this notice is to provide the Secretary of Commerce (Secretary) with the best available information on which to base final 1990 initial specifications of TAC and apportionments and to provide opportunity for public participation in this decisionmaking process.

DATE: Comments will be received through December 1, 1989.

ADDRESS: Comments should be sent to Steven Pennoyer, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, Alaska 99802-1668.

FOR FURTHER INFORMATION CONTACT: Jay J.C. Ginter, Fishery Management Biologist, NMFS, 907-586-7229.

SUPPLEMENTARY INFORMATION: Groundfish fisheries in the BSAI area are governed by Federal regulations (at 50 CFR 611.93 and part 675) which implement the Fishery Management Plan for the Groundfish Fishery in the Bering Sea and Aleutian Islands Area (FMP). The FMP was developed by the North Pacific Fishery Management Council (Council) and approved by the Secretary under the Magnuson Fishery Conservation and Management Act.

The FMP and implementing regulations require the Secretary, after consultation with the Council, to specify each calendar year the TAC for each target species and the "other species" category, the sum of which must be within the optimum yield range of 1.4 million to 2.0 million metric tons (mt) (§ 675.20(a)(2)). The regulations further require the Secretary to annually publish preliminary TACs and the apportionments of each TAC and solicit public comment on these amounts for a period of 30 days (§ 675.20(a)(7)). Table 1 and this notice satisfy this requirement. After considering all timely comments and after consultation with the Council, the Secretary will publish the final annual TACs for 1990 and initial apportionments as soon as practicable after December 15, 1989.

The specified TACs for each species are based on the best available biological and socioeconomic information. The Council, its Advisory Panel (AP), and Scientific and Statistical Committee (SSC), at their September 1989 meetings, reviewed preliminary biological information about the condition of groundfish stocks in the BSAI area. This information was compiled by the Council's BSAI groundfish Plan Team and presented in the draft Stock Assessment and Fishery Evaluation (SAFE) report dated September 1989. The Plan Team annually produces such a report as the first step in the process of specifying TACs. The SAFE contains a review of the latest scientific analyses and estimates of each species' biomass, maximum sustainable yield (MSY), acceptable biological catch (ABC), other biological parameters, and a summary of the economic condition of groundfish fisheries off Alaska.

Procedure for Estimating ABC

Calculation of ABC varies among species depending on the quality of available data and prior knowledge of a species' stock status. The Plan Team has adopted three steps for estimating ABCs. First, the exploitable biomass of a stock is estimated. Second, the ABC for a stock is calculated by multiplying an exploitation rate times the estimated exploitable biomass. Various exploitation rates or fishing mortality (F) rates may be used in this calculation. For example, the exploitation rate that would produce MSY (F_{MSY}) may be used when the stock is known to be in good condition, high in abundance and not in danger of drastic declines. When particular caution is indicated, the more conservative $F_{0.1}$ harvest strategy is used to determine an exploitation rate. This strategy determines a level of F at which the marginal increase in yield per recruit due to an increase in F is 10 percent of the marginal yield per recruit in a newly exploited fishery. Recruitment refers to the growth of juvenile fish into the adult or exploitable population. Generally, the $F_{0.1}$ harvest strategy produces a more conservative exploitation rate than F_{MSY}. Another alternative is to use historical exploitation rates when historical fishery data indicate that a stock is not adversely affected by such rates. Finally, an empirical estimation of ABC based on historical catch levels may be used when information is insufficient to estimate the biomass of a stock. Details of this and other calculation procedures are discussed in the 1989 draft SAFE report which is available on request from the Council.

A summary of ABCs for each species for 1990 and other biological data from the 1989 draft SAFE report is provided below. The Plan Team will revise the draft SAFE report at its November 1989 meeting and produce a final SAFE report with ABC recommendations prior to the Council's December 1989 meeting. At that time, the Council will develop TAC recommendations to the Secretary which are derived from the ABCs and adjusted for other biological and socioeconomic considerations. The TACs may be further adjusted so that their sum does not exceed the maximum optimum yield allowed by the FMP. For purposes of this notice, the Council recommended the TACs in Table 1 based on current biological information and ABCs in the draft SAFE report.

Apportionment of TAC

The amount of TAC for groundfish in each species or species group initially is reduced by 15 percent. The sum of these 15 percent amounts is the reserve. The reserve is not designated by species or species group and any amount of the reserve may be reapportioned to a target species or the "other species" category during the year, providing that such reapportionments do not result in overfishing (§ 675.20(a)(3)).

The initial TAC (ITAC) for each target species and the "other species" category at the beginning of the year, which is equal to 85 percent of TAC, is then apportioned between the domestic annual harvest (DAH) category and the total allowable level of foreign fishing (TALFF). Each DAH amount is further apportioned between two categories of U.S. fishing vessels. The domestic annual processing (DAP) category includes U.S. vessels that process their catch on board or deliver it to U.S. fish processors. The joint venture processing (JVP) category includes U.S. fishing vessels working in joint ventures with foreign processing vessels authorized to receive catches in the U.S. exclusive economic zone. In consultation with the Council, the initial amounts of DAP and JVP are determined by the Director, Alaska Region, NMFS (Regional Director). The initial DAP and JVP amounts for each target species and the "other species" category equal the actual DAP and JVP of the previous year plus any additional amounts the Regional Director projects will be used by the U.S. fishing industry during the coming year, subject to available TAC and accommodation of DAP. This projection is based on the latest reliable information that is available, including industry surveys, market data and the stated intentions of U.S. fishing industry representatives (§ 675.20(a)(4)).

The preliminary TACs, ITACs, reserve, and initial apportionments of groundfish in the BSAI area for 1989 are given in Table 1 of this notice. For purposes of this notice, most of the TACs in Table 1 are the same as current TACs for 1989 with five exceptions. The exceptions include Bering Sea (BS) subarea pollock, Pacific cod, yellowfin sole, rock sole, and other flatfish. For BS subarea pollock, the Council recommended decreasing the 1990 preliminary TAC relative to the current 1989 TAC in response to the decrease in projected 1990 ABC relative to the 1989 ABC. For the other four species or species groups, the Council recommended increases in the 1990 preliminary TACs relative to the current TACs for 1989. Except for Pacific cod, all of the projected ABCs of these four species or species groups have increased relative to their 1989 ABCs. The 1990 ABC for Pacific cod is projected to be less than it was in 1989. Nevertheless, stock abundance is characterized as being very high. In recommending DAP and JVP apportionments, the Council followed the AP recommendation to maintain the same proportions existing in the current (1989) apportionments, except for pollock which was wholly apportioned to DAP. The Secretary concurs with these recommendations for purposes of this notice. These amounts are subject to change as a result of public comment, additional analysis of the biological condition of the groundfish stocks, results of a November survey of domestic processing intentions in 1990, and consultation with the Council at its meeting scheduled for December 5–8, 1989.

Prohibited Species Catch (PSC) Limits

Crab and Halibut

Amendment 12A to the FMP (54 FR 32642, August 9, 1989; corrected at 54 FR 37469, September 11, 1989) established PSC limits of red king crab and *C. bairdi* Tanner crab in specific zones of the BS subarea, and for Pacific halibut throughout the BSAI area. These PSC limits are (50 CFR 675.21):

—200,000 red king crabs applicable to Zone 1;

—one million *C. bairdi* Tanner crabs applicable to Zone 1;

—three million *C. bairdi* Tanner crabs applicable to Zone 2;

—4,400 metric tons (mt) of Pacific halibut (primary PSC limit) applicable to Zones 1 and 2H; and

—5,333 mt of Pacific halibut (secondary PSC limit) applicable to the entire BSAI area.

Each PSC limit is apportioned into PSC allowances that are assigned to each of four specified fisheries. The apportionments proposed in Table 2 of this notice are based on the currently anticipated bycatch of crabs and halibut during the 1990 fishing year. These estimates may be revised in December 1989 when the 1989 bycatch performance is better known and fishing patterns in 1990 can be better anticipated.

TABLE 2.—PRELIMINARY 1990 PROHIBITED SPECIES CATCH ALLOWANCES

Fisheries	Zone 1	Zone 2	Zones 1+2H primary	BSAI—wide secondary
Red king crab, animals				
DAP flatfish fisheries	25,190			
DAP other fisheries	11,616			
JVP flatfish fisheries	162,057			
JVP other fisheries	1,137			
C. bairdi Tanner crab, animals				
DAP flatfish fisheries	56,501	169,502		
DAP other fisheries	658,513	1,975,539		
JVP flatfish fisheries	259,240	777,721		
JVP other fisheries	25,746	77,237		
Pacific halibut, metric tons				
DAP flatfish fisheries			88	119
DAP other fisheries			3,768	4,567
JVP flatfish fisheries			430	521
JVP other fisheries			104	126

Groundfish

Amendment 12 to the FMP (54 FR 18519, May 1, 1989) provided for annual specification of PSC limits for groundfish species or species groups for which the TAC can be harvested by domestic (i.e., DAH) fisheries under § 672.20(a)(6). In practice, these PSC limits apply only to JVP fisheries for species which have a zero JVP apportionment. No PSC limits are proposed for foreign fisheries since no allocations are recommended for foreign directed fishing. Groundfish PSC limits are proposed for the 1990 fishing year as listed in Table 3 based on 1988 bycatch rates. These proposed limits will change if the proposed TACs and apportionments change and after the Plan Team reviews and integrates 1989 bycatch rates.

TABLE 3.—PSC LIMITS FOR GROUNDFISH [1]

Species	Initial PSC limits in metric tons	
	JVP	TALFF
Pollock		
Bering Sea	43,748	0
Aleutian Islands	0	0
Atka mackerel	4	0
Sablefish		
Bering Sea	1	0
Aleutian Islands	0	0
Pacific Ocean perch		
Bering Sea	5	0
Aleutian Islands	0	0
Other rockfishes		
Bering Sea	2	0
Aleutian Islands	0	0

[1] Zero PSC limit specified means that no amount of a given species may be caught and then discarded by a JVP or TALFF fishery. Any significant bycatch of this species in a JVP or TALFF fishery for which a zero amount of PSC limit is specified will result in closure of target fisheries likely to catch this species.

Summary of Biological Condition and ABCs

Pollock

The estimated abundance of pollock in the eastern Bering Sea (EBS, continental shelf area of the BS subarea to depths of 100 fathoms) is higher than average, but model projections indicate that biomass is declining and will continue to do so in the near future. Based on a cohort analysis, the projected exploitable biomass (pollock aged 3–9 years) in 1990 will be from 5,032,000 to 6,192,000 mt, as compared to the 1989 estimate of 5,300,000 mt. The biomass of EBS pollock is currently above the level that will produce MSY. However, if predicted recruitment in the near future is correct, biomass is expected to decrease. The Plan Team recommended an exploitation rate for the EBS stock based on the $F_{0.1}$ harvest strategy. At this rate, the calculated ABC for pollock in the EBS is within the range of 1,140,000 to 1,470,000 mt. For comparison, the ABC of this stock for 1989 was 1,340,000 mt, which was derived using the same exploitation rate.

The size and dynamics of the pollock population in the Aleutian Islands (AI) subarea are not well understood. The latest survey of the exploitable biomass in this subarea was in 1986 and produced an estimate of 690,000 mt. Based on an assumption that the rate of decline in the pollock biomass in the AI subarea was the same as in the BS subarea, the Plan Team estimated the AI exploitable biomass in 1989 to be 649,700 mt. The Plan Team calculated an ABC of pollock for the AI subarea to be 149,400 mt using an exploitation rate of 23 percent derived from the $F_{0.1}$ harvest strategy.

Pacific Cod

The projected exploitable biomass in the BSAI area in 1990 is estimated to be 1,097,800 mt. Although this is about 8 percent lower than that estimated last year for 1989, the abundance of Pacific cod is considered high. Exploitation based on the F_{MSY} harvest strategy used in 1989 suggests an exploitation rate of 31 percent and an ABC of 345,399 mt. For 1990, however, the Plan Team recommended a lower fishing mortality rate to account for uncertainty in parameter estimates and recent increases in catch relative to historic catches. The new exploitation rate is based on a fishing mortality (F) strategy that maximizes the expected logarithm of the sustainable yield (F_{MELSY}). The more conservative F_{MELSY} approach calculates an ABC for 1990 of 209,200 mt which is about 44 percent less than the 370,600-mt ABC calculated for 1989. The exploitation rate indicated by the recommended 1990 ABC is 19 percent which is roughly equivalent to actual exploitation rates since 1984. The SSC declined comment on the F_{MELSY} harvest strategy until it reviewed its derivation. In the interim, the SSC recommended using the F_{MSY} exploitation rate. For purposes of this notice, the Council recommended an ABC range for Pacific cod of 209,200 to 345,399 mt.

Sablefish

The relative abundances of sablefish in the AI subarea and the EBS have been estimated from U.S.-Japan cooperative longline surveys conducted annually since 1980 and 1982, respectively. The 1989 survey was being conducted when the Plan Team was preparing the draft SAFE report in September 1989. For purposes of this notice, the projected exploitable biomass of sablefish in 1990 is based on the most recent trawl (1986) and longline (1988) surveys. However, sablefish abundance in the EBS may be significantly underestimated because of killer whale predation on the survey catch. With these caveats, the estimated exploitable biomass at the beginning of 1990 for the BS subarea is 20,700 mt and 60,100 mt for the AI subarea. This represents an 18 percent decrease from the estimated 1989 exploitable biomass in the EBS and a 12 percent decrease in the Aleutians. Preliminary assessment of the 1989 survey data may moderate this decrease in biomass. Due to uncertainty of stock abundance, the Plan Team recommended a conservative $F_{0.1}$ exploitation strategy. To derive recommended ABCs with this approach, the Plan Team applied the $F_{0.1}$ exploitation rate to the biomass of the combined Gulf of Alaska, Bering Sea, and Aleutian Islands area projected to be available at the beginning of 1990. Zero recruitment was assumed as there has been no indication of strong recruitment since the 1977 year class. The ABC was then apportioned to the individual regions in proportion to the most current distribution of biomass from the longline survey. The Plan Team recommended an ABC range with the lower end scaled to the lower confidence estimate of the 1984 trawl survey and the upper end scaled to the sum of individual biomass estimates for each region. This resulted in estimated ABCs for sablefish for the BS subarea in the range of 1,700 to 2,400 mt, and, for the AI subarea, in the range of 2,500 to 6,600 mt. For comparison, the ABCs estimated for 1989 were 2,800 mt for the BS subarea and 3,400 mt for the AI subarea. Full exploitation at the upper end of the range in each subarea would result in an average annual exploitation rate of about 11 percent.

Atka Mackerel

Biological surveys in the AI subarea that cover the range of this species occur only once every three years. As with sablefish, data from the latest (1989) survey were not available to the Plan Team when the draft SAFE report was prepared. Abundance cannot be accurately estimated due to highly localized concentrations of Atka mackerel; however, its relative abundance appears to be increasing due to the recruitment of a strong 1984 year class. An ABC for 1990 was estimated using the $F_{0.1}$ harvesting strategy in a catch-at-age analysis and assuming constant low recruitment. For 1989, the estimated ABC of 21,000 mt was calculated as the average of three values generated under different natural mortality rate assumptions. Because of the apparent strength of the 1984 year class, the 1990 ABC is recommended to be the upper end of a range from 19,000 to 24,000 mt.

Yellowfin Sole

This is the most abundant flatfish species in the EBS and second in abundance to pollock among all groundfish species managed under the FMP. The primary reason for its relatively high abundance is the strong recruitment of year classes spawned in the late 1960s through the mid-1970s. Survey and fishery data suggest that the yellowfin sole population is at a peak level of abundance and that there are some stronger than average year classes currently recruiting to the exploitable population. Based on a cohort analysis, the 1990 exploitable biomass is projected to be 1,640,000 mt, which represents an increase over the 1989 exploitable biomass of about 7 percent. The same $F_{0.1}$ exploitation strategy used in 1989 to derive an ABC estimate is used again to calculate ABC for 1990. Applying the $F_{0.1}$ exploitation rate of 17 percent to the 1990 projected exploitable biomass produces an ABC estimate for 1990 of 279,000 mt.

Rock Sole

Trawl survey data indicate that the biomass of rock sole is high and appears to be increasing. The exploitable biomass in 1990 is projected to be 1,392,700 mt which represents an increase over the 1989 exploitable biomass of about 9 percent. Because the biomass appears to be above the level that produces MSY, an F_{MSY} harvest strategy derived from a biomass-based cohort analysis was used by the Plan Team to determine an exploitation rate of 15.5 percent from which to calculate an ABC of 222,500 mt. However, the Council adopted the SSC recommendation to calculate an ABC range using an F_{MSY} exploitation rate derived from a dynamic pool model of 17.6 percent for the lower end and a yield-per-recruit model estimate of $F_{0.1}$ which produces an exploitation rate of 23 percent for the upper end. This approach produces an ABC range of 245,115 to 320,000 mt. For purposes of this notice, the preliminary ABC for rock sole is within the range of 222,500 to 320,000 mt.

VOL 54 ISS 214 NO 7 1989 UMI

Greenland Turbot

The Greenland turbot resource continues to decline and is probably below its long term average abundance. The declining trend, observed since 1980, is due to poor recruitment and is expected to continue into the early 1990s. The projected exploitable biomass for 1990 is estimated to be 356,600 mt. Forecasts for all conservative harvesting strategies, including no fishing, project continued declines in biomass. An exploitation rate of 5.5 percent, based on the conservative $F_{0.1}$ harvesting strategy, would provide an ABC in 1990 of 19,615 mt. The same strategy was used last year to produce the 1989 ABC of 20,300 mt. However, the Plan Team was unable to justify any major directed fishing on Greenland turbot in 1990 due to continually low levels of recruitment. Therefore, the Plan Team recommended setting the 1990 ABC at 7,000 mt, which approximates actual catches in recent years. The SSC noticed technical difficulties in comparing biomass estimates from the trawl survey and stock reduction analysis and recommended that the Plan Team do certain reassessments of both biomass estimates. For purposes of this notice, the Council adopted an ABC range of from 7,000 to 20,300 mt.

Arrowtooth Flounder

The abundance of arrowtooth flounder has increased substantially in recent years due to progressively stronger annual recruitment since 1975. This trend appears to be continuing based on the 1988 summer trawl survey which was the most recent survey data available when the draft SAFE report was prepared. The exploitable biomass of this species in 1990 is projected to be 433,900 mt. This is an 18 percent decrease from last year's estimate of the 1989 exploitable biomass. This decrease is due to an apparent decline in the slope component of the population from the 1987 to the 1988 trawl surveys. However, the 1988 survey indicated that less than 20 percent of the EBS population occupied slope waters. Overall, the 1988 combined shelf and slope estimates show a continued increase in population abundance. An exploitation rate of 31 percent was derived from the F_{MAX} harvest strategy. The 1990 ABC, using this rate, is calculated to be 134,500 mt. This exploitation rate is the same as that used to calculate the 1989 ABC. The SSC was reluctant to endorse the F_{MAX} harvest strategy because it maximizes yield in one year without regard to maintaining future recruitment. The SSC advocated using other exploitation strategies such as F_{MSY} or $F_{0.1}$ which provide sustainable yields close to the maximum obtainable with less risk of overfishing. The SSC recommended using the $F_{0.1}$ harvest strategy which produces an ABC of 65,100 mt. For purposes of this notice, the Council adopted an ABC range for arrowtooth flounder of 65,100 to 134,500 mt.

Other Flatfish

This category is composed of flathead sole, Alaska plaice, and miscellaneous flatfishes. All species in this group appear to be in relatively high abundance; above the level necessary to produce MSY. The exploitable biomass of these fishes as a group in 1990 is projected to be 1,187,100 mt. This is the same amount estimated for 1989 as no new abundance data were available when the draft SAFE report was prepared. Of this total amount, Alaska plaice comprises 60 percent, flathead sole is 36 percent, and the remaining 4 percent is comprised of miscellaneous flatfishes. The F_{MSY} harvest strategy was used for all species in this category due to overall high abundance. The Plan Team did not compute a separate F_{MSY} rate but assumed the same rate as rock sole (i.e., 15.5 percent) since this species and the other flatfishes have similar life histories. The resulting ABC for "other flatfish" in 1990 is calculated to be 184,000 mt. The SSC recommended computing an ABC consistent with the rock sole range using the $F_{0.1}$ harvest strategy for the upper end of the range. The Council adopted this approach, hence, the 1990 ABC range for "other flatfish" is 184,000 to 262,300 mt.

Pacific Ocean Perch (POP)

This is a species category which includes five species of rockfish in the genus *Sebastes* which inhabit outer continental shelf and upper slope areas. Generally, POP stocks continue to remain low in abundance relative to biomass levels during the early 1980s. However, the stock is increasing and has been determined to be at levels slightly below the biomass levels that would produce MSY. Survey data indicate the potential recruitment of one or more strong year classes in the BS subarea. The estimated exploitable biomass in the BS subarea for 1990 of 105,400 mt is slightly above the 1989 estimate and is based on the mean of estimates from 1979–1988 trawl surveys of the EBS shelf. In the AI subarea, the 1990 estimated exploitable biomass of 276,500 mt is unchanged from 1989 and is based on the mean of estimates from trawl surveys in 1980, 1983, and 1986. The Plan Team recommended using the same 6 percent exploitation rate used last year for both subareas to calculate ABCs of 6,300 mt and 16,600 mt respectively for the BS and AI subareas. Both of these exploitation rates were derived using the $F_{0.1}$ harvest strategy, which is intended to provide for some rebuilding of the POP species complex.

Other Rockfish

This species category includes all species of *Sebastes* and *Sebastolobus* other than those in the POP complex. The estimated exploitable biomass for 1990, based on the same survey data and methods used for POP, is 8,060 mt in the BS subarea and 16,500 mt in the AI subarea. These estimates compared to those for 1989 are slightly increased for the BS subarea and unchanged for the AI subarea. Likewise, the Plan Team recommended no change in the exploitation rate of 6 percent, derived from the $F_{0.1}$ harvest strategy, for both subareas which produces ABCs of 500 mt and 1,100 mt respectively for the BS and AI subareas.

Squid

Information on the distribution, abundance, and biology of squid stocks is insufficient for standard analysis of biomass due to their mainly pelagic drift over deep water. Based on historical catch data, primarily from foreign fisheries, harvests of 10,000 mt annually are believed to be sustainable. The 1990 ABC is recommended to be 10,000 mt, as it was for 1989.

Other Species

This category includes species of sculpins, sharks, skates, eulachon, smelts, capelin, and octopus. This group of groundfish is currently of minor economic value; fishing effort generally is not targeted on any of these species. However, they have potential economic value and are important ecosystem components. The estimated exploitable biomass of "other species" has remained relatively high and in 1990 is projected to be 676,200 mt. This is a slight increase over the estimated 1989 exploitable biomass of 673,600 mt mostly due to an adjustment in the calculations from the trawl survey data. No significant change has been seen in this stock size since 1986. Harvesting this stock close to its historical 9 percent exploitation rate appears appropriate given that the stock has been near MSY levels. Hence, the ABC of "other species" in 1990 is calculated to be 59,000 mt, which is the same as the 1989 ABC for this species category.

Other Matters

This action is authorized under 50 CFR 611.93(b) and 675.20, complies with Executive Order 12291, and is covered by the Regulatory Flexibility Analysis prepared for the implementing regulations.

Agricultural Research Service

Availability for Licensing and Intent To Grant Exclusive Licenses

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of availability and intent.

SUMMARY: Notice is hereby given that the U.S. Patent Application Serial No. 07/389,090, "Adherent, Autoencapsulating Spray Formulations of Biocontrol Agents," filed August 3, 1989, is available for licensing and that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant an exclusive license to Abbott Laboratories, North Chicago, Illinois.

DATES: Comments must be received on or before February 5, 1990.

ADDRESSES: Send comments to: USDA–ARS–Office of Cooperative Interactions, Beltsville Agricultural Research Center, Baltimore Boulevard, Building 005, Room 411, BARC–W, Beltsville, Maryland 20705.

FOR FURTHER INFORMATION CONTACT: Willard J. Phelps of the Office of Cooperative Interactions at the Beltsville address given above; telephone: 301/344–4032, (FTS) 344–4032.

SUPPLEMENTARY INFORMATION: The USDA–ARS intends to grant to Abbott Laboratories, North Chicago, Illinois, an exclusive license to practice the invention disclosed in U.S. Patent Application Serial No. 07/389,090, "Adherent, Autoencapsulating Spray Formulations of Biocontrol Agents," filed August 3, 1989. Patent rights to this invention are assigned to the United States of America as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as Abbott Laboratories has submitted a complete and sufficient application for a license and has entered into a Cooperative Research and Development Agreement with ARS providing for collaboration in the further development of the invention.

The prospective exclusive license will be royalty-bearing, will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7 and will conform to the intent of 15 U.S.C. 3710a. The prospective exclusive license may be granted unless, within ninety days from the date of this published Notice, ARS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209, 37 CFR 404.7, and the intent 15 U.S.C. 3710a.

William H. Tallent,
Assistant Administrator.

DEPARTMENT OF COMMERCE

Bureau of the Census

[Docket No. 91036–9236]

Designation of an Urbanized Area for Davis, CA

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice.

SUMMARY: Based on the results of a special census conducted May 5, 1989, the Bureau of Census is designating Davis, California as an urbanized area under criteria published November 22, 1985 in the **Federal Register** (50 FR 48237). The Davis, California urbanized area has a population of 51,903.

The major geographic components of the urbanized area and the population of each appear below:

I. Title, Total Population, and Population Inside and Outside of Central City

Davis, CA, Urbanized Area	Population	Area in square miles
The area	51,903	9.8
Davis city	44,792	7.1
Outside central city	7,111	2.7

II. Major Geographic Components

	Population	Area in square miles
Yolo County (pt.)	51,909	9.8
Davis division (pt.)	51,903	9.8
Davis city	44,792	7.1

The Census Bureau will provide at cost a copy of the special census map and an outline map showing the extent of the Davis, California urbanized area in response to requests.

ADDRESS: Persons will requests or questions should write to: Robert W. Marx, Chief, Geography Division, Bureau of the Census, Washington, DC 20233.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Marx at the address given or telephone (301) 763–5636.

Authority: 13 U.S.C. 4.

Dated: November 1, 1989.

C.L. Kincannon,
Deputy Director, Bureau of the Census.

BILLING CODE 3510–07–M

National Oceanic and Atmospheric Administration

Swim-With-the-Dolphin Programs

AGENCY: National Marine Fisheries Service (NOAA Fisheries), NOAA, DOC.

ACTION: Notice of public hearings and availability of a draft environmental impact statement.

SUMMARY: NOAA Fisheries has prepared a programmatic environmental impact statement (EIS) in accordance with the National Environmental Policy Act, and has scheduled hearings on the use of marine mammals in swim-with-the-dolphin programs. These programs allow a member of the public, including any general visitor or customer, to enter the water with a captive marine mammal for recreational swimming, snorkeling or scuba diving activities. Provisional authority to conduct these programs on an experimental basis expires on December 31, 1989. NOAA Fisheries is considering the environmental consequences of swim-with-the-dolphin programs and requests comments on the draft EIS. In order to allow time for full consideration of public comment in the final EIS and decision, NOAA Fisheries intends to extend the provisional authority for the four existing programs until March 31, 1990.

DATES: Hearings on the draft EIS will be held in Honolulu, Hawaii on November 20, 1989 at 7–9 p.m., in Islamorada, Florida on November 28, 1989 at 7–10 p.m., and in Washington, DC on December 4, 1989 at 10 a.m.. Written comments on the draft EIS are due by December 28, 1989.

ADDRESSES: Written comments on the draft EIS may be mailed to Dr. Nancy Foster, Director, Office of Protected Resources and Habitat Programs (F/PR), NOAA Fisheries, 1335 East-West Highway, Silver Spring, MD 20910. A copy of the Draft EIS may be obtained by writing to this address or from the Information Contacts listed below. Addresses for the public hearings are: Kaimuki Public Library, 1041 Koko Head Ave., Honolulu, Hawaii; Cheeca Lodge, Milemarker 82.5, Islamorada, Florida; and Main Auditorium, Department of Commerce, 14th and Constitution Avenue NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Gene Nitta (Hawaii), 808–955–8831; Charles Oravetz or Jeff Brown (Florida), 813–893–3366; Jaunice Yates (Washington, DC), 301–427–2289. Please notify one of these individuals at least seven days in advance of the hearing if you wish to testify at the hearing.

Dated: October 31, 1989.

Nancy Foster,
Director, Office of Protected Resources and Habitat Programs, National Marine Fisheries Service.

BILLING CODE 3510–22–M

[Docket No. 91051–9251]

Reef Fish Fishery of the Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of control date for entry into the Gulf of Mexico reef fish fishery.

SUMMARY: This notice announces that anyone entering the commercial reef fish fishery in the Gulf of Mexico and South Atlantic after November 1, 1989 (control date), may not be assured of future access to the reef fish resource if a management regime is developed and implemented that limits the number of

participants in the fishery. This announcement is intended to establish public awareness of a potential eligibility criterion for access to the Gulf of Mexico reef fish resource. This announcement does not prevent any other date for eligibility in the fishery or another method of controlling fishing effort from being proposed and implemented. The intended effect of this announcement is to discourage new entry to the fishery based on speculation while discussions continue on whether and how access to the reef fish resource should be controlled.

FOR FURTHER INFORMATION CONTACT: William Turner, NMFS, 813-893-3722.

SUPPLEMENTARY INFORMATION:

Background

The Fishery Management Plan for the Reef Fish Fishery of the Gulf of Mexico (FMP) was developed in 1981 and is currently being amended by the Gulf of Mexico Fishery Management Council (Council). Amendment 1 was approved by the Council on July 13, 1989.

This notice is not part of the proposed Amendment 1. However, the Council has been requested by its industry advisory panel (AP) to develop alternative limited access systems for review by the industry by 1992. The fishery currently has more participants than are necessary to harvest the optimum yield (OY). Since the current fishing fleet is capable of harvesting the entire reef fish OY, additional fishing effort would lead to harvesting inefficiencies, more management constraints, and increased conservation risks. The Assistant Administrator for Fisheries, NOAA, has concurred that the Council begin to address this problem by developing additional controls on fishing effort. Such controls contemplated by the Council may include those that control access to the reef fish fishery.

To assist the Council, the Assistant Administrator has agreed to publish a notice in the **Federal Register** announcing that anyone entering the reef fish fishery after November 1, 1989, will not be assured of future participation should the Council develop, and the Secretary of Commerce implement, an effort control regime that limits the number of participants in the fishery. At its meeting of September 11-14, 1989, the Council voted to recommend this notice and adopted November 1, 1989, as the control date.

NMFS and the Council intend, in making this announcement, to discourage speculative entry into the reef fishery while potential entry or access control management regimes are discussed by the Council and possibly developed. If the Council decides to develop an access or entry control management regime, some fishermen who do not currently fish for reef fish in the Gulf of Mexico and have never done so may decide to enter the fishery for the sole purpose of establishing a record of making commercial landings of reef fish.

Such a record generally is considered indicative of economic dependence on the fishery. On this basis, the fishermen may successfully lay claim to access to a fishery that is otherwise limited to traditional participants. New entrants may have to buy the fishing rights or a permit from an existing participant. Hence, initial access to the fishery at little or no cost may result in a windall gain when selling an access right to a new entrant. This speculation often is responsible for a rapid increase in fishing effort in fisheries already fully or over-developed when management authorities begin to consider use of a limited access management regime. The original problems become exacerbated by those who seek possible windfall gain from the solutions being discussed. To help distinguish bona fide, established reef fish fishermen from speculative entrants to the fishery, a management authority may set a control date before discussions and planning of controlled access regimes begin. Fishermen are notified that entering the fishery after that date will not necessarily assure them of future access to the fishery resource on grounds of previous participation. Other qualifying criteria, such as holding a permit before the control date and documentation of commercial landings and sales, may be applied for entry.

This announcement establishes November 1, 1989, as a control date for potential use in determining historical or traditional participation in the Gulf of Mexico reef fish fishery. This action does not commit the Council or Secretary to any particular management regime or criterion for entry to the reef fish fishery. Fishermen are not guaranteed future participation in the reef fish fishery regardless of their date of entry or intensity of participation in the reef fish fishery before or after the control date. The Council may choose a different control date, or they may choose a management regime that does not make use of such a date. The Council may choose to give variably weighted consideration to fishermen in the fishery before and after the control date. The Council may choose also to take no further action to control entry or access to the fishery.

Authority: 16 U.S.C., 1801 *et seq.*

Dated: November 1, 1989.

James E. Douglas, Jr.

Acting Assistant Administrator for Fisheries.

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Intelligence Agency Advisory Board; Closed Meeting

AGENCY: Defense Intelligence Agency Advisory Board, DOD.

ACTION: Notice of closed meeting.

SUMMARY: Pursuant to the provisions of subsection (d) of section 10 of Public Law 92-463, as amended by section 5 of Public law 94-409, notice is hereby given that a closed meeting of a panel of the DIA Advisory Board has been changed as follows: The 14 November 1989 meeting has been rescheduled to the date, time and location listed below.

DATE: Wednesday, November 15, 1989 (10:00 a.m. to 3:00 p.m.).

ADDRESS: The Pentagon, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Lieutenant Colonel John E. Hatlelid, USAF, Executive Secretary, DIA Advisory Board, Washington, DC 20340-1328 (202/373-4930).

SUPPLEMENTARY INFORMATION: The entire meeting is devoted to the discussion of classified information as defined in section 552b(c)(1), title 5 of the United States Code and therefore will be closed to the public. Subject matter will be used in a special study on Intelligence Support to the U&S Commands.

Dated: November 1, 1989.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Defense Contract Audit Agency

Privacy Act of 1974; Amend a Record System Notice

AGENCY: Defense Contract Audit Agency (DCAA), DOD.

ACTION: Notice of an amended of a system of records for public comment.

SUMMARY: The Defense Contract Audit Agency proposes to amend a system of records subject to the Privacy Act of 1974 (5 U.S.C. 552a).

DATES: The proposed action will be effective without further notice on December 7, 1989, unless comments are received which would result in a contrary determination.

ADDRESS: Send any comments to Mr. Dave Henshall, ATTN: CMR, Defense Contract Audit Agency, Cameron Station, Alexandria, VA 22304-6178. Telephone (202) 274-4400.

SUPPLEMENTARY INFORMATION: The Defense Contract Audit Agency systems of records, as prescribed by the Privacy Act of 1974 (5 U.S.C. 552a), have been published in the **Federal Register** as follows:

50 FR 22884, May 29, 1985 (Compilation, changes follow)
51 FR 16017, May 16, 1986
54 FR 37360, Sep 8, 1989
54 FR 43316, Oct 24, 1989

The specific changes to the record system being amended are set forth below, followed by the system notice, as amended, published in its entirety. The notice is not within the purview of subsection (r) of the Privacy Act, 5 U.S.C. 552a, which requires the submission of an altered system report.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

November 1, 1989.

SYSTEM NAME:

Field Audit Office Management Information System (FMIS).

SYSTEM LOCATION:

Network Operations Branch, Workload and Trends Analysis Division, Headquarters, Defense Contract Audit Agency; DCAA regional offices; and DCAA field audit offices. Official mailing addresses are published as an appendix to DCAA's compilation of systems of record notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DCAA employees and contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records relating to audit work performed in terms of hours expended by individual employees, dollar amounts audited, exceptions reported, and net savings to the government as a result of those exceptions; records containing contractor and contract information; records containing requirements and program plan information; and records containing Social Security Numbers, pay grade and (optionally) address information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and E.O. 9397.

PURPOSE(S):

To provide managers and supervisors in field audit offices with timely, on-line, information regarding audit requirements, programs, and performance; and serve as the source of information to be entered and consolidated in the Agency Management Information System (AMIS).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

The "Blanket Routine Uses" that appear at the beginning of DCAA's compilation of systems of records apply to this system:

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM

STORAGE:

Records are maintained in automated data systems.

VOL 54 ISS 214 NOV 7 1989 UMI

RETRIEVABILITY:

Records are retrieved by organizational levels, name of employee, Social Security Number, office symbol, audit activity codes, or any other combination of these identifiers.

SAFEGUARDS:

Automated records are protected by restricted access procedures. Access to records is strictly limited to authorized officials with a bona fide need for the records.

RETENTION AND DISPOSAL:

Records are retained for two to five years and then destroyed by erasure.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Network Operations Branch, Workload and Trends Analysis Division, Headquarters, Defense Contract Audit Agency, Cameron Station, Alexandria, Virginia 22304–6178.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system of records contains information about themselves should address written inquiries to the Chief, Network Operations Branch, Workload and Trends Analysis Division, Headquarters, Defense Contract Audit Agency, Cameron Station, Alexandria, Virginia 22304–6178.

Individuals must furnish name; Social Security Number; approximate date of record; and geographic area in which consideration was requested for record to be located and identified. Official mailing addresses are published as an appendix to the DCAA's compilation of systems notices.

RECORD ACCESS PROCEDURE:

Individuals seeking access to records about themselves contained in this system of records should address written inquiries to the Chief, Network Operations Branch, Workload and Trends Analysis Division, Headquarters, Defense Contract Audit Agency, Cameron Station, Alexandria, Virginia 22304–6178. Official mailing addresses are published as an appendix to the DCAA's compilation of systems notices.

Individuals must furnish name; Social Security Number; approximate date of record; and geographic area in which consideration was requested for record to be located and identified.

CONTESTING RECORD PROCEDURE:

DCAA rules for accessing records and for contesting contents and appealing initial agency determinations by the individual concerned are published in DCAA Instruction Number 5410.10, "DCAA Privacy Act Program;" 32 CFR part 290a; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information, other than data directly related to individual employees, is obtained by field audit office supervisors from audit reports and working papers.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

CNO Executive Panel Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Advisory Committee Defense Subpanel Task Force will meet November 27, 1989 from 9 a.m. to 5 p.m., at 4401 Ford Avenue, Alexandria, Virginia. This session will be closed to the public.

The purpose of this meeting is to discuss policy and budgetary matters of immediate Navy interest. The entire agenda of the meeting will consist of dicussions of key issues regarding national security, maritime défense needs, defense policy, planning, and budgetary matters of immediate Navy interest. These matters constitute classified information that is specifically authorized by Executive Order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive Order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact: Faye Buckman, Secretary to the CNO Executive Panel Advisory Committee, 4401 Ford Avenue, Room 601, Alexandria, Virginia 22302–0268, Phone (703) 756–1205.

Dated: November 2, 1989.

BILLING CODE 3810–AE–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER90–38–000, et al.]

Energy Services, Inc., et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

October 31, 1989.

Take notice that the following filings have been made with the Commission:

1. Entergy Services, Inc.

[Docket No. ER90–38–000]

Take notice that Entergy Services, Inc. (Entergy Services), acting as agent for Arkansas Power & Light Company (AP&L) and Entergy Power, Inc. (Entergy Power) on October 26, 1989 tendered for filing a Power Coordination, Interchange and Transmission Service Agreement between Entergy Power and AP&L.

Entergy Services requests an effective date of the later of December 26, 1989, or the date certain required regulatory approvals are received from the Arkansas Public Service Commission and Securities and Exchange Commission. Entergy Services requests waiver of the Commission's notice requirements under § 35.11 of the Commission's Regulations, as may be required.

Comment date: November 14, 1989, in accordance with Standard Paragraph E at the end of this notice.

2. Georgia Power Co.

[Docket No. ER90–2–000]

Take notice that on October 24, 1989, Georgia Power Company (Georgia) tendered for filing copies of Article III of the Rate Computation Manual which were inadvertently omitted from its October 3, 1989, filing in this docket.

Comment date: November 14, 1989, in accordance with Standard Paragraph E at the end of this notice.

3. Pacific Gas and Electric Co.

[Docket No. ER90–37–000]

Take notice that on October 26, 1989, Pacific Gas and Electric Company (PG&E) tendered for filing a supplement to Rate Schedule FERC No. 84 (interconnection agreement between PG&E and the Northern California Power Agency [NCPA]. The supplement, dated July 28, 1989, is an agreement between PG&E and the City of Lodi, a member-city of NCPA and a signatory of the interconnection agreement. This agreement relates to a change in the point of interconection at the City of Lodi (from Killelea Substation to their new Industrial Substation) to accommodate increased load growth to PG&E's existing 60 kV system to accomodate the new interconnection point; operating details for this new substation; cost responsibility for tap line construction; and provisions for future upgrades and disconnection. In accordance with the terms of the agreement, PG&E has requested an effective date of July 28, 1989 for this supplement.

Copies of this filing have been served upon the City of Lodi, NCPA and the California Public Utilities Commission. In addition, copies of this filing are available for public inspection in a convenient form and place during normal business hours at PG&E's General Office in San Francisco and at PG&E's Sacramento Valley Regional Office in Sacramento.

Comment date: November 14, 1989, in accordance with Standard Paragraph E end of this notice.

4. Potomac Electric Power Co.

[Docket No. ER89–636–000]

Take notice that on October 13, 1989, Potomac Electric Power Company (PEPCO) tendered for filing additional information in response to staff's request for clarification of PEPCO's recent filing amending PEPCO FERC Rate Schedule No. 74.

Comment date: November 13, 1989, in accordance with Standard Paragraph E at the end of this notice

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. QF90–21–000]

Foster Wheeler Kauai, Inc.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

October 30, 1989.

On October 30, 1989, Foster Wheeler Kauai, Inc. filed with the Federal Energy Regulatory Commission an application for certification as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations.

According to the application, the cogeneration facility (the "Facility") has a net generation capacity of 16.5 MW. The Facility is constructed on a 2.713 acre site at Lihue, Kauai, Hawaii. The Facility consists of a bagasse and oil fired steam generator, a double extraction condensing steam turbine, deaerator, boiler feed pumps, feedwater heaters, waste fuel handling system, emission control equipment and other auxiliary equipment. The primary energy source is biomass in the form of bagasse and oil.

Any person desiring to be heard or objecting to the granting of qualifying status should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commissions Rules of Practice and Procedure. All such motions or protests must be filed no later than November 15, 1989, and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket Nos. CP90–124–000, et al.]

ANR Pipeline Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. ANR Pipline Co.

[Docket No. CP90–124–000]

October 30, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90–124–000 a request pursuant to §§ 157.205 and 284.223 of the Commission Regulations for authorization to transport natural gas for Consolidated Fuel Corporation (Consolidated), a marketer of natural gas, under ANR's blanket certificate issued in Docket No. CP88–532–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

ANR states that the transportation service will be provided pursuant to a transportation agreement dated March 2, 1989, wherein ANR proposes to transport natural gas on an interruptible basis for Consolidated. ANR states that it would receive the gas at ANR's existing points or receipt in the states of

VOL 54 NO 214 1989 ISS 7 UMI

Oklahoma, Louisiana, Texas and Kansas and the offshore Louisiana and Texas gathering areas and redeliver the gas for the account of Consolidated at existing interconnections located in the state of Ohio.

ANR proposes to transport on a peak day up to 30,000 dekatherms (dt), with an estimated average daily quantity of 30,000 dt. On an annual basis, ANR could transport up to 10,950,000 dt.

ANR also states that no construction of new facilities will be required to provide this transportation service.

ANR states that service for Consolidated under § 284.223(a) commenced September 6, 1989, as reported in Docket No. ST90–85–000.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

2. Northern Natural Gas Co., Division of Enron Corp.

[Docket No. CP90–133–000]

October 30, 1989.

Take notice that on October 26, 1989, Northern Natural Gas Company, Division of Enron Corp. (Northern), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251–1188, filed in Docket No. CP90–133–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Citizens Gas Supply Corporation (Citizens), a marketer of natural gas, under Northern's blanket certificate issued in Docket No. CP86–435–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern proposes to transport, on an interruptible basis up to 100,000 MMBtu equivalent of natural gas on a peak day, 75,000 MMBtu equivalent on an average day, and 36,500,000 MMBtu equivalent on an annual basis for Citizens. It is stated that Northern would receive the gas for Citizens' account at designated points on Northern's system and would deliver equivalent volumes at designated points on Northern's system. It is asserted that the service would be effected using existing facilities and would require no construction of additional facilities. It is explained that the transportation service commenced September 2, 1989, under the self-implementing authorization provisions of § 284.223 of the Commission's Regulations, as reported in Docket No. ST89–4821.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

3. Northwest Pipeline Corp.

[Docket No. CP90–135–000]

October 30, 1989.

Take notice that on October 26, 1989, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108 filed in Docket No. CP90–135–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Cyanco Company (Cyanco), under its blanket authorization issued in Docket No. CP86–578–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northwest would perform the proposed interruptible transportation service for Cyanco, an end user of natural gas, pursuant to a transportation agreement dated April 11, 1989, as amended July 13, 1989, under its Rate Schedule T1–1. The term of the transportation agreement is from April 11, 1989, and shall remain in full force and effect until May 1, 1990, and month to month thereafter, subject to termination upon 30 business days written notice to the other party. Northwest proposes to transport on a peak day up to 10,000 MMBtu; on an average day up to 100 MMBtu; and on an annual basis 36,500 MMBtu for Cyanco. Northwest proposes to transport the subject gas through its system from any transportation receipt point on its system to any transportation delivery point on its system. Northwest avers that no new facilities are required to provide the proposed service.

It is explained that the proposed service is currently being performed pursuant to the 120-day self-implementing provision of § 284.223(a)(1) of the Commission's Regulations. Northwest commenced such self-implementing service on September 22, 1989, as reported in Docket No. ST90–168–000.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

4. Moraine Pipeline Co.

[Docket No. CP90–111–000; Docket No. CP90–113–000]

October 30, 1989.

Take notice that on October 23, 1989, Moraine Pipeline Company (Moraine), 701 East 22nd Street, Lombard, Illinois, 60148, filed in Docket Nos. CP90–111–000 and CP90–113–000[1], requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act, to transport natural gas under its blanket certificate issued in Docket No. CP86–492, on behalf of Carnation Company (Carnation), an end-user, and BP Gas Marketing Company (BP Gas), all as more fully set forth in the request on file with the Commission and open to public inspection.

Moraine indicates in Docket No. CP90–111–000 that service commenced September 1, 1989, as reported in Docket No. ST89–4857 and estimates the volumes transported to be 1,800 MMBtu per day on a peak day and average day, plus 657,000 MMBtu on an annual basis for Carnation. The receipt point is the interconnection between Natural Gas Pipeline Company of America (NGPL) and Moraine located at Grayslake in Lake County, Illinois and the delivery point is the interconnection between Moraine and Wisconsin Natural Gas Company (WNG) in Kenosha County, Wisconsin, it is stated.

Moraine indicates in Docket No. CP90–113–000 that service commenced September 8, 1989, as reported in Docket No. ST90–193 and estimates the volumes transported to be 150,000 MMBtu on a peak day, 25,000 MMBtu on an average day, and 9,125,000 MMBtu on an annual basis for BP Gas. Moraine would also transport any additional volumes accepted pursuant to the overrun provisions of its Rate Schedule (FTS). The receipt point is the interconnection between NGPL and Moraine located at Grayslake in Lake County, Illinois and the delivery point is the interconnection between Moraine and WNG, it is stated.

Moraine also states that no new facilities are to be constructed.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

5. ANR Pipeline Co.

[Docket No. CP90–119–000]

October 30, 1989.

Take notice that on October 24, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90–119–000, a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act, to transport natural gas under its blanket certificate issued in Docket No. CP86–532–000, on behalf of Entrade Corp. (Entrade), a marketer, all as more fully set forth in the request on file with the Commission and open to public inspection.

ANR indicates in Docket No. CP90–119–000 that service commenced September 1, 1989, as reported in Docket No. ST90–66–000 and estimates the volumes transported to be 100,000 dth per day on a peak day and average day, plus 36,500,000 dth on an annual basis for Entrade. ANR indicates that it will receive the gas at its existing point of receipt located in the states of Oklahoma, Louisiana, Kansas, and Texas and the Offshore Texas and Louisiana gathering areas and redeliver the gas for the account of Entrade at existing interconnections located in the state of Indiana.

ANR also states that no new facilities are to be constructed.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

6. ANR Pipeline Co.

[Docket No. CP90–127–000]

October 30, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90–127–000 a request pursuant to Section 157.205 of the Commission's Regulations (18 CFR 157.205) for authorization to transport natural gas on behalf of End Users Supply System (End Users), a marketer of natural gas, under ANR's blanket certificate issued in Docket No. CP86–532–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

ANR proposes to transport on an interruptible basis up to 25,000 dt equivalent on a peak day for End Users, 25,000 dt equivalent on an average day and 9,125,000 dt equivalent on an annual basis for End Users. It is stated that ANR would receive the gas at designated points on ANR's system in Oklahoma, Kansas, Texas, Louisiana, offshore Texas, offshore Louisiana, Wisconsin, and Ohio, and would deliver equivalent volumes at designated points on ANR's system in Illinois. It is asserted that the transportation would be effected using existing facilities and that no construction of additional facilities would be required. It is explained that the transportation service commenced September 7, 1989, under the self-implementing authorization of § 284.223 of the Commission's Regulations, as reported in Docket No. ST90–83.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

7. ANR Pipeline Co.

[Docket No. CP90–117–000]

October 30, 1989.

Take notice that on October 24, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90–117–000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Southern Gas Company (Southern), under the blanket certificate issued in Docket No. CP88–532–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

ANR states that pursuant to a Transportation Agreement dated August 22, 1989, it proposes to transport, on an interruptible basis, up to a maximum of 20,000 dth of natural gas for Southern under Rate Schedule ITS. ANR states that it would receive the gas at ANR's existing points of receipt located in offshore Texas gathering area and redeliver the gas for the account of Southern at existing interconnections located in offshore Texas gathering area.

ANR also states that will transport approximately 20,000 dth on an average day and approximately 7,300,000 dth on an annual basis.

ANR further states that it commenced this service on September 1, 1989, as reported in Docket No. CP90–49–000.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

8. Texas Gas Transmission Corp.

[Docket No. CP90–121–000]

October 30, 1989.

Take notice that on October 24, 1989, Texas Gas Transmission Corporation (Texas Gas), 300 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP90–121–000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of PSI, Inc. (PSI), under the blanket certificate issued in Docket No. CP88–686–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Texas Gas states that pursuant to a Transportation Agreement dated December 27, 1988, it proposes to transport, on an interruptible basis, up to a maximum of 50,000 MMbtu of natural gas for PSI under Rate Schedule IT.

Texas Gas also states that it will transport approximately 25,000 MMbtu and approximately 9,125,000 MMbtu on an annual basis.

Texas Gas further states that it commenced this service on September 13, 1989, as reported in Docket No. ST90–13–000.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

9. ANR Pipeline Co.

[Docket No. CP90–126–000]

October 30, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90–126–000, a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide a transportation service for Hunt Petroleum Corporation (Hunt), a marketer, under ANR's blanket certificate issued in Docket No. CP88–532–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

ANR states that the transportation service would be provided pursuant to a transportation agreement wherein ANR proposes to transport up to 10,000 dekatherms (dt) per day equivalent of natural gas, on an interruptible basis, for Hunt. ANR further states that it would receive the natural gas at ANR's existing points of receipt located in the offshore Louisiana gathering area and would redeliver the natural gas for the account of Hunt at existing interconnections located in the state of Louisiana. ANR indicates that the average day and annual volumes of natural gas to be transported would be 10,000 dt and 3,650,000 dt, respectively.

ANR states that service under § 284.223(a) of the Commission's Regulations (18 CFR 284.223(a)) commenced on September 1, 1989, as reported in Docket No. ST90–47–000.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

10. Stingray Pipeline Co.

[Docket No. CP90–109–000]

October 30, 1989.

Take notice that on October 23, 1989, Stingray Pipeline Company (Stingray), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP90–109–000

[1] These dockets are not consolidated.

VOL 54 ISS 214 NO 7 1989 UMI

a request pursuant to § 157.205 of the Commission's Regulations (18 CFR 157.205) for authorization to transport natural gas for Unicorp Energy, Inc. (Unicorp), a marketer of natural gas, under Stingray's Order No. 509 blanket authorization pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Stingray states that it would transport, on an interruptible basis, up to 150,00 MMBtu equivalent of natural gas on a peak day, 100,000 MMBtu equivalent on an average day and 36,500,000 MMBtu equivalent on an annual basis. It is stated that Stingray would receive the gas receipt points on Stingray's system in Louisiana, offshore Louisiana and offshore Texas and would deliver equivalent volumes of gas in Louisiana and offshore Texas. It is further stated that the transportation service would be effected using existing facilities and would require no construction of additional facilities. It is explained that the transportation service commenced October 1, 1989, under the automatic authorization provisions of § 284.223 of the Commission's Regulations.

Comment date: December 14, 1989, in accordance with Standard Paragraph G at the end of this notice.

11. Arkla Exploration Co.

Mississippi River Transmission Corp.

[Docket No. CI89-527-000; Docket No. CP89-2043-000]

October 31, 1989.

Take notice that on August 31, 1989, Arkla Exploration Company (Arkla) of 525 Milam Street, Shreveport, Louisiana 71102-3523, and Mississippi River Transmission Corporation (MRT) of 9900 Clayton Road, St. Louis, Missouri 63124, filed a joint application pursuant to section 7 of the Natural Gas Act and the Federal Energy Regulatory Commission's (Commission) regulations thereunder for (1) a certificate of public convenience and necessity authorizing Arkla to make sales of natural gas to MRT, as total successor to MRT, from production properties located in Bossier Parish, Louisiana, and (2) authorization for MRT to abandon by transfer to Arkla these production properties and related facilities which are used in the sale of the natural gas, all as more fully set forth in the request on file with the Commission and open to public inspection.

Applicants state that MRT proposes to transfer these properties to Arkla effective as of the date all necessary regulatory requirements have been satisfied. The gas from the properties has been transferred internally within MRT for use as part of its system supply. Arkla now proposes to make sales from the subject properties to MRT pursuant to a contract between Arkla and MRT dated January 1, 1989. According to Applicants, the gas from the subject properties qualifies for pricing as NGPA section 104 replacement contract gas.

Comment date: November 20, 1989, in accordance with Standard Paragraph J at the end of this notice.

12. ANR Pipeline Co.

[Docket No. CP90-128-000]

October 31, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90-128-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Northwestern Mutual Life Insurance Company (Northwestern), a marketer, under its blanket authorization issued in Docket No. CP88-532-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

ANR would perform the proposed interruptible transportation service for Northwestern, pursuant to an interruptible transportation service agreement dated April 27, 1988. The transportation agreement is effective for a term until 120 days from the day of initial deliveries, and thereafter until December 31, 1995, and month to month thereafter until terminated by either party on thirty days written notice. ANR proposes to transport approximately 11,200 dth natural gas on a peak and average day; and on an annual basis 4,088,000 dth of natural gas for Northwestern. ANR proposes to receive the subject gas at existing points of receipt located in West Cameron Area Blocks 167 and 314, Offshore Louisiana, and High Island Area Blocks A-345, A-571 and A-573, Offshore, Texas. ANR states that it will redelivered the gas for the account of Northwestern at existing points of interconnection located in the state of Michigan.

It is explained that the proposed service is currently being performed pursuant to the 120-day self-implementing provision of § 284.223(a)(1) of the Commission's Regulations. ANR commenced such self-implementing service on September 12, 1989, as reported in Docket No. ST90-133-000.

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

13. ANR Pipeline Co.

[Docket No. CP90-129-000]

October 31, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90-129-000 a request pursuant to § 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service for Tarpon Gas Marketing, Ltd. (Tarpon), a marketer of natural gas, under its blanket certificate issued in Docket No. CP88-532-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

ANR states that it would receive the gas at existing points of receipt in Louisiana, Illinois, Ohio, Indiana, Wisconsin, Michigan, offshore Texas and offshore Louisiana and would redeliver the gas for the account of Tarpon at existing interconnections located in Michigan.

ANR further states that the maximum daily, average daily and annual quantities that it would transport for Tarpon would be 74,627 dt equivalent of natural gas, and 27,239,090 dt equivalent of natural gas, respectively.

ANR indicates that in a filing made with the Commission in Docket No. ST90.58, reported that transportation service for Tarpon commenced on September 1, 1989 under the 120-day automatic authorization provisions of § 284.223(a).

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

14. ANR Pipeline Co.

[Docket No. CP90-125-000]

October 31, 1989.

Take notice that on October 25, 1989, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90-125-000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to provide an interruptible transportation service for Tarpon Gas Marketing, Ltd. (Tarpon), a marketer of natural gas, under its blanket certificate issued in Docket No. CP88-532-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

ANR states that it would receive the gas at existing points of receipt in Louisiana, Illinois, Ohio, Indiana, Wisconsin, Michigan, offshore Texas and offshore Louisiana and would redeliver the gas for the account of Tarpon at existing interconnections located in Louisiana and Michigan.

ANR further states that the maximum daily, average daily and annual quantities that it would transport for Tarpon would be 59,701 dt equivalent of natural gas, 59,701 dt equivalent of natural gas and 21,791,000 dt equivalent of natural gas, respectively.

ANR indicates that in a filing made with the Commission in Docket No. ST90-57, it reported that transportation service for Tarpon commenced on September 1, 1989 under the 120-day automatic authorization provisions of § 284.223(a).

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

15. United Gas Pipe Line Co.

[Docket No. CP90-151-000]

October 31, 1989.

Take notice that on October 27, 1989, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP90-151-000, a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service on behalf of Victoria Gas Corporation (VICTORIA), a marketer of natural gas, under United's blanket certificate issued in Docket No. CP88-6-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

United states that it would transport a maximum daily quantity of 103,000 MMBtu for VICTORIA pursuant to an Interruptible Gas Transportation Agreement, dated July 14, 1988, as amended August 28, 1989, between United and VICTORIA. United further states that it would receive the natural gas at existing points of receipt in offshore Louisiana and in the states of Louisiana, Mississippi and Texas and would redeliver the natural gas at existing points of delivery in the states of Alabama, Florida, Texas, Louisiana and Mississippi. United indicates that the estimated average day and annual quantities to be transported for VICTORIA would be 103,000 MMBtu and 37,595,000 MMBtu, respectively.

United states that it commenced the transportation of natural gas for VICTORIA on August 31, 1989, as reported in Docket No. ST90-34-000, for a 120-day period pursuant to § 284.223(a) of the Commission's Regulations (18 CFR 284.223(a)).

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

16. Southern Natural Gas Co.

[Docket No. CP90-116-000]

October 31, 1989.

Take notice that on October 23, 1989, Southern Natural Gas Company (Southern), Post Office Box 2563, Birmingham, Alabama 35202-2563, filed a request with the Commission in Docket No. CP90-116-000 pursuant to § 157.205 of the Commission's Regulations under the Natural Gas (NGA) for authorization to provide interruptible transportation service to Hadson Gas Systems, Inc. (Hadson), under its blanket certificate issued in Docket No. CP88-316-000 pursuant to section 7 of the NGA, all as more fully set forth in the request on file with the Commission and open to public inspection.

Southern states that it would transport natural gas volumes under its Rate Schedule IT from various receipt points on its system in Alabama, Louisiana, offshore Louisiana, Mississippi, Texas, and offshore Texas to a delivery point in Refugio County, Texas. Southern would transport up to 100,000 MMBtu equivalent of natural gas on a peak day, 31,200 MMBtu equivalent on an average day, and 11,388,000 MMBtu equivalent on an annual basis for Hadson.

Southern states that it commenced service for Hadson on September 6, 1989, as reported in Docket No. ST89-4863-000 pursuant to § 284.223 (a) (1) of the Regulations.

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

17. Transcontinental Gas Pipe Line Corp.

[Docket No. CP90-117-000]

October 31, 1989.

Take notice that on October 26, 1989, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed in Docket No. CP90-117-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport gas for Citizens Gas Supply Company (Citizen), a natural gas marketer, under Transco's blanket certificate issued in Docket No. CP88-328-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Pursuant to a transportation service agreement dated July 11, 1989, Transco requests authority to transport up to 250,000 Dt. of natural gas per day, on an interruptible basis, on behalf of Citizen. Transco states that the agreement provides for it to receive the subject gas at various existing receipt points located in Mississippi, offshore Louisiana, and offshore Texas and to redeliver it to various existing delivery points located in Louisiana and Texas. Citizen has informed Transco that it expects to have only 20,000 Dt. of gas transported on an average day and that it estimates that 27,375,000 Dt. of gas would be transported annually. Transco advises that the transportation service commenced on August 30, 1989, as reported in Docket No. ST89-4764, pursuant to § 284.223 of the Commission's Regulations.

Comment date: December 15, 1989, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion

VOL 54 ISS 214 NO 7 1989 UMI

believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

J. Any person desiring to be heard or make any protest with reference to said filings should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

[FR Doc. 89-26164 Filed 11-6-89; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. RP90-12-001 and RP90-12-002]

Colorado Interstate Gas Co.; Filings

October 31, 1989.

Take notice that on October 24, 1989, Colorado Interstate Gas Company (CIG) filed in Docket No. RP90-12-001, Substitute Original Sheet No. 31A to its FERC Gas Tariff, Second Revised Volume No. 1-A, to be effective October 17, 1989. CIG requests that this tariff sheet be substituted for Original Sheet No. 31A filed on October 17, 1989, which had a section inadvertently omitted.

Take further notice that on October 25, 1989, CIG filed in Docket No. RP90-12-002, Substitute Second Revised Sheet No. 19 to its FERC Gas Tariff, Second Revised Volume No. 1-A, to be effective October 17, 1989. CIG requests that this tariff sheet replace Second Revised Sheet No. 19 filed on October 17, 1989, which contained a word processing error.

Any person desiring to protest said filings should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211 (1988)). All such protests should be filed on or before November 7, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 89-26165 Filed 11-6-89; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TC90-2-000]

Eastern Shore Natural Gas Co.; Tariff Filing

October 30, 1989.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) filed, on October 4, 1989, the following revised tariff sheet to Original Volume No. 1 of Eastern Shore's FERC Gas Tariff, to be effective November 1, 1989: Eleventh Revised Sheet No. 424.

Eastern Shore states that the purpose of the filing is to reflect changes in Priority Two Entitlements approved by the Data Verification Committee.

Eastern Shore states that copies of the filing have been mailed to each of Eastern Shore's customers and interested State Commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should on or before November 9, 1989, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Secretary.

[FR Doc. 89-26165 Filed 11-6-89; 8:45 am]

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Issuance of Proposed Decision and Order by the Office of Hearings and Appeals; Period of July 31 through October 13, 1989

During the period of July 31 through October 13, 1989, the proposed decision and order summarized below was issued by the Office of Hearings and Appeals of the Department of Energy with regard to an application for exception.

Under the procedural regulations that apply to exception proceedings (10 CFR part 205, subpart D), any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of this proposed decision and order are available in the Public Reference Room of the Office of Hearings and Appeals, Room 1E-234, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except Federal holidays.

Dated: October 27, 1989.

Georgs B. Rozsnay,

Director, Office of Hearings and Appeals.

Castle Oil Company, 10/10/89, Case No. KEE-0179

Castle Oil Company (Castle) filed an Application for Exception from the requirement that it file Form EIA-782B, entitled "Reseller/Retailer's Monthly Petroleum Product Sales Report." If the exception request were granted, Castle would not be required to file Form EIA-782B. On October 10, 1989, the DOE issued a Proposed Decision and Order which tentatively denied Castle's application for exception relief.

[FR Doc. 89-26194 Filed 11-6-89; 8:45 am]

BILLING CODE 6450-01-M

Issuance of Decisions and Orders by the Office of Hearings and Appeals; Week of August 28 Through September 1, 1989

During the week of August 28 through September 1, 1989, the decisions and orders summarized below were issued with respect to appeals and applications for other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Don Devereux, 8/29/89, KFA-03072

Mr. Don Devereux filed an Appeal from a partial denial by the Office of International Affairs and Energy Emergencies (OIE) of the Department of Energy of a Request for Information which he submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the OIE's search for documents responsive to Mr. Devereux's request was adequate and that no such documents exist that are in the possession of the DOE. Accordingly, Mr. Devereux's Appeal was denied.

Frensley & Towerman, 8/29/89, KFA-0311

Frensley & Towerman (Frensley) filed an Appeal from a denial by the Deputy Director, Office of Intergovernmental and External Affairs (Authorizing Official), Albuquerque Operations Office (AOO) of the Department of Energy (DOE) of a request for the documents under the Freedom of Information Act (FOIA). Frensley asserted that the Authorizing Official had improperly withheld five documents under Exemption 5 of the FOIA. Frensley also challenged the adequacy of the search. In considering the Appeal, the DOE found that the Authorizing Official had properly withheld the five responsive documents, found during a search of the AOO Management Support Division, under Exemption 5 of the FOIA. However, the DOE remanded three of these documents to the AOO for a determination whether certain factual information was segregable from the deliberative information in those documents.

Sutin, Thayer & Browne, 8/28/89, KFA-0309

Sutin, Thayer & Browne filed an Appeal from a denial by the Director, DOE Office of Safeguards and Security, of a Request for Information which it had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the documents at issue were properly withheld under Exemption 2. The major issues considered in the Decision and Order involved whether the DOE's Personnel Security Interview Manual was primarily an internal agency document and whether disclosure of the withheld portions of the manual would create a significant risk of circumvention of DOE regulations and statutes.

Refund Applications

Amtel, Inc./Whitco, Inc., RF46-24, Amtel, Inc./Internal Revenue Service, 8/29/89, RF46-57

The DOE issued a Decision and Order in the Amtel, Inc. special refund proceeding concerning an Application for Refund filed by Whitco, Inc., a reseller of motor gasoline and diesel fuel purchased from Amtel. The DOE found that Whitco had incurred a disproportionate share of Amtel's alleged overcharges and that it had been injured by the alleged overcharges. Accordingly, the DOE determined that Amtel was entitled to a refund above the volumetric refund level with respect to its purchases from Amtel, but not with respect to that part of its allocation that Whitco had not purchased because of its high price. Since the Amtel consent order amount was equivalent to 22.7 percent of the total amount of overcharges alleged against the firm, the DOE further determined that Whitco was entitled to a refund equivalent to 22.7 of the Amtel alleged overcharges that it had incurred. Accordingly, the DOE concluded that Whitco was entitled to a refund of $139,197.88 (including interest). However, because the DOE had been served with a Notice of Levy by the Internal Revenue Service with respect to federal excise taxes owed by Whitco, the Decision and Order directs the DOE Controller to send $122,933.26 of Whitco's refund to the IRS.

Atlantic Richfield Company/Lorraine Oil Company, et al., 8/28/89, RF304-7205, et al.

The DOE issued a Decision and Order concerning 13 Applications for Refund filed by resellers or retailers of refined petroleum products that were covered by a consent order that the DOE entered into with Atlantic Richfield Company. Each of the applicants submitted information indicating its volume of purchases from ARCO during the consent order period. Each claimant elected to limit its claim(s) on the basis of the 41 percent presumption of injury methodology and was eligible for a refund below the $50,000 ceiling. The sum of the refunds approved in this Decision is $142,233, representing $107,923 in principal and $34,310 in accrued interest.

Crown Central Petroleum Corporation/ Hanover Crown, et al., 8/28/89, RF313-224, et al.

The DOE issued a Decision and Order considering applications filed by 16 purchasers of Crown refined petroleum products in the Crown Central Petroleum Corporation special refund proceeding. Each applicant was found to be eligible for a refund based on the volume of products it purchased from Crown. The refund applications were granted using a presumption of injury procedure set forth in Crown Central Petroleum Corp., 18 DOE ¶ 85,320 (1988). The total amount of refunds approved in this Decision was $154,799, representing $130,193 in principal plus $24,606 in accrued interest.

Esleeck Manufacturing Co., Inc., RF272-4760, RD272-4760, Wausau Paper Mills Co., RF272-4790, RD272-4790, Fitchburg Paper Division, 8/30/89, RF272-5189, RD272-5189.

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to Esleeck Manufacturing Co., Inc., Wausau Paper Mills Co., and Fitchburg Paper Division based on their respective purchases of refined petroleum products during the period from August 19, 1973 through January 27, 1981. Each applicant used the products in their paper manufacturing activities, and each determined its claim by consulting actual purchase records. Each applicant was an end-user of the products it claimed and was therefore presumed injured. A consortium of 29 states and two territories filed Statements of Objections and Motions for Discovery

VOL 54 ISS 214 NO 7 1989 UMI

with respect to each applicant. The DOE found that the states' filings were insufficient to rebut the presumption of injury for end-users. Therefore, the Applications for Refunds were granted and the Motions for Discovery were denied. The sum of the refunds granted is $54,666.

Exxon Corporation/A.D. Raibourn Exxon et al., 8/29/89, RF307–3484 et al.

The Office of Hearings and Appeals of the Department of Energy issued a Decision and Order granting 50 Applications for Refund from consent order funds obtained from Exxon Corporation. Each applicant was a reseller that sought a refund of less than $5,000 or an end-user, and was therefore presumed to have suffered injury as a result of Exxon's alleged overcharges. The sum of the refunds granted is $34,051.

Exxon Corporation/Chesapeake Corp. et al., 9/1/89, RF307–737 et al.

The DOE issued a Decision and Order concerning nine Applications for Refund filed in the Exxon Corporation special refund proceeding. Each firm purchased directly from Exxon and was a reseller of Exxon products. Each firm's allocable share exceeds $5,000. Instead of making an injury showing to receive its full allocable share, each applicant chose to accept $5,000 or 40 percent of its allocable share, whichever is greater. The sum of the refunds granted in this Decision is $110,835 ($91,018 principal and $19,817 interest).

Exxon Corporation/Cracker Barrel Oil Country Store et al., RF307–8717 et al.

The Office of Hearings and Appeals of the Department of Energy issued a Decision and Order granting 45 Applications for Refund from consent order funds obtained from Exxon Corporation. Each applicant was a reseller that sought a refund of less than $5,000 or an end-user, and was therefore presumed to have suffered injury as a result of Exxon's alleged overcharges. The sum of the refunds granted is $39,557.

Exxon Corporation/Edward L. Singletary et al., 9/1/89, RF307–7500 et al.

The DOE issued a Decision and Order concerning 64 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was a retailer of Exxon products whose allocable share is less than $5,000, or an end-user. The DOE determined that each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $40,599 ($33,342 plus $7,257 interest).

Exxon Corporation/Elmer's Exxon et al., 8/3/89, RF307–2202 et al.

The DOE issued a Decision and Order concerning 25 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was a retailer of Exxon products whose allocable share is less than $5,000, or an end-user. The DOE determined that each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $23,284 ($19,121 principal plus $4,163 interest).

Exxon Corporation/Kenway Esso/ Exxon et al., 8/28/89, RF307–428 et al.

The DOE issued a Decsion and Order concerning 20 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was a retailer of Exxon products whose allocable share is less than $5,000. All of the applicants disagreed with the gallonage information recorded on their Exxon volume sheets, and submitted alternative gallonage figures from their own records which the DOE accepted. The DOE determined that each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $20,154 ($16,551 principal plus $3,603 interest).

Exxon Corporation/Passaic Valley Exxon et al., 8/30/89, RF307–82 et al.

The DOE issued a Decsion and Order concerning four Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was either a reseller whose allocable share is less than $5,000 or an end-user of Exxon products. The DOE determined that each applicant was eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $885 ($728 principal plus $157 interest).

Exxon Corporation/Reynolds Service Center et al., 8/28/89, RF 307–912 et al.

The DOE issued a Decision and Order concerning eight Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was either a reseller whose allocable share is less than $5,000 or an end-user of Exxon products. The DOE determined that each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $5,653 ($4,642 principal plus $1,011 interest).

Exxon Corporation/Ripple Oil Company, 9/1/89, RF307–909.

The DOE issued a Decision and Order concerning an Application for Refund filed on behalf of Ripple Oil Company, Inc. in the Exxon Corporation special refund proceeding. The firm purchased directly from Exxon and was a reseller of Exxon products. The firm's allocable share exceeds $5,000. Instead of making an injury showing to receive its full allocable share, Ripple chose to accept $5,000 or 40 percent of its allocable share, whichever is greater. In this case, $5,000 is greater. Therefore the amount of the refund granted in this Decision is $8,509 ($5,000 principal and $1,509 interest).

Exxon Corporation/Sandusky Store et al., 9/1/89, RF307–7400 et al.

The DOE issued a Decision and Order concerning 56 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased directly from Exxon and was a retailer of Exxon products whose allocable share is less than $5,000, or an end-user. The DOE determined that each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $53,671 ($44,076 principal plus $9,595 interest).

Gulf Oil Corporation/Carter Machinery Company, et al., 8/30/89, RF300–9536, et al.

The DOE issued a Decision and Order concerning 13 Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including accrued interest, is $34,466.

Gulf Oil Corporation/Chemical Leaman Tank Lines, Inc., et al., 8/30/89, RF300–10061, et al.

The DOE issued a Decision and Order concerning 10 Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including accrued interest, is $40,225.

Gulf Oil Corporation/Dave's Gulf Service, et al., 8/31/89, RF300–8831, et al.

The DOE issued a Decision and Order concerning 15 Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including interest, is $28,938.

Gulf Oil Corporation/Lunsford Oil Co., Inc. et al., 9/1/89, RF300–637 et al.

The DOE issued a Decision and Order concerning five Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. The Applications were approved using a presumption of injury. The sum of the refunds granted in this Decision, which includes both principal and interest, is $9,450.

Gulf Oil Corporation/Ranger Fuel Corporation, et al., 8/29/89, RF300–8877, et al.

The DOE issued a Decision and Order concerning five Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including interest, is $8,758.

Kloster Cruise A/S, RF272–0294, Carnival Cruise Lines, Inc., RF272–0340, P&O Lines Ltd., 8/31/89, RF272–16374.

Kloster Cruise A/S, Carnival Cruise Lines, Inc., and P&O Lines Ltd. (collectively "the Applicants"), three foreign-owned cruise ship lines operating out of U.S. ports, filed Applications for Refund based upon their purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981 (price control period). A group of thirty States and two territories of the United States (collectively "the States") filed objections opposing the receipt of refunds by the Applicants, on the basis that: (1) As a matter of law, foreign firms were never intended that: (1) As a matter of law, foreign firms were never intended to benefit under DOE's price control program and, consequently, cannot claim refunds, and (2) ocean carriers in foreign commerce conventionally added bunker fuel surcharges to their rates to recoup increased fuel costs and thus, as a factual matter, were not injured as a result of crude oil overcharges. The States further argued that, in any event, the ocean carriers are not entitled to refunds with respect to bunker fuel purchased in the Panama Canal Zone. In considering the States' objections, the DOE determined that the Applicants should not be denied refunds simply by virtue of their foreign status and that the States' assertions regarding the pass through of costs by the Applicants were incorrect. The DOE further found that the Applicants had not claimed refunds with respect to any purchases made in the Panama Canal Zone. Accordingly, the respective Applications for Refund were approved. The total refund amount granted in this Decision is $247,328.

Mountain States Telephone & Telegraph, 8/30/89, RF272–61304.

Mountain States Telephone & Telegraph, a telephone utility, filed an Application for Refund in the subpart V crude oil refund proceedings. A group of seventeen states (the States) filed objections to Mountain's application, claiming that Mountain was not an injured end-user. The States also claimed that Mountain should not be permitted to act as a conduit for the distribution of refund benefits to its customers. The DOE rejected the States' arguments, finding that Mountain, as a telephone utility, is considered an ordinary end-user of refined petroleum products. Therefore, the DOE found that Mountain is entitled to receive a refund using the end-user presumption of injury, and that it will not be required to pass through this refund to its customers. Accordingly, Mountain's application was approved and a refund of $88,360 was granted.

Rollings Farms, RF272–7284, Fred L. Morgan, RF272–7284, James Roy Hawkins, 8/31/89, RF272–7932.

The DOE issued a Decision and Order granting refunds from crude oil overcharge funds to three applicants based on their respective purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. Each applicant used the products for various agricultural activities, and each determined its claim either by consulting actual purchase records or by estimating its consumption based on the acres it farmed. Each applicant was an end-user of the products it claimed and was therefore presumed by the DOE to have been injured. The sum of the refunds granted in this Decision is $568. All of the claimants will be eligible for additional refunds as additional crude oil overcharge funds become available.

Dismissals

The following submissions were dismissed:

Name	Case No.
Brigman's Exxon	RF307–2290.
Dale Tomquist	RF272–52690.
Herbert P. Widdifield, Jr.	RF300–2045.
Lee Gene Center	RF300–725.

Copies of the full text of these decisions and orders are available in the Public Reference Room of the Office of Hearings and Appeals, Room 1E–234, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–3678–5]

Risk Assessment Forum Report on Toxicity Equivalency Factors for Chlorinated Dibenzo-p-Dioxins and Dibenzofurans

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice of availability of risk assessment forum report.

SUMMARY: This notice announces the availability of an EPA Risk Assessment Forum report entitled 'Toxicity Equivalency Factors (TEFs) for Estimating Risks Associated with Exposures to Mixtures of Chlorinated Dibenzo-p-Dioxins and -Dibenzofurans (CDDs/CDFs) and 1989 Update" (EPA-625/3–89/016). The first part of this two-part report re-publishes the TEF scheme published by the Agency in 1987 (EPA/625/3–87/012); the second part describes EPA;'s adoption in 1989 of TEF values now used internationally, some of which differ from TEF values published in EPA's 1987 report. This revision of the 1987 TEFs is based on EPA's examination of the relevant scientific evidence and recognition of the value of internation consistency in the field.

ADDRESS: To obtain a copy of the document, intersted parties should contact the ORD Publications Office, CERI–FRN, U.S. Environmental Protection Agency, 26 West Martin Luther King Drive, Cincinnati, OH 45268, (513) 569–7562 (FTS: 684–7562). Copies

FOR FURTHER INFORMATION CONTACT: Bette Cantor, Technical Liaison, Risk Assessment Forum, (202) 475–6743.

SUPPLEMENTARY INFORMATION: In the spring of 1987, EPA's Risk Assessment Forum published a report entitled "Interim Procedures for Estimating Risks Associated with Exposures to Mixtures of Chlorinated Dibenzo-p-Dioxins and -Dibenzofurans (CDDs/CDFs)." This report outlined the toxicity equivalency factor (TEF) method and recommended that EPA use this method, on an interim basis, in risk assessments involving mixtures of CDDs and CDFs. Upon recomendation of EPA's Risk Assessment Council, the Agency formally adopted this interim TEF procedure. It has been used by EPA to address a variety of environmental contamination incidents involving CDDs and CDFs.

The TEF method is an interim procedure for assessing the risks associated with exposure to complex mixtures of CDDs and CDFs. CDDs and CDFs constitute a family of 210 structurally-related chemical compounds, including 2,3,7,8-tetrachlorodibenzo-p-dioxin, (2,3,7,8-TCDD). Mixtures of these chemicals can be found in incinerator fly ash, hazardous wastes, contaminated soils, and biological media. The TEF procedure uses a set of toxicity equivalency factors to convert the concentration of any CDD or CDF congener into an equivalent concentration of 2,3,7,8-TCDD, the most highly studied congener. Thus, the TEF procedure allows information on a known chemical to be used in assessing related chemicals where little or no data exist. This, in turn, permits the assessment of both carcinogenic and noncarcinogenic risks involving exposures to mixtures of CDDs and CDFs.

In its 1987 report, the Agency emphasized that the method was interim in nature, urged collection of more definitive experimental data, and committed itself to periodic reviews as additional toxicity data were generated.

Also during the past decade, various regulatory agencies in the United States, Canada and Europe developed their own TEF schemes. As a result, numerous slightly different TEF methods existed. As a result, numerous slightly different TEF methods existed. This complicated communication among scientists and agencies in addressing the toxicological significance of complex mixtures of CDDs and CDFs.

To address this issue, the Agency led a six-nation project under the auspices of NATO which was aimed at adopting a common, international set of TEFs for assessing risks of contamination involving CDDs and CDFs. The Forum report issued today, "Interim Procedures for Estimating Risks Associated with Exposures to Mixtures of Chlorinated Dibenzo-p-Dioxins and -Dibenzofurans (CDDs and CDFs) and 1989 Update," is based on that effort. Most importantly, EPA has adopted the NATO International TEFs/89 (I–TEFs/89), some of which differ from the EPA–TEFs/87 currently in use. Like the original scheme, I–TEFs are based on available scientific data and recognition of the value of international consistency in the field. The Forum report presents the rationale, methodology, and toxicity data used to determine certain new TEF values and describes differences between the 1987 and 1989 figures. In general, the effect of the modifications is likely to be modest for most complex mixtures.

The I–TEFs/89 represent an improvement in an already useful risk assessment tool. However, the approach remains interim in nature and should be replaced with relevant experimental data as such data become available. Promising progress is being made in this area.

Dated: October 31, 1989.

Erich Bretthauer,

Acting Assistant Administrator for Research and Development.

Title: Section 90.38(b)—Physically Handicapped "Special Eligibility Showing".
Action: Extension.
Respondents: Individuals or households.
Frequency of Response: On occasion.
Estimated Annual Burden: 20 Responses; 7 Hours.
Needs and Uses: Section 90.38(b) provides that persons claiming eligibility in the Special Emergency Radio Service on the basis of being physically handicapped must present a physician's statement indicating that they are handicapped. Submission of this information is necessary to ensure that frequencies reserved for licensing to handicapped individuals are not licensed to non-handicapped persons. The Commission uses the information to determine the eligibility of applicants for licenses on specific frequencies.

OMB Number: 3060–0223.
Title: Section 90.129(b)—Supplemental Information to be Routinely Submitted with Applications (Non type-accepted equipment).
Action: Extension.
Respondents: State or local governments, non-profit institutions, and businesses (including small businesses).
Frequency of Response: On occasion.
Estimated Annual Burden: 100 Responses; 34 Hours.
Needs and Uses: Practically all radio transmitting equipment used in this country is manufactured to certain technical specifications which enable it to be designated as "type-accepted" by FCC laboratory personnel. Such a designation shows the purchaser that the equipment is capable of performing within certain tolerances that limit the interference potential of the device. For the few applicants proposing to use transmitting equipment not proven to meet these specifications, a description of the proposed equipment is required. The information collected is used by FCC engineers to determine the interference potential of the proposed operation.

OMB Number: 3060–0226.
Title: Section 90.135(d & e)—Modification of License.
Action: Extension.
Respondents: State or local governments, non-profit institutions, and businesses (including small businesses).
Frequency of Response: On occasion.
Estimated Annual Burden: 1,656 Responses; 276 Hours.
Needs and Uses: The above rule paragraphs require licensees who have changed their name, address, number and location of station control points, number of mobile units, interconnection status, and/or sharing status to notify the Commission. This information collection applies only to licensees who elect to inform the Commission by letter of these changes. Licensees may use forms in lieu of letters to notify the FCC of the changes. Notification is necessary to maintain an accurate data base that is used by both the Commission, frequency coordinators and the public in corresponding with licensees regarding interference resolution and licensing matters.

OMB Number: 3060–0260.
Title: Section 90.239(d)—Interim Provisions for Operation of Automatic Vehicle Monitoring (AVM) Systems.
Action: Extension.
Respondents: State or local governments, non-profit institutions, and businesses (including small businesses).
Frequency of Response: On occasion.
Estimated Annual Burden: 50 Responses; 67 Hours.
Needs and Uses: The above rule section requires that applicants for automatic vehicle monitoring (AVM) systems submit supplemental technical information necessary to evaluate the interference potential of the proposed system. The information collected is used by FCC engineers to evaluate applications for AVM systems.

OMB Number: 3060–0262.
Title: Section 90.179—Shared Use of Radio Stations.
Action: Extension.
Respondents: State or local governments, non-profit institutions, and businesses (including small businesses).
Frequency of Response: Recordkeeping requirement.
Estimated Annual Burden: 1,650 Recordkeepers; 1 238 Hours.
Needs and Uses: Licensees are allowed to share use of their private land mobile radio facilities on a non-profit, cost-shared basis or on a for-profit private carrier basis. If a licensee shares its station on a nonprofit, cost-shared basis this shared use must be pursuant to a written agreement. This written agreement must be kept as part of the station records. Regardless of the method of sharing, an up-to-date list of persons who are sharing the station and the basis of their eligibility under Part 90 must be maintained. The list of participants in the sharing agreement is necessary to identify users of the systems should interference problems develop. This information is used by Commission field personnel who investigate interference complaints and operational disputes that may arise among the users.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed; Topgallant Lines, Inc.

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street NW., Room 10325. 1nterested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 232–011255.

Title: Topgallant/Lykes Space Charter and Sailing Agreement.

Parties:

Topgallant Lines, Inc.

Lykes Bros. Steamship Co., Inc.

Synopsis: Agreement No. 232–011255 proposes to establish space charter and coordinated sailing arrangements between Topgallant and Lykes Bros. in the trade between the U.S. and North Europe.

By order of the Federal Maritime Commission.

Dated: November 1, 1989.

Joseph C. Polking,

Secretary.

FEDERAL RESERVE SYSTEM

[Docket No. R–0677]

Fee Schedules for Federal Reserve Bank Priced Services

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Approval of a Private Sector Adjustment Factor and fee schedules for Federal Reserve Bank priced services for 1990.

SUMMARY: The Board has approved a Private Sector Adjustment Factor ("PSAF") for 1990 of $79.4 million. This represents an increase of $9.7 million or 13.9 percent over the PSAF of $69.7 million targeted for 1989. The PSAF is a computation of imputed costs that takes into account the taxes that would have been paid and the return on capital that would have been provided had the Federal Reserve's priced services been furnished by a private business firm. The Board has also approved 1990 fee schedules for Federal Reserve check collection, automated clearing house, wire transfer of funds and net settlement, book-entry securities, definitive safekeeping, and noncash collection services, and for electronic connections to the Federal Reserve. These actions were taken in accordance with the requirements of the Monetary Control Act of 1980, which requires that fees for Federal Reserve priced services be established on the basis of all direct and indirect costs, including the PSAF.

EFFECTIVE DATE: January 1, 1990.

FOR FURTHER INFORMATION CONTACT: For questions regarding the Private Sector Adjustment Factor: Paul Bettge, Manager, (202/452–3174), Division of Federal Reserve Bank Operations; for questions regarding fee schedules: Nalini Rogers, Senior Financial Services Analyst, Check Payments (202/452–3801), Tina G. Slater, Senior Financial Services Analyst, Electronic Payments (202/452–2539), or Lisa Hoskins, Senior Financial Services Analyst, Securities (202/452–3437), Division of Federal Reserve Bank Operations; for the hearing impaired only: Telecommunications Device for the Deaf, Earnestine Hill or Dorothea Thompson (202/452–3544).

Copies of the 1990 fee schedules for check collection, automated clearing house, funds transfer and net settlement, book-entry securities, electronic connections, definitive safekeeping, and noncash collection are available from local Reserve Banks.

SUPPLEMENTARY INFORMATION:

Private Sector Adjustment Factor ("PSAF")

The Board has approved a 1990 PSAF of $79.4 million, which represents an increase of $9.7 million or 13.9 percent over the PSAF of $69.7 million targeted for 1989. The PSAF is a computation of imputed costs that takes into account the taxes that would have been paid and the return on capital that would have been provided had the Federal Reserve's priced services been furnished by a private business firm. The PSAF is applied to the Federal Reserve's priced services in order to promote competitive neutrality between the Federal Reserve and the private sector.

Taxes

The PSAF includes federal income taxes, state and local taxes, and Federal Deposit Insurance Corporation (FDIC) assessments. The Federal Reserve is exempt from federal income taxes and state and local taxes on its activities, but the Board has determined that the PSAF should include taxes that would be paid by a private business firm engaged in similar activities. The Federal Reserve is also exempt from FDIC assessments, but the Board has determined that the PSAF should include FDIC assessments that would be paid by a private business firm engaged in similar activities. The Board has determined that the PSAF should not include taxes that would be paid by a private business firm engaged in activities that are not similar to the Federal Reserve's priced services activities.

Cost of Capital and Taxes

The PSAF includes the cost of capital that would be provided by a private business firm engaged in similar activities. The Board has determined that the PSAF should not include the cost of capital that would be provided

VOL 54 ISS 214 1989 NO 7 UMI

SUPPLEMENTARY INFORMATION:

Private Sector Adjustment Factor ("PSAF")

The Board has approved a 1990 PSAF for Federal Reserve Bank priced services of $79.4 million. This amount represents an increase of $9.7 million or 13.9 percent over the PSAF of $69.7 million targeted for 1989.

The Monetary Control Act of 1980 requires that fee schedules for the Federal Reserve's priced services include an allocation of imputed costs for "taxes that would have been paid and the return on capital that would have been provided had the services been furnished by a private business firm." These imputed costs are based on data developed in part from a model comprised of the nation's 50 largest bank holding companies ("BHCs").

Briefly stated, the methodology first entails determining the value of Federal Reserve assets that will be used directly in producing priced services during the coming year, including the net effect of assets planned to be acquired or disposed of during the year. Short-term assets are assumed to be financed by short-term liabilities; long-term assets are assumed to be financed by a combination of long-term debt and equity.

Imputed capital costs are determined by applying related interest rates and rate of return on equity derived from the bank holding company model to the assumed debt and equity values. The rates drawn from the BHC model are based on consolidated financial data for the 50 largest BHCs (in terms of asset size), in each of the last five years. Because short-term debt, by definition, matures within one year, only data for the most recent year are used for computing the short-term debt rate.

Capital costs, together with imputations for estimated sales taxes, FDIC insurance assessment on clearing balances held with the Federal Reserve to settle transactions, and expenses of the Board of Governors related to priced services, comprise the PSAF.

Details regarding the derivation of the PSAF are as follows:

Asset Base

The estimated value of Federal Reserve assets to be used in providing priced services in 1990 is reflected in Table 1. Table 2 shows that the value of assets assumed to be financed through debt and equity are projected to total $487.7 million, an increase of $42.7 million or 9.6 percent from 1989. This increase results largely from capital expenditures for bank premises planned by the Reserve Banks next year and from an increase usage of Reserve Bank premises by priced services relative to non-priced activities.

Cost of Capital and Taxes

Earlier this year, the Board approved imputing the cost of equity capital for the PSAF using an average of rates of return on equity derived from a model of the 50 largest privately-owned bank holding companies in each of the last 5 years in order to reduce the variability of imputed return on equity caused by fluctuations in bank holding company earnings. In addition, the BHCs with the highest and lowest returns on equity are no longer excluded from the sample. Use of the 5 year/50 BHC model results in a pre-tax rate of return on equity of 15.5 percent, down from the rate of 16.9 percent used for the 1989 PSAF, although it is an increase from the rate of 12.9 percent that would have resulted from the 3 year/25 BHC model that had previously been used. The reduction in the rate from the 1989 PSAF is a result of changes in the sample of BHCs.

Table 3 shows the interest, equity, and tax rates proposed for 1990 and compares them with the rates used for developing the PSAF for 1989.

Other Imputed Costs

As shown in Table 3, other required PSAF recoveries for 1990 for sales taxes, FDIC insurance, and Board expenses total $15.9 million, up from $11.4 million approved for 1989. A large portion of the increase, $2.4 million, is attributable to another change in the PSAF methodology approved by the Board earlier this year. The imputed FDIC insurance assessment is now computed using a measure of deposits including deferred credit items computed on a basis comparable to a commercial bank. In addition, imputed sales taxes are projected to increase by $1.9 million, largely as a result of an increase in anticipated expenditures by the Reserve Banks in 1990 over 1989.

Capital Adequacy

The final modification to the PSAF methodology approved by the Board in 1989 was to measure the imputed capital adequacy of the Reserve Banks' priced services activities on the basis of the Board-approved risk-based capital guideline of 8 percent capital to risk-weighted assets for state member banks and BHCs. To comply with this guideline, the Board included in Reserve Bank assets a computation of cash items in the process of collection on a basis comparable to a commercial bank. On this basis, the amount of capital imputed for the proposed 1990 PSAF totals 24 percent of risk-weighted assets. Table 4 shows the computation of the risk-based capital ratio assumed for the 1990 pro forma priced services balance sheet.

1990 Fee Schedules

The Monetary Control Act requires that, over the long run, fees for Federal Reserve priced services be established on the basis of all direct and indirect costs incurred in providing the priced services, including the PSAF. The Board's pricing principles state that fees will be set so that the revenues for major service categories match costs, including the PSAF. The Board may set fees for a service line that do not fully recover costs, in the interest of providing an adequate level of services nationwide. The fees for each service line, however, must recover all operating costs, float costs, and certain imputed costs of providing that service, as well as contribute to the pre-tax return on equity. Total revenue for all Federal Reserve services must, in the aggregate, recover all costs, including the PSAF.

Last year the Board approved fees that were set to recover 100.4 percent of the cost of providing priced services in 1989, including the PSAF and the cost of float. Through the first eight months of 1989, the System recovered 101.1 percent of total costs. The Board estimates that total 1989 costs, including the PSAF, will be $716.1 million. Total revenue is estimated to be $716.0 million, resulting in a 100.3 percent recovery rate. The primary reason for the estimated 1989 recover rate being lower than originally planned is unanticipated check collection service costs attributable to the effects of the new Regulation CC returned check procedures on Reserve Bank operations.

In 1990, total priced services costs, including the PSAF, are projected to be $750.6 million. Total revenue is projected to be $755.9 million, resulting in a 100.7 percent recovery rate. The majority of the proposed 1990 fees are the same as those currently in effect. Since 1984, as the table below shows, the System has made substantial progress in moving closer to its target of 100 percent cost recovery.

ALL PRICED FINANCIAL SERVICES

	Total cost (millions)	Total revenue (millions)	Recovery rate (percent)
1984	$519.1	$559.6	107.8
1985	571.2	603.8	105.7
1986	599.3	627.7	104.7
1987	627.3	649.7	103.5
1988	674.7	667.7	99.0
1989 Est.	716.1	718.0	100.3
1990 Proj.	750.6	755.9	100.7

The Board has approved expenditures for two special research and development efforts designed to lead to major benefits for the payments mechanism. These efforts include projects to improve the reliability of electronic payment services and to explore the application of digital image technology to the check service. The expenditures on these special research and development efforts may fluctuate significantly from year to year and are considered to contribute to priced services costs only temporarily. The special projects associated with the automated clearing house, funds transfer, book-entry securities, and check services will cost an estimated $4.1 million in 1989 and $1.6 million in 1990. The 1990 fees are based on total costs, including the PSAF, but excluding special project costs.

Following is a discussion of estimated 1989 and projected 1990 financial performance and 1990 fees for the individual priced services.

Check Collection

Comparisons of estimated 1989 and projected 1990 cost recovery performance are shown in the table below for the commercial check service.

CHECK COLLECTION

	Total cost	Total revenue (millions)	Recovery rate (percent)
1989	$553.9	$549.9	99.3
1990	579.7	582.4	100.5

The total costs in the table do not include special projects, which would lower the 1989 and 1990 recovery rates to 98.9 percent and 100.3 percent, respectively. Overall, 1990 check collection costs, including PSAF, are projected to increase 4.6 percent. Total check collection volume is projected to increase 1.0 percent.

Seventy-two percent of the 1990 prices for check services are the same as those currently in effect. The aggregate 1990 price change for forward and return check collection services is an increase of 2.5 percent; the price increase in forward collection fees alone is 0.9 percent. Systemwide, 548 of the processed forward collection item fees will remain unchanged, 108 of the fees will increase, and 45 of the fees will decrease. Forward check collection processed volume is projected to increase 1.1 percent in 1990, compared to an estimated 1.7 percent increase in 1989.

The price increase in return collection fees is 15.2 percent. Of the 600 processed return item fees, 331 will remain unchanged and 269 will increase. The increases in return item fees are attributable to higher costs associated with staff increases made in return item processing during 1989 and to automation and software system changes to support new return item operations. Return item volume is projected to remain relatively flat (a 0.5 percent decrease) in 1990, with the percentage of total returns that are qualified, rather than deposited as raw returns,[1] increasing slightly from 82 percent in 1989 to 85 percent in 1990.

A Systemwide action plan to improve return item quality has been implemented in all districts and has significantly reduced overtime and float expenses throughout the System. Further developments in the quality of return items deposited with the Federal Reserve are needed in order to realize the reductions in return item processing costs. The Reserve Banks continue to devote additional resources to dealing with misdirected returns, returns that do not comply with indorsement standards, returns of poor physical quality, and high levels of return item adjustments. The Reserve Banks will continue working with depositors to improve the overall quality of return item deposits.

The Board has approved a decrease of 1.3 percent in fine-sort fees for both forward collection and return items. Two hundred fifteen of the fine sort fees will remain unchanged, none will increase, and 21 fees will decrease. Fine-sort item volume is projected to increase 3.3 percent in 1990, reflecting both lower prices overall and improved deadlines adopted for 1990. Consolidation of private check clearing operations stemming from bank mergers is also expected to increase demand for fine-sort.

With regard to the Interdistrict Transportation System ("ITS"), 54 percent of the 4,512 prices will not change from those currently in effect, 14 percent will increase by one-tenth of a cent, 30 per cent will decrease by one-tenth of a cent, and less than 2 percent will change by more than one-tenth of a cent. Overall, the weighted average ITS fee will decline approximately 1 percent. ITS volume is projected to increase approximately 1 percent in 1990. ITS fees are incorporated into the Other Fed fees charged by Reserve Banks. Private collecting institutions consolidating their work on Federal Reserve ITS transportation (consolidated shippers) are charged the ITS fee for transportation to the designated Reserve Bank office.

Sixty-four new check collection deadlines have been approved for 1990. All deadline changes reflect improvements to depositors and are in conformance with System guidelines.

Automated Clearing House ("ACH")

Comparisons of the estimated 1989 and projected 1990 cost recovery performance for the commercial ACH service are shown in the table below.

AUTOMATED CLEARING HOUSE

	Total cost (millions)	Total revenue (millions)	Recovery rate (percent)
1989	$48.3	$49.2	101.8
1990	52.3	52.3	100.1

The total costs in the table do not include special project costs, which would reduce the 1989 and 1990 recovery rates to 100.6 percent and 99.8 percent, respectively. The Board estimates that total ACH costs, including the PSAF, will increase $4.0 million or 8.3 percent in 1990, while commercial ACH volume will increase by 22.4 percent, compared to an estimated 23.6 percent increase in 1989. This pattern of changes in cost and volume reflects the economies of scale inherent in ACH processing.

The Board has reduced the surcharges for processing ACH transactions at night to reflect continued decreases in float costs and more efficient ACH processing. The night surcharge on debit transactions will be reduced from 3.5 cents to 2.0 cents, and the surcharge on next-day credit transactions will be reduced from 1.5 cents to 1.0 cents.

The Board has also reduced the interregional transaction fee from 1.7 cents to 1.6 cents in 1990. The fee reflects economies of scale in ACH processing and recent software changes that result in more efficient editing of ACH transactions.

Beginning in April 1990, all districts except for San Francisco will process ACH transactions at only one location. The San Francisco District will operate two processing sites reflecting its contingency processing arrangements. For this reason, and because interdistrict network charges are not a cost component in intradistrict transactions, the Board has altered the

[1] A raw returned check is a return that has not been prepared for automated processing. A qualified returned check ("QRC") is a return that has been prepared for automated processing by placing a strip on the check, or placing the check in a carrier envelope, and encoding the strip or envelope with the routing number of the depositary bank, the amount of the check, and a special return identifier.

definition of interregional transactions. Beginning April 2, 1990, the Reserve Banks will assess the intraregional fee for all transactions that are originated to and received by depository institutions

percent in 1990, compared to an estimated increase of 6.0 percent in 1989.

For 1990, the Board will maintain the basic funds transfer fee at its current level of $0.50. In addition, current net

service, which is a necessary part of the Treasury securities transfer, is treated as a non-priced service. The Treasury intends to keep its 1990 prices stable,

Definitive safekeeping and noncash collection costs are expected to decrease by 1.4 percent in 1990 as Reserve Banks continue to adjust costs in reaction to anticipated volume

reregistrations, and, by one district, to $0.005 per month per $1,000 par value maintained. Noncash collection fee increases in eight districts range from

performance of the cash service are shown in the table below.

CASH

definition of interregional transactions. Beginning April 2, 1990, the Reserve Banks will assess the intraregional fee for all transactions that are originated to and received by depository institutions within the same Federal Reserve district, and apply the interregional fee only to transactions between institutions located in different Federal Reserve districts.

The Board has also adopted higher fees for processing ACH files and addenda records to reflect data processing and communications costs more accurately. The file fee will increase from $1.00 to $1.25 per file. Intraregional and interregional addenda fees will increase to 0.4 and 0.5 cents from 0.2 and 0.3 cents, respectively.

Automated ACH processing is priced nationally. In the past, the Reserve Banks have established fees within specified ranges for nonautomated processing, such as magnetic tape and paper output handling and processing return items submitted in paper form. For 1990, the Board has approved national fees for nonautomated as well as automated ACH processing. In addition, the Board approved higher fees for most nonautomated processing components of the ACH service to better recover the costs associated with labor-intensive processing. Analysis of the costs of various components of the ACH service has indicated that the costs of providing these nonautomated services are, in many cases, significantly higher than the fees currently being assessed. Accordingly, the Board approved increases in nonautomated fees.

Funds Transfer and Net Settlement

Comparisons of the estimated 1989 cost recovery performance and the 1990 projected cost recovery performance for the funds transfer and net settlement service are shown in the table below.

FUNDS TRANSFER AND NET SETTLEMENT

	Total cost	Total revenue (million)	Recovery rate (percent)
1989	$73.2	$75.5	105.0
1990	77.2	78.7	102.0

The total costs in the table do not include special project costs, which would reduce the 1989 and 1990 recovery rates to 103.4 percent and 101.6 percent, respectively. In 1990, the Board estimates that funds transfer costs, including the PSAF, will increase by $4.0 million or about 5.4 percent over 1989. The volume of basic funds transfers originated is expected to increase by 5.1 percent in 1990, compared to an estimated increase of 6.0 percent in 1989.

For 1990, the Board will maintain the basic funds transfer fee at its current level of $0.50. In addition, current net settlement and off-line wire transfer fees will remain in effect in 1990.

Book-Entry Securities

Comparisons of the estimated 1989 cost recovery performance and the 1990 projected cost recovery performance are shown in the table below for the book-entry securities service.[3]

BOOK-ENTRY SECURITIES

	Total cost (millions)	Total revenue (millions)	Recovery rate (percent)
1989	$9.5	$10.2	107.3
1990	10.7	11.1	103.7

The total costs in the table do not include special project costs, which would reduce the 1989 and 1990 recovery rates to 103.7 percent and 102.9 percent, respectively. Book-entry securities volume is projected to increase 8.3 percent in 1990, while costs are projected to increase approximately 12.1 percent. Approximately 4.7 percent of this cost increase is attributable to volume-weighted reallocations of expenses due to a fall-off in transfers of Treasury securities, which is itself explained by the implementation of netting schemes for Treasury securities.

The only change in existing prices for 1990 is the elimination of a fee currently charged for off-line account switch deposits. An account switch is the withdrawal of a security from one book-entry sub-account for deposit to another book-entry sub-account of the same depository institution. Four Reserve Banks currently assess a fee to off-line institutions for each side of the transaction even though the withdrawal and deposit are performed nearly simultaneously as part of a single process.

The Federal Reserve Banks, as fiscal agents of the United States, also process book-entry transfers of Treasury securities for depository institutions. These transactions, which are operationally identical to those for Federal agency issues, are subject to a fee determined by the Treasury. A funds settlement fee of $0.60 is charged for each book-entry transfer of Treasury securities to reflect settlement of the transfers by the Reserve Banks. This service, which is a necessary part of the Treasury securities transfer, is treated as a non-priced service. The Treasury intends to keep its 1990 prices stable, recognizing that there will be a need for further evaluation of fees as the Government Securities Clearing Corportation ("GSCC") netting program becomes fully implemented. GSCC's netting program has and will likely further reduce the number of Treasury book-entry transfers processed through the Federal Reserve book-entry system. In 1990, the Treasury and the Federal Reserve will also evaluate the cost impact of other factors including the development of the future of a book-entry system. Since the impact of these factors is uncertain, the Board has not modified book-entry fees in 1990.

Electronic Connections

Fees are charged for electronic connections to the Federal Reserve Banks. The 1990 electronic connection fees are largely the same as those currently in effect. The multi-drop connection fee at $300 per month, and the dedicated leased line connection fee at $600 per month. In addition, the $100 bulk data software fee will be eliminated.

The Federal Reserve plans to introduce new intelligent terminal software that will allow depository institutions that receive a low volume of ACH payments to do so efficiently on a small personal computer. This alternative will enable depository institutions to receive payment information from Reserves Banks electronically (but not originate payment instructions) and print the information for subsequent processing. This innovation will be instrumental in achieving the Federal Reserve's objective of an all-electronic ACH. The dial-up connection fee for this low-volume delivery mechanism will be $30 month.

Definitive Safekeeping and Noncash Collection

Comparisons of the estimated 1989 and 1990 projected cost recovery performance for the definitive safekeeping and noncash collection service are shown in the table below.

DEFINITIVE SAFEKEEPING AND NONCASH COLLECTION

	Total cost (millions)	Total revenue (millions)	Recovery rate (percent)
1989	$17.2	$17.5	102.0
1990	16.9	17.0	100.4

[3] These financial data relate only to book-entry transfers of government agency securities, which are priced by the Federal Reserve.

Definitive safekeeping and noncash collection costs are expected to decrease by 1.4 percent in 1990 as Reserve Banks continue to adjust costs in reaction to anticipated volume declines, as no new bearer securities have been issued since 1983. Definitive safekeeping volumes in 1990 are expected to decrease about 10.0 percent and noncash collection volume is expected to decrease 6.2 percent.

The Board has increased definitive safekeeping prices in six districts to offset volume declines. Increases range from $1.00 to $8.25 for deposit and withdrawal fees, from $0.15 to $1.50 for receipts/issues maintained, from $1.00 to $8.25 for purchases and sales and reregistrations, and, by one district, to $0.005 per month per $1,000 par value maintained. Noncash collection fee increases in eight districts range from $0.15 to $0.55 per envelope for collection of coupons and from $2.00 to $10.00 for return item and collection of matured or called bonds.

Cash

Cash services that are priced by the Reserve Banks include (1) cash transportation, (2) coin wrapping, (3) nonstandard packaging of currency orders and deposits, and (4) nonstandard frequency of access to cash services. Comparisons of the estimated 1989 and projected 1990 cost recovery performance of the cash service are shown in the table below.

CASH

	Total cost (millions)	Total revenue (millions)	Recovery rate (percent)
1989	$14.0	$14.4	102.9
1990	13.8	14.4	103.7

There will be no 1990 price changes for cash services.

By order of the Board of Governors of the Federal Reserve System, November 1, 1989.
William W. Wiles,
Secretary of the Board.

TABLE 1.—Comparison of Pro Forma Balance Sheets for Federal Reserve Priced Services

[Millions of dollars—average for year]

	1990		1989	
Short-term assets				
Imputed reserve requirement on clearing balances	$286.3		$263.3	
Investment in marketable securities	2,099.4		2,077.6	
Receivables [1]	32.0		29.6	
Materials and supplies [1]	7.1		7.1	
Prepaid expenses [1]	9.6		8.3	
Items in process of collection [2]	3,838.9		3,701.6	
Total short-term assets		$6,273.3		$6,105.9
Long-term assets				
Premises [1] [3]	297.5		259.9	
Furniture and equipment [1]	141.5		142.6	
Capital leases	1.9		1.1	
Total long-term assets		440.9		403.6
Total assets		6,714.2		6,509.5
Short-term liabilities				
Clearing balances and balances arising from early credit of uncollected items	2,836.7		2,794.0	
Deferred credit items [2]	3,385.9		3,269.0	
Short-term debt [4]	46.7		42.8

Long-term liabilities				
Obligations under capital leases	2.0		1.1	
Long-term debt [4]	139.1		156.8	
Total long-term liabilities		141.0		158.0
Total liabilities		6,414.3		6,263.9
Equity [4]		299.9		245.6
Total liabilities and equity		6,714.2		6,509.5

[1] Financed through PSAF; other assets are self-financing.
[2] 1989 figures are restated to be consistent with the modifications to the PSAF methodology approved by the Board in May 1989.
[3] Includes allocations of Board of Governors, assets to priced service of $0.3 million for 1990 and $0.4 million for 1989.
[4] Imputed figures; represent the source of financing for certain priced services assets.

Note: Details may not add to totals due to rounding.

TABLE 2—DERIVATION OF THE 1990 PSAF

(millions of dollars)

A. Assets to be Financed [1]
Short-term $48.7
Long-term [4] ..... 439.0 ..... $487.7

TABLE 2—DERIVATION OF THE 1990 PSAF—Continued

(millions of dollars)

B. Weighted Average Cost
1. Capital Structure [3]
Short-term Debt .. 10.0% ....
Long-term Debt ... 28.5% ....
Equity ..... 61.5% ....

TABLE 2—DERIVATION OF THE 1990 PSAF—Continued

(millions of dollars)

2. Financing Rates/Costs [3]
Short-term Debt .. 7.3% ....
Long-term Debt ... 9.6% ....
Pre-tax Equity [4] .. 15.5% ....
3. Elements of Capital Costs
Short-term Debt .. $48.7 X 7.3% = $3.5

TABLE 2—DERIVATION OF THE 1990 PSAF—Continued

(millions of dollars)

Long-term Debt	139.1	X 9.6%	=	13.3
Equity	299.9	X 15.5%	=	46.6
				$63.5
C. Other Required PSAF Recoveries				
Sales Taxes	$9.9			
Federal Deposit Insurance Assessment	4.3			
Board of Governors Expenses	1.7			$15.9
D. Total PSAF Recovered				$79.4
As a percent of capital				16.3%
As a percent of expenses [5]				14.2%

[1] Priced service asset base is based on direct determination of assets method.

[2] Consists of total long-term assets less capital leases that are self-financing.

[3] All short-term assets are assumed to be financed by short-term debt. Of the total long-term assets, 32 percent are assumed to be financed by long-term debt and 68 percent by equity.

[4] The pre-tax rate of return on equity is based on the average after-tax rate of return on equity, adjusted by the effective tax rate to yield the pre-tax rate of return on equity for each bank holding company for each year. These data are then averaged over five years to yield the pre-tax return on equity for use in the PSAF.

[5] Systemwide 1990 budgeted priced service expenses less shipping were $560.6 million.

TABLE 3.—CHANGES BETWEEN 1990 AND 1989 PSAF COMPONENTS

	1990	1989
A. Assets to be Financed (millions of dollars)		
Short-term	$48.7	$42.6

BILLING CODE 6210-01-M

Maybaco Co.; Formation of, Acquisition by, or Merger of Bank Holding Companies; and Acquisition of Nonbanking Company

The company listed in this notice has applied under § 225.14 of the Board's Regulation Y (12 CFR 225.14) for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) to become a bank holding company or to acquire voting securities of a bank or bank holding company. The listed company has also applied under § 225.23(a)(2) of Regulation Y (12 CFR 225.23(a)(2)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies, or to engage in such an activity. Unless otherwise noted, these activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than November 22, 1989.

A. Federal Reserve Bank of Richmond (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *The Maybaco Company*, Baltimore, Maryland; to acquire up to 9.5 percent of MNC Financial, Inc., Baltimore, Maryland, and thereby indirectly acquire Equitable Bank, N.A., Baltimore, Maryland, Equitable Bank of Delaware, Dover, Delaware, Maryland National Bank, Baltimore, Maryland, American Security Bank, N.A., Washington, D.C., and Maryland National Bank, N.A., Newark, Delaware.

In connection with this application, Applicant also proposes to acquire E.B. Mortgage Corporation, Towson, Maryland, and thereby engage in making, acquiring, and servicing mortgage loans for its own account and the accounts of others pursuant to § 225.25(b)(1); Equibank Life Insurance Company, Baltimore, Maryland, and thereby engage in underwriting, as reinsurer, credit life, accident and health insurance and involuntary employment insurance in connection with extensions of credit by Equitable Bancorporation's subsidiaries, including Equitable Bank, N.A., Equitable Bank of Delaware, and E.B. Mortgage Corporation pursuant to § 225.25(b)(8); Fayette Insurance Corporation, Baltimore, Maryland, and thereby engage in acting as agent or broker for the sale of credit life, accident and health insurance solely in connection with extensions of credit by Equitable Bancorporation's subsidiaries, including Equitable Bank, N.A., Equitable Bank of Delaware, and E.B. Mortgage Corporation pursuant to § 225.25(b)(8); and Internet, Inc., Reston, Virginia, and thereby engage in providing data processing switching services for automatic teller machines ("ATMs") and point of sale ("POS") networks. Internet, Inc., also provides and maintains data processing software to banks and other financial institutions for the operation of this hardware, and maintains ATM and POS data bases for some banks and financial institutions pursuant to § 225.25(b)(7) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, November 1, 1989.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Office of Inspector General; Statement of Organization, Functions and Delegations of Authority

This Notice amends part A (Office of the Secretary) of the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (HHS) to reflect certain changes in chapter AF, Office of Inspector General (OIG). Chapter AF was published at 50 FR 45488 and at 51 FR 9894, March 21, 1986.

The revision flows from the transfer of the statutory basis for the Office of Inspector General from Public Law 94-505 to Public Law 95-452. The transfer was made under the Inspector General Act Amendments of 1988 (Pub. L. 100-504) effective April 17, 1989. This functional statement conforms to and carries out the statutory requirements for operating the Office of Inspector General. While the basic organizational structure of the Office of Inspector General is unchanged, certain units and positions are renamed, and there are minor shifts in reporting relationships. An additional program unit has been delineated, and some small functional units have been transferred; *e.g.*, the information resources management function formerly assigned to the Deputy Inspector General is now under the Deputy Inspector General for Audit Services. The public affairs, congressional liaison and semiannual report functions formerly assigned to the Office of Analysis and Inspections are now under the Assistant Inspector General for Management and Policy. While relatively minor, the changes have been made to assist the organization to accomplish its mission more effectively.

Delete Chapter AF in its entirety and replace with the following:

Section AF.00 Office of Inspector General (OIG)—Mission

This organization was established by law as an independent and objective oversight unit of the Department to carry out the mission of promoting economy, efficiency and effectiveness through the elimination of waste, abuse and fraud. In furtherance of this mission, the organization engages in a number of activities:

A. Conducting and supervising audits, investigations, inspections and evaluations relating to HHS programs and operations.

B. Identifying systemic weaknesses giving rise to opportunities for fraud and abuse in HHS programs and operations and making recommendations to prevent their recurrence.

C. Leading and coordinating activities to prevent and detect fraud and abuse in HHS programs and operations.

D. Detecting wrongdoers and abusers of HHS programs and beneficiaries so appropriate remedies may be brought to bear.

E. Keeping the Secretary and the Congress fully and currently informed about problems and deficiencies in the administration of such programs and operations and about the need for and progress of corrective action, including imposing sanctions against providers of health care under Medicare and Medicaid who commit certain prohibited acts.

In support of its mission, the Office of Inspector General carries out and maintains an internal quality assurance system, including periodic quality assessment studies and quality control reviews, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed; are effective; and are functioning as intended in OIG operations.

Section AF.10 Office of Inspector General—Organization

There is at the head of the OIG a statutory Inspector General, appointed by the President and confirmed by the Senate. The Office of Inspector General consists of five organizational units:

A. Immediate Office of the Inspector General (AFA).
B. Office of the Principal Deputy Inspector General (AFA1).
C. Office of Audit Services (AFH).
D. Office of Investigations and Enforcement (AFJ).
E. Office of Evaluation and Inspections (AFE).

Section AF.20 Office of Inspector General—Functions

The component sections which follow describe the specific functions of the organization.

Section AFA.00 Immediate Office of the Inspector General (OIG)—Mission

The Inspector General is directly responsible for meeting the statutory mission of the OIG as a whole and for promoting effective OIG internal quality assurance systems, including quality assessment studies and quality control reviews of OIG processes and products.

Section AFA.10 Immediate Office of the Inspector General—Organization

The Immediate Office comprises the Inspector General and an immediate staff.

Section AFA.20 Immediate Office of the Inspector General—Functions

As the senior official of the organization, the Inspector General supervises the Deputy Inspectors General who head the major OIG components. The Inspector General is appointed by the President, with the advice and consent of the Senate, and reports to and is under the general supervision of the Secretary or, to the extent such authority is delegated, the Under Secretary, but does not report to and is not subject to supervision by any other officer in the Department. In keeping with the independence intended in the statutory basis for the OIG and its mission, the Inspector General assumes and exercises, through line management, all functional authorities related to the administration and management of the OIG and all mission related authorities stated or implied in the law or delegated directly from the Secretary.

The Inspector General provides executive leadership to the organization and exercises general supervision over the personnel and functions of its major components. The Inspector General determines the budget needs of the OIG, sets OIG policies and priorities, oversees OIG operations and provides reports to the Secretary and the Congress. In this capacity the Inspector General is empowered under the law with general personnel authority, e.g., selection, promotion, assignment, etc., of employees, including members of the senior executive service. The Inspector General delegates related authorities as appropriate.

Section AFA1.00 Office of the Principal Deputy Inspector General (OPDIG)—Mission

This office is responsible for the reporting and legislative and regulatory development of the OIG long-range strategic plan and the OIG annual work plan. It compiles the Semiannual Report to the Congress and operates the Executive Secretariat. It formulates and other Federal departments, following the system of audit cognizance administered by OMB. It participates in the President's Council on Integrity and Efficiency (PCIE) initiatives and other

Section AFH.20 Office of Audit Services—Functions

A. Immediate Office of the Deputy Inspector General for Audit Services

as intended. It evaluates audit work, including performing quality control reviews of audit reports. It develops and monitors audit work plans. It tracks, monitors, and report on audit resolution, Services (HDS) and the Office of the Secretary (OS). The office conducts and oversees audits of the operations and programs of the FSA, the HDS and the OS, including statewide cost allocation

VOL 54 ISS 214 NO 7 1989 UMI

Section AFA1.00 Office of the Principal Deputy Inspector General (OPDIG)—Mission

This office is responsible for the reporting and legislative and regulatory review functions required in the law; for formulating and executing the OIG budget; for managing external affairs; and for establishing functional policies for the general management of the OIG. In support of its mission, the office carries out and maintains an internal quality assurance system. The system includes quality assessment studies and quality control reviews of OPDIG processes and products to ensure that policies and procedures are effective; are followed; and are functioning as intended.

Section AFA1.10 Office of the Principal Deputy Inspector General—Organization

This office comprises the Principal Deputy Inspector General and the Office of Management and Policy.

Section AFA1.20 Office of the Principal Deputy Inspector General—Functions

A. Principal Deputy Inspector General.

This official assists the Inspector General in the management of the OIG, and during the absence of the Inspector General, acts as the Inspector General. The Principal Deputy Inspector General carries out the mission stated in AFA1.00 through the Assistant Inspector General for Management and Policy.

B. Office of Management and Policy.

This office is directed by the Assistant Inspector General for Management and Policy.

1. The office conducts and coordinates OIG reviews of existing and proposed legislation and regulations related to HHS programs and operations to identify their impact on economy and efficiency and their potential for fraud and abuse. It develops regulations for publication in the Federal Register and legislative proposals for inclusion in the Department's legislative program. It serves as contact for the press and electronic media and serves as OIG congressional liaison. The office prepares congressional testimony and confers with officials in the Office of the Secretary staff divisions on congressional relations, legislation and public affairs. It develops and publishes OIG newsletters, recruitment brochures and other issuances to announce and promote OIG activities and accomplishments.

2. The office coordinates the development of the OIG long-range strategic plan and the OIG annual work plan. It compiles the Semiannual Report to the Congress and operates the Executive Secretariat. It formulates and oversees the execution of the OIG budget and confers with the Office of the Secretary, the Office of Management and Budget and the Congress on budget issues. It issues quarterly grants to States for Medicaid fraud control units. It conducts management studies and analyses and establishes and coordinates general management policies for the OIG and publishes those policies in the OIG Administrative Manual. It serves as OIG liaison to the Office of the Secretary for Freedom of Information and Privacy Act requests, personnel issues and other administrative policies and practices, and on equal employment opportunity and other civil rights matters. It coordinates internal control reviews for the OIG.

Section AFH.00 Office of Audit Services (OAS)—Mission

The Office of Audit Services provides policy direction for and conducts and oversees comprehensive audits of HHS programs, operations, grantees and contractors, following generally accepted Government auditing standards (GAGAS), the Single Audit Act of 1984, applicable Office of Management and Budget (OMB) circulars and other legal, regulatory and administrative requirements. It maintains an internal quality assurance system, including periodic quality assessment studies and quality control reviews, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all audit activities performed by, or on behalf of, the Department. In furtherance of this mission, the organization engages in a number of activities:

A. The office coordinates and confers with officials of the central Federal management agencies (OMB, the General Accounting Office (GAO), the Office of Personnel Management (OPM) and the Department of the Treasury) on audit matters involving HHS programs and operations. It provides technical assistance to Federal, State and local investigative offices on matters concerning the operation of the Department's programs. It participates in interagency efforts implementing OMB Circulars A–128 and A–110, which call for use of the single audit concept for most external audits. It performs audits of activities administered by other Federal departments, following the system of audit cognizance administered by OMB. It participates in the President's Council on Integrity and Efficiency (PCIE) initiatives and other Governmentwide projects. It works with other OIG components on special assignments and projects. It responds to congressional oversight interests related to audit matters in the Department.

B. The Office of Audit Services helps HHS operating divisions and the Office of the Secretary staff divisions to develop policies to manage grants and procurements and policies to establish indirect cost rates. It performs preaward audits of grant or contract proposals to determine the financial capability of the grantees or contractors and conducts postaward audits.

C. The office reviews legislative, regulatory and policy proposals for audit implications. It recommends improvements in the accountability and integrity features of legislation, regulations and policy. It prepares reports on audits and special studies for the Secretary, heads HHS operating divisions, Regional Directors and others. It gathers data on unresolved audit findings for the statutorily required Semiannual Reports to the Congress and for the Under Secretary as Chairman of the Audit Resolution Council. It conducts follow-up examinations and special analyses of actions taken on previously reported audit findings and recommendations to ensure completeness and propriety.

D. The office decides when audits can or may be performed by audit organizations outside the Department, including those by other Federal or nonfederal governmental agencies, contractors, or public accounting firms. It assures that any audit performed by non-OIG auditors complies with the Government auditing standards established by the Comptroller General of the United States. It evaluates audits performed for the Department by outside organizations.

Section AFH.10 Office of Audit Services—Organization

The Office of Audit Services comprises the following components:

A. Immediate Office.
B. Audit Policy and Oversight.
C. Health Care Financing Audits.
D. Social Security Audits.
E. Human, Family, and Departmental Services Audits.
F. Public Health Service Audits.

Section AFH.20 Office of Audit Services—Functions

A. Immediate Office of the Deputy Inspector General for Audit Services

This office is directed by the Deputy Inspector General for Audit Services who carries out the functions designated in the law for the position, Assistant Inspector General for Auditing. The Deputy Inspector General for Audit Services is responsible to the Inspector General for carrying out OIG's audit mission and also serves as Audit Director for the Department. This official supervises the Assistant Inspectors General heading OAS offices described below.

The Immediate Office manages the human and financial resources of the Office of Audit Services including developing staffing allocation plans and issuing policy for, coordinating and monitoring all staffing, recruiting and training activities of the office. It maintains a professional development program for Office of Audit Services staff which meets the requirements of Government auditing standards. The office provides liaison with the General Accounting Office. It reviews all replies to GAO reports to ensure they are responsive, properly coordinated and representative of HHS policy and advises the Secretary and other officials about significant findings.

B. Audit Policy and Oversight

This office is directed by the Assistant Inspector General for Audit Policy and Oversight who is the principal assistant to the Deputy Inspector General for Audit Services. This official supervises the Regional Inspectors General for Audit Services who carry out audit activities in their assigned geographic areas.

1. The office develops audit policy, procedures, standards, criteria and instructions for all audit activities performed by, on behalf of, or conforming with departmental programs, grants, contracts, or operations, complying with general accepted Government auditing standards and other legal, regulatory and administrative requirements. It develops policy and procedures for an internal quality assurance system to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all audit activities performed by, or on behalf of, the Department, and conducts quality assurance studies to ensure that the policies and procedures are implemented by each Office of Audit Services component and are functioning as intended. It evaluates audit work, including performing quality control reviews of audit reports. It develops and monitors audit work plans. It tracks, monitors, and report on audit resolution, including follow up per OMB Circular A–50.

2. It plans, develops, and coordinates advanced techniques to carry out the functions of the Office of Audit Services. It coordinates the OIG information resources management function including computer software and hardware acquisition and maintenance. It manages the Office of Audit Services information system.

C. Health Care Financing Audits.

This office is directed by the Assistant Inspector General for Health Care Financing Audits who also serves as the Audit Director for the Health Care Financing Administration (HCFA). The office conducts audits of HCFA program operations and oversees nationwide the audits of the Medicare and Medicaid programs, their contracts, and providers of services and products. It maintains an internal quality assurance system, including periodic quality control reviews, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all HCFA audit activities performed by, or on behalf of, the Department.

D. Social Security Audits

This office is directed by the Assistant Inspector General for Social Security Audits who also serves as Audit Director for the Social Security Administration. The office conducts as well as oversees nationwide the audits of the Social Security Administration's Retirement, Survivors and Disability Insurance programs; the Supplemental Security Income program; the Black Lung program; as well as the operation and administration of the entire agency. It maintains an internal quality assurance system, including periodic quality control reviews, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all Social Security audit activities performed by, or on behalf of, the Department.

E. Human, Family, and Departmental Services Audits

This office is directed by the Assistant Inspector General for Human, Family, and Departmental Services Audits who also serves as the Audit Director for the Family Support Administration (FSA), the Office of Human Development Services (HDS) and the Office of the Secretary (OS). The office conducts and oversees audits of the operations and programs of the FSA, the HDS and the OS, including statewide cost allocation plans. It maintains an internal quality assurance system, including periodic quality control reviews, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all FSA, HDS and OS audit activities performed by, or on behalf of, the Department.

F. Public Health Service Audits

This office is directed by the Assistant Inspector General for Public Health Service Audits who also serves as the Audit Director for the Public Health Service. The office conducts and oversees audits of the programs and activities of the Public Health Service, including the Food and Drug Administration, the National Institutes of Health, the Health Resources and Services Administration, the Alcohol, Drug Abuse, and Mental Health Administration, the Centers for Disease Control, the Agency for Toxic Substances and Disease Registry, the Indian Health Service, and the Surgeon General as well as those colleges, universities and non-profit organizations that receive research grants from the Federal Government. It maintains an internal quality assurance system, including periodic quality control review, to provide reasonable assurance that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all Public Health Service audit activities performed by, or on behalf of, the Department.

Section AFJ.00 Office of Investigations and Enforcement (OIE)—Mission

The Office of Investigations and Enforcement is responsible for conducting and coordinating investigative activities related to fraud, waste, abuse and mismanagement in HHS programs and operations, including wrongdoing by applicants, grantees, or contractors, or by HHS employees in the performance of their official duties. It serves as OIG liaison to the Department of Justice on all matters relating to investigations of HHS programs and personnel, and reports to the Attorney General when the OIG has reasonable grounds to believe Federal criminal law has been violated. It works with other investigative agencies and organizations on special projects and assignments. In support of its mission, the office carries out and maintains an internal quality

VOL 54 ISS 214 NO 7 1989 UMI

assurance system. The system includes quality assessment studies and quality control reviews of OIE processes and products to ensure that policies and procedures are effective; are followed; and are functioning as intended.

Section AFJ.10 Office of Investigations and Enforcement—Organization

The Office of Investigations and Enforcement comprises the following components:
A. Immediate Office.
B. Criminal Investigations.
C. Civil and Administrative Remedies.
D. Investigations Policy and Oversight.

Section AFJ.20 Office of Investigations and Enforcement—Functions

A. Immediate Office of the Deputy Inspector General for Investigations and Enforcement

This office is directed by the Deputy Inspector General for Investigations and Enforcement who is responsible for the functions designated in the law for the position, Assistant Inspector General for Investigations. The Deputy Inspector General for Investigations and Enforcement supervises the Assistant Inspectors General who head the OIE offices described below.

The Deputy Inspector General for Investigations and Enforcement is responsible to the Inspector General for carrying out the investigative mission of the OIG and for leading and providing general supervision to the OIG investigative component. The Immediate Office coordinates quality assurance studies to ensure that applicable laws, regulations, policies, procedures, standards and other requirements are followed in all investigative activities performed by, or on behalf of, the Department.

B. Criminal Investigations

This office is directed by the Assistant Inspector General for Criminal Investigations who supervises a headquarters policy and review staff and the Regional Inspectors General for Investigations who carry out investigative activities in their assigned geographic areas.

1. The headquarters staff assists the Deputy Inspector General for Investigations and Enforcement to establish investigative priorities, to evaluate the progress of investigations, and to report to the Inspector General on the effectiveness of investigative efforts. It develops and implements investigative techniques, programs, guidelines and policies. It provides programmatic expertise and issues information on new programs, procedures, regulations and statutes. It directs and coordinates the investigative field offices.

2. The headquarters staff reviews completed reports of investigations to ensure accuracy and compliance with guidelines. It issues the reports to pertinent agencies, management officials and the Secretary and recommends appropriate debarment actions, administrative sanctions, civil money penalties and other civil actions, or prosecution under criminal law. It identifies systemic and programmatic vulnerabilities in the Department's operations and makes recommendations for change to the appropriate mangers.

3. The field offices conduct investigations of allegations of fraud, waste, abuse, mismanagement and violations of standards of conduct and other investigative matters within the jurisdiction of the OIG. They coordinate investigations and confer with HHS operating divisions, staff divisions, OIG counterparts and other investigative and law enforcement agencies. They prepare investigative and management improvement reports.

C. Civil and Administrative Remedies

This office is directed by the Assistant Inspector General for Civil and Administrative Remedies.

1. The office provides policy guidance and technical expertise to the Department, other Federal agencies, carriers, intermediaries, providers and private organizations on civil fraud laws and regulations, penalties, sanctions and other remedies. It maintains liaison with the Department of Justice on the civil fraud aspects of health care and other HHS investigations.

2. The office coordinates and/or helps investigative matters arising under the Program Fraud Civil Remedies Act, the Civil Monetary Penalties Law, and Public Law 100-93, including alleged misconduct by health care entities and others under Medicare, Medicaid, maternal and child health, and social services block grant laws. It assists the Department of Justice to investigate and evaluate civil fraud lawsuits brought under the qui tam provisions of the Federal False Claims Act and related statutes.

3. The office directs and coordinates medical reviews on civil money penalty and exclusion cases to ensure that findings and conclusions are correct and supported by medical records. It evaluates and adjudicates proposals to exclude individuals and/or entities from participation in health care programs. It conducts administrative reviews on proposed exclusions and provides written reports incident to the reviews. It negotiates, implements and monitors settlement agreements and exclusion requirements and, in cases of default, implements penalty provisions. It assists in investigations related to request for reinstatement by excluded individuals and entities, conducts administrative reviews in accordance with regulations, and adjudicates the requests for reinstatement. It maintains indices of sanctioned individuals and entities and prepare reports of sanction and penalty activities for distribution.

D. Investigations Policy and Oversight

This office is directed by the Assistant Inspector General for Investigations Policy and Oversight who leads outreach activities to State and local investigative agencies, and the general management functions of the Office of Investigations and Enforcement.

1. The office oversees State Medicaid fraud control units and is responsible for certifying and recertifying these units and for auditing their Federal funding. The office provides pertinent information from HHS records to assist Federal, State and local investigative agencies to detect, investigate and prosecute fraud. It manages the HHS Hotline to receive complaints and allegations of fraud, waste and abuse, and to refer the information for investigation, audit, program review, or other appropriate action. It coordinates with the GAO hotline and hotlines from other agencies.

2. The office maintains investigative files for OIE headquarters and an automated data and management information system used by all OIE managers and investigators. It provides technical expertise on computer applications for investigations and coordinates and approves investigative computer matches with other agencies.

3. The office develops general management policy for the OIE. It develops and issues instructional media on detecting wrongdoing and on investigating and processing cases. The office reviews proposed legislation, regulations, policies and procedures to identify vulnerabilities and recommends modification where appropriate. It reviews investigative files in response to Privacy and Freedom of Information Act requests. It plans, develops, implements and evaluates all levels of employee training for investigations, management, support skills and other functions. It coordinates general management processes; e.g., compiles reports on the budget, on awards and on other personnel matters for OIE as a whole; implements policies and procedures published in the OIG Administrative Manual; and processes procurement requests and other service related actions.

Section AFE.00 Office of Evaluation and Inspections (OEI)—Mission

The Office of Evaluation and Inspections is responsible for conducting inspections of HHS programs, operations and processes to identify vulnerabilities, to prevent and detect misconduct, and to promote economy, efficiency and effectiveness in HHS programs and operations. In support of its mission, the office carries out and maintains an internal quality assurance system. The system includes quality assessment studies and quality control reviews of OEI processes and products to ensure that policies and procedures are effective; are followed; and are functioning as intended.

Section AFE.10 Office of Evaluation and Inspections—Organization

The Office of Evaluation and Inspections comprises the Immediate Office and the Analysis and Inspections component.

Section AFE.20 Office of Evaluation and Inspections—Functions

A. Immediate Office of the Deputy Inspector General for Evaluation and Inspections

The office is directed by the Deputy Inspector General for Evaluation and Inspections who is responsible to the Inspector General for Analysis and Inspections. The Immediate Office carries out OEI's mission in headquarters.

1. The office develops OEI's evaluation and inspections policies, procedures and standards. It assesses the quality of inspections to ensure compliance with policies and procedures. It manages OEI's human and financial resources. It develops and monitors OEI's management information systems.

2. The office manages OEI's work planning process and reviews legislative, regulatory and program proposals for vulnerabilities to fraud, waste and mismanagement. It develops evaluative techniques and coordinates projects with other OIG and departmental components. It conducts inspection of HHS programs and recommends changes to improve efficiency and effectiveness. It provides programmatic expertise and issues information on new programs, procedures, regulations and statutes to OEI regional offices. It maintains liaison with other components in the Department; follows up on implementation of corrective action recommendations; evaluates the actions taken to resolve problems and vulnerabilities identified; and provides additional data or corrective action options, where appropriate.

B. Analysis and Inspections

This office is directed by the Assistant Inspector General for Analysis and Inspections who supervises the Regional Inspectors General for Evaluation and Inspections who carry out OEI's mission and activities in assigned geographic areas. The office evaluates HHS programs and produces the results in inspection reports. It conducts data and trend analyses of major HHS initiatives to determine the effects of current policies and practice on program efficiency and effectiveness. It recommends changes in program policies, regulations and law to improve efficiency and effectiveness, and to prevent fraud, abuse, waste and mismanagement. It analyzes existing policies to evaluate options for future policy, regulatory and legislative improvements.

Dated: October 27, 1989.
Louis W. Sullivan,
Secretary.

BILLING CODE 4160-01-M

[Docket No. 89N-0466]

Drug Export; Betaxin® (Thiamine Hydrochloride Injection, USP)

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Sterling Drug Inc. has filed an application requesting approval for the export of the human drug Betaxin® (thiamine hydrochloride injection, USP); 100 mg/ml in 10 ml vials to Canada.

ADDRESS: Relevant information on this application may be directed to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, and to the contact person identified below. Any future inquiries concerning the export of human drugs under the Drug Export Amendments Act of 1986 should also be directed to the contact person.

FOR FURTHER INFORMATION CONTACT: Mary F. Cooper, Division of Drug Labeling Compliance (HFD-313), Center for Drug Evaluation and Research, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8073.

SUPPLEMENTARY INFORMATION: The Drug Export Amendments Act of 1986 (Pub. L. 99-660) (section 802 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 382)) provides that FDA may approve applications for the export of

VOL 54 ISS 214 NO 7 1989 UMI

drugs that are not currently approved in the United States. The approval process is governed by section 802(b) of the act. Section 802(b)(3)(B) of the act sets forth the requirements that must be met in an application for approval. Section 802(b)(3)(C) of the act requires that the agency review the application within 30 days of its filing to determine whether the requirements of section 802(b)(3)(B) have been satisfied. Section 802(b)(3)(A) of the act requires that the agency publish a notice in the Federal Register within 10 days of the filing of an application for export to facilitate public participation in its review of the application. To meet this requirement, the agency is providing notice that Sterling Drug Inc., 90 Park Ave., New York, NY 10016, has filed an application requesting approval for the export of the drug Betaxin® (thiamine hydrochloride injection, USP); 100 mg/ml in 10 ml vials to Canada. The drug is indicated for use in patients suffering from disorders caused by vitamin B1 deficiency, such as loss of appetite, reduced activity of the gastrointestinal tract (secretory and motor), muscular weakness, polyneuritis due to alcoholism or pregnancy and pernicious vomiting of pregnancy. The application was received and filed in the Center for Drug Evaluation and Research on October 10, 1989, which shall be considered the filing date for purposes of the act.

Interested persons may submit relevant information on the application to the Dockets Management Branch (address above) in two copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. These submissions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The agency encourages any person who submits relevant information on the application to do so by November 17, 1989, and to provide an additional copy of the submission directly to the contact person identified above, to facilitate consideration of the information during the 30-day review period.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 802, Pub. L. 99-660 (21 U.S.C. 382)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Center for Drug Evaluation and Research (21 CFR 5.44).

Dated: October 23, 1989.

Daniel L. Michels,

Director, Office of Compliance, Center for Drug Evaluation and Research.

BILLING CODE 4160-01-M

Social Security Administration

Statement of Organization, Functions and Delegations of Authority

Part S of the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (HHS) covers the Social Security Administration (SSA). Notice is hereby given that Chapter S5 is being amended to reflect the relocation of the Office of International Policy. The changes are as follows:

Chapter S5
Office of the Deputy Commissioner, Policy and External Affairs
S5.00 Mission
S5.10 Organization
S5.20 Functions

Section S5.10 The Office of the Deputy Commissioner, Policy and External Affairs—(Organization)

Add:
G. The Office of International Policy (S5G).

Section S5.20 The Office of the Deputy Commissioner, Policy and External Affairs—(Functions)

Add:
G. The Office of International Policy (S5G) represents SSA on matters of international research and statistics within HHS, within the academic community and in coordination with SSA's Office of Public Affairs (OPA), with other public and private agencies and organizations. The Office serves as SSA liaison to international agencies and associations which deal with Social Security matters and negotiates international Social Security agreements with foreign governments and develops policies and procedures to implement the agreements. It plans and coordinates programs of technical assistance to foreign Social Security institutions and serves as liaison with other Federal agencies, such as the Department of State and the Department of Treasury on Social Security program matters outside the United States.

Add:
Subchapter S5G
Office of International Policy
S5G.00 Mission
S5G.10 Organization
S5G.20 Functions

Section S5G.00 The Office of International Policy—(Mission)

The Office of International Policy represents SSA on matters of international research and statistics within HHS, within the academic community and in coordination with SSA's OPA, with other public and private agencies and organizations. The Office serves as SSA liaison to international agencies and associations which deal with Social Security matters. It negotiates international Social Security agreements with foreign governments and develops policies and procedures to implement the agreements. The Office provides programs of training and technical consultation on Social Security and related fields to foreign Social Security officials and other foreign experts. It plans and coordinates programs of technical assistance to foreign Social Security institutions and serves as liaison with other Federal agencies, such as the Department of State and the Department of the Treasury on Social Security program matters outside the United States.

Section S5G.10 The Office of International Policy—(Organization)

The Office of International Policy, under the leadership of the Director of the Office of International Policy includes:
A. The Director for International Policy (S5G).
B. The Deputy Director for International Policy (S5G).
C. The Immediate Office of the Director for International Policy (S5G).
D. The Division of International Program Policy and Agreements (S5GA).
E. The International Studies and Organizations Staff (S5GB).
F. The International Activities Staff (S5GC).

Section S5G.00 The Office of International Policy—(Functions)

A. The Director for International Policy (S5G) is directly responsible to the Deputy Commissioner, Policy and External Affairs for carrying out the Office of International Policy's (OIP) mission and provides supervision to the major components of OIP.

B. The Deputy Director for International Policy (S5G) assists the Director in carrying out his/her responsibilities and performs other duties the Director may prescribe.

C. The Immediate Office of the Director for International Policy (S5G) provides the Director and Deputy Director with staff assistance on the full range of their responsibilities and helps coordinate the activities of OIP components.

D. The Division of International Program Policy and Agreements (S5GA).

a. Plans, develops and evaluates program policies and procedures relating to foreign claims administration and beneficiaries, and modifies policies and procedures to meet program requirements in foreign countries.

b. Negotiates international Social Security (totalization) agreements with foreign governments and takes the actions necessary to secure their approval, develops and evaluates agreements and administers the coverage provisions of the agreements.

c. Interacts with various SSA components, HHS, other Federal agencies and governments of other countries on all foreign program matters, including evaluation of foreign social insurance systems for alien nonpayment purposes, benefit payment delivery and restrictions, acceptability of foreign evidence and program integrity.

d. Conducts legislative and regulatory reviews, studies and analysis of all matters relating to international policy and international Social Security agreements, and takes necessary legislative or regulatory action on foreign program and agreement problems requiring such remedy.

E. The International Studies and Organization Staff (S5GB).

a. Develops and implements a methodology for international statistical comparisons. Develops statistical methods involving data in such fields as labor statistics, gross national product, benefit formulas, and financing for a comparison of the information on these areas of interest between the United States and other nations.

b. Directs analytical studies involving comparisons of particular aspects of Social Security measures in selected groups of countries.

c. Coordinates and advises high-level agency officials, congressional committees and various firms and institutions on the operation of the Social Security systems of foreign countries. Represents the Administration and Department at international conferences and seminars on economic development and Social Security.

d. Plans and organizes the work of consultants, outside contractors and regular staff in establishing international exchanges for the purpose of creating a data bank capable of sustaining the research program.

e. Coordinates and advises high-level agency officials with regard to agency participation in international organizations active in the social policy field.

F. The International Activities Staff (S5GC).

a. Provides training, orientation and consultation programs on Social Security to foreign Social Security officials and experts in related fields.

b. Develops and coordinates technical assistance to foreign Social Security institutions.

c. Serves as the SSA focal point in providing information about United States Social Security programs to foreign and international sources.

d. Plans and coordinates foreign travel by SSA officials.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Facilities Improvement and Repair Priority List for Fiscal Year 1990

AGENCY: Office of Construction Management, Interior.

The Facilities Improvement and Repair (FI&R) list has been prepared for Fiscal Year 1990 in accordance with House Report Number 98-886, page 52. "To avoid some of the problems experienced in the past, the Committee directs the Bureau to revise the FI&R Priority System by publishing in the **Federal Register** by October 1 of each fiscal year, the national list of projects expected to be accomplished that year within the available funds."

The notice for FY 1990 provides the approved list of FI&R projects. Construction of these projects is subject to the availability fo funds. The list is based upon the Bureau's criteria for ranking projects as published in the **Federal Register**, Volume 51, Number 30, Thursday, February 13, 1986, Page 5415.

The projects for FY 1990 are:

Bureauwide Code Compliance (Phase II)
Bureauwide Roof Repair (Phase II)
Acomita Elementary School, New Mexico
Laguna Elementary School, New Mexico
Riverside Indian School, Oklahoma
Haskell Indian Junior College, Kansas
Lac Courte Oreilles Ojibwa School, Wisconsin
Hannahville Indian School, Minnesota
Carter Seminary, Oklahoma
Jones Academy, Oklahoma
Sequoyah School, Oklahoma
Navajo Gas Lines, New Mexico and Arizona
Mariano Lake School, Arizona
Winslow Dormitory, Arizona
Santa Rosa Ranch School, Arizona
Chemawa Indian School, Oregon
Lummi Tribal School, Washington

FOR FURTHER INFORMATION CONTACT: Arthur M. Love, Jr., Director, Office of Construction Management, Department of the Interior, 18th & C Streets, NW., Mail Stop 2415, Washington, DC 20240.

Lou Gallegos,

Assistant Secretary, Policy, Budget & Administration.

Bureau of Land Management

[AK-932-00-4214-10; F-020174, F-35871, F-35872]

Correction of Land Description, Fort Greely Maneuver Area et al.; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This Notice corrects the legal description published for the Fort Greely Maneuver Area, Fort Greely Air Drop Area and the Fort Wainwright Maneuver Area, withdrawn by Public Law 99-606.

FOR FURTHER INFORMATION CONTACT: Sandra C. Thomas. BLM Alaska State Office, 222 W. 7th Avenue, #13, Anchorage, Alaska 99513-7599, 907-271-5477.

SUPPLEMENTARY INFORMATION: In the Notice published on February 23, 1987 (52 FR 5506), make the following corrections:

1. On page 5506, in the first column, under the heading Fort Greely Maneuver Area, the 17th and 18th lines of the legal description should read: "of the Fort Greely Military Reservation to a point on the north-south centerline of section 28, T. 11".

2. On the same page, in the third column, the 5th line should read: "feet) to a point on the east boundary line of section 27, T."

Bishop T. Buckle,

Deputy State Director, Lands & Renewable Resources.

BILLING CODE 4310-JA-M

Bureau of Reclamation

San Xavier Development Project, Pima County, Arizona

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of final environmental impact statement (FEIS); INT-FES-89-27.

SUMMARY: Pursuant to section 101(2)(C) of the National Environmental Policy Act of 1969, as amended, the Bureau of Reclamation has prepared a FEIS on the San Xavier Development Project. The project is an authorized feature of the Southern Arizona Water Rights Settlement Act of 1982 (SAWRSA). The FEIS addresses the impacts of developing approximately 9,400 to 13,500 acres for irrigated agriculture.

ADDRESSES: Single copies of the FEIS may be obtained on request to the Regional Director or the Arizona Projects Office at the addresses below.

Copies of the FEIS are available for public inspection at the following locations:

Regional Director, Bureau of Reclamation, Lower Colorado Regional Office, PO Box 427, Boulder City, NV 89005; Telephone: (702) 293-8710

Bureau of Reclamation, Environment and Planning Branch, U.S. Department of the Interior, 18th and C Streets NW., Room 7455, Washington, DC 20240; Telephone: (202) 343-4662

Arizona Projects Office, Bureau of Reclamation, 23636 North 7th Street, Phoenix, AZ 85024; Telephone: (602) 870-6760.

Libraries:

Bureau of Reclamation, Denver Office Library, Denver Federal Center, 6th and Kipling, Building 67, Room 167, Denver, CO 80225

Phoenix City Library, Main Library, 12 East McDowell, Phoenix, AZ 85004

Tucson Public Library, Regional Headquarters, 200 South 6th Avenue, Tucson, AZ 85701

San Xavier District Library, San Xavier District, Tucson, AZ 85634

Venito Garcia Library, Tohono O'odham Nation, Sells, AZ 85634.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Rinne (Regional Environmental Office, Lower Colorado Region), (702) 293-8560; or Dr. Wayne O. Deason (Manager of Environmental Services, Federal Center), (303) 236-0338.

SUPPLEMENTARY INFORMATION: The San Xavier Development Project was developed to response to the requirement of SAWRSA to design and construct a new efficient irrigation system for agricultural purposes within the San Xavier District. The FEIS identifies four alternatives and the no Federal action alternative. The proposed project will require the use of about 38,100 acre-feet of water per year on about 8,400 irrigable acres. It will also include land leveling and construction of a main canal, pipelines, field ditches, turnouts, floodways, and operational headquarters.

Public hearings were held on the Draft EIS in January 1989. As a result of the public hearings and the letters of comment, the FEIS addresses an Avra Valley alternative in greater detail. The FEIS also includes more detailed information regarding: plants with special significance to the Tohono O'odham people; the relationship between the Tohono O'odham people and their land; pesticides and health-related issues; and a summary of the public hearings, letters of comment, and responses.

Dated: October 13, 1989.

Dennis E. Schroeder,

Acting Deputy Commissioner.

BILLING CODE 4310-70-M

DEPARTMENT OF LABOR

Office of the Secretary

Agency Recordkeeping/Reporting Requirements Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its responsibilities under the Paperwork Reduction Act (44 U.S.C. chapter 35), considers comments on the reporting and recordkeeping requirements that will affect the public.

List of Recordkeeping/Reporting Requirements Under Review. As necessary, the Department of Labor will publish a list of the Agency recordkeeping/reporting requirements under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of the particular submission they are interested in.

Each entry may contain the following information:

The Agency of the Department issuing this recordkeeping/reporting requirement.

The title of the recordkeeping/reporting requirement.

The OMB and Agency identification numbers, if applicable.

How often the recordkeeping/reporting requirement is needed.

Who will be required to or asked to report or keep records.

Whether small businesses or organizations are affected.

An estimate of the total number of hours needed to comply with the recordkeeping/reporting requirements and the average hours per respondent.

The number of forms in the request for approval, if applicable.

An abstract describing the need for and uses of the information collection.

Comments and Questions

Copies of the recordkeeping/reporting requirements may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, telephone (202) 523-6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-1301, Washington, DC 20210. Comments should also be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for (BLS/DM/ESA/ETA/OLMS/MSHA/OSHA/PWBA/VETS), Office of Management and Budget, Room 3208, Washington, DC 20503 (Telephone (202) 395-6880).

Any member of the public who wants to comment on a recordkeeping/reporting requirement which has been submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

Revision

Employment and Training Administration

Job Corps Health Questionnaire

1205-0033; ETA 6-53, ETA 6-52

On occasion

Individuals or households

Form No.	Affected public	Respondents	Frequency	Average time per response
ETA 6-53	Individuals or households	103,000	One-time	12 minutes.
ETA 6-52	Individuals or households	309	One-time	1 minute.
				20,607 total hours.

The ETA 6-52 is used to obtain the health history of applicants to the program to determine medical eligibility. The applicant must not have a health condition which represents a potentially serious hazard to the youth or others, results in a significant interference with the normal performance of duties, or requires frequent, expensive or prolonged treatment. The ETA 6-52 is used to certify an applicant's child care arrangements.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

[Docket No. M-89-161-C]

Consolidation Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Consolidation Coal Company, Consol Plaza, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 77.902 (low- and medium-voltage ground check monitor circuits) to its Burning Star No. 2 Mine (I.D. No. 11-00610) and its Burning Star No. 4 Mine (I.D. No. 11-02024) both located in Perry County, Illinois. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that the fail safe ground check circuit is required to cause the circuit breaker to open when either the ground or pilot check wire is broken.

2. As an alternate method, petitioner proposes the following procedures:

(a) The ground phase protection required by the standard would be provided by dropping out a magnetic motor starter in lieu of tripping of a circuit breaker; and

(b) The short-circuit protection would be provided by a circuit breaker. The undervoltage protection would be provided by the megnatic motor starter which has been permitted by MSHA for some time. Overload protection would be provided by the magnetic motor starter and the circuit breaker.

3. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before December 7, 1989. Copies of the petition are available for inspection at that address.

Dated: October 30, 1989.

Patricia W. Silvey,

Director, Office of Standards, Regulations and Variances.

[FR Doc. 89-26198 Filed 11-6-89; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-89-144-C]

Twentymile Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Twentymile Coal Company, P.O. Box. 748, Oak Creek, Colorado 80467 has filed a petition to modify the application of 30 CFR 75.507 (power connection points) to its Foidel Creek Mine (I.D. No. 05-03836) located in Routt County, Colorado. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that except where permissible power connection units are used, all power-connection points outby the last open crosscut be in intake air.

2. As an alternate method, petitioner proposes to install two non-permissible pumps in boreholes drilled into sump areas of the mine. The petitioner also proposes to install additional pumps under similar circumstances in the future.

3. In support of this request, petitioner states that—

(a) The pump cannot start or operate if water is below the low water probe level;

(b) The pump installation would be equipped with a water level indicator consisting of a green light located at the pump electrical controls such that a miner can determine that the water level at the pump is sufficient to restart the pump; and

(c) The surface pump control and power circuits would be examined monthly.

4. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before December 7, 1989. Copies of the petition are available for inspection at that address.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corp. and Vermont Yankee Nuclear Power Station; Consideration of Issuance of Amendment to Facility Operating License and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DRP-28 issued to Vermont Yankee Nuclear Power Corporation (the licensee) for operation of the Vermont Yankee Nuclear Power Station located south of Brattleboro, Vermont.

The proposed amendment would reduce the frequency of the fire watch in the cable vault or switchgear room from continuous to not less than once-per-hour provided the appropriate fire detection system is operable. The fire watch would be implemented when the CO_2 system in either area becomes inoperable. If both the CO_2 system and the detection system are inoperable a continuous fire watch would be maintained. The Technical Specification requiring a continuous fire watch was implemented in 1976 prior to plant improvements which subsequently enhanced the capability of redundant equipment for safe shutdown in the event of a damaging fire; thus, this change is administrative as it merely updates the Technical Specifications to the surveillance requirements of the current NRC Standard Technical Specifications in regard to redundant equipment for safe shutdown.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

VOL 54 ISS 214 NO 7 1989 UMI

The Commission has made a proposed determination that the request for amendment involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The licensee has reviewed the proposed change utilizing the criteria specified in 10 CFR 50.92 and has determined:

This proposed change provides consistency in the application of compensatory measures for inoperable fire suppression systems at Vermont Yankee. This change, therefore, does not significantly increase the probability or consequences of an accident previously evaluated because the change is administrative and does not weaken or upgrade the facility. The proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated because the change is administrative and ensures that the plant does not exceed the applicable safety limits. The proposed change does not involve a significant reduction in a safety margin since the change is administrative and does not involve any physical change to the facility.

Therefore, based on the above considerations, the Commission has made a proposed determination that the amendment request involves no significant hazards considerations.

The Commission is seeking public comments on this proposed determination. Any comments received with 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Written comments may be submitted by mail to the Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this Federal Register notice. Written comments may also be delivered to Room P-223, Phillips Building, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:15 p.m. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC. The filing of requests for hearing and petitions for leave to intervene are discussed below.

By December 7, 1989, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as party in the proceeding must file a written petition for leave to invervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at Brooks Memorial Library, 224 Main Street, Brattleboro, VT 05301. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularly the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be interested in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements desecribed above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendments under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards considerations. The final determination will serve to decide when the hearing is held.

If the final determination is that the request for amendment involves no significant hazards considerations, the Commission may issue the amendment and make it effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If a final determination is that the amendment involves significant hazards considerations, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards considerations. The final determination will consider all public and state comments received. Should the Commission take this action, it will publish a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 325-6000 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Richard H. Wessman, Project Director: (petitioner's name and telephone number), (date petition was mailed), (plant name), and (publication date and page number of this Federal Register notice). A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to R.K. Gad, III, Esq., Ropes & Gray, 225 Franklin Street, Boston, Massachusetts 02110, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated October 16, 1989, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at Brooks Memorial Library, 224 Main Street, Brattleboro, VT 05301.

Dated at Rockville, Maryland, this 31st day of October 1989.

For the Nuclear Regulatory Commission.

Morton B. Fairtile,

Project Manager, Project Directorate II—Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 4910-62-M

Office of the Secretary

Reports, Forms, and Recordkeeping Requirements: Submittals to OMB on October 31, 1989

AGENCY: Office of the Secretary, DOT.

ACTION: Notice.

SUMMARY: This notice lists those forms, reports, and recordkeeping requirements imposed upon the public which were transmitted by the Department of Transportation on October 31, 1989, to the Office of Management and Budget (OMB) for its approval in accordance with the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35).

FOR FURTHER INFORMATION CONTACT: John Chandler, Annette Wilson, or Cordelia Shepherd, Information Requirements Division, M-34, Office of the Secretry of Transportation, 400 Seventh Street, SW., Washington, DC 20590, telephone, (202) 366-4735, or Edward Clarke, or Wayne Brough, Office of Management and Budget, New Executive Office Building, Room 3228, Washington, DC 20503, (202) 395-7340.

SUPPLEMENTARY INFORMATION:

Background

Section 3507 of title 44 of the United States Code, as adopted by the Paperwork Reduction Act of 1980, requires that agencies prepare a notice for publication in the Federal Register, listing those information collection requests submitted to the Office of Management and Budget (OMB) for initial, approval, or for renewal under that Act. OMB reviews and approves agency submittals in accordance with criteria set forth in that Act. In carrying out its responsibilities, OMB also considers public comments on the proposed forms, reporting and recordkeeping requirements. OMB approval of an information collection requirement must be renewed at least once every three years.

Information Availability and Comments

Copies of the DOT information collection requests submitted to OMB may be obtained from the DOT officials listed in the "FOR FURTHER INFORMATION CONTACT" paragraph set forth above. Comments on the requests should be forwarded, as quickly as possible, directly to the OMB officials listed in the "FOR FURTHER INFORMATION CONTACT" paragraph set forth above. If you anticipate submitting substantive comments, but find that more than 10 days from the date of publication are needed to prepare them, please notify the OMB officials of your intent immediately.

Items Submitted for Review by OMB

The following information collection requests were submitted to OMB on October 31, 1989.

DOT No: 3278.

OMB No: 2125-0545.

Administration: Federal Highway Administration.

Title: 1990 Nationwide Personal Transportation Study (NPTS).

Need for Information: For DOT/FHWA to have more current data in order to determine the nature and extent of present travel needs, and to plan for meeting the nation's travel needs of the future.

Proposed Use of Information: The NPTS is used to obtain data needed for policy analysis, program planning and program management for sponsoring agencies within DOT.

Frequency: Other—currently every 6-7 years.

Burden Estimate: 21,940.

Respondents: Individuals or households.

Form(s): None.

Average reporting time: 45 minutes.

BEST COPY AVAILABLE

DOT No: 3279.
OMB No: 2125–0512.
Administration: Federal Highway Administration.
Title: Operations Plan—Traffic Surveillance and Control Systems.
Need for Information: For State and local highway agencies to prepare an operations plan for proposed Federal-aid traffic surveillance and control projects.
Proposed Use of Information: To ensure FHWA that an operations plan required from the State and local agencies serves the purposes intended and that adequate resources will be available to operate the system.
Frequency: Other—Non-recurring.
Burden Estimate: 4,000.
Respondents: State and local agencies.
Form(s): None.
Average Burden Hours Per Response: 160 hours.

DOT No: 3280.
OMB No: 2125–0518.
Administration: Federal Highway Administration.
Title: Financial Responsibility for Motor Carriers of Passengers.
Need for Information: To provide proof that insured motor carriers are in compliance with a specific amount of insurance as required by law.
Proposed Use of Information: To provide FHWA assurance during its scheduled inspections at motor carrier offices that each carrier has a minimum level of insurance coverage as required by law.
Frequency: Annually.
Burden Estimate: 75 hours.
Respondents: Insurance Companies.
Form(s): MCS–90B, MCS–82B.
Average Burden Hours Per Response: 3 minutes.

DOT No: 3281.
OMB No: 2125–0526.
Administration: Federal Highway Administration.
Title: Motor Carrier Accident Reports.
Need for Information: To meet the requirements of 49 CFR 394 for interstate and commercial motor carriers to report accidents involving fatalities, personnel injuries or $4,400 or more in property damages.
Proposed Use of Information: For FHWA to identify accident causes and to support rulemaking.
Frequency: On occasion.
Total Burden Estimate: 36,820.
Respondents: Motor Carriers.
Form(s): MCS 50–T and MCS 50–B.
Average Burden Hours Per Response: 1 hour.

DOT No: 3282.
OMB No: New.
Administration: Federal Aviation Administration.
Title: Implementation of the Equal Access to Justice Act (EAJA).
Need for Information: The information must be obtained from the applicant in order to determine the applicant's eligibility for the EAJA Award.
Proposed Use of Information: The information is used by the Department of Transportation Administrative Law Judge to determine that only qualified applicants receive EAJA Awards.
Frequency: On occasion.
Burden Estimate: 120 hours.
Respondents: Individuals and/or businesses.
Form(s): None.
Average Burden Hours Per Response: 5 hours.

DOT No: 3283.
OMB No: New.
Administration: U.S. Coast Guard.
Title: Plan Review for Facilities with Vapor Control Systems.
Need for Information: This information collection requirement is necessary to determine if vapor control systems for vessels or facilities are developed in accordance with safety standards. Information is also needed from persons or organizations who desire to become a Coast Guard certified entity to ensure that they meet the necessary qualifications.
Proposed Use of Information: Coast Guard uses this information to ensure that the vapor control systems comply with regulatory standards and to make decisions on the application for certification.
Frequency: On occasion.
Burden Estimate: 1,640.
Respondents: Vessels/facilities with marine vapor control systems.
Form(s): None.
Average Burden Hours Per Respondent: Reporting burden: 23 hours; recordkeping: 5 minutes.

DOT No: 3284.
OMB No: 2115–0025.
Administration: U.S. Coast Guard.
Title: Oil Record Books and Garbage Record Books for Ships.
Need for Information: This collection of information is needed to enable the Coast Guard to meet its statutory requirements for preventing oil and garbage pollution of the sea.
Proposed Use of Information: The Coast Guard uses the information to verify sightings of violations, determine the level of compliance with MAPOL 73/78, and reinforce the discharge provisons.
Frequency: On occasion.
Burden Estimate: 116,136 hours.
Respondents: Owners/operators of manned, oceangoing vessels engaged in commerce.
Form(s): CG–4602A.
Average Burden Hours Per Respondent: Recordkeeping: 28.4 hours.

DOT No: 3285.
OMB No: 2115–0527.
Administration: U.S. Coast Guard.
Title: Appeal Process for Requirements under Ports and Waterways Safety Control of Vessel Operations and Cargo Transfers.
Need for Information: This information collection requirement is necessary to allow individuals affected by a safety zone to ask for relief from the requirements.
Proposed Use of Information: Coast Guard uses this information to grant relief from the requirements of 33 CFR 160.7 without compromising the safety of vessels, harbors, ports and waterfront facilities.
Frequency: On occasion.
Burden Estimate: 150.
Respondents: Businesses.
Form(s): None.
Average Burden Hours Per Response: 1 hour 30 minutes.

DOT No: 3286.
OMB No: 2115–0505.
Administration: U.S. Coast Guard.
Title: Title 46 CFR, subchapters D, H, I, I-A, R, U and J; Plan Approval and Records for Tank Passager, Cargo, and Miscellaneous Vessels, Mobile Offshore Drilling Units, Nautical Schools, Oceanographic Vessels and Electrical Engineering.
Need for Information: This information collection requirement is necessary to ensure that the structural adequacy, suitable accommodations, and generally, that each vessel is in full compliance with the applicable marine safety regulations. It is also needed to ensure safe and proper operation of the vessel.
Proposed Use of Information: Coast Guard uses this information to determine if the vessel's construction, arrangement and equipment meet the necessary regulations prior to being built. Vessel operating personnel also use the information for safe and proper operation of the vessel.
Frequency: On occasion.
Burden Estimate: 7200.
Respondents: Ship builders, designers, owners and operators.
Form(s): None.
Average Burden Hours Per Respondent: 75 minutes.

DOT No: 3287.
OMB No: 2115–0077.
Administration: U.S. Coast Guard.

Title: Letter of Intent.
Need for Information: This information collection requirement ensures compliance with 33 USC 1221. It is needed to alert Coast Guard enforcement personnel that a facility falling under the regulation is planning to begin transfer operations or has changed ownership.
Proposed Use of Information: Coast Guard uses this information to identify terminals at which oil and hazardous materials transfer operations will take place. It is a preventive measure against oil and hazardous materials pollution.
Frequency: On occassion.
Burden Estimate: 720.
Respondents: Owners/operators of marine bulk oil or hazardous materials facilities.
Form(s): None.
Average Burden Hours Per Respondent: Reporting: 1 hour 30 minutes; Recordkeepng: approximately 2 minutes.

DOT No: 3288.
OMB No: 2115–0551.
Administration: U.S. Coast Guard.
Title: Vessel Reporting Requirements.
Need For Information: The information collection requirement increases the likelihood of timely assistance for vessels in distress. This is especially true of those who are unable to communicate their distresses to the owner or others who could help.
Proposed Use of Information: Coast Guard uses this information to determine if the vessel reported on is in distress and to take action to provide needed assistance.
Frequency: On occasion.
Burden Estimate: 929.
Respondents: Owner, charterer, managing operator or agent of U.S. vessels.
Form(s): None.
Average Burden Hours Per Response: 15 minutes.

DOT No: 3289.
OMB No: 2115–0540.
Administration: U.S. Coast Guard.
Title: 33 CFR subchapter P—Ports and Waterways Safety.
Need for Information: This information collection requirement is necessary to allow persons affected by regulations in 33 CFR to request a deviation from any of the requirements.
Proposed Use of Information: Coast Guard uses this information to determine if the request is justified and that the level of safety will not be reduced if the deviation is granted.
Frequency: On occasion.
Burden Estimate: 50 hours.
Respondents: Vessels master or operator.
Form(s): None.
Average Burden Hours Per Response: 2 hours.

Issued in Washington, DC on October 31, 1989.

Richard B. Chapman,
Acting Director of Information, Information Resource Management.

Federal Aviation Administration

[Summary Notice No. PE–89–42]

Petition for Exemption; Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before November 27, 1989.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–10), Petition Docket No. _____, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–10), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on November 1, 1989.

Deborah Swank,
Acting Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 23921.
Petitioner: FlightSafety International.
Regulations Affected: 14 CFR 61.57(a)(1), (c), and (d); 61.58(c)(1) and (d); 61.63(d) (2) and (3); 61.67(d)(2); 61.157(d) (1) and (2) and (e) (1) and (2); Part 61, Appendix A; and Part 121, Appendix H.
Description of Relief Sought: To extend Exemption No. 4058D that allows petitioner to use FAA-approved simulators to meet certain training and testing required by the FAR. Exemption No. 4058D will expire on February 28, 1990.

Docket No.: 24770.
Petitioner: FlightSafety International.
Sections of the FAR Affected: 14 CFR 61.57(a)(1) and 61.58(c).
Description of Relief Sought: To extend Exemption No. 4609B that allows pilots contracting with petitioner to substitute an FAA-approved helicopter training program using petitioner's training facilities for the requirements of §§ 61.57(a)(1) and 61.58(c) for the Sikorsky S–76 aircraft and § 61.57(a)(1) for the Bell 222 aircraft. Exemption No. 4609B will expire on January 31, 1990.

Docket No.: 24792.
Petitioner: Air Transport Association of America.
Sections of the FAR Affected: 14 CFR 121.337.
Description Relief Sought: To allow petitioner's all-cargo carriers relief from the requirement that a portable protective breathing equipment unit be installed in the class E cargo compartment of their aircraft.

Docket No.: 25403.
Petitioner: CCAir, Inc.
Sections of the FAR Affected: 14 CFR 121.371(a) and 121.378.
Description of Relief Sought: To extend Exemption No. 4926 that allows petitioner to use foreign vendors that are original equipment manufacturers of components in support of petitioner's British Aerospace Jetstream Model 3101 and Short Brothers SD 3–60 aircraft. Exemption No. 4926 will expire on February 28, 1990.

Docket No.: 25559
Petitioner: Aerospace Industries Association.
Sections of the FAR Affected: 14 CFR 45.11(a).

VOL 54 NO 7 1989 ISS 214 UMI

Description of Relief Sought: To extend, indefinitely, Exemption No. 4913 that allows manufacturers of aircraft intended for operation under parts 121 or 127 or in commuter air carrier operation (as defined in Part 135 of SFAR 38–4), which are maintained under an FAA-approved continuous airworthiness maintenance program, to not install identification plates during the production phase on the exterior of the aircraft as specified in the rule. The exemption includes aircraft manufactured for export and includes all activities until title is transfered. Exemption No. 4913 will expire on February 18, 1990.

Docket No.: 25789.
Petitioner: Martin Aviation, Inc.
Sections of the FAR Affected: 14 CFR 43.3(g).
Description of Relief Sought: To allow petitioner's pilots to remove and replace passenger seats to reconfigure its aircraft for passenger and cargo operations.

Docket No.: 25873.
Petitioner: Lone Star Industries, Inc.
Sections of the FAR Affected: 14 CFR 61.58(c).
Description of Relief Sought: To allow pilots employed by petitioner to complete a 24-month pilot-in-command check for the BA 1–11 in an FAA-approved simulator.

Docket No.: 28008.
Petitioner: Life Industries International, Inc.
Sections of the FAR Affected: 14 CFR 133.45(e)(1), (2), and (3).
Description of Relief Sought: To allow certain rotorcraft to participate in the research, development, and implementation of equipment and aircrew training for emergency life saving operations involving personnel lifting devices.

Docket No.: 19634.
Petitioner: Douglas Aircraft Corporation.
Sections of the FAR Affected: 14 CFR 121.310(d)(4).
Description of Relief Sought: To extend Exemption No. 3055D that allows operations of DC–8 aircraft with an emergency light system without a cockpit control device that has an "on," "off," and "armed" position.

Grant, October 27, 1989. Exemption No. 3055E

Docket No.: 20853.
Petitioner: United Airlines, Inc.
Regulations Affected: 14 CFR 121.99 and 121.351(a).
Description of Relief Sought/ Disposition: To extend Exemption No. 3122, as amended, that allows petitioner to operate its turbojet airplanes in extended overwater operations with one high frequency communications radio system and one long range navigation system within certain named areas subject to certain conditions and limitations.

Partial Grant, October 26, 1989. Exemption No. 3211E

BILLING CODE 4910–13–M

DEPARTMENT OF THE TREASURY

Fiscal Service

[Department of the Treasury Circular, Public Debt Series No. 4–67, Second Revision]

U.S. Savings Bonds; Revised Fee Schedule

AGENCY: Bureau of the Public Debt, Fiscal Service, Treasury.

ACTION: Notice of correction to prior Notice concerning calculation of issuing agent fees and payment dates.

SUMMARY: This Notice is being published to correct the time period within which the Bureau will pay fees to issuing agents for-over-the-counter sales of United States Savings Bonds.

FOR FURTHER INFORMATION CONTACT: Dean A. Adams, Assistant Chief Counsel, Bureau of the Public Debt, Savings Bond Operations Office, Parkersburg, WV 26106–1328 (304) 420–6505.

SUPPLEMENTARY INFORMATION: The original Notice, published in the Federal Register on October 3, 1989 (54 FR 40634), sets forth a revised schedule for fees payable to eligible issuing agents for United States Savings Bonds, sold over-the-counter and through Bond-a-Month plans, and establishes payment dates for such fees. The date for payment of the fees by the Bureau was incorrectly stated to be within (60) days after the close of the quarter. The Notice should have stated that payments will be made by the Bureau within fifty (50) days after the close of the quarter. The errors occurred as follows: On page 40634, second column, first full paragraph, second line from the bottom; On page 40634, third column, paragraph (a) "Class 1 fee", third line from the bottom; and page 40635, second column, second full paragraph beginning "payroll fee payments", third line from the bottom.

Dated: November 2, 1989.
Richard L. Gregg,
Commissioner.

Bureau of the Public Debt

[Department of the Treasury Circular, Public Debt Series, No. 3–72, Third Revision]

Designation of Federal Reserve Banks and Branches for Acceptance of Subscriptions for Purchase of United States Treasury Securities—State and Local Government Series

AGENCY: Bureau of the Public Debt, Fiscal Service, Treasury.

ACTION: Notice.

SUMMARY: Notice is hereby given that subscriptions for purchase of United States Treasury Certificates of Indebtedness, Notes, and Bonds of the State and Local Government Series will be accepted only at Federal Reserve Banks and Branches at the following locations: Boston, Charlotte, Chicago, Cincinnati, Dallas, Jacksonville, Kansas City, Louisville, Minneapolis, New York, Philadelphia, and Seattle. On and after the effective date of this notice, subscriptions will be accepted only at these above designated Banks and Branches.

EFFECTIVE DATE: December 1, 1989.

FOR FURTHER INFORMATION CONTACT: Margaret Marquette, Attorney-Advisor (202) 447–0959, or Sandy Dyson, Attorney-Advisor (202) 376–4320.

SUPPLEMENTARY INFORMATION: The Department of the Treasury, under the authority of chapter 31 of title 31, United States Code, offers United States Treasury Certificates of Indebtedness, Notes, and Bonds of the United States State and Local Government Series. These securities, characterized as time deposit, demand deposit, and special zero interest, are governed by regulations appearing in 31 CFR Part 344 (Department of the Treasury Circular No. 372, Third Revision), published as a final rule in the July 7, 1989, Federal Register, pages 28752–28761. The regulations provided that subscriptions for the purchase of securities under the offering must be submitted to a designated Federal Reserve Bank or Branch. Heretofore, no designation had been made; subscriptions have been accepted at any Federal Reserve Bank or Branch. This notice designates those Federal Reserve Banks and Branches that, as of the effective date of this notice, will accept subscriptions. The designations are subject to change by the Department of the Treasury; any future changes thereof will be published by notice in the Federal Register.

Dated: November 1, 1989.
Van Zeck,
Acting Commissioner of the Public Debt.

Sunshine Act Meetings

Federal Register
Vol. 54, No. 214
Tuesday, November 7, 1989

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL RESERVE SYSTEM
Board of Governors Meeting
TIME AND DATE: 12:00 noon, Monday, November 13, 1989.
PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, NW., Washington, DC 20551.
STATUS: Closed.
MATTERS TO BE CONSIDERED:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.
2. Any items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452-3204. You may call (202) 452-3207, beginning at approximately 5 p.m. two business days before this meeting, for a recorded announcement of bank and bank holding company applications scheduled for the meeting.

Dated: November 3, 1989.
Jennifer J. Johnson,
Associate Secretary of the Board.
[FR Doc. 89-26363 Filed 11-3-89; 3:28 pm]
BILLING CODE 6210-01-M

INTERNATIONAL TRADE COMMISSION
Meeting
[USITC SE-89-35]
TIME AND DATE: Wednesday, Nov. 8, 1989 at 10:00 a.m.
PLACE: Room 101, 500 E Street, SW., Washington, DC 20436.
STATUS: Open to the public.
MATTERS TO BE CONSIDERED:

1. Agenda
2. Minutes
3. Ratifications
4. Petitions and Complaints
5. Inv. No. 731-TA-451 (P) (Gray Portland Cement and Cement Clinker from Mexico)—briefing and vote.
6. Any items left over from previous agenda.

CONTACT PERSON FOR MORE INFORMATION: Kenneth R. Mason, Secretary, (202) 252-1000.

Dated: October 27, 1989.
Kenneth R. Mason,
Secretary.

Part II

Department of Housing and Urban Development

Office of the Assistant Secretary for Community Planning and Development

24 CFR Part 576
Emergency Shelter Grants Program; Stewart B. McKinney Homeless Assistance Act; Final Rule

VOL 54 ISS 214 NO 7 1989 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

24 CFR Part 576

[Docket No. R-89-1434; FR-2562-F-05]

RIN 2506-AA96

Emergency Shelter Grants Program; Stewart B. McKinney Homeless Assistance Act

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Final rule.

SUMMARY: This final rule codifies the amendments to the Emergency Shelter Grants (ESG) program contained in the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988). These amendments, which were published in a Notice on January 9, 1989, revised the requirements of 24 CFR part 576 by: (1) Permitting States to distribute ESG funds directly to private nonprofit organizations if the relevant unit of general local government certifies that it approves the proposed project; (2) increasing from 15 to 20 percent the proportion of ESG assistance that a State or unit of local government may use to provide essential services; (3) in the case of States, providing that each State administer its grants so that on an aggregate basis, the amount that its State recipients use for essential services does not exceed the 20 percent limitation; (4) permitting ESG funds to be used for homeless prevention efforts; (5) in the case of assistance solely for operating costs and essential services, requiring that the homeless services or shelters be made available for the period during which the assistance is provided, without regard to a particular site or structure, as long as the same general population is served; and (6) providing for the assumption of environmental review responsibilities by certain grantees and recipients.

EFFECTIVE DATE: Under section 7(o)(3) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)(3)), this final rule cannot become effective until after the first period of 30 calendar days of continuous session of Congress which occurs after the date of the rule's publication. HUD will publish a notice of the effective date of this rule following expiration of the 30-session-day waiting period. Whether or not the statutory waiting period has expired, this rule will not become effective until HUD's separate notice is published announcing a specific effective date.

FOR FURTHER INFORMATION CONTACT: James N. Forsberg, Special Needs Assistance Coordinator, Room 7228, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 755-6300. Hearing or speech impaired individuals may call HUD's TDD number: (202) 755-5965. [These are not toll-free telephone numbers].

SUPPLEMENTARY INFORMATION: The information collection requirements contained in this final rule have been submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act of 1980. Expedited review has been requested by December 7, 1989, so that the application process described in this rule may be carried out following OMB approval of the necessary collections of information.

Pending approval of these collections of information by OMB and the assignment of an OMB control number, no person may be subjected to a penalty for failure to comply with these information collection requirements. The OMB control number, when assigned, will be announced by separate notice in the **Federal Register**, at the same time that the rule's effective date is published.

Public reporting burden for each of these collections of information is estimated to include the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the documents making up the collection of information. Information on the estimated public reporting burden is provided under the Preamble heading, "Other Matters." Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Housing and Urban Development, Rules Docket Clerk, 451 Seventh Street SW., Room 10276, Washington, DC 20410; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

Background

On December 17, 1986, the Department published a proposed rule and program requirements (51 FR 45278) implementing the Emergency Shelter Grants ("ESG") program contained in title V, part C of HUD's appropriation act for the 1987 fiscal year (H.R. 5313). A final rule published on October 19, 1987 (52 FR 38864) replaced the 1986 proposed rule and program requirements and continues to govern the use and reallocation of funds appropriated for the 1986 ESG program.

On July 22, 1987, the President approved the Stewart B. McKinney Homeless Assistance Act (Pub. L. 100-77) (the 1987 McKinney Act) reauthorizing, with amendment, the Emergency Shelter Grants program. A proposed rule for the 1987 ESG program was published on November 6, 1987 (52 FR 42864), and a final rule was published on August 10, 1988 (54 FR 30186). The final rule is codified at 24 CFR part 576.

Subsequently, the Stewart B. McKinney Homeless Assistance Amendments Act (Pub. L. 100-628, approved November 7, 1988) (the 1988 McKinney Act) was enacted, amending several of the requirements in the 1987 McKinney Act. In accordance with section 485 of the 1988 McKinney Act, the Department implemented the 1988 amendments by a Notice providing for immediate effect (published January 9, 1989, 54 FR 750). The Notice, which solicited public comment, is the basis for the amendments to 24 CFR part 576 contained in this final rule.

Discussion of Public Comments and Changes Made in the Final Rule

I. Response to Public Comments

The Department received two public comments in response to its January 9, 1989 ESG notice implementing the 1988 McKinney Act amendments, one from New York City and the other from the City of Boston.

New York City commented on the change that requires States, Territories, formula cities and counties, and other units of general local government to assume responsibility for the environmental review. The commenter contends that HUD's environmental review procedures in 24 CFR part 58, for which the applicants described above are required to assume responsibility, are too time-consuming and strict, causing delays in beginning construction. New York City believes that there should be a provision for a waiver of compliance with HUD procedures for applicants that are subject to other state and local environmental review requirements.

Section 482 of the 1988 McKinney Act provides that the regulations and procedures applicable under section 104(g) of the Housing and Community Development Act of 1974 are to be applied to the Emergency Shelter Grants program. Section 104(g) authorizes HUD to assign the Federal environmental responsibilities to grantees deemed to have the legal capacity for environmental review (States, metropolitan cities, urban counties, and other units of general local government) and to define how the responsibilities are to be performed. The regulations at 24 CFR part 58 describe the requirements for grantees that assume the responsibilities.

The 1988 McKinney Act recognizes that the objectives of the Emergency Shelter Grants program are best served by a consolidation of environmental review responsibilities at the applicant level. Many applicants seek funding under other McKinney Act programs, and a single environmental review should often suffice for those applicants. According to the Report of the House Committee on Banking, Finance and Urban Affairs, the intent of section 482 of the 1988 McKinney Act was to expedite the consideration of applications. However, the Report states that the Committee expects all applicants to adhere to all requirements of the National Environmental Policy Act (NEPA) and that "this amendment does not lessen any requirement for any project to comply with the NEPA standards." (See H.R. Rep. No. 100-718, Part II, 100th Cong., 2d Sess. 39 (1988).)

The requirements of statutes, Executive Orders, and the regulations of oversight agencies that are imposed on applicants through part 58 cannot be waived. Those that are regulatory, i.e., the Council on Environmental Quality NEPA regulations (40 CFR parts 1500-1508) and the Advisory Council on Historic Preservation regulations (36 CFR part 800), make some provision for "emergencies," but these are for conditions more extreme than a concern for processing delays. Compliance with the review process and time periods under the authorities listed in 24 CFR 58.5 is mandatory—whether responsibility for review is assigned to the applicant under section 104(g) or retained and exercised by HUD under 24 CFR part 50. In addition, HUD does not have the discretion to substitute State or local environmental requirements for the Federal requirements.

In § 576.52, the final rule clarifies that applicants assuming responsibility for environmental reviews may arrange for local governments with the appropriate technical capability to conduct the technical review, as long as the applicants still retain all legal responsibilities, *i.e.*, independently evaluate information submitted and assume responsibility for its accuracy, scope, and content and carry out any mitigation measures called for by the review. Applicants may also adopt prior reviews conducted by HUD or another governmental unit if the reviews meet the particular requirements of the Federal environmental law or authority under which they would be adopted, and only under certain conditions (*e.g.*, a determination that no environmentally significant changes have occurred since the review was done.)

The City of Boston had a number of comments on definitions used in the Emergency Shelter grants program. Although these definitions are contained in the August 10, 1988 ESG final rule (codified at 24 CFR part 576), and not in the January 9, 1989 Notice published for comment, the Department has nevertheless considered these comments.

Boston claimed that the definition of "conversion" (§ 576.3 of the final rule) is unclear, since it fails to state whether a change in the use of a building to an emergency shelter, involving conversion and rehab costs that do not exceed 75 percent of the value of the building before conversion, should be treated as a conversion or a renovation. The commenter noted that the clarification is important since it determines whether, under § 576.73, the facility must be used as a homeless shelter for a 3- or 10-year period.

The Department agrees with this comment, and has clarified the definitions of "conversion" and "rehabilitation" by providing that if a change in the use of a building to an emergency shelter involves costs not in excess of 75 percent of the value of the building before conversion, it would be considered rehabilitation. In such event, the three year use requirement under § 576.73 would apply.

Boston also questioned why the definition of "emergency shelter" (§ 576.3) includes a requirement that such facilities provide overnight sleeping accommodations. By doing so, the definition makes ineligible those facilities that provide temporary shelter only during the day, or that provide supportive services without providing shelter.

HUD agrees that the definition of "emergency shelter" is too restrictive, and the phrase "with overnight sleeping accommodations" is removed in this final rule. Emergency shelter is now defined to mean "any facility, the primary purpose of which is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless." As a result, day centers and drop-in centers are eligible to receive funds for all ESG eligible activities.

Boston also asked that the definition of "obligated" be modified to include a letter of award from a unit of local government to a nonprofit recipient, because of difficulties in negotiating and executing loan agreements for the obligation of grant funds within the 180-day deadline. HUD has made the requested change, and the definition of "obligated" now includes grant amounts that a unit a general local government or State awards to a provide nonprofit organization by a letter of award, so long as the letter of award requires payment from the grant amount.

Boston also commented that the requirement under § 576.55 that formula cities and counties spend all funds for budgeted activities within one year of the date of the grant award is unrealistic and should be removed. In particular, Boston claimed that the requirement is unrealistic for projects that involve assistance for eligible activities under § 576.21(a) (2) or (3), since funds awarded for operating costs or essential services cannot begin to be spent until rehabilitation efforts are completed.

Initially, it should be noted that the comment reflects a possible misunderstanding about when the one-year standard applies. Under the existing ESG regulations, the one-year expenditure requirement applies only when a formula city, county, or State uses the ESG funds itself to undertake homeless activities. It does not apply when the formula city, county, or State allocates its ESG funds to a third party.

Nevertheless, HUD agrees with Boston's comment that the one-year expenditure requirement is too strict, and has decided instead to apply a single expenditure standard, regardless of whether ESG funds are spent directly by a formula city or county, a State, or by a third party. The new standard requires that State recipients spend all of the State funds within 24 months of the date that the State makes available all of its grant funds to its recipients. (See § 576.55(a)(2)(ii).) For formula cities and counties, and territories, all of the grant funds must be spent within 24 months of the grant award by HUD. (See § 576.55(b)(2).)

II. Implementation of the 1988 McKinney Act

In addition to the changes noted above, the Department is also codifying in 24 CFR part 576 the amendments contained in the Stewart B. McKinney Homeless Assistance Amendments Act, as published in the January 9, 1989 ESG

VOL 54 ISS 214 NO 7 1989 UMI

Notice (54 FR 750). These changes are discussed below.

(A) Distribution of Assistance by States to Private Nonprofit Organizations

Section 413 of the 1987 McKinney Act required States to distribute all of their grant amounts to units of general local government. Section 421 of the 1988 McKinney Act amended section 413 to permit States also to distribute funds to private nonprofit organizations, if the relevant unit of general local government certifies that it approves the project. Several sections of the final rule have been amended to reflect this change, including § 576.3 (definitions of "nonprofit recipient", "obligated", and "State recipients"); and § 576.51(b)(2)(iii) (application).

(B) Essential Services

Section 422(a)(1) of the 1988 McKinney Act increased the limitation on essential services from 15 to 20 percent. This amendment is reflected at § 576.21(b) (1) and (2) of the final rule. HUD has construed section 422(a)(1) as also permitting the Department to apply its waiver authority to the 20 percent limitation (see § 576.21(c)).

In calculating the 20 percent limitation on essential services, HUD is required to include homeless prevention activities under § 576.21(a)(4). Similarly, homeless prevention activities are treated as essential services for purposes of qualifying for a waiver of the 20 percent limitation.

With regard to grants made to States, section 422(a)(2) of the 1988 McKinney Act provides that the 20 percent limitation is to be measured against "the aggregate amount of all (ESG) assistance to a State or a local government." Grant amounts that the State distributes to individual State recipients are not subject to the percentage limit. Thus, States are free to vary the percentage of ESG grant amounts that State recipients may use for essential services above or below the 20 percent standard. However, each State must administer its grant so that, on an aggregate basis, the amount expended on essential services does not exceed the applicable limit. (See § 576.21(b)(2).)

For ESG formula cities and counties, as well as units of local government receiving reallocated funds from HUD, the 20 percent limitation on essential services continues to apply at the local level. In accordance with existing requirements at § 576.21(b)(1) of this final rule, the limitation will apply to the total of each grant amount provided by HUD to these entities.

(C) Homeless Prevention

Section 423 of the 1988 McKinney Act added a new category of eligible activities under the ESG program: homeless prevention. Section 576.3 provides a definition of "homeless prevention," and the applicable regulatory standards are located at § 576.21(a)(4) of the final rule.

In addition, it should be noted that HUD is applying a different obligation and expenditure standard for homeless prevention activities funded by States. Because it is difficult for States to ascertain local homeless prevention needs within the current 65-day deadline, HUD is permitting States to set aside up to 10 percent of their grant funds for homeless prevention efforts. These set-aside funds must be made available to State recipients within 180 days of the grant award by HUD. Thereafter, State recipients have 30 days to obligate, and 180 days to spend, the funds for homeless prevention activities. This language appears at § 576.65 of the final rule.

(D) Required Use of Building as a Shelter

Section 415(c)(1) of the 1987 McKinney Act requires each ESG recipient to certify to HUD that it will maintain as a homeless shelter, for a statutorily required time period, any building for which ESG assistance is used. Under section 424 of the 1988 McKinney Act, this statutory "use" requirement continues to be 10 years in the case of ESG activities involving major rehabilitation or conversion. Similarly, the use requirement for rehabilitation activities (other than major rehabilitation or conversion) remains unchanged at three years.

However, the use requirements for activities conducted under sections 414(a) (2) and (3) of the 1988 McKinney Act—essential services and maintenance and operating costs, respectively—have been legislatively revised:

—Section 424 of the 1988 McKinney Act now specifies that an ESG recipient using program funds to provide essential services, or maintenance and operating costs (including the leasing of commercial facilities), must carry out the assisted activities "for the period during which (ESG) assistance is provided." (See § 576.21(a)(2) and (a)(3), and § 576.73(a)(2)(i).) The Act further provides that recipients may use a different site or shelter during this period, so long as the same general population is served.

In implementing this statutory standard, the Department interprets the term "same general population" to mean the types of homeless persons originally served with the ESG assistance (such as specific categories of the homeless, including battered spouses, runaway children, families, or chronically mentally ill individuals), or persons in the same geographic area. (See § 576.73(a)(2)(ii).)

—Using ESG funds for homeless prevention activities under § 576.21(a)(4) does not trigger any period of use requirements.

The Department intends to apply these use requirements to both current and prospective grantees.

(E) Environmental Review

Section 482 of the 1988 McKinney Act revised the environmental review procedures for assistance and projects under Title IV of the McKinney Act by making applicable the provisions of, and regulations and procedures under, section 104(g) of the Housing and Community Development Act of 1974 (HCD Act of 1974).

Section 104(g)(1) authorizes HUD to provide for the release of funds for particular projects to "recipients of assistance" under Title I of the HCD Act of 1974 that assume all of HUD's responsibilities for environmental review, decisionmaking, and action under the National Environmental Policy Act of 1969 and certain other environmental authorities.

Section 104(g)(2) contains the requirements for HUD approval of the release of funds for specific projects.

Section 104(g)(4) provides that in the case of grants to a State in the States program, the State will perform HUD's role with respect to the release of funds to particular projects to be undertaken by units of general local government receiving grant amounts from the State.

HUD regulations implementing section 104(g) are found in 24 CFR part 58. Aside from the NEPA requirements, the additional environmental authorities with which recipient States and units of local government under the HCD Act of 1974 must comply are listed at 24 CFR 58.5.

In applying the regulations and procedures under section 104(g) to the McKinney Act, the Department is providing for the assumption of environmental review responsibilities only by States, Territories and units of general local government. (See § 576.52.) The Department will perform the required environmental review for nonprofit organizations that receive

reallocated funds from HUD in accordance with 24 CFR part 50 and § 576.53(c)(3), and for any governmental entities with general purpose powers found not to have the legal capacity to carry out this reponsibility. Where governmental entities assume the environmental review, these responsibilities will be carried out as follows:

—Applicants that are States, Territories, formula cities and counties, or other governmental entities with general purpose powers, and that are deemed to have the legal capacity to do so, must assume responsibility for environmental review, decisionmaking, and action for each application for assistance in accordance with part 58. Specifically, States, Territories, or units of general local government must complete the environmental review for each application for assistance, as follows:

(1) In the case of ESG grants to States that are distributed to units of general local government, the unit of general local government must assume the environmental responsibilities specified in section 104(g)(1) of the Housing and Community Development Act of 1974 and the State will assume HUD's functions with regard to the release of funds, as provided by section 104(g)(4) of that Act.

(2) In the case of ESG grants to States that are distributed to nonprofit organizations, the State will assume the environmental responsibilities specified in section 104(g)(1) of that Act and HUD will perform the release of funds functions of section 104(g)(2).

(3) In the case of ESG grants to a unit of general local government or Territory, whether used directly by the grantee or distributed to nonprofit organizations, the unit of general local government or Territory will assume the environmental responsibilities specified in section 104(g)(1) of that Act and HUD will perform the release of funds functions of section 104(g)(2).

III. Other Changes

1. The definitions at § 576.3 of "conversion", "major rehabilitation", "rehabilitation", and "renovation" have been amended to require compliance with local government safety and sanitation standards. (This requirement also remains codified at § 576.75.) These definitions have also been amended to require that all buildings of 15 or more units that are rehabilitated meet the accessibility requirements of section 504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23(a) or (b).

In addition, the definition of "rehabilitation" is amended to include structural changes necessary to make the structure accessible to persons with physical handicaps.

2. A definition of "essential services" is included at § 576.3 of the rule. The definition incorporates the same activities that were listed in the ESG final rule, as well as related activities.

3. The definition of "operation" at § 576.21(a)(3) is amended to include the costs of administration (excluding staffing costs), repair, security, fuel, and equipment. These provisions are included under the McKinney Act's definition of "operating costs," and are not intended to substantively affect the types of activities funded under this category.

4. HUD has revised the criteria for obtaining a waiver of the 20 percent limitation on essential services by strictly adhering to the McKinney waiver standard. Under this final rule, HUD may waive the 20 percent limitation on essential services if the State or unit of local government demonstrates that program activities other than essential services and homeless prevention (i.e. maintenance and operating costs, renovation, rehabilitation and conversion activities) are already being carried out in the locality with other resources. (See § 576.21(c).)

5. Section 576.22 "Limitations on the use of assistance" has been added in this final rule.However, this section largely duplicates requirements contained in other sections of the August 10, 1988 ESG final rule, including the requirements governing assistance to primarily religious organizations. While all of the provisions relating to assistance to primarily religious organizations were not specifically included in the ESG final rule, they have routinely been incorporated in the grant agreements executed with HUD.

It should be noted that paragraph (b) of § 576.22, which describes the limitations on the use of assistance by primarily religious organizations, contains provisions governing the circumstances under which HUD will provide assistance to a grantee or recipient that is a primarily religious organization or a wholly secular organization established by a primarily religious organization. With one exception noted below, these provisions are substantially identical to those set out in 24 CFR part 570, which consist of HUD's community development block grant program (CDBG) entitlement rules.

Under these provisions, a primarily religious organization (or wholly secular organization established by a primarily religious organization) must agree to provide housing and emergency services in a manner that is free from religious influence. In this connection, the provider must: (1) Not discriminate against any employee or applicant for employment on the basis of religion and not limit employment or give employment preference to persons on the basis of religion; (2) not discriminate against, or limit the provision of housing or emergency services, to applicants for such housing or services on the basis of religion; and (3) provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, or otherwise exert no religious influence in the provision of housing or emergency services.

As noted, the foregoing principles depart in one fashion from the CDBG entitlement rule at 24 CFR 570.200(j)(3) (53 FR 34416, 34412, September 6, 1988), which contains an additional restriction that the portion of the facility of the primarily religious organization used to provide funded services "shall contain no religious symbols or decorations, other than those permanently affixed to or part of the structure."

This policy has been followed for several years in connection with CDBG and homeless assistance made available through primarily religious organization providers. The Department has a continuing commitment to optimize participation by religious providers, which have long been in the forefront in assisting the homeless and others most needy, but in a manner consistent with the strictures imposed by the Establishment Clause of the First Amendment of the United States Constitution. After a review of the relevant case law, the Department has not found any dispositive case addressing the provision of government assistance to a primarily religious organization providing social services in a setting where the presence of religious symbols or decorations alone constitutes a violation of the Establishment Clause. The provision in question, which was recommended to HUD by counsel representing a nationally prominent primarily religious organization as a protection against impermissibly advancing religion, has been utilized in the spirit in which it was so recommended. However, as noted, HUD's examination of the case law has concluded that the excised language suggests a degree of control on the presence of religious symbols or decorations that is not compelled thereunder, or is not otherwise intrinsic to traditional Constitutional Church/

VOL 54 ISS 214 NO 7 1989 UMI

State separation doctrine as pronounced by the United States Supreme Court. Accordingly, this rule does not include the prohibition on religious symbols or decorations. Further, an amendment removing the quoted text from § 570.200(j)(3)(iv) is being published as a final rule in a separate document.

This change in no way contravenes the purpose of the underlying principles in these rules, namely, that a primarily religious organization, or a wholly secular organization established by a primarily religious organization, can only provide housing and emergency services in a manner that is free from religious influence, specifically including the explicit provisions described above.

6. Section 576.51(d) ("Substantial change in proposed use of funds") has been revised to require that the certification of consistency with the Comprehensive Homeless Assistance Plan (CHAP) be accompanied by a description of the revised proposed use of funds.

7. The reallocation provision for failure to have an approved CHAP has been streamlined by combining the requirements for both Territories and States into one section (§ 576.63). As a result, the separate reallocation provision for Territories at § 576.65 has been removed.

8. Section 576.80 ("Relocation") has been added to implement the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601–4655).

IV. Other Matters

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the General Counsel, Rules Docket Clerk, at the above address.

This rule does not constitute a "major rule" as that term is defined in section 1(b) of the Executive Order on Federal Regulations issued by the President on February 17, 1981. Analysis of the rule indicates that it would not: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule was listed as item number 1087 in the Department's Semiannual Agenda of Regulations published on October 30, 1989 (54 FR 44702, 44728) under Executive Order 12291 and the Regulatory Flexibility Act.

In accordance with the provisions of 5 U.S.C. 605(b), the undersigned hereby certifies that this rule would not have a significant economic impact on a substantial number of small entities, because most statutorily eligible grantees and State recipients are relatively larger cities, urban counties, or States. In addition, the grant amounts to be made available to any ultimate user of a grant are relatively small.

The General Counsel, as the Designated Official under Executive Order 12606, the Family, has determined that certain provisions of this final rule may have the potential for significant impact on family formation, maintenance and general well-being within the meaning of the Order. The final rule authorizes HUD to make grants to States, units of general local government and private nonprofit organizations for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses, and for the newly eligible homeless prevention activities. To the extent that ESG funds are used to undertake homeless prevention activities, they will help to sustain the family as a cohesive unit by preventing displacement. While provisions of this final rule might potentially have an impact on the family, these are legislatively prescribed and HUD has exercised little or no discretion in implementing them.

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that some of the provisions of this final rule implementing the 1988 McKinney Amendments have "Federalism implications" within the meaning of the Order. These include: (1) Permitting States to provide ESG funds directly to a nonprofit organization, rather than requiring that the funds be provided to a unit of local government for distribution to the nonprofit; and (2) in the case of States, applying the 20 percent limitation on essential services at the State, rather than at the local, level. However, these provisions do not need to be considered further under the Executive Order because they implement statutory requirements over which HUD has exercised little or no discretion. Additionally, section 482 of the 1988 Amendments Act provides that HUD shall apply the provisions of, and regulations and procedures under, section 104(g) of the Housing and Community Development Act of 1974 to assistance and projects under Title IV of the McKinney Act. Section 104(g) provides that the Secretary may require applicants with the legal capacity to do so to assume the responsibilities for environmental review, decisionmaking and action under the National Environmental Policy Act of 1969 and the other provisions of law specified by the Secretary that would apply to HUD were HUD to undertake such projects as Federal projects. HUD provides in this final rule that it will require States and other governmental entities with general governmental powers to assume those responsibilities. While the assumption of these responsibilities under section 104(g) is discretionary with HUD, it is authorized by and clearly the intent of section 443 of the 1988 Amendments Act. Therefore, the policy is not subject to review under Executive Order 12612.

The information collection requirements contained in this final rule have been submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act of 1980. Expedited review has been requested by December 7, 1989, so that the application process described in this rule may be carried out following OMB approval of the necessary collections of information.

Pending approval of these collections of information by OMB and the assignment of an OMB control number, no person may be subjected to a penalty for failure to comply with these information collection requirements. The OMB control number, when assigned, will be announced by separate notice in the **Federal Register**, at the same time that the rule's effective date is published.

Data on the information collection requirements contained in this rule is provided as follows:

TABULATION OF ANNUAL REPORTING BURDEN, EMERGENCY SHELTER GRANTS PROGRAM—FINAL RULE

Description of information collection	Provision of final rule	Number of respondents	Number of responses per respondents	Total annual responses	Hours per response	Total hours
Application (annual) to HUD	§ 576.51(b)(1)	375	1	375	1.00	375.00
Waiver requests to HUD	§ 576.21(c)	50	1	50	1.00	50.00
State Certification that nonprofit applicants will provide local government certification of approval.	§ 576.51(b)(2)(iii)	50	1	50	.25	12.50
Homeless prevention non-supplanting certification	§ 576.51(b)(2)(viii)	375	1	375	.25	93.75

The Catalog of Federal Domestic Assistance program number for the Emergency Shelter Grants Program is CFDA No. 14.231.

List of Subjects in 24 CFR Part 576

Grant programs—Housing and community development, Emergency shelter grants, Reporting and recordkeeping requirements.

Accordingly, the Department is revising 24 CFR part 576 to read as follows:

PART 576—EMERGENCY SHELTER GRANTS PROGRAM: STEWART B. McKINNEY HOMELESS ASSISTANCE ACT

Sec.

Subpart A—General

576.1 Applicability and purpose.
576.3 Definitions.
576.5 Waivers.

Subpart B—Eligible Activities

576.21 Eligible activities.
576.22 Limitations on the use of assistance.
576.23 Who may carry out eligible activities.

Subpart C—Comprehensive Homeless Assistance Plan

576.31 Comprehensive Homeless Assistance Plan.

Subpart D—Allocations

576.41 Overall allocation of grant amounts.
576.43 Allocation of grant amounts to States, metropolitan cities, and urban counties.
576.45 Allocation of grant amounts to Territories.

Subpart E—Award and Use of Grant Amounts

576.51 Application requirements.
576.52 Environmental review.
576.53 Review and approval of applications.
576.55 Deadlines for using grant amounts.

Subpart F—Reallocations

576.61 Reallocation of grant amounts; lack of approved Comprehensive Homeless Assistance Plan; formula cities and counties.
576.63 Reallocation of grant amounts; lack of approved Comprehensive Homeless Assistance Plan; States and Territories.
576.67 Reallocation of grant amounts; returned or unused amounts.

Subpart G—Program Requirements

576.71 Matching funds.
576.73 Use as an emergency shelter.
576.75 Building standards.
576.77 Assistance to the homeless.
576.79 Other Federal requirements.
576.80 Relocation and acquisition.

Subpart H—Grant Administration

576.81 Responsibility for grant administration.
576.83 Method of payment.
576.85 Performance reports.
576.87 Recordkeeping.
576.89 Sanctions.

Authority: Sec. 416 of the Stewart B. McKinney Homeless Assistance Act (Pub. L. 100–77, approved July 22, 1987); sec. 7(d) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Subpart A—General

§ 576.1 Applicability and purpose.

(a) *General.* This part implements the Emergency Shelter Grants program contained in subtitle B of title IV of the Stewart B. McKinney Homeless Assistance Act (Pub. L. 100–77, approved July 22, 1987). The program authorizes the Secrtary of Housing and Urban Development to make grants to States and units of general local government (and to private nonprofit organizations providing assistance to homeless individuals in the case of grants made with reallocated amounts) for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating and social service expenses in connection with emergency shelter for the homeless, and for homeless prevention activities. The Emergency Shelter Grants program authorized by the Homeless Housing Act of 1986 is contained in 24 CFR part 575.

(b) *Purpose.* The program is designed to help improve the quality of existing emergency shelters for the homeless, to help make available additional emergency shelters, to help meet the costs of operating emergency shelters and of providing certain essential social services to homeless individuals, so that these persons have access not only to safe and sanitary shelter, but also to the supportive services and others kinds of assistance they need to improve their situations. The program is also intended to restrict the increase of homelessness through the funding of preventive programs and activities.

§ 576.3 Definitions.

Comprehensive Homeless Assistance Plan or *Comprehensive Plan* means the Comprehensive Homeless Assistance Plan established by subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act (Pub. L. 100–77, approved July 22, 1987).

Conversion means a change in the use of a building to an emergency shelter for the homeless under this part, where the cost of conversion and any rehabilitation costs exceed 75 percent of the value of the building before conversion. If such costs do not exceed 75 percent of the value of the building before conversion, they are to be considered rehabilitation and the three-year use requirement under § 576.73 applies. The conversion of any building to an emergency shelter that is assisted under this part must meet local government safety and sanitation standards under § 576.75. For projects of 15 or more units where rehabilitation costs are 75 percent or more of the

replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(a).

Emergency shelter means any facility, the primary purpose of which is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless.

Emergency shelter grant amounts or *grant amounts* mean grant amounts made available under this part.

Essential services includes services concerned with employment, health, drug abuse, and education and may include (but are not limited to):

(a) Assistance in obtaining permanent housing.

(b) Medical and psychological counseling and supervision.

(c) Employment counseling.

(d) Nutritional counseling.

(e) Substance abuse treatment and counseling.

(f) Assistance in obtaining other Federal, State, and local assistance including mental health benefits; employment counseling; medical assistance; Veteran's benefits; and income support assistance such as Supplemental Security Income benefits, Aid to Families with Dependent Children, General Assistance, and Food Stamps;

(g) Other services such as child care, transportation, job placement and job training; and

(h) Staff salaries necessary to provide the above services.

Formula city or county means a metropolitan city or urban county that is eligible to receive an allocation of grant amounts under § 576.43.

Grantee means the entity that executes a grant agreement with HUD under this part. For purposes of this part, grantee is:

(a) Any State, metropolitan city, or urban county that receives a grant allocation under § 576.43;

(b) Any Territory that receives a grant allocation under § 576.45; and

(c) Any State, Territory, unit of general local government, or private nonprofit organization that receives a grant based on a reallocation under subpart F.

Homeless means:

(a) An individual or family which lacks a fixed, regular, and adequate nighttime residence; or

(b) An individual or family which has a primary nighttime residence that is:

(1) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for persons with mental illness);

(2) An institution that provides a temporary residence for individuals intended to be institutionalized; or

(3) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(4) The term does not include any individual imprisoned or otherwise detained pursuant to an Act of the Congress or a State law.

Homeless prevention means activities or programs designed to prevent the incidence of homelessness, including (but not limited to):

(a) Short-term subsidies to defray rent and utility arrearages for families that have received eviction or utility termination notices;

(b) Security deposits or first month's rent to permit a homeless family to move into its own apartment;

(c) Mediation programs for landlord-tenant disputes;

(d) Legal services programs for the representation of indigent tenants in eviction proceedings;

(e) Payments to prevent foreclosure on a home; and

(f) Other innovative programs and activities designed to prevent the incidence of homelessness.

HUD means the Department of Housing and Urban Development.

Major rehabilitation means rehabilitation that involves costs in excess of 75 percent of the value of the building before rehabilitation. Major rehabilitation assisted under this part must meet local government safety and sanitation standards under § 576.75. In addition, for projects of 15 or more units where rehabilitation costs are 75 percent or more of the replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(a).

Metropolitan city means a city that was classified as a metropolitan city under section 102(a)(4) of the Housing and Community Development Act of 1974 for the fiscal year immediately preceding the fiscal year for which emergency shelter grant amounts are made available.

Nonprofit recipient means any private nonprofit organization providing assistance to the homeless, to which a State or unit of general local government distributes emergency shelter grant amounts.

Obligated means that the grantee or State recipient, as appropriate, has placed orders, awarded contracts, received services, or entered similar transactions that require payment from the grant amount. Grant amounts that a unit of general local government or State awards to a private nonprofit organization by a written agreement or letter of award requiring payment from the grant amount are obligated.

Private nonprofit organization means a secular or religious organization described in section 501(c) of the Internal Revenue Code of 1988 which:

(a) Is exempt from taxation under subtitle A of the Code;

(b) Has an accounting system and a voluntary board; and

(c) Practices nondiscrimination in the provision of assistance.

Rehabilitation means labor, materials, tools, and other costs of improving buildings, including repair directed toward an accumulation of deferred maintenance; replacement of principal fixtures and components of existing buildings; installation of security devices; and improvement through alterations or incidental additions to, or enhancement of, existing buildings, including improvements to increase the efficient use of energy in buildings, and structural changes necessary to make the structure accessible for persons with physical handicaps. Rehabilitation also includes the conversion of a building to an emergency shelter for the homeless under this part, where the cost of conversion and any rehabilitation costs does not exceed 75 percent of the value of the building before conversion. Rehabilitation assisted under this part must meet local government safety and sanitation standards under § 576.75. In addition, for projects of 15 or more units where rehabilitation costs are 75 percent or more of the replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(a); or where rehabilitation costs are less than 75 percent of the replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(b).

Renovation means rehabilitation that involves costs of 75 percent or less of the value of the building before rehabilitation. Renovations assisted under this part must meet local government safety and sanitation standards. (§ 576.75.) In addition, for projects of 15 or more units where rehabilitation costs are less than 75 percent of the replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(b).

State means each of the several States and the Commonwealth of Puerto Rico.

Territory means each of the following: the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, Palau (Trust Territory of the Pacific), and any other territory or possession of the United States.

State recipient means any unit of general local government or nonprofit organization to which a State makes available emergency shelter grant amounts.

Unit of general local government means any city, county, town, township, parish, village, or other general purpose political subdivision of a State.

Urban county means a county that was classified as an urban county under section 102(a)(6) of the Housing and Community Development Act of 1974 for the fiscal year immediately preceding the fiscal year for which emergency shelter grant amounts are made available.

Value of the building means the monetary value assigned to a building by an independent real estate appraiser, or as otherwise reasonably established by the grantee or the State recipient.

§ 576.5 Waivers.

The Secretary of HUD may waive any requirement of this part that is not required by law, whenever it is determined that undue hardship will result from applying the requirement, or where application of the requirement would adversely affect the purposes of the Emergency Shelter Grants Program under this part.

Subpart B—Eligible Activities

§ 576.21 Eligible activities.

(a) *Eligible activities.* Emergency shelter grant amounts may be used for one or more of the following activities relating to emergency shelter for the homeless.

(1) Renovation, major rehabilitation, or conversion of buildings for use as emergency shelters for the homeless.

(2) Provision of essential services to the homeless.

(3) Payment of maintenance, operation (including administration but excluding staffing costs, rent, repair, security, fuels and equipment), insurance, utilities, and furnishings.

(4)(i) Developing and implementing homeless prevention activities.

(ii) If grant funds under paragraph (a)(4)(i) of this section are to be used to assist families that have received eviction notices or notices of termination of utility services, the following conditions must be met:

(A) The inability of the family to make the required payments must be the result of a sudden reduction in income;

(B) The assistance must be necessary to avoid eviction of the family or termination of services to the family;

(C) There must be a reasonable prospect that the family will be able to resume payments within a reasonable period of time; and

(D) The assistance must not supplant funding for preexisting homeless prevention activities from any other sources.

(b) *Limitations on provisions of essential services*—(1) *Units of general local government.* Grant amounts provided by HUD to units of general local government may be used to provide an essential service under paragraph (a)(2) of this section, only if the service is a new service, or is a quantifiable increase in the level of a service above that which the unit of general local government provided with local funds during the 12 calendar months immediately before it received initial grant amounts; and not more than 20 percent of the total of each grant amount provided to a unit of general local government is used for these services (whether or not the unit of local government provides some or all of these grants funds to a nonprofit recipient).

(2) *States.* Grant amounts provided by a State to State recipients may be used to provide an essential service under paragraph (a)(2) of this section, only if the service is a new service, or is a quantifiable increase in the level of a service above that which the unit of general local government (or, in the case of a nonprofit organization, the unit of general local government in which the proposed activities are to be located) provided with local funds during the 12 months immediately before the State recipient received initial grant amounts; and not more than 20 percent of the aggregate amount of each ESG grant to a State is used for these services.

(3) In calculating the 20 percent limitation under paragraph (b) (1) or (2) of this section, homeless prevention activities under paragraph (a)(4) of this section are to be treated as essential services.

(c) *Waiver of limit on essential services.* (1) HUD may waive the 20 percent limitation on essential services in paragraphs (b) (1) and (2) of this section if the State or unit of local government receiving the assistance demonstrates that program activities other than essential services and homeless prevention (i.e., maintenance and operating costs, renovation, rehabilitation and conversion activities) are already being carried out in the locality with other resources.

(2) Waiver requests from State recipients under this paragraph (c) must first be sent to the State. The State must promptly send the requests to HUD, together with any comments or recommendations the State may have on them. State waiver requests should be forwarded directly to HUD.

§ 576.22 Limitations on the use of assistance.

(a) *Ineligible activities.* Emergency shelter grant amounts may not be used for activities other than those authorized under § 576.21 (a), (b), and (c).

(b) *Primarily religious organizations*—(1) *Provision of assistance.* (i) Assistance may be provided under this part to a grantee or recipient that is a primarily religious organization if the primarily religious organization agrees to provide all eligible activities under this program in a manner that is free from religious influences and in accordance with the following principles:

(A) It will not discriminate against any employee or applicant for employment on the basis of religion and will not limit employment or give preference in employment to persons on the basis of religion;

(B) It will not discriminate against any person applying for shelter or any of the eligible activities under this part on the basis of religion and will not limit such housing or other eligible activities or give preference to persons on the basis of religion; and

(C) It will provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, and exert no other religious influence in the provision of shelter and other eligible activities under this part; and

(ii) HUD will provide assistance to a recipient that is a primarily religious organization if the assistance will not be used by the organization to acquire a structure (in the case of homeless prevention activities under § 576.21(a)(4)) or to rehabilitate a structure owned by the organization, except as described in paragraph (b)(2) of this section.

(2) Rehabilitation or conversion of emergency shelters in structures owned by primarily religious organizations. Emergency shelter grant amounts may be used to rehabilitate or convert to an emergency shelter a structure that is owned by a primarily religious organization, only if:

(i) The structure (or portion thereof) that is to be renovated, rehabilitated or converted with HUD assistance has been leased to an existing or newly established wholly secular organization (which may be established by the religious organization under the provisions of paragraph (b)(3) of this section);

VOL 54 ISS 214 NO 7 1989 UMI

(ii) The HUD assistance is provided to the secular organization (and not the religious organization) to make the improvements;

(iii) The leased structure will be used exclusively for secular purposes available to all persons regardless of religion;

(iv) The lease payments paid to the primarily religious organization do not exceed the fair market rent for the structure before the renovation, rehabilitation or conversion was done;

(v) The portion of the cost of any improvements that benefit any unleased portion of the structure will be allocated to, and paid for by, the religious organization; and

(vi) The primarily religious organization agrees that if the recipient does not retain the use of the leased premises for wholly secular purposes for the useful life of the improvements, the primarily religious organization will pay an amount equal to the residual value of the improvements to the original grantee from which the amounts used to renovate, rehabilitate or convert the building were made available to a State or to a unit of general local government as a formula allocation or reallocation, the amount that the primarily religious organization provides to the recipient must be remitted to the State or unit of general local government, as appropriate. While the original grantee is expected to use this amount to alleviate homelessness in the original grantee's jurisdiction, there is no requirement that funds received after the close of the grant period be used in accordance with the requirements of this part. If, however, a private nonprofit organization is the lessee as well as the grantee, the organization must remit the amount referred to above to HUD.

(3) Assistance to a wholly secular private nonprofit organization established by a primarily religious organization.

(i) A primarily religious organization may establish a wholly secular private nonprofit organization to serve as a recipient. The secular organization may be eligible to receive all forms of assistance available under this part.

(A) The secular organization must agree to provide shelter and other eligible activities under this part in a manner that is free from religious influences and in accordance with the principles set forth in paragraph (b)(1)(i) of this section.

(B) The secular organization may enter into a contract with the religious organization to provide essential services or undertake homeless prevention activities for the project. In such a case, the religious organization must agree in the contract to carry out its contractual responsibilities in a manner free from religious influences and in accordance with the principles set forth in paragraph (b)(1)(i) of this section.

(C) The rehabilitation, conversion or renovation of emergency shelters are subject to the requirements of paragraph (b)(2) of this section.

(ii) HUD will not require the religious organization to establish the secular organization before the selection of its application. In such a case, the religious organization may apply on behalf of the secular organization. The application will be reviewed on the basis of the religious organization's financial responsibility and capacity, and its commitment to provide appropriate resources to the secular organization after formation. Since the secular organization will not be in existence at the time of the application, it will be required to demonstrate that it meets the definition of private nonprofit organization contained in § 576.3. The obligation of funds will be conditioned upon compliance with these requirements.

§ 576.23 Who may carry out eligible activities.

(a) *Grantees and State recipients.* All grantees (except States) and State recipients may carry out activities with emergency shelter grant amounts. All of a State's formula allocation must be made available to the following entities:

(1) Units of general local government in the State, which may include formula cities and counties, whether or not such cities and counties receive grant amounts directly from HUD; or

(2) Private nonprofit organizations, if the unit of local government in which the proposed activities are to be located certifies that it approves each project.

(b) *Nonprofit recipients.* Units of general local government—both grantees and State recipients—may distribute all or part of their grant amounts to nonprofit recipients to be used for emergency shelter grant activities. In addition, States may distribute all or a portion of their grant amounts to nonprofit recipients if the unit of general local government in which the proposed activities are to be located certifies that it approves the project.

Subpart C—Comprehensive Homeless Assistance Plan

§ 576.31 Comprehensive Homeless Assistance Plan.

(a) *Prohibition of assistance.* (1) Grant amounts may be made available to the following jurisdictions, only if they have a HUD-approved Comprehensive Plan:

(i) States, for allocations under § 576.43 and reallocations under §§ 576.61, 576.63, and 576.67;

(ii) Formula cities and counties, for allocations under § 576.43 and reallocations under §§ 576.63 and 576.67; and

(iii) Territories, for allocations under § 576.45 and reallocations under §§ 576.63 and 576.67.

(2) Reallocation amounts may be made available under § 576.67 to units of general local government that are not formula cities and counties, and to private nonprofit organizations, only if the formula city or county or the States that would be served by the proposed activities have an approved Comprehensive Plan. For units of general local government (non-formula cities and counties), the State must have an approved Plan. For nonprofit organizations, if the proposed activities are to serve a formula city or county or Territory, the city, county or Territory must have an approved Plan; if the proposed activities are not to serve such city or county, the State or Territory must have an approved Plan.

(3) Grant amounts may not be made available to, or within the jurisdiction of, any State or formula city or county that does not annually:

(i) Submit to HUD a Comprehensive Plan, and simultaneously forward to the relevant State or formula cities and counties the necessary information copies;

(ii) Review its progress in carrying out its Comprehensive Plan and report the results of the review to HUD; and

(iii) Respond to timely HUD recommendations on the progress report.

(b) *Notification of Plan requirements.* HUD will publish the requirements that pertain to the Comprehensive Plan (including the progress review and report specified in paragraph (a)(3) of this section and Plan amendments referred to in § 576.53(c)) in the Federal Register as necessary. Prospective grantees should familiarize themselves with these requirements. HUD will also provide notice of the Plan's requirements when HUD notifies prospective grantees of their grant allocations under subpart D or the availability of reallocation amounts under subpart F.

(c) *Reallocations.* Sections 576.61 and 576.63 govern the reallocation of grant amounts initially allocated to a State or a formula city or county under § 576.43, or to a Territory under § 576.45, if the jurisdiction does not obtain approval of its Plan within the time periods specified in those sections.

Subpart D—Allocations

§ 576.41 Overall allocation of grant amounts.

(a) *Territories.* HUD will set aside for allocation to the Territories under § 576.45 an amount equal to 0.2 percent of the total amount of each appropriation under this part in any fiscal year.

(b) *States, metropolitan cities and urban counties.* HUD will allocate the amounts that remain after the set-aside to Territories under paragraph (a) of this section to States, metropolitan cities, and urban counties under § 576.43.

§ 576.43 Allocation of grant amounts to States, metropolitan cities, and urban counties.

(a) *Calculation of allocations.* In determining the amount of the allocation for each State, metropolitan city, and urban county, HUD will provide that the percentage of the total amount available for allocation to any State, metropolitan city, or urban county is equal to the percentage of the total amount available for section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to such State, metropolitan city, or urban county.

(b) *Reallocation to State.* Except as otherwise provided by law, if an allocation to a metropolitan city or urban county would be less than .05 percent of each appropriation under this part in any fiscal year, the amount is added to the allocation for the State in which the city or county is located.

(c) *Notification of allocation amount.* HUD will notify in writing each State, metropolitan city, and urban county that is eligible to receive an allocation under this section, of the amount of its allocation.

§ 576.45 Allocation of grant amounts to Territories.

(a) *Each Territory.* HUD will allocate amounts set aside for Territories under § 576.41 to each Territory, based upon its proportionate share of the total population of all Territories.

(b) *Notification of allocation amount.* HUD will notify each Territory of the amount of its allocation under this section.

Subpart E—Award and Use of Grant Amounts

§ 576.51 Application requirements.

(a) *Application deadlines.* To receive grant amounts, a State or formula city or county that elects to receive an emergency shelter grant on the basis of an allocation under § 576.43, and a Territory that elects to receive an emergency shelter grant on the basis of an allocation under § 576.45, must submit an application that meets the requirements of paragraph (b) of this section. The application must be submitted to the responsible HUD field office, no later than 45 days after the date of the notification to the State, city or county, or the Territory, of its grant allocation, as provided by § 576.43(c) or § 576.45(b), respectively.

(b) *Application.* The application must contain:

(1) A Standard Form 424. Item (11) of Standard Form 424 must contain a description of the proposed use of the emergency shelter grant amounts. In the case of a formula city or county, or a Territory, the proposed use must be identified for each of the four categories of eligible activities under §§ 576.21 (a)(1), (a)(2), (a)(3), and (a)(4). In addition, the formula city or county, or Territory must include a description of the process and criteria for awarding its grant funds to units of general local government and nonprofit organizations. In the case of a State, the proposed use must identify:

(i) How the State intends to implement the requirement in § 576.23(a) that the grant be made available to units of general local government and/or private nonprofit organizations in the State, or

(ii) The specific units of general local government in the State that will receive the grant, or

(iii) The nonprofit organizations that will receive grant funds directly from the State, and the local jurisdictions in which the proposed activities will be located.

In addition, the State must include a description of the process and criteria for awarding its grant funds to State recipients.

(2) The following certifications and assurances:

(i) A certification by the public official responsible for submitting the Comprehensive Plan for the State, formula city or county, or Territory that is applying for ESG funding for the proposed activities that the activities are consistent with the Plan. In the case of a formula city or county, there must be an additional certification that before any of the grant funds are used for an activity conducted outside the applicant's jurisdiction, the applicant will secure and provide to HUD a certification that the activity is consistent with the CHAP submitted by the following jurisdiction, as applicable:

(A) If the activity is conducted within the boundaries of a city or urban county having its own CHAP, then a certification from the appropriate official of that jurisdiction; or

(B) If the activity is not conducted within a unit of local government having its own CHAP, then a certification from the appropriate State official.

(ii) A certification that the State, formula city or county, or Territory will provide the matching supplemental funds required by § 576.71. The certification must describe the sources and amounts of the supplemental funds. A State's matching supplemental funds certification is to be submitted with its interim performance report, as provided by § 576.85.

(iii) A certification that the State will require any nonprofit organization that applies for funding to submit a certification of approval of the proposed project(s) from the unit of general local government in which the proposed projects are to be located.

(iv) A certification that the formula city or county, or Territory, will comply, and that the State will ensure that its State recipients comply, with:

(A) The requirements of § 576.73 concerning the continued use of buildings, for which emergency shelter grant amounts are used, as emergency shelter for the homeless;

(B) The building standards requirements of § 576.75; and

(C) The requirements of § 576.77 concerning assistance to the homeless.

(v) If grant amounts are proposed to be used to provide emergency shelter for the homeless in hotels or motels, or other commercial facilities providing transient housing, a certification from the State, metropolitan city, or urban county that:

(A) Leases negotiated between the grantee, or State recipient or nonprofit recipient (as appropriate), and providers of such housing provide (or will provide) that the living space will be rented at substantially less than the daily room rate otherwise charged by the facility; and

(B) The grantee, or State recipient (as appropriate), has considered using other facilities as emergency shelter, and has determined that use of the facilities referred to in this paragraph (b)(2)(v) provides the most cost-effective means of providing emergency shelter for the homeless in its jurisdiction. In the case

VOL 54 ISS 214 NO 7 1989 UMI

of grant funds provided to nonprofit recipients, the cost-effectiveness determination under this paragraph must be completed by the formula city or county, Territory or State in which the proposed activities are to be located.

(vi) A certification that the formula city or county, or Territory, will conduct its emergency shelter grant activities under this part, and that the State or unit of general local government (as appropriate) will ensure that State recipients or nonprofit recipients conduct their activities under this part, in conformity with the nondiscrimination and equal opportunity requirements contained in § 576.79(a) and the other requirements of this part and of other applicable Federal law.

(vii) A certification by the State, formula city or county, or Territory that the submission of the application required by this paragraph (b) is authorized under applicable provisions of law, and that the grantee possesses the legal authority to carry out emergency shelter grant activities in accordance with the provisions of this part.

(viii) A certification by the State, formula city or county, or Territory that any ESG funds allocated under § 576.21(a)(4)(ii) (homeless prevention for families that have received eviction notices or notices of termination of utility services) will not supplant funding for preexisting homeless prevention activities from any other sources.

(ix) Where the grantee is a State, Territory, formula city or county, or other governmental entity with general purpose powers, an assurance by the grantee that it will assume all the environmental review responsibilities that would otherwise be performed by HUD as the responsible Federal official under NEPA and related authorities citied in 24 CFR 58.5, including acceptance of Federal court jurisdiction, under § 576.52.

(x) An assurance that the State, Territory, formula city or county will comply with the requirements of the Uniform Relocation Assistance and Real Property Acquisition and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601–4655) at § 576.80.

(xi) An assurance that the grantee and its recipients will take all reasonable steps to minimize the displacement of persons (families, individuals, businesses, nonprofit oganizations, and farms) as a result of a project assisted under this Part, in accordance with the URA.

(xii) A certification that the grantee and its recipients will provide a drug free workplace in accordance with the Drug Free Workplace Act of 1988 (see 24 CFR part 24, subpart F).

(c) *Environmental review.* The environmental effects of each application must be assessed in accordance with the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 (NEPA)) and the related authorities listed in HUD's implementing regulations at 24 CFR parts 50 or 58, as appropriate. See § 576.52 for a full discussion of the environmental requirements for applications for assistance.

(d) *Substantial change in proposed use of funds.* (1) If at any time after submission of an application under this section, there is a substantial change in the proposed use of funds, there must be submitted to the responsible HUD field office a description of the revised proposed use of funds and a certification (as required by paragraph (b)(2)(i) of this section) that the proposed use of funds is consistent with the applicable Comprehensive Homeless Assistance Plan. The revised proposed use of funds and certification of consistency will be approved as expeditiously as possible, and will be deemed approved 30 days after HUD receives them, unless notification is provided by HUD within that period that they are not approved, and the basis for the denial of approval. ESG funds may not be obligated by a grantee or by a nonprofit recipient for the revised proposed use of funds until:

(i) HUD accepts the revised proposed use and certification, or 30 days have passed from the date of HUD receipt; and

(ii) Environmental review of the revised proposed use of funds has been completed in accordance with § 576.52.

(2) In the case of a State, a State may not obligate funds until the revised proposed use of grant funds has been approved by HUD; and

(3) Submission of the certification and the description of the revised use of funds under this paragraph (d) may require amendment of the applicable Comprehensive Homeless Assistance Plan. Requirements for Plan amendments may be found in the notification that HUD provides for Plans. (See § 576.31(b)).

§ 576.52 Environmental review.

(a) *Generally.* (1) The environmental effects of each application must be assessed in accordance with the provisions of the National Environmental Policy Act of 1969 (NEPA) and the related authorities listed in HUD's implementing regulations at 24 CFR parts 50 and 58.

(2) Environmental regulations provide for certain categorical exclusions under NEPA and under part 58 set conditions under which excluded activities may be determined exempt from all environmental review requirements. In cases where proposed assistance and matching contributions solely involve operating costs for facilities or the provision of essential services, and the structures and sites involved in the project meet the program requirements of this part, these activities are categorically excluded by regulation and may be determined fully exempt from environmental review.

(b) *Responsibility for review.* (1) HUD will perform the environmental review, in accordance with part 50, for applications submitted by private nonprofit organizations for reallocated funds, and any governmental entities with general purpose powers found not to have the legal capacity to carry out this responsibility.

(2) Applicants that are States, Territories, formula cities and counties, or other governmental entities with general purpose powers, and that are deemed to have the legal capacity to do so, must assume responsibility for environmental review, decisionmaking, and action for each application for assistance in accordance with part 58. Specifically, States, Territories or units of general local government must complete the environmental review for each application for assistance, as follows:

(A) In the case of ESG grants to States that are distributed to units of general local government, the unit of general local government must assume the environmental responsibilities specified in section 104(g)(1) of the Housing and Community Development Act of 1974, and the State will assume HUD's functions with regard to the release of funds, as provided by section 104(g)(4) of that Act.

(B) In the case of ESG grants to States that are distributed to nonprofit organizations, the State will assume the environmental responsibilities specified in section 104(g)(1) of that Act and HUD will perform the release of funds functions of section 104(g)(2).

(C) In the case of ESG grants to a unit of general local government or Territory, whether used directly by the grantee or distributed to nonprofit organizations, the unit of general local government or Territory will assume the environmental responsibilities specified in section 104(g)(1) of that Act and HUD will perform the release of funds functions of section 104(g)(2).

(3) The assumption of legal responsibility by an applicant under paragraph (b)(2) of this section does not preclude the applicant's arranging for the conduct of technical reviews by cooperating local governments having an established technical capability (e.g., by a metropolitan city in which the project is proposed to be located). The applicant under such arrangement must independently evaluate information submitted and assume responsibility for its accuracy, scope and content; meet legal requirements attached to the Release of Funds by HUD; determine the completeness of the review; meet any requirements for consultation, as applicable, under 24 CFR 58.5 authorities; and assure the completion of any mitigation measures resulting from technical review or from State consultations. The arrangements described in this paragraph are in addition to the ability of an applicant to adopt relevant and adequate prior reviews conducted by HUD or other governmental entity for a related program or purpose, if the reviews meet the particular requirements of the Federal environmental law or authority under which they would be adopted, and if certain conditions are met (e.g., a determination that no environmentally significant changes have occurred since the review was completed.)

(c) *Environmental review by HUD.* With regard to the environmental effects of applications for which HUD performs the review, HUD will undertake its review in accordance with the provisions of NEPA and the related authorities listed in 24 CFR 50.4. Any application subject to environmental review by HUD that requires an Environmental Impact Statement (EIS) (generally, an application that HUD determines would have a significant impact on the human environment, in accordance with the environmental assessment procedures at 24 CFR part 50, subpart E) will not be eligible for assistance under this part.

(d) *Environmental review by applicants.* (1) An applicant that is required, under paragraph (b)(2) of this section, to assume environmental review responsibility must include in its application an assurance that the applicant will assume all the environmental review responsibilities that would otherwise be performed by HUD as the responsible Federal official under NEPA and related authorities listed in 24 CFR 58.5, including acceptance of jurisdiction of the Federal courts.

(2) Applicants required to assume environmental review responsibility need not complete the review until a reasonable time after grant award. In such cases, the award is subject to completion of the environmental responsibilities set out in 24 CFR part 58 within a reasonable time after notification of the award. (This provision does not preclude the applicant from enclosing its environmental certification and Request for Release of Funds with its application.)

(i) Upon completion of the requirements in 24 CFR part 58, applicants must certify the completion and submit a Request for Release of Funds. This submission is not required in cases in which the applicant determines and documents, in accordance with 24 CFR 58.34, that its program components are exempt.

(ii) HUD will not release funds for an emergency shelter grant activity if the grantee, recipient, or any other party commits emergency shelter grant funds (i.e., incurs any costs or expenditures to be paid or reimbursed with such funds) before the grantee submits, and HUD approves, any required Request for Release of Funds.

(3) A general applicant that believes that it does not have the legal capacity to carry out the responsibilities required by 24 CFR part 58 should contact the appropriate HUD field office for further instructions. Determinations of legal capacity will be made on a case-by-case basis.

(e) *Location of projects in floodplains.* Activities that are to be assisted with emergency shelter grant funds and that are located in any 100-year floodplain, as designated by maps prepared by the Federal Emergency Management Agency (FEMA), are subject to the floodplain review requirements of Executive Order 11988, Floodplain Management (May 24, 1977). Executive Order 11988 review, as referenced under parts 50 and 58, is to be performed during the environmental review.

§ 576.53 Review and approval of applications.

(a) *Time for approval.* An application from a State, formula city or county, or Territory will be processed and approved as expeditiously as possible, and will be deemed approved 30 days after HUD receives it, unless within that period HUD notifies the applicant that the application is not approved.

(b) *Review of application.* HUD will approve an application, unless it determines that the application:

(1) Was not received or postmarked within the time period specified in § 576.51(a);

(2) Does not contain the items required by § 576.51(b); or

(3) Does not otherwise comply with the requirements of this part or of other Federal law.

(c) *Conditional grant.* HUD may make a conditional grant restricting the obligation and use of emergency shelter grant amounts. Conditional grants may be made where there is substantial evidence that there has been, or there will be, a failure to meet the requirements of this part. In such a case, the reason for the conditional grant, the action necessary to remove the condition, and the deadline for taking those actions will be specified. Failure to satisfy the condition may result in imposition of a sanction under § 576.69, or in any other action authorized under applicable Federal law.

(d) *Grant agreement.* The grant will be made by means of a grant agreement executed by HUD and the grantee. HUD will not disburse funds before the grant agreement is fully executed.

(e) *Reallocation amounts.* Any emergency shelter grant amounts that are returned to HUD because of:

(1) A failure to meet the application deadline under § 576.51(a); or

(2) An application disapproval under paragraph (b) of this section will be reallocated under § 576.67.

§ 576.55 Deadlines for using grant amounts.

(a)(1) *States.* Each State must make available to its State recipients all emergency shelter grant amounts that it was allocated under § 576.43, within 65 days of the date of the grant award by HUD. A State may set aside up to 10 percent of its grant funds for homeless prevention activities under § 576.21(a)(4). These set-aside funds must be made available to State recipients within 180 days of the grant award by HUD.

(2) *State recipients*—(i) *Obligation of grant funds.* Each State recipient must have its grant amounts obligated (as that term is defined at § 576.3) within 180 days of the date on which the State made the grant amounts available to the State recipient. In the case of grants for homeless prevention activities under § 576.21(a)(4), State recipients are required to obligate grant amounts within 30 days of the date on which the State made the grant amounts available to the State recipient.

(ii) *Expenditure of grant funds.* Each State recipient must spend all of its grant amounts within 24 months of the date on which the State made the grant amounts available to the State recipient. In the case of grants for homeless

VOL 54 ISS 214 NO 7 1989 UMI

prevention activities, State recipients must spend such sums within 180 days of the date on which the State made the grant amounts available to the recipient.

(b) *Formula cities and counties, and Territories.)*—(1) *Obligations of funds.* Each formula city and county, and each Territory, must have all grant amounts that it was allocated under § 576.43 or § 576.45 obligated within 180 days of the date of the grant award by HUD.

(2) *Expenditure of grant funds.* Each formula city and county, and each Territory, must spend all of the grant amounts it was allocated under § 576.43 or § 576.45 within 24 months of the date of the grant award by HUD.

(c) *Reallocation amounts.* (1) Any emergency shelter grant amounts that are not made available or obligated within the time periods specified in paragraphs (a)(1) (State distributions to State recipients) or (b) (formula city or county or Territory allocation) of this section, respectively, will be reallocated under § 576.67.

(2) The State must recapture any grant amounts that a State recipient does not obligate and spend within the time period specified in paragraph (a)(2) (State recipients) of this section. The State, at its option, must make these grant amounts and other amounts returned to the State (except amounts referred to in § 576.22(b)(2)(vi)) available as soon as practicable to other units of general local government for use within the time period specified in paragraph (a)(2) of this section, or to HUD for reallocation under § 576.67.

Subpart F—Reallocations

§ 576.61 Reallocation of grant amounts; lack of approved Comprehensive Homeless Assistance Plan; formula cities and counties.

(a) *Applicability.* This section applies where a formula city or county fails to obtain approval of its Comprehensive Plan within 90 days of the date upon which amounts under this part first become available for allocation under § 576.43 in any fiscal year.

(b) *Grantee.* HUD will make available the amounts that a city or county referred to in paragraph (a) of this section would have received to the State in which the city or county is located.

(c) *Notification of fund availability.* The responsible HUD field office will promptly notify the State of the availability of any reallocation amounts under this section.

(d) *Eligibility for reallocation amounts.* In order to receive reallocation amounts under this section, the State must:

(1) Execute a grant agreement with HUD to receive grant amounts allocated to the State under § 576.43 for the fiscal year for which the amounts to be reallocated were initially made available.

(2) If necessary, submit an amendment to its application for that fiscal year for the reallocation amounts it wishes to receive. The amendment must (to the extent necessary) meet the requirements of § 576.51(b), and must be submitted to the responsible HUD field office no later than 30 days after notification is given to the State under paragraph (c) of this section.

(e) *Review and approval.* (1) Section 576.53 (except paragraph (e)) governs the review and approval of application amendments under this section.

(2) HUD will endeavor to make grant awards within 30 days of the application amendment deadline, or as soon thereafter as practicable.

(3) Program activities represented by proposed amendments are subject to environmental review under § 576.52 in the same manner as original proposals.

(f) *Deadlines for using reallocated grant amounts.* Section 576.55 governs the use of amounts reallocated under this section.

(g) *Amounts that cannot be reallocated.* Any grant amounts that cannot be reallocated to a State under this section will be reallocated to formula cities and counties located in the State and then to other States and Territories, as provided by § 576.63. Amounts that are reallocated under this section, but that are returned or unused, will be reallocated under § 576.67.

§ 576.63 Reallocation of grant amounts; lack of approved Comprehensive Homeless Assistance Plan; States and Territories.

(a) *Applicability.* This section applies where:

(1) A State or Territory fails to obtain approval of its Comprehensive Plan within 90 days of the date upon which amounts under this part first become available for allocation in any fiscal year; or

(2) Grant amounts cannot be reallocated to a State under § 576.61.

(b) *Grantees.* HUD will reallocate the amounts that a State referred to in paragraph (a) of this section would have received, first, to formula cities and counties located in the State that demonstrate extraordinary need or large numbers of homeless individuals and if grant amounts remain, then to other States and Territories that meet this criterion. HUD will make available the amounts that a Territory under paragraph (a)(1) of this section would have received to other Territories that demonstrate extraordinary need or large numbers of homeless individuals.

(c) *Notification of fund availability.* HUD will make reallocations to States under this section by direct notification or **Federal Register** Notice that will set forth the terms and conditions under which grant amounts under this section are to be reallocated and grant awards made. In the case of reallocations to Territories, the responsible HUD field office will promptly notify each Territory of any reallocation amounts under this section, and indicate the terms and conditions under which reallocation amounts are to be made available and grant awards made.

(d) *Eligibility for reallocation amounts.* In order to receive reallocation amounts under this section, the formula city or county, or State or Territory, must:

(1) Submit an amendment to its application for that fiscal year for the reallocation amounts it wishes to receive. The amendment must meet:

(i) To the extent necessary, the requirements of § 576.51(b) and

(ii) Such additional requirements as HUD may specify in the notification under paragraph (c) of this section.

Amendments are subject to environmental review under § 576.52. The amendment must be submitted to the responsible HUD field office no later than 30 days after such notification is given.

(2) Execute a grant agreement with HUD to receive grant amounts allocated under § 576.43 or § 576.45 (as appropriate) for the fiscal year for which the amounts to be reallocated were initially made available.

(e) *Review and approval.* (1) Section 576.53 (except paragraph (e)), and such additional requirements as HUD may specify in the notification under paragraph (c) of this section, govern the review and approval of application amendments under this section. HUD will rank the amendments and make grant awards under this section on the basis of the following factors:

(i) The nature and extent of the unmet homeless need within the jurisdiction in which the grant amounts will be used;

(ii) The extent to which the proposed activities address this need; and

(iii) The ability of the grantee to carry out the proposed activities promptly.

(2) HUD will endeavor to make grant awards within 30 days of the application amendment deadline, or as soon thereafter as practicable.

(f) *Grant amounts.* HUD may make a grant award for less than the amount applied for or for fewer than all of the activities identified in the application amendment, based on competing demand for grant amounts and the extent to which the respective activities address the needs of the homeless.

(g) *Deadlines for using reallocated grant amounts.* Section 576.55 governs the use of amounts reallocated under this section.

(h) *Amounts that are not reallocated.* Any grant amounts that are not reallocated under this section, or that are reallocated, but are unused, will be reallocated under § 576.67(d). Any amounts that are reallocated, but are returned, will be reallocated under § 576.67(c).

§ 576.67 Reallocation of grant amounts; returned or unused amounts.

(a) *General.* From time to time, HUD will reallocate emergency shelter grant amounts that are returned or unused, as those terms are defined in paragraph (f) of this section. HUD will make reallocations under this section by direct notification or **Federal Register** Notice that will set forth the terms and conditions under which the grant amounts are to be reallocated and grant awards are to be made.

(b) *FEMA boards.* HUD may use State and local boards established under the Emergency Food and Shelter Program administered by the Federal Emergency Management Agency, as a resource to identify potential applicants for reallocated grant amounts.

(c) *Reallocation—returned grant amounts.* (1) States and formula cities and counties. HUD will endeavor to reallocate returned emergency shelter grant amounts that were initially allocated under § 576.43 to a State or a formula city or county, for use within the same jurisdiction. Reallocation of these grant amounts is subject to the following requirements:

(i) Returned grant amounts that were allocated to a State will be made available (A) first, to units of general local government within the State and (B) if grant amounts remain, then to other States.

(ii) Returned grant amounts that were allocated to a formula city or county will be made available:

(A) First, for use in the city or county, to units of general local government that are authorized under applicable law to carry out activities serving the homeless in the jurisdiction;

(B) If grant amounts remain, then to the State in which the city or county is located;

(C) If grant amounts remain, to units of general local government in the State; and

(D) If grant amounts remain, to other States.

(2) *Territories.* Returned grant amounts that were allocated to a Territory will be made available first, to other Territories and if grant amounts remain, then to States.

(3) *Further reallocation: States, formula cities and counties, and Territories.* Any grant amounts that:

(i) Remain after applying the preceding provisions of this paragraph (c), or

(ii) Are returned to HUD after reallocation under such provisions, will be further reallocated under paragraph (d) of this section.

(4) *Other grantees.* Returned grant amounts that were initially made available to private nonprofit organizations, units of general local government and States under paragraph (d) of this section will be made available under that paragraph.

(5) The responsible HUD field office will announce the availability of returned grant amounts. The announcement will establish deadlines for submitting applications, and will set out other terms and conditions relating to grant awards, consistent with this part. The announcement will specify the application documents to be submitted, which include:

(i) A Standard Form 424;

(ii) Certifications required at § 576.51(b)(2)(v); and

(iii) Other certifications and assurances similar to those required from a formula city or county, or a Territory, under §§ 576.51(b)(2).

(6) The responsible HUD field office may establish maximum grant amounts, considering the grant amounts available, and will rank the applications using the criteria in paragraph (e) of this section.

(7) HUD may make a grant award for less than the amount applied for or for fewer than all of the activities identified in the application, based on competing demands for grant amounts and the extent to which the respective activities address the needs of the homeless.

(8) HUD will endeavor to make grant awards within 30 days of the application deadline or as soon thereafter as practicable.

(9) Grants awarded under this section are subject to environmental review under § 576.52.

(d) *Reallocation—unused grant amounts.* Unused grant amounts will be available, in HUD's discretion, for reallocation from time to time to:

(1) Units of general local government and States demonstrating extraordinary need or large numbers of homeless individuals; and

(2) Private nonprofit organizations providing assistance to the homeless.

(e) *Selection criteria.* HUD will award grants under paragraphs (c) and (d) of this section based on consideration of the following criteria:

(1) The nature and extent of the unmet homeless need within the jurisdiction in which the grant amounts will be used;

(2) The extent to which the proposed activities address this need; and

(3) The ability of the grantee to carry out the proposed activities promptly.

(f) *When grant amounts are returned or unused.* (1) For purposes of this section, emergency shelter grant amounts are considered "returned" when they become available for reallocation because a grantee does not execute a grant agreement with HUD for them, *e.g.*, when a grantee for which an allocation is made under § 576.43 or § 576.45 fails to meet the application deadlines under § 576.51(a), or has its application disapproved under § 576.53(b), or approved with a reduced grant amount in accordance with § 576.89.

(2) For purposes of this section, emergency shelter grant amounts are considered "unused" (i.e. Federal deobligation) when they become available for reallocation by HUD after a grantee has executed a grant agreement with HUD for them: *e.g.*, where:

(i) A State fails to make its grant amounts available to State recipients within the time period specified in § 576.55(a)(1);

(ii) A formula city or county fails to obligate grant amounts within the time specified in § 576.55(b);

(iii) A State recaptures grant amounts from a State recipient and makes them available to HUD as provided in § 576.55(c)(2);

(iv) Grant amounts become available as a result of imposition of a sanction (other than a reduction of grant amounts) under § 576.89 or the close-out of a grant; or

(v) A grantee referred to in paragraph (b) of this section fails to obligate grant amounts within the time period specified in its grant agreement.

Amounts that remain after reallocation under § 576.63 or § 576.67(c) are considered unused for purposes of this section.

Subpart G—Program Requirements

§ 576.71 Matching funds.

(a) *General.* Each grantee must match the funding provided by HUD under this Part with an equal amount of funds from sources other than under this part. These funds must be provided after the date of the grant award to the grantee. Funds used to match a previous ESG

BEST COPY AVAILABLE

VOL 54 NO. 214 1989 UMI

grant may not be used to match a subsequent grant award under this part. A grantee may comply with this requirement by providing the supplemental funds itself, or through supplemental funds or voluntary efforts provided by any State recipient or nonprofit recipient (as appropriate).

(b) *Calculating the matching amount.* In calculating the amount of matching funds, there may be included the value of any donated material or building; the value of any lease on a building; any salary paid to staff of the grantee or to any State recipient or nonprofit recipient (as appropriate) in carrying out the emergency shelter program; and the time and services contributed by volunteers to carry out the emergency shelter program, determined at the rate of $5 per hour. For purposes of this paragraph (b), the grantee will determine the value of any donated material or building, or any lease, using any method reasonably calculated to establish a fair market value.

§ 576.73 Use as an emergency shelter.

(a)(1) *General.* Any building for which emergency shelter grant amounts are used for one or more eligible activities described in § 576.21(a)(1) must be maintained as a shelter for the homeless for not less than a three-year period or, if the grant amounts are used for major rehabilitation or conversion of the building, for not less than a 10-year period.

(2)(i) Any building for which emergency shelter grant amounts are used for eligible activities described in § 576.21 (a)(2) or (a)(3) must be maintained as a shelter for the homeless for the period during which such assistance is provided. A substitute site or shelter may be used during this period, so long as the same general population is served.

(ii) For purposes of this section, the term "same general population" means either the same types of homeless persons originally served with ESG assistance (i.e. battered spouses, runaway children, families, or mentally ill individuals) or persons in the same geographic area.

(3) Using emergency shelter grant amounts for homeless prevention activities under § 576.21(a)(4) does not trigger any period of use requirements.

(b) *Calculating the applicable period.* The three- and 10-year periods referred to in paragraph (a) of this section begin to run:

(1) In the case of a building that was not operated as an emergency shelter for the homeless before receipt of grant amounts under this part, on the date of initial occupancy as an emergency shelter for the homeless.

(2) In the case of a building that was operated as an emergency shelter before receipt of grant amounts under this part, on the date that grant amounts are first obligated for the shelter.

§ 576.75 Building standards.

Any building for which emergency shelter grant amounts are used for renovation, conversion, or major rehabilitation must meet local government safety and sanitation standards.

§ 576.77 Assistance to the homeless.

Homeless individuals and families must be given assistance in obtaining:

(a) Appropriate supportive services, including permanent housing, medical health treatment, mental health treatment, counseling, supervision, and other services essential for achieving independent living; and

(b) Other Federal, State, local, and private assistance available for such individuals.

§ 576.79 Other Federal requirements.

Use of emergency shelter grant amounts must comply with the following additional requirements:

(a) *Nondiscrimination and Equal Opportunity.* (1) The requirements of the Fair Housing Act (42 U.S.C. 3601–20) and implementing regulations at 24 CFR part 100; Executive Order 11063 and implementing regulations at 24 CFR part 107; and title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d–2000d–4) and implementing regulations issued at 24 CFR part 1;

(2) The prohibitions against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101–07) and implementing regulations at 24 CFR part 146 and the prohibitions against discrimination against otherwise qualified individuals with handicaps under section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and implementing regulations at 24 CFR part 8. For purposes of the emergency shelter grants program, the term "dwelling units" in 24 CFR part 8 shall include sleeping accommodations.

(3) The requirements of Executive Order 11246 and the regulations issued under the Order at 41 CFR chapter 60;

(4) The requirements of section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. 1701u (see § 570.607(b) of this chapter);

(5) The requirements of Executive Orders 11625, 12432, and 12138. Consistent with HUD's responsibilities under these Orders, the grantee must make efforts to encourage the use of minority and women's business enterprises in connection with activities funded under this part; and

(6) The requirement that the grantee (or in the case of States, the State recipient) make known that use of the facilities and services is available to all on a nondiscriminatory basis. Where the procedures that a grantee or recipient intends to use to make known the availability of such facilities and services are unlikely to reach persons with handicaps or persons of any particular race, color, religion, sex, age or national origin within their service area who may qualify for them, the recipient or grantee must establish additional procedures that will ensure that these persons are made aware of the facilities and services. Grantees and recipients must also adopt and implement procedures designed to make available to interested persons information concerning the existence and location of services and facilities that are accessible to persons with a handicap.

(b) *Applicability of OMB Circulars.*[1] The policies, guidelines, and requirements of 24 CFR part 85 (codified pursuant to OMB Circular No. A–102) and OMB Circular No. A–87, as they relate to the acceptance and use of emergency shelter grant amounts by States and units of general local government, and Nos. A–110 and A–122 as they relate to the acceptance and use of emergency shelter grant amounts by private nonprofit organizations.

(c) *Lead-based paint.* The requirements, as applicable, of the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821–4846) and implementing regulations at 24 CFR part 35. In addition, the grantee (or in the case of States, the State recipient) must also meet the following requirements relating to inspection and abatement of defective lead-based paint surfaces:

(1) Treatment of defective paint surfaces must be performed before final inspection and approval of the renovation, rehabilitation or conversion activity under this part; and

(2) Appropriate action must be taken to protect shelter occupants from the hazards associated with lead-based paint abatement procedures.

(d) *Conflicts of interest.* In addition to the conflict of interest requirements in OMB Circulars A–102 and A–110, no person—

[1] OMB Circulars referenced in this section are available at the Entitlement Cities Division, Room 7282, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410.

(1)(i) Who is an employee, agent, consultant, officer, or elected or appointed official of the grantee, State recipient, or nonprofit recipient (or of any designated public agency) that receives emergency shelter grant amounts and (ii) who exercises or has exercised any functions or responsibilities with respect to assisted activities, or

(2) Who is in a position to participate in a decisionmaking process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from the activity, or have an interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder, either for him or herself or for those with whom he or she has family or business ties, during his or her tenure, or for one year thereafter. HUD may grant an exception to this exclusion as provided in § 570.611 (d) and (e) of this chapter.

(e) *Use of debarred, suspended, or ineligible contractors.* The provisions of 24 CFR part 24 relating to the employment, engagement of services, awarding of contracts, or funding of any contractors or subcontractors during any period of debarment, suspension, or placement in ineligibility status are applicable to grantees and recipients under this part.

(f) *Flood insurance.* No site proposed on which renovation, major rehabilitation, or conversion of a building is to be assisted under this part, other than by grant amounts allocated to States under § 576.43, may be located in an area that has been identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, unless

(1)(i) The community in which the area is situated is participating in the National Flood Insurance Program and the regulations thereunder (44 CFR Parts 59 through 79) or

(ii) Less than a year has passed since FEMA notification regarding such hazards; and

(2) The grantee will ensure that flood insurance on the structure is obtained in compliance with section 102(a) of the Flood Disaster Production Act of 1973 [42 U.S.C. 4001 *et seq.*].

(g) *Coastal barriers.* In accordance with the Coastal Barrier Resources Act, 16 U.S.C. 3501, no financial assistance under this part may be made available within the Coastal Barrier Resources System.

(h) *Drug Free Workplace Act of 1988.* Each grantee is required to certify that it (and its recipients) will maintain a drug-free workplace in accordance with the requirements of 24 CFR part 24, subpart F.

(i) *Audit.* The financial management system used by a State or unit of general local government that is a grantee or State recipient must provide for audits in accordance with 24 CFR part 44. A private nonprofit organization is subject to the audit requirements of OMB Circular A–110.

(j) *Intergovernmental review.* The requirements of Executive Order 12372 and the regulations issued under the order at 24 CFR part 52, to the extent provided by Federal Register notice in accordance with 24 CFR 52.3.

§ 576.80 Relocation and acquisition.

(a) *Minimizing displacement.* Consistent with the other goals and objectives of this Part, grantees and recipients must assure that they have taken all reasonable steps to minimize the displacement of persons (families, individuals, businesses, nonprofit organizations, and farms) as a result of a project assisted under this Part.

(b) *Relocation assistance for displaced persons.* A displaced person (defined in paragraph (f)(1) of this section) must be provided relocation assistance at the levels described in, and in accordance with, 49 CFR part 24, which contains the government-wide regulations implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601–4655).

(c) *Real property acquisition requirements.* The acquisition of real property for a project is subject to the URA and the requirements described in 49 CFR part 24, subpart B.

(d) Responsibility of grantees and recipients. Each grantee and recipient must assure that it will comply with the URA, the regulations at 49 CFR part 24, and the requirements of this section. The cost of assistance required by this section may be paid from local public funds, funds provided in accordance with this part, or funds available from other sources.

(e) *Appeals.* A person who disagrees with the grantee's or recipient's determination concerning a payment or other assistance required by this section may file a written appeal of that determination with the grantee or recipient. The appeal procedures to be followed are described in 49 CFR 24.10.

(f) *Definition.*—(1) *Displaced person.* (i) The term "displaced person" means a person (family, individual, business, nonprofit organization, or farm) that moves from real property, or moves personal property from real property, permanently and involuntarily, as a direct result of acquisition, rehabilitation, or demolition for a project assisted under this Part. Permanent, involuntary moves for an assisted project include:

(A) A permanent move from the real property (building or complex) following notice by the grantee, recipient or property owner to move permanently from the property, if the move occurs on or after the date that the grantee or recipient submits to HUD an application for assistance that is later approved and funded;

(B) A permanent move from the real property that occurs before the submission of the application to HUD, if the grantee, recipient or HUD determines that the displacement resulted directly from acquisition, rehabilitation, or demolition for the project, or

(C) A permanent move from the real property by a tenant-occupant of a dwelling unit that occurs after the execution of the agreement between the recipient and HUD if:

(*1*) The tenant has not been provided a reasonable opportunity to lease and occupy a suitable, decent, safe and sanitary dwelling in the same building/complex following the completion of the project at a rent, including estimated average utility costs, that does not exceed the greater of the tenant's rent and estimated average utility costs before the initiation of negotiations, or 30 percent of gross household income; or

(*2*) The tenant has been required to relocate temporarily but the tenant is not offered payment for all reasonable out-of-pocket expenses incurred in connection with the temporary relocation or other conditions of the temporary relocation are not reasonable, and the tenant does not return to the building/complex; or

(*3*) The tenant is required to move to another unit in the same building/complex but is not offered reimbursement for all reasonable out-of-pocket expenses incurred in connection with the move.

(ii) A person does not qualify as a "displaced person" if:

(A) The person has been evicted for cause based upon a serious or repeated violation of material terms of the lease or occupancy agreement and HUD determines that the eviction was not undertaken for the purpose of evading the obligation to provide relocation assistance;

(B) The person moved into the property after the submission of the application and, before commencing occupancy, received written notice of the expected displacement;

(C) The person is ineligible under 49 CFR 24.2(g)(2); or

(D) HUD determines that the person was not displaced as a direct result of acquisition, rehabilitation, or demolition for the project.

§ 576.85 Performance reports.

(a) *Interim performance report.*—(1) *Timing of report.* (i) A formula city or county, or Territory, must submit its interim performance report to HUD no

after all ESG funds are expended and all activities are completed.

§ 576.87 Recordkeeping.

Each grantee must ensure that records

VOL 54 ISS 214 NO 7 1989 UMI

(C) The person is ineligible under 49 CFR 24.2(g)(2); or

(D) HUD determines that the person was not displaced as a direct result of acquisition, rehabilitation, or demolition for the project.

(iii) The grantee or recipient may, at any time, request a HUD determination of whether a displacement is or would be covered under this section.

(2) Initiation of negotiations. For purposes of determining the type of replacement housing payment to be made to a residential tenant displaced as a direct result of privately undertaken rehabilitation, demolition, or acquisition of the real property, the term "initiation of negotiations" means the execution of the agreement between the grantee and HUD.

Subpart H—Grant Administration

§ 576.51 Responsibility for grant administration.

Grantees are responsible for ensuring that emergency shelter grant amounts are administered in accordance with the requirements of this part and other applicable laws. In the case of States making grant amounts available to State recipients, and in the case of units of general local government distributing grant amounts to nonprofit recipients, the States and the units of local government are responsible for ensuring that their respective recipients carry out the recipients' emergency shelter grant programs in compliance with all applicable requirements.

§ 576.53 Method of payment.

Payments are made to a grantee upon its request after the grant agreement has been fully executed, and may include a working capital advance for 30 days' cash needs or an advance of $5,000, whichever is greater. Thereafter, the grantee will be reimbursed for the amount of its actual cash disbursements. If a grantee requests a working capital advance, it must base the request on a realistic, firm estimate of the amounts required to be disbursed over the 30-day period in payment of eligible activity costs. Payments with respect to grants of $120,000, or more, will be made by letter of credit, if the grantee meets the requirements of 24 CFR 85.21.

§ 576.55 Performance reports.

(a) *Interim performance report*—(1) *Timing of report.* (i) A formula city or county, or Territory, must submit its interim performance report to HUD no later than 30 days after the end of the 180-day period allowed for the obligation of grant amounts under § 576.55(b), or 30 days after the date when all grant amounts are obligated, whichever comes first.

(ii) A State must submit its interim performance report not later than 30 days from the date of the State's distribution of funds to its State recipients; except that where the responsible field office grants a State an extension of the 65-day deadline for making available its grant funds under § 576.55(a)(1) a corresponding extension for filing of the interim report will automatically be granted.

(iii) A grantee referred to in § 576.67, "Reallocation of funds," must submit its interim performance report to HUD within the period specified in its grant agreement.

(2) *Report content.* (i) In the case of a grantee other than a State, the interim performance report must contain information on the amount of funds obligated for each of the four categories of eligible activities described in § 576.21(a) (1), (2), (3), and (4).

(ii) A State interim performance report must provide this information for each State recipient.

(3) *Matching funds certification.* A State must submit with its interim performance report the matching funds certification required by § 576.51(b)(2)(ii).

(b) *Annual performance report*—(1) *Report content.* A grantee other than a State must provide HUD with an annual performance report on the obligation and expenditure of funds for each of the four categories of eligible activities described in § 576.21(a) (1), (2), (3), and (4). A State must provide this information for each State recipient.

(2) *Timing of report.* The initial annual performance report is required for the period ending December 31 following the submission of the interim report, and is due no later than 30 days after December 31. A grantee must continue to submit this report annually until all emergency shelter grant amounts are reported as expended, except that the final report is to be submitted 90 days after all ESG funds are expended and all activities are completed.

§ 576.57 Recordkeeping.

Each grantee must ensure that records are maintained for a three-year period to document compliance with the provisions of this part.

§ 576.59 Sanctions.

(a) *HUD sanctions.* If HUD determines that a grantee is not complying with the requirements of this part or of other applicable Federal law, HUD may (in addition to any remedies that may otherwise be available) take any of the following sanctions, as appropriate:

(1) Issue a warning letter that further failure to comply with such requirements will result in a more serious sanction;

(2) Condition a future grant;

(3) Direct the grantee to stop the incurring of costs with grant amounts;

(4) Require that some or all of the grant amounts be remitted to HUD;

(5) Reduce the level of funds the grantee would otherwise be entitled to receive; or

(6) Elect not to provide future grant funds to the grantee until appropriate actions are taken to ensure compliance.

(b) *State sanctions.* If a State determines that a State recipient is not complying with the requirements of this part or other applicable Federal laws, the State must take appropriate actions, which may include the actions described in paragraph (a) of this section. Any grant amounts that become available to a State as a result of a sanction under this section must, at the option of the State, be made available (as soon as practicable) to other nonprofit organizations or units of general local government located in the State for use within the time periods specified in § 576.55(a)(2), or to HUD for reallocation under § 576.67(d).

(c) *Reallocations.* Any grant amounts that become available to HUD as a result of the imposition of a sanction under this section will be reallocated under § 576.67(d).

Dated: October 26, 1989.

Anna Kondratas,

Assistant Secretary for Community Planning and Development.

RIN 2506-AA97

Supplemental Assistance for Facilities to Assist the Homeless (SAFAH)

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Final rule.

SUMMARY: This rule makes final the guidelines for the Supplemental Assistance for Facilities to Assist the Homeless (SAFAH) program, which were published for effect on October 19, 1987 (52 FR 38880), and amended by Notice, for immediate effect, on January 11, 1989 (54 FR 1006). The SAFAH program was authorized by the Stewart B. McKinney Homeless Assistance Act (Pub. L. 100-77, approved July 22, 1987), as amended by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988). The final rule will be codified at 24 CFR part 579.

EFFECTIVE DATE: Under section 7(o)(3) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)(3)), this final rule cannot become effective until after the first period of 30 calendar days of continuous session of Congress which occurs after the date of the regulation's publication. HUD will publish a notice of the effective date of this rule following expiration of the 30-session-day waiting period. Whether or not the statutory waiting period has expired, this rule will not become effective until HUD's separate notice is published announcing a specific effective date.

FOR FURTHER INFORMATION CONTACT: James Forsberg, Department of Housing and Urban Development, Room 7228, 451 Seventh Street SW., Washington, DC 20410, telephone (202) 755-6300. Hearing or speech-impaired individuals may call the TDD number (202) 755-5965. (These numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The information collection requirements contained in this rule have been submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act of 1980. Expedited review has been requested by December 7, 1988, so that the application process described in this rule may be carried out following OMB approval of the necessary collections of information.

Pending approval of these collections of information by OMB and the assignment of an OMB control number, no person may be subjected to a penalty for failure to comply with these information collection requirements. The OMB control number, when assigned, will be announced by separate notice in the **Federal Register**, at the same time that the rule's effective date is published.

Public reporting burden for this collection of information is estimated to include the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Information on the estimated public reporting burden is provided under the Preamble heading, Other Matters. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, by no later than December 7, 1989 to the Department of Housing and Urban Development, Rules Docket Clerk, 451 Seventh Street SW., Room 10276, Washington, DC 20410; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

I. Background

The SAFAH program was authorized in 1987 by subtitle D, title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11391-11394) (McKinney Act) to provide (1) comprehensive assistance for particularly innovative programs for, or alternative methods of, meeting the immediate and long-term needs of the homeless and (2) assistance to cover the costs in excess of assistance provided under the Emergency Shelter Grants and Supportive Housing Demonstration programs. HUD issued program guidelines for SAFAH, together with a Notice of Funds Availability, on October 19, 1987 (52 FR 38880).

The program guidelines were amended by a Notice, for immediate effect, on January 11, 1989 (54 FR 1006), which implemented amendments to the program made by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988) (1988 Amendment Act). The 1988 Amendments Act required that HUD publish a final rule for the program within 12 months from the date of enactment of the Act. HUD invited public comments on the program amendments announced in the January, 1989 Notice, as well as on the guidelines issued in October, 1987, for consideration in the final rule.

This final rule responds to the public comments received by HUD after publication of the January Notice and to comments from homeless service providers made to HUD staff at meetings around the country. The rule also reflects the Secretary's priority to end the tragedy of homelessness by simplifying the application and selection processes. Some changes are made in the final rule in an effort to make the SAFAH program as consistent as possible with other HUD programs that serve the homeless, such as the Emergency Shelter Grants and Supportive Housing Demonstration programs. These programs have all been combined under the Office of the Assistant Secretary for Community Planning and Development, and will be similar in policy, organization, and administration.

II. Public Comments

HUD received written comments from a local government agency and a private nonprofit organization. Their comments focused on the following areas:

Environmental Review Procedures (§ 579.220)

The local government agency commented on the change, announced in the January Notice, that requires States, metropolitan cities, urban counties, and other units of general local government to assume responsibility for the environmental review. The commenter believes that HUD's environmental review procedures in 24 CFR part 58, for which HUD requires the applicants described above to assume responsibility, are too time-consuming and strict, causing delays in beginning construction. The commenter thought that there should be a provision for a waiver of compliance with HUD procedures for applicants that are subject to other state and local environmental review requirements.

Section 482 of the 1988 Amendments Act provides that the regulations and procedures applicable under section 104(g) of the Housing and Community Development Act of 1974 are to be applied to all programs under title IV of the McKinney Act. Section 104(g) authorizes HUD to assign the Federal environmental review responsibilities to grantees deemed to have the legal capacity for environmental review (States, metropolitan cities, urban counties, and other units of general local government) and to define how the responsibilities are to be performed. The regulations at 24 CFR part 58 describe

the requirements for grantees that assume the responsibilities.

The 1988 Amendments Act recognizes that the objectives of the programs are best served by a consolidation of environmental review responsibilities at the applicant level. Many applicants seek funding under more than one McKinney Act program, and a single environmental review should often suffice for those applicants. According to the Report of the House Committee on Banking, Finance and Urban Affairs, the intent of section 482 of the 1988 Amendments Act was to expedite the consideration of applications. However, the Report states that the Committee expects all applicants to adhere to all requirements of the National Environmental Policy Act (NEPA) and that "this amendment does not lessen any requirement for any project to comply with the NEPA standards." (See H.R. Rep. No. 100-718, part II, 100th Cong., 2d Sess. 39 (1988).)

The requirements of statutes, Executive Orders, and the regulations of oversight agencies that are imposed on applicants through part 58 cannot be waived. Requirements arising out of a statute or Executive Order do not allow for waivers. Those that are regulatory, *i.e.*, the Council on Environmental Quality NEPA regulations (40 CFR parts 1500-1508) and the Advisory Council on Historic Preservation regulations (36 CFR part 800), make some provision for "emergencies," but these are for conditions more extreme than a concern for processing delays. Compliance with the review processes and time periods under the authorities listed in 24 CFR 58.5 is mandatory—whether responsibility for review is assigned to the applicant under section 104(g) or retained and exercised by HUD under 24 CFR part 50. In addition, HUD has no legislative authority to allow the applicability of State or local environmental requirements to substitute for the Federal requirements.

In § 579.220(b)(3), the final rule clarifies that applicants assuming responsibility for environmental reviews may arrange for local governments, with the appropriate technical capability, to conduct the technical review, as long as the applicants still retain all legal responsibilities, *i.e.*, independently evaluate information submitted and assume responsibility for its accuracy, scope, and content, and carry out any mitigation measures called for by the review. Applicants may also adopt prior reviews conducted by HUD or another governmental entity if the reviews adequately address the assisted projects and meet the particular requirements of the Federal environmental law or authority under which they would be adopted, and only under certain conditions (*e.g.*, a determination that no environmentally significant changes have occurred since the review was done).

The nonprofit organization commented that SAFAH procedures with respect to projects or activities on historical sites should be revised to conform with the Supportive Housing requirements. The SAFAH guidelines required that applications include a determination from the State Historic Preservation Officer (SHPO). In contrast, the Supportive Housing program permitted an applicant to submit a copy of its request to the SHPO and to forward the SHPO's determination upon availability. (The Supportive Housing rule did not address the issue of historic preservation specifically; rather, this particular requirement was in the application package.)

HUD agrees that the two programs should be consistent, and has deleted from the final rule the requirement that applicants submit the SHPO's determination with their applications. This deletion does not change the requirement that a determination from the SHPO is necessary, but recognizes that the identification of historic properties and the issue of the effect of the proposed project on the properties is a part of the environmental review process. In cases where HUD conducts the review (§ 579.220(b)(1)), it is HUD's responsibility to identify historic properties and address effects on them; and where the applicant conducts the review (§ 579.220(b)(2)), it is the applicant's responsibility. (The same rule will apply to the Supportive Housing Demonstration program.)

Zoning Requirements

The nonprofit organization commented that, under the SAFAH guidelines, an applicant has to project in its application that proposed zoning actions would be completed within 30 days following selection for funding, while under the Supportive Housing regulations, the period of time is four months. The commenter believed that the two programs should be consistent. HUD agrees and has changed the SAFAH rule to match the Supportive Housing rule.

A SAFAH applicant will be required to submit with the application a written statement from the unit of general local government in which the project is proposed to be located (or other evidence satisfactory to HUD) that the use of the site is permissible under applicable zoning ordinances and regulations; or a statement from the applicant describing the proposed actions necessary to make the use of the site permissible under applicable zoning ordinances and regulations, with evidence that there is a reasonable basis to believe that the proposed zoning actions will be completed successfully and within four months following submission of the application (§ 579.210(b)(12)).

Matching Funds

The nonprofit organization commented that SAFAH matching fund requirements should be reduced from 80 percent to 25 percent and that applicants should be allowed to include other Federal funds, such as Federal Emergency Management Agency (FEMA) funds, ESG funds, and Community Services Block Grants (CSBG), in addition to Community Development Block Grants (CDBG). HUD believes the commenter may be confusing the SAFAH program with other HUD homeless assistance programs, because, there were no matching fund requirements under the SAFAH program guidelines. The guidelines did provide, as does the final rule, that HUD will give points toward selection if applicants can show an ability to leverage other resources (§ 579.215(b)(3)). HUD believes that the extent to which an applicant can show funding from other sources demonstrates the applicant's capacity to carry out the proposed activities in a successful manner, community support for the applicant's proposed activities, and a commitment by the applicant to providing for the needs of the homeless.

HUD will allow the use of CSBG and CDBG funds as a source of non-Federal funds for the purpose of leveraging, since, after they are awarded, CSBG and CDBG funds become subject, broadly speaking, to local (or State) priorities and discretion. To allow other McKinney Act funds, however, such as FEMA or ESG funds, would frustrate the intent of the program to stimulate new resources for the local efforts.

The same commenter proposed that the fair market value of a facility should be considered as an eligible "match." The SAFAH guidelines allowed the fair market value of a donated facility as a leveraging resource. The final rule retains that provision in § 579.110(b)(2)(ii).

The commenter also suggested that volunteer time should be valued at prevailing wages rather than the currently allowed $5 per hour. HUD disagrees. First, HUD would have no

VOL 54 ISS 214 NO 7 1989 UMI

practical way of verifying such rates, the use of which could result in unsubstantiated differences in the valuation of volunteer services from applicant to applicant. Second, HUD believes that the legislative history of the 1988 Amendments Act indicates congressional approval of the $5-per-hour value. Section 452 of the 1988 Amendments Act authorized the value of volunteer time and services as matching funds for Supportive Housing funds, at a rate to be determined by the Secretary. The legislative history of this provision shows that the House Committee on Banking, Finance and Urban Affairs authorized volunteer time and services to be counted as a source of matching funds, because such sources were authorized in the ESG program and the two programs should be uniform in approach. According to the House Report, the Committee believed that the value of volunteer time and services should be calculated "in the same manner as in the Emergency Shelter Grants Program." (H.R. Rep. No. 100-718, Part II, 100th Cong., 2d Sess. 36 (1988).) HUD interprets this to mean that Congress intended that the value of volunteer time and services in the Supportive Housing program should be calculated at $5 an hour, which is the value used for calculating such services in the ESG program (24 CFR 576.71(b)). HUD believes this also indicates that Congress intends for all McKinney Act programs to be consistent and, therefore, approves the $5-an-hour value for the SAFAH program.

Use of Funds

The nonprofit organization suggested that case management should be included among the supportive services eligible for funding. Case management is not excluded from the definition of supportive services in § 579.5, and HUD believes the definition is broad enough to encompass such services. (Case management is specifically included in the definition of outpatient services.)

The commenter also proposed that, under comprehensive assistance (§ 579.100), acquisition advances should be available to repay an outstanding debt on a loan made to purchase a facility, as authorized for the Supportive Housing program by section 445 of the 1988 Amendments Act. HUD disagrees, since this type of assistance was authorized by a specific statutory authorization for the Supportive Housing Program. Absent specific statutory authorization for SAFAH comprehensive assistance, repayment of outstanding debts on loans taken out to purchase a facility should not be available under that category. However, advances for repayment of outstanding debts on such loans would be eligible under the category of assistance in excess of ESG or SHD funding (§ 579.105), since any assistance available under those programs would be available under SAFAH's excess assistance category.

The commenter also suggested that, under the excess assistance category, funding for existing facilities or services should be available for current levels of operation as well as expansion. In §§ 577.125(a)(2)(iv) and 578.125(a)(2)(iv), the final rule for Supportive Housing allows funding for improvements to existing facilities, without expansion of the program, when such improvements are necessary to bring the structures to a level that meets applicable State and local government health and safety standards. This change in the Supportive Housing rule will carry over to the SAFAH program to the extent that an applicant is applying for excess assistance for that purpose, since excess assistance follows the eligibility requirements of either SHD or ESG assistance. However, because of the nature of the assistance, *i.e.*, rehabilitating structures, the only assistance available for existing structures with no expansion of services will be rehabilitation assistance. Comprehensive assistance remains available for existing facilities only when the applicant proposes an expansion of the program.

Funding Levels

The nonprofit organization suggested that caps for moderate rehabilitation grants should be raised to $200,000 (or $400,000 in high cost areas), as now allowed in the SHD program under the 1988 Amendments Act. The definition of moderate rehabilitation under the SAFAH guidelines was based on the amount of HUD's expenditure, which was capped at $100,000. This final rule contains new definitions of both moderate rehabilitation and substantial rehabilitation, which are based on the extent of rehabilitation to the structure, as indicated by the comparison between the cost of rehabilitation and the fair market value of the structure before rehabilitation. Rehabilitation of a project involving costs of 75 percent or less of the value of the structure before rehabilitation will be considered moderate rehabilitation, and costs in excess of 75 percent of the value of the structure before rehabilitation will be considered substantial. HUD believes that basing the definition on the value of the rehabilitation to the structure rather than on the cost of the rehabilitation is a more reasonable interpretation of the terms.

The new definitions used in the SAFAH final rule are the same as those used in the amended final rule for the SHD program (24 CFR parts 577 and 578). However, the SHD rule has a $200,000 (or $400,000 in high cost areas) statutory limitation on the amount of the HUD expenditure. The McKinney Act did not limit the amount of assistance for the SAFAH program. The SHD limitation has not been extended to the SAFAH program, because HUD believes the congressional intent of the SAFAH program is to compensate for programmatic rigidities in the ESG and SHD programs, such as limitations on the amounts of HUD advances or grants. (See H.R. Rep. No. 100-174, 100th Cong., 1st Sess. 81 (1987).)

III. Other Changes

Other changes to the final rule have been made in response to comments from homeless service providers at meetings with HUD staff and in an effort to make the application and selection processes of the SAFAH program more consistent with those processes under the ESG and SHD programs.

Definitions (§ 579.5)

The definition of applicant now includes governmental entities, which were added as eligible SAFAH applicants by a technical amendment to section 431 of the McKinney Act by section 570(i) of the Housing and Community Development Act of 1987 (Pub. L. 100-242, approved Feb. 5, 1988). HUD will recognize governmental entities with general governmental powers as well as those with limited or special powers as eligible applicants for SAFAH funding.

The definition of handicapped that was included in the guidelines has been removed. The guidelines definition was the same as the definition used in the SHD rule. The Department has determined that this definition of handicapped, while required for the SHD program by section 422(2) of the McKinney Act, is not required for the SAFAH program.

The definition of operating costs has been included in the final rule. Operating costs are available in both the comprehensive assistance category and the excess assistance category.

Comprehensive Assistance (§ 579.100)

Operating costs have been added to the final rule as an eligible type of assistance under the comprehensive assistance category. Section 461 of the 1988 Amendments Act amended section 432(a)(2)(A) to authorize comprehensive assistance for the operation of facilities to assist the homeless.

Excess Assistance (§ 579.105)

HUD has revisited the issue of eligible applicants for assistance in excess of ESG and SHD funding, and has concluded that this category of assistance should be available only for projects that have been approved for funding under either the ESG or SHD program. The language of section 432(a)(1) of the McKinney Act, which authorizes the excess assistance category, states that it is authorized "to cover the costs in excess of assistance provided under the emergency shelter grant program or the supportive housing demonstration program." HUD interprets this statutory language to mean that applicants that have been approved for ESG or SHD funding may receive supplemental assistance under the SAFAH program.

Location of Projects in Floodplains (§ 579.220(e))

In the January 11, 1988 Notice of changes to the SAFAH guidelines, HUD announced that section 451 of the 1988 Amendments Act, which requires that flood protection standards for housing acquired, rehabilitated, or assisted with SHD funds may be no more restrictive than those applicable under Executive Order 11988, Floodplain Management (May 24, 1977), would also be applied to the SAFAH program. HUD interpreted section 451 to mean that, for projects located in floodplains, the eight-step process of public notification and decisionmaking outlined in the U.S. Water Resources Council Floodplain Management Guidelines (43 FR 6030, February 10, 1978) must be undertaken before any decision is made on the environmental acceptability of the project site for homeless assistance.

The eight-step process, which is performed during the environmental review, applies to all applications for projects in a 100-year floodplain and, for critical actions (*i.e.* any activity for which even a slight chance of flooding would be too great), in a 500-year floodplain. HUD defined critical actions as those projects intended to serve developmentally disabled, chronically mentally ill, or mobility impaired residents. HUD has reconsidered this issue after a comment on the same requirement in the permanent housing for the handicapped homeless component of the SHD program, and is revising the SAFAH and SHD final rules with respect to projects in a 500-year floodplain.

HUD has concluded that the treatment of all projects for handicapped persons under this program as critical actions is overinclusive. Persons with one type of handicap may experience no difficulty in evacuating a structure or following instructions on safety in the event of flooding, while persons with another type might have varying degrees of difficulty. However, because there is an insufficient basis at this time for differentiating among handicapped groups to be served by facilities assisting the homeless, the rule will not treat SAFAH projects serving the developmentally disabled, chronically mentally ill, or mobility impaired homeless as critical actions. All SAFAH projects will be subject to the eight-step process only when located in a 100-year floodplain, which is the restriction that applies to all non-critical actions in accordance with Executive Order 11988.

Limitations on Use of Assistance (§ 579.110)

Paragraph (c) of § 579.110, which describes the limitations on the use of assistance by primarily religious organizations, contain provisions governing the circumstances under which HUD will provide assistance to a recipient that is a primarily religious organization or a wholly secular organization established by a primarily religious organization. With one exception noted below, these provisions are substantially identical to those set out in 24 CFR part 570, which consists of HUD's community development block grant program (CDBG) entitlement rules.

Under these provisions, a primarily religious organization (or wholly secular organization established by a primarily religious organization) must agree to provide housing and supportive services in a manner that is free from religious influence. In this connection, the provider must (1) not discriminate against any employee or applicant for employment on the basis of religion and not limit employment or give employment preference to persons on the basis of religion; (2) not discriminate against, or limit the provision of housing or supportive services, to applicants for such housing or services on the basis of religion; and (3) provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, or otherwise exert no religious influence in the provision of housing or supportive services.

As noted, the foregoing principles depart in one fashion from the CDBG entitlement rule at 24 CFR 570.200(j)(3) (53 FR 34418, 34412, Sept. 6, 1988), which contains an additional restriction that the portion of the facility of the primarily religious organization used to provide funded services "shall contain no religious symbols or decorations, other than those permanently affixed to or part of the structure."

This policy has been followed for several years in connection with CDBG and homeless assistance made available through primarily religious organization providers. The Department has a continuing commitment to optimize participation by religious providers, which have long been in the forefront in assisting the homeless and other most needy, but in a manner consistent with the strictures imposed by the Establishment Clause of the First Amendment of the United States Constitution. After a review of the relevant case law, the Department has not found any dispositive case addressing the provision of government assistance to a primarily religious organization providing social services in a setting where the presence of religious symbols or decorations alone constitutes a violation of the Establishment Clause. The provision in question, which was recommended to HUD by counsel representing a nationally prominent primarily religious organization as a protection against impermissibly advancing religion, has been utilized in the spirit in which it was so recommended. However, as noted, HUD's examination of the case law has concluded that the excised language suggests a degree of control on the presence of religious symbols or decorations that is not compelled thereunder, or is not otherwise intrinsic to traditional Constitutional Church/State separation doctrine as pronounced by the United States Supreme Court. Accordingly, this rule does not include the prohibition on religious symbols or decorations. Further, an amendment removing the quoted text from § 570.200(j)(3)(iv) is being published as a final rule in a separate document.

This change in no way contravenes the purpose of the underlying principles in these rules, namely, that a primarily religious organization, or a wholly secular organization established by a primarily religious organization, can only provide housing and supportive services in a manner that is free from religious influence, specifically including the explicit provisions described above.

The limitation on the use of assistance for administrative costs has been expanded to include all grants and advances (paragraph (e)). The provision

also clarifies that administrative costs are those costs associated with administering the assistance provided by HUD.

Program Requirements (Subpart E)

The provision in the guidelines to the effect that restrictions on the use of structures be contained in covenants

to relocation assistance to persons who are displaced as a result of acquisition, rehabilitation, or demolition of a structure to be assisted under the

Urban Development Act (42 U.S.C. 3535(d)), and for the reasons stated in the preamble, title 24, chapter V of the Code of Federal Regulations is amended

(1) The purchase, lease, renovation, operation, or conversation of facilities to assist the homeless; or

(2) The provision of supportive

subtitle B of title IV of the McKinney Act and described in 24 CFR part 576, or part C of the Homeless Housing Act of

VOL 54 ISS 214 NO 7 1989 UMI

also clarifies that administrative costs are those costs associated with administering the assistance provided by HUD.

Application and Selection Process (Subpart D)

The program guidelines had separate processes, with slightly differing requirements, for the two categories of assistance available under the SAFAH program. The final rule provides for only one application process for both categories, with no threshold requirements. (Many of the former threshold requirements in the guidelines were retained, but were moved to the sections covering application requirements, ranking criteria, or program requirements.) The ranking criteria are also the same for both categories.

Program Requirements (Subpart E)

The provision in the guidelines to the effect that restrictions on the use of structures be contained in covenants recorded in land records when assistance was provided for structures has been eliminated from the final rule. Comments received from providers of housing for the homeless in meetings and workshops have convinced HUD that this provision is difficult to enforce, given the varying laws of jurisdictions. The removal of this provision, however, is not an indication of a lowered commitment on HUD's part to enforce the grant agreements in other appropriate ways.

Under the guidelines, HUD would not fund any applications that would result in the temporary or permanent displacement of any person or entity. A new section has been added with regard to relocation assistance to persons who are displaced as a result of acquisition, rehabilitation, or demolition of a structure to be assisted under the SAFAH program (§ 579.315). HUD is currently amending all its regulations to comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and new governmentwide implementing regulations at 49 CFR part 24. The rule now requires recipients to provide relocation assistance to displaced persons.

IV. Other Matters

The collection of information requirements for the SAFAH program have been submitted to OMB for review under section 3504(h) of the Paperwork Reduction Act of 1980. Information on these requirements is provided as follows:

Description	Number of respondents	Responses per respondent	Total annual responses	Hours per response	Total hours
Application:					
Comprehensive	250	1	250	100	25,000
Supplemental	30	1	30	52	1,560
Environmental review	60	1	60	14	840
Recordkeeping	40	1	40	1	40
Total Annual Burden					27,440

This rule would not constitute a "major rule" as that term is defined in section 1(d) of the Executive Order on Federal Regulations issued by the President on February 17, 1981. An analysis of the rule indicates that it would not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding is available for public inspection between 7:30 a.m. and 5.30 p.m. weekdays in the Office of the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410.

The General Counsel, as the designated official under Executive Order 12606, The Family, has determined that some of the policies in this final rule will have a potential significant impact on the formation, maintenance, and general well-being of participating homeless families. Participation of families in the program can be expected to support family values, by helping families remain together; by enabling them to live in decent, safe, and sanitary housing; and by offering the supportive services that are necessary to acquire the skills and means to live independently in mainstream American society.

The General Counsel has also determined, as the Designated Official for HUD under section 6(a) of Executive Order 12612, Federalism, that the provision requiring States and other governmental entities to assume the responsibilities for environmental review, decisionmaking, and action under NEPA and other environmental authorities has Federalism implications. While the assignment of these responsibilities under section 1904(g) of the Housing and Community Development Act of 1974 is discretionary with HUD, it is authorized by and clearly the intent of section 443 of the 1988 Amendments Act. Therefore, the policy is not subject to review under Executive Order 12612.

In accordance with 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities. Only a limited number of small entities will be eligible for and affected by this program because: (1) The anticipated funding levels for the program will support only a limited number of recipients; and (2) recipients under the program include small and large private nonprofit organizations and government entities.

This rule was listed as item 1082 on the Department's Semiannual Agenda of Regulations published on October 30, 1989 (54 FR 44702, 44727) under Executive Order 12291 and the Regulatory Flexibility Act.

(The Catalog of Federal Domestic Assistance program number is 14.510)

List of Subjects in 24 CFR Part 579

Grant programs, Housing and community development, Housing, Homeless.

Under the Secretary's authority in section 7(d), Department of Housing and

Urban Development Act (42 U.S.C. 3535(d)), and for the reasons stated in the preamble, title 24, chapter V of the Code of Federal Regulations is amended as follows:

1. Part 579 is added to read as follows:

PART 579—SUPPLEMENTAL ASSISTANCE FOR FACILITIES TO ASSIST THE HOMELESS

Subpart A—General

Sec.
579.1 Applicability and scope.
579.5 Definitions.

Subpart B—Assistance Provided

579.100 Comprehensive assistance.
579.105 Assistance in excess of ESG and SHD program funding.
579.110 Limitations on use of assistance.
579.115 Leveraging.

Subpart C—Comprehensive Homeless Assistance Plan

579.150 Comprehensive Homeless Assistance Plan.

Subpart D—Application and Selection Process

579.200 Notice of fund availability.
579.205 Selection process.
579.210 Application requirements.
579.215 Ranking criteria.
579.220 Environmental review.
579.225 Final selection.

Subpart E—Program Requirements

579.300 Grant agreement.
579.305 General operation.
579.310 Term of commitment and repayment of advance.
579.315 Relocation and acquisition.
579.320 Flood insurance.
579.325 Applicability of other Federal requirements.

Subpart F—Administration

579.400 Obligation of funds, funding amendments, and deobligation.
579.405 Site change.

Authority: Sec. 485 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 11301 note); Sec. 7(d) of the Housing and Urban Development Act (42 U.S.C. 3535(d)).

Subpart A—General

§ 579.1 Applicability and scope.

The Supplemental Assistance for Facilities to Assist the Homeless program (SAFAH), contained in subtitle D of title IV of the Stewart B. McKinney Homeless Assistance Act, is designed to provide:

(a) Comprehensive assistance for particularly innovative programs for, or alternative methods of, meeting the immediate and long-term needs of homeless individuals and families by assisting:

(1) The purchase, lease, renovation, operation, or conversation of facilities to assist the homeless; or

(2) The provision of supportive services for the homeless; or

(b) Assistance to cover the costs in excess of assistance provided under the Emergency Shelter Grants program (24 CFR part 576) and the Supportive Housing Demonstration program (24 CFR parts 577 and 578) that are required:

(1) To meet the needs of homeless families with children, elderly homeless individuals, or handicapped homeless persons;

(2) To facilitate the transfer and use of public buildings to assist homeless individuals and families; or

(3) To provide supportive services for the homeless.

§ 579.5 Definitions.

Applicant means a State, metropolitan city, urban county, governmental entity, tribe, or private nonprofit organization that submits an application for assistance under this part, or any eligible applicant under the ESG program (part 576) or SHD program (parts 577 (transitional housing) and 578 (permanent housing for handicapped homeless persons)). Governmental entities include those that have general governmental powers (such as a city or county), as well as those that have limited or special powers (such as a public housing agency or a state housing finance agency).

Comprehensive Homeless Assistance Plan or *Comprehensive Plan* means the Comprehensive Homeless Assistance Plan established by subtitle A of title IV of the Stewart B. McKinney Homeless Assistance Act and described in § 579.150.

Conversion means a change in the use of a building to an emergency shelter for the homeless under part 576, transitional housing under part 577, or permanent housing for handicapped homeless persons under part 578, where the cost of conversion and any rehabilitation costs exceed 75 percent of the value of the building before conversion.

Date of initial occupancy means the date that the project is initially used as a facility to assist the homeless for which assistance is provided under this part or under parts 576, 577, or 578.

Elderly homeless individual means a homeless individual who is 62 years of age or older. This term includes a homeless family, if the head of the family (or the spouse of the head of the family) is an elderly homeless individual.

Emergency Shelter Grants program or *ESG program* means the homeless assistance program established by subtitle B of title IV of the McKinney Act and described in 24 CFR part 576, or part C of the Homeless Housing Act of 1986 and described in 24 CFR part 575.

ESG formula city or county means a metropolitan city or urban county that is eligible to receive a formula allocation under the Emergency Shelter Grants program.

Facilities designed primarily to benefit homeless elderly individuals and homeless families with children means facilities to assist the homeless, in which more than 50 percent of the homeless to be served are either elderly homeless individuals or homeless families with children.

Handicapped homeless person means a handicapped person who:

(a) Is a homeless individual;

(b) Is currently not a homeless individual but who is at risk of becoming a homeless individual; or

(c) Has been a resident of transitional housing assisted under the Transitional Housing program, described in 24 CFR part 577.

This term may include a homeless family, if the head of the family (or the spouse of the head of the family) is a handicapped homeless person.

HHS means the Department of Health and Human Services.

Homeless means:

(a) An individual or family that lacks a fixed, regular, and adequate nighttime residence; or

(b) An individual or family that has a primary nighttime residence that is:

(1) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mental ill);

(2) An institution that provides a temporary residence for individuals intended to be institutionalized; or

(3) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

This term does not include any individual imprisoned or otherwise detained under an Act of the Congress or a State law.

Homeless family with children means a homeless family that includes at least one parent or guardian and one child under the age of 18, a homeless pregnant woman, and a homeless individual in the process of securing legal custody of any individual who has not attained the age of 18.

HUD means the Department of Housing and Urban Development.

Major rehabilitation means the same as substantial rehabilitation.

VOL 54 ISS 214 NO 7 1989 UMI

McKinney Act means the Stewart B. McKinney Homeless Assistance Act, as amended, generally titles I through V (42 U.S.C. 11301–11412).

Metropolitan city means a city that is classified as a metropolitan city under section 102(a)(4) of the Housing and Community Development Act of 1974. In general, metropolitan cities are those cities that are eligible for an entitlement grant under 24 CFR part 570, subpart D.

Moderate rehabilitation means rehabilitation of a project that involves costs of 75 percent or less of the value of the building before rehabilitation. For projects of 15 or more units where rehabilitation costs are less than 75 percent of the replacement cost of the building, that project must meet the requirements of 24 CFR part 8.23(b). As used in this part, moderate rehabilitation has the same meaning as *renovation* in the ESG program.

Operating costs means expenses that a recipient incurs for:

(a) The administration (including staff salaries), maintenance, minor or routine repair, security and rental of the housing;

(b) Utilities, fuel, furnishings, and equipment for the housing; and

(c) Relocation assistance under § 579.315, including payments and services.

Outpatient health services means:

(a) Outpatient health care (including on-site health screening and evaluation, diagnostic services, health status monitoring, medication dispensing and monitoring, and referral and follow-up for health services);

(b) Outpatient mental health services (including mental health screening and diagnosis, evaluation of treatment needs, prescription and medication management, individual and group counseling, and referral and follow-up);

(c) Case management services (including coordination with existing services and referral and tracking of client progress).

Private nonprofit organization means a secular or religious organization, no part of the net earnings of which may inure to the benefit of any member, founder, contributor, or individual. The organization must:

(a) Have a voluntary board;

(b) (1) Have a functioning accounting system that is operated in accordance with generally accepted accounting principles, or

(2) Designate an entity that will maintain a functioning accounting system for the organization in accordance with generally accepted accounting principles; and

(c) Practice nondiscrimination in the provision of assistance under this Part in accordance with the authorities described in § 579.325(a).

Project means:

(a) Facilities to assist the homeless; or

(b) Any activities eligible under this Part that the applicant proposes in its application and HUD approves for funding under this Part.

Recipient means an applicant HUD approves as to financial responsibility and that executes a grant agreement with HUD for assistance under this Part.

Rehabilitation means labor, materials, tools, and other costs of improving structures to a level that meets or exceeds applicable State and local government health and safety standards. Rehabilitation includes repairs directed toward an accumulation of deferred maintenance, replacement of principal fixtures and components of existing structures, installation of security devices, improvement through alterations or additions to or enhancement of existing structures, including improvements to increase the efficient use of energy in structures, and structural changes necessary to make the structure accessible for persons with physical handicaps. Rehabilitation does not include minor or routine repairs or cosmetic repairs or improvements. All buildings of 15 or more units undergoing rehabilitation must meet the accessibility requirements of section 504 of the Rehabilitation Act of 1973, as amended, as set forth in 24 CFR 8.23(a) or (b).

Renovation means the same as moderate rehabilitation.

SAFAH means the program of Supplemental Assistance for Facilities to Assist the Homeless established by subtitle D of title IV of the McKinney Act, described in this part.

State means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

Substantial rehabilitation means rehabilitation of a project that involves costs in excess of 75 percent of the value of the building before rehabilitation. For projects of 15 or more units where rehabilitation costs are 75 percent or more of the replacement cost of the building, that project must meet the requirements of 24 CFR 8.23(a). As used in this part, substantial rehabilitation has the same meaning as *major rehabilitation* in the ESG program.

Supportive Housing Demonstration program or *SHD program* means the homeless assistance program established by subtitle C of title IV of the McKinney Act. This term includes transitional housing and permanent housing for handicapped homeless.

Supportive services includes:

(a) Food;

(b) Child care;

(c) Assistance in obtaining permanent housing;

(d) Outpatient health service;

(e) Employment counseling;

(f) Nutritional counseling;

(g) Security arrangements necessary for the protection of residents of facilities to assist the homeless;

(h) Assistance in obtaining other Federal, State, and local assistance available to the homeless, including mental health benefits; employment counseling; medical assistance; Veterans' benefits; and income support assistance, such as Supplemental Security Income benefits, Aid to Families with Dependent Children, General Assistance, and Food Stamps; and

(i) Other services proposed by the applicant in its application and approved by HUD, that are essential for achieving or maintaining independent living and that address the needs of the homeless to be served. These services may include, among other things, drug and alcohol abuse programs and job training. Supportive services do not include major medical equipment.

Tribe means an Indian tribe, band, group or nation, including Alaskan Indians, Aleuts, and Eskimos, and any Alaska Native Village, of the United States, considered an eligible recipient under the Indian Self Determination and Education Assistance Act (Pub. L. 93–638) or under the State and Local Fiscal Assistance Act of 1972 (Pub. L. 92–512).

Urban county means a county that is classified as an urban county under section 102(a)(6) of the Housing and Community Development Act of 1974. In general, urban counties are those counties that are eligible for an entitlement grant under 24 CFR part 570, subpart D.

Subpart B—Assistance Provided

§ 579.100 Comprehensive assistance.

(a) *General.* HUD will provide comprehensive assistance for particularly innovative programs for, or alternative methods of, meeting the immediate and long-term needs of homeless individuals and families. The purpose of comprehensive assistance is to stimulate the development and implementation of innovative, community-based, compehensive efforts to respond to the problems of the homeless.

(b) *Advances.* HUD will advance sums to recipients to defray the costs of the acquisition, lease, substantial rehabilitation, or conversion of existing structures selected by the recipients for use as facilities to assist the homeless. Advances are interest-free and, if the conditions described in § 579.310 are met, are not subject to repayment. The sale or disposition of facilities purchased, leased, substantially rehabilitated, or converted with an advance is subject to the requirements of § 579.310(d).

(c) *Grants for moderate rehabilitation.* HUD will make grants to recipients to defray the cost of moderate rehabilitation of existing structures selected by the recipients for use as facilities to assist the homeless. The sale or disposition of facilities rehabilitated with a grant under this paragraph is subject to the requirements of § 579.310(d).

(d) *Grants for supportive services.* HUD will make grants to recipients to defray the cost of providing supportive services, described in the applications and approved by HUD, for the homeless.

(e) *Grants for operating costs.* HUD will make grants to recipients to defray the cost of operating facilities to assist the homeless.

§ 579.105 Assistance in excess of ESG and SHD program funding.

(a) *General.* HUD will provide assistance to cover costs in excess of assistance provided under the ESG (part 576) and SHD (parts 577 and 578) programs that are required.

(1) To meet the special needs of homeless families with children, elderly homeless individuals, or handicapped homeless persons;

(2) To facilitate the transfer and utilization of public buildings to assist homeless individuals and families; or

(3) To provide supportive services for the homeless.

(b) *Eligible projects.* Assistance under this section may only be made available in connection with a project that has been approved for, or has received, funding under the ESG or SHD program. Such applications will be evaluated and ranked under the selection criteria in § 579.215, without regard to their ranking in the ESG or SHD program.

(c) *Advances.* HUD will advance sums to recipients to defray the costs of the acquisition, lease, substantial rehabilitation, or conversion of existing structures selected by the recipients for use as facilities to assist the homeless. Advances are interest-free and, if the conditions described in § 579.310 are met, are not subject to repayment. The sale or disposition of facilities purchased, leased, substantially rehabilitated, or converted with an advance is subject to the requirements of § 579.310(d).

(d) *Grants for moderate rehabilitation.* HUD will make grants to recipients to defray the cost of moderate rehabilitation of existing structures selected by the recipients for use as facilities to assist the homeless. The sale or disposition of facilities rehabilitated with a grant under this paragraph is subject to the requirements of § 579.310(d).

(e) *Grants for supportive services.* HUD will make grants to recipients to defray the cost of providing supportive services, described in the applications and approved by HUD, for the homeless.

(f) *Other assistance.* HUD will make grants to recipients for any other type of assistance available under the ESG and SHD programs.

§ 579.110 Limitations on use of assistance.

(a) *Funding of existing facilities and programs.* (1) HUD will not provide assistance under this part for acquisition of existing facilities or programs that currently serve homeless persons.

(2) HUD will provide comprehensive assistance to existing facilities or programs under this part only if the applicant proposes:

(i) A substantial increase in the number of homeless persons for whom housing will be provided or a substantial increase in the level of supportive services to be provided;

(ii) A substantial change in the use of existing facilities, *e.g.*, if existing facilities for the homeless currently used for one type of project (such as an emergency shelter) will be used for a different type of project (such as transitional housing) where it can be shown a need for the current type of project no longer exists, or if an applicant currently providing a program for one population of homeless persons proposes to serve an additional or alternative segment of the homeless population.

(3) HUD will provide assistance in excess of ESG or SHD to existing facilities or programs under this part only if the applicant proposes:

(i) A substantial increase in the number of homeless persons for whom housing will be provided or a substantial increase in the level of supportive services to be provided;

(ii) A substantial change in the use of existing facilities, *e.g.*, if existing facilities for the homeless currently used for one type of project (such as an emergency shelter) will be used for a different type of project (such as transitional housing) where it can be shown a need for the current type of project no longer exists, or if an applicant currently providing a program for one population of homeless persons proposes to serve an additional or alternative segment of the homeless population; or

(iii) Improvements to existing structures necessary to bring the structures to a level that meets applicable State and local government health and safety standards.

(b) *Maintenance of effort.* No assistance received under this part may be used to replace non-Federal resources with respect to any project.

(c) *Primarily religious organizations*—(1) *Provision of assistance.* (i) HUD will provide assistance to a recipient that is a primarily religious organization if the organization agrees to provide housing and supportive services in a manner that is free from religious influences and in accordance with the following principles:

(A) It will not discriminate against any employee or applicant for employment on the basis of religion and will not limit employment or give preference in employment to persons on the basis of religion;

(B) It will not discriminate against any person applying for housing or supportive services on the basis of religion and will not limit such housing or services or give preference to persons on the basis of religion;

(C) It will provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, and exert no other religious influence in the provision of such public services.

(ii) HUD will provide assistance to a recipient that is a primarily religious organization if the assistance will not be used by the organization to acquire a structure or to convert or rehabilitate a structure owned by the organization, except as described in paragraph (c)(2) of this section.

(2) *Acquisition/substantial rehabilitation or moderate rehabilitation of structures owned by a primarily religious organization.* An acquisition/substantial rehabilitation advance or a moderate rehabilitation grant may be used to convert or rehabilitate a structure owned by a primarily religious organization, if the following conditions are met:

(i) The structure (or portion of the structure) that is to be converted or rehabilitated with HUD assistance has been leased to a recipient that is an existing or newly established wholly secular organization (which may be

VOL 54 ISS 214 NO 7 1989 UMI

established by the primarily religious organization under the provisions of paragraph (c)(3) of this section);

(ii) The HUD assistance is provided to the wholly secular organization (and not the primarily religious organization) to make the improvements;

(iii) The leased structure will be used exclusively for secular purposes available to all persons regardless of religion;

(iv) The lease payments paid to the primarily religious organization do not exceed the fair market rent of the structure before the rehabilitation was done;

(v) The portion of the cost of any improvements that benefit any unleased portion of the structure will be allocated to, and paid for by, the primarily religious organization;

(vi) The primarily religious organization agrees that, if the recipient does not retain the use of the leased premises for wholly secular purposes for the useful life of the improvements, the primarily religious organization will pay an amount equal to the residual value of the improvements to the wholly secular organization, and the wholly secular organization will remit the amount to HUD.

(3) *Assistance to a wholly secular private nonprofit organization established by a primarily religious organization.* (i) A primarily religious organization may establish a wholly secular private nonprofit organization to serve as a recipient. The wholly secular organization may be eligible to receive all forms of assistance available under this part.

(A) The wholly secular organization must agree to provide housing and supportive services in a manner that is free from religious influences and in accordance with the principles set forth in paragraph (c)(1)(i) of this section.

(B) The wholly secular organization may enter into a contract with the primarily religious organization to provide supportive services for the project. In such a case, the primarily religious organization must agree in the contract to carry out its contractual responsibilities in a manner free from religious influences and in accordance with the principles set forth in paragraph (c)(1)(i) of this section.

(C) The acquisition/substantial rehabilitation advance and the moderate rehabilitation grant are subject to the requirements of paragraph (c)(2) of this section.

(ii) HUD will not require the primarily religious organization to establish the wholly secular organization before the selection of its application. In such a case, the primarily religious organization may apply on behalf of the wholly secular organization. The application will be reviewed on the basis of the primarily religious organization's financial responsibility and capacity, and its commitment to provide appropriate resources to the wholly secular organization after formation. The requirement with regard to site control, described in § 579.210(b)(10), may be satisfied if the primarily religious organization demonstrates site control and a commitment to transfer control of the site to the wholly secular organization after its formation. Since the wholly secular organization will not be in existence at the time of the application, it will be required to demonstrate that it meets the definition of private nonprofit organization contained in § 579.5. If such an application is selected for funding, the obligation of funds will be conditioned upon the compliance with these requirements.

(d) *Structures used for multiple purposes.* Facilities assisted under this part may also be used for other purposes. For example, a structure may contain facilities for outpatient health care and may also be used to provide services to the public at large or include commercial space. Under these circumstances, however, assistance under this part will be available only in proportion to the use of the facilities to assist the homeless. No assistance may be used to support the costs of the facility that are not related to providing approved assistance to the homeless.

(e) *Administrative costs.* Up to five percent of any advance or grant awarded under this part may be used for the purpose of paying costs of administering the assistance.

(f) *Outpatient health services.* Not more than $10,000 of any grant or advance under this part may be used for outpatient health services. This limitation does not apply to amounts expended for the rehabilitation or conversion of facilities to assist the homeless that are used to provide outpatient health services.

§ 579.115 Leveraging.

(a) *General.* Applicants are not required to provide matching sources of funds for HUD assistance provided under this part. However, applications that show other public or private sources of funds will receive points for leveraging under the ranking criterion described in § 579.215(b)(3).

(b) *Computation of leveraged amounts.* Resources that may be included for leveraging purposes are:

(1) *Monetary contributions.* HUD will include in the leveraging computation non-Federal monetary contributions from public or private organizations. Funds from Community Development Block Grants and Community Services Block Grants are considered non-Federal sources.

(2) *In-kind contributions.* HUD will include in the leveraging computation, at the value of $5 an hour, the time and services contributed by volunteers to carry out the proposed project. HUD will also include the value of contributions of materials, supplies, equipment, or structures (including a leasehold interest).

Subpart C—Comprehensive Homeless Assistance Plan

§ 579.150 Comprehensive Homeless Assistance Plan.

(a) *Prohibition of assistance.* Assistance under this part may not be provided to, or within the jurisdiction of, a State or an ESG formula city or county, unless the jurisdiction has a HUD-approved Comprehensive Homeless Assistance Plan and the applicant has obtained a certification of consistency with the Comprehensive Plan from the official responsible for filing the Comprehensive Plan.

(b) *Who must have an approved Comprehensive Plan.* If the applicant is:

(1) A State, the State must have an approved Comprehensive Plan.

(2) An ESG formula city or county, the city or county must have an approved Comprehensive Plan.

(3) A governmental entity that is not an ESG formula city or county and:

(i) The project is to be located within the jurisdiction of an ESG formula city or county, the city or county must have an approved Comprehensive Plan;

(ii) The project is to be located outside the jurisdiction of an ESG formula city or county, the State must have an approved Comprehensive Plan.

(4) A private nonprofit organization and:

(i) The project is to be located within the jurisdiction of an ESG formula city or county, the city or county must have an approved Comprehensive Plan or, if the city or county does not have an approved Comprehensive Plan, the State must have an approved Comprehensive Plan; or

(ii) The project is to be located outside the jurisdiction of an ESG formula city or county, the State must have an approved Comprehensive Plan.

(c) *Tribes.* Assistance may be provided to, or within the jurisdiction of, a tribe without a HUD-approved Comprehensive Plan.

(d) *Notification of Comprehensive Plan requirements.* HUD will publish the requirements that pertain to the Comprehensive Homeless Assistance Plan in the Federal Register, as necessary. Prospective applicants should familiarize themselves with these requirements.

Subpart D—Application and Selection Process

§ 579.200 Notice of fund availability.

When funds are made available for assistance under this part, HUD will publish a notice of fund availability in the Federal Register. The notice will:

(a) Give the instructions for obtaining application packages that provide specific application requirements and guidance;

(b) Specify the time and the place for submitting completed applications;

(c) State the amount of funding available under the notice;

(d) Indicate the weight or relative importance of the ranking criteria contained in 24 CFR 579.215 as they will be applied to the funding round announced in the notice; and

(e) Provide other appropriate information and guidance.

§ 579.205 Selection process.

(a) *Selection process.* The selection process for assistance under this part consists of the following stages:

(1) Application for assistance (see § 579.210).

(2) Ranking applications determined eligible for assistance (see § 579.215).

(3) Final selection (see § 579.225).

(b) *Reservation of funds.* To the maximum extent practicable, HUD will reserve not less than 50 percent of all funds available under this part for assistance to projects that are designed primarily to benefit homeless elderly persons or homeless families with children (with a portion of such funds to be used for child care facilities that serve children of homeless families).

§ 579.210 Application requirements.

(a) *Form, time, and adequacy of the application.* To be considered for assistance under this part, applications for assistance must be filed in the form prescribed by HUD under this section, must meet the requirements of this part, and must be submitted within the time period established by HUD in the notice of funds availability under § 579.200.

(b) *Minimum requirements.* At a minimum, HUD will require applications to contain:

(1) *Applicant data.* Identity, description of past experience, and, for private nonprofit organizations, information on eligibility to receive assistance and financial responsibility.

(i) In determining the financial responsibility of private nonprofit organizations, HUD will consider such factors as the past financial history of the organization, its current and anticipated financial outlook, the amount of funding that will be committed under the proposal, and the applicant's other financial responsibilities. (HUD has determined, for purposes of the requirements of this part, that all States, metropolitan cities, urban counties, governmental entities, and tribes are financially responsible.)

(ii) Private nonprofit organizations applying for assistance must include in their applications evidence that they meet the definition of a private nonprofit organization contained in § 579.5.

(2) *Evidence of the applicant's commitment to alleviating poverty.* HUD will consider the applicant's past efforts and its continuing commitment to serve lower income persons, and, in the case of a private nonprofit organization, whether the applicant's organizational objectives foster service to such persons.

(3) *Evidence of the applicant's capacity.* HUD will consider the applicant's ability to initiate the proposed activities within a reasonable time in a successful manner, and to continue to carry out the proposed activities throughout the term of the proposed commitment to HUD. HUD will consider the applicant's experience in establishing and operating facilities to assist the homeless or in providing or coordinating supportive services, and the ability of the applicant's personnel to perform administrative, managerial, and operational functions necessary to the successful development and operation of facilities to assist the homeless.

(4) *Category of funding requested.* Comprehensive assistance or assistance in excess of ESG or SHD program funding, the type or types of assistance requested (*i.e.*, rehabilitation assistance, operating costs, etc.), and the amount of funds requested for each type.

(5) *Description of the proposed project.* Information, if applicable, regarding:

(i) The structure to be used, any proposed rehabilitation of the structure and the estimated costs of the rehabilitation, and the value, as determined by an appraisal, of the structure before rehabilitation if assistance for rehabilitation or conversion is requested;

(ii) The supportive services to be offered, the source of funds for such services, and the identification of the providers of the services;

(iii) An estimated annual budget of operating costs, supportive services costs, and any other applicable costs for the period such assistance is requested.

(6) *Homeless population.* A description of the size and characteristics of the particular homeless population that will be served.

(7) *Other resources.* A description of other resources, both public and private, expected to be made available to the project.

(8) *Operating assurances.* An assurance satisfactory to HUD that the facility will be operated as a facility for the homeless for not less than 10 years from the date of initial occupancy, if the application requests assistance to acquire, lease, rehabilitate, or convert facilities to assist the homeless.

(9) *Consistency with Comprehensive Homeless Assistance Plan.* A certification from the public official responsible for submitting the Comprehensive Plan for the appropriate jurisdiction, described in § 579.150, stating that the proposed project is consistent with the applicable Comprehensive Plan.

(10) *Site control.* Evidence that the applicant has control of the site involved (*e.g.*, ownership, lease, option to purchase or lease), or reasonable assurance that the applicant will have control of the site not later than six months after notification of an award of assistance. "Reasonable assurances" must be satisfied by identification of a suitable site and certification that the applicant is engaged in negotiations or in other efforts for the purpose of gaining control of the identified site, or other evidence satisfactory to HUD that the applicant will gain control of the identified site.

(11) *Consistency with local plans.* (i) A written statement from the unit of general local government in which the project is proposed to be located that the proposed use of the structure and site is not inconsistent with any plan of the local government that may have an effect on the use of the structure or site. This requirement is satisfied if the applicant demonstrates that a written request was made to the unit of local government for the statement and the statement has not been received within 30 days from the request.

(ii) A written statement from the unit of general local government in which the project is proposed to be located, or other evidence satisfactory to HUD, that the proposed use of the site is permissible under applicable zoning ordinances and regulations; or a

statement from the applicant describing the proposed actions necessary to make the use of the site permissible under

assessing an application under this criterion, HUD will consider:

(i) The extent to which the facilities

solely involve operating costs for facilities or the provision of supportive services and the structures and sites

and only under certain conditions (e.g., a determination that no environmentally significant changes have occurred since

statement from the applicant describing the proposed actions necessary to make the use of the site permissible under applicable zoning ordinances and regulations, with evidence that there is a reasonable basis to believe that the proposed zoning actions will be completed successfully and within four months following submission of the application.

(12) *Reasonable efforts.* Evidence that the applicant has made reasonable efforts to use all available local resources, including State and local government funding, resources available from the private sector, and resources available under title IV of the McKinney Act (the ESG program, the SHD program, and the section 8—Moderate Rehabilitation program for Single Room Occupancy Dwellings authorized under subtitle E). The application must also demonstrate that other resources are not sufficient or are not available to carry out the purpose for which the assistance is requested.

(13) *Other.* Other certifications, information, or data as prescribed by HUD in the application package.

(c) *Environmental review.* The environmental effects of each application must be assessed in accordance with the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) (NEPA) and the related authorities listed in HUD's implementing regulations at 24 CFR part 50 or part 58. See § 579.220 for a full discussion of the environmental review requirements for applications for assistance.

§ 579.215 Ranking criteria.

(a) *General.* Applications will be assigned a rating score and placed in ranked order, based upon the critera described in paragraph (b) of this section.

(b) *Criteria.* HUD will award points for the following criteria:

(1) *Innovative quality.* HUD will consider the extent to which the proposal involves a particularly innovative program for, or alternate method of, meeting the immediate and long-term needs of homeless individuals and families. In assessing an application under this criterion, HUD will consider the degree to which the applicant demonstrates that the proposal uses a new or unusual approach that holds promise of successfully meeting the immediate and long-term needs of homeless individuals or families.

(2) *Comprehensiveness.* HUD will consider the comprehensiveness of the proposed assistance in serving the identified homeless population. In assessing an application under this criterion, HUD will consider:

(i) The extent to which the facilities and supportive services to be provided under the proposal, and to be available from others in the area proposed to be served, will satisfy the immediate (*e.g.*, temporary housing, food, clothing, medical needs, etc.) and long-term (*e.g.*, assistance in obtaining permanent housing and supportive services necessary to move the homeless population to independent living) needs of the population to be served;

(ii) The extent to which the proposal reflects a clear understanding of the needs of the homeless population to be served and the extent to which the proposal addresses those needs; and

(iii) The extent to which the proposal is the result of coordinated efforts of members of the community and represents a diversity of experience, broad-based and enduring community commitment, and access to resources.

(3) *Leveraging.* HUD will consider the extent to which the applicant will leverage the amount of assistance to be provided under this part with funds and other resources from other public or private sources, particularly non-Federal sources. (See § 579.115 for a discussion of leveraging sources.)

(4) *Special homeless populations.* HUD will consider the extent to which the application proposes facilities designed primarily to benefit homeless elderly individuals or homeless families with children, or proposes facilities to be used for child care for homeless families.

(5) *Cost effectiveness.* HUD will consider the extent to which the applicant's proposed costs under the proposal are reasonable in relation to the work done and the goods and services purchased; and are effective in accomplishing the purposes of the proposal.

§ 579.220 Environmental review.

(a) *General.* (1) The environmental effects of each application must be assessed in accordance with the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) (NEPA) and the related environmental laws and authorities listed in HUD's implementing regulations at 24 CFR part 50 or part 58, depending on who is responsible for the environmental review.

(2) Environmental regulations provide for certain categorical exclusions under NEPA and set conditions under which excluded activities may be determined exempt from all environmental review requirements. In cases where proposed assistance and leveraging contributions solely involve operating costs for facilities or the provision of supportive services and the structures and sites involved in the projects meet the program requirements of this part, these activities are categorically excluded by regulation and, under part 58, may be determined fully exempt from environmental review.

(b) *Responsibility for review.* (1) HUD will perform the environmental review, in accordance with part 50, for applications received directly from private nonprofit organizations, governmental entities with special or limited purpose powers, and any governmental entities with general purpose powers found not to have the legal capacity to carry out this responsibility. HUD cannot approve such applications prior to its completion of this review.

(2) Applicants that are States (including all recipients under the permanent housing for handicapped homeless program described in 24 CFR part 578), metropolitan cities, urban counties, tribes, or other governmental entities with general purpose powers, and that are deemed to have the legal capacity to do so, must assume responsibility for environmental review, decisionmaking, and action for each application for assistance in accordance with part 58. HUD is permitted to approve such applications subject to later completion of the review by the applicant in accordance with part 58.

(3) The assumption of legal responsibility by an applicant under paragraph (b)(2) of this section does not preclude the applicant's arranging for the conduct of technical reviews by cooperating local governments having an established technical capability, *e.g.*, metropolitan cities in which the project is proposed to be located. The applicant under such arrangements must independently evaluate information submitted and assume responsibility for its accuracy, scope, and content; meet legal requirements attached to the Release of Funds by HUD; determine the completeness of the review; meet any requirements for consultation, as applicable, under 24 CFR 58.5 authorities; and assure the completion of any mitigation measures resulting from technical review or from State consultations. The arrangements described in this paragraph are in addition to the ability of an applicant to adopt relevant and adequate prior reviews conducted by HUD or other governmental entity if the reviews meet the particular requirements of the Federal environmental law or authority under which they would be adopted,

and only under certain conditions (e.g., a determination that no environmentally significant changes have occurred since the review was done).

(c) *Environmental review by HUD.* With regard to the environmental effects of applications for which HUD performs the review, HUD will undertake its review in accordance with the provisions of NEPA and the related authorities listed in 24 CFR 50.4. Any application subject to environmental review by HUD that requires an Environmental Impact Statement (EIS) (generally, an application that HUD determines would have a significant impact on the human environment, in accordance with the environmental assessment procedures at 24 CFR part 50, subpart E) will not be eligible for assistance under this part.

(d) *Environmental review by applicants.* (1) An applicant that is required under paragraph (b)(2) of this section to assume environmental review responsibility must include in its application an assurance that the applicant will assume all the environmental review responsibility that would otherwise be performed by HUD as the responsible Federal official under NEPA and related authorities listed in 24 CFR 58.5, including acceptance of jurisdiction of the Federal courts.

(2) Applicants required to assume environmental review responsibility need not complete the review until a reasonable time after selection for funding. In such cases, the award is subject to completion of the environmental responsibilities set out in 24 CFR part 58 within a reasonable time period after notification of the award. (The provision does not preclude the applicant from enclosing its environmental certification and Request for Release of Funds with its application.)

(i) Upon completion of the requirements in 24 CFR part 58, applicants must certify the completion and submit a Request for Release of Funds. This submission is not required in cases in which the applicant determines, and documents, in accordance with 24 CFR 58.34, that its program components are exempt.

(ii) HUD will not release funds for a project if the recipient or any other party commits SAFAH funds (*i.e.*, incurs any costs or expenditures to be paid or reimbursed with such funds) before the grantee submits and HUD approves its Request for Release of Funds (when such submission is required).

(3) A general government applicant that believes that it does not have the legal capacity to carry out the responsibilities required by 24 CFR part 58 should contact the appropriate HUD field office for further instructions. Determinations of legal capacity will be made on a case-by-case basis.

(e) *Location of projects in floodplains.* Applications for projects that are to be required, rehabilitated, or assisted with SAFAH funds and that are located in any 100-year floodplain, as designated by the Federal Emergency Management Agency (FEMA), are subject to the floodplain review requirements of Executive Order 11988, Floodplain Management (May 24, 1977). Executive Order 11988 review, as referenced under parts 50 and 58, is to be performed during the environmental review.

§ 579.225 Final selection.

(a) *Selection for funding.* Eligible applications for comprehensive assistance under § 579.100 will be ranked separately and funded first. The highest-ranked applications will be selected for funding in accordance with their ranked order, to the extent funds are available, as determined under § 579.215. If funds are available after all eligible applications for comprehensive assistance have been funded, eligible applications for assistance in excess of ESG or SHD under § 579.105 will be funded in accordance with their ranked order. After awards are announced, applicants may contact HUD, with regard to applications not chosen for funding, for an explanation.

(b) *Ties between applicants.* In the event of a tie between applicants, HUD will use the quality of the proposal and the need for the project in the area to determine which application should be selected for funding.

(c) *Procedural error.* If HUD makes a procedural error in a funding competition that, when corrected, would result in awarding sufficient points to warrant funding of an otherwise eligible applicant during that competitive year, HUD may fund that applicant in the next funding competition.

Subpart E—Program Requirements

§ 579.300 Grant agreement.

(a) *General.* The duty to provide housing in accordance with the requirements of this part will be incorporated in a grant agreement executed by HUD and the recipient.

(b) *Enforcement.* HUD will enforce the obligations in the grant agreement through such action as may be appropriate.

§ 579.305 General operation.

(a) *Assistance in excess of ESG or SHD programs.* The program requirements with regard to the operation of facilities or provision of supportive services under the ESG or SHD programs apply to a recipient of assistance in excess of the ESG or SHD programs.

(b) *Comprehensive assistance*—(1) *Facilities to assist the homeless.* Any facility to assist the homeless assisted with comprehensive assistance under this part must be safe and sanitary and must comply with all State and local housing codes, licensing requirements, and any other requirements in the jurisdiction in which the facility is located regarding the condition of the structure and the operation of the facility.

(2) *Ongoing assessment of supportive services.* Each recipient of assistance under this part must conduct an ongoing assessment of the supportive services required by the homeless population receiving such services from the recipient and make adjustments as appropriate.

(c) *Outpatient health services.* Outpatient health services provided by the recipient must be approved as appropriate by HUD and the Department of Health and Human Services. Upon receipt of an application that proposes the provision of outpatient health services, HUD will consult with HHS with respect to the appropriateness of the proposed services.

(d) *Records and reports.* Each recipient of assistance under this part must keep any records and make any reports that HUD may require. HUD may require recipients to monitor individuals or families served by the project for a reasonable time set by HUD to determine whether such individuals or families made succesful transitions to, and continue to reside in, permanent housing.

§ 579.310 Term of commitment and repayment of advance.

(a) All projects receiving assistance under this part for the purchase, lease, renovation, or conversion of property must be operated to assist the homeless for not less than 10 years.

(b) *Repayment of advance.* (1) The recipient of an advance under this part must repay the advance in the amount prescribed under paragraph (b)(2) of this section and in accordance with the terms prescribed by HUD.

(2) (i) The recipient must repay the full amount of the advance if the project is used to assist the homeless for less than 10 years following the date of initial occupancy. For each full year that the project is used as a facility to assist the homeless following the expiration of this 10-year period, the amount that the

recipient will be required to pay will be reduced by one-tenth of the original advance. If the project is used as a facility to assist the homeless for 20

(d) *Responsibility of recipient.* The recipient must assure that it will comply with the URA, the regulations at 49 CFR part 24, and the requirements of this

recipient will be required to pay will be reduced by one-tenth of the original advance. If the project is used as a facility to assist the homeless for 20 years following the date of initial occupancy, the recipient will not be required to repay any portion of the advance under this section.

(ii) The repayment provisions of paragraph (b)(2)(i) of this section will not be enforced if HUD determines that the project is no longer needed for use as a facility to assist the homeless and approves the use of such project for the direct benefit of lower income persons.

(c) *Eminent domain.* A recipient of assistance under this part for the purchase, lease, renovation, rehabilitation, or conversion of a structure that is taken by eminent domain during the 20-year period following the initial date of occupancy must repay the assistance provided, to the extent that funds are available from the eminent domain proceeding.

(d) *Prevention of undue benefits.* (1) If assistance is provided under this part for the purchase, lease, renovation, rehabilitation, or conversion of a structure, and the project is sold or otherwise disposed of during the 20-year period following the date of initial occupancy, the recipient must comply with such terms and conditions as HUD may prescribe to prevent the recipient from unduly benefiting from the sale or disposition.

(2) Paragraph (d)(1) of this section does not apply to sales or dispositions, approved by HUD, that result in the continued use of the project for the direct benefit of lower income persons.

§ 579.315 Relocation and acquisition.

(a) *Minimizing displacement.* Consistent with the other goals and objectives of this part, recipients must assure that they have taken all reasonable steps to minimize the displacement of persons (families, individuals, businesses, nonprofit organizations, and farms) as a result of a project assisted under this part.

(b) *Relocation assistance for displaced persons.* A displaced person (defined in paragraph (f)(1) of this section) must be provided relocation assistance at the levels described in, and in accordance with, 49 CFR part 24, which contains the government-wide regulations implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601–4655).

(c) *Real property acquisition requirements.* The acquisition of real property for a project is subject to the URA and the requirements described in 49 CFR part 24, subpart B.

(d) *Responsibility of recipient.* The recipient must assure that it will comply with the URA, the regulations at 49 CFR part 24, and the requirements of this section. The cost of assistance required by this section may be paid from local public funds, funds provided in accordance with this part, or funds available from other sources.

(e) *Appeals.* A person who disagrees with the recipient's determination concerning a payment or other assistance required by this section may file a written appeal of that determination with the recipient. The appeal procedures to be followed are described in 49 CFR 24.10.

(f) *Definitions*—(1) *Displaced person.* (i) The term "displaced person" means a person (family, individual, business, nonprofit organization, or farm) that moves from real property, or moves personal property from real property, permanently and involuntarily, as a direct result of acquisition, rehabilitation, or demolition for a project assisted under this part. Permanent, involuntary moves for an assisted project include:

(A) A permanent move from the real property (building or complex) following notice by the recipient, project sponsor or property owner to move permanently from the property, if the move occurs on or after the date that the recipient submits to HUD an application for assistance that is later approved and funded;

(B) A permanent move from the real property that occurs before the submission of the application to HUD, if the recipient or HUD determines that the displacement resulted directly from acquisition, rehabilitation, or demolition for the project; or

(C) A permanent move from the real property by a tenant-occupant of a dwelling unit that occurs after the execution of the agreement between the recipient and HUD if:

(*1*) The tenant has not been provided a reasonable opportunity to lease and occupy a suitable, decent, safe and sanitary dwelling in the same building/complex following the completion of the project at a rent, including estimated average utility costs, that does not exceed the greater of (*i*) the tenant's rent and estimated average utility costs before the initiation of negotiations, or (*ii*) 30 percent of gross household income; or

(*2*) The tenant has been required to relocate temporarily, but (*i*) the tenant is not offered payment for all reasonable out-of-pocket expenses incurred in connection with the temporary relocation or other conditions of the temporary relocation are not reasonable, and (*ii*) the tenant does not return to the building/complex; or

(*3*) The tenant is required to move to another unit in the same building/complex but is not offered reimbursement for all reasonable out-of-pocket expenses incurred in connection with the move.

(ii) A person does not qualify as a "displaced person" if:

(A) The person has been evicted for cause based upon a serious or repeated violation of material terms of the lease or occupancy agreement and HUD determines that the eviction was not undertaken for the purpose of evading the obligation to provide relocation assistance;

(B) The person moved into the property after the submission of the application and, before commencing occupancy, received written notice of the expected displacement;

(C) The person is ineligible under 49 CFR 24.2(g)(2); or

(D) HUD determines that the person was not displaced as a direct result of acquisition, rehabilitation, or demolition for the project.

(iii) The recipient or sponsor may, at any time, request a HUD determination of whether a displacement is or would be covered by this rule.

(2) *Initiation of negotiations.* For purposes of determining the type of replacement housing payment to be made to a residential tenant displaced as a direct result of privately undertaken rehabilitation, demolition or acquisition of the real property, the term "initiation of negotiations" means the execution of the agreement between the recipient and HUD.

§ 579.320 Flood insurance.

(a) The Flood Disaster Protection Act of 1973 (42 U.S.C. 4001–4128) prohibits the approval of applications for assistance for acquisition or construction (including rehabilitation) for projects/sites located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, unless:

(1) The community in which the area is situated is participating in the National Flood Insurance Program (see 44 CFR parts 59 through 79), or less than a year has passed since FEMA notification regarding such hazards; and

(2) Flood insurance is obtained as a condition of approval of the application.

(b) Recipients with projects/sites located in an area identified by FEMA as having special flood hazards are responsible for assuring that flood insurance under the National Flood Insurance Program is obtained and maintained.

§ 579.325 Applicability of other Federal requirements.

Each recipient of assistance under this part must comply with the following additional requirements:

(a) *Nondiscrimination and equal opportunity.* The nondiscrimination and equal opportunity requirements that apply to the SAFAH program are discussed below. Notwithstanding the permissibility of proposals that serve designated populations of homeless persons, recipients serving a designated population of homeless persons are required, within the designated population, to comply with these requirements for nondiscrimination on the basis of race, color, religion, sex, national origin, age, and handicap.

(1) The requirements of the Fair Housing Act (42 U.S.C. 3601–20) and implementing regulations at 24 CFR part 100; Executive Order 11063 (Equal Opportunity in Housing) and implementing regulations at 24 CFR part 107; and title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) (Nondiscrimination in Federally Assisted Programs) and implementing regulations issued at 24 CFR part 1;

(2) The prohibitions against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101–07) and implementing regulations at 24 CFR part 146, and the prohibitions against discrimination against handicapped individuals under section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and implementing regulations at 24 CFR part 8;

(3) The requirements of Executive Order 11246 (Equal Employment Opportunity) and the regulations issued under the Order at 41 CFR chapter 60;

(4) The requirements of section 3 of the Housing and Urban Development Act of 1968, (12 U.S.C. 1701u) (Employment Opportunities for Lower Income Persons in Connection with Assisted Projects); and

(5) The requirements of Executive Orders 11625, 12432, and 12138. Consistent with HUD's responsibilities under these Orders, recipients must make efforts to encourage the use of minority and women's business enterprises in connection with funded activities.

(6) If the procedures that the recipient intends to use to make known the availability of the facilities to assist the homeless are unlikely to reach persons of any particular race, color, religion, sex, age, national origin, familial status, or handicap who may qualify for the services provided by the facilities, the recipient must establish additional procedures that will ensure that interested persons can obtain information concerning the existence and location of services and facilities that are accessible to handicapped persons.

(b) *Environmental.* The National Environmental Policy Act of 1969, the related authorities in 24 CFR part 50 or part 58, and the Coastal Barrier Resources Act of 1982 (16 U.S.C. 3601) are applicable to proposals under this program.

(c) *Applicability of OMB Circulars.* The policies, guidelines, and requirements of OMB Circular Nos. A–87 and A–102 (as set forth in 24 CFR part 85) apply to the acceptance and use of assistance under the program by governmental entities, and OMB Circular Nos. A–110 and A–122 apply to the acceptance and use of assistance by private nonprofit organizations, except the requirements of 24 CFR 85.24 are modified by § 579.115, and the requirements of 24 CFR 85.31 are modified by § 579.310.

(d) *Lead-based paint.* (1) The requirements of the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821–4846) and implementing regulations at 24 CFR part 35 (except as superseded in paragraph (d)(2) of this section) apply to facilities to assist the homeless assisted under this part.

(2)(i) This paragraph implements the provisions of section 302 of the Lead-Based Poisoning Prevention Act (42 U.S.C. 4822) by establishing procedures to eliminate, as far as practicable, the hazards of lead-based paint poisoning with respect to structures for which assistance is provided under this part. This paragraph is promulgated under 24 CFR 35.24(b)(4) and supersedes, with respect to the program, the requirements prescribed in subpart C of 24 CFR part 35. The requirements of this paragraph apply to structures that will be occupied by children under seven years of age.

(ii) The following definitions apply to this paragraph (d):

Applicable surface means all intact and non-intact painted interior and exterior surfaces of a residential structure.

Chewable surface means all chewable, protruding painted surfaces up to five feet from the floor or ground, which are readily accessible to children under seven years of age: *e.g.*, protruding corners, windowsills and frames, doors and frames, and other protruding woodwork.

Defective paint surfaces means paint on applicable surfaces that is cracking, scaling, chipping, peeling, or loose.

Elevated blood lead level or *EBL* means excessive absorption of lead: that is, a confirmed concentration of lead in whole blood of 25 μg/dl (micrograms of lead per deciliter of whole blood) or greater.

Lead-based paint surface means a paint surface, whether or not defective, identified as having a lead content greater than or equal to 1 mg/cm2.

(iii) In the case of a structure constructed before 1978 or substantially rehabilitated prior to 1978, the applicant must inspect the structure for defective paint surfaces before it submits an application. Recipients must inspect assisted structures at least annually during the term of their operating commitment to HUD. If defective paint surfaces are found, treatment in accordance with 24 CFR 35.24(b)(2)(ii) is required. Correction of defective surfaces found during the initial inspection must be completed before initial occupancy of the project. Correction of defective paint conditions discovered at periodic inspection must be completed within 30 days of their discovery. When weather conditions prevent completion of repainting of exterior surfaces within the 30-day period, repainting may be delayed, but covering or removal of the defective paint must be completed within the prescribed period.

(iv) In the case of a structure constructed before 1978 or substantially rehabilitated prior to 1978, if the recipient is presented with test results that indicate that a child under the age of seven years occupies the structure and has an elevated blood lead level (EBL), the recipient must cause the unit to be tested for lead-based paint on chewable surfaces. Testing must be conducted by a State or local health or housing agency, by an inspector certified or regulated by a State or local health or housing agency, or an organization recognized by HUD. Lead content must be tested by using an X-ray florescence analyzer (XRF) or other method approved by HUD. Test readings of 1 mg/cm or higher using an XRF shall be considered positive for presence of lead-based paint. Where lead-based paint on chewable surfaces is identified, covering or removal of the paint surface in accordance with 24 CFR 35.24(b)(2)(ii) is required.

(v) In lieu of the procedures set forth in the preceding clause, the recipient may, at its discretion, abate all interior and exterior chewable surfaces in accordance with the methods set out at 24 CFR 35.24(b)(2)(ii).

(vi) The recipient must take appropriate action to protect tenants

VOL
54
ISS
2
1
4
NO
7
1989
UMI

from hazards associated with abatement procedures.

(vii) The recipient must keep a copy of each inspection report for at least three years. If a unit requires testing, or treatment of chewable surfaces based on the testing, the recipient must keep the test results and, if applicable, the certification of treatment indefinitely. The records must indicate which chewable surfaces in the facility has been tested or treated. If records establish that certain chewable surfaces were tested, or tested and treated, in accordance with the standards prescribed in this section, these surfaces do not have to be tested or treated at any subsequent time.

(e) *Conflicts of interest.* In addition to the conflict of interest requirements in OMB Circulars A–102 and 24 CFR part 85, no person who is an employee, agent, consultant, officer, or elected or appointed official of the recipient that receives assistance under the program and who exercises or has exercised any functions or responsibilities with respect to assisted activities, or who is in a position to participate in a decisionmaking process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from the activity, or have an interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder, either for himself or herself or for those with whom he or she has family or business ties, during his or her tenure or for one year thereafter.

(f) *Use of debarred, suspended, or ineligible contractors.* The provisions of 24 CFR part 24 apply to the employment, engagement of services, awarding of contracts, or funding of any contractors or subcontractors during any period of debarment, suspension, or placement in ineligibility status.

(g) *Audit.* The financial management systems used by States, metropolitan cities, urban counties, governmental entities and tribes that are recipients under this program must provide for audits in accordance with 24 CFR part 44. Private nonprofit organization recipients are subject to the audit requirements of OMB Circular A–110. HUD may perform or require additional audits as it finds necessary or appropriate.

(h) *Davis-Bacon Act.* The provisions of the Davis-Bacon Act (40 U.S.C. 276a–276a–5) do not apply to the program.

(i) *Drug- and alcohol-free facilities.* Section 402 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 requires recipients assisted under this part to administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its residents. Recipients are also subject to the requirements of sections 5151–5160 of the Drug-Free Workplace Act of 1988 and HUD's implementing regulations at 24 CFR part 24.

Subpart F—Administration

§ 579.400 Obligation of funds, funding amendments, and deobligation.

(a) *Obligation of funds.* When HUD selects an application for funding and notifies the recipient, it will obligate funds to cover the amount of the approved assistance under subpart B of this part.

(b) *Increases.* After the initial obligation of funds, HUD will not make any upward revisions to the amount obligated for any approved assistance.

(c) *Deobligation.* (1) HUD may deobligate amounts for approved assistance is proposed activities are not begun or carried out expeditiously within a reasonable time following selection.

(2) The grant agreement may set forth in detail other circumstances under which funds may be deobligated, and other sanctions may be imposed.

(3) HUD may:

(i) Fund eligible applications that were submitted in response to the most recently published notice of funds availability with the deobligated funds; or

(ii) Readvertise the availability of funds that have been obligated under this section in a notice of fund availability under § 579.200.

(d) *Site control.* HUD will deobligate any award for assistance under this part if the recipient does not have control of a suitable site within one year after notification of an award.

§ 579.405 Site change.

(a) *General.* A recipient may obtain ownership or control of a suitable site different from the one specified in its application. Retention of an assistance award is subject to the new site's meeting all requirements under this part for suitable sites.

(b) *Increased costs.* If the costs for the purchase, lease, rehabilitation, renovation, or conversion of the substitution site are greater than the amount awarded for such assistance for the site specified in the application, the recipient must provide for all additional costs. If the recipient is unable to demonstrate to HUD that it is able to provide for the difference in costs, HUD may deobligate the award of assistance.

(c) *Applicability.* This section is applicable to awards of assistance made under this part on or after November 1, 1987.

Dated: October 31, 1989.

Anna Kondratas,

Assistant Secretary for Community Planning and Development.

Section 8 Moderate Rehabilitation Program for Single Room Occupancy Dwellings for Homeless Individuals

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: This rule implements section 441 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11401), as amended by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988), which authorizes the section 8 Moderate Rehabilitation Assistance Program for Single Room Occupancy (SRO) Dwellings for Homeless Individuals. The purpose of the SRO program is to provide rental assistance for homeless individuals in rehabilitated SRO housing. The assistance is in the form of rental assistance under the section 8 Housing Assistance Payments Program. These payments equal the rent for the unit, including utilities, minus the portion of the rent payable by the tenant under the U.S. Housing Act of 1937.

EFFECTIVE DATE: Under section 7(o)(3) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)(3)), this final rule cannot become effective until after the first period of 30 calendar days of continuous session of Congress which occurs after the date of the rule's publication. HUD will publish a notice of the effective date of this rule following expiration of the 30-session-day waiting period. Whether or not the statutory waiting period has expired, this rule will not become effective until HUD's separate notice is published announcing a specific effective date.

FOR FURTHER INFORMATION CONTACT: Lawrence Goldberger, Director, Office of Elderly and Assisted Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 755-5720.

A telecommunications device for deaf persons (TDD) is available at (202) 566-2673. Voice line (202) 377-9555. (These are not toll-free numbers.) Hours: 9:00 a.m. to 5:00 p.m. (EST).

SUPPLEMENTARY INFORMATION:

Information Collection Requirements

The information collection requirements contained in this rule have been submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act of 1980. Expedited review has been requested by December 7, 1989, so that the application process described in this rule may be carried out following OMB approval of the necessary collections of information.

Pending approval of these collections of information by OMB and the assignment of an OMB control number, no person may be subjected to a penalty for failure to comply with these information collection requirements. The OMB control number, when assigned, will be announced by separate notice in the Federal Register, at the same time that the rule's effective date is published.

Public reporting burden for this collection of information is estimated to include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the documents making up the collection of information. Information on the estimated public reporting burden is provided elsewhere in this document. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden by no later than December 7, 1989, to the Department of Housing and Urban Development, Rules Docket Clerk, 451 Seventh Street, SW., Room 10276, Washington, DC 20410, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

I. Background

On July 22, 1987, the President signed into law the Stewart B. McKinney Homeless Assistance Act (the "McKinney Act"), Public Law 100-77. This rule implements section 441 of the McKinney Act, which authorizes the section 8 Moderate Rehabilitation Assistance Program for Single Room Occupancy Dwellings for Homeless Individuals.

A notice was published on January 9, 1989 (54 FR 769) announcing the availability of a $45 million appropriation under the Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1989 (Pub. L. 100-404, approved August 19, 1988). The January 9 notice set forth the requirements governing the use of the funds made available in that fiscal year. A prior notice of funding availability was published in Fiscal Year 1988 (52 FR 38380, October 15, 1987), which governed the use of those funds provided in that fiscal year.

The Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988) (the "1988 Amendments") made additional program changes, which were reflected in the January 9 notice and which are discussed further below, regarding (1) the use of efficiency units, (2) a definition of "major spaces", (3) an annual adjustment of the cost limitation per unit, and (4) responsibility for environmental reviews. The 1988 Amendments also required the Department to implement the requirements by notice within 60 days of enactment and by regulations within 12 months. The notice published on January 9, 1989 complied with the first half of the mandate; however, in order to meet the second half, the Department solicited public comments on the January 9 notice, and a 60 day comment period was afforded the public. A discussion of the comments received and the disposition of those comments is contained elsewhere in this preamble.

II. This Rule

Under the program, HUD enters into annual contributions contracts (ACCs) with public housing agencies (PHAs) in connection with the moderate rehabilitation of residential properties in which some or all of the dwelling units may not contain either food preparation or sanitary facilities. (The inclusion of efficiency units was added by the 1988 Amendments and is discussed further below). Each of these single room occupancy (SRO) units is intended for occupancy by one eligible homeless individual. The limitation of occupancy to one eligible individual is a Housing Quality Standard (HQS) requirement developed by the Department to implement section 8(n) of the U.S. Housing Act of 1937, 42 U.S.C. 1437f, which first allowed the use of section 8 Moderate Rehabilitation assistance for SRO units.

Assistance under section 441 of the McKinney Act may only be provided for SRO units occupied by homeless single "individuals" (section 441(b)). In this respect, section 441 differs from all other section 8 and Public Housing programs under the United States Housing Act of 1937, as well as from all of the other homeless assistance programs under the McKinney Act. For other section 8 or Public Housing programs, HUD is authorized to provide assistance for "families" (see U.S. Housing Act of 1937, *passim*) and a single individual may qualify as a statutory "family" only in specific circumstances defined in the law (U.S. Housing Act of 1937, section 3(b)(3)). For the other McKinney Act programs, assistance is made available for homeless families. By contrast, section 8 SRO assistance under section 441 may not be used for housing occupied by a multi-person "family", and may only be used for assistance to single individuals.

The legislative history indicates clearly the Congressional intention that assistance under section 441 may only be used for single individuals, and may not be used for multi-person families, or families with children. The legislation authorizing section 8 moderate rehabilitation assistance for SRO units originated in the Senate. An explanation of the bill (inserted in the record by Senator Cranston) states that the Section 8 assistance for SRO dwellings is intended to meet the housing needs of "elderly, handicapped or displaced single individuals" (133 Cong. Rec. S 4818).

In the bill introduced in and originally passed by the Senate, the authorization of section 8 moderate rehabilitation assistance for SRO units was paired with a separate proposed authorization of section 8 certificate funding "to assist homeless families with children." (The proposed authorization to assist homeless families with children was at section 404(a) of the Senate bill (H.R. 558 as amended by Senate substitute); the authorization to assist single individuals in SRO dwellings was at section 404(b) of the bill.) In conference on the McKinney bill, the subsection to provide assistance for homeless families with children was dropped (presumably because assistance for such families is authorized under other sections of McKinney); the provision of assistance for individuals in SRO housing was retained, and enacted as section 441 of the McKinney Act. This history shows that section 441 was not intended to provide assistance for families with children, but to meet the special housing needs of isolated individuals.

Section 8(n) of the U.S. Housing Act of 1937 (42 U.S.C. 1437f) authorizes the Secretary to waive (1) the 15 percent limitation on the number of units under the jurisdiction of any PHA that can be occupied by "other single persons" (those who do not qualify as elderly, displaced, or the remaining member of a tenant family), and (2) the preference for persons who are elderly, handicapped, or displaced over other single persons. (See sec. 3(b)(3), U.S. Housing Act of 1937, 42 U.S.C. 1437a(b)(3)). The Department believes that waiver of the limitation and preference is appropriate for this program. Many of those who will occupy the SRO housing assisted under this program would not be subject to the 15 percent limitation (because they are elderly, displaced, or the remaining member of a tenant family) and, therefore, would probably qualify for the preference. In light of the administrative burden involved for those few who may be subject to the 15 percent limitation, the Department waives these provisions for purposes of this program. Accordingly, the selection of tenants is not subject to the statutory percentage limitations on the number of units that may be occupied by single persons other than the elderly, handicapped, or displaced, nor is tenant selection for SROs subject to the preference for elderly, handicapped, or displaced single persons over other single persons. The waiver of these provisions is set forth in § 882.809. (A conforming regulatory change regarding this waiver is also set forth in an amendment to § 812.3.)

If, after appropriate outreach efforts by the PHA and the Owner, there are insufficient eligible homeless individuals to fill all assisted units, the Owner may rent them to eligible non-homeless individuals.

Amounts made available through this program must be allocated by HUD on the basis of a national competition to the applicants that best demonstrate a need for the assistance and the ability to undertake and carry out a program to be assisted under this rule. No single city or urban country is eligible to receive more than 10 percent of the assistance being made available.

Under this program, HUD will provide assistance for a 10-year period. The statutory allocation procedures established for the program by section 441 apply instead of the "fair share" allocation procedures required for most assisted housing funds by section 213(d) of the Housing and Community Development Act of 1974, 42 U.S.C. 1439(d).

A notice of funding availability for the program will be published in the Federal Register, each fiscal year or as often as is needed, announcing the availability of funds and inviting PHAs to submit applications for the program. Applications shall contain the information prescribed in § 882.805(c) and any other information prescribed in the Notice. The Notice will also provide additional information on the HUD selection process, including how applications will be ranked. The Notice will include specific information on when and to whom applications are to be submitted. HUD Headquarters will process all applications and select the successful PHAs.

A PHA which is selected will execute an ACC with HUD. The ACC shall be for a term of eleven years (thus allowing for one year to place the units under a Housing Assistance Payments Contract (HAP Contract) and a 10-year assistance period under the HAP Contract). The ACC will give HUD the option to renew the ACC for an additional 10 years, subject to the availability of appropriations.

Before the Owner begins any rehabilitation, the PHA and the Owner must enter into an Agreement to Enter into Housing Assistance Payments Contract (Agreement). After completion of rehabilitation, the PHA and the Owner will enter into a Housing Assistance Payments Contract. The HAP Contract must be entered into within 12 months of execution of the ACC and will have a 10-year term.

Under the original Section 8 Moderate Rehabilitation Program for Single Room Occupancy Dwellings for Homeless Individuals, the total cost of rehabilitation that may be compensated through Contract Rents under a HAP Contract could not exceed $14,000 per SRO unit (including a pro rata share of the cost related to common areas). This limit could be adjusted in certain circumstances. Further discussion of the cost limitation is set forth below under the discussion of the changes made by the 1988 Amendments. (There is no limitation on the cost of rehabilitation under the regular Moderate Rehabilitation program.)

Under this rule permanent displacement is prohibited. The Department believes that a project that cannot be rehabilitated without permanently displacing tenants should not be provided with assistance, and has prohibited such assistant in § 882.803(d). However, in the event there is a waiver of this prohibition or a violation of this prohibition, there is a cross-reference in § 882.803(d) to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

This rule makes applicable many of the regulations for the current Moderate Rehabilitation Program in 24 CFR part 882, subparts D and E, and refers to other regulations in title 24 of the Code of Federal Regulations. Section references to HUD regulations are to title 24. The term "family" as used in 24 CFR 812.2 shall be understood to refer to an individual for purposes of the Moderate Rehabilitation SRO Program.

The 1988 Amendments made the following changes to the SRO Program. (These changes were reflected in the January 9, 1989 notice of funding

do not possess general purpose powers. The Department believes that the existence of such powers—especially powers relating to land use control—is

covered by a CHAP, an application for homeless housing assistance (under title IV of the McKinney Act, including Moderate Rehabilitation Single Room

contain that restriction, and all PHAs are permitted to submit applications. (This change was implemented by a revised notice of fund availability

have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based

Executive Order 12606, the Family

The General Counsel, as the Designated Official under Executive Order 12606, the Family, has determined

VOL 54 ISS 214 NO 7 1989 UMI

The 1988 Amendments made the following changes to the SRO Program. (These changes were reflected in the January 9, 1989 notice of funding availability.):

(1) SRO assistance may now be used in connection with the moderate rehabilitation of efficiency units, if the owner agrees to pay the additional costs of rehabilitating and operating the units. This amendment is evidenced in this rule by permitting, under § 882.803(b) Housing Quality Standards, an SRO unit that may contain both food preparation and sanitary facilities. However, in no case may the fair market rents for SRO units be exceeded. (That fair market rent is 75 percent of the 0-bedroom Moderate Rehabilitation fair market rent.)

(2) A definition of "major spaces" is provided in connection with fire and safety improvements and is set forth to mean "hallways, large common areas, and other areas specified in local fire, building, or safety codes." This definition is contained in this rule under § 882.803(b) Housing Quality Standards.

(3) HUD is required to increase the per unit cost limit each year to take into account increases in construction costs, starting with assistance provided on or after October 1, 1988. For purposes of Fiscal Year 1989 funding, the cost limitation was raised from $14,000 per unit to $14,300 per unit to take into account increases in construction costs during the preceding 12-month period. (Future cost limitation changes will be established by publication of a Notice in the Federal Register.)

(4) Under section 104(g) of the Housing and Community Development Act of 1974, 42 U.S.C. 5304 (the "1974 Act"), funds may be released for particular projects to recipients of CDBG assistance under title I of the 1974 Act who assume all of the responsibilities for environmental review, decisionmaking, and actions under the 1974 Act. Section 482(a) of the 1988 Amendments states that "the provisions of, and regulations and procedures applicable under, section 104(g)" of the 1974 Act shall apply to assistance and projects under title IV of the McKinney Act. This gives HUD the discretion to apply the environmental review procedures of section 104(g) and its implementing regulations at 24 CFR part 58 to the section 8 Moderate Rehabilitation SRO program.

In all the programs to which section 104(g) (other than those in title IV of the McKinney Act) applies, the recipients of assistance are jurisdictions with general purpose powers. Although a small minority of PHAs are agencies of general local government, the majority do not possess general purpose powers. The Department believes that the existence of such powers—especially powers relating to land use control—is an important element in a recipient's ability to carry out the status of a "responsible Federal official", within the meaning of section 104(g). Clearly, most PHAs do not possess these powers and would be unable successfully to carry out these environmental responsibilities.

Thus, for purpose of this rule, the Department will not provide for assumption of environmental review responsibilities by PHAs, but will carry out these functions itself. (This decision applies to all PHAs, even if they possess general governmental powers.) In the Department's view, the relatively small number of PHAs that have these powers does not justify operating a dual system for environmental review for the program.

In developing a final rule for this program, the Department specifically requested in the January 9 notice comments on the following alternative proposals for handling environmental reviews for this program in the future:

(a) HUD to continue to conduct the environmental reviews for all recipients under this program, or

(b) Units of general local government that operate as PHAs to assume responsibility for conducting their own environmental reviews, with HUD continuing to conduct the reviews for all other PHAs. No comments were received on this issue or on the alternatives presented. The Department will continue to conduct the environmental reviews for this program as discussed above.

(5) Section 401 of the McKinney Act prohibits assistance under the Moderate Rehabilitation SRO Program from being made available within the jurisdiction of a State, or a metropolitan city or urban county that is eligible for a formula allocation under the Emergency Shelter Grants program established by the McKinney Act (ESG formula city or county), unless the State, city, or county has a HUD-approved Comprehensive Homeless Assistance Plan (CHAP). If the structure containing an SRO unit to be assisted under this program is located within an ESG formula city or country, the city or county must have an approved CHAP. If the structure is located outside an ESG formula city or county, the State must have an approved CHAP. Since Indian tribes are not required to have approved CHAPs, the CHAP requirement does not apply to an Indian Housing Authority established by exercise of a tribe's powers of self-government independent of State Law. Section 401(f) provides that in an area covered by a CHAP, an application for homeless housing assistance (under title IV of the McKinney Act, including Moderate Rehabilitation Single Room Occupancy Assistance under section 441) must contain a certification from the official who submits the CHAP that the proposed assistance is consistent with the CHAP. The certification requirement is set forth under § 882.805(c)(7) of this rule.

Section 402 of the 1988 Amendments require CHAPs to contain an assurance that each grantee, recipient, and project sponsor (as appropriate) will administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries. SROs under this program are homeless facilities for this purpose and, therefore, subject to CHAP requirements regarding drug- and alcohol-free facilities as set forth in section III.4 of the CHAP notice published on December 28, 1988 (53 FR 52600).

This rule follows the requirements of the notice of fund availability published on January 9, 1989, with the exception of: (1) The expansion of eligibility to participate at § 882.805(c)(9) to PHAs that are not currently administering a Moderate Rehabilitation program, as discussed further under Public Comments, and (2) the additional requirement at § 882.805(c)(5) that applicants submit information regarding their experience in working with homeless people.

III. Public Comments

As discussed above, the 1988 Amendments required the Department to implement its requirements by notice within 60 days of its enactment and by regulations within 12 months. The notice published on January 9, 1989 complied with the first half of the mandate; however, in order to meet the second half, the Department solicited public comment on the notice, and a 60-day comment period was afforded the public.

The Department received eight public comments from: Two local housing authorities, a county multi-service center, a mayor of a city, a State representative to a State legislature, a State department of community development, a county government, and a private citizen. All commenters raised essentially the same objection—that the program was limited to public housing agencies that are currently administering a Moderate Rehabilitation program under 24 CFR part 882. Accordingly, the final rule does not contain that restriction, and all PHAs are permitted to submit applications. (This change was implemented by a revised notice of fund availability published on April 18, 1989, at 54 FR 15560.)

IV. Other Matters

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection weekdays from 7:30 a.m. to 5:30 p.m. in the Office of the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 10276, 451 Seventh Street, SW., Washington, DC 20410.

This rule does not constitute a "major rule" as that term is defined in section 1(b) of the Executive Order on Federal Regulations issued by the President on February 17, 1981. An analysis of the rule indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In accordance with 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities because it provides housing for homeless individuals through a housing assistance mechanism that is already established between HUD, the PHA, and the Owner under the section 8 Housing Assistance Payments Program.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of the Executive Order 12612, Federalism, has determined that the policies contained in this rule do not have federalism implications and, thus, are not subject to review under the Order because the rule merely provides, at statutory direction, housing for homeless individuals through a housing assistance mechanism that is already established between HUD, the PHA, and the Owner under section 8 Housing Assistance Payments Program.

Executive Order 12606, the Family

The General Counsel, as the Designated Official under Executive Order 12606, the Family, has determined that this rule does not have a potential significant impact on family formation, maintenance, and general well-being and, thus, is not subject to review under the Order, because its aim is to provide single room housing for homeless individuals.

This rule was listed as item 1058 in the Department's Semiannual Agenda of Regulations published on October 30, 1989 (54 FR 44702, 44723) in accordance with Executive Order 12291 and the Regulatory Flexibility Act.

The Catalog of Federal Domestic Assistance Program number is 14.156, Lower Income Housing Assistance Program.

Information Collection Requirements

The collection of information requirements contained in this rule have been submitted to OMB for review under section 3504(h) of the Paperwork Reduction Act of 1980 and have been assigned OMB control number 2502-0367. A new information collection requirement has been added at § 882.805(c)(5) relating to the applicant's experience in working with homeless people. Information on these requirements is provided as follows:

TABULATION OF ANNUAL REPORTING BURDEN FINAL RULE—SECTION 8 MODERATE REHABILITATION PROGRAM FOR SINGLE ROOM OCCUPANCY DWELLINGS FOR HOMELESS INDIVIDUALS

Description of information collection	Section of 24 CFR affected	No. of respondents	No. of responses per respondents	Total annual responses	Hours per response	Total hours
Section 8 moderate rehabilitation program for single room occupancy dwellings for homeless individuals (2502-0367).	24 CFR 882	150	1	150	25.5	3,825

Accordingly, chapter VIII of title 24 of the Code of Federal Regulations is amended as follows:

PART 812—[AMENDED]

1. The authority for part 812 continues to read as follows:

Authority: Sec. 3, United States Housing Act of 1937 (42 U.S.C. 1437a); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

2. In § 812.3, a new paragraph (g) is added to read as follows:

§ 812.3 Authorization to admit single persons.

* * * * *

(g) This section shall not apply to the Section 8 Moderate Rehabilitation Program for Single Room Occupancy Dwellings for Homeless Individuals set forth at 24 CFR part 882, subpart H.

PART 882—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

3. The authority citation for part 882 is amended by adding the following citation:

Authority: * * * Secs. 401 and 441, Stewart B. McKinney Homeless Assistance Act, Pub. L. 100-77, approved July 22, 1987; secs. 481 and 485, Stewart B. McKinney Homeless Assistance Amendments Act of 1988, Pub. L. 100-628, approved November 7, 1988; sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

4. Part 882 is amended to add a new subpart H to read as follows:

Subpart H—Section 8 Moderate Rehabilitation Single Room Occupancy Program for Homeless Individuals

Sec.
- 882.801 Purpose.
- 882.802 Definitions.
- 882.803 Project eligibility and other requirements.
- 882.804 Other Federal requirements.
- 882.805 PHA application process, HUD review and selection, ACC execution, and pre-rehabilitation activities.
- 882.806 Agreement to enter into housing assistance payments contract, rehabilitation period, and cost certifications.
- 882.807 Housing assistance payments contract.
- 882.808 Management.
- 882.809 Waivers.

Subpart H—Section 8 Moderate Rehabilitation Single Room Occupancy Program for Homeless Individuals

as amended by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988).

social, recreational, educational, commercial, and health facilities, and other appropriate municipal facilities and services.

(C) A person who is temporarily relocated under the provisions of

rehabilitation, or demolition for the project.

§ 882.804 Other Federal requirements.

(a) Participation in this program requires compliance with the Equal Opportunity requirements specified in

VOL 54 ISS 214 NO 7 1989 UMI

Subpart H—Section 8 Moderate Rehabilitation Single Room Occupancy Program for Homeless Individuals

§ 882.801 Purpose.

The purpose of section 8 Moderate Rehabilitation Program for Single Room Occupancy (SRO) Dwellings for Homeless Individuals is to provide rental assistance for homeless individuals in rehabilitated SRO housing. The section 8 assistance is in the form of rental assistance payments. These payments equal the rent for the unit, including utilities, minus the portion of the rent payable by the tenant under the U.S. Housing Act of 1937.

§ 882.802 Definitions.

In addition to the definitions set forth in § 882.102 (except for the definition of "Single Room Occupancy (SRO) Housing" therein) the following will apply:

Agreement to enter into housing assistance payments contract ("Agreement"). A written agreement between the Owner and the PHA that, upon satisfactory completion of the rehabilitation in accordance with requirements specified in the Agreement, the PHA will enter into a Housing Assistance Payments Contract with the Owner.

Eligible individual ("Individual"). An individual who, taking into account the supportive services available to the individual, is capable of independent living and is authorized for admission to assisted housing under 24 CFR part 812 and part 813.

Homeless individual. An individual who—

(a) Is an Eligible Individual,

(b) Lacks a fixed, regular, and adequate nighttime residence; and

(c) Has a primary nighttime residence that is—

(1) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);

(2) An institution that provides a temporary residence for individuals intended to be institutionalized; or

(3) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. The term "Homeless Individual" does not include any individual imprisoned or otherwise detained under an Act of the Congress or a State law.

McKinney Act. The Stewart B. McKinney Homeless Assistance Act (Pub. L. 100-77, approved July 22, 1987), as amended by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (Pub. L. 100-628, approved November 7, 1988).

Moderate rehabilitation. Rehabilitation involving a minimum expenditure of $1,000 for a unit, including its prorated share of work to be accomplished on common areas or systems, to upgrade to Decent, Safe and Sanitary condition to comply with the Housing Quality Standards or other standards approved by HUD, from a condition below those standards (improvements being of a modest nature and other than routine maintenance.

Single room occupancy (SRO) housing. A unit for occupancy by a single eligible individual capable of independent living which may not contain food preparation and/or sanitary facilities in accordance with § 882.803(b).

Statement of family responsibility. An agreement, in the form prescribed by HUD, between the PHA and a Family to be assisted under the Program, stating the obligations and responsibilities of the two parties.

Supportive services. Services that may include outpatient health services; employment counseling; nutritional counseling; information on obtaining furniture or clothing; security arrangements necessary for the protection of residents of facilities to assist the homeless; other services essential for maintaining independent living; assistance to homeless individuals in obtaining other Federal, State, and local assistance available for such individuals, including mental health benefits, employment counseling, medical assistance, and income support assistance, such as Supplemental Security Income benefits, General Assistance, and Food Stamps; and residential supervision necessary to facilitate the adequate provision of supportive services to the residents. The term does not include major medical equipment.

§ 882.803 Project eligibility and other requirements.

(a) *Eligible and ineligible properties*—(1) Except as otherwise provided in this paragraph (a), housing suitable for moderate rehabilitation is eligible for inclusion under this program. Existing structures of various types may be appropriate for this program, including single family houses and multifamily structures.

(2) Housing is not eligible for assistance under this program if it:

(i) Is, or has been within 12 months before the Owner submits a proposal to the PHA, subsidized under any Federal housing program, including the Certificate or Housing Voucher program;

(ii) Is owned by the PHA (or by an entity controlled by the PHA) administering the ACC under which assistance is to be provided;

(iii) Is a project with a HUD-held mortgage or is a HUD-owned project; or

(iv) Is or has been assisted, or is in a project for which a commitment for assistance has been entered into, under the Rental Rehabilitation program, 24 CFR part 511.

(3) Nursing homes and related facilities such as intermediate care or board and care homes; units within the grounds of penal, reformatory, medical, mental, and similar public or private institutions; and facilities providing continual psychiatric, medical, or nursing services are not eligible for assistance under this program.

(4) No Section 8 assistance may be provided with respect to any unit occupied by an Owner.

(5) Housing located in the Coastal Barrier Resources System designated under the Coastal Barriers Resources Act is not eligible.

(6) Single-sex facilities are allowable under the Moderate Rehabilitation SRO program, provided that the PHA determines that because of the physical limitations or configuration of the facility, considerations of personal privacy require that the facility (or parts of the facility) be available only to members of a single sex.

(b) *Housing quality standards.* Section 882.404 (including its incorporation by reference of 24 CFR 882.109) shall apply to this program, except as follows:

(1) The housing quality standards in 24 CFR 882.109(i) and 24 CFR 882.404(c), concerning lead-based paint, shall not apply to this program, since these SRO units will not house children.

(2) In addition to the performance requirements contained in § 882.109(p) concerning SRO units, a sprinkler system that protects all major spaces, hard wired smoke detectors, and such other fire and safety improvements as State or local law may require shall be installed in each building. The term "major spaces" means hallways, large common areas, and other areas specified in local fire, building, or safety codes.

(3) Section 882.109(q), concerning shared housing, shall not apply to this program.

(4) Section 882.404(b), concerning site and neighborhood standards, shall not apply to this program, except that 24 CFR 882.404(b) (1) and (2) shall apply. In addition, the site shall be accessible to social, recreational, educational, commercial, and health facilities, and other appropriate municipal facilities and services.

(5) An SRO unit may contain both food preparation and sanitary facilities.

(c) *Financing.* Section 882.405 shall apply to this program.

(d) *Relocation*—(1) Prohibition against displacement of residential tenants from assisted units. Constructing or rehabilitating units to be subsidized with assistance under subpart H may not result in the displacement of residential tenants from the units to be subsidized. A residential tenant who is displaced, either through a waiver of this requirement or in violation of this requirement, may qualify as a displaced person under paragraph (d)(2) of this section.

(2) *Uniform Relocation Act.* The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601) and governmentwide implementing regulations at 49 CFR part 24 set forth relocation assistance requirements that apply to displaced persons.

(i) For the purposes of this subpart H, the term "displaced persons" means a person (family, individual, business, nonprofit organization, or farm) that moves permanently and involuntarily as a direct result of acquisition, rehabilitation, or demolition for a project assisted under this subpart H. Displaced person includes:

(A) Any person required by the Owner to move permanently from the property (structure or complex) on or after the date that the Owner submits to a PHA an application for assistance that is later approved and funded, unless:

(*1*) The person is evicted for cause based upon a serious or repeated violation of material terms of the lease or occupancy agreement and the PHA determines that the eviction was not undertaken for the purpose of evading the obligation to provide relocation assistance;

(*2*) The person moved into the property (structure or complex) after the submission of the application but received prior written notice of the expected displacement; or

(*3*) The PHA determines that the person was not displaced as a direct result of acquisition, rehabilitation, or demolition for the project, and the HUD Field Office concurs in that determination.

(B) A person required by the Owner to move permanently from the property (structure or complex) before the Owner submits an application to the PHA, if the PHA or HUD determines that the displacement resulted from acquisition, rehabilitation, or demolition for the project.

(C) A person who is temporarily relocated under the provisions of paragraph (d)(3) of this section, but is not reimbursed for reasonable out-of-pocket expenses required by paragraph (d)(3)(i)(D) of this section and does not return to the property.

(ii) The PHA may, at the time, request a HUD determination as to whether a displacement is covered by the URA.

(iii) A displaced person's eligibility for relocation assistance is subject to the requirements in 49 CFR part 24.

(3) *Temporary relocation.* The following policies apply to temporary relocation of tenants from a property (structure or complex). The policies apply only to lawful residential tenants (but not to owner-occupants or businesses) who are temporarily relocated following submission of the Owner's application to the PHA. The following policies do not apply to tenants who commence occupancy after the Owner's submission of an application if, before they commence occupancy, they are are provided written notice from the Owner of the impending new construction or rehabilitation and possible temporary relocation, or whose tenancy is terminated for cause based upon a serious or repeated violation of material terms of the lease or occupancy agreement.

(i) Tenants may not be required to move temporarily from a property (structure or complex) unless:

(A) The Owner has given the tenants advance written notice and appropriate advisory services;

(B) Decent, safe, and sanitary temporary housing is available;

(C) The temporary relocation period will not exceed 12 months; and

(D) The Owner must reimburse tenants for reasonable out-of-pocket expenses incurred in connection with the temporary relocation, including moving costs to and from temporary housing and increases in monthly housing costs.

(ii) The PHA must ensure that all the temporary relocation requirements are met. Preliminary or ongoing administrative funds may be used for costs of PHA advisory services for temporary relocation of tenants to be assisted under the program.

(iii) Tenants who do not believe they have received temporary relocation opportunities, services, or payments in accordance with this paragraph (d) may appeal to the PHA and must be given an informal hearing on this appeal.

§ 882.804 Other Federal requirements.

(a) Participation in this program requires compliance with the Equal Opportunity requirements specified in § 882.111, with section 504 of the Rehabilitation Act of 1973 (as implemented at 24 CFR part 8), and with the Age Discrimination Act of 1975. The PHA must also comply with its equal opportunity housing plan.

(b) The PHA and Owner must agree to comply with the requirements of the following, where applicable:

(1) Clean Air Act and Federal Water Pollution Control Act;

(2) Flood Disaster Protection Act of 1973;

(3) Section 504 of the Rehabilitation Act of 1973 (as implemented at 24 CFR part 8);

(4) Executive Order 11246, Equal Employment Opportunity (for all construction contracts of over $10,000);

(5) Executive Order 11625, Prescribing Additional Arrangements for Developing and Coordinating a National Program for Minority Business Enterprises;

(6) Executive Order 12432, Minority Business Enterprise Development, and 12138, Creating a National Women's Business Enterprise Policy; and

(c) For agreements covering nine or more assisted units, the following labor standards requirements apply:

(1) Not less than the wages prevailing in the locality, as determined by the Secretary of Labor under the Davis-Bacon Act (40 U.S.C. 276a–276a–5), must be paid to all laborers and mechanics employed in the development of the project;

(2) The employment of laborers and mechanics shall be subject to the provisions of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–333); and

(3) PHAs, Owners, contractors and subcontractors must comply with all related rules, regulations and requirements.

(d) The environmental review requirements of 24 CFR part 50, implementing the National Environmental Policy Act and related environmental laws and authorities listed in 24 CFR 50.4, are applicable to this program. HUD will complete environmental reviews on applications under this program before selecting PHAs.

§ 882.805 PHA application process, HUD review and selection, ACC execution, and pre-rehabilitation activities.

(a) *General.* A Notice of Funding Availability for the program will be published in the **Federal Register** each

fiscal year or as often as is needed, announcing the availability of funds and inviting PHAs to submit applications for the program. Applications shall contain

(3) A description of the interest that has been expressed by builders, developers, Owners, and others (including profit and nonprofit

(ii) Each CHAP must contain an assurance that each grantee, recipient, and project sponsor (as appropriate) will administer, in good faith, a policy

(ii) The PHA's ability to undertake and carry out the program within the schedule proposed by the PHA, as demonstrated by:

(A) Procedures for tenant outreach and for establishing waiting lists;

(B) A policy governing temporary relocation; and

(5) Obtain firm commitments for other resources to be provided;

(6) Determine that the $1,000 minimum amount of work requirement and other

VOL 54 ISS 214 NO 7 1989 UMI

fiscal year or as often as is needed, announcing the availability of funds and inviting PHAs to submit applications for the program. Applications shall contain the information prescribed in § 882.805(c) and any other information prescribed in the Notice. The Notice will also provide additional information on the HUD selection process, including how applications will be ranked. The Notice will include specific information on when and to whom applications are to be submitted. HUD Headquarters will process all applications and select the successful PHAs.

(b) *Obtaining Proposals from Owners and Selection of Proposals.* PHAs have discretion to select proposals by Owners in accordance with their own procedures and policies, consistent with the requirements of this rule.

(c) *PHA Application.* Section 441 of the McKinney Act requires that HUD allocate the amounts made available for this program on the basis of a national competition to the applicants that best demonstrate a need for the assistance and the ability to undertake and carry out a program to be assisted. Each application to HUD shall contain the following information to enable HUD to make these determinations:

(1) A description of the size and characteristics of the homeless population of single individuals within the applicant's jurisdiction that would occupy SRO dwellings under this program, and a statement of the basis for this description (*i.e.*, the source of the information). If the PHA intends to serve a designated population of homeless persons, such as substance abusers or the chronically mentally ill, the application should identify the designated population and the size of the designated population, if appropriate.

(2) Identification of specific structures, by address (indicating city and urban county where applicable), that the PHA proposes for rehabilitation and assistance under this program, including:

(i) The total number of SRO units requested;

(ii) The total number of units in each structure;

(iii) The number of vacancies among SRO units to be assisted;

(iv) The type of rehabilitation expected; and

(v) For applications identifying more than one structure, a priority ranking of the structures in the event that the application can only be partially funded. The priority ranking shall be developed based on the selection criteria the PHA uses to select structures in accordance with § 882.806(b).

(3) A description of the interest that has been expressed by builders, developers, Owners, and others (including profit and nonprofit organizations) in participating in the program.

(4) A preliminary feasibility analysis for each structure identified which demonstrates that a preliminary estimate of the gross rents for the structure indicate that the project is feasible within the fair market rent limitation. The analysis should also address the structure's compliance with basic program requirements regarding eligible properties and tenants, site control, the $1,000 minimum in eligible rehabilitation work, the maximum limit on rehabilitation costs, and eligible work items.

(5) A description of the applicant's experience in working with homeless people.

(6) Identification of any supportive services (as defined in § 882.802) which would be necessary for the population expected to be served. The availability of these services should be demonstrated by letters from the agencies (including public and private sources) providing the services. The letters should describe the services to be provided, the funding source, and the proposed period of availability. The PHA shall demonstrate that the supportive services appropriately address the needs of the homeless population to be served. The application should address whether these services will be provided in the structure or elsewhere. If elsewhere, the application should demonstrate that the services will be readily accessible to the homeless population to be served. (Services are readily accessible if residents can get to the services on their own, or if transportation is provided to the site where the services are provided.)

(7) A certification from the public official responsible for submitting the Comprehensive Homeless Assistance Plan (CHAP) for the State, formula city or county, or territory that the proposed activities of the PHA are consistent with the CHAP.

(i) If the structure containing an SRO unit to be assisted under this program is located within an ESG formula city or county, the city or county must have an approved CHAP. If the structure is located outside an ESG formula city or county, the State must have an approved CHAP. Since Indian tribes are not required to have approved CHAPs, the CHAP requirement does not apply to an Indian Housing Authority established by exercise of a tribe's powers of self-government independent of State law.

(ii) Each CHAP must contain an assurance that each grantee, recipient, and project sponsor (as appropriate) will administer, in good faith, a policy designed to ensure that each SRO is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries. The PHA is required to administer a policy consistent with this CHAP assurance, and each Owner is required to operate the SRO units assisted under this subpart in accordance with that policy.

(8) A schedule for completion of all necessary steps through execution of the Housing Assistance Payments Contract and an assurance that it is feasible for the PHA to meet its schedule.

(9) A description of the PHA's overall administrative capability, its experience in administering the Section 8 Moderate Rehabilitation Program, and its rehabilitation expertise. If a PHA has not administered a Section 8 Moderate Rehabilitation Program, the PHA must demonstrate that it

(i) Has the ability to operate a rehabilitation program, or

(ii) Will contract with a qualified agency or entity which will assist the PHA in operating a rehabilitation program, or

(iii) Will develop the capability to operate a rehabilitation program.

(10) The types of financing expected to be used, including Federal, State, or locally assisted financing programs, and a description of the availability of such financing. If available, statements from these financing sources indicating their willingness to provide financing should be submitted.

(d) *HUD selection process*—(1) *Ranking.* Before ranking applications, HUD will complete environmental reviews required under 24 CFR part 50 on all applications. HUD may elect to eliminate a proposal from consideration where the application would require an Environmental Impact Statement, or where the time necessary for the completion of the review process under an environmental law for structures identified in a particular application would prevent timely completion of the ranking and selection process. Except for such eliminated proposals, HUD will rank all applications from PHAs that contain all items required by § 882.806(c), based upon HUD's assessment of which applications have the best combination of the following:

(i) The need for assistance, as demonstrated by the PHA's analysis of the size and characteristics of the population to be served, and by the thoroughness of the analysis of the need presented; and

(ii) The PHA's ability to undertake and carry out the program within the schedule proposed by the PHA, as demonstrated by:

(A) Whether the preliminary feasibility analysis demonstrates that it appears likely that the proposed structure will be financially feasible;

(B) Whether the proposed structure meets basic program requirements (e.g., regarding eligible properties and rehabilitation and minimum and maximum rehabilitation amounts);

(C) The percentage of units proposed for assistance which are vacant (rehabilitation of vacant units generally will result in more units becoming available for the homeless; therefore, a preference will be given to applications indicating the highest percentage of vacancies);

(D) Whether it appears feasible for the PHA and Owner to complete all steps necessary so that the Contract may be executed within 12 months of execution of the ACC;

(E) Whether the PHA has specified the resources available to provide necessary supportive services, and demonstrated the strength and length of the commitments to provide those resources;

(F) The availability of financing, both assisted and unassisted, as demonstrated by statements or commitments from lenders, with a preference for projects where financing is available; and

(G) The PHA's experience with rehabilitation programs, including past performance in placing Moderate Rehabilitation units under Agreement and Contract, and the PHA's overall administrative capability, as evaluated by the HUD field office.

(2) *Selection of applications.* (i) HUD will select the highest ranking applications. However, no city or urban county may have projects receiving a total of more than 10 percent of the assistance to be provided under this program.

(ii) HUD will notify each PHA whether or not its application has been selected.

(e) *ACC Execution.* (1) Before execution of the ACC, the PHA shall submit to the appropriate HUD field office the following:

(i) Equal Opportunity Housing Plan and Certifications, Form HUD–620 (revised, if necessary, to reflect the particular nature of SRO housing and homeless population);

(ii) Estimates of Required Annual Contributions, Forms HUD–52672 and HUD–52673;

(iii) Administrative Plan, which should include:

(A) Procedures for tenant outreach and for establishing waiting lists;

(B) A policy governing temporary relocation; and

(C) A mechanism to monitor the provision of supportive services.

(iv) Proposed Schedule of Allowances for Tenant-Furnished Utilities and Other Services, Form HUD–52667, with a justification of the amounts proposed;

(v) If applicable, proposed variations to the acceptability criteria of the Housing Quality Standards (see § 882.803(b)); and

(vi) The fire and building code applicable to each structure.

(2) After HUD approved the PHA's application, the review and comment requirements of 24 CFR part 791 have been complied with, and the PHA has submitted (and HUD has approved) the items required by § 882.805(e)(1), HUD and the PHA shall execute the ACC in the form prescribed by HUD. The initial term of the ACC shall be 11 years. This term allows one year to rehabilitate the units and place them under a 10-year HAP Contract. The ACC shall give HUD the option to renew the ACC for an additional 10 years.

(3) Section 882.403(a), Maximum Total ACC Commitments, shall apply to this program.

(4) Section 882.403(b), Project Account, shall apply to this program.

(f) *Project development.* Before execution of the Agreement, the PHA shall:

(1)(i) Inspect the structure to determine the specific work items which need to be accomplished to bring the units to be assisted up to the Housing Quality Standards (see § 882.803(b)) or other standards approved by HUD;

(ii) Conduct a feasibility analysis, and determine whether cost-effective energy conserving improvements can be added;

(iii) Ensure that the Owner prepares the work write-ups and cost estimates required by 24 CFR 882.504(f); and

(iv) Determine initial base rents and Contract Rents;

(2) Assure that the Owner has selected a contractor in accordance with 24 CFR 882.504(g);

(3) After the financing and a contractor are obtained, determine whether the costs can be covered by initial Contract Rents, computed in accordance with § 882.805(g); and, where a structure contains more than 50 units to be assisted, submit the base rent and Contract Rent calculations to the appropriate HUD field office for review and approval in sufficient time for execution of the Agreement in a timely manner;

(4) Obtain firm commitments to provide necessary supportive services;

(5) Obtain firm commitments for other resources to be provided;

(6) Determine that the $1,000 minimum amount of work requirement and other requirements in 24 CFR 882.504 (c)(2) and (3) are met;

(7) Determine eligibility of current tenants, and select the units to be assisted, in accordance with 24 CFR 882.504(e);

(8) Comply with the financing requirements in 24 CFR 882.504(i);

(9) Assure compliance with all other applicable requirements of this rule; and

(10) In the event that the PHA determines that any structure proposed in its application is infeasible, or the PHA proposes to select a different structure for any other reason, the PHA must submit the information required in § 882.805(c)(2) for the proposed alternative structure to HUD Headquarters for review and approval and to the HUD Field Office for environmental review, as required by § 882.804(d). HUD Headquarters will rate the proposed structure in accordance with the procedures in § 882.805(d). The PHA may not proceed with processing for the proposed structure or execute an Agreement until HUD notifies the PHA that HUD has approved the proposed alternative structure and that all requirements have been met.

(g) *Initial contract rents.* Section 882.408, Initial Contract Rents (including the establishment of fair market rents for SRO units at 75 percent of the O-bedroom Moderate Rehabilitation Fair Market Rent), shall apply to this program, except as follows:

(1)(i) In determining the monthly cost of a rehabilitation loan, in accordance with 24 CFR 882.408(c)(2), a loan term of a least 10 years (instead of 15 years) may be used. The exception in 24 CFR 882.408(c)(2)(iii) for using the actual loan term where the total amount of the rehabilitation is less than $15,000 shall continue to apply. In addition, the cost of the rehabilitation that may be included for the purpose of calculating the amount of the initial Contract Rent for any unit shall not exceed the lower of

(A) The projected cost of rehabilitation, or

(B) The per unit cost limitation that is established by Federal Register Notice, plus the cost of the fire and safety improvements required by § 882.803(b)(2).

HUD may, however, increase the limitation in paragraph (g)(1)(i) (B) of this section by an amount HUD determines is reasonable and necessary to accommodate special local

VOL 54 ISS 214 NO 7 1989 UMI

conditions, including high construction costs or stringent fire or building codes. Future cost litigation changes will be published in the Federal Register in the Notice of Funding Availability issued each year.

(ii) Where the FHA believes that high construction costs warrant an increase in the per unit cost limitation in paragraph (g)(1)(i) (B) of this section, the PHA shall demonstrate to HUD's satisfaction that a higher average per unit amount is necessary to conduct this program and that every appropriate step has been taken to contain the amount of the rehabilitation within the published per unit cost limitation established at that time, plus the cost of the required fire and safety improvements. These higher amounts will be determined as follows:

(A) HUD may approve a higher per unit amount up to, but not to exceed, an amount computed by multiplying the HUD-approved High Cost Percentage for Base Cities (used for computing FHA high cost area adjustments) in use before April 1988, for the area, by the current published cost limitation plus the cost of the required fire and safety improvements.

(B) HUD may, on a structure-by-structure basis, increase the level approved in paragraph (g)(1)(i) to up to an amount computed by multiplying 2.4 by the current published cost limitation plus the cost of the required fire and safety improvements.

(2) In approving changes to initial Contract Rents during rehabilitation in accordance with 24 CFR 882.408(d), the revised initial Contract Rents may not reflect an average per unit rehabilitation cost that exceeds the limitation specified in paragraph (g)(1) of this section.

(3) Where the structure contains four or fewer SRO units, the Fair Market Rent for that size structure (the Fair Market Rent for a 1-, 2-, 3-, or 4-bedroom unit, as applicable) shall be used to determine the Fair Market Rent limitation instead of using the separate Fair Market Rent for each SRO unit. To determine the Fair Market Rent limitation for each SRO unit, the Fair Market Rent for the structure shall be apportioned equally to each SRO unit.

(4) Contract Rents shall not include the costs of providing supportive services, transportation, furniture, or other non-housing costs, as determined by HUD. Also, contract rents shall not include the additional costs of rehabilitating and operating efficiency units.

(Approved by the Office of Management and Budget under control number 2502-0367)

§ 882.806 Agreement to enter into housing assistance payments contract, rehabilitation period, and cost certifications

(a) *Rehabilitation period—(1) Agreement.* Before the Owner begins any rehabilitation, the PHA shall enter into an Agreement with the Owner in the form prescribed by HUD.

(2) *Timely performance of work.* Section 882.508(a) shall apply to this program. In addition, the Agreement shall provide that the work shall be completed and the Contract executed within 12 months of execution of the ACC. HUD may reduce the number of units or the amount of the annual contribution commitment if, in the determination of HUD, the PHA fails to demonstrate a good faith effort to adhere to this schedule or if other reasons justify a reduction in the number of units.

(3) *Inspections.* Section 882.508(b) shall apply to this program.

(4) *Changes.* Section 882.508(c)(1) shall apply to this program. Contract Rents may not be increased except in accordance with 24 CFR 882.408(d) and 882.804(g)(2).

(5) *List of vacancies.* Section 882.508(d) shall apply to this program. See also, § 882.806(a) *Outreach to homeless individuals and appropriate organizations; waiting lists.*

(b) *Completion of rehabilitation—(1) Notification of completion.* Section 882.507(a) shall apply to this program.

(2) *Evidence of completion.* Section 882.507(b) shall apply to this program, except that § 882.507(b)(2)(iv), concerning lead-based paint requirements, shall not apply.

(3) *Actual cost and rehabilitation loan certifications.* Section 882.507(c) shall apply to this program, except that Contract Rents shall be established in accordance with § 882.804(g) of this rule.

(4) *Review and inspections.* Section 882.507(d) shall apply to this program.

(5) *Acceptance.* Section 882.507(e) shall apply to this program.

(Approved by the Office of Management and Budget under control number 2502-0367)

§ 882.807 Housing assistance payments contract.

(a) *Time of execution of contract.* Section 882.508(a) shall apply to this program.

(b) *Term of contract.* The Contract for any unit rehabilitated in accordance with this program shall be for a term of 10 years. The Contract shall give the PHA the option to renew the Contract for an additional 10 years.

(c) *Changes in contract rents from agreement.* The Contract Rents may be higher or lower than those specified in the Agreement, in accordance with § 882.805(g) of this rule.

(d) *Unleased units.* Section 882.508(c) shall apply to this program.

(e) *Contract rents at end of rehabilitation loan term.* For a Contract where the initial Contract Rent was based upon a loan term shorter than 10 years, the Contract must provide for reduction of the Contract Rent effective with the rent for the month following the end of the term of the rehabilitation loan. The amount of the reduction will be the monthly cost of amortization of the rehabilitation loan. This reduction should result in a new Contract Rent equal to the base rent plus all subsequent adjustments.

(Approved by the Office of Management and Budget under control number 2502-0367)

§ 882.808 Management.

(a) *Outreach to Homeless Individuals and Appropriate Organizations; Waiting Lists—(1) Outreach to Homeless Individuals and Appropriate Organizations.* The PHA shall engage in outreach efforts to make known the availability of this program to homeless individuals in general, or to homeless individuals in the category for which the structure is designed. The PHA shall also ask appropriate organizations to refer homeless individuals to the PHA or to assist the PHA in locating them. Any outreach shall be made in accordance with the PHA's HUD-approved application and Administrative Plan, the Equal Opportunity Housing Plan, and with the HUD guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement, and slogan.

(2) *Additional Outreach Concerns.* If the procedures that the PHA or Owner intends to use to make known the availability of this program are unlikely to reach persons of any particular race, color, religion, sex, age, national origin, or mental or physical handicap who may qualify for admission to the program, the PHA or Owner shall establish additional procedures that will ensure that such persons are made aware of the availability of the program. The PHA or Owner shall also adopt and implement procedures to ensure that interested persons can obtain information concerning the existence and location of services and facilities which are accessible to handicapped persons.

(3) *Waiting Lists.* The PHA shall maintain a separate waiting list for all applicants (or each category of applicants) for this program. In establishing waiting lists, the PHA shall first review any of its existing waiting lists for Section 8 Moderate Rehabilitation and Existing Housing (Certificate and Housing Voucher) programs and add the names of any homeless individuals on those lists to the lists for this program, where it is able to identify the individuals on those lists as homeless individuals. (The names of the individuals on the Section 8 Moderate Rehabilitation and Existing Housing lists shall remain on the original lists as well.)

(4) *First Priority for Homeless Individuals.* Homeless individuals on a waiting list shall have a first priority for occupancy of housing rehabilitated under this program.

(b) *Individual Participation—(1) Initial Determination of Individual Eligibility.* Section 882.514(a) shall apply to this program.

(2) *PHA Selection of Individuals for Participation.* Section 882.514(b) shall apply to this program, except that the PHA shall only refer Homeless Individuals.

(3) *Owner Selection of Individuals.* All vacant units under Contract shall be rented to Homeless Individuals referred by the PHA from its waiting lists. However, if the PHA is unable to refer a sufficient number of interested applicants on the waiting lists to the Owner within 30 days of the Owner's notification to the PHA of a vacancy, the Owner may advertise or solicit applications from homeless persons, and refer such persons to the PHA to determine eligibility. Since the Owner is responsible for tenant selection, the Owner may refuse any individual, provided that the Owner does not unlawfully discriminate. Should the Owner reject an individual, and should the individual believe that the Owner's rejection was the result of unlawful discrimination, the individual may request the assistance of the PHA in resolving the issue and may also file a complaint with HUD's Office of Fair Housing and Equal Opportunity. If the individual requests the assistance of the PHA and if the PHA cannot resolve the complaint promptly, the PHA should advise the individual that he or she may file a complaint with HUD, and provide the individual with the address of the nearest HUD Office of Fair Housing and Equal Opportunity.

(4) *Leasing to Non-Homeless Individuals.* When neither the PHA nor the Owner can find a sufficient number of interested applicants who are Homeless Individuals, the Owner may rent to non-homeless Eligible Individuals, in accordance with §§ 882.514 (a) through (c).

(5) *Briefing of Individuals.* Section 882.514(d) shall apply to this program, except that paragraph (d)(1)(vi) shall not apply.

(6) *Continued Participation of Individual When Contract Is Terminated.* Section 882.514(e) shall apply to this program, except that the PHA may issue a Housing Voucher instead of a Certificate.

(7) *Individuals Determined by the PHA to Be Ineligible.* Section 882.514(f) shall apply to this program. In addition, individuals are not precluded from exercising other rights if they believe they have been discriminated against on the basis of age.

(c) *Lease—(1) Contents of Lease.* Section 882.504(j) shall apply to this program. In addition, the Lease shall limit occupancy to one Eligible Individual.

(2) *Term of Lease.* Section 882.403(d) shall apply to this program.

(d) *Security and Utility Deposits.* Section 882.112 shall apply to this program.

(e) *Rent Adjustments.* Section 882.410 shall apply to this program.

(f) *Payments for Vacancies.* Section 882.411 shall apply to this program.

(g) *Subcontracting of Owner Services.* Section 882.412 shall apply to this program.

(h) *Responsibility of the Individual.* Section 882.413 shall apply to this program.

(i) *Reexamination of Individual Income—(1) Regular Reexaminations.* The PHA shall reexamine the income of all Individuals at least once every 12 months. After consultation with the Individual and upon verification of the information, the PHA shall make appropriate adjustments in the Total Tenant Payment in accordance with 24 CFR part 813, and verify that only one individual is occupying the unit. The PHA shall adjust Tenant Rent and the Housing Assistance Payment to reflect any change in Total Tenant Payment.

(2) *Interim Reexaminations.* The individual shall supply such certification, release, information, or documentation as the PHA or HUD determines to be necessary, including submissions required for interim reexaminations of Individual income and determinations as to whether only one person is occupying the unit. In addition, the second and third sentences of § 882.515(b) shall apply.

(3) *Continuation of Housing Assistance Payments.* Section 882.515(c) shall apply to this program.

(j) *Overcrowded Units.* If the PHA determines that anyone other than, or in addition to, the Eligible Individual is occupying an SRO unit assisted under this program, the PHA shall take all necessary action, as soon as reasonably feasible, to ensure that the unit is occupied by only one Eligible Individual. Such action may include assisting the occupants of the unit in locating other housing, and requiring the occupants who do not have a right to occupy the unit under the Lease to move to other housing.

(k) *Adjustment of Utility Allowance.* Section 882.510 shall apply to this program.

(l) *Termination of Tenancy.* Section 882.511 shall apply to this program.

(m) *Reduction of Number of Units Covered by Contract.* Section 882.512 shall apply to this program.

(n) *Maintenance, Operation, and Inspections.* Section 882.516 shall apply to this program.

(o) *HUD Review of Contract Compliance.* Section 882.217 shall apply to this program.

(Approved by the Office of Management and Budget under control number 2502-0367)

§ 882.809 Waivers.

Section 812.3 shall not apply to this program.

Dated: October 31, 1989.

Peter H. Monroe,

Acting General Deputy, Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

LIST OF PUBLIC LAWS

Last List November 3, 1989
This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030)

H.R. 2989 / Pub. L. 101–136
Treasury, Postal Service and General Government Appropriations Act, 1990. (Nov. 3, 1989; 103 Stat. 783; 41 pages) Price: $1.25

H.R. 3281 / Pub. L. 101–137
To reauthorize the National Flood Insurance Program, the Federal Crime Insurance Program, and the Defense Production Act of 1950, to extend certain housing programs, and for other purposes. (Nov. 3, 1989; 103 Stat. 824; 3 pages) Price: $1.00

S.J. Res. 86 / Pub. L. 101–138
Designating November 17, 1989, as "National

Philanthropy Day". (Nov. 3, 1989; 103 Stat. 827; 1 page) Price: $1.00

S.J. Res. 120 / Pub. L. 101–139
To designate the period commencing November 12, 1989, and ending November 18, 1989, as "Geography Awareness Week". (Nov. 3, 1989; 103 Stat. 828; 2 pages) Price: $1.00

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 54 FR 12345.

THE FEDERAL REGISTER

WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

SAN FRANCISCO, CA

WHEN: November 29; at 9:00 a.m.
WHERE: Room 15138,
450 Golden Gate Avenue,
San Francisco, CA.
RESERVATIONS: Call Mary Walters at the San Francisco Federal Information Center,
415-556-6800.

SEATTLE, WA

WHEN: November 30; at 1:00 p.m.
WHERE: South Auditorium, 4th Floor,
915 2nd Avenue,
Seattle, WA.
RESERVATIONS: Call Carmen Meler or Peggy Groff at the Portland Federal Information Center on the following numbers:
Seattle: 206-442-0570,
Tacoma: 206-383-7970,
Portland: 503-326-2222.

WASHINGTON, DC

WHEN: December 7, at 9:00 a.m.
WHERE: Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC.
RESERVATIONS: 202-523-5240.

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 911

[Docket No. FV-89-046FR]

Limes Grown in Florida; Changes in Grade Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule tightens current minimum grade requirements for Florida grown seedless limes and imported seedless limes. Currently, such limes must contain at least 60 percent U.S. No. 1 quality fruit, and the remainder must be U.S. No. 2 quality during the period February 1 through May 31 each season. Shipments and imports during the period June 1 through January 31 each season must contain at least 75 percent U.S. No. 1 quality fruit and the remainder must be at least U.S. No. 2 quality. The change increases the minimum amount of U.S. No. 1 grade fruit required in shipments of Florida grown and imported limes from 60 to 75 percent during the period February 1 through May 31, thus making the 75 percent requirement effective on a year around basis. This action provides fresh markets with higher quality limes, and is designed to increase sales and promote orderly marketing conditions in the interest of both growers and consumers.

EFFECTIVE DATE: December 8, 1989.

FOR FURTHER INFORMATION CONTACT: Gary D. Rasmussen, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone (202) 475–3918.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Marketing Order No. 911, both as amended (7 CFR part 911), regulating the handling of limes grown in Florida. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1, and has been determined to be a "non-major" rule under the criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act and rules issued thereunder are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are about 26 handlers of Florida limes subject to regulation under the marketing order for limes grown in Florida and about 20 importers who import limes into the United States. In addition, there are about 260 lime growers in Florida. Small agricultural growers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $500,000, and agricultural services firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of the handlers, importers, and growers may be classified as small entities.

A proposed rule regarding tightening the grade requirements for Florida and imported seedless limes was issued on July 6, 1989 and published in the Federal Register (54 FR 29338, July 12, 1989). That rule provided that interested persons could file written comments through September 11, 1989. No comments were received.

Section 911.344 (7 CFR 911.344) of the rules and regulations under the marketing order specifies continuous minimum grade and size requirements for fresh shipments of all varieties of fresh limes grown in Florida. Two different groups of limes are grown in Florida, and different grade regulations apply to each group. One group is known as seeded or true limes, which are referred to as Mexican, West Indian, and Key limes. The other group is known as seedless, large-fruited, or Persian limes and includes the Tahiti, Bearss, and similar varieties.

This final rule applies to the group known as seedless, large-fruited, or Persian limes and tightens minimum grade requirements for such limes. Currently, seedless limes must grade at least U.S. Combination, Mixed Color, except for stem length, during the period February 1 through May 31 each season. Under the U.S. Combination grade at least 60 percent, by count, of the limes must be U.S. No. 1 quality fruit, and the remainder must be at least U.S. No. 2 quality. However, the current grade regulation increases the minimum amount of U.S. No. 1 quality fruit required to 75 percent during the period June 1 through January 31 each season. This change increases the minimum amount of U.S. No. 1 grade fruit required in shipments of Florida grown and imported limes from 60 to 75 percent during the period February 1 through May 31, thus making the 75 percent requirement effective on a year around basis.

The current minimum grade requirements for fresh Florida limes have been in effect on a continuous basis for several seasons. These grade requirements are designed to ensure that all fresh lime shipments are of good quality, thereby providing consumer satisfaction essential for the successful marketing of the crop. These grade requirements are intended to improve buyer confidence and increase consumption of limes, while continuing to provide the trade and consumers with an adequate supply of quality limes. Florida lime growers and handlers have found such requirements beneficial in the successful marketing of their lime crops in the past. Recent marketing research studies indicate that consumers prefer higher quality seedless limes. Moreover, a recent Department inspection data study indicates that handlers' lime shipments are currently averaging well above 75 percent U.S. No. 1 grade fruit even though only 60 percent is required. The application of

tighter grade requirements for the entire season is intended to ensure that fresh markets are provided with higher quality fruit which consumers prefer on

§ 911.344. In addition, this action amends paragraph (b) of § 911.344 to update language pertaining to the United States Standards for Grades of Persian

For the reasons set forth in the preamble, 7 CFR part 911 is amended as follows:

7 CFR Parts 932 and 944

[Docket No. FV-89-067FR]

Olives Grown in California and

Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

This action allows handlers to market more olives than would be permitted in the absence of this relaxation in size requirements. This opportunity to

VOL 54 ISS 215 NO 8 1989 UMI

tighter grade requirements for the entire season is intended to ensure that fresh markets are provided with higher quality fruit which consumers prefer on a year around basis. Providing fresh markets with the quality of fruit desired is an important aspect of creating consumer satisfaction and increasing sales opportunities. Ample supplies of higher quality limes are available to meet consumer demand.

Fresh Florida lime shipments are projected at 1,500,000 bushels (55 pounds net weight) for the 1989–90 season, compared with fresh shipments of 1,492,893 bushels in 1988–89, 1,352,780 bushels in 1987–88, and 1,334,997 bushels in 1986–87. Florida limes are harvested and shipped to market every month of the year, beginning with new season shipments in April and with peak shipments during the May through October period. Florida limes compete in the marketplace primarily with Mexican grown limes imported into the United States, with such imports estimated at 2,016,775 bushels for 1989–90. California fresh lime shipments are estimated at 232,560 bushels for the 1988–89 season crop.

The tighter grade requirements for Florida limes were unanimously recommended by the Florida Lime Administrative Committee (committee) at its meeting of April 12, 1989. The committee works with the Department in administering the marketing agreement and order program. The committee meets prior to and during each season to consider recommendations for modification, suspension, or termination of the regulatory requirements for Florida limes. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department reviews committee recommendations and information submitted by the committee and other available information, and determines whether modification, suspension, or termination of the regulatory requirements would tend to effectuate the declared policy of the Act.

Some Florida lime shipments are exempt from grade requirements. Handlers may ship up to 55 pounds of limes during any one day under a minimum quantity exemption and may make gift shipments in individually addressed containers of up to 20 pounds of limes each. Also, limes utilized in commercial processing are not covered by the grade requirements.

This action also changes the section heading for the purpose of clarity and deletes unnecessary language from the introductory text of paragraph (a) of § 911.344. In addition, this action amends paragraph (b) of § 911.344 to update language pertaining to the United States Standards for Grades of Persian (Tahiti) Limes.

Section 8e of the Act (7 U.S.C. 608e–1) requires that whenever specified commodities, including limes, are regulated under a Federal marketing order, imports of that commodity into the United States must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity.

Lime import grade requirements are specified in § 944.209 (7 CFR 944.209), issued under section 8e of the Act. Section 944.209 provides that fresh limes imported into the United States must meet the same minimum grade and size requirements specified in § 911.344 for limes grown in Florida. Since this action changes the grade requirements for Florida grown limes, the same changes also apply to imported limes. However, no change to the text of § 944.209 is needed by this action. An exemption provision in the lime import regulation permits persons to import up to 55 pounds of limes at one time exempt from such import requirements.

This action reflects the Department's appraisal of the need to tighten the grade requirements for fresh seedless limes. The Department's view is that the tighter requirements would not adversely impact lime growers, handlers, and importers. Although compliance with handling requirements affects costs to handlers and importers, these costs will be significantly offset when compared to the potential benefits of assuring the trade and consumers of good quality limes. The application of grade requirements to Florida limes over the past several years have helped to assure shipments of good quality limes to fresh markets. The committee considers that the tighter grade requirements for Florida limes are necessary to improve grower returns.

After consideration of the information and recommendation submitted by the committee, it is found that this action will tend to effectuate the declared policy of the Act.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 7 CFR Part 911

Florida, limes, Marketing agreements and orders.

For the reasons set forth in the preamble, 7 CFR part 911 is amended as follows:

PART 911—LIMES GROWN IN FLORIDA

1. The authority citation for 7 CFR part 911 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 911.344 is amended by revising the section heading, the introductory text in paragraph (a), and paragraphs (a)(2) and (b) to read as follows:

Note: This section will appear in the Code of Federal Regulations.

§ 911.344 Florida lime grade and size regulation.

(a) No handler shall handle any variety of limes grown in the production area unless:

* * * * *

(2) Such limes of the group known as seedless, large-fruited, or Persian limes (including Tahiti, Bearss, and similar varieties) grade at least U.S. Combination, Mixed Color: *Provided,* That at least 75 percent, by count, of the limes in the lot meet the requirements of the U.S. No. 1 grade, and the remainder meet the requirements of the U.S. No. 2 grade; *Provided further,* That stem length shall not be considered a factor of grade; *Provided further,* That such limes not meeting these requirements may be handled within the production area, if they meet the minimum juice content requirement of at least 42 percent by volume specified in the United States Standards for Grades of Persian (Tahiti) Limes, if they meet the minimum size requirements specified in paragraph (a)(3) of this section, and if they are handled in containers other than those authorized in § 911.329.

* * * * *

(b) Terms relating to grade and diameter shall mean the same as defined in the United States Standards for Grades of Persian (Tahiti) Limes (7 CFR 51.1000 through 51.1016).

* * * * *

[Docket No. FV–89–067FR]

Olives Grown in California and Imported Olives; Establishment of Grade and Size Requirements for the 1989–90 Season, and Conforming Changes in the Olive Import Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department is adopting as a final rule the provisions of an interim final rule which established grade and size requirements for California processed olives used in the production of limited use styles of olives such as wedges, halves, slices, or segments and established similar requirements in the olive import regulation to bring that regulation into conformity with the domestic requirements. The grade and size requirements are the same as implemented last season. Olives used in limited use styles are too small to be desirable for use as whole or pitted canned olives because their flesh-to-pit ratio is too low. However, they are satisfactory for use in the production of limited use styles. Their use in such products over the years has helped the California olive industry meet the increasing market needs of the food service industry. The requirements for domestic olives were unanimously recommended by the California Olive Committee (committee), which works with the Department in administering the marketing order program for olives grown in California. The establishment of such requirements for imported olives is required pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937.

EFFECTIVE DATE: November 8, 1989.

FOR FURTHER INFORMATION CONTACT: Patrick Packnett, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2530–S, Washington, DC 20090–6456; telephone (202) 475–3862.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Order No. 932 (7 CFR part 932), as amended, regulating the handling of olives grown in California, hereinafter referred to as the order. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are seven handlers of California olives subject to regulation under the order and approximately 1,400 olive producers in California. Approximately 25 importers of olives are subject to the olive import regulation. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having average annual gross revenues for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. Most but not all of the olive producers and importers may be classified as small entities. None of the olive handlers may be classified as small entities.

Nearly all of the olives grown in the United States are produced in California. The growing areas are scattered throughout California with most of the commercial production coming from inland valleys. About 75 percent of the production comes from the San Joaquin Valley and 25 percent from the Sacramento Valley.

Olive production has fluctuated from a low of 24,200 tons during the 1972–73 crop year to a high of 146,500 tons during the 1982–83 crop year. The committee indicated that 1988 production totalled about 84,600 tons. The various varieties of olives produced in California have alternate bearing tendencies with high production one year and low the next. The industry expects the 1989–90 crop to be about 97,500 tons.

The primary use of California olives is for canned ripe olives which are eaten out of hand as hors d'oeuvres or used as an ingredient in cooking and in salads. The canned ripe olive market is essentially a domestic market. Very few California olives are exported.

This action allows handlers to market more olives than would be permitted in the absence of this relaxation in size requirements. This opportunity to handle smaller olives should increase the use of the California olive supply, facilitate market expansion, and benefit growers, handlers, and imports.

The interim rule was issued August 30, 1989, and was published in the **Federal Register** on September 6, 1989 (54 FR 36958). That rule invited interested persons to submit written comments through October 6, 1989. No comments were received.

The interim rule modified § 932.153 of Subpart-Rules and Regulations (7 CFR 932.108–932.161). The modification established grade and size regulations for 1989–90 crop limited use size olives. The modification was issued pursuant to paragraph (a)(3) of § 932.52 of the order. That rule also made necessary conforming changes in the olive import regulation (Olive Regulation 1; 7 CFR 944.401). The import regulation is issued pursuant to section 8e of the Act. Section 8e provides that whenever grade, size, quality, or maturity provisions are in effect for specified commodities, including olives, under a marketing order, the same or comparable requirements must be imposed on imports of the commodity.

Paragraph (a)(3) of § 932.52 of the marketing order provides that processed olives smaller than the sizes prescribed for whole and pitted styles may be used for limited uses if recommended by the committee and approved by the Secretary. The sizes are specified in terms of minimum weights for individual olives in various size categories. The section further provides for the establishment of size tolerances.

To allow handlers to take advantage of the strong market for halved, segmented, sliced, and chopped canned ripe olives, the committee recommended that grade and size requirements again be established for limited use olives for the 1989–90 crop year [August 1, 1989, through July 31, 1990). The grade requirements are the same as those applied during the 1988–89 crop year, as are the sizes and the size tolerances. Permitting handlers to use small olives in the production of limited use style canned olives will have a positive impact on industry returns. In the absence of this action, the undersized fruit would have to be used for non-canning uses, like oil, for which returns are lower. Except for the changes necessary in the effective date, the provisions, hereinafter set forth in

VOL 54 ISS 215 NO 8 1989 UMI

§ 932.153, are the same as those contained in the interim rule.

Paragraph (b)(12) of § 944.401 of the olive import regulation allows imported bulk olives which do not meet the minimum size requirements for canned whole and pitted ripe olives to be used for limited use styles if they meet specified size requirements. Continuation of the limited use authorization for California olives by this final rule requires that changes be made in paragraph (b)(12) of § 944.401 to keep the import regulation in conformity with the applicable domestic requirements. These conforming changes will benefit importers because they will be able to import small-sized olives meeting applicable grade requirements for limited use during the 1989–90 season which ends July 31, 1990.

Based on available information, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant material presented, the information and recommendations submitted by the committee, and other available information, it is found that the provisions as hereinafter set forth will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is found and determined that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action leaves in effect relaxed requirements currently being applied to California and imported olives under an interim rule; (2) the olive import requirements are mandatory under section 8e of the Act; (3) the interim rule provided a 30-day comment period and no comments received; and (4) no useful purpose would be served by delaying the effective date of this action.

List of Subjects

BILLING CODE 3410–02–M

7 CFR Part 971

[Docket No. FV–89–076]

Lettuce Grown in Lower Rio Grande Valley in South Texas; Amendment to Continuing Handling Regulation to Authorize a New Container

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule authorizes the use of bulk bin containers for shipping South Texas lettuce to shredders under the container regulations of Marketing Order 971. Allowing handlers to ship lettuce in bulk bin containers to shredders should improve returns to producers and handlers of South Texas lettuce.

EFFECTIVE DATE: November 8, 1989.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Johnson, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2525–S, Washington, DC 20090–6456, telephone (202) 447–5331.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 144 and Marketing Order No. 971 (7 CFR part 971), both as amended, regulating the handling of lettuce grown in the Lower Rio Grande Valley in South Texas. The marketing agreement and order are authorized by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 10 handlers of South Texas lettuce subject to regulation under the marketing order, and approximately 20 producers in the production area. The Small Business Administration (13 CFR 121.1) has defined small agricultural producers as those having average annual gross revenue for the last three years of less than $500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers of South Texas lettuce may be classified as small entities.

As of October 4, 1989, estimated South Texas lettuce acreage planted was 2,890 acres compared to 1,629 acres in 1988. Total shipments of South Texas lettuce during the 1988–89 season were approximately 921,000 50-pound cartons. This represented nearly a 25 percent increase over the estimated 738,000 cartons shipped in the 1987–88 season. The majority of the crop was shipped to the fresh markets, with only a small volume (less than 1%) utilized by processors.

The handling requirements for South Texas lettuce are specified in § 971.322 (51 FR 2, January 2, 1986; 54 FR 6182, February 27, 1989). The current requirements for South Texas lettuce specify the inside dimensions of the five cartons that may be used to pack lettuce and the number of heads of lettuce that may be packed in each of those containers. Additionally, inspection is required and packaging lettuce on any Sunday or on Christmas Day is prohibited.

This rule adds the dimensions for bulk bin containers for lettuce shipments to shredders to the list of containers presently permitted under the handling regulation. No pack specifications are included which stipulate the number of heads of lettuce which may be shipped in a bulk bin. This action was unanimously recommended by the South Texas Lettuce Committee (committee), the agency responsible for local administration of the marketing order, at its June 21, 1989, meeting.

Handlers of South Texas lettuce have been using the bulk bin container on a test basis for lettuce shipments to shredders, in accordance with § 971.322(e)(5) of the handling regulation. Last year, the committee authorized the limited use of 1,000 bulk bins for such purpose. These containers have approximate inside dimensions of 46 inches (length) × 38 inches (width) × 36 inches (height). The committee recommended authorizing bulk bin containers meeting these approximate dimensions. The bulk bin container has found general trade acceptance, and the South Texas lettuce industry believes that these shipments are no longer experimental but an integral part of their marketing efforts. Furthermore, the use of such containers for shipping lettuce to shredders could expand their lettuce market and reduce packing costs. The recommended bulk bin container is of a proper size to be palletized.

Last season, in accordance with § 971.322(e), handlers were required to file for experimental container exemptions by applying for a Certificate of Privilege before making lettuce shipments in bulk bin containers to shredders. Handlers also were required to provide reports as requested by the committee. The committee believes that permitting handlers to use the bulk bin containers for lettuce shipments to shredders and eliminating the need to file for experimental container exemptions and related reports would encourage the industry to increase such shipments to shredders. Accordingly, this action reduces the information collection and recordkeeping requirements that are subject to the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35). These requirements have been previously approved by the Office of Management and Budget (OMB) and assigned OMB No. 0581–0085.

Bulk bin containers are typically less expensive to use in packing lettuce than the cartons that are currently authorized for fresh market shipments. The committee believes that authorizing these bulk bin containers will assist the industry in expanding the market for shredded lettuce by reducing costs. Thus, bulk bin containers will be authorized for use by handlers making lettuce shipments to shredders only. In addition, the handling regulation is being amended to specify that the pack requirement is not applicable to bulk bin container shipments of lettuce destined to shredders.

The committee believes there is a sizable market for shredded lettuce, and allowing handlers to use bulk bin containers for such shipments will provide that market segment with the supply of lettuce it desires. This action should have a positive effect on lettuce shipments which would benefit both producers and handlers.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

Notice of this action was given in the September 8, 1989, **Federal Register** (54 FR 37337) providing interested persons until October 10, 1989, to file written comments. No comments were received.

After consideration of all relevant matter presented including the information and recommendations submitted by the committee, and other available information, it is hereby found that the rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because shipping season for South Texas lettuce is about to begin and this rule, in order to be of maximum benefit to producers and handlers, should apply to as many shipments as possible.

List of Subjects in 7 CFR Part 971

Lettuce, Marketing agreements and orders, South Texas.

For the reasons set forth in the preamble, 7 CFR part 971 is amended as follows:

PART 971—LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

1. The authority citation for 7 CFR part 971 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 971.322 is amended by redesignating paragraph (a)(6) as (a)(7) and adding new paragraphs (a)(6) and (b)(4) to read as follows:

Note: This section will appear in the annual Code of Federal Regulations.

§ 971.322 Handling regulation.

BILLING CODE 3410–02–M

Farmers Home Administration

7 CFR Parts 1944 and 1951

Interest, Penalties, and Administrative Costs

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulations to provide for assessing individual borrowers a fee when the Agency must process an uncollectible item. This action is taken to implement an Office of Management and Budget (OMB) Circular A–129 requirement that agencies assess interest, penalties, and administrative costs. The effect of this action will be to compensate the Agency for the cost of processing an uncollectible item.

EFFECTIVE DATE: December 8, 1989.

FOR FURTHER INFORMATION CONTACT: William J. French, Financial and Management Analysis Staff, Farmers Home Administration, USDA, Room 6434, South Agriculture Building, 14th Street and Independence Avenue, SW., Washington, DC 20250. Telephone (202) 475–4741.

SUPPLEMENTARY INFORMATION:

Classification

This action has been reviewed under USDA procedures established in Departmental Regulation 1512–1, which implements Executive Order 12291, and has been determined to be nonmajor, because there will not be an annual effect on the economy of $100 million or more; a major increase in cost or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based

VOL 54 ISS 215 NO 8 1989 UMI

enterprises to compete with foreign-based enterprises in domestic or export markets.

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G "Environmental Program." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment, and, in accordance with the National Environmental Policy Act of 1969, Public Law 91-190, an Environmental Impact Statement is not required.

Regulatory Flexibility Act

The Administrator, Farmers Home Administration, USDA, has determined that this action will not have a significant economic impact on a substantial number of small entities because it only deals with the assessment of a fee on individual borrowers allowing the Government to capture its cost of processing uncollectible items.

Intergovernmental Consultation

This activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Programs Affected

These changes affect the following FmHA programs as listed in the Catalog of Federal Domestic Assistance:

10.404 Emergency Loans
10.406 Farm Operating Loans
10.407 Farm Ownership Loans
10.410 Low-Income Housing Loans
10.416 Soil and Water Loans
10.417 Very Low-Income Housing Repair Loans and Grants
10.428 Economic Emergency Loans

Discussion

The Farmers Home Administration is required by OMB Circular A-129 to assess interest, penalties, and administrative costs on delinquent accounts in accordance with the Debt Collection Act of 1982. The Agency has not passed the cost of processing uncollectible items on to the borrower in the past, however, it has been determined that it is not fiscally responsible for the Agency to continue to absorb these losses. A proposed rule was published in the **Federal Register** (54 FR 3610) on January 25, 1989. The proposed rule provided for a 60-day comment period which ended on March 27, 1989. Two comments were received during the comment period, one favorable and one unfavorable. One commenter suggested that charging a fee for an uncollectible item would be inconsistent with the Agency goal of assisting low and very low income borrowers. We do not feel that implementing a charge which only compensates the Agency for its costs of processing the item is inconsistent with the Agency mission and, therefore, we cannot adopt the suggestion. This charge will only cover our costs of processing the item. We, therefore, are implementing regulations to charge a fee to individual borrowers for each uncollectible item. The fee is currently $7.00. Future changes to the fee will be based on studies of the actual cost to the Agency for processing these items. Future changes to this fee will not be published in the **Federal Register** but will be available from any FmHA office.

List of Subjects

7 CFR Part 1944

Home improvement, Housing and community development, Low and moderate income housing, Mobile homes, Mortgages, Rural housing and subsidies.

7 CFR Part 1951

Account servicing, Accounting, Collection of loan payments & depositing payments through the Concentration Banking System (CBS), Financial institutions, Credit, Loan programs—Agriculture, Loan programs—Housing and community development, Low and moderate income housing loans—Servicing.

Therefore, chapter XVIII of title 7, Code of Federal Regulations, is amended as follows:

PART 1944—HOUSING

1. The authority citation for part 1944 continues to read as follows:

Authority: 42 U.S.C. 1480, 5 U.S.C. 301, 7 CFR 2.23, 7 CFR 2.70.

Subpart A—Section 502 Rural Housing Loan Policies, Procedures, and Authorizations

2. Exhibit D to subpart A is amended by revising item 12 to read as follows:

Exhibit D of Subpart A—Rural Housing Applicant Interview

* * * * *

12. *Monthly Payments:* Regular payments must be made on or before the due date. Normally, payments will be applied first to unpaid interest and the balance to principal. If a noninterest accruing administrative cost, such as a charge for an uncollectible check, has been charged to the borrower's account, payments will be applied to the outstanding administrative cost first. (The amounts of any such administrative charges are available from any FmHA office.) If for any reason a payment cannot be made on time, the borrower should immediately contact the local County Office.

* * * * *

PART 1951—SERVICING AND COLLECTIONS

3. The authority citation for part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989, 42 U.S.C. 1480, 5 U.S.C. 301, 7 CFR 2.23, 7 CFR 2.70.

Subpart A—Account Servicing Policies

4. Section 1951.6 is amended by revising paragraph (e)(4) to read as follows:

§ 1951.6 Handling payments.

* * * * *

(e) * * *

(4) If an uncollectible item is received, the Finance Office will reverse the amount from the borrower's account. The uncollectible item with a transmittal memorandum will be sent to the County Office. The County Office will return the uncollectible check to the borrower after it is fully redeemed. The borrower will make payment by sending a new check and a new payment coupon to the Finance Office. There will also be a noninterest accruing administrative cost charged to the borrower's account for uncollectible items due to insufficient funds. (The amounts of any such administrative charges are available from any FmHA office.) Therefore, the borrower's payment for the uncollectible item should be for the regular payment amount plus the administrative cost.

* * * * *

5. Section 1951.10 is amended by revising the introductory text to read as follows:

§ 1951.10 Application of payments on production-type loan accounts.

Employees receiving payments on OL, EO, SW codes "24," EM for subtitle B purposes, EE operating-type, and other production-type loan accounts will select, in accordance with the provisions of this section, the account(s) to which such payment will be applied. All payments on OL and EM loans approved on or before December 31, 1971, will be credited first to any administrative costs, then to noncapitalized interest, then to the amount of accrued deferred interest, and then to principal. All payments on all other loans including OL and EM loans approved after December 31, 1971, will be credited first to any administrative costs, then to noncapitalized interest, then to the amount of accrued deferred

interest, then to interest accrued to the date of the payment and then to principal, in accordance with the terms of the note. This section only applies after the County Supervisor determines the amount of proceeds that will be released for other purposes in accordance with the annual plan (Form FmHA 431-2) and Form FmHA 1962-1.

* * * * *

6. In § 1951.11, current paragraphs (d)(1)(i) and (d)(1)(ii) are redesignated as paragraphs (d)(1)(ii) and (d)(1)(iii), respectively, and a new paragraph (d)(1)(i) is added to read as follows:

§ 1951.11 Application of payments on real estate accounts.

* * * * *

(d) *Finance Office handling.*

(1) * * *

(i) Payments will be applied first to satisfy any administrative costs such as a charge for an uncollectible check. (The amounts of any such charges are available from any FmHA office.)

* * * * *

Subpart G—Borrower Supervision, Servicing and Collection of Single Family Housing Loan Accounts

7. In § 1951.309, current paragraphs (b)(1)(i), (b)(1)(ii), (b)(1)(iii) and (b)(1)(iv) are redesignated as paragraphs (b)(1)(ii), (b)(1)(iii), (b)(1)(iv) and (b)(1)(v), respectively, a new paragraph (b)(1)(i) is added, and paragraph (b)(3) is revised to read as follows:

§ 1951.309 Receiving and applying payments.

* * * * *

(b) * * *

(1) * * *

(i) Administrative costs, such as a charge for an uncollectible check. (The amounts of any such administrative costs are available from any FmHA office.)

* * * * *

(3) *Extra payments and refunds.* Extra payments and refunds will be credited to the borrower's note account(s) as of the date of the Form FmHA 451-2, "Schedule of Remittances" and will be applied as prescribed in paragraph (b)(1) of this section, except that refunds will not be applied to administrative costs. Extra payments and refunds do not relieve borrowers from making their next scheduled payment.

Dated: September 7, 1989.

Neal Sox Johnson,

Acting Administrator, Farmers Home Administration.

Office of Thrift Supervision

12 CFR Parts 561, 563, and 567

[No. 89-340]

Regulatory Capital

Date: October 27, 1989.

AGENCY: Office of Thrift Supervision, Department of the Treasury.

ACTION: Interim final rule.

SUMMARY: The Office of Thrift Supervision is today publishing minimum regulatory capital regulations for savings associations as required by section 5(t) of the Home Owners' Loan Act of 1933, 12 U.S.C. 1464(t). This rule includes requirements for minimum levels of tangible, core, and total capital for all savings associations. These capital regulations are another step in the process of establishing the minimum capital requirements for savings associations in order to promote the long-term health of both individual thrift institutions and the thrift industry as a whole.

EFFECTIVE DATE: December 7, 1989.

FOR FURTHER INFORMATION CONTACT: Robert Fishman, Senior Policy Analyst, (202) 331-4592, Joe Hargett, Professional Accounting Fellow, (202) 331-4583, John Robinson, Deputy Director, Supervisory Analysis, (202) 331-4587, Supervision Policy; Carol Wambeke, Financial Economist, (202) 906-6758, Deborah Kennedy, Financial Economist, (202) 906-7298, Office of the Chief Economist; Theresa A. B. Components of Capital.
1. Core capital.
a. Deductions from core capital.
b. Deductions from core and tangible capital.
2. Supplementary capital.
a. Transition rules of maturing capital instruments.
b. General valuation loan and lease loss allowances.
c. Other items included as components of capital in the 12/88 proposal.
3. Deductions from total capital.
C. Credit risk weightings.
1. On-balance sheet assets.
2. Off-balance sheet items.
D. Leverage ratio and tangible capital requirements.
E. Transition and effective date.
1. Risk-based capital standards.
2. Other phase-out rules.
a. Goodwill.
b. Investments in subsidiaries.
F. Consequences of failure.
G. Reservations of authority.
H. Comparison with OCC final risk-based capital guidelines.

I. Introduction and Background

The Office of Thrift Supervision (the "Office") is today, pursuant to the requirement of section 5(t) of the Home Owners' Loan Act, 12 U.S.C. 1464(t), promulgating uniformly applicable capital regulations for savings associations. These capital regulations are another step in the process of establishing the minimum capital requirements for savings associations in order to promote the long-term health of both individual thrift institutions and the thrift industry as a whole. The Office expects that savings associations will strive to attain and maintain levels of capital in excess of these requirements.

VOL 54 ISS 215 NO 8 1989 UMI

Adequate capital is essential to the safe and sound operation of a savings association. It ensures that the owners, managers, and subordinated lenders of a savings association have a significant incentive to avoid loss as well as maximize gains. It is especially important that levels of capital be related to the risk of the activities in which a savings association engages. Linking the amount of an association's capital requirement to the overall riskiness of its assets is a more accurate method of ensuring that the association can afford to cover losses that may arise from such activities without becoming insolvent. This risk-based approach has been adopted by the federal banking regulators and is consistent with the international framework for capital standards established by the Basle Committee on Banking Supervision (commonly referred to as the "Basle Supervisors Committee") in July, 1988.

Activities that potentially have higher returns generally have such potential because of their higher risk of loss. Because higher risk/return activities can exhaust a savings association's capital faster than lower risk/return activities, savings associations engaging in higher risk activities should hold more capital to protect the federal deposit insurance fund and to provide appropriate incentives for prudent management. Likewise, institutions that engage in lower risk activities do not need as large a capital cushion and should be permitted to operate with a lower minimum capital requirement, consistent with protection of the insurance fund and the long-term safety of the thrift industry and the individual savings association.

The Office believes that savings associations operating with adequate capital have more incentive and are better positioned to evaluate the potential risks and rewards inherent in various activities. Thus, an association operating with more than minimum amounts of capital may be permitted a wider range of activities without as much direct regulatory restriction, subject only to supervisory review.

A. 12/88 Proposal

On December 15, 1988, the Federal Home Loan Bank Board ("Bank Board" or "Board") issued a risk-based capital proposal ("12/88 proposal"), which it promulgated for a ninety-day public comment period. Board Res. No. 88-1342, 53 FR 51800 (Dec. 23, 1988). The Bank Board held public hearings on this proposal on February 9 and 10, 1989. The Office reopened the comment period on this proposal from September 12, 1989, to September 22, 1989, in order to allow additional public comment on the effect of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, Public Law No. 101-73, 103 Stat. 183, ("FIRREA"), on this proposal. 54 FR 37944 (Sept. 14, 1989).

The Bank Board had also adopted two advance notices of proposed rulemaking on capital-related issues: (1) A standard for early regulatory intervention that would allow appointment of a conservator or receiver when a thrift institution is operating with substantially insufficient capital, 54 FR 826 (Dec. 30, 1988); and (2) an interest-rate risk component as part of a risk-based capital regulation, 54 FR 27885 (July 3, 1989). The Bank Board did not issue notices of proposed rulemaking on either issue. The Office believes both rulemakings should proceed. Thus, notices of proposed rulemaking on these issues will be published in the near future. Any changes adopted as a result of these or other related rulemakings will be incorporated into final capital regulations.

The 12/88 proposal was based in large part upon the joint notice of proposed guidelines published in March, 1988, by the Federal Reserve Board ("FRB"), the Office of the Comptroller of the Currency ("OCC"), and the Federal Deposit Insurance Corporation ("FDIC") (Collectively, "banking regulators" or "banking agencies") ("Joint Notice"), 53 FR 8550 (March 15, 1988) as supplemented by the final action of the Basle Supervisors Committee in July 1988 and indications in August 1988 of the way in which the banking agencies would resolve certain issues raised by the Joint Notice.

The 12/88 proposal would require savings associations to maintain capital against two risks: (1) Credit risk (which is primarily the risk that a debtor may default, causing a decline in value or loss on an investment); and (2) interest-rate risk (which is primarily the risk that changes in interest rates may cause the value of a thrift's asset and liability portfolio to decline). In addition, the proposal included a collateralized borrowings component designed to help protect the insurance fund against uncompensated risk that occurs because insurance premiums are levied against insured deposits rather than assets or total liabilities.

The Bank Board proposed that savings associations maintain capital in the amount of: (1) No less than 6% of risk-weighted assets (including both on- and off-balance sheet items) as protection against credit risk; (2) 50% of the change in the market value of the thrift's portfolio equity as a result of a two-hundred basis point shift in interest rates; and (3) 3% of collateralized borrowings. This capital requirement could only be satisfied by items falling within the definition of "regulatory capital." As proposed, regulatory capital consisted of core equity capital, primarily capital as defined by generally accepted accounting principles ("GAAP"), and supplementary capital, which contained certain other items that the Bank Board also believed would provide protection against risk or were required by statute or prior regulation to be included. The 12/88 proposal required that a thrift use "core equity capital" to satisfy at least one-half of its capital requirement. In addition to this risk-based capital requirement, the proposal set for savings associations a leverage ratio requirement; the leverage ratio of 2% of core equity capital to total assets.

B. FIRREA

On August 9, 1989, the FIRREA was enacted. It established the Office as the primary federal banking regulator for all savings associations and savings and loan holding companies. It abolished the Bank Board effective 60 days after the statute's enactment. Section 401(h) of the FIRREA provided that orders, resolutions, determinations, and regulations of the Bank Board in effect on the date of FIRREA's enactment were to remain in effect until modified, terminated, set aside, or superseded in accordance with applicable law by the appropriate successor agency. The Bank Board's notice of proposed rulemaking on regulatory capital is such a resolution and the Office has succeeded to that notice.

Section 301 of the FIRREA amended the Home Owners' Loan Act of 1933 ("HOLA"), by adding a new section 5(t), 12 U.S.C. 1464(t),[1] requiring the Office to promulgate, by November 7, 1989, regulations prescribing uniformly applicable capital standards for all savings associations. These regulations must be effective by December 7, 1989. Section 5(t) contains a number of provisions affecting the content of these capital standards, establishes transition rules for certain provisions, and sets forth certain consequences of failure to meet these standards. Most of these provisions are discussed in greater detail below in parts I.C., II, and III.

New section 5(t) requires the Office to establish uniform capital standards that require savings associations to satisfy

[1] Hereafter, the statutory capital provisions will be cited by reference to the appropriate sections of the HOLA.

three separate tests: A risk-based capital standard, a leverage ratio standard, and a tangible capital standard. Section 5(t)(1)(A). All three standards must be no less stringent than the capital standards applicable to national banks. Section 5(t)(1)(C). The risk-based capital standard, however, may deviate from the national bank risk-based capital standards "to reflect interest-rate risk or other risks, but such deviations shall not, in the aggregate, result in materially lower levels of capital being required of savings associations" than would be required under the OCC standards. Section 5(t)(2)(C).

The statute requires the Office to use the same relevant substantive definitions as the OCC in these capital standards, with certain exceptions where the statute itself defines terms. Section 5(t) (9), (10). The statute contains specific provisions mandating the regulatory treatment of qualifying supervisory goodwill (section 5(t)(3)), purchased mortgage servicing rights (section 5(t)(4)), and subsidiaries of savings associations (section 5(t)(5)), including certain transition provisions. The statute also sets forth certain consequences of failure to meet these capital standards and allows savings associations to apply for exceptions and exemptions from some of these consequences. Section 5(t) (6), (7), (8).

C. Outline of regulation

1. Structure of Capital Regulations

The Office has reorganized and relocated its capital regulations, which appeared at §§ 561.13, 563.13, 563.14, 563.14-1, and 563.47 at the time of the 12/88 proposal, into a new part 567. It believes this new structure will make it easier for those applying or subject to these capital regulations to determine and understand their content.

New § 567.1 contains definitions of terms used in the capital standards and is derived from § 563.13(b) of the 12/88 proposal, section 5(t) of the HOLA, and 12 CFR part 3, appendix A, section 1(c). New § 567.2 sets forth the three-part capital tests that savings associations must satisfy and the transition period to the full phase-in of these standards. It is derived from former 12 CFR 563.13(a) (1988), § 563.13 (c) and (f) of the 12/88 proposal, and section 5(t)(1) of the HOLA. Corresponding sections in the OCC's final guidelines are located in sections 1(a), 1(b), and 4 of 12 CFR part 3, appendix A.

The permissible components of a savings association's capital base, including which items qualify as core capital, which items qualify as supplementary capital, and which items must be deducted in determining the savings association's capital base for purposes of the risk-based and leverage ratio standards are set forth in new § 567.5. This section is derived from § 561.13 of the 12/88 proposal and corresponds to 12 CFR part 3, appendix A, section 2.

The credit risk categories that are used in determining a savings association's risk-weighted assets appear at § 567.6. They have been derived from § 563.13(d) of the 12/88 proposal and section 3 of 12 CFR part 3, appendix A.

Section 567.8 contains the leverage ratio required by section 5(t)(2)(A) of the HOLA. It replaces the leverage ratio proposed at § 563.13(c)(2) of the 12/88 proposal. Section 467.9 sets forth the tangible capital requirement as set forth at section 5(t)(2)(B) of the HOLA and the calculation of the capital base for this requirement.

Section 567.10 contains the statutorily mandated consequences of a savings association's failure to meet any of its regulatory capital requirements. It is derived from section 5(t)(6) of the HOLA and § 563.13(g) of the 12/88 proposal. Section 567.11, which reserves certain authority for the Office, is derived from § 563.13(i) of the 12/88 proposal and 12 CFR 3.4.

2. Derivation of Capital Regulations

This rule contains elements that are specifically mandated by new section 5(t), elements that appeared in the Bank Board's 12/88 proposal, and elements that appeared in the OCC's final capital guidelines of January 27, 1989. The FIRREA capital provisions are the basic, guiding text for the Office's risk-based capital rule. With respect to any capital provisions not directly addressed in the statute itself, FIRREA requires the Office to use the OCC's capital standards as its benchmark for the standards it prescribes. The Bank Board had already taken the OCC's proposed capital guidelines, along with those of the other banking regulators, as its model for the 12/88 proposal. Much of the 12/88 proposal therefore anticipated FIRREA's requirement that thrift capital standards derive, in large measure, form those adopted by the OCC for national banks. Most of the changes form the 12/88 proposal fall into the following categories:

a. *Statutory resolution of an issue.* Section 5(t) of the HOLA requires the deduction of certain items from a savings association's capital base, such as goodwill, certain other intangible assets, and investments in certain subsidiaries. The statute also requires the consolidation of the assets of other subsidiaries in determining the savings association's capital requirements. It also provides that some assets must meet certain characteristics, often tied to the treatment of such assets by other banking regulators, most often the OCC, in order to qualify for special statutory treatment.

b. *Revisions based upon the OCC's treatment of an issue in its final guidelines.* Section 5(t) of the HOLA establishes the OCC's final risk-based capital guidelines as a benchmark for the Office's risk-based capital regulations. These final guidelines reflect certain changes from the Joint Notice. The Office has followed these final guidelines in resolving differences in most areas where the 12/88 proposal differed from the Joint Notice, such as the risk-weighting of Government National Mortgage Association ("GNMA") securities and the components of core capital.

c. *Revisions based upon responses to comments or the Office's experience.* Section 5(t) does not require the Office's risk-based capital regulation to be identical to the OCC's final capital guidelines. It specifically permits the Office to address different risks and to resolve certain issues differently from the OCC, provided that the Office's regulations are materially equivalent to the OCC's final guidelines and, thus, the capital standards applied to the thrift industry are no less stringent "in the aggregate" than those applied to national banks. The FIRREA Conference Report explicitly stated: "Both banking and thrift regulators have devoted considerable effort to the mutual development of risk-based capital standards. These efforts have demonstrated that the initial standards will evolve and be refined over time as the regulators and the regulated institutions gain experience with the appropriate standards applicable to the various investments made by depository institutions." H.R. Rpt. 101-222 (Aug. 4, 1989).

The Office has, therefore, reviewed the 12/88 proposal, the comments received thereon, and the supervisory experience of the Office's predecessor agency in addition to the OCC's final guidelines in addressing certain issues. As a result, it is assigning higher risk weights to some assets (such as loans ninety days past due and repossessed assets) and is assigning lower risk weights to others (such as privately issued mortgage-back securities of investment grade) than the OCC.

The Office believes that all of the issues resolved in this rule have been

adequately aired for public notice and comment as required by the Administrative Procedure Act, 5 U.S.C. 552, through the initial 90-day comment period on the 12/88 proposal (during

A savings association's risk-based capital requirement is calculated based on the credit risk presented by both its on-balance sheet assets and off-balance

adequately aired for public notice and comment as required by the Administrative Procedure Act, 5 U.S.C. 552, through the initial 90-day comment period on the 12/88 proposal (during which two days of public hearings were held) as well as the eight-day reopening of the comment period (during which the Office held another public hearing) after FIRREA was enacted. Because section 5(t)(1) requires the Office to adopt a final capital regulation not later than 90 days after enactment of FIRREA, there was not adequate time to both provide a longer comment period and comply with this statutory deadline. The Office invites additional comments, however, on this rule, and will consider any such comments in determining whether future revisions are appropriate. Additionally, where the regulation indicates that supervisory guidance will be provided to supplement portions of these regulations, the Office welcomes comments on matters that will be addressed in such guidance.

The Office anticipates publishing in the near future two notices of proposed rulemaking—one dealing with the appropriate risk-weighting of residential mortgage-related products and one dealing with interest-rate risk—which it anticipates will result in deviations from the OCC's final guidelines. It anticipates that any such deviations will better address the particular risks most common in thrift portfolios than would the OCC's final capital guidelines, which were crafted to address primarily the risks inherent in national bank portfolios.

3. Substantive Content of Capital Regulation.

The rule published today establishes three standards that a savings association must satisfy in order to meet its capital requirement: A leverage ratio of core capital to adjusted total assets, a tangible capital standard expressed as a percentage of adjusted total assets, and a risk-based capital standard expressed as a percentage of risk-weighted assets. Currently, the risk-based capital standard only addresses the credit risk inherent in the assets in a thrift's portfolio. There are other risks that are inherent in savings associations and their portfolios, even where assets may present little, if any, credit risk, such as operating risk, liquidity risk, and risk of fraud. The leverage and tangible capital requirements are intended to ensure that no matter how free from credit risk a savings association may be, it must maintain a minimum amount of capital measured in terms of its total assets as protection against these risks.

A savings association's risk-based capital requirement is calculated based on the credit risk presented by both its on-balance sheet assets and off-balance sheet commitments and obligations. With certain limited exceptions, the asset base of a savings association is determined on a consolidated basis, *i.e.*, including its subsidiaries. Assets are assigned a credit-risk weighting based upon their relative risk. Risk weights are generally tied to the nature of the underlying obligor.

The risk-weightings range from 0% for assets backed by the full faith and credit of the United States or that pose no credit risk to the savings association to 200% for delinquent or repossessed assets. Certain assets, such as equity investments after a limited phase-out period, are not included in the calculation of either the risk-based assets or the capital base of a savings association. In other words, certain assets require dollar-for-dollar capital backing. The Office recognizes that such treatment may encourage thrifts to put certain assets in a subsidiary where their investment may be levered. The degree of leverage, however, is determined by investors in the subsidiary who can evaluate the risk. The Office believes that it is more appropriate for the market (at the subsidiary level), rather than the regulator (at the parent level), to determine the capital required to back certain risky assets.
